TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: **July 23, 2024, 9:15 a.m.**
Location: **Zoom**
Present: **Kathy Cook, Andrew Dennington, Sam Stivers, Al Hamilton**
Absent: **Marguerite Landry**

Chair Cook called meeting to order at 9:15 a.m. Only agenda item was the approval of spending up to $10,000 from ARPA funds to pay for soil testing around and under the current Neary School. Ms. Cook explained that the $950,000 allotted by the 2022 Town Meeting had all been committed for the feasibility and design work on the school project. Attached is the proposal for the soil work.

Motion made by Mr. Hamilton to approve the spend of up to $10,000 of ARPA funds for the Neary soil testing. Motion seconded by Mr. Stivers. Roll call vote was 4-0 in support.

Ms. Cook also reiterated to the Board the timeline for the vote by the Neary Building Committee to decide on what project to bring forth to Town Meeting.

Mr. Hamilton made a motion to adjourn at 9:26 a.m. Mr. Stivers seconded. Roll call vote 4-0 to adjourn.

Minutes respectfully submitted by:

Kathryn M. Cook

Attachments:

(1) Proposal for soil testing

that was correct. The motion was unanimously approved (5-0-0). Ms. Cook moved to appoint Ms. Lisa Braccio as the at-large member of the Working Group. Mr. Stivers seconded the motion. The motion was approved (4-1-0). Mr. Hamilton voted no. Mr. Hamilton stated that the AHTFC would appoint Mr. Hamilton and Mr. Dennington to the Working Group at its meeting on Friday. He stated that the two members from SHOPC would be Paul Desmond and Doug Manz.

b. Consideration of revised charges for Stewardship and Scholarship Committees

Ms. Cook stated that revised Stewardship Committee charge would be discussed once the Stewardship Committee has reviewed and offered comment. Mr. Stivers moved to approve the charge for the Scholarship Committee included in tonight's packet. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

c. Review of draft warrant for September 30, 2024 Special Town Meeting

The Board discussed the draft warrant for the September 30, 2024 Special Town Meeting. The Board also discussed the ordering of the articles. The Board agreed to leave the draft warrant in its present form and review at its August 6th meeting. Mr. Purple agreed to ask Town Moderator Cimino if he intends to create a Consent Agenda for the Special Town Meeting and report back to the Board. Ms. LaVault suggested the Board consider surveying the Town to obtain public feedback on the ordering of warrant articles.

d. Status report on regional dispatch

Mr. Hamilton stated that there would be meetings by the end of July with area communities to see if there is enough interest in creating a virtual Regional Emergency Communications Center (RECC) to approach the State with the concept. He stated that, if there is not, Mr. Hamilton recommends the Board make a decision on a direction at its August 6th meeting. He suggested that, once a decision is made, the Board should engage the public to share information through a variety of methods (public forum, Town website, Southborough Access Media, etc.). Mr. Hamilton shared that he believes the greatest advantages to the Town would be an increase in public safety and a savings on capital costs. The Board discussed the decision regarding regional dispatch.

VII. Public Comment

Mr. Jim Hegarty, Town Clerk, stated that vote by mail announcements would be sent out next week. He stated there might be issues for residents that chose to have all ballots sent to one location and travel between residences, including students. He directed anyone experiencing any issues to reach out to the Town Clerk's office, as there is a simple process to rectify the matter. He noted that the Post Office couldn't forward ballots. Finally, he also stated that if a resident does not support vote by mail, comments should be directed to the Secretary of State's office.

VIII. Adjournment

Mr. Dennington moved to adjourn at 8:43 PM. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

Upcoming Meetings	
August 6, 2024	*September 4, 2024*

Respectfully submitted,

Bridgid Rubin, Recording Secretary

Re. Proposal for Additional Preliminary Geotechnical Services
Proposed Neary Elementary School
Southborough, Massachusetts
LGCI Proposal No. 24078

Dear Ms. Lillich:

Lahlaf Geotechnical Consulting, Inc. (LGCI) appreciates the opportunity to submit this proposal to provide additional preliminary geotechnical services for the proposed Neary Elementary School in Southborough, Massachusetts. This proposal is based on information you provided to us in your request for proposal (RFP) dated December 26, 2023.

Background, Project Understanding, and Site Description

Neary Elementary School is located at 53 Parkerville Road in Southborough, Massachusetts. The site is bordered by Clifford Street and private properties on the southern side, by Deerfoot Road on the western side, and by Trottier Middle School on the northern side. The site is currently occupied by the existing school building, paved parking lots, and athletic fields, including a baseball field, a soccer field, a practice field, tennis courts, and grass and landscaped areas. A portion of the site is wooded. We understand that an existing leech field is present at the site. We also understand that there is a potential for the presence of a capped landfill within a portion of the site.

LGCI recently completed preliminary explorations at the site and submitted a preliminary geotechnical report dated May 1, 2024. Our preliminary explorations were performed in the grass field northeast of the existing school. We understand that since our geotechnical report was issued, the plans have changes to possibly building the new school in the general area of the existing school after the latter is demolished.

The purpose of the services described in this proposal is to perform additional preliminary subsurface explorations within the possible footprint of the proposed building and to update our geotechnical report.

Technical Approach

At you request we have included in this proposal a scope for performing one day of drilling. We anticipate that in one (1) day the drilling subcontractor would complete up to four (4) soil

borings. Based on the large area of the proposed building that sits outside of the existing building footprint, we recommend at least two (2) days of drilling. We anticipate that in two (2) days the drilling subcontractor would complete eight (8) or nine (9) soil borings.

The borings will be advanced to depths of about 20 feet beneath the ground surface or to refusal, whichever occurs first. If refusal is encountered at depths shallower than 10 feet, a 5-foot rock core will be obtained in one (1) boring. If deeper borings are needed, we would complete fewer borings in one (1) day.

We understand that additional explorations will be performed during the next phases of the project.

Proposed Scope of Work

1. Research Available Data – NA

2. Utility Location – LGCI will provide a field representative to mark the exploration locations in the field by taping the distances from existing landmarks. We will contact Dig Safe Systems, Inc. and the City of Southborough for utility clearance. We request that you provide us with a current plan showing existing utilities at the site. We have assumed that a representative of the city will accompany us when we stake the borings to clear them of private utilities, and we will rely on the city staff to clear the boring locations for private utilities. LGCI will not assume responsibility for damage to unmarked or mismarked underground features.

3. Soil Borings – We will engage a drilling subcontractor to advance the borings described in the Technical Approach above. The drilling subcontractor will perform standard penetration tests (SPT) and will obtain split-spoon samples at 5-foot intervals and at perceived strata changes.

   If we observe an environmental condition in our borings, we will halt the drilling and notify you. Excess soil cuttings will be left onsite. We have assumed that if needed, the city will make available a source of water for the drillers.

3. Geotechnical Field Representative – We will provide a field representative at the site to coordinate and observe the soil borings, collect soil samples, and prepare field logs.

4. Laboratory Testing – We will submit two (2) soil samples from the borings for grain-size analysis or Atterberg Limits. The purpose of the tests is to assess the suitability of reusing the onsite materials as backfill.

5. Preliminary Geotechnical Report – We will update our preliminary report electronically. The report will include the following:
   - Summary of the subsurface investigation methods used;
   - Description of the subsurface conditions;
   - LGCI's boring logs;
   - Depth to refusal, if encountered;
   - Plan showing boring locations;

- Groundwater data;
- Laboratory test results;
- Our opinion about the feasibility of shallow foundations on improved ground;
- Recommendations for ground improvements, if applicable;
- Minimum soil cover for frost protection of footings;
- Recommendations for allowable net bearing pressures for shallow foundations, if needed;
- Seismic design recommendations in accordance with the Massachusetts State Building Code Ninth Edition;
- Recommendations for subgrade preparation and backfill including removal of unsuitable soils, compaction requirements, suitability of reusing onsite materials as backfill, and recommendations for pre-trenching for ground improvements, if needed.

LGCI's scope of services does not include an environmental assessment for the presence or absence of wetlands or analytical testing for hazardous or toxic materials in the soil, surface water, groundwater, or air, on or below or around this site, or mold in the soil or in any structure at the site. Any statements regarding odors, colors, or unusual or suspicious items or conditions are strictly for the information of the client.

Please note that we have not included in this proposal a scope or budget for attending meetings, preparing or reviewing specifications, reviewing drawings, or providing construction services. LGCI would be pleased to perform these services when needed. Recommendations for stormwater management, erosion control, slope stability analyses, seismic settlement, site specific seismic analysis, pavement design, pile analysis and design, and detailed cost or quantity estimates are not included in our scope of work.

Proposed Schedule

Assuming that there are no delays with site access or other factors such as permitting, LGCI will begin scheduling the work upon receiving authorization in the form of a signed copy of this proposal. Our subcontractor can mobilize at the site within about four (4) weeks after the exploration locations are marked and the site is cleared for utilities. LGCI can provide you with preliminary boring logs and preliminary geotechnical recommendations within one (1) week of completing the explorations. We will submit our geotechnical report about three (3) weeks after the end of our explorations. This schedule is contingent upon the area being accessible and there being no snow on the ground if the work takes place in the winter.

Project Fee

LGCI will perform the scope of work described above for a lump sum of **$10,000.00** for one (1) day of drilling including the prevailing wage surcharge for the drillers. The breakdown of our fee is shown below.

	Additional Preliminary Explorations and Preliminary Report	
1	Research Existing Information	NA
2a	Project Setup and Boring Location Plan	$400.00
2b	Mark Borings and Utility Clearance	$950.00
3a	Drilling Subcontractor (M/D+1 day)	$3,140.00
3b	Prevailing Wages for Drillers	$1,210.00

4	Geotech. Field Rep. to Observe Borings	$1,410.00
5	Laboratory Testing	$390.00
6	Boring Logs and Update Prelim. Report	$2,500.00
		$10,000.00*

* Our fee for two (2) days of drilling would be $15,000.

No services beyond those described above would be provided without your prior knowledge and approval. If site conditions or your needs require a change in the scope of work, we will prepare for your approval a change order request that summarizes the changes to the project scope and fee. The fee is based on the following additional conditions:

- We have assumed that our explorations will be performed for full 8-hour shifts during normal working hours, and that only one mobilization of the drilling equipment is required.
- Soil cuttings will be left at the site.
- Authorization to access the site will be provided to us in writing before the start of our work.
- Additional consultation during design and construction will be performed on a time and expenses basis using the following rates: $107/hour for a field representative, $143/hour for a geotechnical engineer, and $150/hour for a senior geotechnical engineer.
- Our costs and fees indicated in this proposal are valid for a period of 6 months from the date of the proposal. Our unit rates will be increased by 4 percent per year after the first 6 months following the date of this proposal.

Terms and Conditions

We propose to perform our work in accordance with LGCI Standard Conditions for Engagement (attached). Your acceptance of this proposal by signing and returning one complete copy will form our agreement for these services and will serve as written authorization to proceed with the described scope of work.

LGCI trusts that the above proposal will be sufficient to meet your needs. If this proposal is acceptable, please sign and return a complete copy of this proposal to LGCI. If you have any questions, please call us at (978) 330-5912.

Sincerely,

LAHLAF GEOTECHNICAL CONSULTING, INC.

Abdelmadjid M. Lahlaf, Ph.D., P.E.
Principal Engineer

Enclosures: LGCI's Standard Conditions for Engagement

Agreed to by (please type name): MARK PURPLE **on (date):** 7-30-2024

Company Name: TOWN OF SOUTHBOROUGH

Signature:

STANDARD CONDITIONS FOR ENGAGEMENT

1. CONTRACT. The Contract is the Agreement that is signed and dated by Lahlaf Geotechnical Consulting, Inc. (LGCI) and is signed and dated or accepted in writing by the Client, and that includes by reference these **General Conditions**. These Conditions shall apply to any and all subsequent amendments, additions, or modifications to the scope of work performed under this Contract unless specifically agreed in writing by both parties.

2. PAYMENT. Client agrees to pay LGCI in accordance with the fee schedule and payment terms provided in the Contract. All payments will be made by either check or electronic transfer to the address specified by LGCI and will include reference to LGCI's invoice number. LGCI will submit invoices monthly for work completed during the preceding period or upon completion of a specified scope of service, as described in the Contract. Client agrees to pay each invoice within thirty (30) days of its receipt. Client agrees to pay LGCI's cost of collection of all amounts due and unpaid after 60 days, including court costs and reasonable attorney's fees. These general conditions are notice, where required, that LGCI shall file a lien whenever necessary to collect past due amounts. Failure to make payment within 60 days of invoice shall constitute a release of LGCI from any and all claims that client may have whether in tort, contract or otherwise, and whether known or unknown at the time.

3. STANDARD OF CARE. LGCI will perform its services, obtain its findings and prepare its reports in accordance with our proposal, client's acceptance thereof, these general conditions, and with generally accepted principles and practices. LGCI will perform its professional services in a manner consistent with that degree of skill and care ordinarily exercised by members of LGCI's profession currently practicing in the same locality under similar conditions and on similar pojects. LGCI makes no warranties or representations, either expressed or implied, regarding the quality of services provided hereunder. Statements made in LGCI's report are opinions based on engineering judgment and are not to be construed as representations of fact. Nothing in this Contract shall be construed as establishing a fiduciary relationship between Client and LGCI.

4. RIGHT OF ENTRY. Client agrees to furnish LGCI with the right-of-entry and a plan of boundaries of the site where LGCI will perform its services. If Client does not own the site, Client represents and warrants that it will obtain permission for LGCI's access to the site to conduct site reconnaissance, surveys, borings, and other explorations of the site pursuant to the scope of services in the Contract. LGCI will take reasonable precautions to minimize damage to the site from use of equipment, but LGCI is not responsible for damage to the site caused by normal and customary use of equipment. The cost for restoration of damage that may result from LGCI's operations has not been included in its fee. LGCI will perform such additional work upon written request and client agrees to pay LGCI for the restoration costs.

5. CLIENT'S DUTY TO NOTIFY ENGINEER. Client represents and warrants that it has advised LGCI of any known or suspected hazardous materials, utility lines or pollutants. Unless otherwise agreed upon, Client will identify locations of buried utilities and other underground structures in areas of subsurface exploration. LGCI will take reasonable precautions to avoid damage to the buried utilities and other underground structures noted. Unless LGCI has assumed in writing the responsibility of locating subsurface objects, structures, lines or conduits, Client agrees to accept risk of and defend, indemnify and save LGCI harmless from all claims, losses, costs and expenses, including reasonable attorney's fees resulting from the exploration work.

6. CONSTRUCTION SERVICES. If included in the scope of services in the Contract, LGCI will provide personnel to observe the specific aspects of construction stated in the Contract and to ascertain that construction is being performed, in general, in accordance with the plans, specifications and LGCI's recommendations.

a. LGCI cannot provide its opinion on the suitability of any part of the work performed unless LGCI's personnel make measurements and observations of that part of the construction. By performing construction observation services, LGCI does not guarantee or assume any responsibility for the contractor's work. The contractor will remain solely responsible for the accuracy and adequacy of all construction or other activities performed by the contractor, including the methods of construction; supervision of personnel and construction; control of machinery; false work, scaffolding, or other temporary construction aids; safety in, on, or about the job site; and compliance with OSHA and construction safety regulations and any other applicable federal, state and/or local laws or regulations.

b. No claims for loss, damage or injury shall be brought against LGCI by client or any third party unless all tests and inspections have been performed in accordance with the contract documents and unless LGCI's recommendations have been followed. Client agrees to indemnify, defend and hold LGCI, its officers, employees and agents harmless from any and all claims, suits, losses, costs, expert fees, and expenses, including, but not limited to court costs and reasonable attorney's fees in the event that all such tests and inspections are not performed or LGCI's recommendations are not followed except to the extent that such failure is the result of negligence, willful or wanton act or omission of LGCI subject to the limitation in Paragraph 12.

7. RENEGOTIATION OF CONTRACT FOR PRESENCE OF HAZARDOUS MATERIALS. If hazardous waste, oil, asbestos, or other hazardous materials, as defined by federal, state and/or local laws or regulations are discovered during LGCI's work, Client agrees to negotiate appropriate revisions to the scope of services, the budget estimate, and the terms and conditions of the Contract. When such hazardous materials are suspected, LGCI will have the option to stop work until a new Contract is reached without financial penalty. If a mutually satisfactory Contract cannot be reached between both parties, the Contract will be terminated. Client agrees to pay LGCI for all services rendered, including any costs associated with termination.

8. DISPOSAL OF SAMPLES AND WASTES CONTAINING REGULATED CONTAMINANTS. Unless agreed in writing, test specimens or samples will be disposed of immediately upon completion of the test. All other samples or specimens will be disposed ninety days after submission of LGCI's report.

Nothing within this Contract shall be construed or interpreted as requiring LGCI to assume the status of an owner, operator, generator, storer, transporter, treater or disposal facility. In the event that samples collected by LGCI or provided by Client or wastes generated as a result of site investigation activities contain or potentially contain substances or constituents which are or may be regulated contaminants as defined by federal, state, or local statutes, regulations, or ordinances, including but not limited to samples or wastes containing hazardous materials, said samples or wastes remain the property of the Client and the Client will have responsibility for them as a generator. If set forth in the Contract, LGCI will, at Client's expense, perform necessary testing, and return said samples and wastes to Client.

9. INSURANCE. LGCI has Worker's Compensation Insurance in at least the minimum amount required for each state in which it does business, Employer's Liability Insurance, Public Liability Insurance and Professional Liability Insurance. LGCI will furnish insurance certificates upon written request.

10. INDEMNIFICATION. Subject to the foregoing limitation, LGCI agrees to indemnify and hold Client harmless from and against any liabilities, claims, damages and costs (including reimbursement of reasonable attorneys' fees and court costs) to the extent caused by the negligence or willful misconduct of LGCI in the performance of services under this Contract. LGCI's defense obligation under this indemnity paragraph means only the reimbursement of reasonable defense costs to the proportional extent of LGCI's indemnity obligation hereunder. Client shall provide the same protection to the extent of its negligence. In the event that the client shall bring any suit, cause of action, claim or counterclaim against LGCI, Client shall pay to LGCI the cost and expenses incurred by LGCI to investigate, answer and defend it, including reasonable attorney's fees and court costs to the extent that LGCI shall prevail in such suit.

11. Client agrees to defend, indemnify and hold harmless LGCI, its subconsultants, subcontractors, agents, and employees from and against all claims, damages, losses, and costs (including reasonable attorneys' fees) that result from the detection, failure to detect or from the actual, alleged, or threatened discharge, dispersal, release, escape or exposure to any solid, liquid, gaseous or thermal irritant, asbestos in any form, or contaminants

including smoke, vapor, soot, fumes, acids, alkalies, chemicals, waste, oil, hazardous materials, or biological pollutants. Client's obligations under this paragraph apply except to the extent such claims, damages, losses, and expenses are caused by LGCI's sole negligence or willful misconduct.

12. LIMITATION OF LIABILITY. To the fullest extent permitted by law, the total liability, in the aggregate, of LGCI and its officers, directors, employees, agents, and independent professional associates and consultants, and any of them, to Client and any one claiming by, through or under Client, for any and all injuries, claims, losses, expenses, or damages whatsoever arising out of or in any way related to LGCI 's services, the project or this Contract, will not exceed the total compensation received by LGCI under this Contract, or $5,000, whichever is greater. This limitation will apply regardless of legal theory, and includes but is not limited to claims or actions alleging negligence, errors, omissions, strict liability, breach of contract, breach of warranty of LGCI or its officers, directors, employees, agents or independent professional associates or consultants, or any of them. CLIENT further agrees to require that all contractors and subcontractors agree that this limitation of LGCI's liability extends to include any claims or actions that they might bring in any forum.

13. CONFIDENTIALITY. Unless compelled by law, a governmental agency or authority, or an order of a court of competent jurisdiction, or unless required pursuant to a subpoena deemed by LGCI to be duly issued, or unless requested to do so by Client pursuant to the Proposal or otherwise, LGCI agrees it will not convey to others any proprietary non-public information, knowledge, data or property relating to the business or affairs of the Client or of any of its affiliates, which is in any way obtained by LGCI during its association with the Client. LGCI further agrees to strive to limit, to a "need to know" basis, access by its employees to all information referred to above. Any concepts, materials, or procedures of LGCI deemed by LGCI to be proprietary and so explained to Client will not be released by Client or its employees to any other parties under any circumstances.

14. OWNERSHIP OF DOCUMENTS. Drawings, diagrams, specifications, calculations, reports, processes, computer processes and software, operational and design data, and all other documents and information produced in connection with the project as instruments of service, regardless of form, will be confidential and the proprietary information of LGCI, and will remain the sole and exclusive property of LGCI whether the project for which they are made is executed or not. Client will not have or acquire any title to or have any rights in any of the documents or information prepared by LGCI. Client will be permitted to retain printed copies of such documents or information for information and reference only in connection with Client's use and occupancy of the project. The documents and/or information will not be used or reused or modified by Client on other projects, for additions to this project, for completion of this project by others, or for any other purpose for which the documents were not specifically prepared, provided LGCI is not in default under this Contract, except with the express written consent of LGCI and with appropriate compensation to LGCI. Client will defend, indemnify and hold LGCI harmless from and against any claims, losses, liabilities and damages, including all reasonable attorney's fees, expert fees, and other costs of defense arising out of or resulting from or in any way related to the unauthorized use of the documents.

15. ELECTRONIC FILES. All documents including drawings, data, plans, specifications, reports or other information recorded on or transmitted as Electronic Files are subject to undetectable alteration, either intentional or unintentional, due to transmission, conversion, media degradation, software error, human alteration or other causes.

a. Electronic Files are provided for convenience and informational purposes only and are not a finished product or Contract Document. The actual signed and sealed hard copy Contract Documents including stamped drawings, together with any addenda or revisions, are and will remain the official copies of all documents. LGCI makes no representation regarding the accuracy or completeness of any accompanying Electronic Files. LGCI may, at its sole discretion, add wording to this effect on electronic file submissions.

b. Client waives any and all claims against LGCI that may result in any way from the use or misuse, unauthorized reuse, alteration, addition to or transfer of the Electronic Files. Client agrees to defend, indemnify and hold harmless LGCI, its officers, directors, employees, agents or subconsultants, from any claims, losses, damages or costs, and costs of defense, which may arise out of the use or misuse, unauthorized reuse, alteration, addition to or transfer of these Electronic Files by client or anyone obtaining them through client.

16. SUSPENSION OF WORK. Client may, at any time, by a 10-day written notice, suspend further work by LGCI.

a. Client will remain fully liable for and will promptly pay LGCI the full amount for all services rendered by LGCI to the date of suspension of services, including all retained billings, if applicable, plus suspension charges. Suspension charges will include the cost of putting documents and analyses in order, personnel and equipment rescheduling, or reassignment adjustments, and all other related costs and charges directly attributable to suspension.

b. If Client fails to pay undisputed invoice amounts within 30 days following invoice date, LGCI may suspend further services, by providing a 10-day written notice to Client until payments are restored to a current basis. In the event LGCI engages counsel to enforce overdue payments, Client will reimburse LGCI for all reasonable attorney's fees and court costs related to enforcement of overdue payments, provided that Client does not have a good faith dispute with the invoice. Client will indemnify and save harmless LGCI from any claim or liability resulting from suspension of the work due to non-current, non-disputed payments.

17. DISPUTE RESOLUTION. Both parties agree to submit any claims, disputes, or controversies arising out of or in relation to the interpretation, application, or enforcement of this Contract to non-binding mediation pursuant to the Rules for Commercial Mediation of the American Arbitration Association, as a condition precedent to litigation or any other form of dispute resolution.

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, August 6, 2024 6:00 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers and Marguerite Landry. Al Hamilton appeared via ZOOM. Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale.

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:00 PM.

II. Executive Session

Mr. Stivers moved to enter into Executive Session at 6:00 PM, per M.G.L. Chapter 30A, Section 21, and return to Open Session, to discuss strategy with respect to litigation (Exemption 3) where an open meeting will have a detrimental effect on the litigating position of the public body and the chair so declares: Louise Barron v Daniel Kolenda. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

Ms. Cook returned the Board to Open Session at 6:36 PM.

Ms. Cook heard Public Comment after IV. Scheduled Appointments.

III. Scheduled Appointments *(Board may vote)*

a. 6:30 PM – Public Hearing; FY25 Transfer Station Regulations

Mr. Purple read the public hearing notice into the public record at 6:36 PM. DPW Superintendent Bill Cundiff appeared before the Board on the matter. Superintendent Cundiff reviewed the proposed changes, noting that the changes are minor and some are grammatical in nature. Mr. Dennington asked about the insertion of "commercial refuse not accepted." Superintendent Cundiff stated he has seen refuse that he suspects is commercial and would like to come up with better ways to identify violators. Mr. Dennington stated he is supportive of this change. Mr. Mike Canova, 41 Highland Street, asked if vehicles with commercial license plates would be excluded from the transfer station. Superintendent Cundiff stated that only commercial refuse would be excluded from the transfer station. Mr. Shawn Rose, 3 Lovers Lane, asked that the exclusion of paper bags for yard waste be added to the rules. Superintendent Cundiff stated that Mr. Rose's recommendation is a good one that could be added to next year's regulations. Ms. Cook stated that the Board is only being asked to vote on the regulations as presented this evening. Mr. Stivers moved to close the public hearing at 6:49 PM. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0). Mr. Stivers moved to approve the Transfer Station Regulations for FY25, as amended. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

b. Appoint Marlo Taylor as FT Communications Officer

Chief Newell requested that the Board appoint Ms. Marlo Taylor as a full-time Communications Officer. Ms. Taylor was not in attendance at the meeting and Chief Newell stated she would be filling one of the two full-time positions approved at Annual Town Meeting. Mr. Hamilton asked if the Department has one full-time and one part-time position still available. Chief Newell replied that is the case and the positions are still being advertised. Mr. Stivers moved to approve Marlo Taylor as full-time Communications Officer. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

c. Appoint Anthony Vega as FT Police Officer

d. Appoint Andrew Whamond as FT Police Officer

Ms. Cook heard Scheduled Appointments "c" and "d" before Scheduled Appointments "b." Police Chief Ryan Newall appeared before the Board in the matter. Chief Newell presented Mr. Anthony Vega and Mr. Andrew Whamond to the Board and requested that they be appointed as full-time Police Officers with the Southborough Police Department. Chief Newell reported that with the appointment of Mr. Vega and Mr. Whamond, the Southborough Police Department would be fully staffed. The Board welcomed Mr. Vega and Mr. Whamond to the Department. Mr. Stivers moved to appoint Anthony Vega as a full-time Police Officer and Andrew Whamond as a full-time Police Officer. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

The Board recessed at 6:55 PM and resumed meeting at 6:58 PM.

e. Board and Committee appointments:

i. Sheri Widdiss to the Conservation Commission, term to expire 6/30/2027

Ms. Sheri Widdiss appeared before the Board, via ZOOM, in the matter. The Board interviewed Ms. Widdiss. Mr. Hamilton asked Ms. Widdiss for her thoughts on returning Chestnut Hill Farm to a working farm. Ms. Widdiss stated she would need to review the Conservation Restriction on the property and then understand the goals of the Conservation Commission and Board related to the property. Mr. Stivers moved to appoint Sheri Widdiss to the Conservation Commission, term to expire 6/30/2027. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

ii. Jane Gates to Cultural Arts Council, term to expire 8/5/2026

Ms. Jane Gates appeared before the Board in the matter. The Board interviewed Ms. Gates. Mr. Stivers moved to appoint Jane Gates to the Cultural Arts Council, term to expire 8/5/2026. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

iii. Nicole Boloz to Cultural Arts Council, term to expire 10/2/2025 (to complete Jen Hansen's term)

Ms. Nicole Boloz appeared before the Board in the matter. The Board interviewed Ms. Boloz. Mr. Stivers moved to appoint Nicole Boloz to the Cultural Arts Council, term to expire 10/2/2025. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

f. Update from the Cultural Arts Council: Katlyn Heusner

Ms. Katlyn Heusner appeared before the Board on the matter. Ms. Heusner updated the Board on the recent activities of the Cultural Arts Council. She stated that the Council had recently re-organized into an executive committee structure, consistent with the Massachusetts Cultural Arts Council guidelines, and reported that she and members Elizabeth Kesselman and Rajani Kumari sit on the executive committee. She also stated the Council has focused on recruitment and presently has a

full committee of six members. Council member Elizabeth Kesselman appeared before the Board to clarify that the Massachusetts Cultural Arts Council's guidelines require a minimum number of five members in order to award grants. Ms. Heusner stated the committee's goals include: 1) how to functionally improve to ensure they are in general compliance, while also understanding the Board's goals; and 2) identifying and working with other partners in Town to enhance arts and culture for the residents. She stated that the Council annually awards a total of $6,000 in grants and informed the Board that the grant cycle would open on September 1st and close on October 17th. She also stated the Council recently conducted a survey on all aspects of their grants process to obtain public feedback and shared the results of the survey. The Board and Ms. Heusner discussed space needs, greater community involvement and publicity for the upcoming grant cycle. Mr. Stivers suggested that the Board consider budgeting some funds annually for the Cultural Arts Council.

g. Update from Historical Commission: Kevin Miller

Mr. Kevin Miller, Chair of the Historical Commission, appeared before the Board in the matter. Mr. Miller called the Historical Commission meeting to order at 7:36 PM. Members present: Kevin Miller, Grant Farrington, Kelly O'Brien and Dan Blanchard. Vice Chair Annie Phaff appeared via ZOOM. Absent: Michele Hokinson and James Blaschke. Mr. Miller updated the Board on recent activities of the Historical Commission. He stated that ARPA funds were used for the following: 1) the National Historical District Register sign project. The project has been completed and the signs are up; 2) $1,000 to restart the historic house sign project. Mr. Miller stated this project is free to homes that qualify, although the Commission accepts donations and hopes this project will become self-sustaining. Vice Chair Annie Pfaff stated that, to date, the Commission has delivered 55 signs in total, with 12 signs in the pipeline and approximately 350 houses on the list that qualify; and 3) $500 has been used to purchase a sign for the water tower in the Rural Cemetery. Mr. Miller stated that the Commission is looking into the challenges for preserving structures affected by the Demolition Delay Bylaw. He stated that the Bylaw should be consistent with the age of historic buildings in the zoning code, which is 85 years old. Mr. Stivers suggested the Historic Commission bring forth an article at Annual Town Meeting 2025 that makes the Demolition Delay Bylaw consistent with Town Code. The Historic Commission and the Board discussed the status of 42 Main Street. Mr. Hamilton stated that he believes the Demolition Delay Bylaw should be re-examined, as he views the Bylaw as an inconvenience to property owners. Mr. Miller stated that the Historical Commission is also working on the following issues: 1) working with Jon Delli Priscoli regarding the viewscape at the Burnett House; 2) finding a location for historical record storage and to display historical Town documents; 3) marking the graves of the 43 Revolutionary War veterans who are in unmarked graves in the Old Burial Ground; and 4) integrating an education aspect of the 250th anniversary of the Revolutionary War (in 2026) with the Tricentennial Celebration that will take place in 2027. Ms. Landry stated she feels the historical document storage matter should be addressed in the near future. Mr. Dennington stated that CPC grant applications are due by August 31st. The Board and Historical Commission discussed logistics for the Town Common Rail Replacement Project and agreed that Mr. Dennington would draft a grant proposal for the Historical Commission to review prior to August 31st. Mr. Dennington requested that any other potential funding sources for the project be relayed to Mr. Dennington for inclusion in the grant application. Mr. Farrington moved to adjourn the Historical Commission meeting at 8:13 PM. Ms. O'Brien seconded the motion. The motion was unanimously approved by roll call vote: Ms. Pfaff, aye; Ms. O'Brien, aye; Mr. Farrington, aye; Mr. Blanchard, aye; Mr. Miller, aye (5-0-0).

Ms. Cook moved to Other Matters "b" at this time.

VI. Public Comment

There was no public comment.

V. Reports

a. Chair's Report

i. Neary Building Committee report; Recreation Commission vacancies

Ms. Cook reported that the Neary Building Committee (NBC) would decide by next week on the project to recommend for a vote at a Special Town Meeting, expected to be held in April 2025. She stated the NBC Finance Subcommittee would present the latest cost estimates to the Board at a meeting this Friday, August 9th, at 1 PM and she urged the public to attend/view.

Ms. Cook stated that at each meeting, the Board would highlight a board/committee to inform residents about vacancies and encourage them to volunteer. She stated this meeting's spotlight is on the Recreation Commission and added they have two vacancies available.

b. Members' Reports

i. Regional Emergency Communication Center (RECC) update

Mr. Hamilton reported that the virtual RECC presentation was made to Ashland, Westborough and Northborough, and added there has been no feedback received from the communities on the concept of a virtual RECC. Mr. Hamilton stated that he spoke with a representative from State 911 regarding a potential virtual RECC and the representative was not encouraging about the concept. Mr. Hamilton stated that he believes the Board should hold 2-3 public forums in the coming months to discuss the options available and to determine a path forward for the Town. Mr. Hamilton and Mr. Stivers agreed to propose a schedule for the public forums prior to Special Town Meeting.

ii. Update on 2025 One Stop grant application for Rt. 9 zoning

Mr. Dennington reported that he and Ms. Cook appeared before the Planning Board to discuss the Board's goal to pursue a One Stop grant application to study zoning improvements on Rt. 9. He stated he was pleased that the Planning Board unanimously expressed their support and interest in collaborating on the One Stop grant application. Mr. Dennington noted that if the Town were successful in receiving a One Stop grant, any work related to the grant would follow the MBTA Communities work presently being addressed by the Planning Board.

Mr. Dennington also reported that the Affordable Housing Working Group met August 1st. Members present were the following: Mr. Dennington and Mr. Hamilton from the Affordable Housing Trust Fund Committee, Doug Manz and Paul Desmond from the Southborough Housing Opportunity Partnership Committee (SHOPC) and Lisa Braccio, member at-large. He stated that he believes the group will have draft language by the end of August for Special Town Meeting.

c. Town Administrator's Report

i. August special meeting: Tuesday, August 27th proposed

Mr. Purple reported that the Board would hold a meeting on Tuesday, August 27th, to finalize the warrant for Special Town Meeting on September 30, 2024. He also stated that the Board and the School Committee would hold a joint meeting on September 11, 2024 at 6:30 PM to appoint the **(new principal?)** of Neary School.

iii. Staffing study update

Mr. Purple reported that he, Police Chief Newell and Fire Chief Puntini, have received a draft of the study and are offering comments to the consultant. He stated he expects to have a final version for the Board to review next week.

iv. Update on Division of Local Services (DLS) Financial Policy Manual

Mr. Purple reported that the DLS's review of the Town's Financial Policy Manual has been completed and is currently under review by Mr. Purple and the Finance team. He stated there is a great deal of information to digest and he believes the Finance team will likely report first on updating current financial policies of the Town. He expects the review/recommendations will be presented to the Board and Advisory next week. He stated the Town is still awaiting DLS's review of the Town's financial operations.

VI. Consent Agenda

a. Approve Open Session Meeting Minutes: July 10, 2024; July 16, 2024; July 23, 2024

Mr. Stivers and Ms. Landry requested to hold Consent Agenda item "a." **July 10, 2024 Minutes:** Ms. Landry, Mr. Stivers and Mr. Dennington had scrivener's changes to the minutes. **July 16, 2024 Minutes:** Mr. Stivers requested that Atty. William Solomon attendance, via ZOOM, be added to the minutes. Mr. Cook moved to approve the July 10, 2024 minutes, as amended, the July 16, 2024 minutes, as amended and the July 23, 2023 minutes, as written. Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

b. Approval of 2024 Warrant for State Primary

c. Approve police detail for election

d. Approve Early Voting dates for September and November Elections

e. Approve amended poll workers' rate

f. Appoint Doug Manz as the SHOPC representative to the CPC

g. Appoint Leslie Naditch to OSPC (swearing-in period expired)

Ms. Cook moved to approve Consent Agenda items "b", "c", "d", "e", "f" and "g." Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

VII. Other Matters *(Board may vote)*

a. Review of September 30, 2024 Special Town Meeting warrant

i. Review of all warrant article placeholders

Ms. Cook suggested, and the Board agreed to remove two articles from consideration at the Special Town Meeting: increasing the CPA surtax and creating a Storm Water Enterprise Fund.

ii. Review order of warrant articles

The Board discussed the order of the warrant articles. The Board agreed to order the articles as follows (and as numbered in the Draft Warrant): 1) remove Articles #12 and #14 from consideration; 2) Potential Consent Agenda: #1, #2, #7, #8, #9); and 3) the following articles after the Consent Agenda: #10-MBTA, #16-RECC, #11-SHOPC/AHTFC consolidation, #13-Transfer of CPC/Affordable Housing funds, New Article Section 3 (b1/2), #3-Breakneck Hill, #4-Atwood, #5- Public Safety Staffing Study, #6-EDC Coordinator hours and #15-Annual Town Meeting date requirements. The Board agreed to discuss the recommendations from the Public Safety Staffing Study with Chief Newell at its August 27th meeting and suggested a joint meeting with the Advisory Committee at that time. The Board discussed Article #6-EDC increase the coordinator position to full-time. Mr. Hamilton stated that he would like to see performance standards attached to the position to determine if the increase in hours is a benefit to the Town. The Board indicated their unanimous support for Article #6.

iii. Consideration of article to accept MGL Chapter 44B Section 3(b1/2) – to allow use of other municipal funds to supplement CPA funds

Ms. Cook heard this matter prior to Other Matters "a." Mr. Stivers stated that the Town's CPA bylaw language, approved in 2005, does not reflect the State's amended language. Mr. Stivers is proposing that the Town amend the bylaw to accept the State's amendment, as doing so would allow the Town greater flexibility in funding CPA eligible projects. Mr. Stivers stated that this matter is administrative. Ms. Cook stated that the CPC would vote on the matter at its meeting on Thursday evening. The Board discussed the matter and agreed to support an article at Special Town Meeting that amends the Town's CPA bylaw. Mr. Stivers will follow up on the matter.

b. 352 Turnpike Road overview with Ferris Development on proposed 40B project

Mr. David Ferris, Principal of Ferris Development Group, and Atty. George Bahnan, Assistant Counsel for Ferris Development Group, appeared before the Board on the matter. Mr. Ferris thanked the Board for their efforts to cooperate with his 40B projects. He stated that he is proposing a six-story 40B project at 352 Turnpike Road of 68 rental units consisting of 55 one-bedroom units, 6 two-

bedroom units and 7 three-bedroom units. He noted that 25% of the units would qualify as affordable. Mr. Ferris stated that he has three potential projects in the pipeline that would allow the Town to reach Safe Harbor and be in control of future proposed projects. Ms. Cook asked about next steps. Mr. Ferris stated that concept plans have been drawn up and he is seeking feedback on those plans. Following any feedback, Mr. Ferris stated that Ferris Development Group would apply to the State for a Project Eligibility Letter. Mr. Dennington asked if the project would use pervious surface (parking lot). Mr. Ferris stated that it would. Mr. Dennington asked if mixed-use was an element of the project. Mr. Ferris stated that at this time, conceptually, it was. The Board discussed the proposed project.

VIII. Public Comment

There was no public comment.

IX. Adjournment

Ms. Cook moved to adjourn at 9:18 PM. Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

Upcoming Meetings	
August 27, 2024	*September 4, 2024*

Respectfully submitted,

Bridgid Rubin, Recording Secretary

List of Documents referred to at the August 6, 2024 SB Meeting:

- Public hearing notice for the consideration of proposed revisions to Transfer Station Rules and Regulation for FY25
- Draft Transfer Station Rules and Regulations for FY25, red-lined and proposed draft
- Letter from Police Chief Ryan Newell, dated August 2, 2024, RE: Appointment of Full-Time Telecommunication Officer Marlo Taylor
- Resume of Marlo Taylor
- Letter from Police Chief Ryan Newell, dated August 2, 2024, RE: Appointment of Full-Time Police Officer Anthony Vega
- Resume of Anthony Vega
- Letter from Police Chief Ryan Newell, dated August 2, 2024, RE: Appointment of Full-Time Police Officer Andrew Whamond
- Resume of Andrew Whamond
- Email communication from Melissa Danza, dated July 12, 2024, RE: Appointment of Sheri Widdiss
- Board and Committee Volunteer form for Sheri Widdiss
- Email communication from Katlyn Heusner, dated July 9, 2024, RE: Appointment of Jane Gates
- Board and Committee Volunteer form for Jane Gates
- Email communication from Katlyn Heusner, dated July 31, 2024, RE: Appointment of Nicole Boloz
- Board and Committee Volunteer form for Nicole Boloz

- Open Session Meeting Minutes for July 10, 2024; July 16, 2024; July 23, 2024
- Proposal for geotechnical services from Lahlaf Geotechnical Consulting, dated July 22, 2024
- Letter from Town Clerk James Hegarty, dated July 17, 2024, RE: Warrant for September 3, 2024 State Primary Election and Motion Approval
- Letter from Town Clerk James Hegarty, dated July 17, 2024, RE: In-Person Early Voting for the September 3, 2024 State Primary Election
- Letter from Town Clerk James Hegarty, dated July 23, 2023, RE: In-Person Early Voting for the November 5, 2024 State Election
- Letter from Town Clerk James Hegarty, dated July 23, 2024, RE: Pay Rate for Election Workers
- Email Communication from Doug Manz, dated July 26, 2024, RE: SHOPC Appointment to CPC
- Draft Special Town Meeting Warrant, dated September 30, 2024
- Email Communication from Atty. George Bahnan, dated July 16, 2024, RE: Proposed 40B Development at 352 Turnpike Road

August 26, 2024

Dear Honorable Select Board,

After a successful interview with Sandy Pochapin at our August 26, 2024 meeting, the Tricentennial unanimously voted to appoint Sandy Pochapin to the Tricentennial Committee, term through 6/30/2025. We respectfully ask you do the same as her background and motivation are in line with our committee. We believe she will be an excellent addition.

Respectfully,

Don Morris
Tricentennial Committee Chair

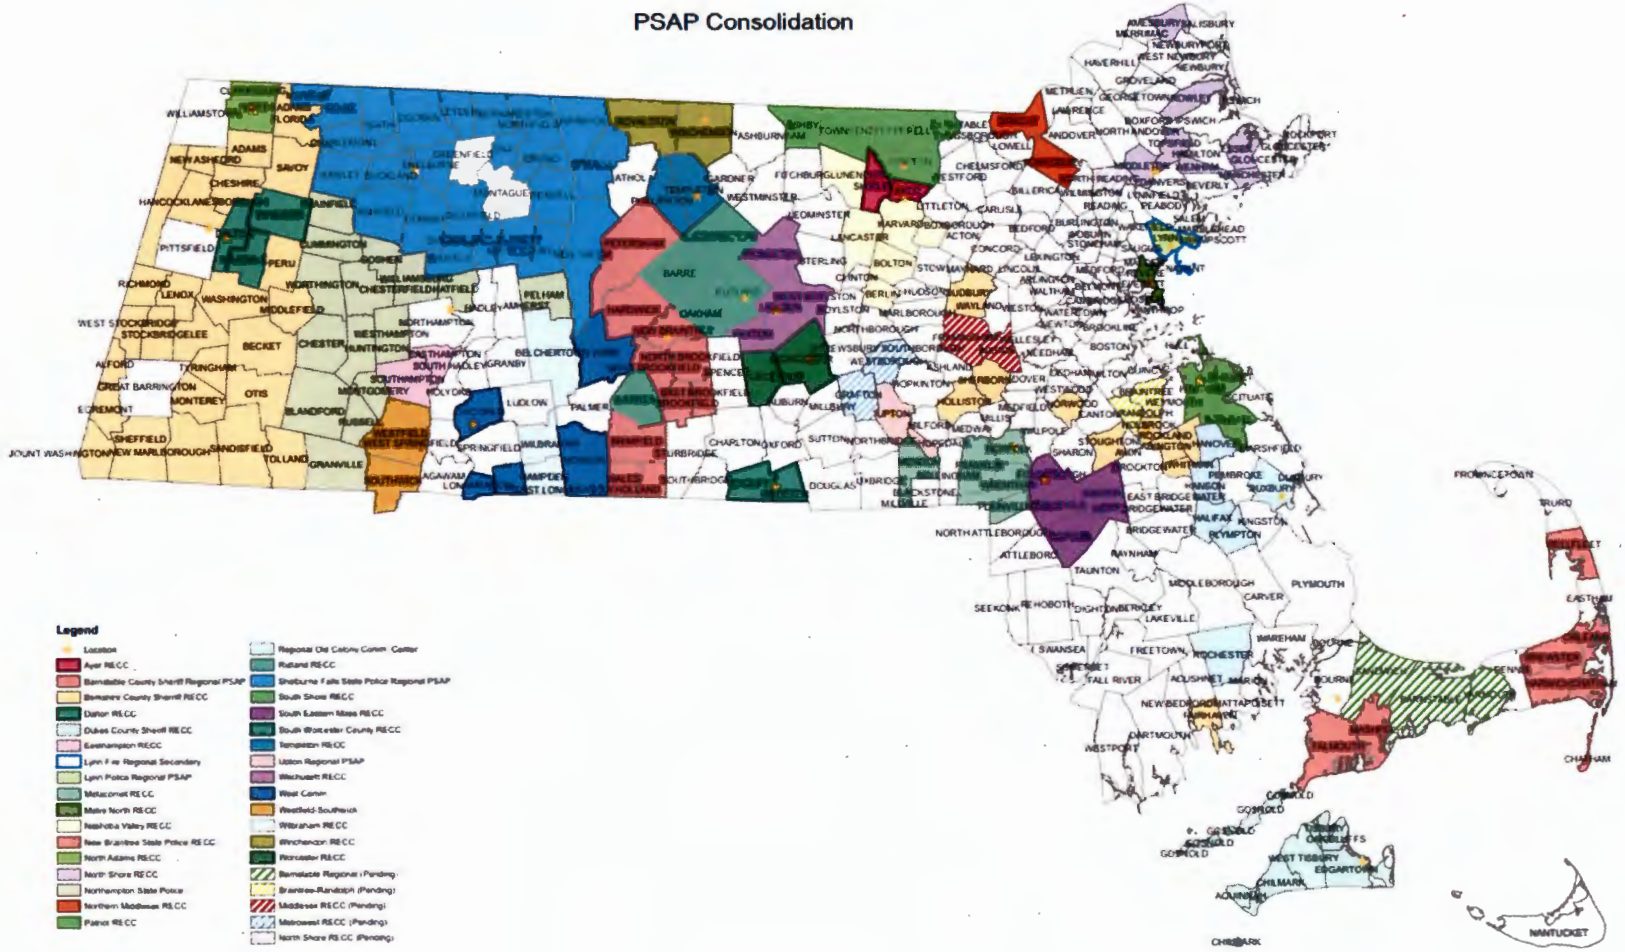
RECC Investigation Results

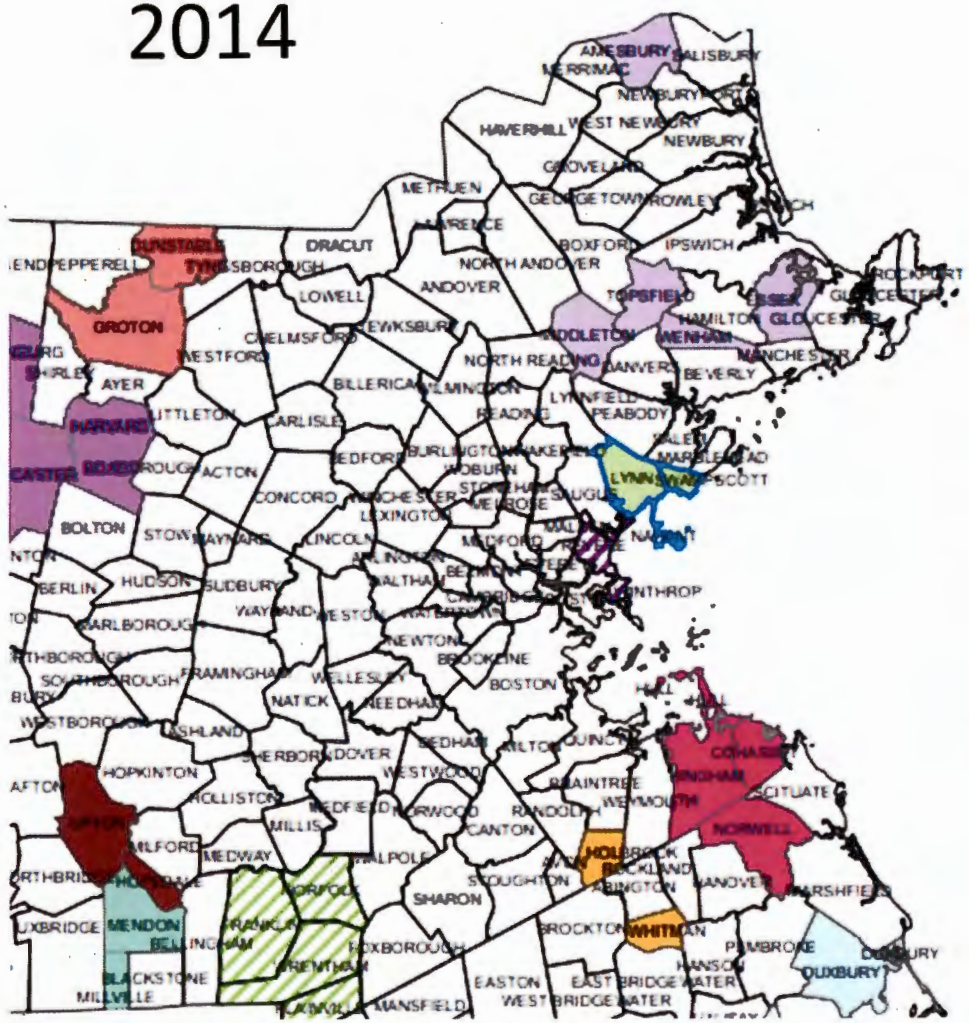
What is a RECC?
"Regional Emergency Communications Center"

- A "RECC" is a "Regional Emergency Communication Center", where the member communities combine their Public Safety (Police and Fire) Emergency Dispatch Operations into a single entity.
- In principle, this is no different from other regional organizations we currently participate in, such as:
  - Regional High School
  - Regional Vocational & Technical Schools
  - Regional Public Health Operations
  - Regional Library Resources
  - Mutual Aid for both Fire and Police.



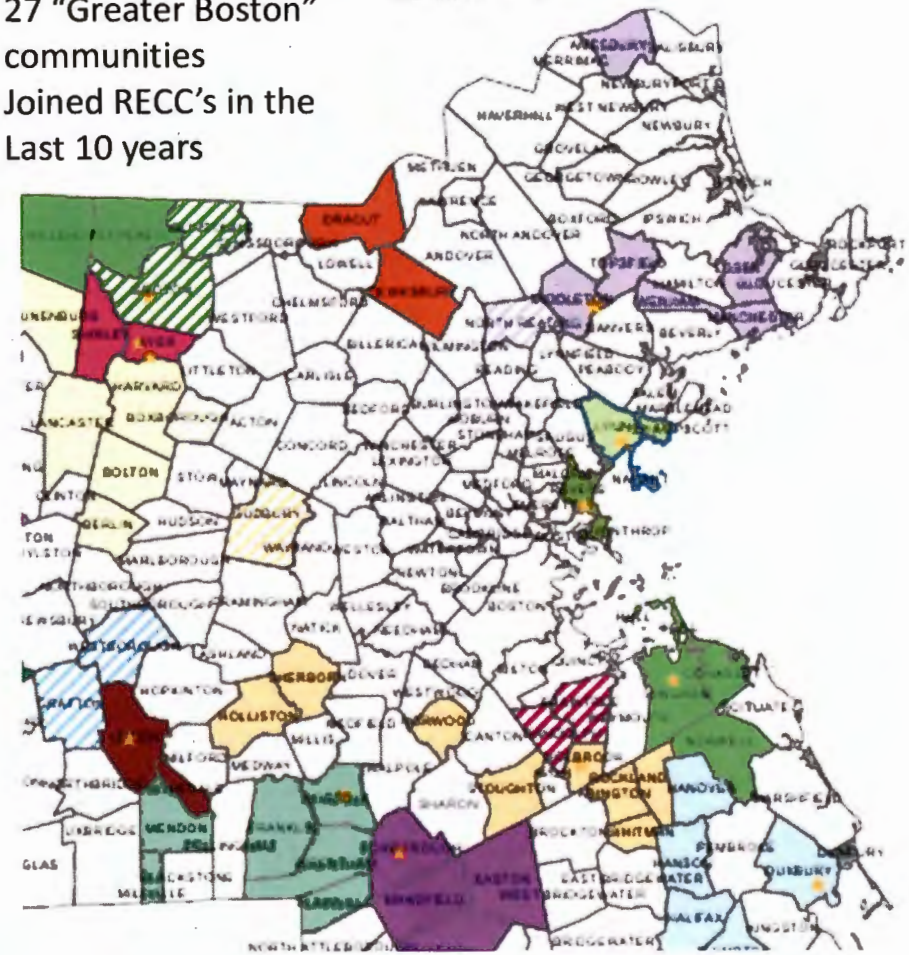
RECC's Are Common in the US

- RECC's have been in operation for decades in much of the rest of the US. – Often County Wide or Centered on a City
- RECC's can be Fire only or Police only or combined.
- The Technology is mature.
- Massachusetts is late in adopting RECC's



Holbrook Dispatch Center – Serves 7 Communities / 150,000 people

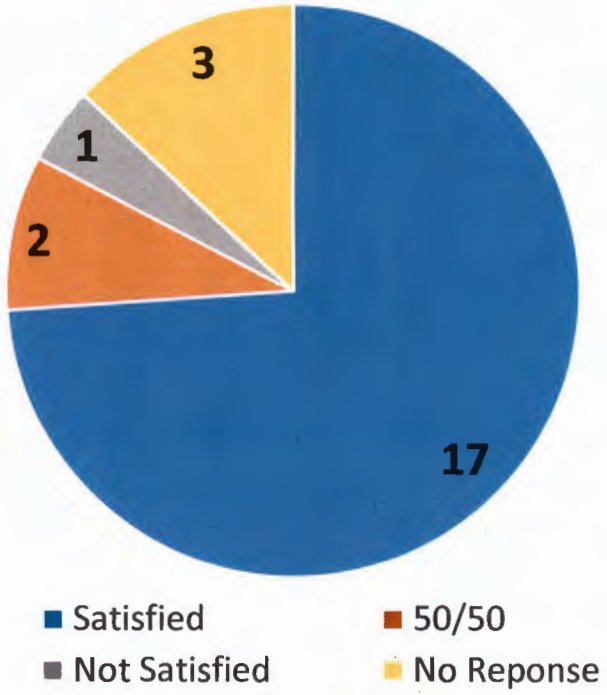
RECC's are Common in Massachusetts Today



2014

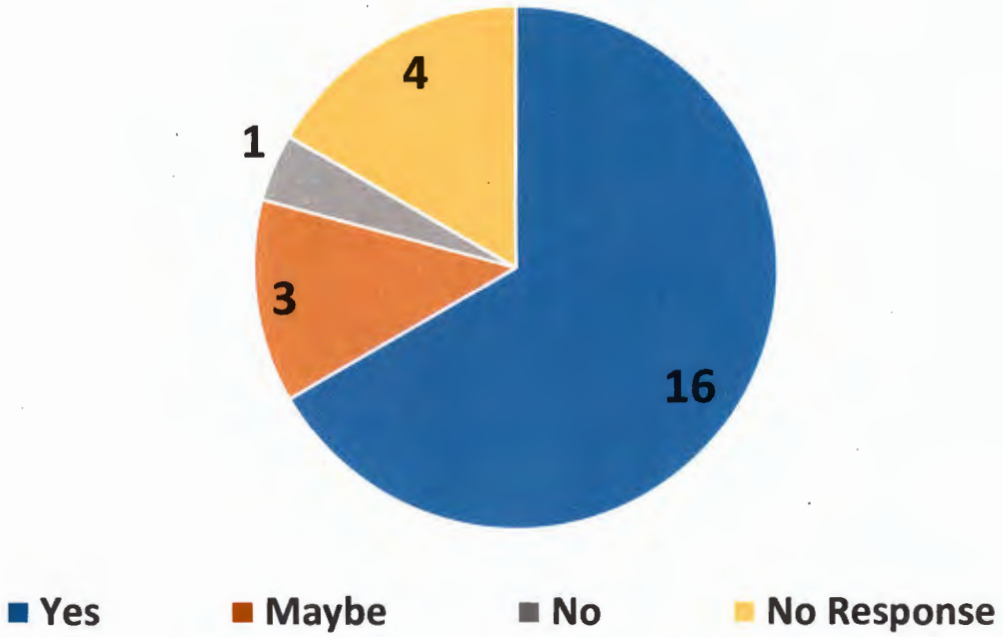
2024

27 “Greater Boston” communities Joined RECC’s in the Last 10 years



"Should Southborough Join a RECC?" How Have We Evaluated This Question?

- 2 Select Board Members, the Police and Fire Chiefs and the Town Administrator have been conducting due diligence investigations related to this issue for the past 15 months, including the following activities:
  - Visited 3 Operating RECC's: Holbrook, Devens and Foxborough
  - Met with 2 RECC's that are in the process of being formed: Westborough & Framingham
  - Confirmed that Metrowest (Westborough) building location is no longer at the "Superfund" site.
  - Met with relevant individuals from Northborough, Marlborough, Ashland, Sudbury.
  - Investigated a new concept – A Virtual RECC
  - Participated in several Discussions with the State 911 managers
  - Surveyed Mass Police Chiefs
  - Interviewed 5 Retired Fire Chiefs
  - Surveyed existing Greater Boston RECC's for performance data



Police Chiefs are Satisfied with RECC's:

A survey of Police Chiefs who are part of a RECC asked "Are you satisfied with the RECC?". **85% of those responding said YES!**

Police Chiefs Survey : "Would you join again?"

80% of those responding said "Yes", only 5% said "No".

Police Chiefs Survey:
"What was your motivation to join a RECC?"

- 6 of 13 mentioned difficulty hiring dispatchers
- 6 of 13 mentioned cost savings
- Single Dispatcher Risk
- Equipment Upgrades
- Quality improvements

Fire Chiefs Input

Discussion with 5 Fire Chiefs at the Fire Chief Assessment Center, and Discussion with (former) Chief Achilles. Key Points Are:

- By its nature, our Fire/Ambulance Operations are already Regionalized. Almost any fire of significance will involve a regional response. Our fire and ambulance crews regularly back up other departments when they go out on a call and vice versa. "We are in and out of each others stations every day"
- A Primary Focus is on the integration of a RECC with Mutual Aid Network.
- Having a RECC overlap with a mutual Aid network has substantial benefits.
- Value of RECC Dispatchers having instant access to the status of crews and equipment in communities that overlap with mutual aid.
- Multiple stories about RECC's being able to offer faster (and therefore safer) mutual aid response—particularly in large or complex events
- RECC overlap with Mutual Aid structure is also important for Police response

RECC Economics

- A survey of Greater Boston RECC's found that:
  - Busiest Shifts
    - 1 Dispatcher per 9,500 people to 1 dispatcher per 12,000 people
    - Southborough (FY 2024) had 1:10,450
  - Per Capita Operating Budget
    - Greater Boston RECC's – Run between $42 and $65 per person covered
    - Southborough
      - FY 24 – Single Dispatcher $58 per person covered.
      - FY 25 – 2+ Full Time Dispatchers - $78 per person covered.
      - 2 additional dispatchers to provide 2 person 24/7 coverage - $98 per person covered.

"Why are we considering joining a RECC?"
Answer: Improved Public Safety!

- Even with 2 additional dispatchers, we will have many shifts with only a single dispatcher.
- A single dispatcher system is not safe – both Town Meeting and the Select Board have recognized this and have stated this on multiple occasions:
  - Dispatchers can be required to perform multiple complex tasks--simultaneously:
    - In a life threatening situation they may be called on to provide over-the-phone instruction on first aid such as CPR.
    - At the same time, they must locate and dispatch the resources needed to respond—resources not only in Southborough but in other (mutual aid) communities.
- Just like other communities, we are having trouble hiring and retaining dispatchers—we are now 2 months into the new fiscal year we still have 1 full time and 1 part time dispatch position open. We can fund a position, but we can't make candidates apply for a position.
- We could benefit with faster response times if we have better integration with our Mutual Aid Partners—in public safety response, Minutes Matter!

Dark Station

- Dark Station is a Misnomer
  - Today, if someone arrives at the Public Safety Building with an emergency, they will be greeted by the Dispatcher behind the glass window.
  - The Dispatcher cannot come out to render aid. He/She will dispatch the required aid. Dispatchers are able to lock and unlock doors to provide safety.
  - In a RECC, the person arriving at the Public Safety Building will interact with a Dispatcher just as they would today. That Dispatcher will have a video link to the lobby, and will be able to summon aid the same way today's local Dispatcher can.
  - RECC Dispatchers can lock and unlock doors just as in-person Dispatcher can.

Dark Station Solutions

- Chiefs report a mix of solutions:
  - 4 of 15 reported that their stations are staffed 24/7
  - 7 of 15 reported that their lobbies are linked to the RECC:
    - Typically Video and Voice
    - Dispatchers can lock and unlock doors
    - Patrolling officers or EMT's can be summoned quickly
  - 4 of 15 reported a Hybrid Model
    - Staffed Lobby for part of day (typically "Business Hours")
    - Video/Voice per above when not staffed

Risks of Joining a RECC

- Start Up Risks – RECC's use mature technologies, but any new venture comes with attendant risks. Risks can be mitigated by
  - Don't turn on the RECC until everything works as it should
  - Staff Training – Each dispatcher should do "ride alongs" with each local Public Safety department to get to know the community and the local team
  - Coordination of procedures – Having a RECC means that dispatch procedures need to be standardized in the covered communities
  - Training, Training, Training!
  - Communication, Communication, Communication!
- Finance
  - There are some short-term (3-5 year) financial benefits from joining a RECC, but we cannot expect that there will be long-term annual operating cost savings versus what we have paid for a single dispatcher system.
- Growth
  - There is evidence that RECC's need to achieve critical mass to be most effective. Covering a minimum of 100,000 people should be a goal.

Recommendation

- Apply for membership in the Westborough-based "Metrowest RECC":
  - This is the best opportunity for strong integration with Mutual Aid
  - With Metrowest RECC's 50,000 covered lives, there is initial "critical mass" and there are a number of "non-RECC" neighbors to provide good opportunity RECC growth
  - Metrowest RECC offers sufficient response resources to provide deep coverage
  - This is an opportunity to be in on the "Ground Floor", to influence policies and procedures when they are initially put in place.
- Start Out with 24/7 staffed Public Safety Building Dispatch Office
  - Fully staff for the first year of operation
  - Assess the results after the first year (and ongoing)
- Don't expect to save a lot of money on operating costs. There are some opportunities to save on capital costs, such as Radios and CAD System.

Southborough Stewardship Committee

Charge:

The charge of the ad-hoc Southborough Stewardship Committee is to support the Conservation Commission by providing conservation-based stewardship of the Breakneck Hill Conservation Land, balancing multiple conservation and passive recreational uses.

Composition:

The Stewardship Committee shall consist of five (5) Southborough residents, appointed by the Select Board for one-year terms.

19. Acceptance of MGL 53E3/4 – Special Revenue Fund for Cable-related Revenue XX

DRAFT

Town Finance Terminology

The following terms are frequently used in the Advisory Committee Report and at Town Meeting. For your convenience, we provide the following definitions:

Surplus Revenue: (Often referred to as "Excess and Deficiency")
The fund represents the amount by which the Cash, Accounts Receivable and other floating assets exceed the liabilities and reserves.

Available Funds: (Often referred to as "Free Cash")
The amount of the Unreserved Fund Balance (Surplus Revenue) account over and above uncollected taxes of prior years constitutes "free cash" or "available funds".

Overlay:
The Overlay is the amount raised by the Assessors in excess of appropriations and other charges for the purpose of creating a fund to cover abatements and exemptions as granted.

Overlay Reserve:
This is the accumulated amount of the Overlay for various years not used or required to be held in the specific Overlay account for a given year, and may be used by vote of the town for extraordinary or unforeseen purposes or voted into the Reserve Fund.

Stabilization Fund:
An outside section of Chapter 138 of the Acts of 1991 (the FY92 State budget) modifies limitations on the Stabilization Fund appropriation process by enabling communities to appropriate from this fund for any non-capital, lawful purpose without Emergency Finance Board approval (section 333). Beginning in FY92, the Stabilization Fund will thus become a source of revenue for general operating expenses for communities.

The Stabilization Fund is a mechanism for setting aside money for capital projects. It equalizes the effect of capital expenditures over time, as capital appropriations can change considerably from year to year. The balance in the fund will build up during years when expenditures for capital items are low. During years with high capital expenditures, the community will transfer money from the fund to reduce the project's impact on the tax rate or the amount of borrowing required for the project.

A community may appropriate up to 10% of its tax levy each year, as long as the balance in the Stabilization Fund does not exceed 10% of the community's equalized valuation. Interest earned on any fund balance is retained as part of the fund.

Appropriations into a Stabilization Fund can be made at either an annual or special town or district meeting. Chapter 94 of the Acts of 1985 permits appropriations to be made from a Stabilization fund at a special town or district meeting, not just at the annual meeting. Regardless of the timing, appropriations from the Stabilization Fund require a two-thirds vote by the appropriating authority. Until the FY92 state budget, a community could only appropriate from the Stabilization Fund for a none-capital purpose with the approval of the Emergency Finance Board.

Reserve Fund:
This fund is established by the voters at the Annual Town Meeting only and may be composed of (a) an appropriation (not exceeding 5% of the tax levy of the preceding year), (b) money transferred from Overlay Reserve, or (c) both. Transfers from the Reserve fund may be made only by the Advisory Committee and are for "extraordinary or unforeseen expenditures" only.

Conservation Fund:
For land purchases and any other conservation use.

DRAFT

Introduction to the Rules of Town Meeting

Southborough's Town Meeting is an open town meeting in which all registered voters may participate. Town Meeting is a deliberative assembly, conducted via a defined process, charged with considering a maximum number of questions of varying complexity in a minimum amount of time and with full regard to the rights of the majority, strong minority, individuals, absentees and all of these together. In other words, we gather for the purpose of conducting the Town's business thoughtfully and efficiently.

AUTHORITY

The three elements of authority at Town Meeting are a quorum of one hundred (100) registered voters or more, the Clerk and the Moderator. Of these three, the quorum is the most important.

The Town Clerk is responsible for voter registration, certification of a quorum, setting up the hall and keeping the record of the proceedings. He may also officiate Town Meeting in the absence of a Moderator.

The Moderator presides at and regulates the proceedings, decides all questions of order, and makes declarations of all votes. No one may speak on an issue without being recognized by the Moderator. It is the Moderator's responsibility to approve the distribution of materials, and persons wishing to do so must seek his permission. The Moderator appoints Tellers and alternates for the purpose of counting votes of the meeting.

THE WARRANT

All matters to be considered at Town Meeting must be published in the Town Meeting Warrant, which is the responsibility of the Board of Selectmen. The primary and most important purpose of the Warrant is to notify voters in advance the nature of the business to be taken up at Town Meeting. By state law, Town by-law or custom, several business articles (such as budget appropriations) must be presented in the Town Warrant each year for consideration. Other items are added by warrant articles proposed by Town officials, committees, boards, or groups of ten or more registered voters. The Advisory Committee reviews the Warrant, making recommendations on all the items of business to be presented. In accordance with the Town by-laws, all articles in the Warrant are considered in the order in which they appear in the Warrant, unless the Town Meeting votes to change the order for reasons that reasonable people would entertain.

PARTICIPATION

Any voter wishing to participate in Town Meeting must go to one of the floor microphones and wait to be recognized by the Moderator. Upon recognition by the Moderator, first state your name and address, and then state your business.

Anyone whose name is not on the list of registered voters requires the approval of either the Moderator or a majority of the Meeting to sit in the voting area.

All remarks shall be limited to the subject then under discussion. It is improper to indulge in references to personalities, and all expressions of approval or disapproval, such as applause or booing, are out of order. The Moderator may request any person to keep silent. If after warning from the Moderator, a person refuses to be silent or persists in other disorderly behavior, the Moderator may order a person to withdraw and if he fails to withdraw, may order a police officer to remove such person from Town Meeting.

Individuals who have a personal or financial interest with respect to a matter may speak or vote thereon but should frankly disclose their interest. However, no Town Meeting voter should accept compensation for participating without disclosing that fact.

There is no fixed time limit to the debate of any question. However, out of consideration for the others in attendance and the need to give adequate time to all matters coming before Town Meeting, each individual who speaks should make an effort to be as brief as possible and avoid repeating facts, views or opinions already expressed by others.

DRAFT

Anyone wishing to make a presentation with respect to any article must, prior to Town Meeting, obtain the Moderator's approval.

In order to give all a fair opportunity to speak, no one who has addressed any particular motion shall speak again, except to answer questions, until all others wishing to speak to the motion have done so.

HOW ARE MOTIONS CLASSIFIED?

Main Motions
Motions of this group are for the bringing of questions, or propositions, before Town Meeting for consideration. Only one main motion can be considered at a given time, and once introduced such a motion excludes all other main motions until it has been disposed.

Subsidiary Motions
Motions of this group have are for the modification or disposition of the main motion that is being considered. Their existence as motions depends entirely upon the principal motion to which they are subordinate. Since they relate to the question then under consideration, it is in order to propose them when a main motion is pending and to vote upon them before voting upon the main motion.

Privileged Motions
Motions of this group have no connection whatsoever with any main motion, but are motions of such importance that they are entitled to immediate consideration. These motions have the privilege of temporarily setting aside the main business then before Town Meeting.

Incidental Motions
Motions of this group have few characteristics in common, but for convenience have been grouped into one class. The name "incidental" applies because they arise only incidentally out of the business of Town Meeting.

RULES RELATIVE TO MOTIONS

A motion is the means of bringing a proposal or question for consideration by Town Meeting. When first put forward it is a motion; after it is seconded and acknowledged by the Moderator, it becomes the question or proposal. Except for complimentary resolutions (the presentation of which must be approved in advance by the Moderator), no main motion shall be entertained unless it's substance is contained within the scope of a Warrant article. Upon completion of debate, articles will be voted upon.

The Moderator shall determine whether a motion, or any discussion relative to a motion, is within the scope of the Warrant article under consideration. That is, the motion and the debate must be relevant to the article as written in the Warrant, since the purpose of the Warrant is to apprise voters of the actions to be taken at Town Meeting.

Articles only give notice to the voters and do not initiate action; motions do. Motions may be withdrawn; articles may not be withdrawn – articles must be acted upon by Town Meeting.

There are four types of amendments: striking out, inserting, striking out and inserting, and substitution. Motions to amend may be hostile as long as they are germane. An amendment to a motion is an amendment of the first rank; an amendment to an amendment is of the second rank; there can be no amendment beyond that of the second rank.

Some motions do not lead to a final determination by Town Meeting. A motion to commit or to refer sends the matter to an existing board or committee or one to be established. The motion to postpone indefinitely disposes of the question without bringing it to a direct vote. The motion to postpone indefinitely should not be confused with the motion to table which only temporarily delays a vote. As previously stated, articles may not be withdrawn; so when the Meeting does not wish to act on a particular article, the proper motion is to postpone consideration indefinitely.

DRAFT

Motions to reconsider shall be entertained when new information is available that is materially different than was presented (or could have been presented) at the time of the original vote on the article. Articles may be reconsidered only once. If a motion to reconsider is passed by the necessary 2/3 vote, it brings the original article back to the floor (which requires a new motion and additional debate); if the motion to reconsider is defeated, then the original article stands as previously voted and may not be reconsidered again. Actions to reconsider can be taken at the same session or any subsequent session of Town Meeting. A notice of reconsideration may be filed in advance with the Town Clerk stating that, at a specific point during the current Town Meeting, a voter will move for reconsideration on a particular article, and the Moderator will inform the hall of said action. Note that such a motion so noticed in advance must still be in order (i.e., must comply with all conditions required of any reconsideration motion).

All motions other than purely procedural motions must be in writing and signed by the sponsor.

CHART OF PRECEDENCE OF MOTIONS AND SUMMARY OF GOVERNING RULES

	May interrupt a speaker	Req. a sec.	Debatable	Vote Required	Motions that may apply
PRIVILEGED MOTIONS					
1. To dissolve	no	yes	no	majority	none
2. To adjourn	no	yes	limited	majority	amend
3. Point of no quorum	no	no	no	none	none
4. Recess	no	yes	limited	majority	amend

16. Reconsider	Mr. Moderator, I move to reconsider the vote under Article...
	Mr. Moderator, I move to reconsider the vote on the amendment to...
17. Separate Consideration	Mr. Moderator, I move for separate consideration.
18. Suspend the Rules	Mr. Moderator, I move to suspend the rules which interfere with...
19. Take from the Table	Mr. Moderator, I move to take from the table the motion relating to...

INTERRUPTING A SPEAKER

No one may interrupt a speaker except for a point of order or a question of privilege.

POINT OF ORDER

A point of order if a question of the Moderator about whether the speaker is entitled to be speaking, or whether the current subject under discussion (or what the speaker is saying) is irrelevant, illegal or contrary to proper procedure. No other "point of order" is proper.

PREVIOUS QUESTION

To call or move the question is a request to stop discussion and to take an immediate vote. This requires a 2/3 vote.

VOTING

Voting is by hand vote and the Moderator declares the result of such votes. If seven or more voters immediately question the declared result, the Moderator shall determine the result by a standing count of votes by the Tellers. After the vote counted by the Tellers is presented to the Moderator and announced to the floor, any further motions for recount are out of order.

ADJOURNMENT AND DISSOLUTION

Sessions of Town Meeting normally adjourn at eleven o'clock in the evening but may adjourn at such earlier or later time as vote of the majority may determine. Town Meeting shall not dissolve until all articles in the warrant have been properly considered.

DRAFT

TOWN WARRANT
COMMONWEALTH OF MASSACHUSETTS

SPECIAL TOWN MEETING

Worcester, ss. September XX, 2024

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the Inhabitants of the Town of Southborough qualified to vote in town affairs, to meet in the P. Brent Trottier Middle School, 49 Parkerville Road, in said Southborough, on

Monday, September 30, 2024

at ***7:00 p.m.***, then and there to take action on the following Articles:

ARTICLE 1: To see if the Town will vote to amend the Personnel Salary Administration Plan, as specified in Chapter 31 of the Code of the Town of Southborough, entitled: PERSONNEL, as follows:

PERSONNEL BYLAW
ENTITLED "THE SALARY ADMINISTRATION PLAN"
[revised at September 30, 2024 Special Town Meeting

Advisory Committee Recommendation:
Summary:

ARTICLE 4: To see if the Town will vote to delete Chapter 6, Article II of the Town Code, Consumer Advisory Commission; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary:

ARTICLE 5: To see if the Town will vote to amend Town Code § 9-25 Meeting Minutes, by deleting it in its entirety and replacing it with:

Each board, committee, or commission shall provide minutes for each of its meetings to the Town clerk within 45 days of the meeting. Minutes shall be kept by the Town clerk for a period as required by applicable state law. This requirement shall not apply to Executive Session Minutes, which shall only be provided to the Town clerk within 45 days from the date that they are released for public disclosure.

A. Minutes shall indicate whether they have or have not been approved by the board, committee or commission when submitted to the Town clerk.
   (1) Minutes that have not been approved at the time of their receipt shall be labeled "Draft."
   (2) The Town clerk shall log the receipt of all minutes, and the Town clerk shall post minutes on the Town website.

B. Minutes shall be submitted in a manner consistent with the Open Meeting Law (MGL c. 30A, § 22), and the Attorney General's Open Meeting Law Guide, and must include:
   - The date, time and place of the meeting;
   - The members present or absent;
   - The decisions made and actions taken, including a record of all votes;
   - A summary of the discussions on each subject;
   - A list of all documents and exhibits used at the meeting; and
   - The name of any member who participated in the meeting remotely.

C. Minutes submitted to the Town clerk shall include, as reasonably possible, copies of all documents, exhibits, and electronic files of any audio or video presentations used at the meeting, including items created by the board members, or by others allowed to make presentations at the meeting.
   (1) The term "used at the meeting," as defined by the Attorney General, shall mean a document, exhibit, audio or video presentation that was (1) identified by name, or (2) presented at the meeting, and (3) discussed at the meeting. This requirement shall apply equally to meetings held in-person, hybrid, or virtual meetings.
   (2) If copies of documents or other exhibits used at the meeting cannot be provided due to the physical nature of the exhibit (e.g., size of the exhibit, etc.), the specific filing location of the document or exhibit shall be identified.

D. The last page of the minutes shall include a section labeled Documents Used at This Meeting and shall list the names of each document that was used at the meeting.

E. The town clerk shall maintain and publish a monthly summary of every instance when a board or committee has not complied with the provisions of this bylaw.

; or do or act anything in relation thereto.

Proposed by: TOWN CLERK
Select Board Recommendation: Support
Advisory Committee Recommendation: Support
Summary: *This Article clarifies the existing requirements for a board, committee, or commission ("the board") to maintain minutes and documents used at a meeting and clarifies that this requirement applies to both in-person meetings, hybrid and fully virtual meetings. This Article also requires the town clerk to maintain and publish a monthly summary of board and committees that have not complied with the provisions of this bylaw. A recent review of board meetings revealed many instances where no documents were submitted by a board.*

ARTICLE 6: To see if the Town will vote to accept M.G.L c.200A, §9A to allow the Treasurer-Collector to collect unclaimed checks or "tailings"; or do or act anything in relation thereto.

Proposed by: SELECT BOARD

Select Board Recommendation:
Advisory Committee Recommendation:
Summary: *MGL Chapter 200A S9A provides for an alternative procedure for the disposing of abandoned funds known as tailings, held in the custody of the Town. Adopting this statute allows for a more efficient and expedited process for the disposing of abandoned funds, allowing the Treasurer to take these funds as General Fund revenue after there have been several attempts to notify the check recipient, once a full year has passed since the original issuance. Not passing this MGL means the Town must follow Massachusetts Unclaimed annual reporting guidelines whereby there is a 3-year waiting period and the funds transfer to the state not the Town.*

ARTICLE 7: To see if the Town will vote to add a new §174-10.3 to the Town of Southborough's Zoning Bylaws, amend the zoning map to include the MBTA Communities Overlay District (MCOD) as shown on the maps prepared by Bohler Engineering in March 2024 as further depicted in the handout, amend certain other sections to integrate the new section into the current zoning bylaw, and make any minor modifications to the text required for consistency with the existing format of the bylaws or do or act anything in relation thereto.

Proposed by: PLANNING BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary:

ARTICLE 8: To see if the Town will provide feedback to the Select Board on the Board's recommended approach to provide public safety dispatch services

; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary:

ARTICLE 9: To see if the Town will vote to amend the Town Code to eliminate the Southborough Housing Opportunity Partnership Committee (SHOPC), and create a new committee that consolidates the responsibilities of SHOPC and the Affordable Housing Trust Fund Committee (AHTFC)

; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary:

ARTICLE 10: To see if the Town will vote to approve a process to transfer funds from the Affordable Housing bucket of CPA to the Southborough Affordable Housing Trust.

; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary:

ARTICLE 11: To see if the Town will vote to accept M.G.L. c.44, §3(b1/2), to allow for additional funding sources to be used in conjunction with Community Preservation Act projects; or do or act anything in relation thereto.

Proposed by: SELECT BOARD

Select Board Recommendation:
Advisory Committee Recommendation:
Summary:

ARTICLE 12: To see if the Town will vote to transfer $17,068 from Assessor's Overlay Surplus for funding miscellaneous adjustments to the Fiscal Year 2025 budget as follows:

Department	Line Item	Amount
Treasurer-Collector Personnel Services	145-51100	$1,004
Select Board Personnel Services	122-51100	$1,004
Assessor's Personnel Services	141-51100	$2,987
Fire Personnel Services	210-51100	$1,847
Youth Commission Personnel Services	542-51100	$2,276
Recreation Personnel Services	630-51100	$ 250
Youth Commission Other Charges & Expenses	542-57100	$ 750
Treasurer-Collector Other Charges & Expenses	145-57800	$ 750
Assessors Other Charges & Expenses	141-52540	$6,200

; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary: *This article funds salaries for various employees which were not finalized until after Annual Town Meeting was concluded. Additionally, there are three non-salary requests:*

(a) Treasurer-Collector – Costs have increased for required bonds for Treasurer and Deputy Treasurer;

(b) Assessor - The Assessor's database was due to be migrated to the cloud in FY26 however access to the server has created multiple problems that are adversely affecting the Department's operations, so migration needs to happen sooner;

(c) Youth &Family Services – Mileage reimbursement for new intern position.

ARTICLE 13: To see if the Town will vote to appropriate $2,127,960, or any other amount, to be expended with the approval of the Select Board, to pay additional costs of remediating pollution at the Breakneck Hill dumpsite, as required by an administrative consent order between the Town and the Department of Environmental Protection,

including the payment of all costs incidental and related thereto; to determine whether this amount shall be raised by taxation, transfer from available funds, borrowing or otherwise provided, or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary: *Due to recently discovered site conditions, and to remain in compliance with the Administrative Consent Order from DEP, the total cost of the project has increased from what was originally voted to be borrowed under Article 9 of the March 2023 town meeting.*

ARTICLE 14: To see if the Town will vote to raise and appropriate by borrowing a sum of money to clean up the former Atwood water tank property

; or do or act anything in relation thereto.

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, August 6, 2024 6:00 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers and Marguerite Landry. Al Hamilton appeared via ZOOM. Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale.

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:00 PM.

II. Executive Session

Mr. Stivers moved to enter into Executive Session at 6:00 PM, per M.G.L. Chapter 30A, Section 21, and return to Open Session, to discuss strategy with respect to litigation (Exemption 3) where an open meeting will have a detrimental effect on the litigating position of the public body and the chair so declares: Louise Barron v Daniel Kolenda. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

Ms. Cook returned the Board to Open Session at 6:36 PM.

Ms. Cook heard Public Comment after IV. Scheduled Appointments.

III. Scheduled Appointments *(Board may vote)*

a. 6:30 PM – Public Hearing; FY25 Transfer Station Regulations

Mr. Purple read the public hearing notice into the public record at 6:36 PM. DPW Superintendent Bill Cundiff appeared before the Board on the matter. Superintendent Cundiff reviewed the proposed changes, noting that the changes are minor and some are grammatical in nature. Mr. Dennington asked about the insertion of "commercial refuse not accepted." Superintendent Cundiff stated he has seen refuse that he suspects is commercial and would like to come up with better ways to identify violators. Mr. Dennington stated he is supportive of this change. Mr. Mike Canova, 41 Highland Street, asked if vehicles with commercial license plates would be excluded from the transfer station. Superintendent Cundiff stated that only commercial refuse would be excluded from the transfer station. Mr. Shawn Rose, 3 Lovers Lane, asked that the exclusion of paper bags for yard waste be added to the rules. Superintendent Cundiff stated that Mr. Rose's recommendation is a good one that could be added to next year's regulations. Ms. Cook stated that the Board is only being asked to vote on the regulations as presented this evening. Mr. Stivers moved to close the public hearing at 6:49 PM. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0). Mr. Stivers moved to approve the Transfer Station Regulations for FY25, as amended. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

b. Appoint Marlo Taylor as FT Communications Officer

Chief Newell requested that the Board appoint Ms. Marlo Taylor as a full-time Communications Officer. Ms. Taylor was not in attendance at the meeting and Chief Newell stated she would be filling one of the two full-time positions approved at Annual Town Meeting. Mr. Hamilton asked if the Department has one full-time and one part-time position still available. Chief Newell replied that is the case and the position are still being advertised. Mr. Stivers moved to approve Marlo Taylor as full-time Communications Officer. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

c. Appoint Anthony Vega as FT Police Officer

d. Appoint Andrew Whamond as FT Police Officer

Ms. Cook heard Scheduled Appointments "c" and "d" before Scheduled Appointments "b." Police Chief Ryan Newall appeared before the Board in the matter. Chief Newell presented Mr. Anthony Vega and Mr. Andrew Whamond to the Board and requested that they be appointed as full-time Police Officers with the Southborough Police Department. Chief Newell reported that with the appointment of Mr. Vega and Mr. Whamond, the Southborough Police Department would be fully staffed. The Board welcomed Mr. Vega and Mr. Whamond to the Department. Mr. Stivers moved to appoint Anthony Vega as a full-time Police Officer and Andrew Whamond as a full-time Police Officer. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

The Board recessed at 6:55 PM and resumed meeting at 6:58 PM.

e. Board and Committee appointments:

i. Sheri Widdiss to the Conservation Commission, term to expire 6/30/2027

Ms. Sheri Widdiss appeared before the Board, via ZOOM, in the matter. The Board interviewed Ms. Widdiss. Mr. Hamilton asked Ms. Widdiss for her thoughts on returning Chestnut Hill Farm to a working farm. Ms. Widdiss stated she would need to review the Conservation Restriction on the property and then understand the goals of the Conservation Commission and Board related to the property. Mr. Stivers moved to appoint Sheri Widdiss to the Conservation Commission, term to expire 6/30/2027. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

ii. Jane Gates to Cultural Arts Council, term to expire 8/5/2026

Ms. Jane Gates appeared before the Board in the matter. The Board interviewed Ms. Gates. Mr. Stivers moved to appoint Jane Gates to the Cultural Arts Council, term to expire 8/5/2026. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

iii. Nicole Boloz to Cultural Arts Council, term to expire 10/2/2025 (to complete Jen Hansen's term)

Ms. Nicole Boloz appeared before the Board in the matter. The Board interviewed Ms. Boloz. Mr. Stivers moved to appoint Nicole Boloz to the Cultural Arts Council, term to expire 10/2/2025. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

f. Update from the Cultural Arts Council: Katlyn Heusner

Ms. Katlyn Heusner appeared before the Board on the matter. Ms. Heusner updated the Board on the recent activities of the Cultural Arts Council. She stated that the Council had recently re-organized into an executive committee structure, consistent with the Massachusetts Cultural Arts Council guidelines, and reported that she and members Elizabeth Kesselman and Rajani Kumari sit on

the executive committee. She also stated the Council has focused on recruitment and presently has a full committee of six members. Council member Elizabeth Kesselman appeared before the Board to clarify that the Massachusetts Cultural Arts Council's guidelines require a minimum number of five members in order to award grants. Ms. Heusner stated the committee's goals include: 1) how to functionally improve to ensure they are in general compliance, while also understanding the Board's goals; and 2) identifying and working with other partners in Town to enhance arts and culture for the residents. She stated that the Council annually awards a total of $6,000 in grants and informed the Board that the grant cycle would open on September 1st and close on October 17th. She also stated the Council recently conducted a survey on all aspects of their grants process to obtain public feedback and shared the results of the survey. The Board and Ms. Heusner discussed space needs, greater community involvement and publicity for the upcoming grant cycle. Mr. Stivers suggested that the Board consider budgeting some funds annually for the Cultural Arts Council.

g. Update from Historical Commission: Kevin Miller

Mr. Kevin Miller, Chair of the Historical Commission, appeared before the Board in the matter. Mr. Miller called the Historical Commission meeting to order at 7:36 PM. Members present: Kevin Miller, Grant Farrington, Kelly O'Brien and Dan Blanchard. Vice Chair Annie Phaff appeared via ZOOM. Absent: Michele Hokinson and James Blaschke. Mr. Miller updated the Board on recent activities of the Historical Commission. He stated that ARPA funds were used for the following: 1) the National Historical District Register sign project. The project has been completed and the signs are up; 2) $1,000 to restart the historic house sign project. Mr. Miller stated this project is free to homes that qualify, although the Commission accepts donations and hopes this project will become self-sustaining. Vice Chair Annie Pfaff stated that, to date, the Commission has delivered 55 signs in total, with 12 signs in the pipeline and approximately 350 signs on the list that qualify; and 3) $500 has been used to purchase a sign for the water tower in the Rural Cemetery. Mr. Miller stated that the Commission is looking into the challenges for preserving structures affected by the Demolition Delay Bylaw. He stated that the Bylaw should be consistent with the age of historic buildings in the zoning code, which is 85 years old. Mr. Stivers suggested the Historic Commission bring forth an article at Annual Town Meeting 2025 that makes the Demolition Delay Bylaw consistent with Town Code. The Historic Commission and the Board discussed the status of 42 Main Street. Mr. Hamilton stated that he believes the Demolition Delay Bylaw should be re-examined, as he views the Bylaw as an inconvenience to property owners. Mr. Miller stated that the Historical Commission is also working on the following issues: 1) working with Jon Delli Priscoli regarding the viewscape at the Burnett House; 2) finding a location for historical record storage and to display historical Town documents; 3) marking the graves of the 43 Revolutionary War veterans who are in unmarked graves in the Old Burial Ground; and 4) integrating an education aspect of the 250th anniversary of the Revolutionary War (in 2026) with the Tricentennial Celebration that will take place in 2027. Ms. Landry stated she feels the historical document storage matter should be addressed in the near future. Mr. Dennington stated that CPC grant applications are due by August 31st. The Board and Historical Commission discussed logistics for the Town Common Rail Replacement Project and agreed that Mr. Dennington would draft a grant proposal for the Historical Commission to review prior to August 31st. Mr. Dennington requested that any other potential funding sources for the project be relayed to Mr. Dennington for inclusion in the grant application. Mr. Farrington moved to adjourn the Historical Commission meeting at 8:13 PM. Ms. O'Brien seconded the motion. The motion was unanimously approved by roll call vote: Ms. Pfaff, aye; Ms. O'Brien, aye; Mr. Farrington, aye; Mr. Blanchard, aye; Mr. Miller, aye (5-0-0).

Ms. Cook moved to Other Matters "b" at this time.

VI. Public Comment

There was no public comment.

V. Reports

a. Chair's Report

i. Neary Building Committee report; Recreation Commission vacancies

Ms. Cook reported that the Neary Building Committee (NBC) would decide by next week on the project to recommend for a vote at Annual Town Meeting 2025. She stated the NBC Financial Subcommittee would present the latest estimates to the Board at a meeting this Friday, August 9th, at 1 PM and she urged the public to attend/view.

Ms. Cook stated that at each meeting, the Board would highlight a board/committee to inform residents about vacancies and encourage them to volunteer. She stated this meeting's spotlight is on the Recreation Commission and added they have two vacancies available.

b. Members' Reports

i. RECC update

Mr. Hamilton reported that the Virtual RECC presentation was sent to Ashland, Westborough and Northborough, and added there has been no feedback received from the communities on the concept of a virtual RECC. Mr. Hamilton stated that he spoke with a representative from State 911 regarding a potential virtual RECC and the representative was not encouraging about the concept. Mr. Hamilton stated that he believes the Board should hold 2-3 public forums in the coming months to discuss the options available and to determine a path forward for the Town. Mr. Hamilton and Mr. Stivers agreed to propose a schedule for the public forums prior to Special Town Meeting.

ii. Update on 2025 One Stop grant application for Rt. 9 zoning

Mr. Dennington reported that he and Ms. Cook appeared before the Planning Board to discuss the Board's goal to pursue a One Stop grant application to study zoning improvements on Rt. 9. He stated he was pleased that the Planning Board unanimously expressed their support and interest in collaborating on the One Stop grant application. Mr. Dennington noted that if the Town were successful in receiving a One Stop grant, any work related to the grant would follow the MBTA Communities work presently being addressed by the Planning Board.

Mr. Dennington also reported that the Affordable Housing Working Group met August 1st. Members present were the following: Mr. Dennington and Mr. Hamilton from the Affordable Housing Trust Fund Committee, Doug Manz and Paul Desmond from the Southborough Housing Opportunity Partnership Committee (SHOPC) and Lisa Braccio, member at-large. He stated that he believes the group will have draft language by the end of August for Special Town Meeting.

c. Town Administrator's Report

i. August special meeting: Tuesday, August 27th proposed

Mr. Purple reported that the Board would hold a meeting on Tuesday, August 27th, to finalize the warrant for Special Town Meeting on September 30, 2024. He also stated that the Board and the School Committee would hold a joint meeting on September 11, 2024 at 6:30 PM to appoint the new K-8 School Committee member.

iii. Staffing study update

Mr. Purple reported that he, Police Chief Newell and Fire Chief Puntini, have received a draft of the study and are offering comments to the consultant. He stated he expects to have a final version for the Board to review next week.

iv. Update on Division of Local Services (DLS) Financial Policy Manual

Mr. Purple reported that the DLS's review of the Town's Financial Policy Manual has been completed and is currently under review by Mr. Purple and the Finance team. He stated there is a great deal of information to digest and he believes the Finance team will likely report first on updating current financial policies of the Town. He expects the review/recommendations will be presented to the

Board and Advisory next week. He stated the Town is still awaiting DLS's review of the Town's financial operations.

VI. Consent Agenda

a. Approve Open Session Meeting Minutes: July 10, 2024; July 16, 2024; July 23, 2024

Mr. Stivers and Ms. Landry requested to hold Consent Agenda item "a." **July 10, 2024 Minutes:** Ms. Landry, Mr. Stivers and Mr. Dennington had scrivener's changes to the minutes. **July 16, 2024 Minutes:** Mr. Stivers requested that Atty. William Solomon attendance, via ZOOM, be added to the minutes. Mr. Cook moved to approve the July 10, 2024 minutes, as amended, the July 16, 2024 minutes, as amended and the July 23, 2023 minutes, as written. Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

b. Approval of 2024 Warrant for State Primary
c. Approve police detail for election
d. Approve Early Voting dates for September and November Elections
e. Approve amended poll workers' rate
f. Appoint Doug Manz as the SHOPC representative to the CPC
g. Appoint Leslie Naditch to OSPC (swearing-in period expired)

Ms. Cook moved to approve Consent Agenda items "b", "c", "d", "e", "f" and "g." Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

VII. Other Matters *(Board may vote)*

a. Review of September 30, 2024 Special Town Meeting warrant

i. Review of all warrant article placeholders

Ms. Cook suggested, and the Board agreed to remove two articles from consideration at the Special Town Meeting: increasing the CPA surtax and creating a Storm Water Enterprise Fund.

ii. Review order of warrant articles

The Board discussed the order of the warrant articles. The Board agreed to order the articles as follows (and as numbered in the Draft Warrant): 1) remove Articles #12 and #14 from consideration; 2) Potential Consent Agenda: #1, #2, #7, #8, #9); and 3) the following articles after the Consent Agenda: #10-MBTA, #16-RECC, #11-SHOPC/AHTFC consolidation, #13-Transfer of CPC/Affordable Housing funds, New Article Section 3 (b1/2), #3-Breakneck Hill, #4-Atwood, #5- Public Safety Staffing Study, #6-EDC Coordinator hours and #15-Annual Town Meeting date requirements. The Board agreed to discuss the recommendations from the Public Safety Staffing Study with Chief Newell at its August 27th meeting and suggested a joint meeting with the Advisory Committee at that time. The Board discussed Article #6-EDC increase the coordinator position to full-time. Mr. Hamilton stated that he would like to see performance standards attached to the position to determine if the increase in hours is a benefit to the Town. The Board indicated their unanimous support for Article #6.

iii. Consideration of article to accept MGL Chapter 44B Section 3(b1/2) – to allow use of other municipal funds to supplement CPA funds

Ms. Cook heard this matter prior to Other Matters "a." Mr. Stivers stated that the Town's CPA bylaw language, approved in 2005, does not reflect the State's amended language. Mr. Stivers is proposing that the Town amend the bylaw to accept the State's amendment, as doing so would allow the Town greater flexibility in funding projects using CPA monies. Mr. Stivers stated that this matter is administrative. Ms. Cook stated that the CPC would vote on the matter at its meeting on Thursday evening. The Board discussed the matter and agreed to support an article at Special Town Meeting that amends the Town's CPA bylaw. Mr. Stivers will follow up on the matter.

b. 352 Turnpike Road overview with Ferris Development on proposed 40B project

Mr. David Ferris, Principal of Ferris Development Group, and Atty. George Bahnan, Assistant Counsel for Ferris Development Group, appeared before the Board on the matter. Mr. Ferris thanked the Board for their efforts to cooperate with his 40B projects. He stated that he is proposing a six-story 40B project at 352 Turnpike Road of 68 rental units consisting of 55 one-bedroom units, 6 two-bedroom units and 7 three-bedroom units. He noted that 25% of the units would qualify as affordable. Mr. Ferris stated that he has three potential projects in the pipeline that would allow the Town to reach Safe Harbor and be in control of future proposed projects. Ms. Cook asked about next steps. Mr. Ferris stated that concept plans have been drawn up and he is seeking feedback on those plans. Following any feedback, Mr. Ferris stated that Ferris Development Group would apply to the State for a Project Eligibility Letter. Mr. Dennington asked if the project would use impervious surface (parking lot). Mr. Ferris stated that it would. Mr. Dennington asked if mixed-use was an element of the project. Mr. Ferris stated that at this time, conceptually, it was. The Board discussed the proposed project.

VIII. Public Comment

There was no public comment.

IX. Adjournment

Ms. Cook moved to adjourn at 9:18 PM. Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

INTEROFFICE MEMORANDUM

To: Select Board as Water Commissioners
From: William J. Cundiff, P.E. , DPW Superintendent
Date: 08/16/2024
RE: Water Abatement requests

In an effort to streamline processes, I am requesting authorization from the Select Board to grant water abatement requests totaling up to $200.00 for individual water user accounts. These requests will only apply to routine requests that users would be clearly entitled to. Any requests that are not routine in nature or require subjective review will still be forwarded to the Select Board. This authorization is only requested until July 1, 2025.

INTEROFFICE MEMORANDUM

To: Select Board
From: William J. Cundiff, P.E. , DPW Superintendent
Date: August 23, 2024
RE: Civil Engineer Position Recommendation – Caitlin Cervello

After reviewing over 20 potential candidates for the Civil Engineer Position in the Public Works Department, the Interview Team (myself, Vanessa Hale and Karina Quinn) interviewed seven potential candidates for the position. The Team agreed that the best candidate for the position was Caitlin Cervello. Ms. Cervello attended University of Hartford where she received her Bachelor of Science in Civil Engineering and continued there to get her Master of Science in Environmental Engineering and her Masters of Business Administration. She graduated in 2021 and has worked for R.H White for a total of four years, as a Construction Management Trainee and an Assistant Project Superintendent.

After meeting with Ms. Cervello, the interview team was unanimous in our support for her appointment to the position of Civil Engineer in the Public Works Department. Accordingly, please consider this my wholehearted support of her appointment to the position.

CAITLIN CERVELLO

[redacted]

WORK EXPERIENCE

June 2022 – Present — Assistant Superintendent, *R.H. White Construction*

Responsible for field operations and technical support in order to achieve the safe, timely, and profitable completion of each project. Daily responsibilities include supervision of field crews, document tracking and review, short- and long-term scheduling, coordination of subcontractors and vendors, execution of purchase orders, safety planning, invoicing, and communication with project owners and engineers. Projects focus on upgrades to water and wastewater treatment facilities, with experience in civil, architectural, structural, process, mechanical, plumbing, HVAC, instrumentation, and electrical disciplines.

June 2020 – June 2022 — Construction Management Trainee, *R.H. White Construction*

Cross-functional training program across various disciplines encompassing the three main areas of construction: project management, site supervision, and estimating.

- *Project Management*: Assisted with submittal review, subcontractor communication, safety planning and compliance, and monthly FBs on the Killingly WPCF, Deans Mill WTP, & Leominster WWTF projects.
- *Site Supervision*: Facilitated daily coordination with crews and subs on site, reviewed daily safety plans, maintained jobsite organization, executed subcontracts and POs, completed short-term scheduling, and updated project documents for Eversource required job book on the Sutton City Gate Station project.
- *Estimating*: Assisted on takeoffs and development of scope sheets for multiple bids, drafted RFIs to owners, assisted in turnover and buyout procedures, solicited vendors for various trades, and prepared bid submission documents.

Participated in Sustainability Committee, Millennial Mentorship Program, and numerous training, professional development, and recruiting events.

Town of Southborough
Select Board
Southborough Town House
Southborough, MA 01772

Dear Select Board:

Please be advised that Kenneth J. & Kathleen F. Kimball, 140 Fairbanks Oak Allee, Unit 3B, Daniel Island, SC 29492 has requested that the town buy back one (1) cemetery lots purchased by them in 2020.

If the board approves, they understand that the buyback will be at the price originally paid per lot including perpetual care for a total of $850.00.

Sincerely,

TOWN OF SOUTHBOROUGH

Subject: Re: Request to Buy Back my 3rd Grave Site

[EXTERNAL]

Tammi, the purpose of this letter/email is to request a buy back of one of grave sites #255 in the Rural Cemetery. The reason is that my wife now has decided to be cremated and will be buried with me. As a result do not need a 3rd grave site #255 and requesting the town buy back the 3rd grave site.
If I can answer any questions please let me know.

Thank You ,
Tammy for your quick response and Andy's advice.

Town of Southborough
Rural Cemetery

License of burial rights

Know All People By These Presents

That the Town of Southborough, in consideration of *One Thousand Eight Hundred Dollars* ($1,800.00), the receipt of which is hereby acknowledged, do hereby grant, bargain, sell and convey to *Kenneth J. & Kathleen F. Kimball* Grantee, of *140 Fairbanks Oak Allee, Unit 3B, Daniel Island, SC, 29492* the exclusive right of burial, or inurnment of cremated remains, of human dead in a certain lot or niche in the Rural Cemetery in said Town of Southborough, and of placing and maintaining on said lot or niche, tombs, cenotaphs, and monuments authorized by the Department of Public Works, pursuant to the authority of the Special Act of the General Court Chapter 447 of 1991, or any other board or office having charge of the cemetery at the time of placing the same, said lot or niche being described as: ***Grave #'s 253, 254, & 255 located in Section M.***

As shown on the plan of said cemetery, on file in the office of the Rural Cemetery of said Town of Southborough.

TO HAVE AND TO HOLD the said right unto said grantee and *their* heirs, successors and assigns forever, to be used only for the purposes above set forth, and subject to the covenants herein contained and such regulations and restrictions relating to said cemetery, or the graves, lots, niches or lawn crypts therein, as are now or shall from time to time be established by the Board of Selectmen of the Town of Southborough or such board or officer having charge of said cemetery.

FURTHERMORE, receipt of *Seven Hundred and Fifty Dollars---* ($750.00) is hereby acknowledged for the perpetual care of the cemetery in accordance with the rules and regulations of the Rural Cemetery.

This License of Burial Rights is issued subject to the following special conditions:

* *Maximum size base allowed for your 3-grave lot is 4'0" long x 1'2" wide. Only one upright memorial allowed. Said memorial shall be placed at the top and centered on the three graves.*

I hereby certify that the above transactions have been duly recorded in the records of the Rural Cemetery and payment therefore has been deposited with the Town Treasurer:

Department of Public Works
Cemetery Agent

IN WITNESS WHEREOF said Town of Southborough has caused these presents to be signed in its name and behalf by the Board of Selectmen this *21st day of August, 2020.*

TO: **MARK PURPLE, TOWN ADMINISTRATOR**

FROM: **ELIZABETH LYDON, TOWN COUNSEL**

RE: **DONATION FOR CONTROLLED BURN**

DATE: **AUGUST 27, 2024**

Susan and Paul Pietro have offered to donate their house and garage located at 26 Deerfoot Road in Southborough to the Southborough Fire Department to "use and enjoy as they so determine for a public purpose." The Fire Department intends to use the buildings for a controlled burn conducted for training purposes. Pursuant to M.G.L. c. 44 Section 53A1/2, "…a board of selectmen may, in its sole discretion and authority, accept gifts of tangible personal property on behalf of the town… from an individual, and may, in its sole discretion and authority, use said gifts, without specific appropriation thereof, for the purpose of such a gift or, if no restrictions are attached to the gift, for such other purposes as it deems advisable..." Therefore, the Select Board may accept this gift and use it for the desired purpose.

Given the nature of the use, and that the donors will still own the underlying land, I am advising that the Board condition acceptance upon execution of a release by the donors in the event there is any damage to the surrounding property or injuries resulting from the controlled burn, a copy of which is attached hereto.

As always, please reach out with any questions.

RELEASE OF LIABILITY

LOCATION: 26 Deerfoot Road, Southborough, MA 01772

I _____, the undersigned, am the record owner of the house and garage ("the buildings") located at 26 Deerfoot Road, Southborough, Massachusetts, and am voluntarily donating the buildings to the Southborough Fire Department to use and enjoy as they so determine for a public purpose, which is proposed to be used for a controlled for training purposes. I hereby acknowledge the proposed use and understand and hereby remise, release and forever discharge the Town of Southborough, Massachusetts, the Southborough Fire Department, and their employees, agents, attorneys (jointly "Released Parties") from all debts, demands, actions, causes of action, suits, sum and sums of money, accounts reckonings, covenants, contracts, controversies, agreements, promises, doings, omissions, damages, and liabilities of every kind, nature and description whatsoever, both in law and equity, against the said Released Parties I now have, ever had, or will have, related to my donation of the buildings for the above stated purpose and proposed use. I further agree to grant access to the property for said purpose.

Southborough, MA 01772

Dear Chairperson Cook,

Please be advised that pursuant to M.G.L. c. 30B, the Southborough Facilities Department recently solicited quotes for the purchase of #2 Fuel Oil for FY25. Attached is a copy of the specification - conditions for quoting, a quote summary sheet, and the subject bid. There were two respondents to the request for quotes, Jamie Oil Company & Falconi Energy.

I recommend that the contract for #2 Fuel Oil for FY25 be awarded to the lowest quoting firm, Jamie Oil Co. Inc., at a price of $2.8775 per gallon.

Funding for this contract will be paid out of the Other Operations Budget, Line Item: 0100-5-159-***-52110.

Sincerely,
TOWN OF SOUTHBOROUGH

Specification

Supplying and Delivery of #2 Fuel Oil

CONDITIONS FOR QUOTING

GENERAL
Town of Southborough shall herein be referred to as the "Town".

ACCEPTANCE OF QUOTATIONS
Completed Quotation Forms shall be returned by mail to John Parent, Director of Facilities, 9 Cordaville Road, Southborough, MA 01772 or emailed to swood@southboroughma.com on or before 2:00 PM, Thursday, August 8, 2024. The Town reserves the right to accept or reject any or all quotes or any part thereof.

INSURANCE
Contractor to provide certificates of insurance indicating statutory worker's compensation coverage in addition to $1,000,000 CSL minimum general liability/property damage/bodily injury coverage and $1,000,000 CSL automobile coverage. Certificates of insurance confirming that the Town of Southborough is named as additional insured and acceptable to the Town of Southborough shall be addressed to and filed with the Town of Southborough prior to commencement of the work. Renewal certificates shall be addressed to and filed with the Town of Southborough at least thirty (30) days prior to the expiration date of the required policies. The failure of the insurance policies to name the Town of Southborough as an additional insured will constitute a breach of this contract and will be a defense to any claim against the Town for payments under this contract.

QUOTATION FORM
All quotes must be submitted on the attached Quotation Form.

LENGTH OF CONTRACT
This specification shall cover the period through June 30, 2025.

MINIMUM QUALIFICATIONS

Contractors submitting quotations must:

- Have a minimum of three (3) years of experience supplying and delivering #2 fuel oil to government entities.
- Be able to keep to an automatic delivery schedule in order to ensure that no delivery location will run out of fuel oil.
- Be able to routinely deliver fuel oil to any delivery location listed during normal business hours (M-F 6:30 AM to 4:00 PM).
- Be able to make emergency deliveries of fuel oil to any delivery location listed during all times outside of normal business hours.
- Be able to make deliveries of fuel oil within 24 hours of receiving notice.

NONDISCRIMINATION

The Contractor agrees that it will not discriminate against any employee or applicant for employment because of race, color, religious creed, national origin, sex, age or ancestry in connection with the performance of the services under Agreement. The Contractor further agrees that it will comply with all laws, local by-laws, rules and regulations of the Massachusetts Department of Labor and all other regulatory bodies having jurisdiction.

INDEMNIFICATION

The Contractor agrees to guarantee and indemnify the Owner against all damages or loss the Owner may incur or sustain by or through the misconduct or negligence of any agent, servant or employee of the Contractor during the performance of services required by this contract. The Contractor further agrees to maintain adequate insurance to ensure compliance with the above provision.

The Contractor shall, to the maximum extent permitted by law, indemnify and save harmless the Political Subdivision, its officers, agents and employees from and against any and all damages, liabilities, actions, suits, proceedings, claims, demands, losses, costs and expenses (including reasonable attorney's fees) that may arise out of or in connection with the work being performed or to be performed by the Contractor, his/her employees, agents, subcontractors or material persons. The existence of insurance shall in no way limit the scope of this indemnification. The Contractor further agrees to reimburse the Political Subdivision for damage to its property caused by the Contractor, his/her employees, agents, subcontractors or material persons, including damages caused by his/her, its or their use of faulty, defective or unsuitable material or equipment, unless the damage is caused by the Political Subdivision's gross negligence or willful misconduct.

INQUIRIES CONTACT

Contact John Parent with any questions regarding this specification at (508) 485-8175 or jparent@southboroughma.com

CONTRACT AWARD

In accordance with M.G.L. c. 30B, the contract will be awarded to the responsive and responsible quoting entity with the lowest overall price to supply and deliver #2 fuel oil as specified.

CONTRACTS

The contractor will be required to execute a proper contract. A Sample contract form is available upon request.

FUEL OIL SPECIFICATIONS - #2 Fuel Oil

SPECIFIC - #2 Fuel Oil

1. The oil shall be distillate oil.
2. The gravity shall not be lower than 30 degrees APO at 60 degrees F.
3. The flash point shall not be lower than 150 degrees F. (Pensky-Martens closed cup tester).
4. The heating volume shall not be less than 137,000 BTU's per gallon at 60 degrees F.
5. The BS & W shall not exceed 0.05 percent

All grades of fuel oil with regard to sulfur content must conform to regulations of the Commonwealth of Massachusetts, and its subdivisions.

QUANTITIES

Quote pricing shall be based on fixed pricing per gallon. The gallon usages listed are estimated amounts to be to be purchased. The quote pricing listed on the contractor's Quotation Form shall be used for additional gallons purchased if needed. Additional quantities shall not exceed fifteen percent of the estimated gallons.

Dear Chairperson Cook,

The Senior Center recently received a donation of $25,000 from the Cummings Foundation. The donation was given to fund a Program/Volunteer Coordinator for the Senior Center with an emphasis on intergenerational programing.

The part time position would be about 15 hours per week for one year with the possibility of future funding for the position in the future. Pay rate and job description would need to be determined through the approval process with the Assistant Town Administrator and the Personnel Board.

Attached is an e-mail from the Cummings Foundation referencing the donation and its intended use.

Please feel free to contact me if you have any questions and concerns.

Thank you,

Sincerely,

Pam LeFrancois

Senior Center Director

[EXTERNAL]

Dear Pam,

Cummings Foundation was delighted to recently make a donation in the amount of $25,000 to the town of Southborough for the purpose of funding the hiring of a volunteer coordinator.

You expressed your intention to hire an employee to create an intergenerational program through the public and private schools in Southborough to build relationships between students/parents and seniors in town. We are happy to support this effort and wish you well with your execution.

Please contact me if you have any questions about this contribution.

Sincerely,

Joyce

8/26/24

Dear Select Board Members

As part of the fundraising for the 2027 celebration of Southborough's Tricentennial, the Friends of Southborough 300 Inc. will sell engraved bricks. Further, we would like these bricks installed in Southborough's new Heritage Park. We propose the bricks be installed in the short walkway from St. Mark's Street to the top plaza (covering the entire path with either engraved bricks or standard bricks). I have attached a photo for reference. DPW Superintendent Bill Cundiff supports this plan.

The cost for the installation will be covered by fundraising. Our kickoff for this program will be this October's Heritage Day.

The Tricentennial Committee would appreciate your unanimous support to place these bricks in Southborough's Heritage Park.

Thank you

Southborough Tricentennial Committee

MEMORANDUM

DATE: August 23, 2024

TO: Select Board

FROM: Melanie Otsuka, Executive Assistant

SUBJECT: PROPOSED SELECT BOARD OFFICE HOURS DATES

Below are the proposed dates for Select Board Office Hours through December 31, 2024:

- September 10
- October 15
- November 12
- December 10

This schedule maintains the typical 2nd Tuesday Office Hours schedule, except October 15, so as not to conflict with the Select Board meeting on October 8.

For CPC use only: Date Received:

Town of Southborough Community Preservation Committee

COMMUNITY PRESERVATION ACT (CPA) APPLICATION FOR 2024 ANNUAL TOWN MEETING

APPLICATION Due August 31, 2023

Name of Proposal: Transfer of CPA Community Housing Funds to the Affordable Housing Trust Fund

Total CPA funds requested: Balance of CPA Community Housing Funds as of the date of the 2025 ATM

Date of Submission:

Name of Applicant: Affordable Housing Trust Fund

Contact Person: Al Hamilton - Chair

Mailing Address: Town House

Daytime Phone Number: 508 527 3952

Email Address: a.hamilton@southboroughma.com

CPA Funding Requested: Balance of CPA Community Housing Funds as 2025 ATM

Sponsoring Organization and/or Affiliations: AHTFC, Select Board, SHOPC

Have you watched the CPC's Annual Public Forum recording on June 27, 2023 starting at 40 minutes and 17 seconds into the presentation? If this is a housing application, you need to watch the presentation by Shelly Goehring, Senior Program Manager at the Massachusetts Housing Partnership (MHP) that begins at the start of the CPC's Annual Public Forum. Link: https://youtu.be/MIhQprxPsyY

CPA Category (Check ALL that apply - refer to Coalition Chart on Last Page)

Open Space ☐ Historic Preservation ☐

Recreation ☐ Community Housing ☑

Please submit the following application by August 31, 2023; for consideration at Southborough Annual Town Meeting in 2024. Please email your completed application to both: Benjamin Smith, CPC Chair at bsmith@southboroughma.com and Frederica Gillespie, CPA Consultant at fg.cpaconsulting@gmail.com

PLEASE COMPLETE THE PROJECT DESCRIPTION BELOW AND INCLUDE WITH YOUR APPLICATION

PROJECT DESCRIPTION

In describing the project, please include answers to the following questions. Applications may be returned as incomplete if all relevant requested information is not provided. Include supporting materials and exhibits, as necessary.

1 **Provide a Project Name (as it will appear on warrant article)**

Transfer of from CPA Community Housing Funds to the Affordable Housing Trust Fund

2 **GOALS: What are the goals of the proposed project? Who will benefit and why? How will success be measured?**

See Exhibit

3 **ELIGIBILITY: Define how the project meets CPA requirements (please refer to the Allowable Use Chart on page 5)**

This is a use that is specifically identified in the CPA. The transfer of CPA funds to Affordable Housing Trusts is a common practice in the Commonwealth.

4 **HISTORIC PROJECTS: If this is a historic project make sure it complies with the attached Flow Chart, last page**

5 **COMMUNITY NEED: Why is this project needed? Does it address needs identified in existing Town plans?**

The Governor has stated that the Commonwealth has an affordable housing crisis. The town is well behind its housing production plan. The need for affordable housing is identified in multiple town planning documents and production plans

6 **COMMUNITY SUPPORT: What is the nature and level of support and/ or opposition for this project?**

Support from SHOPC (Pending), Select Board (Pending), AHTF

7 **BUDGET: What is the total budget for the project and how will CPA funds be spent? All items of expenditure must be clearly identified, and back-up documentation provided. Distinguish between hard and soft costs. Depending on your project, more than one estimate may be required (NOTE: CPA funds may NOT be used for maintenance). Attach a two to five-year budget, if appropriate.**

We are requesting the balance of the CPA Community Housing as of the date of the 2025 ATM. The funds will be used as described in the exhibit.

8 **FUNDING: What additional funding sources are available, committed or under consideration? Include commitment letters, in kind donations and volunteer hours, and describe any other attempts to secure funding for this project.**

The AHTF will seek other funds as appropriate. No Specific funding sources are identified as of this applicaiton

9 **TIMELINE: What is the schedule for project implementation, including a timeline for all critical elements? This should include the timeline for expenditures, receipt of other funds and/or other revenues, if any.**
The AHTFC anticipates that the funds will be deployed within 5 years

10 **IMPLEMENTATION: Who will be responsible for implementing the project? Who will the project manager be? What relevant experience does the proposed project manager have? Who else will be involved in project implementation and what arrangements have been made with them?**
See Attached.

11 **MAINTENANCE: If ongoing maintenance is required, who will be responsible and how will it be funded? Please attach a detailed five-year budget.**
No maintenance requirements are identified at present.

12 **SUMMARY: Brief description of the project to be printed as project summary in the warrant article.**
See Attached

ADDITIONAL INFORMATION: Please provide the following additional information, if applicable

1. **FURTHER DOCUMENTATION: Documentation that you have control over the site, such as a Purchase and Sale Agreement, option to deed. (Letters of support from relevant town entities)**

2. **FEASIBILITY REPORTS: Any feasibility reports, renderings or other relevant studies and material.**

3. **ZONING COMPLIANCE: Evidence that the project does not violate any zoning by-laws or any other laws or regulations, including environmental, and/or plans to obtain necessary approvals.**

4. **If a non-town government entity is the applicant, please list contact information for all relevant contacts for the project and if a non-profit list contact information of the board members.**

5. **OTHER INFORMATION: Any additional information that might benefit the CPC in their consideration of this project.**

A representative from the project will be required to present the project to the CPC.

Applicant requirements after CPC recommends project for Town Meeting:

- The project applicant is required to sign a Memorandum of Understanding (MOU) with the CPC documenting all the agreements made during the application process.

- To assist with fielding questions concerning the project, a Project Representative shall attend the Board of Selectmen and Advisory Committee meetings with the CPC when the CPC warrant articles are reviewed.

- A Project Representative shall attend Town Meeting to answer questions. Any Project Presentation to be reviewed by CPC.

- All Town Meeting approved projects must submit a project schedule and proposed payment timeline. That schedule will be used to determine project completion deadline. The MOU must be signed prior to start of project.

- All Town Meeting approved projects shall present progress reports at 6-month intervals along with written reports to the CPC.

- All Town Meeting approved projects are required to include permanent signage stating that Southborough CPA provided funding for the project (wording shall be reviewed with the CPC prior to completion of the project).

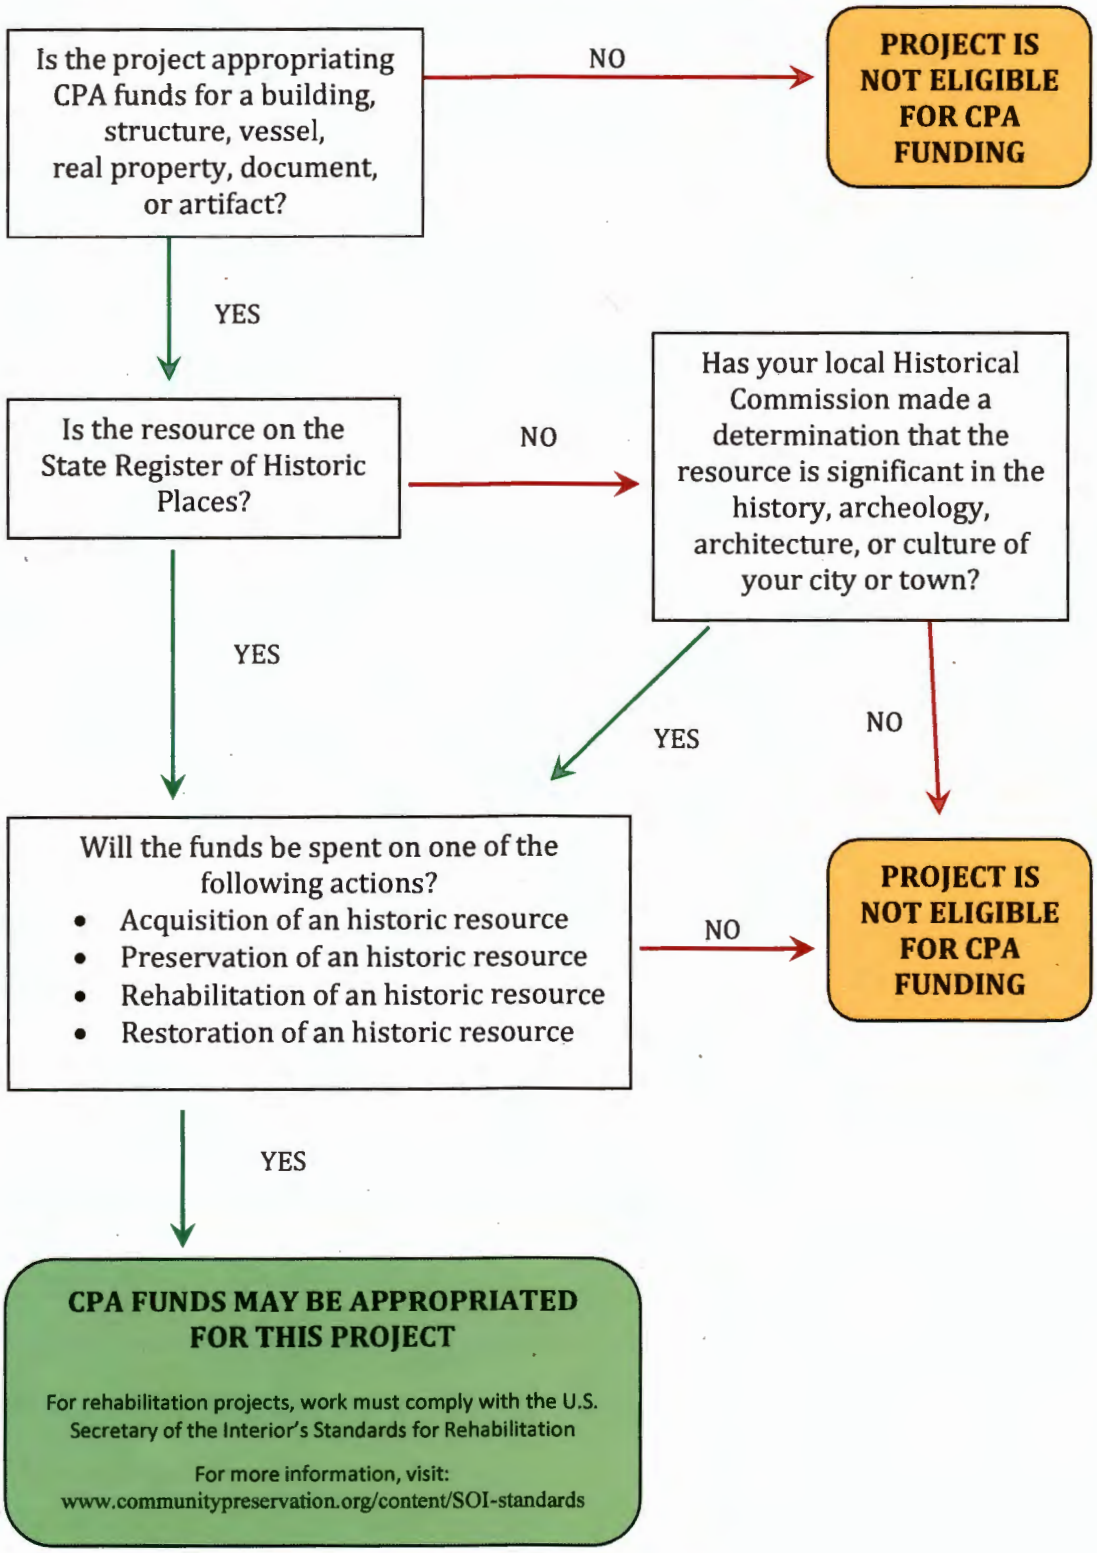
- All project publicity shall include a statement that the Southborough Community Preservation Act provided funding for the project.

The chart below demonstrates the allowable uses of CPA funds in each of the CPA project categories: open space, recreation, housing, and historic preservation. This chart is critical for determining whether a proposed project is eligible for CPA funding. Projects are only eligible for CPA funding if they fit in a "Yes" box below.

All Historic Preservation projects need to meet with the Southborough Historical Commission to determine their historical significance. See flow chart included with this application.

Is Your Project Allowable?

The chart below demonstrates the allowable uses of CPA funds in each of the CPA project categories: open space, recreation, housing, and historic preservation. This chart is critical for determining whether a proposed project is eligible for CPA funding



COMMUNITY PRESERVATION FUND ALLOWABLE SPENDING PURPOSES

	Open Space	Historic	Recreation	Housing
Acquire	Yes	Yes	Yes	Yes
Create	Yes	No	Yes	Yes
Preserve	Yes	Yes	Yes	Yes
Support	No	No	No	Yes
Rehabilitate and/or Restore	Yes, if acquired or created with CPA funds	Yes	Yes (new 7/8/2012)	Yes, if acquired or created with CPA funds

NOTE: The 7/8/2012 Legislation prohibits use of CPA funds to pay for Artificial Turf Fields.

Historical Projects need to review the historical chart below

Qualifying Historic Projects for CPA Funding

CPA Application Exhibit

Item 3 Goals

The goal of this program is to expand the number of affordable housing units in the Town of Southborough. Progress will be measured by the number of affordable housing units created.

Item 7 Budget

The CPA housing funds provided pursuant to this application may be used, consistent with Commonwealth's requirements for uses of such funds, by the Trustees of the Affordable Housing Trust Fund (aka Affordable Housing Trust Fund Committee or AHTFC) for the following purposes:

1. The purchase of real or personal property related to the acquisition or creation of affordable housing.
2. The construction, renovation or improvement of property and/or structures related to the acquisition or creation of affordable housing.
3. Programs and payments designed to reduce the cost of the rental cost of housing units.
4. Programs and payments designed to reduce the cost of the acquisition of affordable housing units.
5. For payment to advisors and agents as related to the acquisition or creation of affordable housing.
6. In support of seeking and obtaining other funding for the Affordable Housing Trust Fund.

Item 10 Management

The Trustees of the Affordable Housing Trust Fund (aka Affordable Housing Trust Fund Committee) will be responsible for oversight of any project funded by the Affordable Housing Trust Fund. The committee has the statutory authority to hire experts, consultants and advisors as required if the managerial requirements exceed the capacity of the Trustees.

Item 12 Summary

This article transfers the balance of the Community Preservation Act Community Housing Funds to the Affordable Housing Trust Fund as authorized by the Community Preservation Act. Said funds will be used to promote affordable housing consistent with the requirements of authorizing legislation.

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, August 27, 2024 6:30 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Andrew Dennington, Kathryn Cook, Sam Stivers Marguerite Landry and Al Hamilton. Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale.

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:30 PM.

II. Public Comment

Mr. Joe Palmer, 158 Parkerville Road, requested that the Citizen's Petition Recall Bylaw be included in the warrant for Special Town Meeting.

III. Scheduled Appointments *(Board may vote)*

a. Interview/appoint Sandy Pochapin to Tricentennial Committee; term to expire 6/30/2025

Ms. Pochapin appeared before the Board, via ZOOM, on the matter. The Board interviewed Ms. Pochapin. Mr. Dennington moved to appoint Ms. Pochapin to the Tricentennial Committee, term to expire 6/30/2025. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Public forum for regional dispatch services

Mr. Hamilton shared his presentation on regional dispatch services with the Board and public. Ms. Landry asked about the organizational structure, accountability and feedback channels for a Regional Emergency Communications Center (RECC). Mr. Hamilton stated that the RECC would be an independent entity and that an InterMunicipal Agreement (IMA) would need to be negotiated and executed by the member communities. He stated the IMA would create the governing board from the member communities and the governing board, along with the Police/Fire Chiefs would be responsible for RECC performance. Mr. Dennington described checks and balances that were part of the previously negotiated IMA. The Board discussed funding mechanisms for the RECC. Mr. Hamilton explained that, if the Town joins any RECC, it cannot return to the present emergency communications structure. The Board discussed the previously negotiated IMA. Mr. Dennington stated the Board should be prepared to address comments by residents regarding the money spent to construct the present dispatch facilities at the Public Safety Building and potential future use of the space. Police Chief Ryan Newell and Fire Chief Andrew Puntini joined the Board for discussion of this agenda item. Chief Newell stated that the regional approach is the trend in public safety dispatch services and that, if the Town does not strongly consider this option, it may be left behind as surrounding communities adopt the regional approach. He stated Southborough's dispatchers are extremely professional in executing their role but filling open positions has been challenging. Chief Puntini stated that public safety should figure heavily in the decision to pursue a regional approach and, presently, Southborough lacks appropriate staffing to concurrently dispatch police/fire and handle life-threatening emergencies. He stated the opportunity to join a RECC at its creation offers advantages to the Town. Mr. Blair Sutherland, 139 Parkerville Road, stated he has spent his entire career in public safety communications and feels it is important to keep the public discussion of joining a RECC at the forefront. He stated that joining the Westborough RECC offers Southborough

the opportunity to work with surrounding towns and improve the effectiveness of working with mutual aid partners. He stated that, while joining a RECC may not save money in the long term, it would improve public safety for the residents of Southborough and offer the opportunity for technology/equipment upgrades the Town might otherwise not make. He urged the Town to continue to explore joining a RECC. Mr. Michael Nordstrom, 14 Meeting House Lane, asked if there was a cap to annual costs or would the Town be responsible for any cost increases. Mr. Stivers stated that in the previous IMA, costs were divided proportionally among the member communities and acknowledged that there is exposure, but noted the Town had negotiated protections around termination due to objections over financial expenditures. Ms. Cook stated that there would be costs savings if the Town spends less than it would spend to appropriately staff the Town's emergency services (2 dispatchers, 24/7). Mr. Dennington added that, presently, any upcoming technology upgrades for public safety would be born by the Town, as opposed to those costs being covered by the State through a RECC. Mr. Hamilton stated he will make the RECC presentation to the Dull Men's's Club and Southborough Access Media and is available to make the presentation for any other group wishing to hear it.

Ms. Cook heard Scheduled Appointments "d" at this time.

c. EDC – Consideration of increased hours for Coordinator position

Ms. Cook stated that tonight's discussion relates to Article 16 in the draft warrant for Special Town Meeting - increasing the EDC coordinator position to full-time. Mr. Andrew Pfaff called the meeting of the Advisory Committee to order at 7:52 PM. Members present: Andrew Pfaff, Marci Jones Salow, Barry Rubenstein and Howard Rose. Members present via ZOOM: Adam Nodiff, Larry Samberg and Tim Martel. Members of the Economic Development Committee (EDC) present for tonight's meeting included Michael Nordstrom and Karen Anglim. Also in attendance were Julie Connelly and Claire Reynolds, both former members of the EDC. Ms. Leah Emerson, EDC Coordinator, was also present, via ZOOM. Ms. Connelly provided a history of the EDC and the coordinator position. Ms. Reynolds provided a history of the grants that had been received in the last nine years. Ms. Connelly stated that she believes the Town needs to both address zoning issues to attract new businesses and increase the hours for the coordinator position. Mr. Nordstrom stated that the EDC's focus should be on attracting businesses to Town and increasing its visibility to showcase their work. The Board offered comments on the need to increase the commercial base in Southborough and in support of the additional hours for the EDC coordinator position. Ms. Emerson thanked those advocating for an increase in hours for her position and stated she would like to be able to help the Town with the challenges of supporting existing businesses and increasing business in Southborough. Ms. Connelly stated that the Planning Board would need to lead efforts to address zoning issues. Mr. Pfaff stated he is supportive of the additional hours but that it should be monitored to ensure a return on the investment. Mr. Samberg stated his support for the additional hours but agreed metrics should be reviewed regularly. Ms. Jones Salow offered her support for the additional hours but added the EDC will need to be more visible to the public and suggested the EDC be more visible at Planning Board meetings to advocate for businesses. Mr. Rose stated his support for the additional hours but said the EDC should be more public about its work. The Board, Advisory and EDC discussed filling the vacancies on the EDC. Mr. Nodiffstated he is supportive of the additional hours and believes there is enough work to fill the additional hours while also securing additional grant funding. Mr. Hamilton moved that the Board support the article to increase funding for the EDC coordinator. Mr. Stivers seconded the position. Mr. Hamilton asked if the increase of $27,929 covers the cost of benefits. Mr. Dennington stated that it does. The motion was unanimously approved (5-0-0). Mr. Pfaff moved that the Advisory Committee support Article 16 in the draft Warrant for Special Town Meeting. Mr. Rose seconded the motion. The motion was approved by roll call vote: Mr. Samberg, aye; Mr. Martel, aye; Mr.Nodiff, aye; Mr. Rubenstein, aye; Ms. Jones Salow, aye; Mr. Rose, aye; Mr. Pfaff, aye (7-0-0).

The Board recessed at 8:44 PM and resumed meeting at 8:51 PM. Ms. Cook moved to Scheduled Appointments "e."

d. Stewardship Committee – Discussion of revised charge

Ms. Cook stated that the Stewardship Committee wishes to reduce its number of members from seven to five and the Board supports this request. She also stated the Stewardship Committee wishes to clarify its charge as an ad hoc committee. Ms. Freddie Gillespie, Open Space Preservation Commission representative to the Stewardship Committee, stated the Stewardship Committee was set up to secure a Natural Resources Conservation Service (NRCS) grant to address a bittersweet infestation at Breakneck Hill. The Board discussed making the Stewardship Committee a permanent committee and agreed to address this issue at Annual Town Meeting in 2025. Ms. Joyce Greenleaf, Chair of the Stewardship Committee, presented a revised charge to the Board. Mr. Dennington moved to approve the Stewardship Committee charge, as supported by the Stewardship Committee and presented this evening. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

e. Advisory Committee – Sept. 30 Special Town Meeting Review

i. Review warrant articles

The Board and Advisory Committee discussed the following articles that may be included in a Consent Agenda at Special Town Meeting: 1, 2, 3, 4, 5, 6 and 19. **Article #1**: To amend the Salary Administration Plan (SAP) – Ms. Cook reviewed the proposed changes. The Board and Advisory Committee had no changes to the article. **Article #2:** To amend the Town Code to reduce the membership of the PILOT Committee from seven to five. **Article #3:** To see if the Town will vote to delete Chapter 9, Article I, Solid Waste Committee. **Article #4:** To see if the Town will vote to delete Chapter 6, Article II, Consumer Advisory Commission. Mr. Hamilton moved that the Board support Articles 1, 2, 3, and 4, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook stated the Advisory Committee would vote on its positions on the above listed articles at a later date. **Article #5:** To see if the Town will vote to amend Town Code Section 9-25-Meeting Minutes. The Board agreed not to take a position on this article until Mr. Hamilton has discussed it with Town Clerk Hegarty. **Article #6:** To see if the Town will vote to allow the Treasurer-Collector to collect unclaimed checks. Mr. Hamilton moved that the Board support Article 6, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). **Article #19:** To see if the Town will vote to accept General Laws Chapter 44, Section 53F3/4, to establish a Public Education Government (PEG) Access and Cable Related Fund. Ms. Cook stated that the contract with Southborough Access Media (SAM) had expired and that the new contract will contain language so the Town can create a fund to receive cable-licensing fees. Mr. Hamilton moved that the Board support Article 19, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook suggested and the Board agreed to move Article 19 as the new Article 7. **Article #8:** MBTA Communities Zoning Overlay District and Bylaw. The Board and Advisory Committee agreed to withhold a vote on the article until they have met with the Planning Board to review the final version of the bylaw. The Board and Advisory agreed to meet with the Planning Board on or before September 9th to review the bylaw. **Article #9:** Regionalization of Emergency Communication Services (RECC). Mr. Stivers read the proposed language for the warrant. Mr. Hamilton moved to adopt the language for the article, as read by Mr. Stivers. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Mr. Hamilton moved that the Board insert the above-approved language as Article 8 (9) in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously

approved (5-0-0). **Article #10:** Elimination of Southborough Housing and Opportunity Partnership Committee (SHOPC) and creation of a new committee that addresses the responsibilities of SHOPC and the Affordable Housing Trust Fund Committee (AHTFC). Mr. Hamilton informed the Board and Advisory Committee that through his research, he learned that the AHTFC needed to be restructured in order to dissolve SHOPC and create a new committee. The Board discussed how best to accomplish the goals. Mr. Hamilton moved that the Board reserve a place for Article 9A (to replace the 2005 article that created the AHTFC) and Article 9B (to dissolve SHOPC). Mr. Stivers seconded the motion. The Board agreed to draft and share the language for the articles with the Advisory Committee. **Article #10:** A process to transfer funds from the Affordable Housing Fund of Community Preservation Act (CPA) monies to the AHTFC. The Board and Advisory Committee discussed the difficulties that the AHTFC encounters in acting on properties that become available to increase the Town's affordable housing stock. The Board agreed to remove Article 10 from the Draft Warrant. **Article #11:** To see if the Town will vote to allow other funding sources to be used in conjunction with CPA projects. Mr. Stivers stated this article brings the Town into alignment with a recent change in State law. Mr. Hamilton moved that the Board support Article 11, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). **Article #12:** To see if the Town will vote to transfer $17,068 from the Assessor's Overlay Surplus to fund miscellaneous adjustments to the FY 25 budget. Mr. Hamilton moved that the Board support Article 12, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). **Article #13 (old #14):** Breakneck Hill Remediation. Ms. Melissa Danza, Conservation Commissioner, appeared before the Board and the Advisory Committee, via Zoom, on the matter. Ms. Danza provided an update on the cleanup project. She stated that the Town had previously approved $2.2 million dollars for remediation at the site. She stated that additional testing revealed the presence of asbestos containing materials (ACMs) and Article 13 requests an additional $2.1 million dollars to address the newly discovered ACMs at the site. Ms. Cook asked about non-compliance. Ms. Danza stated that non-compliance is not an option and that the State would work with the Town as long as progress is evident, noting that the deadline for completion of the remediation is September 2024. Ms. Cook asked if CPA or other funding sources for the remediation have been investigated. Ms. Danza stated that the remediation did not qualify for CPA funds and that she has looked into other funding sources but not found any to cover the cost of remediation. She stated she would review the matter again. Mr. Stivers and Mr. Hamilton asked Ms. Danza to speak with DPW Superintendent Cundiff, as he may have some knowledge in the area of remediation. Mr. Pfaff suggested that the Town's State and Federal representatives be contacted to assist in finding any grants or funds available for remediation. Mr. Purple added that this property was a private farm dump in the middle of the woods that the Town purchased so there are fewer funds available for cleanup. Ms. Danza stated that, barring any weather issues, she expects completion of the project by the end of this year. Mr. Stivers suggested that Mr. Purple ask the Town's grant consultant if any funds might be available for remediation. Ms. Danza agreed to speak with DPW Superintendent Cundiff on the matter and a Board member will reach out to State and Federal representatives to determine if any financial relief is available. Mr. Hamilton moved that the Board support Article 13, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). **Article #14:** Atwood Remediation. Ms. Cook stated that this article would be removed from the warrant for Special Town Meeting. **Article #15:** Implementation of the Public Safety Staffing Study. Ms. Cook stated this article would be removed from the warrant for Special Town Meeting. The Board and Advisory Committee agreed to appoint liaisons to review the finding of the Public Safety Staffing Study and make recommendations for FY26. Fire Chief Puntini appeared before the Board and the Advisory Committee on the matter. Chief Puntini stated he is supportive of the recommendations in

the study. He asked that the Board and Advisory Committee consider the expenditure of approximately $250,000 for the deputy chief position and staffing each shift with 5 firefighters as priorities. Police Chief Newell appeared before the Board and Advisory Committee and stated he would like consideration of the lieutenant position for Special Town Meeting. The Board and Advisory Committee discussed Chief Newell's request. The Board agreed to create information for a lieutenant position, with financial information, to review at its September 4th meeting. **Article #16:** See Scheduled Appointment "c" above. **Article #17:** Annual Town Meeting. The Board agreed to address this issue at its September 4th meeting. **Article #18:** Citizen's Petition RE: CPC Appointments. Mr. Hamilton moved that the Board support Article 18, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously defeated (0-5-0). **Article #19:** Citizen's Petition – Recall. The Board agreed to address this matter at its September 4th meeting. Mr. Rubenstein moved to adjourn the Advisory Committee meeting at 10:03 PM. Mr. Rose seconded the motion. The motion was approved by roll call vote: Mr. Samberg, aye; Mr. Martel, aye; Ms. Jones Salow, aye; Mr. Rubenstein, aye; Mr. Rose, aye; Mr. Pfaff, aye (6-0-0).

ii. Consideration of additional articles

See discussion above.

III. Reports

Ms. Cook moved to reports after Other Matters "a."

a. Chair's Report

i. Neary Building Committee and next steps

Ms. Cook reported that the Neary Building Committee has proposed to build a new 4-grade school at an estimated cost of $84 million dollars to the residents of Southborough. She stated schematic design will occur between now and April 2025, when a Special Town Meeting will be held for a Town vote on the project. Ms. Cook stated that if the Town approves the proposal, Finn School would be closed and the Board would need to consider a future use for Finn School.

ii. Update on four 40B projects

Ms. Cook reported that on September 4th, the Zoning Board of Appeals would meet to vote on the Park Central project and discuss 120 Turnpike Road project. She reported that the plans for the 250 Turnpike Road project would be submitted shortly. She stated that the 352 Turnpike Road project is in the early stages of development.

iii. Summer Nights 2024

Ms. Cook reported that Summer Nights was a tremendous success and thanked Christina McCarthy for her efforts with the event.

Ms. Cook reported that Code Red is expanding its business and will move to another location on Turnpike Road for additional space.

b. Members' Reports

i. SHOPC/AHTFC merger update

The Board agreed that this matter had been discussed under Scheduled Appointments "e."

ii. Considering future space for Historical Commission

Ms. Landry reported that she is in discussions with Kevin Miller, John Parent and Jim Hegarty about a location for the Historical Commission and its inventory.

c. Town Administrator's Report

i. Eversource work on Main Street near CSX Railroad Crossing

Mr. Purple reported that Eversource would be working on Main Street starting on September 2, 2024, and he described the scope of work. He thanked DPW Superintendent Cundiff for this outreach to local businesses regarding the work schedule.

V. Consent Agenda

a. Approve Open Session Meeting Minutes: August 6, 2024

The Board agreed to approve the minutes at its September 4th meeting.

b. Accept $1500 donation to Summer Nights: Ken's Foods, $500; Main Street Bank, $500; Andrew Abu Realtors, $500

c. Approve request from DPW Superintendent for minor water abatement approvals

d. Appoint Civil Engineer position in Public Works Department

DPW Superintendent Bill Cundiff and Caitlin Cervello appeared, via ZOOM, before the Board on the matter. Superintendent Cundiff introduced Ms. Cervello to the Board and shared her qualifications. Mr. Stivers moved to appoint Caitlin Cervello as Civil Engineer in the Public Works Department. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

Ms. Cook heard Scheduled Appointments "c" at this time.

e. Approve cemetery plot buy back

f. Approve release of liability for live Fire training at 26 Deerfoot Road

Chief Puntini stated that 26 Deerfoot would be the site for an active fire training exercise. Mr. Hamilton moved to approve the release, as amended by Ms. Landry. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

g. Approve FY25 fuel oil contract

h. Appoint Kristen LeVault as Rec. Commission representative to the 21 Highland Future Use Committee; term to expire 6/30/2025

Ms. Cook reported that consideration of this matter would be postponed until a later date.

i. Accept $25,000 donation from the Cummings Foundation for intergenerational programming at the Senior Center

j. Approve request from Tricentennial Committee for alterations at Heritage Park

Mr. Dennington clarified that the Friends of Southborough 300 would be selling the bricks for the fundraiser at Heritage Park.

Ms. Cook moved to approve Consent Agenda items "b", "c", "e", "g", "i" and "j." Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

VI. Other Matters *(Board may vote)*

a. Review ARPA funding and requests

Chief Puntini stated he believes the fire alert system is in need of replacement at a cost of approximately $75,000. He stated that he has appeared before the Capital Planning and Improvement Committee (CPIC) and his request is part of the Capital plan. Chief Puntini confirmed that the project would be under contract by December 31, 2024. The Board agreed to table this matter until its September 4th meeting.

Ms. Cook moved to Reports at this time.

b. Select Board Office Hours schedule for remainder of 2024

The Board agreed to table this matter until its September 4th meeting.

c. CPC application for Town Common rail replacement project

Ms. Cook moved to Other Matter "c" after Scheduled Appointments "e." Mr. Dennington stated that the CPA application is due this Friday, September 6th. He stated that he has been working with DPW Superintendent Cundiff and Kevin Miller, Chair of the Historical Commission, and they have determined that the best estimate for the project is $110,000. He stated he would submit an application to the CPC for that amount. Mr. Dennington moved that the Board approve submitting the CPC application for the Town rail replacement. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

d. Approval of application to CPC from AHTFC, RE: movement of funds from CPC to Southborough Affordable Housing Trust

Mr. Hamilton moved approve the AHTFC's application to the CPC to move funds from the CPC to the Southborough Affordable Housing Trust. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

VII. Public Comment

There was no public comment.

VIII. Executive Session

The Board agreed to address this matter at its September 4th meeting.

IX. Adjournment

Mr. Hamilton moved to adjourn the meeting at 10:30 PM. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

Upcoming Meetings	
September 4, 2024	*September 17, 2024*

Respectfully submitted,

Bridgid Rubin, Recording Secretary

August 26, 2024

Dear Honorable Select Board,

After a successful interview with Sandy Pochapin at our August 26, 2024 meeting, the Tricentennial unanimously voted to appoint Sandy Pochapin to the Tricentennial Committee, term through 6/30/2025. We respectfully ask you do the same as her background and motivation are in line with our committee. We believe she will be an excellent addition.

Respectfully,

Don Morris
Tricentennial Committee Chair

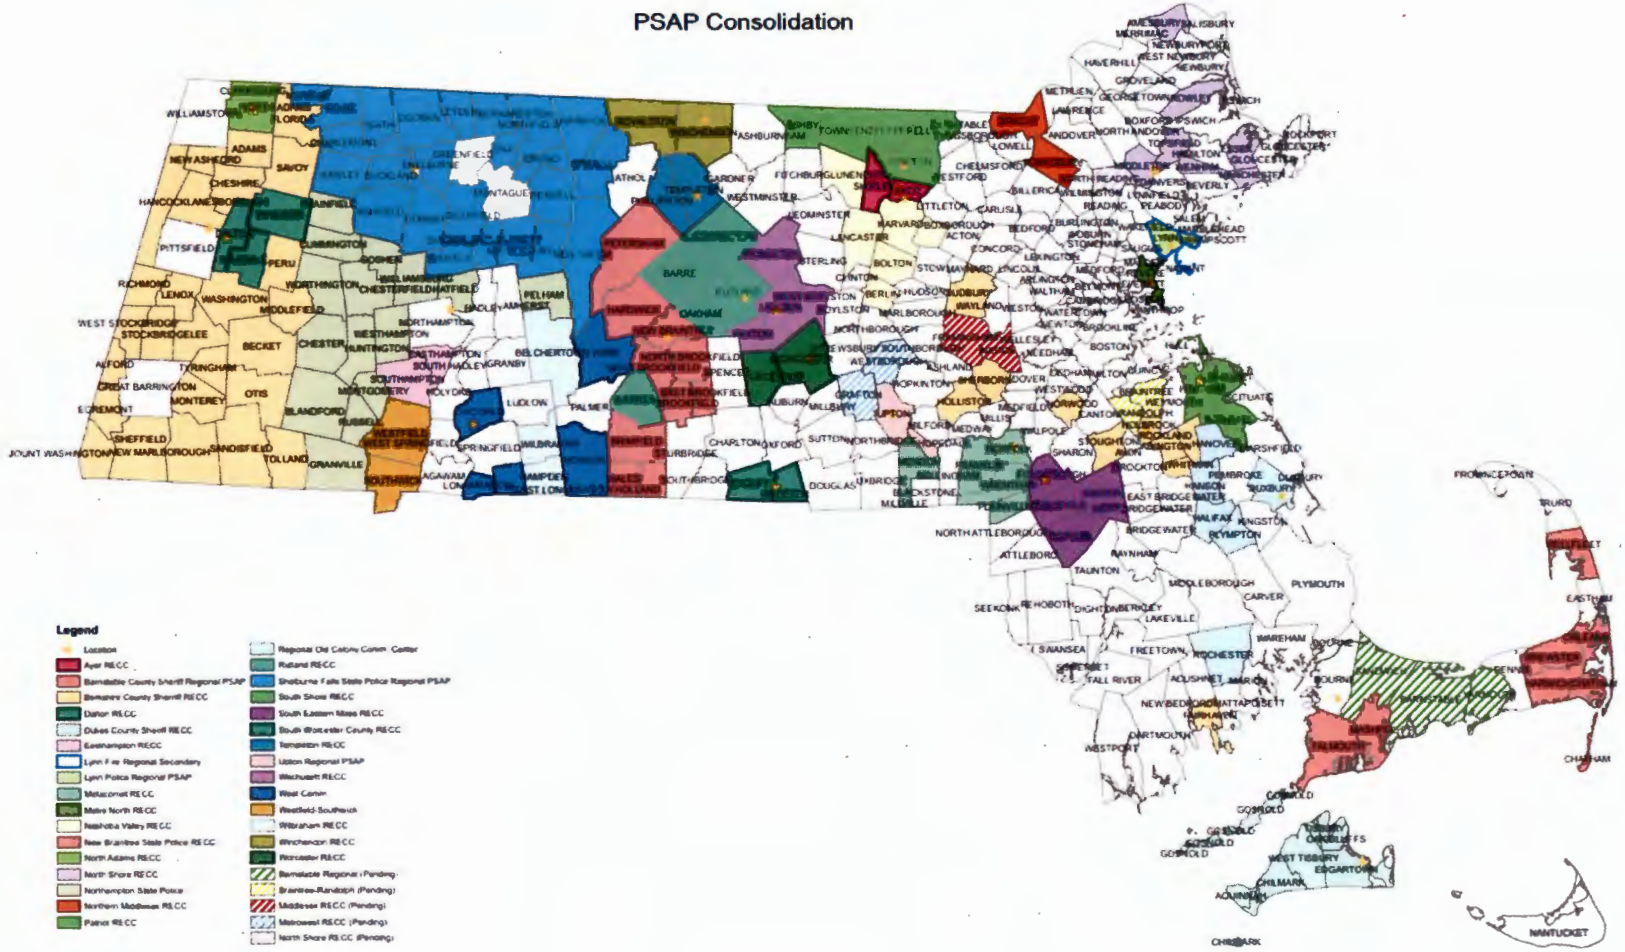
RECC Investigation Results

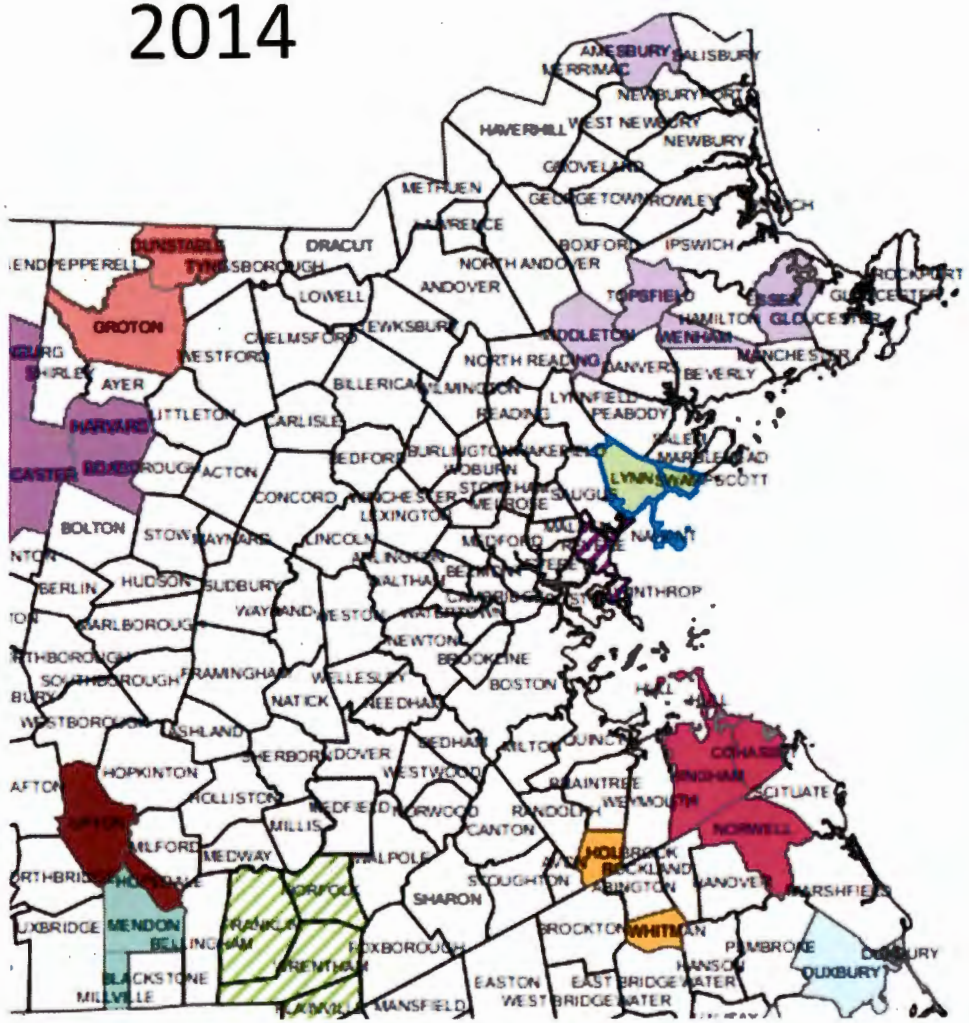
What is a RECC?
"Regional Emergency Communications Center"

- A "RECC" is a "Regional Emergency Communication Center", where the member communities combine their Public Safety (Police and Fire) Emergency Dispatch Operations into a single entity.
- In principle, this is no different from other regional organizations we currently participate in, such as:
  - Regional High School
  - Regional Vocational & Technical Schools
  - Regional Public Health Operations
  - Regional Library Resources
  - Mutual Aid for both Fire and Police.



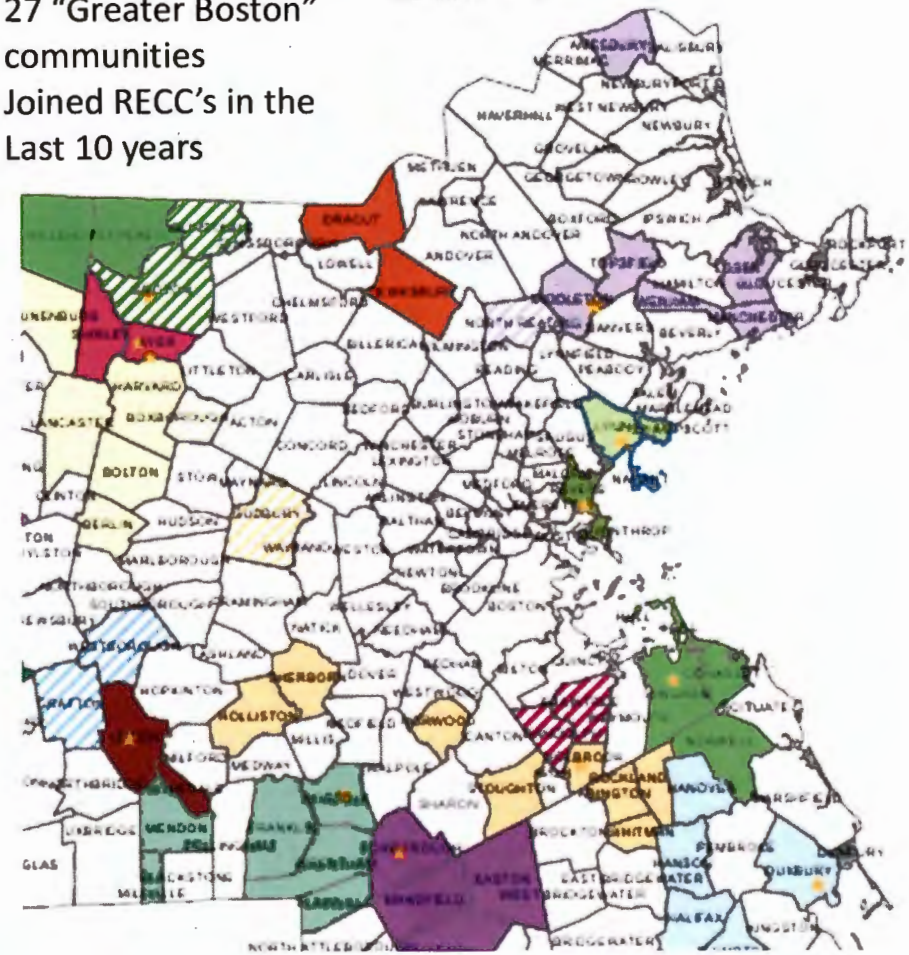
RECC's Are Common in the US

- RECC's have been in operation for decades in much of the rest of the US. – Often County Wide or Centered on a City
- RECC's can be Fire only or Police only or combined.
- The Technology is mature.
- Massachusetts is late in adopting RECC's



Holbrook Dispatch Center – Serves 7 Communities / 150,000 people

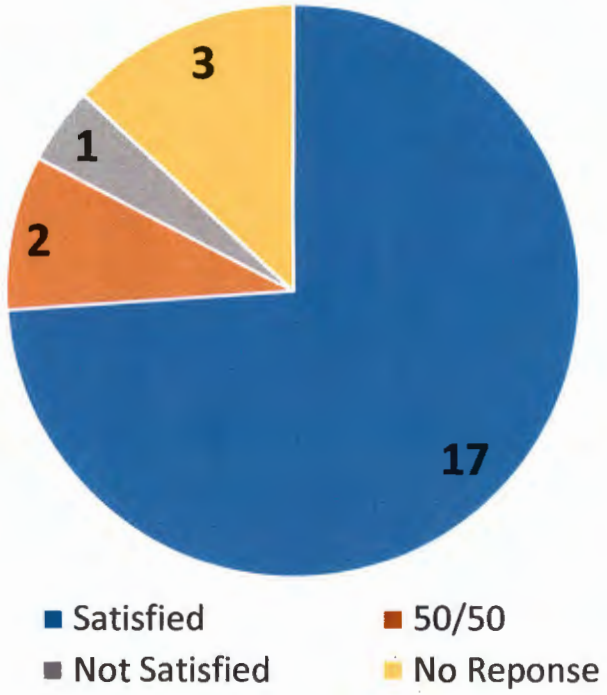
RECC's are Common in Massachusetts Today



2014

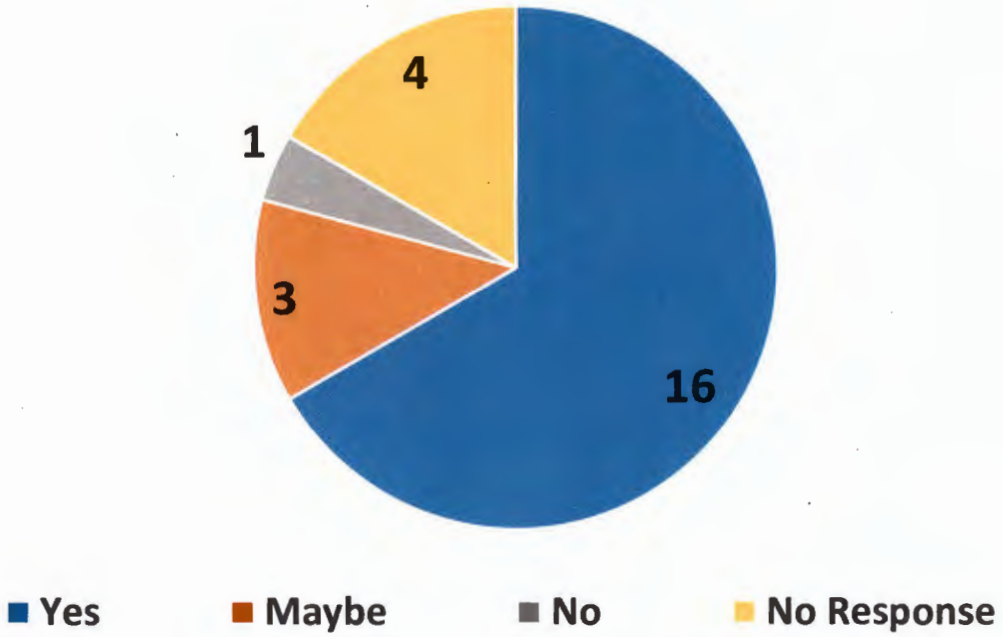
2024

27 “Greater Boston” communities Joined RECC’s in the Last 10 years



"Should Southborough Join a RECC?" How Have We Evaluated This Question?

- 2 Select Board Members, the Police and Fire Chiefs and the Town Administrator have been conducting due diligence investigations related to this issue for the past 15 months, including the following activities:
  - Visited 3 Operating RECC's: Holbrook, Devens and Foxborough
  - Met with 2 RECC's that are in the process of being formed: Westborough & Framingham
  - Confirmed that Metrowest (Westborough) building location is no longer at the "Superfund" site.
  - Met with relevant individuals from Northborough, Marlborough, Ashland, Sudbury.
  - Investigated a new concept – A Virtual RECC
  - Participated in several Discussions with the State 911 managers
  - Surveyed Mass Police Chiefs
  - Interviewed 5 Retired Fire Chiefs
  - Surveyed existing Greater Boston RECC's for performance data



Police Chiefs are Satisfied with RECC's:

A survey of Police Chiefs who are part of a RECC asked "Are you satisfied with the RECC?". **85% of those responding said YES!**

Police Chiefs Survey : "Would you join again?"

80% of those responding said "Yes", only 5% said "No".

Police Chiefs Survey:
"What was your motivation to join a RECC?"

- 6 of 13 mentioned difficulty hiring dispatchers
- 6 of 13 mentioned cost savings
- Single Dispatcher Risk
- Equipment Upgrades
- Quality improvements

Fire Chiefs Input

Discussion with 5 Fire Chiefs at the Fire Chief Assessment Center, and Discussion with (former) Chief Achilles. Key Points Are:

- By its nature, our Fire/Ambulance Operations are already Regionalized. Almost any fire of significance will involve a regional response. Our fire and ambulance crews regularly back up other departments when they go out on a call and vice versa. "We are in and out of each others stations every day"
- A Primary Focus is on the integration of a RECC with Mutual Aid Network.
- Having a RECC overlap with a mutual Aid network has substantial benefits.
- Value of RECC Dispatchers having instant access to the status of crews and equipment in communities that overlap with mutual aid.
- Multiple stories about RECC's being able to offer faster (and therefore safer) mutual aid response—particularly in large or complex events
- RECC overlap with Mutual Aid structure is also important for Police response

RECC Economics

- A survey of Greater Boston RECC's found that:
  - Busiest Shifts
    - 1 Dispatcher per 9,500 people to 1 dispatcher per 12,000 people
    - Southborough (FY 2024) had 1:10,450
  - Per Capita Operating Budget
    - Greater Boston RECC's – Run between $42 and $65 per person covered
    - Southborough
      - FY 24 – Single Dispatcher $58 per person covered.
      - FY 25 – 2+ Full Time Dispatchers - $78 per person covered.
      - 2 additional dispatchers to provide 2 person 24/7 coverage - $98 per person covered.

"Why are we considering joining a RECC?"
Answer: Improved Public Safety!

- Even with 2 additional dispatchers, we will have many shifts with only a single dispatcher.
- A single dispatcher system is not safe – both Town Meeting and the Select Board have recognized this and have stated this on multiple occasions:
  - Dispatchers can be required to perform multiple complex tasks--simultaneously:
    - In a life threatening situation they may be called on to provide over-the-phone instruction on first aid such as CPR.
    - At the same time, they must locate and dispatch the resources needed to respond—resources not only in Southborough but in other (mutual aid) communities.
- Just like other communities, we are having trouble hiring and retaining dispatchers—we are now 2 months into the new fiscal year we still have 1 full time and 1 part time dispatch position open. We can fund a position, but we can't make candidates apply for a position.
- We could benefit with faster response times if we have better integration with our Mutual Aid Partners—in public safety response, Minutes Matter!

Dark Station

- Dark Station is a Misnomer
  - Today, if someone arrives at the Public Safety Building with an emergency, they will be greeted by the Dispatcher behind the glass window.
  - The Dispatcher cannot come out to render aid. He/She will dispatch the required aid. Dispatchers are able to lock and unlock doors to provide safety.
  - In a RECC, the person arriving at the Public Safety Building will interact with a Dispatcher just as they would today. That Dispatcher will have a video link to the lobby, and will be able to summon aid the same way today's local Dispatcher can.
  - RECC Dispatchers can lock and unlock doors just as in-person Dispatcher can.

Dark Station Solutions

- Chiefs report a mix of solutions:
  - 4 of 15 reported that their stations are staffed 24/7
  - 7 of 15 reported that their lobbies are linked to the RECC:
    - Typically Video and Voice
    - Dispatchers can lock and unlock doors
    - Patrolling officers or EMT's can be summoned quickly
  - 4 of 15 reported a Hybrid Model
    - Staffed Lobby for part of day (typically "Business Hours")
    - Video/Voice per above when not staffed

Risks of Joining a RECC

- Start Up Risks – RECC's use mature technologies, but any new venture comes with attendant risks. Risks can be mitigated by
  - Don't turn on the RECC until everything works as it should
  - Staff Training – Each dispatcher should do "ride alongs" with each local Public Safety department to get to know the community and the local team
  - Coordination of procedures – Having a RECC means that dispatch procedures need to be standardized in the covered communities
  - Training, Training, Training!
  - Communication, Communication, Communication!
- Finance
  - There are some short-term (3-5 year) financial benefits from joining a RECC, but we cannot expect that there will be long-term annual operating cost savings versus what we have paid for a single dispatcher system.
- Growth
  - There is evidence that RECC's need to achieve critical mass to be most effective. Covering a minimum of 100,000 people should be a goal.

Recommendation

- Apply for membership in the Westborough-based "Metrowest RECC":
  - This is the best opportunity for strong integration with Mutual Aid
  - With Metrowest RECC's 50,000 covered lives, there is initial "critical mass" and there are a number of "non-RECC" neighbors to provide good opportunity RECC growth
  - Metrowest RECC offers sufficient response resources to provide deep coverage
  - This is an opportunity to be in on the "Ground Floor", to influence policies and procedures when they are initially put in place.
- Start Out with 24/7 staffed Public Safety Building Dispatch Office
  - Fully staff for the first year of operation
  - Assess the results after the first year (and ongoing)
- Don't expect to save a lot of money on operating costs. There are some opportunities to save on capital costs, such as Radios and CAD System.

DRAFT

Town Finance Terminology

The following terms are frequently used in the Advisory Committee Report and at Town Meeting. For your convenience, we provide the following definitions:

Surplus Revenue: (Often referred to as "Excess and Deficiency")
The fund represents the amount by which the Cash, Accounts Receivable and other floating assets exceed the liabilities and reserves.

Available Funds: (Often referred to as "Free Cash")
The amount of the Unreserved Fund Balance (Surplus Revenue) account over and above uncollected taxes of prior years constitutes "free cash" or "available funds".

Overlay:
The Overlay is the amount raised by the Assessors in excess of appropriations and other charges for the purpose of creating a fund to cover abatements and exemptions as granted.

Overlay Reserve:
This is the accumulated amount of the Overlay for various years not used or required to be held in the specific Overlay account for a given year, and may be used by vote of the town for extraordinary or unforeseen purposes or voted into the Reserve Fund.

Stabilization Fund:
An outside section of Chapter 138 of the Acts of 1991 (the FY92 State budget) modifies limitations on the Stabilization Fund appropriation process by enabling communities to appropriate from this fund for any non-capital, lawful purpose without Emergency Finance Board approval (section 333). Beginning in FY92, the Stabilization Fund will thus become a source of revenue for general operating expenses for communities.

The Stabilization Fund is a mechanism for setting aside money for capital projects. It equalizes the effect of capital expenditures over time, as capital appropriations can change considerably from year to year. The balance in the fund will build up during years when expenditures for capital items are low. During years with high capital expenditures, the community will transfer money from the fund to reduce the project's impact on the tax rate or the amount of borrowing required for the project.

A community may appropriate up to 10% of its tax levy each year, as long as the balance in the Stabilization Fund does not exceed 10% of the community's equalized valuation. Interest earned on any fund balance is retained as part of the fund.

Appropriations into a Stabilization Fund can be made at either an annual or special town or district meeting. Chapter 94 of the Acts of 1985 permits appropriations to be made from a Stabilization fund at a special town or district meeting, not just at the annual meeting. Regardless of the timing, appropriations from the Stabilization Fund require a two-thirds vote by the appropriating authority. Until the FY92 state budget, a community could only appropriate from the Stabilization Fund for a none-capital purpose with the approval of the Emergency Finance Board.

Reserve Fund:
This fund is established by the voters at the Annual Town Meeting only and may be composed of (a) an appropriation (not exceeding 5% of the tax levy of the preceding year), (b) money transferred from Overlay Reserve, or (c) both. Transfers from the Reserve fund may be made only by the Advisory Committee and are for "extraordinary or unforeseen expenditures" only.

Conservation Fund:
For land purchases and any other conservation use.

DRAFT

Introduction to the Rules of Town Meeting

Southborough's Town Meeting is an open town meeting in which all registered voters may participate. Town Meeting is a deliberative assembly, conducted via a defined process, charged with considering a maximum number of questions of varying complexity in a minimum amount of time and with full regard to the rights of the majority, strong minority, individuals, absentees and all of these together. In other words, we gather for the purpose of conducting the Town's business thoughtfully and efficiently.

AUTHORITY

The three elements of authority at Town Meeting are a quorum of one hundred (100) registered voters or more, the Clerk and the Moderator. Of these three, the quorum is the most important.

The Town Clerk is responsible for voter registration, certification of a quorum, setting up the hall and keeping the record of the proceedings. He may also officiate Town Meeting in the absence of a Moderator.

The Moderator presides at and regulates the proceedings, decides all questions of order, and makes declarations of all votes. No one may speak on an issue without being recognized by the Moderator. It is the Moderator's responsibility to approve the distribution of materials, and persons wishing to do so must seek his permission. The Moderator appoints Tellers and alternates for the purpose of counting votes of the meeting.

THE WARRANT

All matters to be considered at Town Meeting must be published in the Town Meeting Warrant, which is the responsibility of the Board of Selectmen. The primary and most important purpose of the Warrant is to notify voters in advance the nature of the business to be taken up at Town Meeting. By state law, Town by-law or custom, several business articles (such as budget appropriations) must be presented in the Town Warrant each year for consideration. Other items are added by warrant articles proposed by Town officials, committees, boards, or groups of ten or more registered voters. The Advisory Committee reviews the Warrant, making recommendations on all the items of business to be presented. In accordance with the Town by-laws, all articles in the Warrant are considered in the order in which they appear in the Warrant, unless the Town Meeting votes to change the order for reasons that reasonable people would entertain.

PARTICIPATION

Any voter wishing to participate in Town Meeting must go to one of the floor microphones and wait to be recognized by the Moderator. Upon recognition by the Moderator, first state your name and address, and then state your business.

Anyone whose name is not on the list of registered voters requires the approval of either the Moderator or a majority of the Meeting to sit in the voting area.

All remarks shall be limited to the subject then under discussion. It is improper to indulge in references to personalities, and all expressions of approval or disapproval, such as applause or booing, are out of order. The Moderator may request any person to keep silent. If after warning from the Moderator, a person refuses to be silent or persists in other disorderly behavior, the Moderator may order a person to withdraw and if he fails to withdraw, may order a police officer to remove such person from Town Meeting.

Individuals who have a personal or financial interest with respect to a matter may speak or vote thereon but should frankly disclose their interest. However, no Town Meeting voter should accept compensation for participating without disclosing that fact.

There is no fixed time limit to the debate of any question. However, out of consideration for the others in attendance and the need to give adequate time to all matters coming before Town Meeting, each individual who speaks should make an effort to be as brief as possible and avoid repeating facts, views or opinions already expressed by others.

DRAFT

Anyone wishing to make a presentation with respect to any article must, prior to Town Meeting, obtain the Moderator's approval.

In order to give all a fair opportunity to speak, no one who has addressed any particular motion shall speak again, except to answer questions, until all others wishing to speak to the motion have done so.

HOW ARE MOTIONS CLASSIFIED?

Main Motions
Motions of this group are for the bringing of questions, or propositions, before Town Meeting for consideration. Only one main motion can be considered at a given time, and once introduced such a motion excludes all other main motions until it has been disposed.

Subsidiary Motions
Motions of this group have are for the modification or disposition of the main motion that is being considered. Their existence as motions depends entirely upon the principal motion to which they are subordinate. Since they relate to the question then under consideration, it is in order to propose them when a main motion is pending and to vote upon them before voting upon the main motion.

Privileged Motions
Motions of this group have no connection whatsoever with any main motion, but are motions of such importance that they are entitled to immediate consideration. These motions have the privilege of temporarily setting aside the main business then before Town Meeting.

Incidental Motions
Motions of this group have few characteristics in common, but for convenience have been grouped into one class. The name "incidental" applies because they arise only incidentally out of the business of Town Meeting.

RULES RELATIVE TO MOTIONS

A motion is the means of bringing a proposal or question for consideration by Town Meeting. When first put forward it is a motion; after it is seconded and acknowledged by the Moderator, it becomes the question or proposal. Except for complimentary resolutions (the presentation of which must be approved in advance by the Moderator), no main motion shall be entertained unless it's substance is contained within the scope of a Warrant article. Upon completion of debate, articles will be voted upon.

The Moderator shall determine whether a motion, or any discussion relative to a motion, is within the scope of the Warrant article under consideration. That is, the motion and the debate must be relevant to the article as written in the Warrant, since the purpose of the Warrant is to apprise voters of the actions to be taken at Town Meeting.

Articles only give notice to the voters and do not initiate action; motions do. Motions may be withdrawn; articles may not be withdrawn – articles must be acted upon by Town Meeting.

There are four types of amendments: striking out, inserting, striking out and inserting, and substitution. Motions to amend may be hostile as long as they are germane. An amendment to a motion is an amendment of the first rank; an amendment to an amendment is of the second rank; there can be no amendment beyond that of the second rank.

Some motions do not lead to a final determination by Town Meeting. A motion to commit or to refer sends the matter to an existing board or committee or one to be established. The motion to postpone indefinitely disposes of the question without bringing it to a direct vote. The motion to postpone indefinitely should not be confused with the motion to table which only temporarily delays a vote. As previously stated, articles may not be withdrawn; so when the Meeting does not wish to act on a particular article, the proper motion is to postpone consideration indefinitely.

DRAFT

Motions to reconsider shall be entertained when new information is available that is materially different than was presented (or could have been presented) at the time of the original vote on the article. Articles may be reconsidered only once. If a motion to reconsider is passed by the necessary 2/3 vote, it brings the original article back to the floor (which requires a new motion and additional debate); if the motion to reconsider is defeated, then the original article stands as previously voted and may not be reconsidered again. Actions to reconsider can be taken at the same session or any subsequent session of Town Meeting. A notice of reconsideration may be filed in advance with the Town Clerk stating that, at a specific point during the current Town Meeting, a voter will move for reconsideration on a particular article, and the Moderator will inform the hall of said action. Note that such a motion so noticed in advance must still be in order (i.e., must comply with all conditions required of any reconsideration motion).

All motions other than purely procedural motions must be in writing and signed by the sponsor.

CHART OF PRECEDENCE OF MOTIONS AND SUMMARY OF GOVERNING RULES

	May interrupt a speaker	Req. a sec.	Debatable	Vote Required	Motions that may apply
PRIVILEGED MOTIONS					
1. To dissolve	no	yes	no	majority	none
2. To adjourn	no	yes	limited	majority	amend

16. Reconsider	Mr. Moderator, I move to reconsider the vote under Article...
	Mr. Moderator, I move to reconsider the vote on the amendment to...
17. Separate Consideration	Mr. Moderator, I move for separate consideration.
18. Suspend the Rules	Mr. Moderator, I move to suspend the rules which interfere with...
19. Take from the Table	Mr. Moderator, I move to take from the table the motion relating to...

INTERRUPTING A SPEAKER

No one may interrupt a speaker except for a point of order or a question of privilege.

POINT OF ORDER

A point of order if a question of the Moderator about whether the speaker is entitled to be speaking, or whether the current subject under discussion (or what the speaker is saying) is irrelevant, illegal or contrary to proper procedure. No other "point of order" is proper.

PREVIOUS QUESTION

To call or move the question is a request to stop discussion and to take an immediate vote. This requires a 2/3 vote.

VOTING

Voting is by hand vote and the Moderator declares the result of such votes. If seven or more voters immediately question the declared result, the Moderator shall determine the result by a standing count of votes by the Tellers. After the vote counted by the Tellers is presented to the Moderator and announced to the floor, any further motions for recount are out of order.

ADJOURNMENT AND DISSOLUTION

Sessions of Town Meeting normally adjourn at eleven o'clock in the evening but may adjourn at such earlier or later time as vote of the majority may determine. Town Meeting shall not dissolve until all articles in the warrant have been properly considered.

Advisory Committee Recommendation:
Summary:

ARTICLE 4: To see if the Town will vote to delete Chapter 6, Article II of the Town Code, Consumer Advisory Commission; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary:

ARTICLE 5: To see if the Town will vote to amend Town Code § 9-25 Meeting Minutes, by deleting it in its entirety and replacing it with:

Each board, committee, or commission shall provide minutes for each of its meetings to the Town clerk within 45 days of the meeting. Minutes shall be kept by the Town clerk for a period as required by applicable state law. This requirement shall not apply to Executive Session Minutes, which shall only be provided to the Town clerk within 45 days from the date that they are released for public disclosure.

A. Minutes shall indicate whether they have or have not been approved by the board, committee or commission when submitted to the Town clerk.
   (1) Minutes that have not been approved at the time of their receipt shall be labeled "Draft."
   (2) The Town clerk shall log the receipt of all minutes, and the Town clerk shall post minutes on the Town website.

B. Minutes shall be submitted in a manner consistent with the Open Meeting Law (MGL c. 30A, § 22), and the Attorney General's Open Meeting Law Guide, and must include:
   - The date, time and place of the meeting;
   - The members present or absent;
   - The decisions made and actions taken, including a record of all votes;
   - A summary of the discussions on each subject;
   - A list of all documents and exhibits used at the meeting; and
   - The name of any member who participated in the meeting remotely.

C. Minutes submitted to the Town clerk shall include, as reasonably possible, copies of all documents, exhibits, and electronic files of any audio or video presentations used at the meeting, including items created by the board members, or by others allowed to make presentations at the meeting.
   (1) The term "used at the meeting," as defined by the Attorney General, shall mean a document, exhibit, audio or video presentation that was (1) identified by name, or (2) presented at the meeting, and (3) discussed at the meeting. This requirement shall apply equally to meetings held in-person, hybrid, or virtual meetings.
   (2) If copies of documents or other exhibits used at the meeting cannot be provided due to the physical nature of the exhibit (e.g., size of the exhibit, etc.), the specific filing location of the document or exhibit shall be identified.

D. The last page of the minutes shall include a section labeled Documents Used at This Meeting and shall list the names of each document that was used at the meeting.

E. The town clerk shall maintain and publish a monthly summary of every instance when a board or committee has not complied with the provisions of this bylaw.

; or do or act anything in relation thereto.

Proposed by: TOWN CLERK
Select Board Recommendation: Support
Advisory Committee Recommendation: Support
Summary: *This Article clarifies the existing requirements for a board, committee, or commission ("the board") to maintain minutes and documents used at a meeting and clarifies that this requirement applies to both in-person meetings, hybrid and fully virtual meetings. This Article also requires the town clerk to maintain and publish a monthly summary of board and committees that have not complied with the provisions of this bylaw. A recent review of board meetings revealed many instances where no documents were submitted by a board.*

ARTICLE 6: To see if the Town will vote to accept M.G.L c.200A, §9A to allow the Treasurer-Collector to collect unclaimed checks or "tailings"; or do or act anything in relation thereto.

Proposed by: SELECT BOARD

Select Board Recommendation:
Advisory Committee Recommendation:
Summary: *MGL Chapter 200A S9A provides for an alternative procedure for the disposing of abandoned funds known as tailings, held in the custody of the Town. Adopting this statute allows for a more efficient and expedited process for the disposing of abandoned funds, allowing the Treasurer to take these funds as General Fund revenue after there have been several attempts to notify the check recipient, once a full year has passed since the original issuance. Not passing this MGL means the Town must follow Massachusetts Unclaimed annual reporting guidelines whereby there is a 3-year waiting period and the funds transfer to the state not the Town.*

ARTICLE 7: To see if the Town will vote to add a new §174-10.3 to the Town of Southborough's Zoning Bylaws, amend the zoning map to include the MBTA Communities Overlay District (MCOD) as shown on the maps prepared by Bohler Engineering in March 2024 as further depicted in the handout, amend certain other sections to integrate the new section into the current zoning bylaw, and make any minor modifications to the text required for consistency with the existing format of the bylaws or do or act anything in relation thereto.

Proposed by: PLANNING BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary:

ARTICLE 8: To see if the Town will provide feedback to the Select Board on the Board's recommended approach to provide public safety dispatch services

; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary:

ARTICLE 9: To see if the Town will vote to amend the Town Code to eliminate the Southborough Housing Opportunity Partnership Committee (SHOPC), and create a new committee that consolidates the responsibilities of SHOPC and the Affordable Housing Trust Fund Committee (AHTFC)

; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary:

ARTICLE 10: To see if the Town will vote to approve a process to transfer funds from the Affordable Housing bucket of CPA to the Southborough Affordable Housing Trust.

; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary:

ARTICLE 11: To see if the Town will vote to accept M.G.L. c.44, §3(b1/2), to allow for additional funding sources to be used in conjunction with Community Preservation Act projects; or do or act anything in relation thereto.

; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary: *This article funds salaries for various employees which were not finalized until after Annual Town Meeting was concluded. Additionally, there are three non-salary requests:*

(a) Treasurer-Collector – Costs have increased for required bonds for Treasurer and Deputy Treasurer;

(b) Assessor - The Assessor's database was due to be migrated to the cloud in FY26 however access to the server has created multiple problems that are adversely affecting the Department's operations, so migration needs to happen sooner;

(c) Youth &Family Services – Mileage reimbursement for new intern position.

ARTICLE 13: To see if the Town will vote to appropriate $2,127,960, or any other amount, to be expended with the approval of the Select Board, to pay additional costs of remediating pollution at the Breakneck Hill dumpsite, as required by an administrative consent order between the Town and the Department of Environmental Protection,

including the payment of all costs incidental and related thereto; to determine whether this amount shall be raised by taxation, transfer from available funds, borrowing or otherwise provided, or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary: *Due to recently discovered site conditions, and to remain in compliance with the Administrative Consent Order from DEP, the total cost of the project has increased from what was originally voted to be borrowed under Article 9 of the March 2023 town meeting.*

ARTICLE 14: To see if the Town will vote to raise and appropriate by borrowing a sum of money to clean up the former Atwood water tank property

; or do or act anything in relation thereto.

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, August 6, 2024 6:00 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers and Marguerite Landry. Al Hamilton appeared via ZOOM. Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale.

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:00 PM.

II. Executive Session

Mr. Stivers moved to enter into Executive Session at 6:00 PM, per M.G.L. Chapter 30A, Section 21, and return to Open Session, to discuss strategy with respect to litigation (Exemption 3) where an open meeting will have a detrimental effect on the litigating position of the public body and the chair so declares: Louise Barron v Daniel Kolenda. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

Ms. Cook returned the Board to Open Session at 6:36 PM.

Ms. Cook heard Public Comment after IV. Scheduled Appointments.

III. Scheduled Appointments *(Board may vote)*

a. 6:30 PM – Public Hearing; FY25 Transfer Station Regulations

Mr. Purple read the public hearing notice into the public record at 6:36 PM. DPW Superintendent Bill Cundiff appeared before the Board on the matter. Superintendent Cundiff reviewed the proposed changes, noting that the changes are minor and some are grammatical in nature. Mr. Dennington asked about the insertion of "commercial refuse not accepted." Superintendent Cundiff stated he has seen refuse that he suspects is commercial and would like to come up with better ways to identify violators. Mr. Dennington stated he is supportive of this change. Mr. Mike Canova, 41 Highland Street, asked if vehicles with commercial license plates would be excluded from the transfer station. Superintendent Cundiff stated that only commercial refuse would be excluded from the transfer station. Mr. Shawn Rose, 3 Lovers Lane, asked that the exclusion of paper bags for yard waste be added to the rules. Superintendent Cundiff stated that Mr. Rose's recommendation is a good one that could be added to next year's regulations. Ms. Cook stated that the Board is only being asked to vote on the regulations as presented this evening. Mr. Stivers moved to close the public hearing at 6:49 PM. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0). Mr. Stivers moved to approve the Transfer Station Regulations for FY25, as amended. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

b. Appoint Marlo Taylor as FT Communications Officer

Chief Newell requested that the Board appoint Ms. Marlo Taylor as a full-time Communications Officer. Ms. Taylor was not in attendance at the meeting and Chief Newell stated she would be filling one of the two full-time positions approved at Annual Town Meeting. Mr. Hamilton asked if the Department has one full-time and one part-time position still available. Chief Newell replied that is the case and the position are still being advertised. Mr. Stivers moved to approve Marlo Taylor as full-time Communications Officer. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

c. Appoint Anthony Vega as FT Police Officer

d. Appoint Andrew Whamond as FT Police Officer

Ms. Cook heard Scheduled Appointments "c" and "d" before Scheduled Appointments "b." Police Chief Ryan Newall appeared before the Board in the matter. Chief Newell presented Mr. Anthony Vega and Mr. Andrew Whamond to the Board and requested that they be appointed as full-time Police Officers with the Southborough Police Department. Chief Newell reported that with the appointment of Mr. Vega and Mr. Whamond, the Southborough Police Department would be fully staffed. The Board welcomed Mr. Vega and Mr. Whamond to the Department. Mr. Stivers moved to appoint Anthony Vega as a full-time Police Officer and Andrew Whamond as a full-time Police Officer. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

The Board recessed at 6:55 PM and resumed meeting at 6:58 PM.

e. Board and Committee appointments:

i. Sheri Widdiss to the Conservation Commission, term to expire 6/30/2027

Ms. Sheri Widdiss appeared before the Board, via ZOOM, in the matter. The Board interviewed Ms. Widdiss. Mr. Hamilton asked Ms. Widdiss for her thoughts on returning Chestnut Hill Farm to a working farm. Ms. Widdiss stated she would need to review the Conservation Restriction on the property and then understand the goals of the Conservation Commission and Board related to the property. Mr. Stivers moved to appoint Sheri Widdiss to the Conservation Commission, term to expire 6/30/2027. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

ii. Jane Gates to Cultural Arts Council, term to expire 8/5/2026

Ms. Jane Gates appeared before the Board in the matter. The Board interviewed Ms. Gates. Mr. Stivers moved to appoint Jane Gates to the Cultural Arts Council, term to expire 8/5/2026. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

iii. Nicole Boloz to Cultural Arts Council, term to expire 10/2/2025 (to complete Jen Hansen's term)

Ms. Nicole Boloz appeared before the Board in the matter. The Board interviewed Ms. Boloz. Mr. Stivers moved to appoint Nicole Boloz to the Cultural Arts Council, term to expire 10/2/2025. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

f. Update from the Cultural Arts Council: Katlyn Heusner

Ms. Katlyn Heusner appeared before the Board on the matter. Ms. Heusner updated the Board on the recent activities of the Cultural Arts Council. She stated that the Council had recently re-organized into an executive committee structure, consistent with the Massachusetts Cultural Arts Council guidelines, and reported that she and members Elizabeth Kesselman and Rajani Kumari sit on

the executive committee. She also stated the Council has focused on recruitment and presently has a full committee of six members. Council member Elizabeth Kesselman appeared before the Board to clarify that the Massachusetts Cultural Arts Council's guidelines require a minimum number of five members in order to award grants. Ms. Heusner stated the committee's goals include: 1) how to functionally improve to ensure they are in general compliance, while also understanding the Board's goals; and 2) identifying and working with other partners in Town to enhance arts and culture for the residents. She stated that the Council annually awards a total of $6,000 in grants and informed the Board that the grant cycle would open on September 1st and close on October 17th. She also stated the Council recently conducted a survey on all aspects of their grants process to obtain public feedback and shared the results of the survey. The Board and Ms. Heusner discussed space needs, greater community involvement and publicity for the upcoming grant cycle. Mr. Stivers suggested that the Board consider budgeting some funds annually for the Cultural Arts Council.

g. Update from Historical Commission: Kevin Miller

Mr. Kevin Miller, Chair of the Historical Commission, appeared before the Board in the matter. Mr. Miller called the Historical Commission meeting to order at 7:36 PM. Members present: Kevin Miller, Grant Farrington, Kelly O'Brien and Dan Blanchard. Vice Chair Annie Phaff appeared via ZOOM. Absent: Michele Hokinson and James Blaschke. Mr. Miller updated the Board on recent activities of the Historical Commission. He stated that ARPA funds were used for the following: 1) the National Historical District Register sign project. The project has been completed and the signs are up; 2) $1,000 to restart the historic house sign project. Mr. Miller stated this project is free to homes that qualify, although the Commission accepts donations and hopes this project will become self-sustaining. Vice Chair Annie Pfaff stated that, to date, the Commission has delivered 55 signs in total, with 12 signs in the pipeline and approximately 350 signs on the list that qualify; and 3) $500 has been used to purchase a sign for the water tower in the Rural Cemetery. Mr. Miller stated that the Commission is looking into the challenges for preserving structures affected by the Demolition Delay Bylaw. He stated that the Bylaw should be consistent with the age of historic buildings in the zoning code, which is 85 years old. Mr. Stivers suggested the Historic Commission bring forth an article at Annual Town Meeting 2025 that makes the Demolition Delay Bylaw consistent with Town Code. The Historic Commission and the Board discussed the status of 42 Main Street. Mr. Hamilton stated that he believes the Demolition Delay Bylaw should be re-examined, as he views the Bylaw as an inconvenience to property owners. Mr. Miller stated that the Historical Commission is also working on the following issues: 1) working with Jon Delli Priscoli regarding the viewscape at the Burnett House; 2) finding a location for historical record storage and to display historical Town documents; 3) marking the graves of the 43 Revolutionary War veterans who are in unmarked graves in the Old Burial Ground; and 4) integrating an education aspect of the 250th anniversary of the Revolutionary War (in 2026) with the Tricentennial Celebration that will take place in 2027. Ms. Landry stated she feels the historical document storage matter should be addressed in the near future. Mr. Dennington stated that CPC grant applications are due by August 31st. The Board and Historical Commission discussed logistics for the Town Common Rail Replacement Project and agreed that Mr. Dennington would draft a grant proposal for the Historical Commission to review prior to August 31st. Mr. Dennington requested that any other potential funding sources for the project be relayed to Mr. Dennington for inclusion in the grant application. Mr. Farrington moved to adjourn the Historical Commission meeting at 8:13 PM. Ms. O'Brien seconded the motion. The motion was unanimously approved by roll call vote: Ms. Pfaff, aye; Ms. O'Brien, aye; Mr. Farrington, aye; Mr. Blanchard, aye; Mr. Miller, aye (5-0-0).

Ms. Cook moved to Other Matters "b" at this time.

VI. Public Comment

There was no public comment.

V. Reports

a. Chair's Report

i. Neary Building Committee report; Recreation Commission vacancies

Ms. Cook reported that the Neary Building Committee (NBC) would decide by next week on the project to recommend for a vote at Annual Town Meeting 2025. She stated the NBC Financial Subcommittee would present the latest estimates to the Board at a meeting this Friday, August 9th, at 1 PM and she urged the public to attend/view.

Ms. Cook stated that at each meeting, the Board would highlight a board/committee to inform residents about vacancies and encourage them to volunteer. She stated this meeting's spotlight is on the Recreation Commission and added they have two vacancies available.

b. Members' Reports

i. RECC update

Mr. Hamilton reported that the Virtual RECC presentation was sent to Ashland, Westborough and Northborough, and added there has been no feedback received from the communities on the concept of a virtual RECC. Mr. Hamilton stated that he spoke with a representative from State 911 regarding a potential virtual RECC and the representative was not encouraging about the concept. Mr. Hamilton stated that he believes the Board should hold 2-3 public forums in the coming months to discuss the options available and to determine a path forward for the Town. Mr. Hamilton and Mr. Stivers agreed to propose a schedule for the public forums prior to Special Town Meeting.

ii. Update on 2025 One Stop grant application for Rt. 9 zoning

Mr. Dennington reported that he and Ms. Cook appeared before the Planning Board to discuss the Board's goal to pursue a One Stop grant application to study zoning improvements on Rt. 9. He stated he was pleased that the Planning Board unanimously expressed their support and interest in collaborating on the One Stop grant application. Mr. Dennington noted that if the Town were successful in receiving a One Stop grant, any work related to the grant would follow the MBTA Communities work presently being addressed by the Planning Board.

Mr. Dennington also reported that the Affordable Housing Working Group met August 1st. Members present were the following: Mr. Dennington and Mr. Hamilton from the Affordable Housing Trust Fund Committee, Doug Manz and Paul Desmond from the Southborough Housing Opportunity Partnership Committee (SHOPC) and Lisa Braccio, member at-large. He stated that he believes the group will have draft language by the end of August for Special Town Meeting.

c. Town Administrator's Report

i. August special meeting: Tuesday, August 27th proposed

Mr. Purple reported that the Board would hold a meeting on Tuesday, August 27th, to finalize the warrant for Special Town Meeting on September 30, 2024. He also stated that the Board and the School Committee would hold a joint meeting on September 11, 2024 at 6:30 PM to appoint the new K-8 School Committee member.

iii. Staffing study update

Mr. Purple reported that he, Police Chief Newell and Fire Chief Puntini, have received a draft of the study and are offering comments to the consultant. He stated he expects to have a final version for the Board to review next week.

iv. Update on Division of Local Services (DLS) Financial Policy Manual

Mr. Purple reported that the DLS's review of the Town's Financial Policy Manual has been completed and is currently under review by Mr. Purple and the Finance team. He stated there is a great deal of information to digest and he believes the Finance team will likely report first on updating current financial policies of the Town. He expects the review/recommendations will be presented to the

Board and Advisory next week. He stated the Town is still awaiting DLS's review of the Town's financial operations.

VI. Consent Agenda

a. Approve Open Session Meeting Minutes: July 10, 2024; July 16, 2024; July 23, 2024

Mr. Stivers and Ms. Landry requested to hold Consent Agenda item "a." **July 10, 2024 Minutes:** Ms. Landry, Mr. Stivers and Mr. Dennington had scrivener's changes to the minutes. **July 16, 2024 Minutes:** Mr. Stivers requested that Atty. William Solomon attendance, via ZOOM, be added to the minutes. Mr. Cook moved to approve the July 10, 2024 minutes, as amended, the July 16, 2024 minutes, as amended and the July 23, 2023 minutes, as written. Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

b. Approval of 2024 Warrant for State Primary
c. Approve police detail for election
d. Approve Early Voting dates for September and November Elections
e. Approve amended poll workers' rate
f. Appoint Doug Manz as the SHOPC representative to the CPC
g. Appoint Leslie Naditch to OSPC (swearing-in period expired)

Ms. Cook moved to approve Consent Agenda items "b", "c", "d", "e", "f" and "g." Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

VII. Other Matters *(Board may vote)*

a. Review of September 30, 2024 Special Town Meeting warrant

i. Review of all warrant article placeholders

Ms. Cook suggested, and the Board agreed to remove two articles from consideration at the Special Town Meeting: increasing the CPA surtax and creating a Storm Water Enterprise Fund.

ii. Review order of warrant articles

The Board discussed the order of the warrant articles. The Board agreed to order the articles as follows (and as numbered in the Draft Warrant): 1) remove Articles #12 and #14 from consideration; 2) Potential Consent Agenda: #1, #2, #7, #8, #9); and 3) the following articles after the Consent Agenda: #10-MBTA, #16-RECC, #11-SHOPC/AHTFC consolidation, #13-Transfer of CPC/Affordable Housing funds, New Article Section 3 (b1/2), #3-Breakneck Hill, #4-Atwood, #5- Public Safety Staffing Study, #6-EDC Coordinator hours and #15-Annual Town Meeting date requirements. The Board agreed to discuss the recommendations from the Public Safety Staffing Study with Chief Newell at its August 27th meeting and suggested a joint meeting with the Advisory Committee at that time. The Board discussed Article #6-EDC increase the coordinator position to full-time. Mr. Hamilton stated that he would like to see performance standards attached to the position to determine if the increase in hours is a benefit to the Town. The Board indicated their unanimous support for Article #6.

iii. Consideration of article to accept MGL Chapter 44B Section 3(b1/2) – to allow use of other municipal funds to supplement CPA funds

Ms. Cook heard this matter prior to Other Matters "a." Mr. Stivers stated that the Town's CPA bylaw language, approved in 2005, does not reflect the State's amended language. Mr. Stivers is proposing that the Town amend the bylaw to accept the State's amendment, as doing so would allow the Town greater flexibility in funding projects using CPA monies. Mr. Stivers stated that this matter is administrative. Ms. Cook stated that the CPC would vote on the matter at its meeting on Thursday evening. The Board discussed the matter and agreed to support an article at Special Town Meeting that amends the Town's CPA bylaw. Mr. Stivers will follow up on the matter.

b. 352 Turnpike Road overview with Ferris Development on proposed 40B project

Mr. David Ferris, Principal of Ferris Development Group, and Atty. George Bahnan, Assistant Counsel for Ferris Development Group, appeared before the Board on the matter. Mr. Ferris thanked the Board for their efforts to cooperate with his 40B projects. He stated that he is proposing a six-story 40B project at 352 Turnpike Road of 68 rental units consisting of 55 one-bedroom units, 6 two-bedroom units and 7 three-bedroom units. He noted that 25% of the units would qualify as affordable. Mr. Ferris stated that he has three potential projects in the pipeline that would allow the Town to reach Safe Harbor and be in control of future proposed projects. Ms. Cook asked about next steps. Mr. Ferris stated that concept plans have been drawn up and he is seeking feedback on those plans. Following any feedback, Mr. Ferris stated that Ferris Development Group would apply to the State for a Project Eligibility Letter. Mr. Dennington asked if the project would use impervious surface (parking lot). Mr. Ferris stated that it would. Mr. Dennington asked if mixed-use was an element of the project. Mr. Ferris stated that at this time, conceptually, it was. The Board discussed the proposed project.

VIII. Public Comment

There was no public comment.

IX. Adjournment

Ms. Cook moved to adjourn at 9:18 PM. Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

INTEROFFICE MEMORANDUM

To: Select Board as Water Commissioners
From: William J. Cundiff, P.E. , DPW Superintendent
Date: 08/16/2024
RE: Water Abatement requests

In an effort to streamline processes, I am requesting authorization from the Select Board to grant water abatement requests totaling up to $200.00 for individual water user accounts. These requests will only apply to routine requests that users would be clearly entitled to. Any requests that are not routine in nature or require subjective review will still be forwarded to the Select Board. This authorization is only requested until July 1, 2025.

INTEROFFICE MEMORANDUM

To: Select Board
From: William J. Cundiff, P.E. , DPW Superintendent
Date: August 23, 2024
RE: Civil Engineer Position Recommendation – Caitlin Cervello

After reviewing over 20 potential candidates for the Civil Engineer Position in the Public Works Department, the Interview Team (myself, Vanessa Hale and Karina Quinn) interviewed seven potential candidates for the position. The Team agreed that the best candidate for the position was Caitlin Cervello. Ms. Cervello attended University of Hartford where she received her Bachelor of Science in Civil Engineering and continued there to get her Master of Science in Environmental Engineering and her Masters of Business Administration. She graduated in 2021 and has worked for R.H White for a total of four years, as a Construction Management Trainee and an Assistant Project Superintendent.

After meeting with Ms. Cervello, the interview team was unanimous in our support for her appointment to the position of Civil Engineer in the Public Works Department. Accordingly, please consider this my wholehearted support of her appointment to the position.

CAITLIN CERVELLO

[redacted]

WORK EXPERIENCE

June 2022 – Present — Assistant Superintendent, *R.H. White Construction*

Responsible for field operations and technical support in order to achieve the safe, timely, and profitable completion of each project. Daily responsibilities include supervision of field crews, document tracking and review, short- and long-term scheduling, coordination of subcontractors and vendors, execution of purchase orders, safety planning, invoicing, and communication with project owners and engineers. Projects focus on upgrades to water and wastewater treatment facilities, with experience in civil, architectural, structural, process, mechanical, plumbing, HVAC, instrumentation, and electrical disciplines.

June 2020 – June 2022 — Construction Management Trainee, *R.H. White Construction*

Cross-functional training program across various disciplines encompassing the three main areas of construction: project management, site supervision, and estimating.

- *Project Management*: Assisted with submittal review, subcontractor communication, safety planning and compliance, and monthly FBs on the Killingly WPCF, Deans Mill WTP, & Leominster WWTF projects.
- *Site Supervision*: Facilitated daily coordination with crews and subs on site, reviewed daily safety plans, maintained jobsite organization, executed subcontracts and POs, completed short-term scheduling, and updated project documents for Eversource required job book on the Sutton City Gate Station project.
- *Estimating*: Assisted on takeoffs and development of scope sheets for multiple bids, drafted RFIs to owners, assisted in turnover and buyout procedures, solicited vendors for various trades, and prepared bid submission documents.

Participated in Sustainability Committee, Millennial Mentorship Program, and numerous training, professional development, and recruiting events.

EDUCATION

August 2019 – September 2021 — Master of Business Administration, *University of Hartford*

- Major in Business Administration

Courses: Accounting, Economics, Corporate Financial Strategy, Organizational Leadership, Marketing, Managing Organizational Processes, Engineering Program Management, Dynamics of Group Decision Making, Business Law & Compliance, Global Strategic Management

August 2018 – January 2020 — Master of Engineering, *University of Hartford*

- Major in Environmental Engineering

Courses: Water Quality Engineering, Air Quality Engineering, Wastewater Management, Hazardous Waste Management, Environmental Chemistry, CT Environmental Regulations & Policy

August 2015 – May 2019 — Bachelor of Science, *University of Hartford*

- Major in Civil Engineering with an Environmental Concentration

Special Projects: Phosphorus Removal Project at New Hartford WPCF – presented at the NEWEA 2019 Annual Conference & Exhibit

- Worked with operators to collect samples for experimentation, created a mass balance for phosphorus in the plant based on current conditions, and proposed a design for chemically treated side-streams.

CERTIFICATIONS & SKILLS

- Proficient in Microsoft Office Suite, Bluebeam Revu, Sage Estimating, Planswift, Procore, iSqFt, P6
- Certifications – OSHA 10 Hour Training; CPR/AED/First Aid; Bluebeam Revu Basics; Primavera P6 Professional Fundamentals; Identification, Handling, and Disposal of Asbestos Containing Materials; Fall Protection for Construction; Confined Spaces in Construction; Rigger & Signal Person; Hilti PS300/1000: Locating Live Electrical and Rebar Within Concrete; Procore Certified: Project Manager & Superintendent

Select Board
Southborough Town House
Southborough, MA 01772

Dear Select Board:

Please be advised that Kenneth J. & Kathleen F. Kimball, 140 Fairbanks Oak Allee, Unit 3B, Daniel Island, SC 29492 has requested that the town buy back one (1) cemetery lots purchased by them in 2020.

If the board approves, they understand that the buyback will be at the price originally paid per lot including perpetual care for a total of $850.00.

Sincerely,

TOWN OF SOUTHBOROUGH

Subject: Re: Request to Buy Back my 3rd Grave Site

[EXTERNAL]

Tammi, the purpose of this letter/email is to request a buy back of one of grave sites #255 in the Rural Cemetery. The reason is that my wife now has decided to be cremated and will be buried with me. As a result do not need a 3rd grave site #255 and requesting the town buy back the 3rd grave site.
If I can answer any questions please let me know.

Thank You ,
Tammy for your quick response and Andy's advice.

Town of Southborough
Rural Cemetery

License of burial rights

Know All People By These Presents

That the Town of Southborough, in consideration of *One Thousand Eight Hundred Dollars* ($1,800.00), the receipt of which is hereby acknowledged, do hereby grant, bargain, sell and convey to *Kenneth J. & Kathleen F. Kimball* Grantee, of *140 Fairbanks Oak Allee, Unit 3B, Daniel Island, SC, 29492* the exclusive right of burial, or inurnment of cremated remains, of human dead in a certain lot or niche in the Rural Cemetery in said Town of Southborough, and of placing and maintaining on said lot or niche, tombs, cenotaphs, and monuments authorized by the Department of Public Works, pursuant to the authority of the Special Act of the General Court Chapter 447 of 1991, or any other board or office having charge of the cemetery at the time of placing the same, said lot or niche being described as: ***Grave #'s 253, 254, & 255 located in Section M.***

As shown on the plan of said cemetery, on file in the office of the Rural Cemetery of said Town of Southborough.

TO HAVE AND TO HOLD the said right unto said grantee and *their* heirs, successors and assigns forever, to be used only for the purposes above set forth, and subject to the covenants herein contained and such regulations and restrictions relating to said cemetery, or the graves, lots, niches or lawn crypts therein, as are now or shall from time to time be established by the Board of Selectmen of the Town of Southborough or such board or officer having charge of said cemetery.

FURTHERMORE, receipt of *Seven Hundred and Fifty Dollars---* ($750.00) is hereby acknowledged for the perpetual care of the cemetery in accordance with the rules and regulations of the Rural Cemetery.

This License of Burial Rights is issued subject to the following special conditions:

* *Maximum size base allowed for your 3-grave lot is 4'0" long x 1'2" wide. Only one upright memorial allowed. Said memorial shall be placed at the top and centered on the three graves.*

I hereby certify that the above transactions have been duly recorded in the records of the Rural Cemetery and payment therefore has been deposited with the Town Treasurer:

Department of Public Works
Cemetery Agent

IN WITNESS WHEREOF said Town of Southborough has caused these presents to be signed in its name and behalf by the Board of Selectmen this *21st day of August, 2020.*

TO: **MARK PURPLE, TOWN ADMINISTRATOR**

FROM: **ELIZABETH LYDON, TOWN COUNSEL**

RE: **DONATION FOR CONTROLLED BURN**

DATE: **AUGUST 27, 2024**

Susan and Paul Pietro have offered to donate their house and garage located at 26 Deerfoot Road in Southborough to the Southborough Fire Department to "use and enjoy as they so determine for a public purpose." The Fire Department intends to use the buildings for a controlled burn conducted for training purposes. Pursuant to M.G.L. c. 44 Section 53A1/2, "…a board of selectmen may, in its sole discretion and authority, accept gifts of tangible personal property on behalf of the town… from an individual, and may, in its sole discretion and authority, use said gifts, without specific appropriation thereof, for the purpose of such a gift or, if no restrictions are attached to the gift, for such other purposes as it deems advisable..." Therefore, the Select Board may accept this gift and use it for the desired purpose.

Given the nature of the use, and that the donors will still own the underlying land, I am advising that the Board condition acceptance upon execution of a release by the donors in the event there is any damage to the surrounding property or injuries resulting from the controlled burn, a copy of which is attached hereto.

As always, please reach out with any questions.

RELEASE OF LIABILITY

LOCATION: 26 Deerfoot Road, Southborough, MA 01772

I _____, the undersigned, am the record owner of the house and garage ("the buildings") located at 26 Deerfoot Road, Southborough, Massachusetts, and am voluntarily donating the buildings to the Southborough Fire Department to use and enjoy as they so determine for a public purpose, which is proposed to be used for a controlled for training purposes. I hereby acknowledge the proposed use and understand and hereby remise, release and forever discharge the Town of Southborough, Massachusetts, the Southborough Fire Department, and their employees, agents, attorneys (jointly "Released Parties") from all debts, demands, actions, causes of action, suits, sum and sums of money, accounts reckonings, covenants, contracts, controversies, agreements, promises, doings, omissions, damages, and liabilities of every kind, nature and description whatsoever, both in law and equity, against the said Released Parties I now have, ever had, or will have, related to my donation of the buildings for the above stated purpose and proposed use. I further agree to grant access to the property for said purpose.

Southborough, MA 01772

Dear Chairperson Cook,

Please be advised that pursuant to M.G.L. c. 30B, the Southborough Facilities Department recently solicited quotes for the purchase of #2 Fuel Oil for FY25. Attached is a copy of the specification - conditions for quoting, a quote summary sheet, and the subject bid. There were two respondents to the request for quotes, Jamie Oil Company & Falconi Energy.

I recommend that the contract for #2 Fuel Oil for FY25 be awarded to the lowest quoting firm, Jamie Oil Co. Inc., at a price of $2.8775 per gallon.

Funding for this contract will be paid out of the Other Operations Budget, Line Item: 0100-5-159-***-52110.

Sincerely,
TOWN OF SOUTHBOROUGH

Specification

Supplying and Delivery of #2 Fuel Oil

CONDITIONS FOR QUOTING

GENERAL
Town of Southborough shall herein be referred to as the "Town".

ACCEPTANCE OF QUOTATIONS
Completed Quotation Forms shall be returned by mail to John Parent, Director of Facilities, 9 Cordaville Road, Southborough, MA 01772 or emailed to swood@southboroughma.com on or before 2:00 PM, Thursday, August 8, 2024. The Town reserves the right to accept or reject any or all quotes or any part thereof.

INSURANCE
Contractor to provide certificates of insurance indicating statutory worker's compensation coverage in addition to $1,000,000 CSL minimum general liability/property damage/bodily injury coverage and $1,000,000 CSL automobile coverage. Certificates of insurance confirming that the Town of Southborough is named as additional insured and acceptable to the Town of Southborough shall be addressed to and filed with the Town of Southborough prior to commencement of the work. Renewal certificates shall be addressed to and filed with the Town of Southborough at least thirty (30) days prior to the expiration date of the required policies. The failure of the insurance policies to name the Town of Southborough as an additional insured will constitute a breach of this contract and will be a defense to any claim against the Town for payments under this contract.

QUOTATION FORM
All quotes must be submitted on the attached Quotation Form.

LENGTH OF CONTRACT
This specification shall cover the period through June 30, 2025.

MINIMUM QUALIFICATIONS

Contractors submitting quotations must:

- Have a minimum of three (3) years of experience supplying and delivering #2 fuel oil to government entities.
- Be able to keep to an automatic delivery schedule in order to ensure that no delivery location will run out of fuel oil.
- Be able to routinely deliver fuel oil to any delivery location listed during normal business hours (M-F 6:30 AM to 4:00 PM).
- Be able to make emergency deliveries of fuel oil to any delivery location listed during all times outside of normal business hours.
- Be able to make deliveries of fuel oil within 24 hours of receiving notice.

NONDISCRIMINATION

The Contractor agrees that it will not discriminate against any employee or applicant for employment because of race, color, religious creed, national origin, sex, age or ancestry in connection with the performance of the services under Agreement. The Contractor further agrees that it will comply with all laws, local by-laws, rules and regulations of the Massachusetts Department of Labor and all other regulatory bodies having jurisdiction.

INDEMNIFICATION

The Contractor agrees to guarantee and indemnify the Owner against all damages or loss the Owner may incur or sustain by or through the misconduct or negligence of any agent, servant or employee of the Contractor during the performance of services required by this contract. The Contractor further agrees to maintain adequate insurance to ensure compliance with the above provision.

The Contractor shall, to the maximum extent permitted by law, indemnify and save harmless the Political Subdivision, its officers, agents and employees from and against any and all damages, liabilities, actions, suits, proceedings, claims, demands, losses, costs and expenses (including reasonable attorney's fees) that may arise out of or in connection with the work being performed or to be performed by the Contractor, his/her employees, agents, subcontractors or material persons. The existence of insurance shall in no way limit the scope of this indemnification. The Contractor further agrees to reimburse the Political Subdivision for damage to its property caused by the Contractor, his/her employees, agents, subcontractors or material persons, including damages caused by his/her, its or their use of faulty, defective or unsuitable material or equipment, unless the damage is caused by the Political Subdivision's gross negligence or willful misconduct.

INQUIRIES CONTACT

Contact John Parent with any questions regarding this specification at (508) 485-8175 or jparent@southboroughma.com

CONTRACT AWARD

In accordance with M.G.L. c. 30B, the contract will be awarded to the responsive and responsible quoting entity with the lowest overall price to supply and deliver #2 fuel oil as specified.

CONTRACTS

The contractor will be required to execute a proper contract. A Sample contract form is available upon request.

FUEL OIL SPECIFICATIONS - #2 Fuel Oil

SPECIFIC - #2 Fuel Oil

1. The oil shall be distillate oil.
2. The gravity shall not be lower than 30 degrees APO at 60 degrees F.
3. The flash point shall not be lower than 150 degrees F. (Pensky-Martens closed cup tester).
4. The heating volume shall not be less than 137,000 BTU's per gallon at 60 degrees F.
5. The BS & W shall not exceed 0.05 percent

All grades of fuel oil with regard to sulfur content must conform to regulations of the Commonwealth of Massachusetts, and its subdivisions.

QUANTITIES

Quote pricing shall be based on fixed pricing per gallon. The gallon usages listed are estimated amounts to be to be purchased. The quote pricing listed on the contractor's Quotation Form shall be used for additional gallons purchased if needed. Additional quantities shall not exceed fifteen percent of the estimated gallons.

Dear Chairperson Cook,

The Senior Center recently received a donation of $25,000 from the Cummings Foundation. The donation was given to fund a Program/Volunteer Coordinator for the Senior Center with an emphasis on intergenerational programing.

The part time position would be about 15 hours per week for one year with the possibility of future funding for the position in the future. Pay rate and job description would need to be determined through the approval process with the Assistant Town Administrator and the Personnel Board.

Attached is an e-mail from the Cummings Foundation referencing the donation and its intended use.

Please feel free to contact me if you have any questions and concerns.

Thank you,

Sincerely,

Pam LeFrancois

Senior Center Director

[EXTERNAL]

Dear Pam,

Cummings Foundation was delighted to recently make a donation in the amount of $25,000 to the town of Southborough for the purpose of funding the hiring of a volunteer coordinator.

You expressed your intention to hire an employee to create an intergenerational program through the public and private schools in Southborough to build relationships between students/parents and seniors in town. We are happy to support this effort and wish you well with your execution.

Please contact me if you have any questions about this contribution.

Sincerely,

Joyce

8/26/24

Dear Select Board Members

As part of the fundraising for the 2027 celebration of Southborough's Tricentennial, the Friends of Southborough 300 Inc. will sell engraved bricks. Further, we would like these bricks installed in Southborough's new Heritage Park. We propose the bricks be installed in the short walkway from St. Mark's Street to the top plaza (covering the entire path with either engraved bricks or standard bricks). I have attached a photo for reference. DPW Superintendent Bill Cundiff supports this plan.

The cost for the installation will be covered by fundraising. Our kickoff for this program will be this October's Heritage Day.

The Tricentennial Committee would appreciate your unanimous support to place these bricks in Southborough's Heritage Park.

Thank you

Southborough Tricentennial Committee

MEMORANDUM

DATE: August 23, 2024

TO: Select Board

FROM: Melanie Otsuka, Executive Assistant

SUBJECT: PROPOSED SELECT BOARD OFFICE HOURS DATES

Below are the proposed dates for Select Board Office Hours through December 31, 2024:

- September 10
- October 15
- November 12
- December 10

This schedule maintains the typical 2nd Tuesday Office Hours schedule, except October 15, so as not to conflict with the Select Board meeting on October 8.

For CPC use only: Date Received:

Town of Southborough Community Preservation Committee

COMMUNITY PRESERVATION ACT (CPA) APPLICATION FOR 2024 ANNUAL TOWN MEETING

APPLICATION Due August 31, 2023

Name of Proposal: Transfer of CPA Community Housing Funds to the Affordable Housing Trust Fund

Total CPA funds requested: Balance of CPA Community Housing Funds as of the date of the 2025 ATM

Date of Submission:

Name of Applicant: Affordable Housing Trust Fund

Contact Person: Al Hamilton - Chair

Mailing Address: Town House

Daytime Phone Number: 508 527 3952

Email Address: a.hamilton@southboroughma.com

CPA Funding Requested: Balance of CPA Community Housing Funds as 2025 ATM

Sponsoring Organization and/or Affiliations: AHTFC, Select Board, SHOPC

Have you watched the CPC's Annual Public Forum recording on June 27, 2023 starting at 40 minutes and 17 seconds into the presentation? If this is a housing application, you need to watch the presentation by Shelly Goehring, Senior Program Manager at the Massachusetts Housing Partnership (MHP) that begins at the start of the CPC's Annual Public Forum. Link: https://youtu.be/MIhQprxPsyY

CPA Category (Check ALL that apply - refer to Coalition Chart on Last Page)

Open Space ☐ Historic Preservation ☐

Recreation ☐ Community Housing ☑

Please submit the following application by August 31, 2023; for consideration at Southborough Annual Town Meeting in 2024. Please email your completed application to both: Benjamin Smith, CPC Chair at bsmith@southboroughma.com and Frederica Gillespie, CPA Consultant at fg.cpaconsulting@gmail.com

PLEASE COMPLETE THE PROJECT DESCRIPTION BELOW AND INCLUDE WITH YOUR APPLICATION

PROJECT DESCRIPTION

In describing the project, please include answers to the following questions. Applications may be returned as incomplete if all relevant requested information is not provided. Include supporting materials and exhibits, as necessary.

1 **Provide a Project Name (as it will appear on warrant article)**

Transfer of from CPA Community Housing Funds to the Affordable Housing Trust Fund

2 **GOALS: What are the goals of the proposed project? Who will benefit and why? How will success be measured?**

See Exhibit

3 **ELIGIBILITY: Define how the project meets CPA requirements (please refer to the Allowable Use Chart on page 5)**

This is a use that is specifically identified in the CPA. The transfer of CPA funds to Affordable Housing Trusts is a common practice in the Commonwealth.

4 **HISTORIC PROJECTS: If this is a historic project make sure it complies with the attached Flow Chart, last page**

5 **COMMUNITY NEED: Why is this project needed? Does it address needs identified in existing Town plans?**

The Governor has stated that the Commonwealth has an affordable housing crisis. The town is well behind its housing production plan. The need for affordable housing is identified in multiple town planning documents and production plans

6 **COMMUNITY SUPPORT: What is the nature and level of support and/ or opposition for this project?**

Support from SHOPC (Pending), Select Board (Pending), AHTF

7 **BUDGET: What is the total budget for the project and how will CPA funds be spent? All items of expenditure must be clearly identified, and back-up documentation provided. Distinguish between hard and soft costs. Depending on your project, more than one estimate may be required (NOTE: CPA funds may NOT be used for maintenance). Attach a two to five-year budget, if appropriate.**

We are requesting the balance of the CPA Community Housing as of the date of the 2025 ATM. The funds will be used as described in the exhibit.

8 **FUNDING: What additional funding sources are available, committed or under consideration? Include commitment letters, in kind donations and volunteer hours, and describe any other attempts to secure funding for this project.**

The AHTF will seek other funds as appropriate. No Specific funding sources are identified as of this applicaiton

9 **TIMELINE: What is the schedule for project implementation, including a timeline for all critical elements? This should include the timeline for expenditures, receipt of other funds and/or other revenues, if any.**
The AHTFC anticipates that the funds will be deployed within 5 years

10 **IMPLEMENTATION: Who will be responsible for implementing the project? Who will the project manager be? What relevant experience does the proposed project manager have? Who else will be involved in project implementation and what arrangements have been made with them?**
See Attached.

11 **MAINTENANCE: If ongoing maintenance is required, who will be responsible and how will it be funded? Please attach a detailed five-year budget.**
No maintenance requirements are identified at present.

12 **SUMMARY: Brief description of the project to be printed as project summary in the warrant article.**
See Attached

ADDITIONAL INFORMATION: Please provide the following additional information, if applicable

1. **FURTHER DOCUMENTATION: Documentation that you have control over the site, such as a Purchase and Sale Agreement, option to deed. (Letters of support from relevant town entities)**

2. **FEASIBILITY REPORTS: Any feasibility reports, renderings or other relevant studies and material.**

3. **ZONING COMPLIANCE: Evidence that the project does not violate any zoning by-laws or any other laws or regulations, including environmental, and/or plans to obtain necessary approvals.**

4. **If a non-town government entity is the applicant, please list contact information for all relevant contacts for the project and if a non-profit list contact information of the board members.**

5. **OTHER INFORMATION: Any additional information that might benefit the CPC in their consideration of this project.**

A representative from the project will be required to present the project to the CPC.

Applicant requirements after CPC recommends project for Town Meeting:

- The project applicant is required to sign a Memorandum of Understanding (MOU) with the CPC documenting all the agreements made during the application process.

- To assist with fielding questions concerning the project, a Project Representative shall attend the Board of Selectmen and Advisory Committee meetings with the CPC when the CPC warrant articles are reviewed.

- A Project Representative shall attend Town Meeting to answer questions. Any Project Presentation to be reviewed by CPC.

- All Town Meeting approved projects must submit a project schedule and proposed payment timeline. That schedule will be used to determine project completion deadline. The MOU must be signed prior to start of project.

- All Town Meeting approved projects shall present progress reports at 6-month intervals along with written reports to the CPC.

- All Town Meeting approved projects are required to include permanent signage stating that Southborough CPA provided funding for the project (wording shall be reviewed with the CPC prior to completion of the project).

- All project publicity shall include a statement that the Southborough Community Preservation Act provided funding for the project.

The chart below demonstrates the allowable uses of CPA funds in each of the CPA project categories: open space, recreation, housing, and historic preservation. This chart is critical for determining whether a proposed project is eligible for CPA funding. Projects are only eligible for CPA funding if they fit in a "Yes" box below.

All Historic Preservation projects need to meet with the Southborough Historical Commission to determine their historical significance. See flow chart included with this application.

Is Your Project Allowable?

The chart below demonstrates the allowable uses of CPA funds in each of the CPA project categories: open space, recreation, housing, and historic preservation. This chart is critical for determining whether a proposed project is eligible for CPA funding

Preserve	Yes	Yes	Yes	Yes
Support	No	No	No	Yes
Rehabilitate and/or Restore	Yes, if acquired or created with CPA funds	Yes	Yes (new 7/8/2012)	Yes, if acquired or created with CPA funds

NOTE: The 7/8/2012 Legislation prohibits use of CPA funds to pay for Artificial Turf Fields.

Historical Projects need to review the historical chart below

Qualifying Historic Projects for CPA Funding

CPA Application Exhibit

Item 3 Goals

The goal of this program is to expand the number of affordable housing units in the Town of Southborough. Progress will be measured by the number of affordable housing units created.

Item 7 Budget

The CPA housing funds provided pursuant to this application may be used, consistent with Commonwealth's requirements for uses of such funds, by the Trustees of the Affordable Housing Trust Fund (aka Affordable Housing Trust Fund Committee or AHTFC) for the following purposes:

1. The purchase of real or personal property related to the acquisition or creation of affordable housing.
2. The construction, renovation or improvement of property and/or structures related to the acquisition or creation of affordable housing.
3. Programs and payments designed to reduce the cost of the rental cost of housing units.
4. Programs and payments designed to reduce the cost of the acquisition of affordable housing units.
5. For payment to advisors and agents as related to the acquisition or creation of affordable housing.
6. In support of seeking and obtaining other funding for the Affordable Housing Trust Fund.

Item 10 Management

The Trustees of the Affordable Housing Trust Fund (aka Affordable Housing Trust Fund Committee) will be responsible for oversight of any project funded by the Affordable Housing Trust Fund. The committee has the statutory authority to hire experts, consultants and advisors as required if the managerial requirements exceed the capacity of the Trustees.

Item 12 Summary

This article transfers the balance of the Community Preservation Act Community Housing Funds to the Affordable Housing Trust Fund as authorized by the Community Preservation Act. Said funds will be used to promote affordable housing consistent with the requirements of authorizing legislation.

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, September 4, 2024 6:00 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale.

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:00 PM.

II. Executive Session

Ms. Cook moved to enter the Board into Executive Session per M.G.L. Chapter 30A, Section 21, at 6:00 PM for the purposes of (1) discussing strategy as it relates to a successor agreement with the Police Union (Exemption 3), as the Chair declares that an open meeting may have a detrimental effect on the bargaining position of the public body, and (2) to review and approve Executive Session minutes from the August 6, 2024 (Exemption 7). Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Mr. Hamilton, aye; Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Ms. Cook, aye (5-0-0).

The Board returned to Open Session at 7:18 PM. Ms. Cook moved to Other Matters "d" at this time.

III. Public Comment

Ms. Cook heard Public Comment after Other Matters "b." There was no public comment.

IV. Reports

a. Chair's Report

There was no Chair's Report.

b. Members' Reports

Mr. Dennington reported that, on behalf of the Board, he submitted the application to the Community Preservation Commission (CPC) requesting Community Preservation Act (CPA) funds for the Town Common rail replacement project. Mr. Hamilton stated he submitted an application for the transfer of CPA Affordable Housing funds to the Affordable Housing Trust Fund (AHTF).

Mr. Hamilton reported that he and Mr. Stivers would meet with the Westborough Regional Emergency Communication Center (RECC) next Monday to discuss regionalization.

c. Town Administrator's Report

Mr. Purple reported that Chief Newell issued a personnel order congratulating Officer Theo Davis on completing the department's 12-week field training program and added he will begin regular shifts.

V. Consent Agenda

a. Approve Open Session Meeting Minutes: August 6, 2024

Mr. Stivers requested to hold Consent Agenda item "a." Mr. Stivers requested the following changes: Line 247: impervious to pervious. Ms. Landry requested scrivener's changes to the minutes. Ms. Cook requested scrivener's changes to the minutes and the following: Line 149: insert "costs" after latest; Line 148: delete after "at" and insert "a Special Town Meeting expected to be held in April

2025; Line 156: delete "sent" and insert "made"; Line 233: delete after "funding" and insert "CPA eligible projects." Mr. Stivers moved to approve the August 6, 2024 minutes, as edited. Mr. Hamilton seconded the motion. The motion was unanimously approved (5-0-0).

b. Approve Eversource request to use DPW as staging area

Mr. Michael Conkemd appeared before the Board, via ZOOM, on the matter. DPW Superintendent Bill Cundiff also appeared before the Board, via ZOOM. Superintendent Cundiff stated that Eversource is requesting to have its contractor, New England Utilities Contractors (Neuco), use the DPW as a staging area to repair the gas line along Route 9 between Cordaville Road and Parkerville Road over the next two months. He stated the work would occur overnight and the staging area would occur past the transfer station. Mr. Conkemd stated that hours of operation would be from 8 PM- 5 AM and work would occur at the DPW between 9 PM and midnight. Mr. Conkemd also stated that that he would reach out to residents on Middle Road to inform them of the work and address any noise and light concerns/complaints. Superintendent Cundiff stated that the DPW would get an additional storage as part of the Eversource request. Mr. Dennington asked about concerns regarding the open door at the transfer station between 9 PM and midnight. Superintendent Cundiff stated that Neuco would maintain a presence at the transfer station and that there are cameras on site as well. Mr. Stivers moved to approve the Property Use Agreement between the Town and Neuco, pending approval by Town Counsel. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

c. Close warrant for September 30, 2024 Special Town Meeting

The Board agreed to close the warrant at its September 9th meeting following the Planning Board meeting on Article #8 and the Board's subsequent meeting on Articles #10 and #11.

VI. Other Matters *(Board may vote)*

a. Review ARPA funding and requests

Ms. Cook stated that the Board would need to reallocate approximately $223,000 dollars of ARPA funds that need to be committed by December 31, 2024, and reviewed a potential list of items to fund. The Board discussed the list. Ms. Cook moved that the Board transfer $223,463.62 out of the following projects: ARPA Consultant-$29,760; Northboro Rd./Johnson Rd. Culvert-$5,518.50; Town Meeting Clickers-$755; Town Hall Furniture-$5,000; Trottier Rooftop HVAC-$30,004.71; Finn Mold Remediation-$28,159.19; Town Survey for Seniors-$35,000; Mental Health Clinician-$36,650; and National Grid-$52,616.22 and into the General Tax Relief Category. Mr. Hamilton seconded the motion. The Board agreed to leave $35,000 allocated to the Senior Survey. Ms. Cook amended her motion to transfer $188,463.62 out of the projects listed above, excluding $35,000 for the Senior Center Survey, and transfer into the General Tax Relief Category. Mr. Hamilton seconded the motion. The motion was unanimously approved (5-0-0). Mr. Hamilton moved to transfer the following out of the General Tax Relief Category: $75,000 for the Fire Notification System and $125,000 for the Transfer Station Trailer. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Mr. Hamilton moved to confirm that the Board allocated ARPA funds for the following: $85,000 for the Town Website Improvements and $20,000 for the McAuliffe Hearing Room. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Continued review of warrant articles for September 30, 2024 Special Town Meeting

Police Chief Ryan Newell appeared before the Board to discuss implementation of the Public Safety Staffing Study (PSSS) recommendations. Ms. Cook asked the Board if they wanted to implement any recommendations from the PSSS in the FY25 Police budget. The Board discussed the lieutenant position. The Board agreed they are supportive of adding the lieutenant position to the budget in January 2025. Ms. Cook stated that Mr. Purple had provided the Board with the financial impact of adding the lieutenant position. Ms. Cook moved that the Board support adding a second lieutenant to the Police Department as of January 1, 2025, at Special Town Meeting on September 30, 2024.

Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Mr. Purple stated the lieutenant position would be Article #16 in the warrant for Special Town Meeting. Ms. Cook stated the Board would review other recommendations from the PSSS after Special Town Meeting. The Board agreed to discuss the following articles: Article #5 – Minutes; Article #10-Establishing the Board of Trustees of the Affordable Housing Trust Fund (AHTF); Article #11- Dissolving Southborough Housing Opportunity Partnership Committee (SHOPC); Article #17 – Time of Annual Town Meeting; and #19 – Citizen's Petition-Recall. Mr. Purple reviewed the timeline for inclusion in the Special Town Meeting warrant and stated that his goal is to send the document to the printer on September 10th. Mr. Hamilton stated he had spoken with Town Clerk Hegarty and is comfortable with the Article #5. Mr. Hamilton moved that the Board support Article #5, as printed in the Draft Warrant dated August 30, 2024. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0). Mr. Dennington stated that the Working Group would meet on Friday, September 6th, to finalize Articles #10 and #11. The Board discussed qualifications for members on the newly formed committee in Article #10. The Board agreed to vote on Articles #10 and #11 on Monday, September 9th, at a meeting immediately following the Board's appearance and vote on Article #8 at the Planning Board meeting. The Board discussed the language in Article #17. The Board agreed to change the language to "Annual Town Meeting will occur no later than the last Saturday in April at a date and time to be determined by the Select Board." Mr. Purple agreed to ask Town Counsel for an opinion regarding suspension of Town Meeting by 11:00 PM. Mr. Hamilton moved that the Board support Article #17, as amended this evening by Mr. Dennington's printed revisions. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0). The Board discussed Article #19. Mr. Dennington moved that the Board support at Special Town Meeting Article #19. Mr. Stivers seconded the motion. The motion unanimously failed (0-5-0). The Board discussed the ordering of articles for the warrant. Mr. Hamilton moved to reorder Article #18 after Article #7 and before Article #8. Ms. Landry seconded the motion. Mr. Dennington amended the motion to reorder Article #18 as the new Article #10 after Article #8-MBTA Communities and Article #9-RECC. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0).

c. Select Board Office Hours: schedule for remainder of 2024

The Board agreed to the following schedule for office hours on the following dates: September 10th: Mr. Stivers and Mr. Hamilton; October 15: Ms. Landry and Mr. Stivers; November 12th: Ms. Cook and Mr. Dennington; and December 10th: Ms. Landry and Mr. Hamilton.

The Board recessed at 8:29 PM and resumed meeting at 8:34 PM. The Board moved to Other Matters "b" at this time.

d. Review proposed Health Agent IMA with Northborough

Ms. Chelsea Malinowski, Board of Health (BOH) Chair, and Taylor West, RN and Health Director, appeared before the Board on the matter. Ms. Cook stated that Ms. Malinowski and Ms. West were appearing before the Board to discuss the proposed InterMunicipal Agreement (IMA) with Northborough to share a Health Agent. Ms. Malinowski stated that the BOH engaged the Collins Center to conduct a staffing study to determine if the BOH was utilizing its Public Health Excellence Grant (PHEG) effectively. She stated that Northborough, Southborough and Boylston participated in the study that focused on shared resources with future consideration of regionalization, adding that the BOH is not recommending a regional approach at this time. Ms. Malinowski stated that the BOH has recently restructured and Ms. West will now be responsible for the Health Director position, nursing position and supervising inspections. She stated that Dennis Costello would perform food and septic inspections. Ms. Malinowski stated the BOH is proposing the Town adopt Option 2 from the Collins Study, which would add a shared Health Agent position between Southborough and Northborough. She explained that although the FY25 BOH budget would increase, the increase

would be offset by local receipts and result in no net increase or a minimal increase. Mr. Hamilton requested that, in shared arrangements with other communities, all costs are captured to determine the actual cost of shared services. The Board discussed edits to the IMA and requested that the IMA have an exhibit detailing all costs. Ms. Malinowski stated an exhibit detailing costs would be included. Mr. Dennington suggested that the IMA include language that equally splits the costs of any judgment not covered by insurance between Northborough and Southborough and Ms. Malinowski edited the IMA to include that language. The Board requested Ms. Malinowski speak with Mr. Brian Ballantine regarding how to address the pension for the shared employee. The Board agreed to approve the revised IMA at its September 17th meeting.

VII. Public Comment

There was no public comment.

VIII. Adjournment

Mr. Hamilton moved to adjourn the meeting at 9:10 PM. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0).

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, August 6, 2024 6:00 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers and Marguerite Landry. Al Hamilton appeared via ZOOM. Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale.

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:00 PM.

II. Executive Session

Mr. Stivers moved to enter into Executive Session at 6:00 PM, per M.G.L. Chapter 30A, Section 21, and return to Open Session, to discuss strategy with respect to litigation (Exemption 3) where an open meeting will have a detrimental effect on the litigating position of the public body and the chair so declares: Louise Barron v Daniel Kolenda. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

Ms. Cook returned the Board to Open Session at 6:36 PM.

Ms. Cook heard Public Comment after IV. Scheduled Appointments.

III. Scheduled Appointments *(Board may vote)*

a. 6:30 PM – Public Hearing; FY25 Transfer Station Regulations

Mr. Purple read the public hearing notice into the public record at 6:36 PM. DPW Superintendent Bill Cundiff appeared before the Board on the matter. Superintendent Cundiff reviewed the proposed changes, noting that the changes are minor and some are grammatical in nature. Mr. Dennington asked about the insertion of "commercial refuse not accepted." Superintendent Cundiff stated he has seen refuse that he suspects is commercial and would like to come up with better ways to identify violators. Mr. Dennington stated he is supportive of this change. Mr. Mike Canova, 41 Highland Street, asked if vehicles with commercial license plates would be excluded from the transfer station. Superintendent Cundiff stated that only commercial refuse would be excluded from the transfer station. Mr. Shawn Rose, 3 Lovers Lane, asked that the exclusion of paper bags for yard waste be added to the rules. Superintendent Cundiff stated that Mr. Rose's recommendation is a good one that could be added to next year's regulations. Ms. Cook stated that the Board is only being asked to vote on the regulations as presented this evening. Mr. Stivers moved to close the public hearing at 6:49 PM. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0). Mr. Stivers moved to approve the Transfer Station Regulations for FY25, as amended. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

b. Appoint Marlo Taylor as FT Communications Officer

Chief Newell requested that the Board appoint Ms. Marlo Taylor as a full-time Communications Officer. Ms. Taylor was not in attendance at the meeting and Chief Newell stated she would be filling one of the two full-time positions approved at Annual Town Meeting. Mr. Hamilton asked if the Department has one full-time and one part-time position still available. Chief Newell replied that is the case and the position are still being advertised. Mr. Stivers moved to approve Marlo Taylor as full-time Communications Officer. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

c. Appoint Anthony Vega as FT Police Officer

d. Appoint Andrew Whamond as FT Police Officer

Ms. Cook heard Scheduled Appointments "c" and "d" before Scheduled Appointments "b." Police Chief Ryan Newall appeared before the Board in the matter. Chief Newell presented Mr. Anthony Vega and Mr. Andrew Whamond to the Board and requested that they be appointed as full-time Police Officers with the Southborough Police Department. Chief Newell reported that with the appointment of Mr. Vega and Mr. Whamond, the Southborough Police Department would be fully staffed. The Board welcomed Mr. Vega and Mr. Whamond to the Department. Mr. Stivers moved to appoint Anthony Vega as a full-time Police Officer and Andrew Whamond as a full-time Police Officer. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

The Board recessed at 6:55 PM and resumed meeting at 6:58 PM.

e. Board and Committee appointments:

i. Sheri Widdiss to the Conservation Commission, term to expire 6/30/2027

Ms. Sheri Widdiss appeared before the Board, via ZOOM, in the matter. The Board interviewed Ms. Widdiss. Mr. Hamilton asked Ms. Widdiss for her thoughts on returning Chestnut Hill Farm to a working farm. Ms. Widdiss stated she would need to review the Conservation Restriction on the property and then understand the goals of the Conservation Commission and Board related to the property. Mr. Stivers moved to appoint Sheri Widdiss to the Conservation Commission, term to expire 6/30/2027. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

ii. Jane Gates to Cultural Arts Council, term to expire 8/5/2026

Ms. Jane Gates appeared before the Board in the matter. The Board interviewed Ms. Gates. Mr. Stivers moved to appoint Jane Gates to the Cultural Arts Council, term to expire 8/5/2026. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

iii. Nicole Boloz to Cultural Arts Council, term to expire 10/2/2025 (to complete Jen Hansen's term)

Ms. Nicole Boloz appeared before the Board in the matter. The Board interviewed Ms. Boloz. Mr. Stivers moved to appoint Nicole Boloz to the Cultural Arts Council, term to expire 10/2/2025. Mr. Dennington seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

f. Update from the Cultural Arts Council: Katlyn Heusner

Ms. Katlyn Heusner appeared before the Board on the matter. Ms. Heusner updated the Board on the recent activities of the Cultural Arts Council. She stated that the Council had recently re-organized into an executive committee structure, consistent with the Massachusetts Cultural Arts Council guidelines, and reported that she and members Elizabeth Kesselman and Rajani Kumari sit on

the executive committee. She also stated the Council has focused on recruitment and presently has a full committee of six members. Council member Elizabeth Kesselman appeared before the Board to clarify that the Massachusetts Cultural Arts Council's guidelines require a minimum number of five members in order to award grants. Ms. Heusner stated the committee's goals include: 1) how to functionally improve to ensure they are in general compliance, while also understanding the Board's goals; and 2) identifying and working with other partners in Town to enhance arts and culture for the residents. She stated that the Council annually awards a total of $6,000 in grants and informed the Board that the grant cycle would open on September 1st and close on October 17th. She also stated the Council recently conducted a survey on all aspects of their grants process to obtain public feedback and shared the results of the survey. The Board and Ms. Heusner discussed space needs, greater community involvement and publicity for the upcoming grant cycle. Mr. Stivers suggested that the Board consider budgeting some funds annually for the Cultural Arts Council.

g. Update from Historical Commission: Kevin Miller

Mr. Kevin Miller, Chair of the Historical Commission, appeared before the Board in the matter. Mr. Miller called the Historical Commission meeting to order at 7:36 PM. Members present: Kevin Miller, Grant Farrington, Kelly O'Brien and Dan Blanchard. Vice Chair Annie Phaff appeared via ZOOM. Absent: Michele Hokinson and James Blaschke. Mr. Miller updated the Board on recent activities of the Historical Commission. He stated that ARPA funds were used for the following: 1) the National Historical District Register sign project. The project has been completed and the signs are up; 2) $1,000 to restart the historic house sign project. Mr. Miller stated this project is free to homes that qualify, although the Commission accepts donations and hopes this project will become self-sustaining. Vice Chair Annie Pfaff stated that, to date, the Commission has delivered 55 signs in total, with 12 signs in the pipeline and approximately 350 signs on the list that qualify; and 3) $500 has been used to purchase a sign for the water tower in the Rural Cemetery. Mr. Miller stated that the Commission is looking into the challenges for preserving structures affected by the Demolition Delay Bylaw. He stated that the Bylaw should be consistent with the age of historic buildings in the zoning code, which is 85 years old. Mr. Stivers suggested the Historic Commission bring forth an article at Annual Town Meeting 2025 that makes the Demolition Delay Bylaw consistent with Town Code. The Historic Commission and the Board discussed the status of 42 Main Street. Mr. Hamilton stated that he believes the Demolition Delay Bylaw should be re-examined, as he views the Bylaw as an inconvenience to property owners. Mr. Miller stated that the Historical Commission is also working on the following issues: 1) working with Jon Delli Priscoli regarding the viewscape at the Burnett House; 2) finding a location for historical record storage and to display historical Town documents; 3) marking the graves of the 43 Revolutionary War veterans who are in unmarked graves in the Old Burial Ground; and 4) integrating an education aspect of the 250th anniversary of the Revolutionary War (in 2026) with the Tricentennial Celebration that will take place in 2027. Ms. Landry stated she feels the historical document storage matter should be addressed in the near future. Mr. Dennington stated that CPC grant applications are due by August 31st. The Board and Historical Commission discussed logistics for the Town Common Rail Replacement Project and agreed that Mr. Dennington would draft a grant proposal for the Historical Commission to review prior to August 31st. Mr. Dennington requested that any other potential funding sources for the project be relayed to Mr. Dennington for inclusion in the grant application. Mr. Farrington moved to adjourn the Historical Commission meeting at 8:13 PM. Ms. O'Brien seconded the motion. The motion was unanimously approved by roll call vote: Ms. Pfaff, aye; Ms. O'Brien, aye; Mr. Farrington, aye; Mr. Blanchard, aye; Mr. Miller, aye (5-0-0).

Ms. Cook moved to Other Matters "b" at this time.

VI. Public Comment

There was no public comment.

V. Reports

a. Chair's Report

i. Neary Building Committee report; Recreation Commission vacancies

Ms. Cook reported that the Neary Building Committee (NBC) would decide by next week on the project to recommend for a vote at Annual Town Meeting 2025. She stated the NBC Financial Subcommittee would present the latest estimates to the Board at a meeting this Friday, August 9th, at 1 PM and she urged the public to attend/view.

Ms. Cook stated that at each meeting, the Board would highlight a board/committee to inform residents about vacancies and encourage them to volunteer. She stated this meeting's spotlight is on the Recreation Commission and added they have two vacancies available.

b. Members' Reports

i. RECC update

Mr. Hamilton reported that the Virtual RECC presentation was sent to Ashland, Westborough and Northborough, and added there has been no feedback received from the communities on the concept of a virtual RECC. Mr. Hamilton stated that he spoke with a representative from State 911 regarding a potential virtual RECC and the representative was not encouraging about the concept. Mr. Hamilton stated that he believes the Board should hold 2-3 public forums in the coming months to discuss the options available and to determine a path forward for the Town. Mr. Hamilton and Mr. Stivers agreed to propose a schedule for the public forums prior to Special Town Meeting.

ii. Update on 2025 One Stop grant application for Rt. 9 zoning

Mr. Dennington reported that he and Ms. Cook appeared before the Planning Board to discuss the Board's goal to pursue a One Stop grant application to study zoning improvements on Rt. 9. He stated he was pleased that the Planning Board unanimously expressed their support and interest in collaborating on the One Stop grant application. Mr. Dennington noted that if the Town were successful in receiving a One Stop grant, any work related to the grant would follow the MBTA Communities work presently being addressed by the Planning Board.

Mr. Dennington also reported that the Affordable Housing Working Group met August 1st. Members present were the following: Mr. Dennington and Mr. Hamilton from the Affordable Housing Trust Fund Committee, Doug Manz and Paul Desmond from the Southborough Housing Opportunity Partnership Committee (SHOPC) and Lisa Braccio, member at-large. He stated that he believes the group will have draft language by the end of August for Special Town Meeting.

c. Town Administrator's Report

i. August special meeting: Tuesday, August 27th proposed

Mr. Purple reported that the Board would hold a meeting on Tuesday, August 27th, to finalize the warrant for Special Town Meeting on September 30, 2024. He also stated that the Board and the School Committee would hold a joint meeting on September 11, 2024 at 6:30 PM to appoint the new K-8 School Committee member.

iii. Staffing study update

Mr. Purple reported that he, Police Chief Newell and Fire Chief Puntini, have received a draft of the study and are offering comments to the consultant. He stated he expects to have a final version for the Board to review next week.

iv. Update on Division of Local Services (DLS) Financial Policy Manual

Mr. Purple reported that the DLS's review of the Town's Financial Policy Manual has been completed and is currently under review by Mr. Purple and the Finance team. He stated there is a great deal of information to digest and he believes the Finance team will likely report first on updating current financial policies of the Town. He expects the review/recommendations will be presented to the

Board and Advisory next week. He stated the Town is still awaiting DLS's review of the Town's financial operations.

VI. Consent Agenda

a. Approve Open Session Meeting Minutes: July 10, 2024; July 16, 2024; July 23, 2024

Mr. Stivers and Ms. Landry requested to hold Consent Agenda item "a." **July 10, 2024 Minutes:** Ms. Landry, Mr. Stivers and Mr. Dennington had scrivener's changes to the minutes. **July 16, 2024 Minutes:** Mr. Stivers requested that Atty. William Solomon attendance, via ZOOM, be added to the minutes. Mr. Cook moved to approve the July 10, 2024 minutes, as amended, the July 16, 2024 minutes, as amended and the July 23, 2023 minutes, as written. Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

b. Approval of 2024 Warrant for State Primary
c. Approve police detail for election
d. Approve Early Voting dates for September and November Elections
e. Approve amended poll workers' rate
f. Appoint Doug Manz as the SHOPC representative to the CPC
g. Appoint Leslie Naditch to OSPC (swearing-in period expired)

Ms. Cook moved to approve Consent Agenda items "b", "c", "d", "e", "f" and "g." Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

VII. Other Matters *(Board may vote)*

a. Review of September 30, 2024 Special Town Meeting warrant

i. Review of all warrant article placeholders

Ms. Cook suggested, and the Board agreed to remove two articles from consideration at the Special Town Meeting: increasing the CPA surtax and creating a Storm Water Enterprise Fund.

ii. Review order of warrant articles

The Board discussed the order of the warrant articles. The Board agreed to order the articles as follows (and as numbered in the Draft Warrant): 1) remove Articles #12 and #14 from consideration; 2) Potential Consent Agenda: #1, #2, #7, #8, #9); and 3) the following articles after the Consent Agenda: #10-MBTA, #16-RECC, #11-SHOPC/AHTFC consolidation, #13-Transfer of CPC/Affordable Housing funds, New Article Section 3 (b1/2), #3-Breakneck Hill, #4-Atwood, #5- Public Safety Staffing Study, #6-EDC Coordinator hours and #15-Annual Town Meeting date requirements. The Board agreed to discuss the recommendations from the Public Safety Staffing Study with Chief Newell at its August 27th meeting and suggested a joint meeting with the Advisory Committee at that time. The Board discussed Article #6-EDC increase the coordinator position to full-time. Mr. Hamilton stated that he would like to see performance standards attached to the position to determine if the increase in hours is a benefit to the Town. The Board indicated their unanimous support for Article #6.

iii. Consideration of article to accept MGL Chapter 44B Section 3(b1/2) – to allow use of other municipal funds to supplement CPA funds

Ms. Cook heard this matter prior to Other Matters "a." Mr. Stivers stated that the Town's CPA bylaw language, approved in 2005, does not reflect the State's amended language. Mr. Stivers is proposing that the Town amend the bylaw to accept the State's amendment, as doing so would allow the Town greater flexibility in funding projects using CPA monies. Mr. Stivers stated that this matter is administrative. Ms. Cook stated that the CPC would vote on the matter at its meeting on Thursday evening. The Board discussed the matter and agreed to support an article at Special Town Meeting that amends the Town's CPA bylaw. Mr. Stivers will follow up on the matter.

b. 352 Turnpike Road overview with Ferris Development on proposed 40B project

Mr. David Ferris, Principal of Ferris Development Group, and Atty. George Bahnan, Assistant Counsel for Ferris Development Group, appeared before the Board on the matter. Mr. Ferris thanked the Board for their efforts to cooperate with his 40B projects. He stated that he is proposing a six-story 40B project at 352 Turnpike Road of 68 rental units consisting of 55 one-bedroom units, 6 two-bedroom units and 7 three-bedroom units. He noted that 25% of the units would qualify as affordable. Mr. Ferris stated that he has three potential projects in the pipeline that would allow the Town to reach Safe Harbor and be in control of future proposed projects. Ms. Cook asked about next steps. Mr. Ferris stated that concept plans have been drawn up and he is seeking feedback on those plans. Following any feedback, Mr. Ferris stated that Ferris Development Group would apply to the State for a Project Eligibility Letter. Mr. Dennington asked if the project would use impervious surface (parking lot). Mr. Ferris stated that it would. Mr. Dennington asked if mixed-use was an element of the project. Mr. Ferris stated that at this time, conceptually, it was. The Board discussed the proposed project.

VIII. Public Comment

There was no public comment.

IX. Adjournment

Ms. Cook moved to adjourn at 9:18 PM. Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Mr. Hamilton, aye; Ms. Cook, aye (5-0-0).

Upcoming Meetings	
August 27, 2024	*September 4, 2024*

Respectfully submitted,

Bridgid Rubin, Recording Secretary

Letter of Request – Town of Southborough

8/26/24

To Whom It May Concern,

I am requesting authorization, from the Southborough Select Board, for an Eversource contracting company, New England Utility Contractors (Neuco), to utilize the DPW Facility located at 147 Cordaville Rd throughout the upcoming Gas Main Installation Project on Route 9, from Parkerville to Cordaville Rd.

Neuco would like to use the wooded area behind the transfer station / swap shop as a staging area for materials (i.e sand, gravel, etc.) throughout the project. This project has an estimated duration of 2 months, starting September 3rd and will have work hours of 9pm – 5am, Sunday through Thursday.

The extent of use will include the following:

Daytime Activity:

- Dumping and storage of Sand and Gravel at the site – appx 2 times a week, preferably during transfer station off hours.
- Clean up and removal of excess material from the proposed site – once a week.

Nighttime Activity:

- Periodic use of machinery to transfer materials from the staging area to the work site.
- Periodic dumping of materials to be stored at the staging area.

This request has been coordinated with and reviewed by the DPW Superintendent, Eversource Supervision, Neuco Supervision, and the Neuco Operations Crew. Notification to all abutters will be provided by Eversource Supervision and all efforts to minimize noise during nighttime operations will be established and incorporated into daily activities.

Included is a Use of Land Agreement provided by Neuco, releasing liability and insuring the staging area will be returned to its original state, accepted by the DPW Superintendent.

PROPERTY USE AGREEMENT

Superintendent: Dan Wisz Job #: 10609224

I, Southborough town officer ("Owner"), own the below-described real property ("147 Cordaville rd. Southboro") and hereby agree to rent a portion of the premises, near the transfer station, to Select Company ("NEUCO") for use as a staging area for equipment, materials (sand and Gravel) and supplies (including but not limited to fuel and lubricants) used in connection with NEUCO operations:

147 Cordaville Rd.
Southborough MA
01772

This Agreement shall begin on 9/3/24 and remain in full force and effect until the earlier of 12/31/24 or termination by NEUCO through prior notice of no less than seven calendar days. NEUCO agrees to pay the sum of $00.00 per month , which sum will be paid in advance on or before the 1st day of each month. Owner shall return to NEUCO such prorated portion of rent as reflects the pre-paid but unused rent for the month in which the agreement is terminated.

For the duration of this Agreement, NEUCO shall hold Southborough DPW harmless from and against any and all liability directly arising out of NEUCO operations on the 147 Cordaville rd. Southboro. NEUCO shall remove all spoils, foreign debris, materials and equipment generated from its use from the premises and restore the 147 Cordaville rd. Southboro to its pre-rent condition (reasonable wear and tear excepted) at conclusion of this Agreement.

Southborough DPW represents and warrants that it has not been notified by any federal, state or local environmental agency or similar entity regarding any pending or threatened environmental or hazardous-waste matter involving or relating to the 147 Cordaville rd. Southboro, and that Southborough DPW is not aware of any such pending or threatened matter or any impairment of any such kind. In any event, Southborough DPW shall indemnify and hold harmless NEUCO and its officers, directors, employees, agents and consultants from and against all claims, losses, damages, costs and expenses (including professional fees and damages to third parties) attributable to any environmental contamination or impairment as relates to any use or condition of the 147 Cordaville rd. Southboro prior to NEUCO 'S occupancy (except, any extent to which any such contamination or impairment is caused by NEUCO), irrespective of when any such contamination or impairment is discovered or becomes a part of any enforcement action by any regulatory agency. As intended herein, NEUCO'S possession of the Premises shall not be construed as NEUCO having "caused" any contamination or impairment arising from materials not handled by NEUCO or that migrated upon, in, under, or about the PROPERTY prior to NEUCO'S use or occupation of the Premises.

Town Finance Terminology

The following terms are frequently used in the Advisory Committee Report and at Town Meeting. For your convenience, we provide the following definitions:

Surplus Revenue: (Often referred to as "Excess and Deficiency")
The fund represents the amount by which the Cash, Accounts Receivable and other floating assets exceed the liabilities and reserves.

Available Funds: (Often referred to as "Free Cash")
The amount of the Unreserved Fund Balance (Surplus Revenue) account over and above uncollected taxes of prior years constitutes "free cash" or "available funds".

Overlay:
The Overlay is the amount raised by the Assessors in excess of appropriations and other charges for the purpose of creating a fund to cover abatements and exemptions as granted.

Overlay Reserve:
This is the accumulated amount of the Overlay for various years not used or required to be held in the specific Overlay account for a given year, and may be used by vote of the town for extraordinary or unforeseen purposes or voted into the Reserve Fund.

Stabilization Fund:
An outside section of Chapter 138 of the Acts of 1991 (the FY92 State budget) modifies limitations on the Stabilization Fund appropriation process by enabling communities to appropriate from this fund for any non-capital, lawful purpose without Emergency Finance Board approval (section 333). Beginning in FY92, the Stabilization Fund will thus become a source of revenue for general operating expenses for communities.

The Stabilization Fund is a mechanism for setting aside money for capital projects. It equalizes the effect of capital expenditures over time, as capital appropriations can change considerably from year to year. The balance in the fund will build up during years when expenditures for capital items are low. During years with high capital expenditures, the community will transfer money from the fund to reduce the project's impact on the tax rate or the amount of borrowing required for the project.

A community may appropriate up to 10% of its tax levy each year, as long as the balance in the Stabilization Fund does not exceed 10% of the community's equalized valuation. Interest earned on any fund balance is retained as part of the fund.

Appropriations into a Stabilization Fund can be made at either an annual or special town or district meeting. Chapter 94 of the Acts of 1985 permits appropriations to be made from a Stabilization fund at a special town or district meeting, not just at the annual meeting. Regardless of the timing, appropriations from the Stabilization Fund require a two-thirds vote by the appropriating authority. Until the FY92 state budget, a community could only appropriate from the Stabilization Fund for a none-capital purpose with the approval of the Emergency Finance Board.

Reserve Fund:
This fund is established by the voters at the Annual Town Meeting only and may be composed of (a) an appropriation (not exceeding 5% of the tax levy of the preceding year), (b) money transferred from Overlay Reserve, or (c) both. Transfers from the Reserve fund may be made only by the Advisory Committee and are for "extraordinary or unforeseen expenditures" only.

Conservation Fund:
For land purchases and any other conservation use.

DRAFT

Introduction to the Rules of Town Meeting

Southborough's Town Meeting is an open town meeting in which all registered voters may participate. Town Meeting is a deliberative assembly, conducted via a defined process, charged with considering a maximum number of questions of varying complexity in a minimum amount of time and with full regard to the rights of the majority, strong minority, individuals, absentees and all of these together. In other words, we gather for the purpose of conducting the Town's business thoughtfully and efficiently.

AUTHORITY

The three elements of authority at Town Meeting are a quorum of one hundred (100) registered voters or more, the Clerk and the Moderator. Of these three, the quorum is the most important.

The Town Clerk is responsible for voter registration, certification of a quorum, setting up the hall and keeping the record of the proceedings. He may also officiate Town Meeting in the absence of a Moderator.

The Moderator presides at and regulates the proceedings, decides all questions of order, and makes declarations of all votes. No one may speak on an issue without being recognized by the Moderator. It is the Moderator's responsibility to approve the distribution of materials, and persons wishing to do so must seek his permission. The Moderator appoints Tellers and alternates for the purpose of counting votes of the meeting.

THE WARRANT

All matters to be considered at Town Meeting must be published in the Town Meeting Warrant, which is the responsibility of the Board of Selectmen. The primary and most important purpose of the Warrant is to notify voters in advance the nature of the business to be taken up at Town Meeting. By state law, Town by-law or custom, several business articles (such as budget appropriations) must be presented in the Town Warrant each year for consideration. Other items are added by warrant articles proposed by Town officials, committees, boards, or groups of ten or more registered voters. The Advisory Committee reviews the Warrant, making recommendations on all the items of business to be presented. In accordance with the Town by-laws, all articles in the Warrant are considered in the order in which they appear in the Warrant, unless the Town Meeting votes to change the order for reasons that reasonable people would entertain.

PARTICIPATION

Any voter wishing to participate in Town Meeting must go to one of the floor microphones and wait to be recognized by the Moderator. Upon recognition by the Moderator, first state your name and address, and then state your business.

Anyone whose name is not on the list of registered voters requires the approval of either the Moderator or a majority of the Meeting to sit in the voting area.

All remarks shall be limited to the subject then under discussion. It is improper to indulge in references to personalities, and all expressions of approval or disapproval, such as applause or booing, are out of order. The Moderator may request any person to keep silent. If after warning from the Moderator, a person refuses to be silent or persists in other disorderly behavior, the Moderator may order a person to withdraw and if he fails to withdraw, may order a police officer to remove such person from Town Meeting.

Individuals who have a personal or financial interest with respect to a matter may speak or vote thereon but should frankly disclose their interest. However, no Town Meeting voter should accept compensation for participating without disclosing that fact.

There is no fixed time limit to the debate of any question. However, out of consideration for the others in attendance and the need to give adequate time to all matters coming before Town Meeting, each individual who speaks should make an effort to be as brief as possible and avoid repeating facts, views or opinions already expressed by others.

Anyone wishing to make a presentation with respect to any article must, prior to Town Meeting, obtain the Moderator's approval.

In order to give all a fair opportunity to speak, no one who has addressed any particular motion shall speak again, except to answer questions, until all others wishing to speak to the motion have done so.

HOW ARE MOTIONS CLASSIFIED?

Main Motions
Motions of this group are for the bringing of questions, or propositions, before Town Meeting for consideration. Only one main motion can be considered at a given time, and once introduced such a motion excludes all other main motions until it has been disposed.

Subsidiary Motions
Motions of this group have are for the modification or disposition of the main motion that is being considered. Their existence as motions depends entirely upon the principal motion to which they are subordinate. Since they relate to the question then under consideration, it is in order to propose them when a main motion is pending and to vote upon them before voting upon the main motion.

Privileged Motions
Motions of this group have no connection whatsoever with any main motion, but are motions of such importance that they are entitled to immediate consideration. These motions have the privilege of temporarily setting aside the main business then before Town Meeting.

Incidental Motions
Motions of this group have few characteristics in common, but for convenience have been grouped into one class. The name "incidental" applies because they arise only incidentally out of the business of Town Meeting.

RULES RELATIVE TO MOTIONS

A motion is the means of bringing a proposal or question for consideration by Town Meeting. When first put forward it is a motion; after it is seconded and acknowledged by the Moderator, it becomes the question or proposal. Except for complimentary resolutions (the presentation of which must be approved in advance by the Moderator), no main motion shall be entertained unless it's substance is contained within the scope of a Warrant article. Upon completion of debate, articles will be voted upon.

The Moderator shall determine whether a motion, or any discussion relative to a motion, is within the scope of the Warrant article under consideration. That is, the motion and the debate must be relevant to the article as written in the Warrant, since the purpose of the Warrant is to apprise voters of the actions to be taken at Town Meeting.

Articles only give notice to the voters and do not initiate action; motions do. Motions may be withdrawn; articles may not be withdrawn – articles must be acted upon by Town Meeting.

There are four types of amendments: striking out, inserting, striking out and inserting, and substitution. Motions to amend may be hostile as long as they are germane. An amendment to a motion is an amendment of the first rank; an amendment to an amendment is of the second rank; there can be no amendment beyond that of the second rank.

Some motions do not lead to a final determination by Town Meeting. A motion to commit or to refer sends the matter to an existing board or committee or one to be established. The motion to postpone indefinitely disposes of the question without bringing it to a direct vote. The motion to postpone indefinitely should not be confused with the motion to table which only temporarily delays a vote. As previously stated, articles may not be withdrawn; so when the Meeting does not wish to act on a particular article, the proper motion is to postpone consideration indefinitely.

Motions to reconsider shall be entertained when new information is available that is materially different than was presented (or could have been presented) at the time of the original vote on the article. Articles may be reconsidered only once. If a motion to reconsider is passed by the necessary 2/3 vote, it brings the original article back to the floor (which requires a new motion and additional debate); if the motion to reconsider is defeated, then the original article stands as previously voted and may not be reconsidered again. Actions to reconsider can be taken at the same session or any subsequent session of Town Meeting. A notice of reconsideration may be filed in advance with the Town Clerk stating that, at a specific point during the current Town Meeting, a voter will move for reconsideration on a particular article, and the Moderator will inform the hall of said action. Note that such a motion so noticed in advance must still be in order (i.e., must comply with all conditions required of any reconsideration motion).

All motions other than purely procedural motions must be in writing and signed by the sponsor.

CHART OF PRECEDENCE OF MOTIONS AND SUMMARY OF GOVERNING RULES

	May interrupt a speaker	Req. a sec.	Debatable	Vote Required	Motions that may apply
PRIVILEGED MOTIONS					
1. To dissolve	no	yes	no	majority	none
2. To adjourn	no	yes	limited	majority	amend

17. Separate Consideration	Mr. Moderator, I move for separate consideration.
18. Suspend the Rules	Mr. Moderator, I move to suspend the rules which interfere with...
19. Take from the Table	Mr. Moderator, I move to take from the table the motion relating to...

INTERRUPTING A SPEAKER

No one may interrupt a speaker except for a point of order or a question of privilege.

POINT OF ORDER

A point of order if a question of the Moderator about whether the speaker is entitled to be speaking, or whether the current subject under discussion (or what the speaker is saying) is irrelevant, illegal or contrary to proper procedure. No other "point of order" is proper.

PREVIOUS QUESTION

To call or move the question is a request to stop discussion and to take an immediate vote. This requires a 2/3 vote.

VOTING

Voting is by hand vote and the Moderator declares the result of such votes. If seven or more voters immediately question the declared result, the Moderator shall determine the result by a standing count of votes by the Tellers. After the vote counted by the Tellers is presented to the Moderator and announced to the floor, any further motions for recount are out of order.

ADJOURNMENT AND DISSOLUTION

Sessions of Town Meeting normally adjourn at eleven o'clock in the evening but may adjourn at such earlier or later time as vote of the majority may determine. Town Meeting shall not dissolve until all articles in the warrant have been properly considered.

TOWN WARRANT
COMMONWEALTH OF MASSACHUSETTS

SPECIAL TOWN MEETING

Worcester, ss. September XX, 2024

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the Inhabitants of the Town of Southborough qualified to vote in town affairs, to meet in the P. Brent Trottier Middle School, 49 Parkerville Road, in said Southborough, on

Monday, September 30, 2024

at ***7:00 p.m.***, then and there to take action on the following Articles:

ARTICLE 1: To see if the Town will vote to amend the Personnel Salary Administration Plan, as specified in Chapter 31 of the Code of the Town of Southborough, entitled: PERSONNEL, as follows:

PERSONNEL BYLAW
ENTITLED "THE SALARY ADMINISTRATION PLAN"
[revised at September 30, 2024 Special Town Meeting
Effective October 1, 2024 if warrant article is approved]

Select Board Recommendation: Select Board
Advisory Committee Recommendation:
Summary:

ARTICLE 5: To see if the Town will vote to amend Town Code § 9-25 Meeting Minutes, by deleting it in its entirety and replacing it with:

Each board, committee, or commission shall provide minutes for each meeting to the Town Clerk within 45 days of the meeting, however Executive Session minutes shall be provided to the Town clerk within 45 days from the date that they are released for public disclosure.

A. The requirements of this bylaw shall apply to every board, committee or commission meeting, whether held in person, virtually, or in a hybrid manner.
B. Minutes shall be submitted as required by the Attorney General's instructions on the Open Meeting Law ("OML") MGL c. 30A, § 22.
    1) The Town Clerk shall provide every board, commission or committee member with a list of the Attorney General's OML instructions as they relate to meeting minutes on an annual basis and whenever there is a change in the instructions.
    2) The Town Clerk shall also maintain this information on the town website.
C. Minutes submitted to the Town Clerk shall include, as reasonably possible, copies of all documents, as defined by the Attorney General's OML instructions. The last page of the minutes shall include a section labeled Documents Used at This Meeting and shall list the names of each document that was used at the meeting.
D. Minutes shall indicate whether they have or have not been approved by the board, committee or commission when submitted to the Town Clerk. Minutes that have not been approved at the time of their receipt shall be labeled "Draft."
E. The Town Clerk shall:
    1) Notify the board, committee or commission chair if minutes are overdue.
    2) Keep minutes and documents for a period of time as required by applicable state law.
    3) Maintain and publish a monthly summary of any instance when a board or committee has not complied with the provisions of this bylaw.

; or do or act anything in relation thereto.

Proposed by: TOWN CLERK
Select Board Recommendation:
Advisory Committee Recommendation:
Summary: *This Article clarifies that the existing requirements for a board, committee, or commission to maintain minutes and documents used at a meeting also applies to both in-person meetings, hybrid and fully virtual meetings. This Article also requires the town clerk to maintain and publish a monthly summary of board and committees that have not complied with the provisions of this bylaw. A recent review of board meetings revealed many instances where no documents were submitted by a board.*

ARTICLE 6: To see if the Town will vote to accept M.G.L c.200A, §9A to allow the Treasurer-Collector to collect unclaimed checks or "tailings"; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support (5-0-0)
Advisory Committee Recommendation:
Summary: *MGL Chapter 200A S9A provides for an alternative procedure for the disposing of abandoned funds known as tailings, held in the custody of the Town. Adopting this statute allows for a more efficient and expedited process for the disposing of abandoned funds, allowing the Treasurer to take these funds as General Fund revenue after there have been several attempts to notify the check recipient, once a full year has passed since the original issuance. Not passing this MGL means the Town must follow Massachusetts Unclaimed annual reporting guidelines whereby there is a 3-year waiting period and the funds transfer to the state not the Town.*

ARTICLE 7: To see if the Town will accept General Laws Chapter 44, Section 53F¾, which establishes a special revenue fund known as the Public Education Government (PEG) Access and Cable Related Fund, to reserve cable franchise fees and other cable-related revenues for appropriation to support PEG access services and oversight and renewal of the cable franchise agreement, the fund to begin operation for fiscal year 2026, which begins on July 1, 2025, or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support (5-0-0)
Advisory Committee Recommendation:
Summary:

ARTICLE 8: To see if the Town will vote to add a new **§174-10.3 MBTA Communities Overlay District (MCOD)** to the Town of Southborough's Zoning Bylaws, amend the zoning map, amend certain other sections to integrate the new section into the current zoning bylaw, and make any minor modifications to the text required for consistency with the existing format of the bylaws or do or act anything in relation thereto.

Please note that text to be added in in **bold**, other than §174-10.3, where the proposed change is the addition of the entire section; deleted language shown with ~~strikethrough~~.

Add the following definitions to §174-2. Definitions:

B. Definitions

AFFORDABLE UNIT
A multi-family housing unit that is subject to a restriction recorded in its chain of title limiting the sale price or rent or limiting occupancy to an individual or household of a specified income, or both.

AFFORDABLE HOUSING
Housing that contains Affordable Units as defined by §174-2.

AREA MEDIAN INCOME (AMI)
The median family income for the metropolitan statistical region that includes the Town of Southborough, as defined by the U.S. Department of Housing and Urban Development (HUD).

DWELLING, MULTIFAMILY WITHIN THE MCOD
A building with three or more residential dwelling units or two or more buildings on the same lot with more than one residential dwelling unit in each building.

Modify the following existing definitions in §174-2. Definitions:

B. Definitions

DWELLING UNIT
~~Living quarters for a single family.~~
A single unit providing complete, independent living facilities for one or more persons, including permanent provisions for living, sleeping, eating, cooking, and sanitation.

Add the following text to: §174-3. Districts enumerated:

N. MBTA Communities Overlay District, referred to as MCOD.

Add the following text to Article III. Use Regulations:

§174-8.13 MCOD MBTA Communities Overlay District

A. See §174-10.3

Add the following text to §174-10.A:

(6) All multi-family development within the MCOD (§174-10.3). The provisions of §174-11 Signs, §174-12 Parking and Loading, §174-12.1 Outdoor Illumination, §174-13 Landscaping, §174-13.3 Lower Impact Development, §174-13.4 Water Resource Protection, and §154 Stormwater and Erosion Control shall be included as a part of the MCOD site plan review process.

DRAFT

Add the following text to §174-12.1. Outdoor Illumination:

E. (2) LZ-1 : low ambient lighting
(b) Zoning Districts: Residence A, Residence B, **and MCOD.**

F. Table 1 – under the column LZ-1, add "**MCOD**" below Residential B.

Add the following new section under Article III. Use Regulations:

§174-10.3: MBTA Communities Overlay District.

A. Purpose.

The purpose of the MBTA Communities Overlay District (MCOD) is to allow multi-family housing as of right in accordance with Section 3A of the Zoning Act (Massachusetts General Laws Chapter 40A). This zoning provides for as of right multi-family housing to accomplish the following purposes:

(1) Encourage the production of a variety of housing sizes and typologies to provide equal access to new housing throughout the community for people with a variety of needs and income levels;

(2) Support vibrant neighborhoods by encouraging an appropriate mix and intensity of uses to support an active public space that provides equal access to housing, jobs, gathering spaces, recreational opportunities, goods, and services within a half-mile of a transit station.

(3) Locate housing within walking distance of public transit to promote general public health, reduce the number of vehicular miles traveled, support economic development, and meet community-based environmental goals, including reducing greenhouse gases and improving air quality.

(4) Support public investment in public transit and pedestrian- and bike-friendly infrastructure.

B. Establishment and Applicability.

This MCOD is an overlay district having a land area of approximately 59.2 acres in size that is superimposed over the underlying zoning district(s) and is shown on the Zoning Map.

(1) **Applicability of MCOD.** An applicant may develop multi-family housing, a building with three or more residential dwelling units or two or more buildings on the same lot with more than one residential dwelling unit in each building, located within an MCOD in accordance with the provisions of this §174-10.3. The MCOD shall be exempt from §174-8.C.(2) a special permit for 2 buildings on one lot

(2) **Underlying Zoning.** The MCOD is an overlay district superimposed on underlying zoning districts. The regulations for use, dimensions, and all other provisions of the Town of Southborough's Zoning Bylaw governing the respective underlying zoning district(s) shall remain in full force, except for uses allowed as of right in the MCOD. Uses that are not identified in §174-10.3 are governed by the requirements of the underlying zoning district(s).

(a) The requirements of §174-13.2 Major residential development do not apply to the MCOD.

(b) The requirements of §174-13.3.E, Lower Impact Development special permit application and process shall not apply to a multifamily use within the MCOD, but the performance standards of §174-13.3.I, Lower Impact Development, Performance Standards: LID Criteria, may be considered during site plan review.

(c) The requirements of §174-13.4.C, Water Resource Protection special permit process shall not apply to a multifamily use within the MCOD, but compliance with the Massachusetts Surface Water Quality Standards (314 CMR 4.00) may be considered during site plan review.

(3) **Subdistricts:** The MCOD contains the following subdistricts, all of which are shown on the Zoning Map:

(a) MCOD Subdistricts #1a and 1b (Residence B Dimensional Standards)

(b) MCOD Subdistrict #2 (Industrial Park Dimensional Standards)

(c) MCOD Subdistrict #3 (Industrial Park Dimensional Standards)

For subdistrict dimensional standards, see §174-10.3.E.(1) Table of Dimensional Standards. For Sign regulations, see §174-11, and for provisions of Outdoor Illumination, see §174-12.1.

C. Definitions.

Terms used in this section but not otherwise defined herein or under §174-2 of the Zoning Bylaw shall be as defined in the Zoning Act.

D. Permitted Uses.

(1) **Permitted Uses are as follows:** The following uses are permitted as of right within the MCOD.

(a) Multi-family housing, as referenced in §174-10.3.B. (1)

(2) **Accessory Uses.** The following uses are considered accessory as of right to any of the permitted uses in Section D.1. above.

(a) Parking, including surface parking and parking within a structure such as an above ground or underground parking garage or other building on the same lot as the principal use.

(3) **Prohibited uses.** All uses which are not listed above, legally nonconforming, or otherwise allowable by the provisions of the underlying zoning regulations, are prohibited.

E. Dimensional standards are as follows:

(1) **Table of Dimensional Standards.** The dimensional requirements applicable in the MCOD are as follows:

Dimensional Standards	*MCOD Subdistricts #1a & 1b* (Residence B Dimensional Standards)	*MCOD Subdistrict #2* (Industrial Park Dimensional Standards)	*MCOD Subdistrict #3* (Industrial Park Dimensional Standards)
(a) Minimum lot area	**25,000**	**43,560**	**43,560**
(b) Minimum frontage	**125**	**200**	**200**
(c) Minimum setbacks			
(i) Front	**30**	**75***	**50**
(ii) Rear	**35**	**50**	**50**
(iii) Side	**15**	**50**	**50**
(d) Maximum height	**2.5 stories or 35 feet**	**3 stories or 45 feet**	**3 stories or 45 feet**
(e) Maximum floor area ratio	**0.3**	**0.6**	**.6**
(f) Maximum dwelling units per acre	**15.0**	**16.0**	**15.0**

***A 75-foot setback is required for buildings on Route 9.**

DRAFT

(2) **Multi-Building Lots.** In the MCOD, lots may have more than one principal building. A minimum distance of ten (10) feet is required between principal buildings.

(3) **Exceptions:** (refer to §174-15).

(4) **Exceptions: Renewable Energy Installations.** The Planning Board may waive the height and setbacks in §174-10.3.E.(1) Dimensional Standards to accommodate the installation of solar photovoltaic, solar thermal, living, and other eco-roofs, energy storage, and air-source heat pump equipment. Such installations shall not create a significant detriment to abutters in terms of noise or shadow and must be appropriately integrated into the architecture of the building, as applicable, and the layout of the site. The installations shall not provide additional habitable space within the development.

F. Off-Street Parking.

These parking requirements are applicable to development in the MCOD.

(1) **Number of parking spaces.** The following **minimum** numbers of off-street parking spaces shall be permitted by use, either in surface parking or within garages or other structures:

Use	Minimum Spaces
Multi-family	**1.5 per unit**

(2) **Number of bicycle parking spaces.** The following **minimum** numbers of covered bicycle storage spaces shall be provided by use:

Use	Minimum Spaces
Multi-family	**1 per unit**

(3) **Bicycle storage.** For a multi-family development of 15 units or more, covered parking bicycle parking spaces of no less than 25% of the total required spaces shall be integrated into the structure of the building(s).

G. General Development Standards.

(1) Development standards are applicable to all multi-family development within the MCOD. These standards are components of the Site Plan Review process in §174-10.3.I. Site Plan Review.

(2) **Site Design.**

(a) **Connections.** Sidewalks shall provide a direct connection among building entrances, the public sidewalk (if applicable), bicycle storage, and parking.

(b) **Vehicular access.** Where feasible, curb cuts shall be minimized, and shared driveways encouraged.

(c) **Mechanicals.** Mechanical equipment at ground level shall be screened by a combination of fencing and plantings. Rooftop mechanical equipment shall be screened if visible from a public right-of-way.

(d) **Dumpsters.** Dumpsters shall be screened by a combination of fencing and plantings. Where possible, dumpsters or other trash and recycling collection points shall be located within the building.

(e) **Stormwater management.** Stormwater Management shall comply with the most current versions of the Massachusetts Department of Environmental Protection Stormwater Management Standards, the Massachusetts Stormwater Handbook, Massachusetts Erosion

DRAFT

Sediment and Control Guidelines, and, the provisions under Town Code §154, Stormwater and Erosion Control. Provisions under Stormwater and Erosion Control shall be included as part of the Site Plan Review process but shall not supersede the requirements of §154.

(f) The following provisions shall be reviewed under site plan approval process:
  (1) Screening for Parking (refer to Landscaping §174-13).
  (2) Parking and Loading (refer to Parking and Loading §174-12, provided the required number of spaces shall be reduced as provided in F, above).
  (3) Landscape and Plantings (refer to Landscaping §174-13).
  (4) Lighting (refer to §174-12.1 Outdoor illumination).
  (5) Signs (refer to §174-11).
  (6) Lower Impact Development (refer to §174-13.3, provided section E shall not apply).
  (7) Water Resource Protections (refer to §174-13.4, provided section C shall not apply).
  (8) Stormwater and Erosion Control (refer to §154).

(3) **Buildings: General.**

(a) **Position relative to the principal street.** The primary building shall have its principal façade and entrance facing the principal street. See also §174-10.3.G.6. Buildings: Corner Lots.

(b) **Entries.** Where feasible, entries shall be clearly defined and linked to a paved pedestrian network that includes the public sidewalk.

(c) **Exterior Design.** The building(s) shall have an exterior design that is consistent with the styles of the surrounding residential neighborhood and the Town of Southborough in general.

(4) **Buildings: Multiple buildings on a lot.**

(a) Parking and circulation on the site shall be organized so as to reduce the amount of impervious surface. Where possible, parking and loading areas shall be connected to minimize curb cuts onto public rights-of-way.

(b) A paved pedestrian network shall connect parking to the entries to all buildings and the buildings to each other.

(c) The orientation of multiple buildings on a lot should reinforce the relationships among the buildings. All building façade(s) shall be treated with the same care and attention in terms of entries, fenestration, and materials.

(d) The building(s) adjacent to the public street shall have a pedestrian entry facing the public street.

(5) **Buildings: Shared Outdoor Space.** Multi-family housing shall have common outdoor space that all residents can access. Such space may be located in any combination of ground floor, courtyard, rooftop, or terrace.

(6) **Buildings: Corner Lots.** A building on a corner lot shall indicate a primary entrance either along one of the street-facing façades or on the primary corner as an entrance serving both streets.

(a) Such entries shall be connected by a paved surface to the public sidewalk, if applicable.

(b) All façades visible from a public right-of-way shall be treated with similar care and attention in terms of entries, fenestration, and materials.

(c) Fire exits serving more than one story shall not be located on either of the street-facing façades.

(7) **Buildings: Infill Lots.** If the adjacent buildings are set back at a distance that exceeds the minimum front yard requirements, infill buildings shall meet the requirements of §174-10.3.E.(1) Dimensional Standards. Otherwise, infill buildings may match the setback line of either adjacent building, or an average of the setback of the two buildings to provide consistency along the street.

(8) **Buildings: Principal Façade and Parking.** Parking shall be subordinate in design and location to the principal building façade.

DRAFT

(a) **Surface parking.** Surface parking shall be located to the rear or side of the principal building. Parking shall not be located in the setback between the building and any lot line adjacent to the public right-of-way.

(b) **Integrated garages.** The principal pedestrian entry into the building shall be more prominent in design and placement than the vehicular entry into the garage.

(c) **Parking structures.** Building(s) dedicated to structured parking on the same lot as one or more multi-family buildings shall be subordinate in design and placement to the multi-family building(s) on the lot.

(9) **Waivers.** Upon the request of the Applicant and subject to compliance with the Executive Office of Housing and Livable Communities' (EOHLC's) Compliance Guidelines, the Planning Board may waive the requirements of this §174-10.3.G. General Development Standards, in the interests of design flexibility and overall project quality, and upon a finding of consistency of such variation with the overall purpose and objectives of the MCOD.

H. Affordability Requirements.

(1) **Purpose**.

(a) Promote the public health, safety, and welfare by encouraging a diversity of housing opportunities for people of different income levels;

(b) Provide for a full range of housing choices for households of all incomes, ages, and sizes;

(c) Increase the production of affordable housing units to meet existing and anticipated housing needs; and

(d) Work to overcome economic segregation, allowing the Town of Southborough to be a community of opportunity in which low and moderate-income households have the opportunity to advance economically.

(2) **Applicability.** This requirement is applicable to all residential developments with five (5) or more dwelling units, whether new construction, substantial rehabilitation, expansion, reconstruction, or residential conversion (Applicable Projects). No project may be divided or phased to avoid the requirements of this section.

(3) **Subsidized Housing Inventory**. All units affordable to households earning 80% or less of AMI created in the MCOD under this section must be eligible for listing on EOHLC's Subsidized Housing Inventory (SHI).

(4) **Provision of Affordable Housing.** In Applicable Projects, not fewer than ten percent (10%) of housing units constructed shall be Affordable Housing Units. For the purpose of calculating the number of units of Affordable Housing required within a development project, a fractional unit shall be rounded up to the next whole number. The Affordable Units shall be available to households earning income up to eighty percent (80%) of the AMI.

(5) **Alternative Methods.**

(a) As an alternative to the requirements of paragraph (3) of this section, and in certain exceptional circumstances, the Planning Board may, at the formal written request of the developer, consider an alternative method of compliance, as provided for in §174-13.2.E.(5).

(6) **Affordability Development Standards.** Affordable Units shall be:

(a) Integrated with the rest of the development and shall be compatible in design, appearance, construction, and quality of exterior and interior materials with the other units and/or lots;

(b) Dispersed throughout the development;

(c) Located such that the units have equal access to shared amenities, including light and air, and utilities (including any bicycle storage and/or Electric Vehicle charging stations) within the development;

(d) Located such that the units have equal avoidance of any potential nuisances as market-rate

units within the development;

(e) Distributed proportionately among unit sizes; and

(f) Distributed proportionately across each phase of a phased development.

(g) Occupancy permits may be issued for market-rate units prior to the end of construction of the entire development provided that occupancy permits for Affordable Units are issued simultaneously on a pro rata basis.

(7) **Administration.**

(a) The Zoning Enforcement Officer shall be responsible for administering and enforcing the requirements in this section.

I. Site Plan Review.

(1) **Applicability.** The requirements of §174.10 Site Plan Approval are applicable to any multi-family development within the MCOD, unless modified herein. An application for Site Plan Review shall be reviewed by the Planning Board for consistency with the purpose and intent of this §174-10.3.

(2) **Site Plan Approval.** Site Plan approval for uses listed in §174-10.3(D) Permitted Uses shall be granted upon determination by the Planning Board that the following requirements have been satisfied. The Planning Board may impose reasonable conditions, at the expense of the applicant, to ensure that these requirements are satisfied.

(a) the Applicant has submitted the required fees and information as set forth in *the Town of Southborough's requirements for a Building Permit and Site Plan Review; and*

(b) the project as described in the application meets the development standards set forth in §174-10.3.G General Development Standards and the requirements of §174-10.3.D.(1) and §174-10 or has received waiver(s) from the requirements therein.

(3) **Project Phasing.** An Applicant may propose, in a Site Plan Review submission, that a project be developed in phases subject to the approval of the Planning Board, provided that the submission shows the full buildout of the project and all associated impacts as of the completion of the final phase. However, no project may be phased solely to avoid the provisions of §174-10.3.H Affordability Requirements.

J. Severability.

If any provision of this §174-10.3 is found to be invalid by a court of competent jurisdiction, the remainder of §174-10.3 shall not be affected but shall remain in full force. The invalidity of any provision of this §174-10.3 shall not affect the validity of the remainder of the Town of Southborough's Zoning Bylaw.

Proposed by: PLANNING BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary: *The intent of this article is to comply with Chapter 40A §3A, MBTA Multi-family zoning. The MBTA Communities shall have a zoning ordinance or by-law that provides for at least 1 district of reasonable size in which multi-family housing is permitted as of right; provided, however, that such multi-family housing shall be without age restrictions and shall be suitable for families with children. The proposed MBTA Communities Overlay District (MCOD) is comprised of 4 areas (as depicted on maps prepared by Bohler Engineering July 2024), and to include all other changes proposed to implement the new MCOD overlay district.*

ARTICLE 9: To see if the Town will vote to recommend that the Select Board should exercise its authority to enter into an Intermunicipal Agreement ("IMA") with the Metrowest Regional Emergency Communications Center (the "RECC") for the provision of public safety communications services (including 911 response and emergency public safety dispatch services)—in place of the services currently being provided locally by Town employees in the Public Safety Building dispatch center. This recommendation includes expectations that the IMA will provide reasonable local influence and control over the RECC services and that the Select Board's plan for this process addresses local concerns regarding financial exposure to RECC financial assessments and staffing presence at the Public Safety Building; or do or act anything in relation thereto.

Summary:

ARTICLE 15: To see if the Town will vote to appropriate $2,127,960, or any other amount, to be expended with the approval of the Select Board, to pay additional costs of remediating pollution at the Breakneck Hill dumpsite, as required by an administrative consent order between the Town and the Department of Environmental Protection, including the payment of all costs incidental and related thereto; to determine whether this amount shall be raised by taxation, transfer from available funds, borrowing or otherwise provided, or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation:
Summary: *Due to recently discovered site conditions, and to remain in compliance with the Administrative Consent Order from DEP, the total cost of the project has increased from what was originally voted to be borrowed under Article 9 of the March 2023 town meeting.*

ARTICLE 16: To see if the Town will vote to raise and appropriate or transfer from available funds a sum of money to implement the results of the Public Safety Staffing study

; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary:

ARTICLE 17: To see if the Town will vote to amend §41-1 of the Town Code to change the date for Annual Town Meeting as follows:

; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation:
Advisory Committee Recommendation:
Summary:

ARTICLE 18: To see if the Town of Southborough will vote to amend Chapter 9 of the code of the Town of Southborough, entitled Committees, by amending Article IV, Section 9-16 Establishment (A); terms of the Community Preservation Committee by inserting the following changes, as noted in **BOLD** and striking those in ~~*ITALICS*~~ with a strikethrough. Sections B-D are unchanged.

Section 9-16 Establishment, terms.
(A) There is hereby established a Community Preservation Committee consisting of nine voting members pursuant to the Massachusetts General Laws, Chapter 44B. ~~*The Committee shall be appointed by the Select Board and shall consist of the following members:*~~ **The composition of the Committee, the appointment authority and the term of office for the Committee Members shall be as follows:**

(1) One member of the Historical Commission as designated by **a majority vote of** the Commission for an initial term of three years and thereafter for a term of three years.
(2) One member of the Housing Authority as designated by **a majority vote of** the Authority for an initial term of one-year and thereafter for a term of three years.
(3) One member of the Conservation Commission as designated by **a majority vote of** the Commission for an initial term of two years and thereafter for a term of three years.
(4) One member of the Planning Board as designated by **a majority vote of** the Board for an initial term of two years and thereafter for a term of three years.
(5) One member of the Recreation Commission as designated by **a majority vote of** the Commission for an initial term of one-year and thereafter for a term of three years.
(6) One member of the Open Space Preservation Commission as designated by **a majority vote of** the Commission for an initial term of three years and thereafter for a term of three years.
(7) One member of the Southborough Housing Opportunity Partnership Committee (SHOPC) as designated **by a majority vote of** by the ~~Commission~~ Committee for a term of three years.
(8) Two members at large to be appointed by **a majority vote of** the Select Board, for an initial term of one-year and thereafter for a term of three years.

; or do or act anything in relation thereto.

Proposed by: COMMUNITY PRESERVATION COMMITTEE
Select Board Recommendation: Not Support
Advisory Committee Recommendation:
Summary: *This is a citizen petition*

ARTICLE 19: It is hereby resolved that the citizens of Southborough require the Select Board to establish a legal and valid recall bylaw modeled upon what is legal and valid in Hopkinton, substituting language for Southborough in place of Hopkinton, and without substantially changing the intent or standards of any conditions or terms, which are acceptable to the Commonwealth of Massachusetts. The Select Board shall complete and post a draft of the bylaw for public view within 21 days of a successful vote in support of this petition, and furthermore submit a completed recall bylaw for any and all state legal scrutiny, process, and approval within 45 days from the time of the vote of this article. The Select Board is required to offer an update upon the status of the bylaw at every Select Board Meeting after 60 days from the passage of this petition, until the bylaw is legally established and included in publicly available town election materials.

SELECT BOARD OF THE TOWN OF SOUTHBOROUGH

DRAFT

TOWN OF SOUTHBOROUGH

OFFICE OF THE TOWN ADMINISTRATOR
TOWN HOUSE · 17 COMMON STREET · SOUTHBOROUGH, MASSACHUSETTS 01772-1662
(508) 485-0710 · FAX (508) 480-0161 · selectboard@southboroughma.com

TO: Select Board
FROM: Mark J. Purple, Town Administrator
DATE: September 3, 2024
SUBJECT: Police Lieutenant position

At the last meeting, the Board was considering the possibility of adding a second Lieutenant position for the Police Department as an article on the September 30, 2024 Special Town Meeting warrant. This was based on the recommendations contained in the Public Safety Staffing Study recently completed by MRI Consulting.

Should the Board wish to proceed with adding this position, you should note the following:

- Assuming a normal recruitment/promotional process, including an assessment center, the position would likely not be filled until January 1, 2025;
- The budget for the position should be $75,280, which would accommodate six months of salary ($63,725) and health insurance ($11,555 for an HMO family plan). This accommodates the provisions of the Police CBA that would apply to this non-union position, including educational incentive and uniform allowance.

Please let me know if you have any questions. Thank you.

MEMORANDUM

DATE: August 30, 2024

TO: Select Board

FROM: Melanie Otsuka, Executive Assistant

SUBJECT: PROPOSED SELECT BOARD OFFICE HOURS DATES

Below are the proposed dates for Select Board Office Hours through December 31, 2024:

- September 10
- October 15
- November 12
- December 10

This schedule maintains the typical 2nd Tuesday Office Hours schedule, except October 15, so as not to conflict with the Select Board meeting on October 8.

Town of Southborough
Board of Health
9 Cordaville Road, Lower Level
Southborough, MA 01772-1662

Phone: (508) 481-3013
Fax: (508) 983-7729

September 3, 2024

To: Select Board

Subject: Health Agent IMA

Dear Honorable Board,

The Health Department has gone through several transitions in the last few years as a result of COVID-19. In spring of 2021 two new full-time positions (Nurse and Health Director) were added utilizing temporary funding to the Health Department to help the town respond to the pandemic. At the 2021 Fall Town Meeting, the Board of Health brought forward an article to increase the Health Department budget by $70K and the benefits budget by $30K to cover the remaining contracts of FY22 because other funding sources had been exhausted. At the annual Town Meeting in 2022, the Board of Health brought forward adding the Nurse/Assistant Health Director to be added to the Salary Administration Plan (SAP).

In July 2021, the Southborough Health Department entered into an Intermunicipal Agreement (IMA) with Health Departments of Northborough, Westborough, and Boylston (Greater Boroughs Partnership for Health). The State had awarded the towns a renewable Public Health Excellence Grant in the amount of $160K, renewable for up to 12 years. The purpose was to provide the towns with resources to be able to hire staff to perform duties that are required of health departments. Over the past 3 years, the grant has enabled Southborough to provide better and more timely services that was lacking. The Board of Health and the staff in the Health Department are extremely grateful for the partnership amongst the 4 towns and appreciate the cross-functioning and additional support it receives from the Greater Boroughs team.

As a result of the success of the grant and the pivoting that the internal department did with staffing towards the medical side, the Board of Health applied for a Best Practices Grant with the state to determine if the health department as well as the other towns were maximizing its resources and funded in the appropriate areas. The Board was awarded the grant and invited the other towns of the Greater Boroughs to participate. Northborough and Boylston were interested in seeing if there were other opportunities to improve services together so they joined the study.

The Southborough Board of Health contracted with Collins Center to perform an 18-month analysis of the current state of the 3 health departments and shared/independent staffing. The study showed that the Public Health Excellence Grant has allowed Southborough to improve services and also has opportunities to expand on shared staffing. It also showed that Southborough in particular was heavy on the medical side and light on the septic/inspection side.

The Southborough Board of Health decided it was time to reorganize and combine the Nurse position and the Health Director position. By combining the positions, the Board recognized that we needed to offload the inspections the Nurse was currently performing. Additionally, in discussions with Northborough and Boylston,

Town of Southborough
Board of Health
9 Cordaville Road, Lower Level
Southborough, MA 01772-1662

Phone: (508) 481-3013
Fax: (508) 983-7729

Northborough expressed interest in sharing a health agent to perform all inspections due to a change in their structure. By both towns reorganizing, there is funding available in each town's health department budgets to allow for a shared position.

The shared health agent will be on Southborough's payroll and therefore the full expense of salary and benefits will need to be reflected in the Southborough health department's budget. Northborough will be invoiced on a quarterly basis for half of the salary and benefits. Half of the expense for the health agent will be reflected in local receipts. The IMA that is being proposed for this position also allows for another town to join in the future if the opportunity presents itself. This is the first time the town of Southborough has engaged in sharing a position with another town and the Board of Health is very excited about the opportunity to provide better service without increasing overall cost.

I have attached projected budgets with the old model (Health Director at 30 hours plus full-time Nurse) and with the reorganized model (Full-time Health Director Nurse, shared Health Agent – refer to page 19 of Collins Center report). Even with the full cost of the health agent in the budget (which is estimated at this time), this will save the town money over time. The actual budget voted for FY25 was $284K which should be enough to cover the reorganization as well as the benefits for FY25 because we are already into September of this fiscal year.

The Advisory Committee and Select Board have encouraged the Board of Health to continue to explore ways to provide better services to the town while being fiscally responsible. It has taken several steps and years to come to this solution but we believe it is the right one for the town of Southborough. We are committed to continuing to find tune this model in the coming years.

Thank you,

Southborough Board of Health

Chelsea Malinowski, Dr. Safdar Medina, Dr. Elizabeth Zulick

Public Health Shared Services / Regionalization Assessment

FOR THE TOWNS OF
SOUTHBOROUGH, NORTHBOROUGH, AND BOYLSTON

Executive Summary

This document assesses the breadth and scope of work of the Health Departments in Boylston, Northborough, and Southborough and recommends three opportunities to enhance shared services or to formally regionalize. The analysis considers recommendations from the Massachusetts Department of Public Health (MA-DPH), statutorily required duties for local public health departments, as well as national standards that are considered the future of public health in Massachusetts. Also included are the next steps needed to expand current shared service delivery, steps which will also facilitate regionalization, should that option be pursued.

Project Introduction

The Town of Southborough commissioned the Edward J. Collins, Jr. Center for Public Management to assess opportunities to share or regionalize public health services with neighboring communities. The Southborough Board of Health wanted to explore the potential of sharing services with Northborough and Boylston, both partners in the current Public Health Excellence grant. This project was funded by a Community Compact Best Practices grant awarded to the Town of Southborough.

Methods

This project benefitted from the input and advice of an advisory team of representatives of each participating town. Advisory team members provided guidance on interview participants, submitted data for analysis, and answered project team questions. Advisory team members were the Boylston Town Administrator, the Chairs of Southborough and Boylston Boards of Health, and the Northborough Health Director.

The project began first with establishing buy in from each Town's Board of Health and Health Department. Boylston's Board of Health and Department were wary of regionalization based on past experiences. Therefore, most options presented in this assessment offer shared service solutions for Boylston, rather than regionalization.

This assessment included two phases of data collection. First, the project team engaged in a thorough document review, including an environmental scan of public health and related municipal operations across the three towns, a regulatory review of each town's local regulations and policies as well as relevant state plans, regulations, policies, and codes that affect local public health. The environmental scan included demographic data for each participating town, budgets, revenues, and permitting / licensing information from each town's health department.

Thirty key stakeholders were interviewed across all three of the participating municipalities to identify opportunities for a regional approach and shared services. The project team also sought participant input to identify strengths and key resources available from each municipality. Stakeholders were identified by each municipality and included members of the local boards of health, departments that frequently partner with their health department (such as schools, fire departments, and youth and family services), administration, and all health department staff from the three towns. The project team also interviewed the Director of the MA-DPH Office of Local and Regional Health to understand the priorities of that Department and possibilities of state support.

This project spanned the course of a year. During that time there were significant staffing changes in the towns, including the departure of Northborough's Assistant Town Administrator (there was no permanent Town Administrator at project launch) and Health Director and Southborough's Fire Chief. These departures impacted

the pace and path of the project. Shared service ventures require buy in and maintenance, and future staffing changes may affect the future path for whichever option the towns choose to pursue.

Findings

Governance

Though different in population size, the three towns (Boylston, Northborough, Southborough) have many similarities in their governance structures. Table 1 provides an overview of these characteristics. HD stands for Health Department, and the towns are represented by their first initial.

Table 1. Governance Characteristics

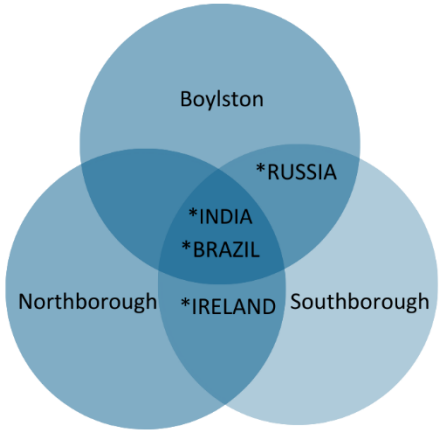
	B	N	S
Operating Budget	$19,925,280	$71,218,703	$60,187,290
HD Budget (% of Town Budget)	$98,622 (.49%)	$215,484 (.30%)	$268,271 (.44%)
HD Fee Revenue	$27,400 (FY23)	$80,564 (CY21)	$66,675 (FY23)
Board of Health Membership	3 elected	5 appointed	3 elected
Administrative structure	Select Board / Administrator	Select Board / Administrator	Select Board / Administrator
Town governance	Open Town Meeting	Open Town Meeting	Open Town Meeting
Charter	No	Yes	No
HD in Org Chart	Board of Health > Health Agent	Town Administrator > Health Director	Board of Health > Health Director

All operate under an Open Town Meeting form of government, all have Town Administrators, though only Northborough's governance structure formally has the Health Director reporting to the Town administration. Southborough and Boylston both have elected Boards of Health, which then serve informally or formally to supervise the staff member that runs the Health Department. Neither Southborough nor Boylston have charters.

The operating budget of each Town varies in proportion to the population size of the Town and reflects the differences in median income. All three towns spend a similar proportion of the Town's budget (less than half of a percent) on their Health Departments.

Table 2. Population Overview

	B	N	S
Estimated Population	4,849	15,741	10,450
% growth since 2010 census	10.2% ↑	10% ↑	6.5% ↑
Median household income	$127,833	$148,010	$170,223
Poverty rate	3.6%	4.3%	3.8%
Severely Cost Burdened Households	9.32%	11.76%	11.26%
Unemployment Rate	3.63%	4.92%	3.10%
% Children and Youth	21.3%	22.8%	27.2%
% Seniors	18.2%	13.7%	13.6%



Source: 2020 Census

While population sizes differ, the towns' key demographic indicators are similar (Table 2). Southborough's population is a bit younger, Boylston's a bit older. As the largest of the Towns, Northborough has the higher proportion of cost burdened households, a higher

poverty rate, and higher unemployment. These differences are important to consider for public health efforts, however they are within range to avoid significantly impacting public health services.

According to Census data, the three communities share similarities in foreign born residents' countries of origin, as well (Figure 1). All three towns count residents from India and Brazil in the top five countries of origin for foreign born population, and two towns count residents from Russia and Ireland among their top five countries of origin. Southborough residents report the highest level of limited English proficiency of the three towns, with 5% of residents over the age of 5 reporting limited English proficiency.

Figure 1. Top Countries of Origin for Foreign Born Population

(Census and MA-DPH Community Health Assessment Data)

Community Health Indicators

This section reviews how the three towns compare across measures of social determinants of health as well as key data points that indicate scope and breadth of the departments' work based on regulatory requirements for inspections and licensing.

According to Healthy People 2030, "Social determinants of health (SDOH) are the conditions in the environments where people are born, live, learn, work, play, worship, and age that affect a wide range of health, functioning, and quality-of-life outcomes and risks."[1] The SDOH are typically divided into 5 domains: economic stability, education access and quality, health care access and quality, neighborhood and built environment, and social and community context.

Among many indicators that have implications for public and environmental health, the three towns are again quite similar. Table 3 illustrates the similarities of the three towns across key environmental health indicators required to be reviewed, permitted, or licensed, and inspected by local health departments.

Each town is primarily served by private septic systems and has some homes that have private drinking water wells. As far as commercial businesses requiring Health Department inspection and licensure, Northborough has the largest number of licensees, particularly for food service establishments. Across other licensed entities, the numbers are similar across the three Towns, with very few camps, pools and hot tubs, lodging establishments, body art establishments, and a small number of licensed tobacco retailers.

[1] Healthy People 2030. Accessed February 28, 2024, from https://health.gov/healthypeople/priority-areas/social-determinants-health.

None of the departments track their housing inspection data and only Northborough tracks nuisance complaints.

Table 3. Local Environmental Health Workload

	B	N	S
% of properties on septic systems	100%	70%	98%
% of properties on private water	[2]	20%	15%
# of food service licenses	31	89	47
# of camps	0	2	8
# of body art licensees	0	7	2
# of licensed lodging establishments	0	1	0[3]
# of licensed pools and hot tubs	2	3	4
# of licensed tobacco retailers	6	15	9

Appendix A contains additional comparative tables comparing the Towns across SDOH variables. Table 4 illustrates that the towns have relatively stable economic indicators, with little to no vacant businesses, and relatively high internet access. Food access indicators are similar across the three towns, with a limited number of fast food restaurants. None of the towns have farmers markets accepting SNAP benefits.

The three towns have similar rates of smoking, depression, disability, asthma, hypertension, and coronary heart disease. Northborough has higher rates of opioid-related incidents (Table 5).

The age of a town's housing stock also can indicate the workload of a health department (Table 6), with older houses more likely to utilize cesspools and/or contain lead paint. The three towns have similarly-aged housing stock, with just over a quarter of houses built before 1960 (prior to the enactment of the state code for septic systems), and just under half of houses being built before 1978 (when lead paint was banned nationally).

This data gives a baseline understanding that, although there are some differences especially relative to population size, the three towns share many similarities across SDOH and Health Department workload indicators. Sharing similar types of duties across the towns can facilitate sharing staff or services across town borders.

Current Health Department Operations

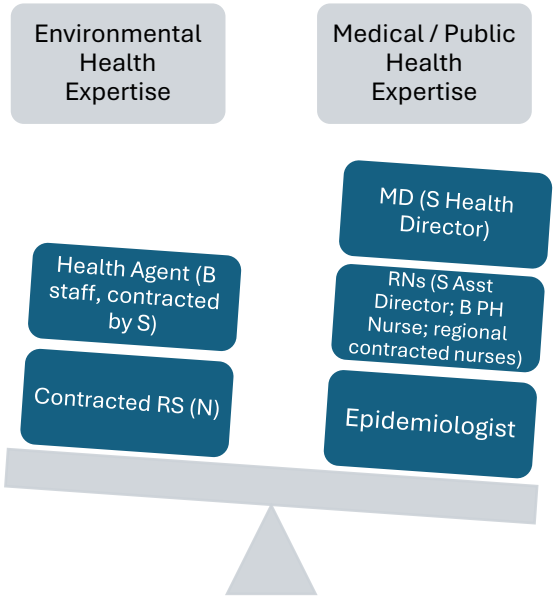
All three Health Departments currently share some health department operations, facilitated through the MA-DPH's Public Health Excellence Shared Services Grant Program (PHE). The PHE program is intended to encourage local health departments to share services to improve capacity and meet requirements. According to the grant program's website, "By pooling resources, functions, and expertise, a consortium of cities and towns, especially those that are smaller or less prosperous, can improve compliance with meeting

[2] Boylston has approximately 1260 Town water service connections. While the project team was unable to find exact comparison data, it does appear that many properties are served by private well water, indicating a high need for Health Department review.

[3] Southborough has at least one lodging establishment but the Health Department does not license it.

the Performance Standards and expand the public health services they offer residents."[4]

The PHE grant shared between Northborough, Southborough, Boylston and Westborough began in 2021. The grant award marks the first time the departments formally shared services. Southborough coincidentally shares staff with Boylston; for over twenty years, Southborough has contracted with the person who also serves as Boylston's part time Health Agent for wastewater inspections and plan reviews.



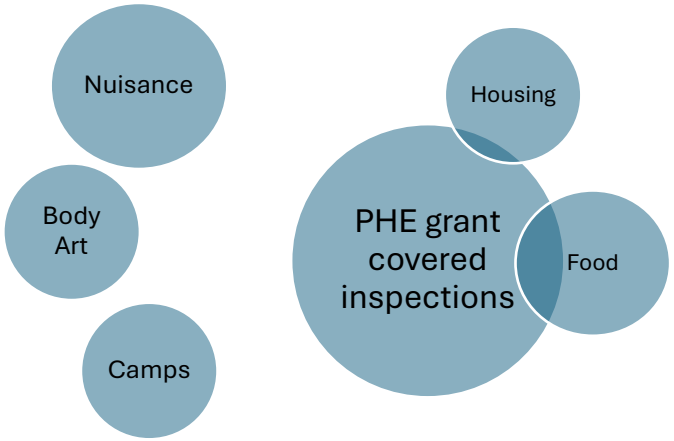
Across the three departments, and including the resources provided through the Public Health Excellence grant currently, there are some notable strengths, including more than sufficient public health nursing capacity and medical expertise (Figure 2). With PHE funding, all three towns are meeting most state requirements for inspections, which, interviews indicated, was not the case prior to the grant. Additionally, each Town has at least .5 FTE admin support, which is critical for Health Department success.

Notably, no Town has a Registered Sanitarian (RS) on staff. Currently, only Boylston has sufficient staff wastewater expertise, given that most of all three towns are served by onsite wastewater systems. Even with Boylston having sufficient coverage, that Town should be considering succession planning options in the event of that staff member's retirement.

Registered Sanitarians are credentialed experts that, according to the state credentialing website, provide expertise "…in food protection and safety, water protection, air quality, noise, industrial and land pollution, sewage disposal, hazardous and toxic substances, solid waste management, institutional health, and other related environmental health topics."[5]

Registered Sanitarians provide expertise in all local environmental health matters, and their training and continuing education requirements provide an added layer of proficiency and liability protection for the Town, particularly in matters of wastewater management and drinking water protection.

Figure 2. Breakdown of Expertise Among Current HD Staff



An additional opportunity is that all inspection types could be conducted by shared staff in all three towns. Currently only some

[4] Massachusetts Department of Public Health. "Shared Services." Accessed February 28, 2024, from https://www.mass.gov/info-details/shared-services.

[5] Massachusetts Department of Public Health. "Registered Sanitarians." Accessed March 6, 2024, from https://www.mass.gov/orgs/registered-sanitarians.

inspections are conducted by shared staff, leaving non-shared staff to conduct the other required inspections (Figure 3).

Figure 3. Shared and Not Shared Inspections

The information covered in this section informs the following section on the components of a local health department in Massachusetts. The findings discussed in this section also inform recommendations and options presented in future sections.

The Components of a Public Health Department

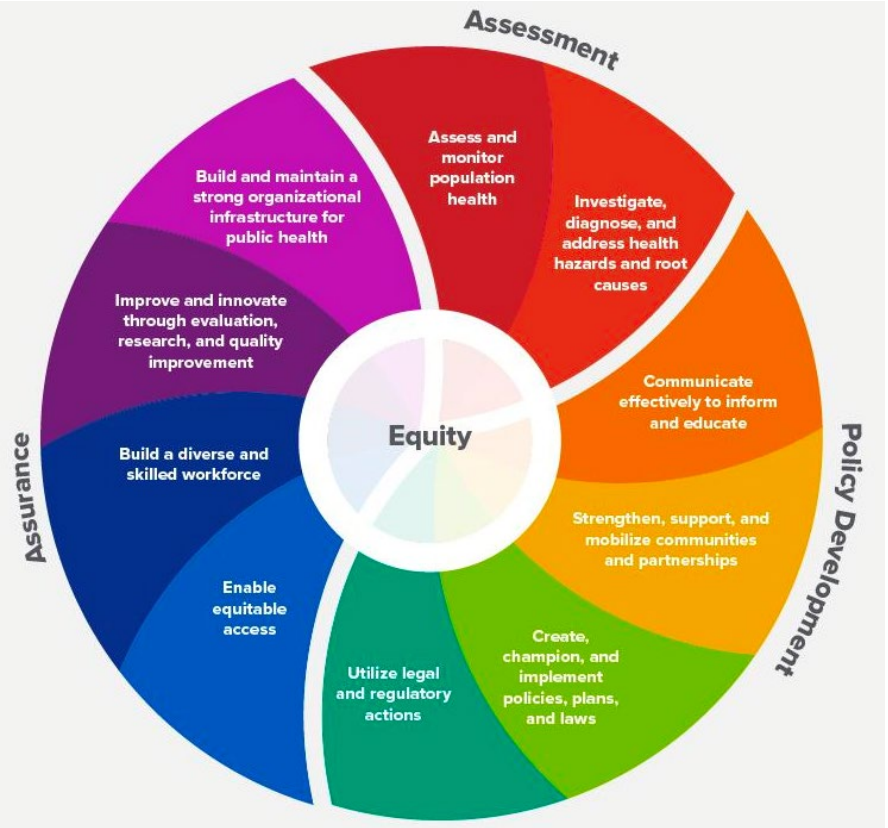
The Commonwealth of Massachusetts requires each municipality to establish a Board of Health.[6] However, municipalities are left to their own resources to create and fund positions to provide professional staff to serve those boards and determine any local adjustments to the staff's scope of work. At the same time, many state regulations for public and environmental health rely on local health department staff to oversee and enforce those regulations, deferring to state agencies only for exceptional or large cases.

The Massachusetts Department of Public Health is now taking steps to support municipal health departments with a more cohesive approach grounded in national standards, known as the 10 Essential Public Health Services (discussed below), to better guide local or regional health departments.

10 Essential Public Health Services

The 10 Essential Public Health Services (Figure 4) provide a framework for public health to protect and promote the health of all people in all communities. To achieve this, the Essential Public Health Services actively promote policies, systems, and services that enable good health and seek to remove obstacles and systemic and structural barriers that have resulted in health inequities.[7] These essential services include:

- Assess and monitor population health status, factors that influence health, and community needs and assets
- Investigate, diagnose, and address health problems and hazards affecting the population
- Communicate effectively to inform and educate people about health, factors that influence it, and how to improve it



[6] The duties and powers of Boards of Health in Massachusetts are delineated in M.G.L. Chapter 111, Sections.26-33. MA-DPH publishes a Manual of Laws and Regulations Relating to Boards of Health which is a useful primer.

[7] The Centers of Disease Control and Prevention. "10 Essential Public Health Services." Accessed March 6, 2024, from https://www.cdc.gov/publichealthgateway/publichealthservices/essentialhealthservices.html.

- Strengthen, support, and mobilize communities and partnerships to improve health
- Create, champion, and implement policies, plans, and laws that impact health
- Utilize legal and regulatory actions designed to improve and protect the public's health
- Assure an effective system that enables equitable access to the individual services and care needed to be healthy
- Build and support a diverse and skilled public health workforce
- Improve and innovate public health functions through ongoing evaluation, research, and continuous quality improvement
- Build and maintain a strong organizational infrastructure for public health

Where relevant, this report will reference the Essential Public Health Services. They should be used as a guide in any effort to update or improve local public health services.

Figure 4. 10 Essential Public Health Services (image from the Public Health Accreditation Board, 2020)

A Local Health Department's Scope of Work

Each Massachusetts local health department is responsible for a patchwork of state and local regulation and codes which span the jurisdictions of multiple state agencies, are adjusted to local nuances, and are scaled according to the size of the community they serve.

The Blueprint for Public Health Excellence ("Blueprint"), a foundational text for the movement to standardize local public health services in Massachusetts, is also a relic of pre-pandemic times and has not been updated to reflect the realities of yearslong public health response activities.[8] However, it is still of use as a guide to what is expected of local health departments. Table 7, taken from the Blueprint, provides an overview of the duties of local health departments.

The three local health departments included in this assessment generally work in all these areas of responsibility, with some functions being shared with partner departments such as Fire Departments (emergency preparedness) and Police Departments (animal control).

The core functions of the three health departments fall under environmental health, which is the domain of the agents, inspectors, and to a lesser extent, directors. Infectious disease prevention, reporting, and case management are generally the domain of public health nurses. This will be discussed further in the following section.

Table 7. Statutory and Regulatory Duties Of Massachusetts Local Health Departments

Area of Responsibility	Specific Duties
Environmental Health	Reduce exposure to lead; ensure safe housing; inspect and issue permits to food establishments, summer camps, pools, beaches, tanning facilities, and body art establishments; investigate hoarding, trash, noisome trades, and other nuisances such as odors; provide information on radon; ensure proper siting, installation, and repair of on-site septic systems; site and permit municipal solid waste and recycling; ensure safety of private water supplies (wells); and address air quality issues.
Infectious Disease Prevention, Reporting, and Case Management	Investigate and report cases of over 90 infectious diseases, including tuberculosis; enter data into MAVEN and complete disease investigation duties; manage foodborne disease outbreaks; hold immunization clinics and disease screenings; provide chronic disease self-management counseling; educate the public about the risk of vector-borne infections (mosquitoes and ticks); enforce isolation and quarantine regulations.
Emergency Preparedness	Conduct all-hazards planning, including emergency dispensing site plans; inspect shelters
Animal and Vector Control	Surveil for and prevent rabies, rodents, mosquitos, ticks, and the illnesses they carry.
Hazardous and Toxic Substances	Inspect and issue permits to sites; regulate household and medical waste disposal, including home sharps.
Regulations, Bylaws, and Ordinances	Set local regulations for a wide range of public health issues (e.g., tobacco, vaping) that might exceed state requirements.

[8] Special Commission for Local and Regional Health. Blueprint for Public Health Excellence. June 2019. Accessed February 28, 2024, from https://www.mass.gov/doc/blueprint-for-public-health-excellence-recommendations-for-improved-effectiveness-and/download.

Currently, Health Department staff in Northborough and Southborough play critical roles in their Town's emergency preparedness structures. Emergency management duties can be performed by different levels of Health Department staff, for example:

- Public Health Nurses typically participate in emergency dispensing site planning (which is often a similar operation to vaccination clinics)
- Health Directors typically play a significant role in municipal emergency planning including performing shelter discipline lead duties
- Any HD staff may be tasked with performing key emergency preparedness roles, depending on the particular emergency event and plan

If the three towns pursue further sharing services, the Towns will need to consider the emergency preparedness implications and ensure shared or regional staff are incorporated and trained in the appropriate Town's emergency preparedness structure (or the Towns could approach emergency planning and management from a regional perspective as well). Furthermore, the Towns are part of different emergency preparedness and planning regions, which may hinder coordinated or regionalized emergency preparedness efforts in the short term.

The project team was also asked to investigate what other leading Massachusetts public health departments offer in terms of services and programming. Appendix B provides an overview of the programs and services leading health departments offer above the State required functions.

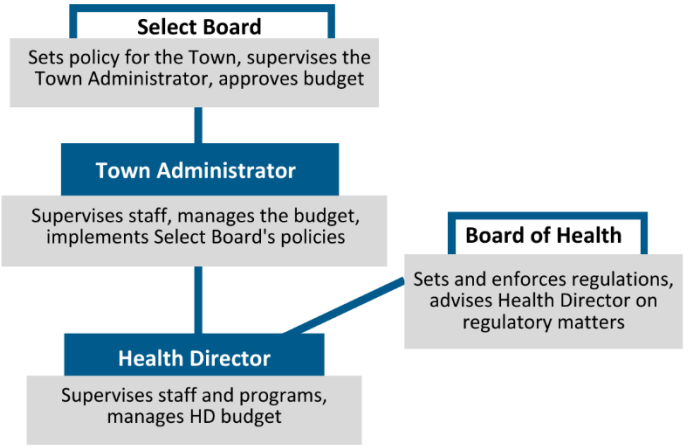
During the course of this project, the Town of Northborough separately hired the Central Massachusetts Regional Planning Commission (CMRPC) to examine whether that town's Health and Family and Youth Services departments should be combined, as both departments experienced significant staff turnover. While a discussion of human services duties is beyond the scope of this project, there are other Massachusetts health departments that include human services work. The CMRPC's assessment did recommend combining the Health and Family Services departments, which is not viable or applicable to Southborough and Boylston. What is relevant from the CMRPC assessment to this project is the CMRPC similarly identified a need for sanitarian-level expertise in the proposed combined Health and Human Services department, which is explored in the options offered in subsequent sections of this assessment.

The following section discusses the key staff positions of a local health department, particularly in context of these areas of responsibility to provide a foundation for discussion of options for sharing staffing resources and roles.

Local Health Roles and Responsibilities

MA-DPH recently issued workforce training standards (Table 8 in Appendix C provides an overview) for the customary staff positions in local public health departments. Those standards guide the following descriptions of the duties and requirements for those positions. Where appropriate, the positions are discussed in terms of a regional or shared services arrangement.

Board of Health



The Commonwealth of Massachusetts' laws establish the primary purpose of municipal Boards of Health which is to "make reasonable

health regulations."[9] Whether a Board is elected or appointed, it is imperative that this body not exceed its mission by taking on functions more appropriate for the municipality's administrative or human resources official(s) or financial managers. Boards of Health should only advise Health Department staff on matters under their jurisdiction (deriving from state law, regulation, or local regulation or policy) while abiding by state laws for process, including Open Meeting Law as a public body.

That said, Boards of Health can and should play an advisory role on matters that affect whether the Board can meet its statutory and regulatory duties (Figure 5 shows the recommended location of a Health Department in a municipal organizational chart). Such activities include making suggestions for and supporting the Health Department's budget; advocating on behalf of Health Department needs related to staffing or budgets; participating in and advising Health Department planning projects and processes and nominating a member to participate in staff searches and interviews.

Boards of Health that assume additional responsibilities outside of the statutory or local charter-designated duties run the risk of creating financial and legal liabilities for the Town.

Figure 5. Recommended Location of Health Department in a Municipal Organizational Chart

Health Director

A Health Director often leads a local health department. The size of a community and department determines the Health Director's role or whether the position is necessary. Often, small communities the Health Department consists of a single Health Agent (described below).

Health Directors are primarily a managerial role, with limited fieldwork and significant responsibility. The larger the health department in terms of staff positions and scope of work, the more managerial and the more removed from day-to-day inspections the Director role is. According to the state's workforce standards

[9] M.G.L. Section 111, Chapter 31. Accessed March 12, 2024, from https://malegislature.gov/Laws/GeneralLaws/PartI/TitleXVI/Chapter111/Section31.

(Appendix C), a Health Director is not conducting inspections, rather they are supervising inspectional staff.

In a regional or shared services setting, the Health Director's core duties include, but are not limited to:

- Hiring, managing, and supervising staff
- Managing the budget; preparing and defending yearly budget requests
- Grant writing and reporting (or supervising grant writing and reporting if there is a shared services coordinator)
- Appearing before Board(s) of Health periodically, as required by specific agenda items (not serving as Agent regularly)
- Participating in Town staff meetings, emergency planning exercises, coordinating efforts with partner Town departments (schools, social services, public safety)
- Fielding media or information requests in accordance with Town and Board of Health policies

Health Agent

The term health agent can be confusing, because typically most staff in a health department are designated "agents" of the Board of Health, acting on the Board's behalf and generally serving the Board. That general term still holds – typically all positions other than administrative ones can and should be formally designated by the Board(s) of Health they serve as agents.

However, the state's new workforce standards also offer the job title of Health Agent and differentiates that role from Health Inspector roles (for larger departments that have both positions). This position, as defined by the state workforce standards, is currently lacking in each Town, and the project team recommends the Towns hire one Health Agent to be shared across the Towns.

A Health Agent is a management position, but one trained in inspections and responsible for supervising inspectors. A Health Agent's duties can include field work. The state's workforce standards require Health Agents to be Registered Sanitarians or RS credential eligible.

The project team recommends a shared Health Agent's duties focus on wastewater-related matters. Across the three towns, a Health Agent, as defined above, would provide RS-level services of environmental health matters, particularly review of wastewater and drinking water systems.

Health Agent tasks include:

- Wastewater duties – answer questions; review/approve plans; inspect installations, repairs, and abandonments; building permit reviews; witness soil tests
- Well permitting and tracking
- Backup support for environmental health inspections including food service, body art, camps, lodging, pools and hot tubs
- Complaint inspections – including housing, nuisances, and beavers

A draft job description is offered in Appendix D for consideration.

Under a regional or enhanced formal shared services arrangement, the Health Agent could also provide the first level of supervision for the Health Inspectors. As staff numbers allow, the Health Agent and Health Inspectors (description follows) would serve as dedicated staff for the Board(s) of Health – each being assigned one Board of

Health to serve regularly and appearing before another as needed for a particular case or circumstance. Each position should be appointed as agents of every Board of Health they serve. Organizational structure implementation is discussed in more detail below.

Health Inspector

Across the three towns, there are currently approximately 1.5 FTE staff providing what can be categorized as Health Inspector-level work. That level of staffing seems appropriate for the amount of work across the three towns. **In an expanded shared services or regional health arrangement, each Health Inspector (and Agent) will be appointed by all three Boards of Health to work in all three communities.**

Health Inspector tasks include:

- Licensing and inspections for food service, body art, camps, lodging, pools and hot tubs
- Backup support for wastewater concerns – provide preliminary information about Title 5; inspect installations, repairs, abandonments; building permit reviews; witness soil tests
- Complaint inspections – including housing, nuisances, and beavers

The current arrangement of shared Health Inspection duties can be improved, however, by fully sharing all inspectional services across staff. **Currently some inspectional duties are not a part of the shared services arrangement due to funding limitations; each town is responsible for body art, camp, and nuisance inspections. Those inspections should be shared as well.**

Administrative Support

All three Health Departments are fortunate to have some administrative support. Each has at least .5 FTE of administrative support, however each position is shared with other municipal boards or departments. MA-DPH offers a Foundations course for clerical support staff, otherwise there are no specific training requirements for administrative support staff.

Health Department administrative duties include:

- Post agendas and minutes for Boards of Health
- Answer phones, provide preliminary information to the public and to applicants
- Scan files
- Provide customer service and support, including with online permitting
- Provide administrative duties for Health Department staff including processing invoices and paying bills
- Send renewal paperwork and reminders
- Process permits that do not require inspections, which may include:
    - Solid waste haulers
    - Septic haulers
    - Septic installers
    - Funeral homes / directors
    - Stables (renewals)
    - Body art (renewals)

Administrative staff provide critical support to Health Department operations, including by maintaining a presence at Town buildings while inspectional staff are in the field and managerial staff may be at meetings. It is suggested that if a regional approach is attempted, each community maintains at least a level of service equivalent to .5

FTE. In a more formal regional framework, it may be possible to divide administrative support work by type of work, rather than by town (example: one administrative position processing septic installer licenses for all three towns). Table 9 in Appendix A shows how many permits are currently issued for each administrative level permit.

The project team also performed a permit overlap analysis (Table 10 in Appendix A) to understand how many licensees may be affected if the Towns fully regionalize to one permitting structure. The project team found there are very few licensed businesses that operate in more than one Town. **It appears that if the Towns were to regionalize permitting it would not significantly affect permitting revenue.**

Public Health Nurse

Public Health Nursing services markedly vary across Massachusetts local health departments. The state only requires one activity—case management of people with active or suspected tuberculosis who live in the community—be managed by a nurse case manager. However, that responsibility may be performed via contracted nursing services (105 CMR 356.200). Tuberculosis is a relatively rare disease in Massachusetts, with only 153 cases reported statewide in 2022.[10] Across the three towns, the average case load of TB patients trends below five cases.

Besides the required TB case management, public health nurses in local public health departments often perform the following tasks:

- Infectious or communicable disease reporting and case follow up (through Massachusetts Virtual Epidemiologic Network (MAVEN), a state epidemiological reporting tool)
- Vaccination clinics
- Emergency planning and preparedness activities, particularly Emergency Dispensing Site planning and staffing
- Blood pressure and other health screening activities
- Some public health nurses provide Overdose Education and Naloxone Distribution (OEND) programs and other harm reduction services when there are not local harm reduction programs

Since the beginning of the COVID-19 pandemic, public health nurses proved invaluable assets to municipalities across the Commonwealth, often organizing, staffing, and handling all reporting duties for municipal COVID-19 testing and vaccination clinics.

It should be noted that during the course of this project, the project team heard markedly different expectations for and ideas of public health nursing duties from stakeholders in each town. Moving forward, and especially prior to formalizing additional shared public health nursing services, the participating towns must **align their visions of the scope of services for local public health nursing**. A community health assessment would assist this exercise.

[10] Massachusetts Department of Public Health, Bureau of Infectious Disease and Laboratory Sciences. "Summary Tuberculosis Statistics for the Year 2022." Accessed March 6, 2024, from https://www.mass.gov/lists/tuberculosis-data-and-statistics.

MA-DPH Recommendations

As recipients of a state Public Health Excellence grant which funds the current formal shared services arrangement, the project's advisory team understandably sought to clarify MA-DPH's plans for further funding shared services after the current grant renewal period(s) expire. The Towns wanted to be adequately prepared if they need to plan to absorb the costs of the shared employees to maintain the current level of services, as well as understand if there would be future opportunities to expand shared services.

The key takeaways from the project team's interview with MA-DPH are:

- MA-DPH expects to continue supporting shared services
    - Expects state funding for local health to increase in the future because they expect to ask local health to do even more in the future, which will require an increase in funding
- MA-DPH encourages shared services in any form, with a preference for formal regionalization
    - The state provides additional support for regional public health, including fiscal support for district set up (MGL Chapter 111, Section 27C)
- Because the state recognizes that state-determined regions do not align with local and regional partnerships and shared services arrangements, MA-DPH is working on aligning state-determined regions for public health work, such as for tobacco control, HMCC, MEMA, Mass in Motion
    - DPH advises that municipal departments wait until the state makes those adjustments on the state level rather than trying to adjust their regions on the local level
- MA-DPH is currently seeking a vendor for a statewide data solution for local health including inspections, dashboards, and online permitting
    - No action required for local health departments, but this will facilitate sharing services if everyone is using the same state-of-the-art platforms

Regarding recommendations for local health departments, MA-DPH emphasized:

1. Diversify revenue sources to ensure sustainability beyond state funding
2. Find ways to retain more department generated revenue, including:
    a. Advocate for revolving accounts to retain permit fees
    b. Build permit fee schedules based on actual costs of providing services[11]

[11] See the discussion of fees in the Align Fees section.

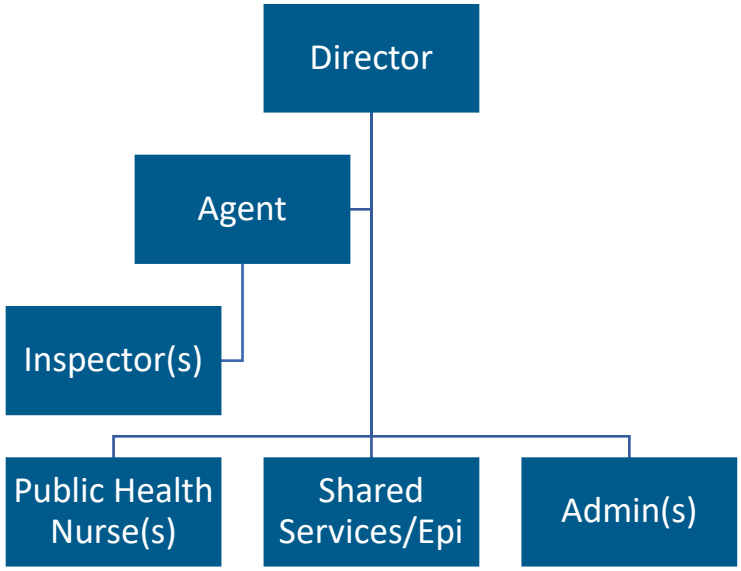
Recommended Structure

The project team recommends a professional Health Department structure in which the Director reports to the Town Administrator and serves a Board of Health (or more than one Board of Health in a shared services setting) in its regulatory duties. How this recommended structure is applied depends on which option the towns pursue.

The following structure is best applied in a regional or shared services setting, scaled to meet population size and the demand for licensing and inspecting regulated businesses. It is not appropriate for a small town like Boylston, where a single Health Agent reporting to the Town Administrator is sufficient. In a larger setting, the Director supervises the department staff, with a Health Agent who would serve as an assistant director, and play a supervisory role, especially for the Health Inspectors. The Public Health Nurse(s), Shared Services Coordinator/Epidemiologist, and Administrative positions would report directly to the Health Director.

Should the three communities choose to maintain the structure currently in place (Option 1 below), this structure would not be applicable.

Figure 6. Recommended Organizational Structure



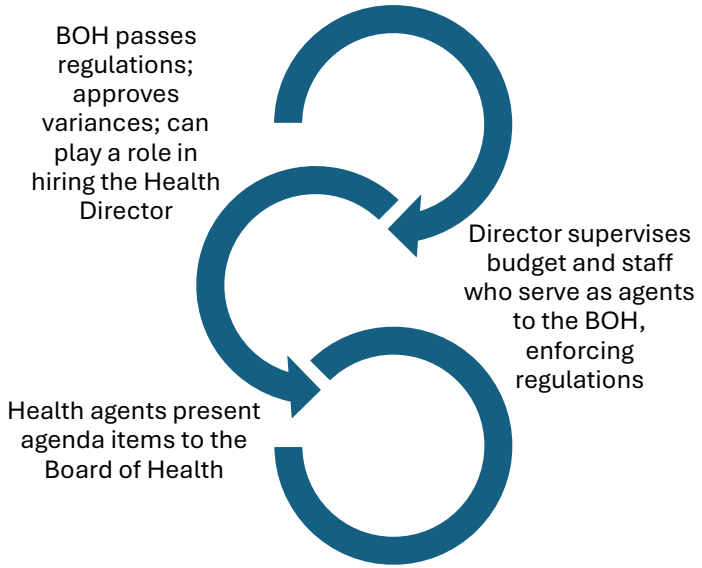


Figure 7. Recommended Role of Board of Health

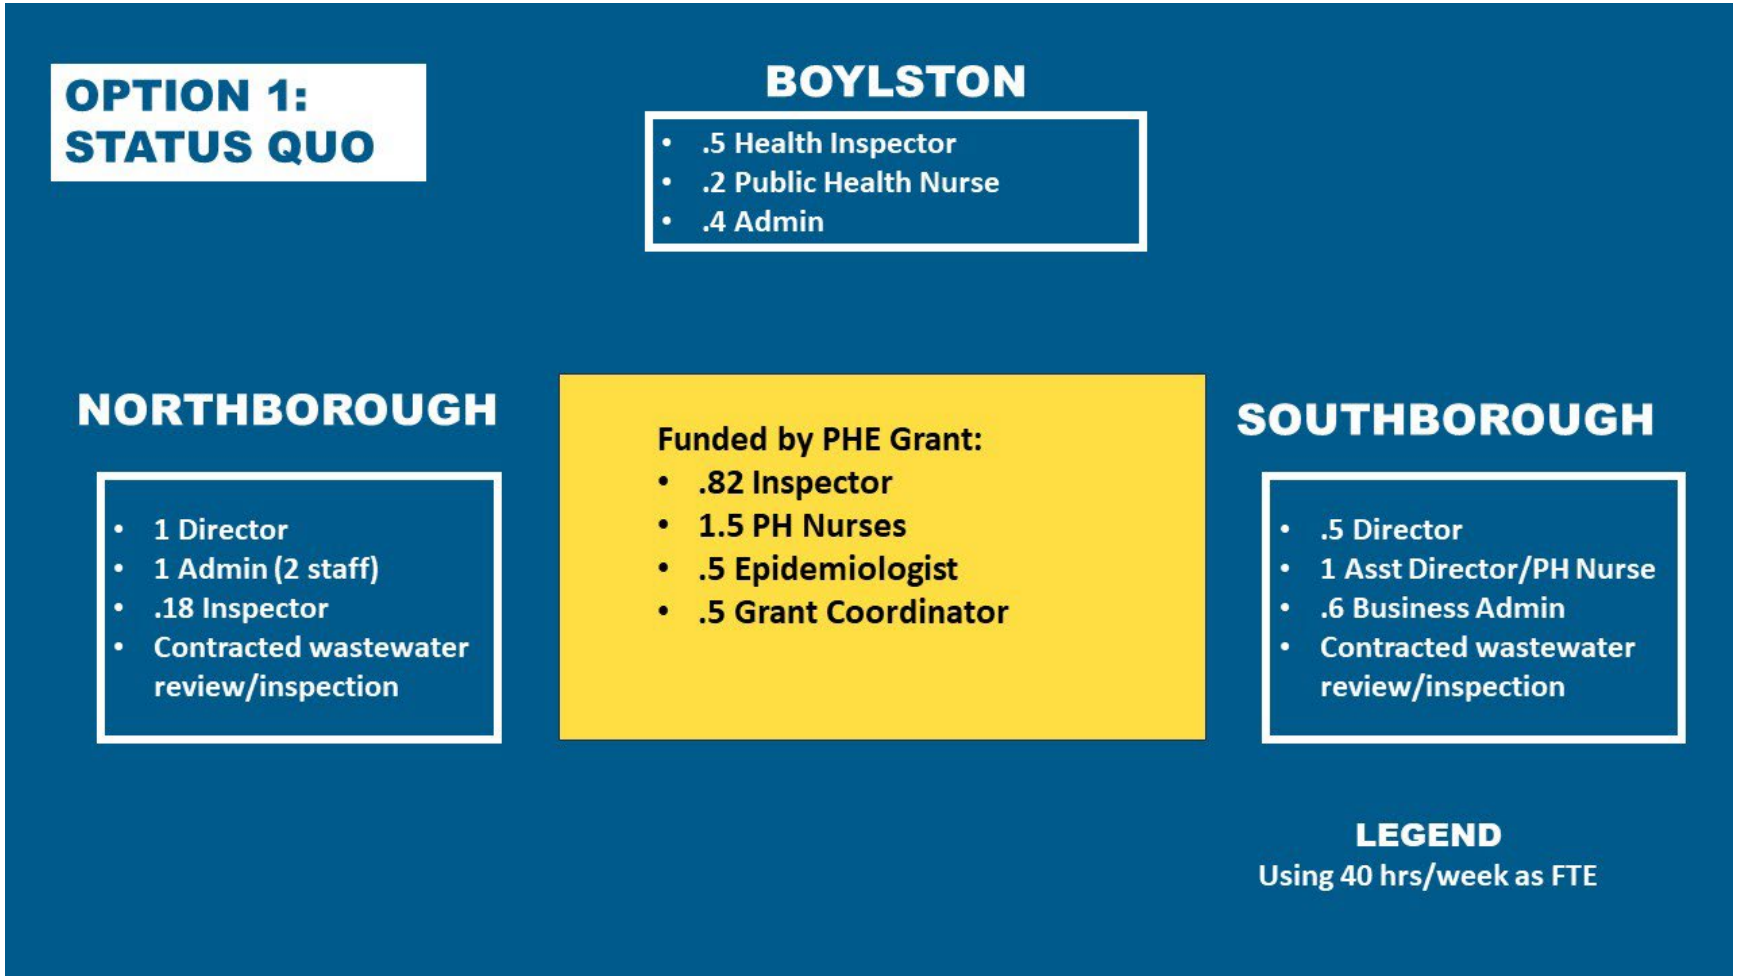


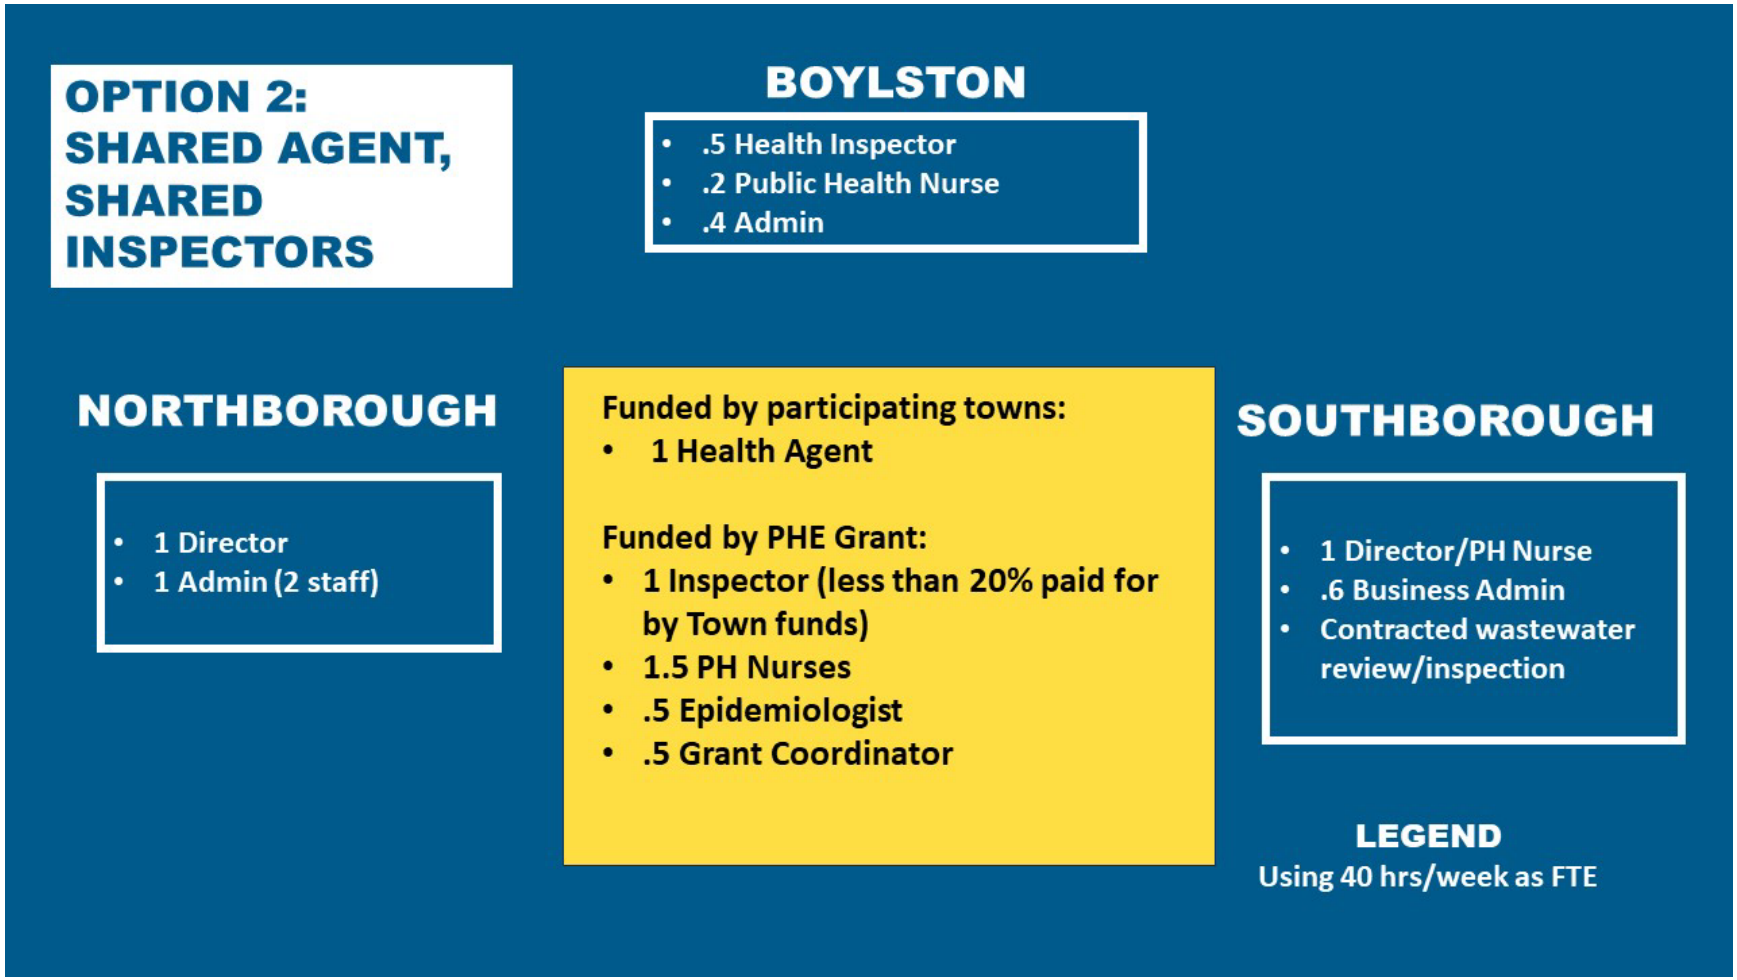
Options for Shared Services

The project team offers three options for sharing services.

Option 1: Status Quo

Figure 7. Option 1

Option 1 is a continuation of the existing mix of both formally sharing staff through grants and informally sharing part-time/contract staff. Inspectional services would continue to be shared through PHE grant as currently offered. This option is the default option as it requires no action in the towns other than to continue operations as they stand.



Pros: This arrangement is already in place and project participants reported general satisfaction with the quality and level of service.

Cons: Regulations and fees differ across the three towns, causing shared staff to learn each town's regulations and fee structures. There is no shared vision for programming, services, or strategic planning among the Health Departments or their Boards of Health. It is difficult to add services as the services are organized rather loosely with different reporting structures and different expectations for duties in the towns. There is also a lack of Registered Sanitarian services, so Northborough and Southborough both have contractors performing wastewater related duties, and both towns are paying premium prices for contractors because they cannot compete in the labor market for their relatively small hours. Professionals at this skill and training level expect benefits and full-time work. There are also redundant functions, including two separate public health related newsletters—one from the PHE grant and one from Southborough—neither with particularly high readership or engagement. There are also inconsistencies and redundancy with public health nursing duties; participants reported a lack of clarity in the roles and duties of staff public health nurses versus PHE grant-funded contracted public health nurses.

Steps to Implement: None other than to continue to meet PHE grant criteria to continue to receive the funds. There are several areas of opportunity to improve services under the status quo structure such as clarifying public health nursing duties and aligning regulations and fees across the three towns.

Option 2: Shared Agent, Shared Inspectors

Figure 8. Option 2

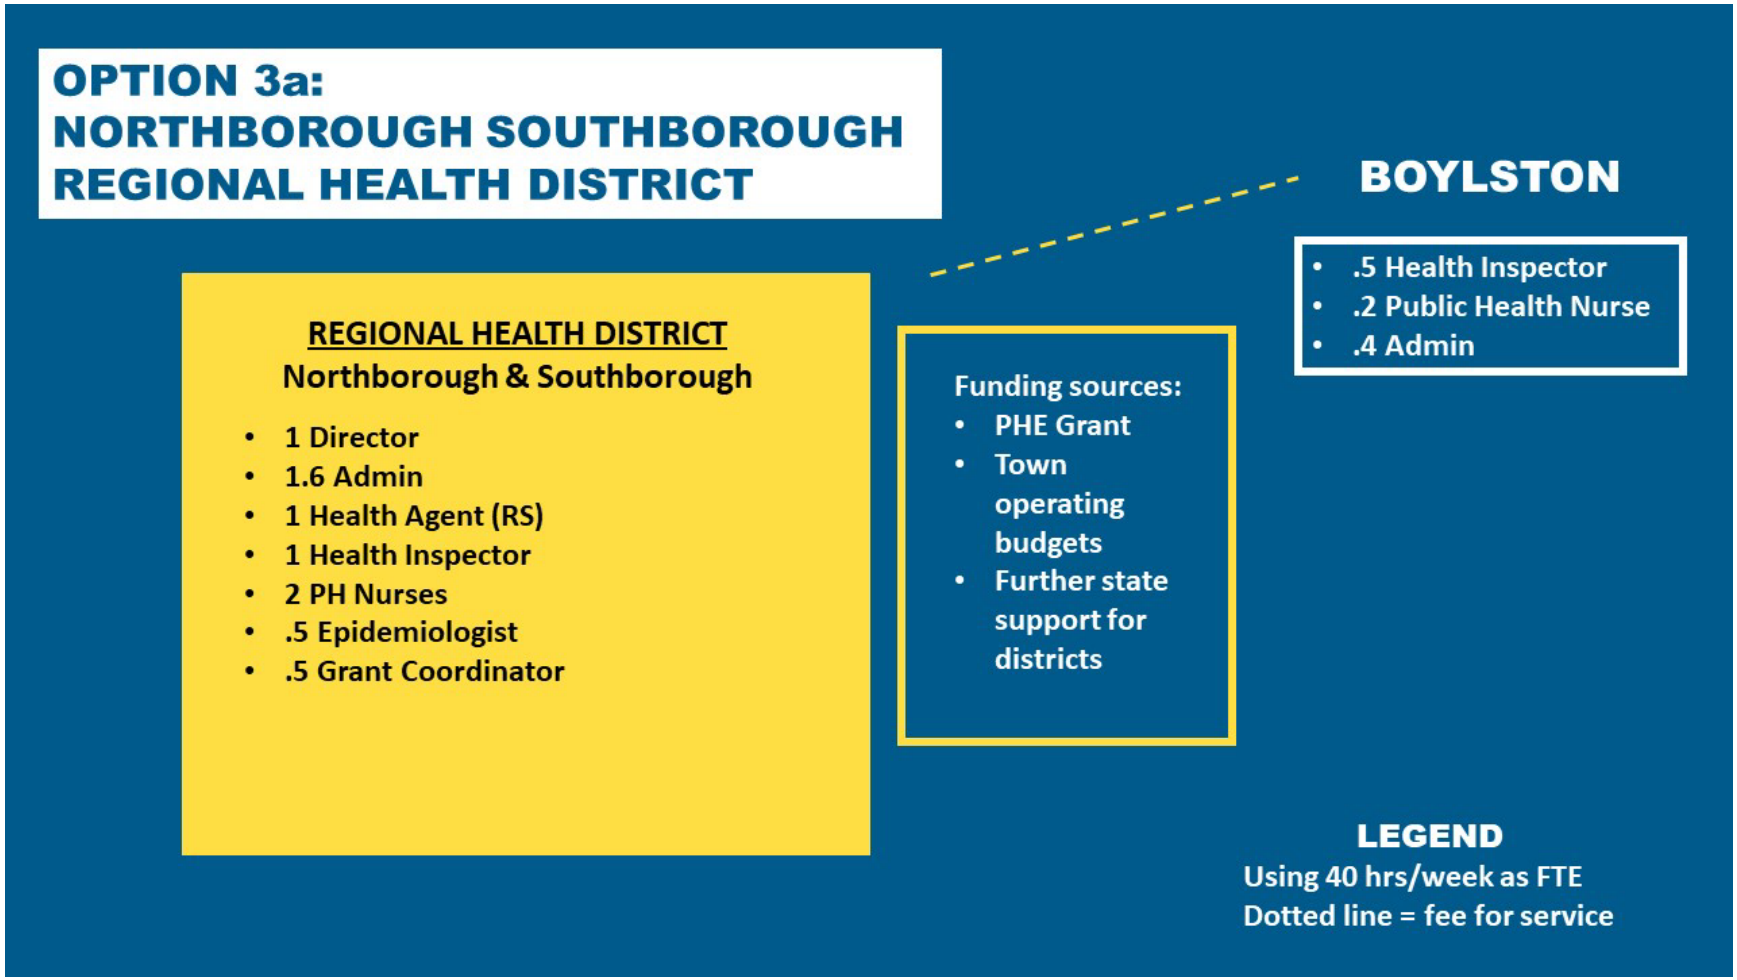
Option 2 is to formalize the full sharing of inspectional staff, including a new Health Agent. This arrangement tweaks the status quo by fully sharing a Health Agent (eliminating contracted wastewater services in Northborough, Southborough will keep a contracted wastewater professional for training and redundancy purposes) and all inspectional duties (eliminating the carve out for body art and camp inspections). If

Boylston needs wastewater support in the future, it can choose to either fully share services or engage in a fee-for-service arrangement with Northborough and Southborough.

In Option 2, the Health Agent and Health Inspector positions would all be jointly appointed as agents of all Boards of Health participating in the arrangement. Each participating town would maintain their Board of Health.

Pros: Due to the CMRPC assessment for Northborough, Northborough is already planning to hire a part-time Health Agent who is a registered sanitarian. By sharing the position across Northborough and Southborough, both towns will meet this vital local health requirement in a more uniform manner and hopefully have a good pool of qualified candidates who are interested in a full-time benefitted position (rather than an hourly contract position). The towns are almost to a full complement of shared inspectional services, adding body art and camps to the mix is a minor addition. By fully sharing these duties, the Towns may be better able to distribute staff skillsets and knowledge to meet each town's needs. Under this Option, each community can continue their different vision for public health nursing, which interviews indicated is important to some key stakeholders.

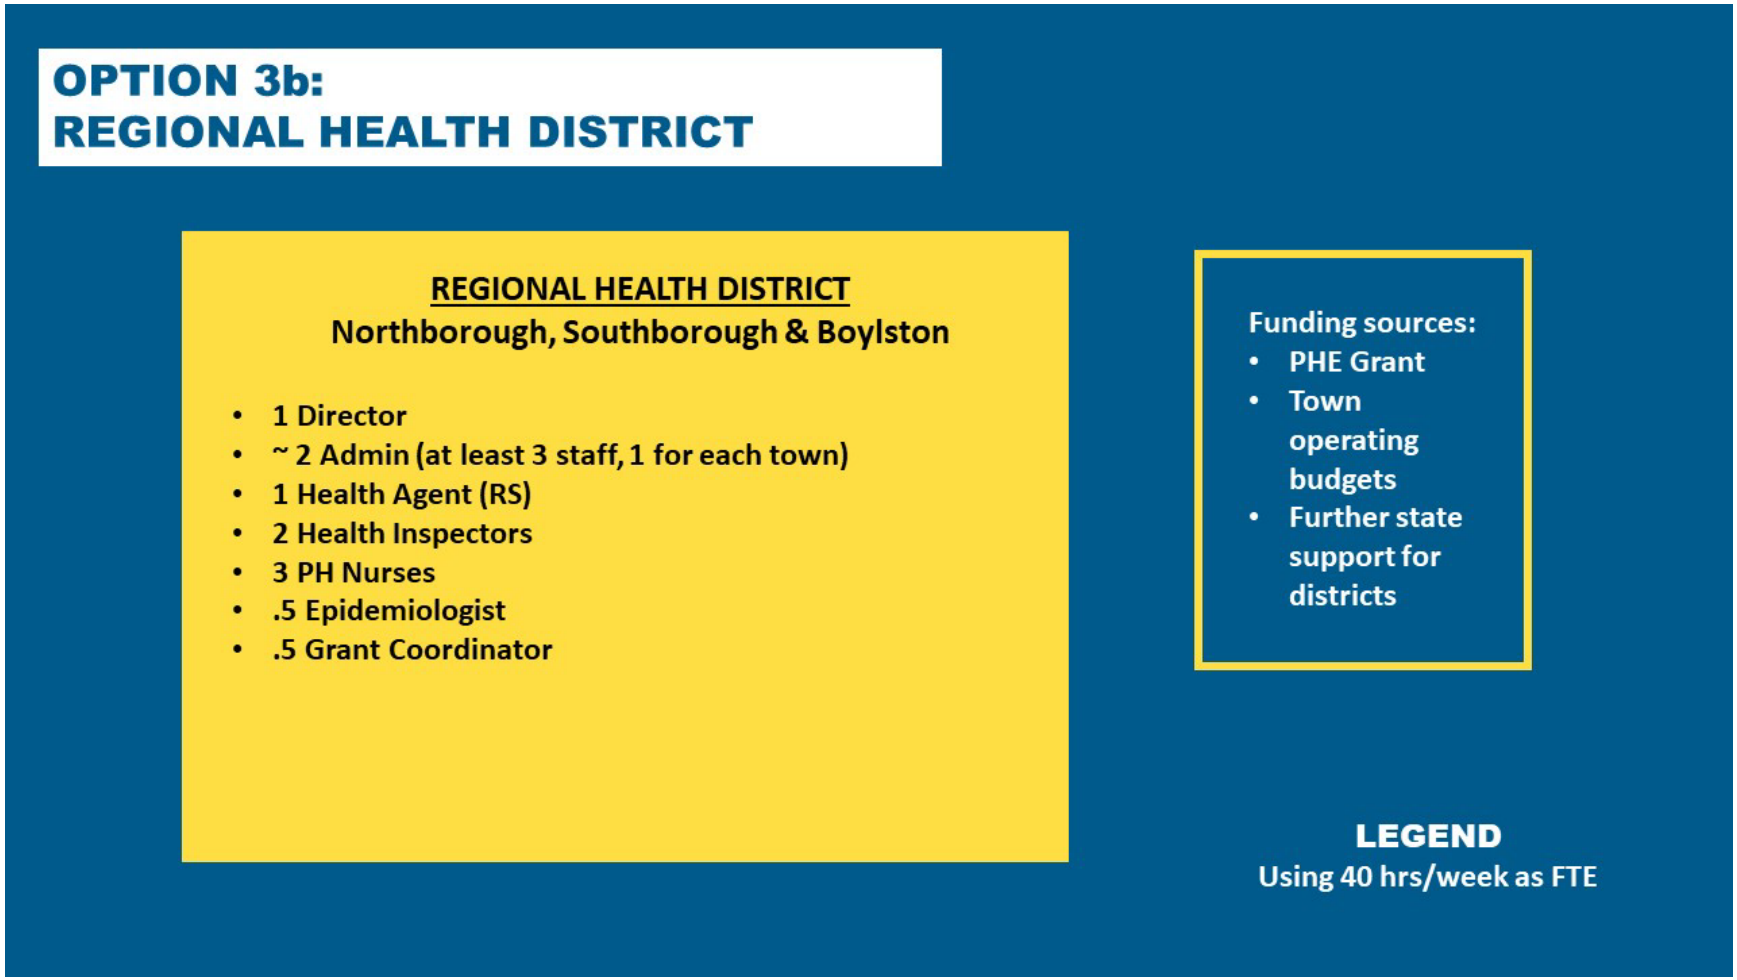
Cons: Currently there are inequities in pay and compensation across the towns, as well as differences in reporting structures. These differences may remain if staff are hired by different towns though MA-DPH indicates that its model Intermunicipal Agreement (IMA) for sharing services would address these concerns. This option does not address differences in expectations about levels of services, types of programming, or public health nursing duties, which would be addressed if the Towns created a regional health district (Option 3). It is also unclear how to structure professional reporting if the shared staff of three towns report to a director who is housed in one town, though this could be addressed with clarified and updated job descriptions and an organizational chart in the shared services IMA. Another limitation may be that the administrative staff will remain employed by each municipality; this may cause confusion. While not exactly a con, it is worth considering that each town has partner departments that provide some public health services (emergency preparedness, mental health services) that are outside the HDs but may impact equity in duties and services.



Steps to Implement Option 2:

1. Update the shared services IMA to reflect additional position and duties
2. Update shared position job descriptions
3. Hire or promote to fill vacant positions
4. Appoint Agent and Inspector(s) as agents of each participating Board of Health
5. Begin process of aligning local Board of Health regulations and fees (see following report section)

Option 3: Regionalization



Option 3 is presented as two sub-options to acknowledge Boylston's concerns with regionalization. These options could also occur in succession, as phases. Option 3A involves creating a regional district between Northborough and Southborough, with Boylston purchasing services through a fee-for-service model at a level that reflects their need.

Figure 9: Option 3A

Option 3B presents the opportunity for Boylston to be a full participating member of the region.

Figure 10. Option 3b

Both options start with a full, formal regional arrangement between Northborough and Southborough, including public health nursing and administrative functions. This would create a regional health district comprising Northborough and Southborough, with Boylston participating at a level it feels comfortable with (Option 3a = purchasing services as needed; Option 3b = fully participating in the region).

Either option will open more funding opportunities from the State, as well as enhance the region's ability to add higher levels of service and achieve economies of scale. For example, upon regionalization, the department may discover the need for additional inspectional support due to the combined workload from the three towns. Additionally, the State indicated there may be additional duties and scopes of work expected for local health departments. A regional approach would be better equipped to add positions while reducing the cost burden to individual towns. A draft budget for a regional health department outlined above, based on current pay rates, is presented in Appendix E.

Pros: Concerns over pay equity would be addressed, as all employees would be employees of the district. According to the project team's interview with MA-DPH, each Board of Health can retain its authority and oversee the management of the district by selecting members to represent the municipality on the regional Board of Health. According to MA-DPH, the state seeks to facilitate and incentivize the creation of regional health districts. There will likely be additional state funding opportunities, in addition to the start-up capital support the state provides.

Cons: The creation of a regional health district will require further discussion and planning around the relationship between the district and partner departments and cross departmental efforts such as emergency planning in the towns. The regional district model is one that has existed in many variations across the state, and the state will likely provide guidance and contacts in similar arrangements to provide assistance to address these concerns.

Steps to Implement Option 3:

Follow the steps outlined in MGL Chapter 111, Sections 27A-C to create a regional health district, including:

1. Boards of Health support
2. Select Boards support
3. Town Meeting support
4. Assemble a regional Board of Health
5. Adopt rules and regulations
6. Set an organizational chart
    a. Note: "All full-time and part-time incumbents of any office or position brought under the district at the time of its formation shall be transferred thereto without loss of civil service, retirement or other rights. Any transferred employee's compensation shall be fixed by the board at not less than the amount received by the employee during the fiscal year preceding the date such employee was transferred to the district." (MGL Chapter 111, Section 27B)
7. Submit an itemized request for one-time capital outlays for approval by MA-DPH; if approved the state will provide funds

8. Update job descriptions
9. Centralize permitting and inspectional software (ideally using new software purchased by the state)
10. Communicate to the public and to licensees how the new region operates
11. Embark on a community health needs assessment to guide public health programming and services

Steps for Implementation Shared Services

The following steps are recommended to improve and enhance shared services across the towns, no matter which option the towns choose to pursue. These steps include aligning regulations and fees to eliminate opportunities for confusion for staff, the public, and for regulated entities.

These recommended steps eliminate impediments for staff to work in each town and facilitate good management practices. The project team does not anticipate much of an impact on fee revenue, as discussed in an earlier section.

Align Regulations

While each town defers to state regulations where appropriate (namely food service, camps, and pools and hot tubs), there are few local regulations that are similar across all three towns. Table 11 in Appendix A gives an overview of which local regulations each community has. The project team recommends simplifying regulations and fee schedules whenever possible.

As far as specific regulations are concerned, the three towns follow 105 CMR 590 – State Sanitary Code for **food service** regulations. Northborough requires grease trap pumping reports receipts with permit applications which is a standard practice, particularly among communities with sewers. The applicability of this requirement may vary in the other towns. Boylston's regulations have more types of food establishments and fees.

Local regulations for **wastewater** vary slightly. Table 12 in Appendix A provides detail on those differences. Currently, **drinking water well** regulations are under state review for state regulation. While local regulations remain in effect, Northborough and Southborough have similar regulations, but Southborough's are slightly more restrictive (Table 13 in Appendix A).

For **tobacco**, Northborough and Southborough have very similar regulations, the most notable difference is the cap in permits (15 for Northborough, 6 for Southborough) which is a reasonable difference considering Southborough is has less commercial development than Northborough. Boylston does not have any tobacco regulations, only a permit application.

Table 14. Tobacco Regulations

Northborough	Southborough
Updated July 1, 2023	Updated November 15, 2022
15 permit cap	6 permit cap

Table 15 in Appendix A gives more comparative detail for all other local regulations.

The project team recommends the following steps to facilitate any shared services arrangement, including the current arrangement (Option 1):

- **Align regulations so requirements are the same across three towns**
    - **Adopting whichever town's regulations is most up-to-date would be most expedient, though reviewing regulations for applicability and desirability is warranted (for example, tobacco permit caps).**
- **License and inspect businesses such as lodging establishments (motels, hotels, guest houses)**
- **Eliminate 2-year permits, as this is a non-standard activity**

- **After aligning regulations, review and revise fees to ensure fees reflect the costs of providing services to a reasonable extent**

Align Fees

A regulatory review and alignment is required prior to a fee review and alignment exercise. The project team offers the following observations to consider when a fee review does occur.

Fee amounts among the three towns vary greatly; there isn't a single fee that is the same among the towns. The greatest variance for fees is for wastewater fees; Southborough has the largest number of types of wastewater related fees. See Table 16 in Appendix A for details.

It is worth noting that MA-DPH recommended the towns, or a future region, review fees to ensure that they reflect the cost of providing services. However, that approach is more appropriate for towns with a significant commercial base where you can align annual permits to the cost of yearly inspections and review. For more residential towns, the costs of supporting the department would be borne by septic permits and that can be prohibitively expensive and cause undesired effects such as delaying upgrades to substandard septic systems.

Conclusion

The towns of Boylston, Northborough, and Southborough have committed to providing excellent public health services through their Boards of Health and their Health Departments, and with the help of state support through the Public Health Excellence grant funding. This project marks the next phase of the collaboration between these towns.

This report lays out three options for the Towns to consider, all of which are an improvement in level of service and capacity to what the towns had prior to the Covid-19 pandemic and the Public Health Excellence grant funding. The towns have already made significant progress to move their local public health offerings closer to the ten essential public health services. This report offers guidance to move even closer to that goal.

The project team thanks the participating Health Departments and Boards of Health, and their administrations and other key stakeholders, for their time and consideration during the course of this project.

Appendix B: Leading Public Health Department Offerings

During this project, the team was asked to investigate the types of services and programs that leading public health departments in Massachusetts offer. Massachusetts is singular in America in the provision of public health services, in that services are generally provided on the municipal level, which severely curtails the breadth and scope of services. As a result, leading departments are typically in the largest communities or in regional departments. Therefore, their programs and services may not be applicable to the towns included in this study. It is also worth noting that each leading department is essentially expanding its programs and services to address more of the 10 Essential Public Health Services but in a way that is relevant and appropriate for the community it serves, often guided by a community health needs assessment or other strategic plan.

Cambridge Public Health Department	Boston Public Health Commission	Brookline Department of Public Health	Worcester Division of Public Health / CMRPHA	Needham Public Health Division
• Population Health Initiatives: • Children's literacy • Healthy eating • Mental/behavioral health • Oral health services	• Children's and newborn health • Health equity and racial justice • Healthy homes and environments • Homeless services • Violence prevention	• Reducing Brookline's carbon footprint • Injury prevention	• Healthy lifestyle programming: • Nutrition • Sexual health • Exercise	• Traveling meals • Domestic Violence Action Committee • Referrals to services • Medical Reserve Corps

The project team recommends that the communities first strengthen their shared services arrangements with a focus on environmental health offerings and then embark on a public health needs assessment to strategically focus department growth in offerings and services. A public health needs assessment could provide focus to direct public health nursing activities for the region as well.

Appendix C: Workforce Standards

Table 8. Overview of Workforce Standards

	Required before Hire	Required After Hire	Recommended After Hire
Health Director	• Master's level or BA/BS with 5 years experience • RS eligible	• RS or equivalent within 1 year • CHO within 3 years • Master's within 5 years	• Health Association(s) membership

Intermunicipal Services Agreement
Health Department Health Agent

by and between
the Towns of Northborough and Southborough

This intermunicipal services agreement ("**Agreement**") is made and entered into, pursuant to M.G.L. c.40, § 4A, this __ day of _____, 2024 (the "**Effective Date**") by and between the Towns of Northborough and Southborough, acting by and through their respective Select Boards ("Northborough and Southborough" or, collectively, the "Towns" or "Participating Communities").

RECITALS

Whereas, the Towns have limited staffing to provide inspectional services;

Whereas, the Towns desire to share resources to provide public health services that are important and necessary for the Participating Communities;

Whereas, the Towns wish to continue providing public health inspectional services in conjunction with other services provided by their respective Health Departments;

Whereas, the Towns wish to realize the benefits of sharing the costs and administrative burden of these public health duties;

Whereas, the provisions of M.G.L. c. 40, § 4A authorizes the Towns to enter into an intermunicipal agreement to share the costs and administrative burden for services to be shared by the Towns; and

Whereas, the Select Boards of the Towns have voted to enter into this Agreement for shared services.

Now, therefore, in consideration of the mutual agreements and provisions set forth in this Agreement, and the payments and obligations hereunder, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Towns hereby agree as follows:

TERM

1. **Duration**: this Agreement's duration shall be three (3) years, commencing on the Effective Date. This Agreement shall automatically renew for four additional 3-year periods, for a maximum length of 15 years, unless terminated under the provisions of Section 5.

2. **Lead Municipality**:

2.1. Southborough shall act as the lead municipality under this Agreement and administer any grants available for the services provided hereunder.

2.2. Southborough, subject to approval of Northborough, shall employ or contract with licensed professionals to provide public health services to the Towns in accordance with the job description.

2.3. Southborough shall be responsible for the financial and human resources functions associated with the retention of persons retained by the Towns to provide public health services.

2.4. Southborough shall maintain all records necessary and appropriate for the performance of its duties under this Agreement. Northborough will provide its own record-keeping mechanism for shared employees.

3. **Cost Sharing**: Unless otherwise provided in this Agreement or otherwise agreed to in a writing signed by the Select Boards, all fees, costs, and other expenses incurred by either Town under the Agreement shall be divided equally, with each Town paying one-half of said fees, costs, or expenses. The financial liability of each party shall not exceed the amount appropriated by the Town at its Town Meeting.

Commented [EL1]: This should be select boards

4. **Payment**: Southborough shall invoice Northborough on a quarterly basis for services rendered in the prior quarter less any available grant funds available for said services with the 4th quarter payment due by June 15th. Payment under this Agreement is subject to appropriation, but failure to appropriate or make payments when due may result in termination of the Agreement as set forth herein.

5. **Scope of Services**:

5.1. The scope of inspectional services to be performed under this Agreement shall be set forth in a "**Health Agent Services Scope of Services**" in the form appended as **Exhibit A**

5.2. The Towns may, in a writing signed by the Town Administrator of Northborough the Board of Health in Southborough, amend the Inspectional Services Scope of Services.

6. **Termination**:

6.1. Any Town, by simple majority vote of its Select Board, may terminate this Agreement prior to the expiration of any term.

6.2. Any termination of this Agreement shall be effective on the 180th day following the provision of written notice by the terminating Town to the other Towns of the termination vote (the "**Termination Date**"), except for termination for breach of the Agreement or failure to pay which shall be effective upon thirty (30) days' notice and failure to cure within that time. Services shall be suspended after the effective date of termination and payment shall be owed for services rendered up until the effective date.

6.3. Any termination vote will not be effective until the Towns have agreed to an equitable allocation of all remaining costs, expenses and assets including remaining salary and benefits and other expenses for the remaining fiscal year.

6.4. No sooner than the Termination Date and no later than the 90th day following the Termination Date, Southborough shall provide Northborough with a final accounting of any monies owed under this Agreement. Subject to the provisions of Section 7, Northborough shall pay any such monies owed to the other Town no later than the 45th day following receipt of said final accounting.

7. **Budgeting and Cost Tracking**:

7.1. Southborough, as the lead municipality, shall prepare an annual fiscal-year (*i.e.*, July 1 to and including June 30) budget of all costs, fees, and expenses related to this Agreement. Southborough shall provide said budget to Northborough no later than December 31 preceding the fiscal year to which the budget pertains. Southborough shall provide such additional information as may be reasonably requested by Northborough regarding costs, fees, and expenses related to this Agreement.

7.2. Northborough shall review the budget received from Southborough and shall identify any areas of disagreement with said budget no later than the 30th day following receipt of the budget.

7.3. In the event of a budget disagreement, the Towns shall endeavor in good faith to resolve their differences.

7.4. No monies shall be expended by any Town absent mutual agreement memorialized by: (a) an agreed-to budget; or (b) a writing signed by the Town Administrator of Northborough and the Board of Health Southborough.

7.5. Southborough shall provide quarterly statements to Northborough itemizing all monies expended under this Agreement.

7.6. If either Town incurs a cost, fee, or expense not included in an agreed-to annual budget, said Town shall promptly invoice the other Towns for half of cost, fee, or expense.

8. **Disputes**:

8.1. The Towns recognize a mutual, shared obligation to meet and confer about any disputes under this Agreement and to attempt to resolve the same without legal action, to minimize the time, cost, or expense of any dispute to either Town.

8.2. In the event of a dispute concerning the subject matter of this Agreement, the Town alleging the dispute shall provide written notice to the other Town describing the dispute with reasonable particularity, including an itemization of any monies alleged to be due or owing as part of said dispute.

8.3. No Town shall file an action in court earlier than the 30th day following delivery of notice to the other Towns in accordance with section 8.2 unless such a filing is necessary to preserve the public health, safety, or welfare.

8.4. Prior to the commencement of a court action, the parties hereto shall have the right (but not the obligation) to attempt to resolve disputes by way of non-binding, voluntary mediation. If the parties agree to proceed with voluntary mediation to attempt to resolve a dispute, then the parties agree to work in good faith to promptly designate a mutually acceptable mediator, and schedule and hold the mediation as soon as reasonably practicable. The parties hereto agree to split equally the cost of mediation and to bear their own attorney's fees incurred in preparing for and participating in such mediation. This provision shall not bar a party from initiating litigation where necessary to avoid expiration of an applicable statute of limitations.

8.5. This Agreement's validity, interpretation, construction, performance, and enforcement shall be governed by Massachusetts law, without regard to Massachusetts' choice-of-law or conflicts-of-law principles or rules. Any claim or action arising under or relating to this Agreement may be brought only in Middlesex County Superior Court, and the Towns hereby agree that venue is proper, and shall be proper, only in that forum.

8.6. Each Town shall bear its own costs, fees, and expenses related to the enforcement of this Agreement. No Town shall be liable for any reliance or consequential damages if that Town is determined by a court to be in breach or default of any obligation under this Agreement.

9. **Liability**:

9.1. Each Town shall be liable for the acts and omissions of its own employees and not for the employees of the other Town in the performance of their obligations under this Agreement, including but not limited to the extent provided by the *Massachusetts Tort Claims* Act, M.G.L. c. 258.

9.2. By entering into this Agreement, no Town has not waived any governmental immunity or limitation of damages which may be extended to them by operation of law.

10. **Notices**: All notices permitted or required by this Agreement shall be in writing and delivered by certified mail, return receipt requested, to such persons who may be specified from time to time by each Town and to that Town's Clerk. No notice shall be effective until received by the Town Clerk.

11. **Force Majeure:** If and to the extent that a Town is directly prevented from performing an obligation under this Agreement by an event of *force majeure*, that Town shall be excused from performing that obligation and shall not be liable in damages or otherwise for the time period that the force majeure event directly prevents such performance, and the parties may also negotiate in good faith with respect to appropriate modifications to the provisions of this Agreement. The term "force majeure" shall mean only the supervening causes described here, each of which is beyond the reasonable control of the affected party: fire, earthquake, floods, explosion, war,

terrorism, riots, mob violence, failure of transportation, strikes, lockouts, actions of labor unions, condemnation, laws or orders of governmental or military authorities, epidemic or pandemic, or any other cause similar to the foregoing, and shall explicitly exclude changed market conditions.

12. **Reliance**: Nothing contained in the Agreement shall create a contractual relationship with, or a cause of action in favor of, a third party against any of the Towns.

13. **Entire Agreement**: This Agreement and the Exhibit to this Agreement, which may be amended from time to time by mutual agreement of the Towns, represent the entire agreement among the Towns pertaining to the subjects covered in this Agreement and expressly supersede all prior negotiations, representations and formal or informal agreements leading up to the final approval and execution of the Agreement respecting such subjects.

14. **Entrance**: Any Town may petition the Towns to join this Agreement to the extent permitted by any grants utilized for payment of services rendered hereunder. The addition of a municipality will require amendment of this Agreement in accordance with Section 15 herein and approval by the Participating Municipalities.

15. **Amendments and Modifications**: The Agreement may be amended or modified only by written instrument signed by the Towns' respective Select Boards, as required by MGL chapter 40, section 4A.

Commented [EL2]:

16. **Invalidity or Unenforceability**: If a court of competent jurisdiction declares or orders that any one or more phrases, sentences, clauses, or sections of this Agreement are invalid or unenforceable, then the remaining portions of this Agreement shall remain valid and enforceable notwithstanding such a declaration or order.

17. **Counterparts**: This Agreement may be executed in any number of counterpart copies, all of which constitute one and the same agreement and each shall constitute an original.

SOUTHBOROUGH SELECT BOARD MEETING

September 9, 2024
Town Administrator's Office—Southborough Town House
17 Common Street, Southborough MA 01772
Open Session Meeting Minutes

Present: Kathy Cook, Chair; Andrew Dennington, Vice Chair; Sam Stivers; Marguerite Landry, Al Hamilton
Also Present: Mark Purple, Town Administrator

Ms. Cook called the meeting to order at 8:30PM.

Ms. Cook announced that the meeting topics are review of the warrant for the September 30, 2024 Special Town Meeting ("STM"), including preparing for addressing the warrant articles, and voting on positions for warrant articles that the Board has not previously voted on. The warrant articles discussed are those as presented in the most current warrant draft, dated September 9, 2024.

Mr. Dennington reviewed the status of Article 11. This article proposes to restructure the Affordable Housing Trust (as part of combining the Affordable Housing Trust with the Southborough Housing Opportunity Partnership Committee). The original warrant article establishing the Affordable Housing Trust was approved at the 2005 Town Meeting. There is some uncertainty about the follow-up to this approval—the article language was not included in the official Town bylaws and the Town does not have a record of the approval of the article by the Attorney General's office. Mr. Dennington has discussed this with Town Counsel, who has prepared the language necessary for the current warrant article to get the paperwork up to date—and this language is what will be considered by the voters at the upcoming STM.

Article 11 consists of two parts: first, Section 6-13 will be added to the Town Code to establish the Affordable Housing Trust membership; and second, Section 6-14 will be added to the Town Code to define the powers and authority of the Affordable Housing Trust (as defined by the 2005 Town Meeting vote and by State law).

Mr. Hamilton moved for the Select Board to support Article 11; Mr. Stivers seconded the motion; vote 5-0 for approval

For Article 12 (the dissolution of the Southborough Housing Opportunity Partnership Committee), Mr. Hamilton moved for the Select Board to support Article 12; Mr. Stivers seconded the motion; vote 5-0 for approval.

For Article 13 (the acceptance of MGL Ch 44B Sec 3b ½--to allow for the contribution of funds in addition to the existing Community Preservation Act ("CPA") surcharge to the various CPA fund balances) Ms. Cook provided an update about her recent conversation with Ben Smith, Chair of the Community Preservation Committee ("CPC"). Mr. Smith explained the CPC's concerns about this article, and requested that the article be removed from the STM warrant. The Board discussed this request. Mr. Dennington moved that this article be removed from the STM warrant; Mr. Hamilton seconded the motion; vote 5-0 for approval.

Ms. Cook proposed that the Board work through the STM warrant articles and take a position on any articles not yet voted on and assign a Board member to speak about each article. She commented that the warrant articles for the STM "Consent Agenda" have not yet been set by the Moderator, so the Board should be ready to comment on all articles. It was noted that the article numbering will be different from the numbers below for some of the articles in the final version of the warrant, because of the changes voted today.

The Board members responsible for the individual articles are as follows:

#1-SAP update; Mr. Dennington will be prepared to speak about this article.

#2-Pilot Committee; Ms. Cook reported that the Pilot Committee is requesting an update to this article (in addition to reducing the total number of members from 7 to 5) to eliminate the specific appointment of one member of the Council On Ageing and one member of the Capital Improvement Planning Committee. Ms. Cook moved that the Board support this amended version of Article #2; Mr. Stivers seconded the motion; vote 5-0 for approval. Ms. Cook will be prepared to speak about this article.

#3-Solid Waste Committee removal-Ms. Landry will be prepared to speak about this article.

#4-Consumer Advisory Committee removal-Mr. Hamilton will be prepared to speak about this article.

#5-Meeting Minutes for Town Clerk-Mr. Hegarty is expected to speak about this article.

#6-Tailings- Mr. Stivers will be prepared to speak about this article.

#7-Cable Licensee Revenue- Ms. Cook will be prepared to speak about this article.

#8-MBTA Communities Zoning-Planning Board is expected to speak about this article.

#9-Regional Public Safety Dispatch- Mr. Hamilton and Mr. Stivers will be prepared to speak about this article.

#10-Citizen Petition for CPC appointments- Mr. Dennington will be prepared to speak about this article.

#11-Affordable Housing Trust restructuring- Mr. Hamilton will be prepared to speak about this article.

#12-Dissolution of SHOPC- Mr. Dennington will be prepared to speak about this article.

#13-Acceptance of MGL Ch 44B Sec 3b ½ -This article was removed from the STM warrant

#14-Amend the FY25 budget-Ms. Cook will be prepared to speak about this article.

#15-Additional hours the EDC Coordinator- Mr. Dennington will be prepared to speak about this article.

#16-Funding for Breakneck Hill Clean-up- Ms. Landry will be prepared to speak about this article.

#17-Funding for Police Lieutenant-Ms. Cook will be prepared to speak about this article.

#18-ATM date change-Mr. Stivers will be prepared to speak about this article.

#19-Citizen Petition for recall process; The Board had not previously taken a position on this article; Ms. Cook commented that Town Counsel has opined that this article is advisory only (and not binding); Mr. Hamilton moved that the Board support this article; Mr. Stivers seconded the motion; vote 0-5 for approval. Mr. Dennington will be prepared to speak about this article.

At 9:04PM, Mr. Hamilton moved to adjourn the meeting (Mr. Stivers seconded the motion)
vote 5-0 for approval

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: September 11, 2024
Location: Trotter Middle School Library
Time: 6:30 p.m.
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Margarite Landry, and Al Hamilton and all K-8 School Committee members
Absent: None

Select Board Chair called the Select Board meeting to order at 6:36 p.m.

The sole purpose of the joint meeting was to interview three candidates to fill the vacancy on the Southborough K-8 School Committee. The three candidates interviewed were: (1) Dr. Yan Leigh (2) Dr. Kevin Robbins and (3) Kamali O'Meally.

All three candidates were interviewed by the nine members of the Select Board and K-8 School Committee.

A motion was made by Roger Challen to appoint Kamali O'Meally to fill the vacant position until the next town election in May of 2025. Motion was seconded by Chelsea Malinowski.

The general consensus of seven of the nine voting members was that Kamali's past Committee experience and the fact that she currently does not intend to run in May 2025 (when the seat is open again in the normal election cycle) were the distinguishing factors in their decision. Two members (Mr. Zulick and Mr. Hamilton) did not feel as strongly and supported a different appointment.

Vote was 7-0-2 to appoint Kamali O'Meally to fill vacant seat. Mr. Zulick and Mr. Hamilton abstained.

Select Board adjourned at 8:04 p.m. Motion made by Mr. Stivers and seconded by Mr. Dennington. Vote to adjourn 5-0.

Respectfully submitted,

Kathryn M. Cook
Select Board Chair

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, September 17, 2024 6:30 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale.

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:35 PM.

II. Public Comment

There was no public comment.

III. Scheduled Appointments *(Board may vote)*

a. Chris Lund, Building Commissioner – Update on Building Department

Mr. Chris Lund, the Town's Building Commissioner, appeared before the Board on the matter and provided an update on the first quarter of FY25. Highlights included: 1) greater access capability with Open Gov. permitting system using iPads; 2) utilization of a new system for online permitting called Zoning Interpretation Request (ZIR), which allows for greater efficiencies for the Building Commissioner and Town Planner when responding to requests; 3) a commitment to decreasing response times for residents; 4) greater collaboration with the Town Planner and Economic Development Committee (EDC); and 5) digitizing records, noting that a retiree is assisting the Building Department with this project. Commissioner Lund stated that other projects include a review and updating of bylaws and addressing the impact to the Building Dept. of the numerous upcoming 40B projects. The Board reiterated their goal of increasing the housing stock and attracting more businesses to Southborough. The Board suggested Commissioner Lund focus on zoning bylaws, especially those that create flexibility for multiple uses on commercial sites. Ms. Landry offered to meet with Commissioner Lund to review an approach for updating bylaws. Ms. Cook asked if the Building Department was caught up from its recent backlog of inspections/permits, etc., and Commissioner Lund replied that it was. Meme Luttrell, Chair of the Planning Board, stated that the Planning Board is committed to working on zoning changes, especially uses, and offered to meet with Commissioner Lund and Ms. Landry to move the process forward. Ms. Cook suggested a future joint meeting of the Board, the Planning Board and Commissioner Lund to discuss potential zoning changes.

b. Update from Council on Aging

Ms. Pam LeFrancois, Director of the Senior Center, and Mr. Douglas Peck, Chair of the Council on Aging, appeared before the Board on the matter. Ms. LeFrancois shared that the senior population is growing and discussed a variety of programming the Center provides including the following: monthly clinics and programs at Colonial Gardens, tax work-off program, SHINE program, durable medical equipment sharing, one-on-one technical support for devices, legal services, housing assistance and fuel assistance. She shared that many of the programs are volunteer-led including the Trailblazers and the Handyman program. She also shared the success of the Dull Men's Club and the Book Club and described collaborations with the Police, Fire and Recreation Departments and

Southborough Youth and Family Services. Ms. LeFrancois stated that the Senior Center was awarded a Cummings Foundation grant that will allow it to hire an intergenerational program coordinator. She also described the Caregiver grant program, now in its 8th year, with funds from The Southborough Community Fund, which provides outreach to those experiencing a round-the-clock care situation. Ms. LaFrancois stated the Center will begin congregate meals with the Monday Blue Plate Special and is investigating ways to provide more fitness options. She stated that while the public largely sees the programming side of the Senior Center, nursing and outreach care are major components, as well. The Board and Ms. LeFrancois discussed the impacts of the increasing number of seniors in Southborough, noting that by 2030, seniors are expected to comprise 30% of population. Mr. Dennington asked if the Cummings grant was a one-year opportunity. Ms. LaFrancois stated that there may be opportunities for funding in future years. Mr. Stivers asked about the most pressing needs. Ms. LaFrancois stated that funding is the major concern, noting that costs continue to rise to maintain the current level of programming and there is a need to expand programming in the evenings. Mr. Peck stated the Council on Aging is focused on recruitment, as 2/3 of the Senior Center staff will be leaving in the next year. He stated he expects there will be a need to increase the number of nursing hours as the senior population rises. Mr. Peck stated that providing seniors with a place to connect is a priority and hiring staff to extend the hours would be required. He also stated that, at some point, the Senior Center might need to consider hiring a social worker to deal the with complexities facing the senior population. Ms. Landry asked Ms. LaFrancois to participate in succession planning to ensure a smooth transition. Ms. Cook stated that anyone who wishes to contribute funds assisting seniors in Southborough could contribute to the Friends of the Council on Aging. Ms. Cook asked Mr. Peck about the ARPA funds allocated for a senior survey. Mr. Peck confirmed that, at this time, the Council on Aging is not seeking ARPA funds for the senior survey but they will consider the survey in the future.

IV. Reports

a. Chair's Report

i. Neary School project update

Ms. Cook reported that the project is in the schematic design phase and she expects that phase to be completed in March/April. She also reported that the Massachusetts School Building Authority (MSBA) reimbursement cost has increased, resulting in a reduction in the bond amount required to complete the project to $81.8 million dollars.

b. Members' Reports

i. RECC Update

Mr. Hamilton reported that he and Mr. Stivers met with the Select Board Chair in Westborough and had a productive meeting. He also reported that he, Mr. Stivers, Mr. Purple, Chief Newell and Chief Puntini met with the Westborough RECC, which included the police/fire chiefs and town administrators for Westborough and Grafton. He also stated he recently appeared on Southborough Access Media (SAM) to discuss regionalization and the Westborough RECC. He will also be speaking with the Dull Men's Club on Friday.

c. Town Administrator's Report

Mr. Purple stated that all presentations for Special Town Meeting are due to the Town Clerk by this Friday, September 20th, at noon.

i. Volunteer breakfast

Mr. Purple reported that the Volunteer Breakfast would be held on Monday, October 7th, from 7:30-9:30 AM at the Senior Center. He also reported that the dedication of the new room at the Senior Center would be held on Tuesday, September 18th, at 8:30 AM.

Mr. Purple reported that the ALS Golf Fundraiser, in honor of Brian Shifrin and John Wilson, would be held on October 12th – 14th. He stated that the golf management company would donate $10 from every round of golf played to ALS One.

V. Consent Agenda

a. Approve Open Session Meeting Minutes: August 27, 2024; September 9, 2024; September 9, 2024 (Joint with Planning Board); September 11, 2024 (Joint with School Committee)

Mr. Stivers requested to hold Consent Agenda item "a." **September 9, 2024 (Joint with Planning Board):** Mr. Stivers requested the following change: Line 15: replace the last sentence with "They opened with discussion with both groups." **September 11, 2024 (Joint with School Committee):** Mr. Dennington requested the following change to lines 16-17: He requested that the second sentence (in lines 16-17) be deleted. **September 9, 2024:** Mr. Dennington requested that Ms. Cook's name in Lines 15 and 20 be replaced with Mr. Dennington's. Mr. Dennington moved to approve the Open Session Meeting Minutes of August 27, 2024, as written, September 9, 2024, as amended, September 9, 2024 (Joint with Planning Board), as amended and September 11, 2024 (Joint with School Committee), as amended. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Approve contracts for Facilities project; Town House painting, Town House landscaping
c. Accept $100 donation to the Ambulance Fund
d. Approve Intermunicipal Agreement with Northborough for Health Agent position
e. Appoint Bessie Trinidad as Full-time Communications Officer
f. Approve Executive Session Meeting Minutes: September 4, 2024

Ms. Cook moved to approve Consent Agenda items "b", "c", "d", "e" and "f." Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

Ms. Cook moved to Other Matters "d" at this time.

VI. Other Matters *(Board may vote)*

a. Appoint Kristin LaVault as Rec. Commission representative to the 21 Highland Future Use Committee; term to expire 6/30/2025

Mr. Dennington provided an update of recent efforts to address the future of the building. Board discussed the impact of closing Finn School, as part of the Neary School Building project, and SYFS's potential move to the Flagg School relative to the 21 Highland Street building. Ms. Phaneuf stated that in her tenure as a Select Board member, she appointed people who did not agree with her and believes that varying opinions make for a good committee. She urged the Board to appoint Ms. LaVault. Ms. Kristin LaVault appeared, via ZOOM, on the matter. Ms. LaVault thanked Ms. Phaneuf for her support and stated she did not decline the invitation from the Board to appear this evening. She stated she has always been open and remains open to considering all options for 21 Highland Street. Mr. Dennington moved to appoint Kristin LaVault as the Recreation Commission representative to the 21 Highland Future Use Committee, term to expire 12/31/24. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Discussion and potential revisions to charge for 21 Highland Future Use Committee

The Board did not discuss Other Matters "b."

Ms. Cook moved to Other Matters "e" at this time.

c. ARPA: revote COA survey funds

See Scheduled Appointments "b."

d. Future Town use of Flagg School

Ms. Sarah Cassell, Director of Southborough Youth and Family Services (SYFS) appeared before the Board on the matter. Ms. Cassell stated that SYFS is nearing the end of their 5-year strategic plan and they would like to develop a new data-driven 5-year plan. She stated SYFS is proposing to contract with Trendline to conduct a community needs assessment that will produce a thorough report

focused on gaps in services and an interactive database for use by SYFS. The Board discussed the proposal. Mr. Stivers moved to reallocate $20,000 in ARPA monies to fund the SYFS survey, with the expectation that it will be contracted no later than December 31, 2024 and completed no later than December 31, 2025. Mr. Hamilton seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook moved to reallocate $35,000 in ARPA funds for the Council on Aging survey to the General Tax Relief category and allocate $20,000 from the General Tax Relief category to the SYFS Trendline survey. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook stated the Board would discuss the future use of the Flagg School, as it will become vacant in the near future. Ms. Cassell stated that she would like to Board to consider moving SYFS to the Flagg School when it becomes vacant. She stated she toured the space with Facilities Director John Parent and she believes the Flagg School is centrally located, yet offers privacy and the additional office space needed. Ms. Cook informed the Board that other Town Departments would also like consideration of moving to Flagg School and that this agenda item is for discussion purposes only. The Board discussed the potential for SYFS to relocate to the Flagg School. Ms. Bonnie Phaneuf, 179 Middle Road, stated she is in favor of moving SYFS to Flagg School and suggested that the Board bring the building into ADA compliance using ARPA funds.

Ms. Cook moved to Other Matters "a" at this time.

e. Review of Select Board FY25 goals

The Board discussed the status of its goals list, thus far. Mr. Dennington suggested that Mr. Purple divide the Department of Revenue (DOR) financial study into areas for the Board to review and consider for implementation. The Board discussed a "State of the Town" presentation that describes important issues for the Town to consider in a 5-10 year timeframe (e.g. roads, infrastructure, staffing, etc.). Mr. Hamilton suggested Annual Town Meeting or other potential venues (e.g. a Board meeting or Southborough Access Media (SAM)) for delivering the presentation. Mr. Hamilton and Mr. Stivers expressed the need for the Board to communicate with residents about long-term issues facing the town and obtain critical feedback. Mr. Stivers stated that it is important to communicate the status of the Master Plan Implementation Committee (MPIC)'s work on achieving its goals, as well. The Board discussed how best to engage the residents to communicate the information described above. The Board agreed to address this goal after Special Town Meeting. Ms. Cook stated that she has made progress on the parking lot at Fayville Hall goal. She stated that there would be 16 unmarked spaces for the Town to use during specified hours. Mr. Dennington stated that the Board remains committed to filling the vacancies on the EDC. Mr. Hamilton stated he is not hopeful about the restoration of agriculture at Chestnut Hill Farm. With regard to the Old Burial Ground, Mr. Stivers stated he is working with DPW Superintendent Cundiff to submit an estimate to the Board of Commissioners of Trust Funds for potential funding. The Board agreed that Ms. Landry would work with Superintendent Cundiff to develop an estimate for the removal of dead trees in the Old Burial Ground and that the Board would discuss the matter at its October 8th meeting. Ms. Landry stated that the bylaw compliance goal has been met. The Board agreed to discuss the Public Safety Staffing Study and include any suggestions for implementation into the budget cycle for FY26. The Board also agreed to distribute 5 goals among the members, to be completed by the end of 2024, at its October 8th meeting.

VII. Public Comment

Ms. Phaneuf asked the Board to investigate cemetery space needs. Mr. Hamilton stated that he looked into the matter and believes this will be an issue in approximately 5 years. Ms. Cook stated that the Board would look into the matter.

Mr. Grant Farrington, 58 Flagg Road, appeared via ZOOM and stated that the YouTube links in the minutes section of the website have not been updated. Ms. Cook stated that the IT Department would address the matter.

VIII. Adjournment

Ms. Cook moved to adjourn the meeting at 8:57 PM. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

Upcoming Meetings	
September 30, 2024 (Special Town Meeting)	*October 8, 2024*

Respectfully submitted,

Bridgid Rubin, Recording Secretary

- Southborough Youth and Family Services Trendline Proposal

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, August 27, 2024 6:30 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Andrew Dennington, Kathryn Cook, Sam Stivers Marguerite Landry and Al Hamilton. Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale.

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:30 PM.

II. Public Comment

Mr. Joe Palmer, 158 Parkerville Road, requested that the Citizen's Petition Recall Bylaw be included in the warrant for Special Town Meeting.

III. Scheduled Appointments *(Board may vote)*

a. Interview/appoint Sandy Pochapin to Tricentennial Committee; term to expire 6/30/2025

Ms. Pochapin appeared before the Board, via ZOOM, on the matter. The Board interviewed Ms. Pochapin. Mr. Dennington moved to appoint Ms. Pochapin to the Tricentennial Committee, term to expire 6/30/2025. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Public forum for regional dispatch services

Mr. Hamilton shared his presentation on regional dispatch services with the Board and public. Ms. Landry asked about the organizational structure, accountability and feedback channels for a Regional Emergency Communications Center (RECC). Mr. Hamilton stated that the RECC would be an independent entity and that an InterMunicipal Agreement (IMA) would need to be negotiated and executed by the member communities. He stated the IMA would create the governing board from the member communities and the governing board, along with the Police/Fire Chiefs would be responsible for RECC performance. Mr. Dennington described checks and balances that were part of the previously negotiated IMA. The Board discussed funding mechanisms for the RECC. Mr. Hamilton explained that, if the Town joins any RECC, it cannot return to the present emergency communications structure. The Board discussed the previously negotiated IMA. Mr. Dennington stated the Board should be prepared to address comments by residents regarding the money spent to construct the present dispatch facilities at the Public Safety Building and potential future use of the space. Police Chief Ryan Newell and Fire Chief Andrew Puntini joined the Board for discussion of this agenda item. Chief Newell stated that the regional approach is the trend in public safety dispatch services and that, if the Town does not strongly consider this option, it may be left behind as surrounding communities adopt the regional approach. He stated Southborough's dispatchers are extremely professional in executing their role but filling open positions has been challenging. Chief Puntini stated that public safety should figure heavily in the decision to pursue a regional approach and, presently, Southborough lacks appropriate staffing to concurrently dispatch police/fire and handle life-threatening emergencies. He stated the opportunity to join a RECC at its creation offers advantages to the Town. Mr. Blair Sutherland, 139 Parkerville Road, stated he has spent his entire career in public safety communications and feels it is important to keep the public discussion of joining a RECC at the forefront. He stated that joining the Westborough RECC offers Southborough

the opportunity to work with surrounding towns and improve the effectiveness of working with mutual aid partners. He stated that, while joining a RECC may not save money in the long term, it would improve public safety for the residents of Southborough and offer the opportunity for technology/equipment upgrades the Town might otherwise not make. He urged the Town to continue to explore joining a RECC. Mr. Michael Nordstrom, 14 Meeting House Lane, asked if there was a cap to annual costs or would the Town be responsible for any cost increases. Mr. Stivers stated that in the previous IMA, costs were divided proportionally among the member communities and acknowledged that there is exposure, but noted the Town had negotiated protections around termination due to objections over financial expenditures. Ms. Cook stated that there would be costs savings if the Town spends less than it would spend to appropriately staff the Town's emergency services (2 dispatchers, 24/7). Mr. Dennington added that, presently, any upcoming technology upgrades for public safety would be born by the Town, as opposed to those costs being covered by the State through a RECC. Mr. Hamilton stated he will make the RECC presentation to the Dull Men's's Club and Southborough Access Media and is available to make the presentation for any other group wishing to hear it.

Ms. Cook heard Scheduled Appointments "d" at this time.

c. EDC – Consideration of increased hours for Coordinator position

Ms. Cook stated that tonight's discussion relates to Article 16 in the draft warrant for Special Town Meeting - increasing the EDC coordinator position to full-time. Mr. Andrew Pfaff called the meeting of the Advisory Committee to order at 7:52 PM. Members present: Andrew Pfaff, Marci Jones Salow, Barry Rubenstein and Howard Rose. Members present via ZOOM: Adam Nodiff, Larry Samberg and Tim Martel. Members of the Economic Development Committee (EDC) present for tonight's meeting included Michael Nordstrom and Karen Anglim. Also in attendance were Julie Connelly and Claire Reynolds, both former members of the EDC. Ms. Leah Emerson, EDC Coordinator, was also present, via ZOOM. Ms. Connelly provided a history of the EDC and the coordinator position. Ms. Reynolds provided a history of the grants that had been received in the last nine years. Ms. Connelly stated that she believes the Town needs to both address zoning issues to attract new businesses and increase the hours for the coordinator position. Mr. Nordstrom stated that the EDC's focus should be on attracting businesses to Town and increasing its visibility to showcase their work. The Board offered comments on the need to increase the commercial base in Southborough and in support of the additional hours for the EDC coordinator position. Ms. Emerson thanked those advocating for an increase in hours for her position and stated she would like to be able to help the Town with the challenges of supporting existing businesses and increasing business in Southborough. Ms. Connelly stated that the Planning Board would need to lead efforts to address zoning issues. Mr. Pfaff stated he is supportive of the additional hours but that it should be monitored to ensure a return on the investment. Mr. Samberg stated his support for the additional hours but agreed metrics should be reviewed regularly. Ms. Jones Salow offered her support for the additional hours but added the EDC will need to be more visible to the public and suggested the EDC be more visible at Planning Board meetings to advocate for businesses. Mr. Rose stated his support for the additional hours but said the EDC should be more public about its work. The Board, Advisory and EDC discussed filling the vacancies on the EDC. Mr. Nodiffstated he is supportive of the additional hours and believes there is enough work to fill the additional hours while also securing additional grant funding. Mr. Hamilton moved that the Board support the article to increase funding for the EDC coordinator. Mr. Stivers seconded the position. Mr. Hamilton asked if the increase of $27,929 covers the cost of benefits. Mr. Dennington stated that it does. The motion was unanimously approved (5-0-0). Mr. Pfaff moved that the Advisory Committee support Article 16 in the draft Warrant for Special Town Meeting. Mr. Rose seconded the motion. The motion was

approved by roll call vote: Mr. Samberg, aye; Mr. Martel, aye; Mr.Nodiff, aye; Mr. Rubenstein, aye; Ms. Jones Salow, aye; Mr. Rose, aye; Mr. Pfaff, aye (7-0-0).

The Board recessed at 8:44 PM and resumed meeting at 8:51 PM. Ms. Cook moved to Scheduled Appointments "e."

d. Stewardship Committee – Discussion of revised charge

Ms. Cook stated that the Stewardship Committee wishes to reduce its number of members from seven to five and the Board supports this request. She also stated the Stewardship Committee wishes to clarify its charge as an ad hoc committee. Ms. Freddie Gillespie, Open Space Preservation Commission representative to the Stewardship Committee, stated the Stewardship Committee was set up to secure a Natural Resources Conservation Service (NRCS) grant to address a bittersweet infestation at Breakneck Hill. The Board discussed making the Stewardship Committee a permanent committee and agreed to address this issue at Annual Town Meeting in 2025. Ms. Joyce Greenleaf, Chair of the Stewardship Committee, presented a revised charge to the Board. Mr. Dennington moved to approve the Stewardship Committee charge, as supported by the Stewardship Committee and presented this evening. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

e. Advisory Committee – Sept. 30 Special Town Meeting Review

i. Review warrant articles

The Board and Advisory Committee discussed the following articles that may be included in a Consent Agenda at Special Town Meeting: 1, 2, 3, 4, 5, 6 and 19. **Article #1**: To amend the Salary Administration Plan (SAP) – Ms. Cook reviewed the proposed changes. The Board and Advisory Committee had no changes to the article. **Article #2:** To amend the Town Code to reduce the membership of the PILOT Committee from seven to five. **Article #3:** To see if the Town will vote to delete Chapter 9, Article I, Solid Waste Committee. **Article #4:** To see if the Town will vote to delete Chapter 6, Article II, Consumer Advisory Commission. Mr. Hamilton moved that the Board support Articles 1, 2, 3, and 4, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook stated the Advisory Committee would vote on its positions on the above listed articles at a later date. **Article #5:** To see if the Town will vote to amend Town Code Section 9-25-Meeting Minutes. The Board agreed not to take a position on this article until Mr. Hamilton has discussed it with Town Clerk Hegarty. **Article #6:** To see if the Town will vote to allow the Treasurer-Collector to collect unclaimed checks. Mr. Hamilton moved that the Board support Article 6, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). **Article #19:** To see if the Town will vote to accept General Laws Chapter 44, Section 53F3/4, to establish a Public Education Government (PEG) Access and Cable Related Fund. Ms. Cook stated that the contract with Southborough Access Media (SAM) had expired and that the new contract will contain language so the Town can create a fund to receive cable-licensing fees. Mr. Hamilton moved that the Board support Article 19, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook suggested and the Board agreed to move Article 19 as the new Article 7. **Article #8:** MBTA Communities Zoning Overlay District and Bylaw. The Board and Advisory Committee agreed to withhold a vote on the article until they have met with the Planning Board to review the final version of the bylaw. The Board and Advisory agreed to meet with the Planning Board on or before September 9th to review the bylaw. **Article #9:** Regionalization of Emergency Communication Services (RECC). Mr. Stivers read the proposed language for the warrant. Mr. Hamilton moved to adopt the language for the article, as read by Mr. Stivers. Mr.

Stivers seconded the motion. The motion was unanimously approved (5-0-0). Mr. Hamilton moved that the Board insert the above-approved language as Article 8 (9) in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). **Article #10:** Elimination of Southborough Housing and Opportunity Partnership Committee (SHOPC) and creation of a new committee that addresses the responsibilities of SHOPC and the Affordable Housing Trust Fund Committee (AHTFC). Mr. Hamilton informed the Board and Advisory Committee that through his research, he learned that the AHTFC needed to be restructured in order to dissolve SHOPC and create a new committee. The Board discussed how best to accomplish the goals. Mr. Hamilton moved that the Board reserve a place for Article 9A (to replace the 2005 article that created the AHTFC) and Article 9B (to dissolve SHOPC). Mr. Stivers seconded the motion. The Board agreed to draft and share the language for the articles with the Advisory Committee. **Article #10:** A process to transfer funds from the Affordable Housing Fund of Community Preservation Act (CPA) monies to the AHTFC. The Board and Advisory Committee discussed the difficulties that the AHTFC encounters in acting on properties that become available to increase the Town's affordable housing stock. The Board agreed to remove Article 10 from the Draft Warrant. **Article #11:** To see if the Town will vote to allow other funding sources to be used in conjunction with CPA projects. Mr. Stivers stated this article brings the Town into alignment with a recent change in State law. Mr. Hamilton moved that the Board support Article 11, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). **Article #12:** To see if the Town will vote to transfer $17,068 from the Assessor's Overlay Surplus to fund miscellaneous adjustments to the FY 25 budget. Mr. Hamilton moved that the Board support Article 12, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). **Article #13 (old #14):** Breakneck Hill Remediation. Ms. Melissa Danza, Conservation Commissioner, appeared before the Board and the Advisory Committee, via Zoom, on the matter. Ms. Danza provided an update on the cleanup project. She stated that the Town had previously approved $2.2 million dollars for remediation at the site. She stated that additional testing revealed the presence of asbestos containing materials (ACMs) and Article 13 requests an additional $2.1 million dollars to address the newly discovered ACMs at the site. Ms. Cook asked about non-compliance. Ms. Danza stated that non-compliance is not an option and that the State would work with the Town as long as progress is evident, noting that the deadline for completion of the remediation is September 2024. Ms. Cook asked if CPA or other funding sources for the remediation have been investigated. Ms. Danza stated that the remediation did not qualify for CPA funds and that she has looked into other funding sources but not found any to cover the cost of remediation. She stated she would review the matter again. Mr. Stivers and Mr. Hamilton asked Ms. Danza to speak with DPW Superintendent Cundiff, as he may have some knowledge in the area of remediation. Mr. Pfaff suggested that the Town's State and Federal representatives be contacted to assist in finding any grants or funds available for remediation. Mr. Purple added that this property was a private farm dump in the middle of the woods that the Town purchased so there are fewer funds available for cleanup. Ms. Danza stated that, barring any weather issues, she expects completion of the project by the end of this year. Mr. Stivers suggested that Mr. Purple ask the Town's grant consultant if any funds might be available for remediation. Ms. Danza agreed to speak with DPW Superintendent Cundiff on the matter and a Board member will reach out to State and Federal representatives to determine if any financial relief is available. Mr. Hamilton moved that the Board support Article 13, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). **Article #14:** Atwood Remediation. Ms. Cook stated that this article would be removed from the warrant for Special Town Meeting. **Article #15:** Implementation of the Public Safety Staffing Study. Ms. Cook

stated this article would be removed from the warrant for Special Town Meeting. The Board and Advisory Committee agreed to appoint liaisons to review the finding of the Public Safety Staffing Study and make recommendations for FY26. Fire Chief Puntini appeared before the Board and the Advisory Committee on the matter. Chief Puntini stated he is supportive of the recommendations in the study. He asked that the Board and Advisory Committee consider the expenditure of approximately $250,000 for the deputy chief position and staffing each shift with 5 firefighters as priorities. Police Chief Newell appeared before the Board and Advisory Committee and stated he would like consideration of the lieutenant position for Special Town Meeting. The Board and Advisory Committee discussed Chief Newell's request. The Board agreed to create information for a lieutenant position, with financial information, to review at its September 4th meeting. **Article #16:** See Scheduled Appointment "c" above. **Article #17:** Annual Town Meeting. The Board agreed to address this issue at its September 4th meeting. **Article #18:** Citizen's Petition RE: CPC Appointments. Mr. Hamilton moved that the Board support Article 18, as printed in the Draft Special Town Meeting Warrant, dated August 22, 2024. Mr. Stivers seconded the motion. The motion was unanimously defeated (0-5-0). **Article #19:** Citizen's Petition – Recall. The Board agreed to address this matter at its September 4th meeting. Mr. Rubenstein moved to adjourn the Advisory Committee meeting at 10:03 PM. Mr. Rose seconded the motion. The motion was approved by roll call vote: Mr. Samberg, aye; Mr. Martel, aye; Ms. Jones Salow, aye; Mr. Rubenstein, aye; Mr. Rose, aye; Mr. Pfaff, aye (6-0-0).

ii. Consideration of additional articles

See discussion above.

III. Reports

Ms. Cook moved to reports after Other Matters "a."

a. Chair's Report

i. Neary Building Committee and next steps

Ms. Cook reported that the Neary Building Committee has proposed to build a new 4-grade school at an estimated cost of $84 million dollars to the residents of Southborough. She stated schematic design will occur between now and April 2025, when a Special Town Meeting will be held for a Town vote on the project. Ms. Cook stated that if the Town approves the proposal, Finn School would be closed and the Board would need to consider a future use for Finn School.

ii. Update on four 40B projects

Ms. Cook reported that on September 4th, the Zoning Board of Appeals would meet to vote on the Park Central project and discuss 120 Turnpike Road project. She reported that the plans for the 250 Turnpike Road project would be submitted shortly. She stated that the 352 Turnpike Road project is in the early stages of development.

iii. Summer Nights 2024

Ms. Cook reported that Summer Nights was a tremendous success and thanked Christina McCarthy for her efforts with the event.

Ms. Cook reported that Code Red is expanding its business and will move to another location on Turnpike Road for additional space.

b. Members' Reports

i. SHOPC/AHTFC merger update

The Board agreed that this matter had been discussed under Scheduled Appointments "e."

ii. Considering future space for Historical Commission

Ms. Landry reported that she is in discussions with Kevin Miller, John Parent and Jim Hegarty about a location for the Historical Commission and its inventory.

c. Town Administrator's Report

i. Eversource work on Main Street near CSX Railroad Crossing

Mr. Purple reported that Eversource would be working on Main Street starting on September 2, 2024, and he described the scope of work. He thanked DPW Superintendent Cundiff for this outreach to local businesses regarding the work schedule.

V. Consent Agenda

a. Approve Open Session Meeting Minutes: August 6, 2024

The Board agreed to approve the minutes at its September 4th meeting.

b. Accept $1500 donation to Summer Nights: Ken's Foods, $500; Main Street Bank, $500; Andrew Abu Realtors, $500

c. Approve request from DPW Superintendent for minor water abatement approvals

d. Appoint Civil Engineer position in Public Works Department

DPW Superintendent Bill Cundiff and Caitlin Cervello appeared, via ZOOM, before the Board on the matter. Superintendent Cundiff introduced Ms. Cervello to the Board and shared her qualifications. Mr. Stivers moved to appoint Caitlin Cervello as Civil Engineer in the Public Works Department. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

Ms. Cook heard Scheduled Appointments "c" at this time.

e. Approve cemetery plot buy back

f. Approve release of liability for live Fire training at 26 Deerfoot Road

Chief Puntini stated that 26 Deerfoot would be the site for an active fire training exercise. Mr. Hamilton moved to approve the release, as amended by Ms. Landry. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

g. Approve FY25 fuel oil contract

h. Appoint Kristen LeVault as Rec. Commission representative to the 21 Highland Future Use Committee; term to expire 6/30/2025

Ms. Cook reported that consideration of this matter would be postponed until a later date.

i. Accept $25,000 donation from the Cummings Foundation for intergenerational programming at the Senior Center

j. Approve request from Tricentennial Committee for alterations at Heritage Park

Mr. Dennington clarified that the Friends of Southborough 300 would be selling the bricks for the fundraiser at Heritage Park.

Ms. Cook moved to approve Consent Agenda items "b", "c", "e", "g", "i" and "j." Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

VI. Other Matters *(Board may vote)*

a. Review ARPA funding and requests

Chief Puntini stated he believes the fire alert system is in need of replacement at a cost of approximately $75,000. He stated that he has appeared before the Capital Planning and Improvement Committee (CPIC) and his request is part of the Capital plan. Chief Puntini confirmed that the project would be under contract by December 31, 2024. The Board agreed to table this matter until its September 4th meeting.

Ms. Cook moved to Reports at this time.

b. Select Board Office Hours schedule for remainder of 2024

The Board agreed to table this matter until its September 4th meeting.

c. CPC application for Town Common rail replacement project

Ms. Cook moved to Other Matter "c" after Scheduled Appointments "e." Mr. Dennington stated that the CPA application is due this Friday, September 6th. He stated that he has been working with DPW Superintendent Cundiff and Kevin Miller, Chair of the Historical Commission, and they have determined that the best estimate for the project is $110,000. He stated he would submit an

application to the CPC for that amount. Mr. Dennington moved that the Board approve submitting the CPC application for the Town rail replacement. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

d. Approval of application to CPC from AHTFC, RE: movement of funds from CPC to Southborough Affordable Housing Trust

Mr. Hamilton moved approve the AHTFC's application to the CPC to move funds from the CPC to the Southborough Affordable Housing Trust. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

VII. Public Comment

There was no public comment.

VIII. Executive Session

The Board agreed to address this matter at its September 4th meeting.

IX. Adjournment

Mr. Hamilton moved to adjourn the meeting at 10:30 PM. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Monday, September 9, 2024 7:00 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale.

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Chair Kathy Cook called the meeting to order at 7:02 PM.

II. Joint Meeting with Planning Board – MBTA Communities Zoning Bylaw

The Board met with the Planning Board and Advisory Committee to discuss Article 8, MBTA Communities Zoning Bylaw. The Planning Board walked through the Town Meeting presentation for this article. The opened the discussion to both parties.

Ms. Cook suggested asking Moderator Paul Cimino if more time could be given for this presentation. She added that she supported this article and asked if it were possible that if this article were voted down, could that put the Neary School Grant in jeopardy. The Board agreed to inquire with Town Counsel Jay Talerman. Mr. Dennington stated he was in support of the MBTA Communities Zoning Bylaw and explained his reasoning which included abiding by a state law supported by former MA Governor Baker and current Governor Healey. He added that he felt this law is a modest step towards creating affordable housing, housing diversity and a better economy. Mr. Dennington spoke about the housing crisis in Massachusetts and the positive impact this article could make in Southborough. Mr. Hamilton stated that with this passing, support should be made for diversity in housing stock, especially within the senior citizen population. Ms. Cook gave more suggestions regarding the presentation for this article.

Mr. Hamilton made a motion to support Article 8 as amended by the Planning Board. Mr. Stivers seconded. The motion passed all in favor (5-0-0).

IX. Adjournment

Ms. Cook moved to adjourn at 8:25 P.M. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

SOUTHBOROUGH SELECT BOARD MEETING

September 9, 2024

Town Administrator's Office—Southborough Town House

17 Common Street, Southborough MA 01772

Open Session Meeting Minutes

Present: Kathy Cook, Chair; Andrew Dennington, Vice Chair; Sam Stivers; Marguerite Landry, Al Hamilton

Also Present: Mark Purple, Town Administrator

Ms. Cook called the meeting to order at 8:30PM.

Ms. Cook announced that the meeting topics are review of the warrant for the September 30, 2024 Special Town Meeting ("STM"), including preparing for addressing the warrant articles, and voting on positions for warrant articles that the Board has not previously voted on. The warrant articles discussed are those as presented in the most current warrant draft, dated September 9, 2024.

Ms. Cook reviewed the status of Article 11. This article proposes to restructure the Affordable Housing Trust (as part of combining the Affordable Housing Trust with the Southborough Housing Opportunity Partnership Committee). The original warrant article establishing the Affordable Housing Trust was approved at the 2005 Town Meeting. There is some uncertainty about the follow-up to this approval—the article language was not included in the official Town bylaws and the Town does not have a record of the approval of the article by the Attorney General's office. Ms. Cook has discussed this with Town Counsel, who has prepared the language necessary for the current warrant article to get the paperwork up to date—and this language is what will be considered by the voters at the upcoming STM.

Article 11 consists of two parts: first, Section 6-13 will be added to the Town Code to establish the Affordable Housing Trust membership; and second, Section 6-14 will be added to the Town Code to define the powers and authority of the Affordable Housing Trust (as defined by the 2005 Town Meeting vote and by State law).

Mr. Hamilton moved for the Select Board to support Article 11; Mr. Stivers seconded the motion; vote 5-0 for approval

For Article 12 (the dissolution of the Southborough Housing Opportunity Partnership Committee), Mr. Hamilton moved for the Select Board to support Article 12; Mr. Stivers seconded the motion; vote 5-0 for approval.

For Article 13 (the acceptance of MGL Ch 44B Sec 3b ½--to allow for the contribution of funds in addition to the existing Community Preservation Act ("CPA") surcharge to the various CPA fund balances) Ms. Cook provided an update about her recent conversation with Ben Smith, Chair of the Community Preservation Committee ("CPC"). Mr. Smith explained the CPC's concerns about this article, and requested that the article be removed from the STM warrant. The Board discussed this request. Mr. Dennington moved that this article be removed from the STM warrant; Mr. Hamilton seconded the motion; vote 5-0 for approval.

Ms. Cook proposed that the Board work through the STM warrant articles and take a position on any articles not yet voted on and assign a Board member to speak about each article. She commented that the warrant articles for the STM "Consent Agenda" have not yet been set by the Moderator, so the Board should be ready to comment on all articles. It was noted that the article numbering will be

different from the numbers below for some of the articles in the final version of the warrant, because of the changes voted today.

The Board members responsible for the individual articles are as follows:

#1-SAP update; Mr. Dennington will be prepared to speak about this article.

#2-Pilot Committee; Ms. Cook reported that the Pilot Committee is requesting an update to this article (in addition to reducing the total number of members from 7 to 5) to eliminate the specific appointment of one member of the Council On Ageing and one member of the Capital Improvement Planning Committee. Ms. Cook moved that the Board support this amended version of Article #2; Mr. Stivers seconded the motion; vote 5-0 for approval. Ms. Cook will be prepared to speak about this article.

#3-Solid Waste Committee removal-Ms. Landry will be prepared to speak about this article.

#4-Consumer Advisory Committee removal-Mr. Hamilton will be prepared to speak about this article.

#5-Meeting Minutes for Town Clerk-Mr. Hegarty is expected to speak about this article.

#6-Tailings- Mr. Stivers will be prepared to speak about this article.

#7-Cable Licensee Revenue- Ms. Cook will be prepared to speak about this article.

#8-MBTA Communities Zoning-Planning Board is expected to speak about this article.

#9-Regional Public Safety Dispatch- Mr. Hamilton and Mr. Stivers will be prepared to speak about this article.

#10-Citizen Petition for CPC appointments- Mr. Dennington will be prepared to speak about this article.

#11-Affordable Housing Trust restructuring- Mr. Hamilton will be prepared to speak about this article.

#12-Dissolution of SHOPC- Mr. Dennington will be prepared to speak about this article.

#13-Acceptance of MGL Ch 44B Sec 3b ½ -This article was removed from the STM warrant

#14-Amend the FY25 budget-Ms. Cook will be prepared to speak about this article.

#15-Additional hours the EDC Coordinator- Mr. Dennington will be prepared to speak about this article.

#16-Funding for Breakneck Hill Clean-up- Ms. Landry will be prepared to speak about this article.

#17-Funding for Police Lieutenant-Ms. Cook will be prepared to speak about this article.

#18-ATM date change-Mr. Stivers will be prepared to speak about this article.

#19-Citizen Petition for recall process; The Board had not previously taken a position on this article; Ms. Cook commented that Town Counsel has opined that this article is advisory only (and not binding); Mr. Hamilton moved that the Board support this article; Mr. Stivers seconded the motion; vote 0-5 for approval. Mr. Dennington will be prepared to speak about this article.

At 9:04PM, Mr. Hamilton moved to adjourn the meeting (Mr. Stivers seconded the motion)
vote 5-0 for approval

Town of Southborough
Select Board
17 Common Street
Southborough, MA 01772

Dear Chairwoman Cook,

Attached is a letter of recommendation regarding the contracting of Exterior Painting Services and Selective Repairs at Cordaville Hall and the South Union Building from Raymond T. Guertin, Architect. Based upon this letter or recommendation from Mr. Guertin, I am respectfully requesting that your board award a contract in the amount of $51,000 for said services to Fox Painting Co., Inc.

Funding in the amount of $28,000 for The Cordaville Hall portion of this contract will be paid from the ARPA funds that your board previously approved for this purpose, and funding in the amount of $23,000 for the South Union Building portion of this contract will be paid from Capital Maintenance funds.

Your board's support of this recommendation and authorization to contract with Fox Painting Co., Inc. for these services would be most appreciated.

Sincerely,
TOWN OF SOUTHBOROUGH

Southborough, MA 01772-1662

Re: Exterior Painting & Selective Repairs
Southborough Senior Center/Cordaville Hall & South Union Building

Dear Mr. Parent:

On Thursday, August 8, 2024, thirteen (13) electronic bids were received for the Exterior Painting & Selective Repairs at the Southborough Senior Center/Cordaville Hall & South Union Building for the Town of Southborough.

The two low bids resulted in a tie from JB Painting of Marlboro, MA and Fox Painting Co., Inc. of Arlington, MA in the amount of $55,000.00 including Alternate No. 1. The bids are approximately 31 percent less than our construction estimate of $72,000.00.

The Town Administrator recommended that the issue be rectified by having each of the two tied low bidders submit an updated bid based upon the same project specifications and quality expectations.

On Wednesday, September 4, 2014 the two low bidders hand delivered their updated bids, the results are as follows:

UPDATED BID RESULTS			
Bidder	Base Bid Amount	Alternate No. 1	Base Bid + Alternate No. 1
JB Painting	$26,000.00	$26,900.00	$52,900.00
Fox Painting Co., Inc.	$28,000.00	$23,000.00	$51,000.00

JB Painting is the low bidder if just the Base Bid is accepted, and Fox Painting is the low bidder if the Base Bid & Alternate No. 1 is accepted. Since the prices for both the Base Bid and Alternate No. 1 is below the construction estimate, the Town has elected to accept Alternate No. 1, resulting in Fox Painting as the low bidder.

I talked with Sam Bouboulis of Fox Painting Co., Inc. to discuss the project in detail and their price, and he felt confident in their price and ability to complete the project as designed.

We have reviewed the bid from Fox Painting Co., Inc. and find it to be in order. We also contacted the several references they provided and received favorable comments on their construction and administration abilities, including the following:

- Communicated very well…supervisor was frequently on site and would check in to insure all was going well.

- There were no change orders on the project and the contractor was amenable to discuss changes due to some unforeseen conditions without issue.
- Price was very competitive, and Fox did not look for extras. As a matter of fact, we had them do some extra work and his charge was most reasonable.
- I can't say enough good things about Fox painting. They completed work on two historical buildings that included both a carpentry component as well as painting. The workmanship was great, they kept a clean job site, they were dependable and professional the Town of Southborough is in good hands with Sam and his crew.
- One of the best contractors we've used. We will be using them for another project. You won't go wrong with them.

Based on the above information, it is our recommendation to accept the bid and enter into contract with Fox Painting Co., Inc. Should you have any questions regarding the above recommendation, please do not hesitate to call.

Respectfully submitted,

Raymond T. Guertin

Southborough, MA 01772

Dear Chairwoman Cook,

Please be advised that, pursuant to M.G.L. c. 30B, the Southborough Facilities Department recently solicited quotes for landscaping services at the Southborough Town House. There were two respondents to the request for quotes. Attached is a copy of the quote summary sheet. The low bid of $49,760 was submitted by Samuel Thomas O.D. LLC. The second bid of $58,375 was submitted by Mountainview Landscaping & Lawncare Inc.

I recommend that this contract for Landscaping Services at the Town House be awarded to the lowest quoting contractor, Samuel Thomas O.D. LLC, in the amount of $49,760. Funding for this contract will be paid out of the ARPA funds that were previously approved for this purpose by your board.

Your board's support of this recommendation and authorization to contract with Samuel Thomas O.D. LLC. for these services would be most appreciated.

Sincerely,
TOWN OF SOUTHBOROUGH

Intermunicipal Services Agreement
Health Department Health Agent

by and between
the Towns of Northborough and Southborough

This intermunicipal services agreement ("**Agreement**") is made and entered into, pursuant to M.G.L. c.40, § 4A, this __ day of _____, 2024 (the "**Effective Date**") by and between the Towns of Northborough and Southborough, acting by and through their respective Select Boards ("Northborough and Southborough" or, collectively, the "Towns" or "Participating Communities").

RECITALS

Whereas, the Towns have limited staffing to provide inspectional services;

Whereas, the Towns desire to share resources to provide public health services that are important and necessary for the Participating Communities;

Whereas, the Towns wish to continue providing public health inspectional services in conjunction with other services provided by their respective Health Departments;

Whereas, the Towns wish to realize the benefits of sharing the costs and administrative burden of these public health duties;

Whereas, the provisions of M.G.L. c. 40, § 4A authorizes the Towns to enter into an intermunicipal agreement to share the costs and administrative burden for services to be shared by the Towns; and

Whereas, the Select Boards of the Towns have voted to enter into this Agreement for shared services.

Now, therefore, in consideration of the mutual agreements and provisions set forth in this Agreement, and the payments and obligations hereunder, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Towns hereby agree as follows:

TERM

1. **Duration**: this Agreement's duration shall be three (3) years, commencing on the Effective Date. This Agreement shall automatically renew for four additional 3-year periods, for a maximum length of 15 years, unless terminated under the provisions of Section 5.

2. **Lead Municipality**:

2.1. Southborough shall act as the lead municipality under this Agreement and administer any grants available for the services provided hereunder.

2.2. Southborough, subject to approval of Northborough, shall employ or contract with licensed professionals to provide public health services to the Towns in accordance with the job description.

2.3. Southborough shall be responsible for the financial and human resources functions associated with the retention of persons retained by the Towns to provide public health services.

2.4. Southborough shall maintain all records necessary and appropriate for the performance of its duties under this Agreement. Northborough will provide its own record-keeping mechanism for shared employees.

3. **Cost Sharing**: Unless otherwise provided in this Agreement or otherwise agreed to in a writing signed by the Select Boards, all fees, costs, and other expenses incurred by either Town under the Agreement shall be divided equally, with each Town paying one-half of said fees, costs, or expenses. The financial liability of each party shall not exceed the amount appropriated by the Town at its Town Meeting.

4. **Payment**: Southborough shall invoice Northborough on a quarterly basis for services rendered in the prior quarter less any available grant funds available for said services with the 4th quarter payment due by June 15th. Payment under this Agreement is subject to appropriation, but failure to appropriate or make payments when due may result in termination of the Agreement as set forth herein.

5. **Scope of Services**:

5.1. The scope of inspectional services to be performed under this Agreement shall be set forth in a "**Health Agent Services Scope of Services**" in the form appended as **Exhibit A**

5.2. The Towns may, in a writing signed by the Town Administrator of Northborough and the Board of Health in Southborough, amend the Inspectional Services Scope of Services.

6. **Termination**:

6.1. Any Town, by simple majority vote of its Select Board, may terminate this Agreement prior to the expiration of any term.

6.2. Any termination of this Agreement shall be effective on the 180th day following the provision of written notice by the terminating Town to the other Towns of the termination vote (the "**Termination Date**"), except for termination for breach of the Agreement or failure to pay which shall be effective upon thirty (30) days' notice and failure to cure within that time. Services shall be suspended after the effective date of termination and payment shall be owed for services rendered up until the effective date.

6.3. Any termination vote will not be effective until the Towns have agreed to an equitable allocation of all remaining costs, expenses and assets including remaining salary and benefits and other expenses for the remaining fiscal year.

6.4. No sooner than the Termination Date and no later than the 90th day following the Termination Date, Southborough shall provide Northborough with a final accounting of any monies owed under this Agreement. Subject to the provisions of Section 7, Northborough shall pay any such monies owed to the other Town no later than the 45th day following receipt of said final accounting.

7. **Budgeting and Cost Tracking**:

7.1. Southborough, as the lead municipality, shall prepare an annual fiscal-year (*i.e.*, July 1 to and including June 30) budget of all costs, fees, and expenses related to this Agreement. Southborough shall provide said budget to Northborough no later than December 31 preceding the fiscal year to which the budget pertains. Southborough shall provide such additional information as may be reasonably requested by Northborough regarding costs, fees, and expenses related to this Agreement.

7.2. Northborough shall review the budget received from Southborough and shall identify any areas of disagreement with said budget no later than the 30th day following receipt of the budget.

7.3. In the event of a budget disagreement, the Towns shall endeavor in good faith to resolve their differences.

7.4. No monies shall be expended by any Town absent mutual agreement memorialized by: (a) an agreed-to budget; or (b) a writing signed by the Town Administrator of Northborough and the Board of Health Southborough.

7.5. Southborough shall provide quarterly statements to Northborough itemizing all monies expended under this Agreement.

7.6. If either Town incurs a cost, fee, or expense not included in an agreed-to annual budget, said Town shall promptly invoice the other Towns for half of cost, fee, or expense.

8. **Disputes**:

8.1. The Towns recognize a mutual, shared obligation to meet and confer about any disputes under this Agreement and to attempt to resolve the same without legal action, to minimize the time, cost, or expense of any dispute to either Town.

8.2. In the event of a dispute concerning the subject matter of this Agreement, the Town alleging the dispute shall provide written notice to the other Town describing the dispute with reasonable particularity, including an itemization of any monies alleged to be due or owing as part of said dispute.

8.3. No Town shall file an action in court earlier than the 30th day following delivery of notice to the other Towns in accordance with section 8.2 unless such a filing is necessary to preserve the public health, safety, or welfare.

8.4. Prior to the commencement of a court action, the parties hereto shall have the right (but not the obligation) to attempt to resolve disputes by way of non-binding, voluntary mediation. If the parties agree to proceed with voluntary mediation to attempt to resolve a dispute, then the parties agree to work in good faith to promptly designate a mutually acceptable mediator, and schedule and hold the mediation as soon as reasonably practicable. The parties hereto agree to split equally the cost of mediation and to bear their own attorney's fees incurred in preparing for and participating in such mediation. This provision shall not bar a party from initiating litigation where necessary to avoid expiration of an applicable statute of limitations.

8.5. This Agreement's validity, interpretation, construction, performance, and enforcement shall be governed by Massachusetts law, without regard to Massachusetts' choice-of-law or conflicts-of-law principles or rules. Any claim or action arising under or relating to this Agreement may be brought only in Worcester County Superior Court, and the Towns hereby agree that venue is proper, and shall be proper, only in that forum.

8.6. Each Town shall bear its own costs, fees, and expenses related to the enforcement of this Agreement. No Town shall be liable for any reliance or consequential damages if that Town is determined by a court to be in breach or default of any obligation under this Agreement.

9. **Liability**:

9.1. Each Town shall be liable for the acts and omissions of its own employees and not for the employees of the other Town in the performance of their obligations under this Agreement, including but not limited to the extent provided by the *Massachusetts Tort Claims Act*, M.G.L. c. 258.

9.2. By entering into this Agreement, no Town has not waived any governmental immunity or limitation of damages which may be extended to them by operation of law.

10. **Notices**: All notices permitted or required by this Agreement shall be in writing and delivered by certified mail, return receipt requested, to such persons who may be specified from time to time by each Town and to that Town's Clerk. No notice shall be effective until received by the Town Clerk.

11. **Force Majeure:** If and to the extent that a Town is directly prevented from performing an obligation under this Agreement by an event of *force majeure*, that Town shall be excused from performing that obligation and shall not be liable in damages or otherwise for the time period that the force majeure event directly prevents such performance, and the parties may also negotiate in good faith with respect to appropriate modifications to the provisions of this Agreement. The term "force majeure" shall mean only the supervening causes described here, each of which is beyond the reasonable control of the affected party: fire, earthquake, floods, explosion, war,

terrorism, riots, mob violence, failure of transportation, strikes, lockouts, actions of labor unions, condemnation, laws or orders of governmental or military authorities, epidemic or pandemic, or any other cause similar to the foregoing, and shall explicitly exclude changed market conditions.

12. **Reliance**: Nothing contained in the Agreement shall create a contractual relationship with, or a cause of action in favor of, a third party against any of the Towns.

13. **Entire Agreement**: This Agreement and the Exhibit to this Agreement, which may be amended from time to time by mutual agreement of the Towns, represent the entire agreement among the Towns pertaining to the subjects covered in this Agreement and expressly supersede all prior negotiations, representations and formal or informal agreements leading up to the final approval and execution of the Agreement respecting such subjects.

14. **Entrance**: Any Town may petition the Towns to join this Agreement to the extent permitted by any grants utilized for payment of services rendered hereunder. The addition of a municipality will require amendment of this Agreement in accordance with Section 15 herein and approval by the Participating Municipalities.

15. **Amendments and Modifications**: The Agreement may be amended or modified only by written instrument signed by the Towns' respective Select Boards, as required by MGL chapter 40, section 4A.

16. **Invalidity or Unenforceability**: If a court of competent jurisdiction declares or orders that any one or more phrases, sentences, clauses, or sections of this Agreement are invalid or unenforceable, then the remaining portions of this Agreement shall remain valid and enforceable notwithstanding such a declaration or order.

17. **Counterparts**: This Agreement may be executed in any number of counterpart copies, all of which constitute one and the same agreement and each shall constitute an original.

Subject: Re: 21 Highland Future Use Committee
Date: Thursday, August 22, 2024 8:53:07 PM

Melanie,

Kristin LaVault (cc'd) will be the Recreation Commission member on the 21 Highland Future Use Committee.

Thanks,
Jen

Jen Hansen
Chair, Southborough Recreation Commission
jhansen@southboroughma.com

21 Highland Future Use Committee

Background:

The South Union School is currently being used to house the Recreation Department and Youth and Family Services. The building is in fair condition, and is energy inefficient. It is likely that in 4-5 years the building will become surplus to the anticipated needs of the municipal side of Town Government, provided that a different building becomes available to the town in the form of either a school or other building.

The Select Board would like to develop alternative uses of the building to, if practical, preserve it.

Charge:

There shall be an Ad Hoc Committee established to make recommendations related to the future use of the South Union School. The committee's charge shall expire on December 31, 2024. The committee shall be guided as follows:

1. The committee may make recommendations related to the town-owned property at the site provided that:
    a. The playground must be maintained. If necessary, it may be moved.
    b. The sledding hill must be maintained.
2. Parking for the playground and any future use must be provided.
3. The committee may consider uses that would require faster conversion than the 4-5 year timeframe envisions. If considered a plan should be developed for the rehousing of the existing occupants.
4. Any future use of the building that requires regular occupancy must bring the building up to modern energy efficiency standards and building codes.
5. The committee may make use of the technical resources of the town in its deliberations provided that the provision of said resources are approved by either the Town Administrator or the Select Board.
6. The committee should attempt to find alternative sources of funding for any proposed use. The committee should be mindful that any request for taxpayer funding must be judged against other competing priorities. The committee is reminded that other neighborhoods in our town have far fewer public amenities (playgrounds, parks, open space) than exist in this neighborhood.

The committee shall make a final report to the Select Board no later than December 31, 2024, and an interim recommendation no later than November 30, 2024. Said reports shall cover alternative uses that will enjoy broad community support. The committee shall hold at least one public forum related to its recommendations.

Composition:

The Committee shall be appointed by the Select Board it shall have 7 members as follows:

- The Open Space Preservation Commission shall nominate 1 member
- The Historical Commission shall nominate 1 member.

Approved by Select Board: October 24, 2023; Amended: March 19, 2024

- The Planning Board shall nominate 1 member.
- The Recreation Commission shall nominate 1 member.
- There shall be 2 members who live within ½ mile of the property.
- There shall be 1 at-large member.

Continued Goals from FY24:	Status	Board Liaison
RECC		
Hopkinton Water Project		
Committee simplification Reorganization of AHTFC and SHOPC		
Review/implement DOR financial study		
Kick off for 21 Highland Committee		

Topic	Board Liaison
Replacement of Town Center historic fence railing	
Finalize CPC application before 8/31 deadline	AD
Review of future plans for 2 East Main St. (Bemis Lot)	KC
Finalizing parking plan at former Fayville Village Hall	KC
Future use of Flagg School	KC
Restoration of farming at Chestnut Hill Farm	AH
Continued negotiations with National Grid	SS
Future use of (Tony Kwan/Newton St.) land	SS
Determine public access to Halloran property	SS
Analysis of repairs/restoration to Old Burial Ground	ML
Bylaw compliance	ML

Economic Development
Outreach to fill vacancies on EDC
Determine permanent staffing for EDC Coordinator (full time)
Business development

Finance
Capital borrowing plan for known projects

Community Development
Affordable housing; reformulate committees, start project implementation, commit funds that town already has to viable project(s)

Administration/Operations
Streamline Select Board mundane decisions
Set calendar to meet with (most) Boards and Committees once annually
Event planning for employee and volunteer recognition

Improved communication on accomplishments and future issues we're facing
Develop State of the Town pitch at end of each FY
Add SB report at ATM

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, June 10, 2024 6:30 PM
Location: Public Safety Training Room, 32 Cordaville Road Southborough, MA
Present: Andrew Dennington, Kathryn Cook, Sam Stivers, and Al Hamilton.
Absent: Marguerite Landry
Others Present: Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:32 PM.

This was a special meeting to (1) set goals for the Town Administrator, Mark Purple, for the fiscal year beginning July 1, 2024 through June 30, 2025 and (2) set goals for the Select Board for the fiscal year beginning July 1, 2024 thru June 30, 2025. There were no other agenda items and there was no public comment. The meeting was in person only and no one else attended other than the four Select Board members, Mr. Purple and Ms. Hale.

II. Goal Setting for FY25

After discussion among the four members present, the Select Board established three sets of goals: (1) carry forward of certain goals from the prior fiscal year ending June 30, 2024; (2) establishment of new collective goals for the Select Board for the year ending June 30, 2025; and (3) establishment of individual goals for each member of the Select Board for the year ending June 30, 2025. All Select Board members that were present agreed on all goals. The official vote to approve was 4-0.

The Board agreed upon the continued goals from fiscal year 2024 as follows:

- Moving forward with RECC options
- Continuing negotiation with the Town of Hopkinton regarding the water project
- Committee simplification (reorganization of AHTFC and SHOPC)
- Review/implement the DOR financial study
- Guide and support the 21 Highland Committee.

The Board agreed to assign the fiscal year 2025 goals as follows:

- **Mr. Dennington:** replacement of the Town Center historic fence railing (finalize CPC application before 8/31 deadline)

- **Ms. Cook:**
  - Review of future plans for 2 East Main Street
  - Finalizing parking plan at the former Fayville Village Hall
  - Plans for the future use of Flagg School
- **Mr. Hamilton:**
  - Restoration of farming (including produce sales) at Chestnut Hill Farm

By Town Clerk/amb at 11:51 am, Dec 03, 2024

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Monday, September 30, 2024 6:00 PM
Location: Room 124, Trottier Middle School, 49 Parkerville Road, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale.

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:00 PM.

II. Other Matters

Special Town Meeting preparation

The Select Board reviewed the articles and confirmed who would speak to each. The Board reviewed the Moderator's consent list which included articles 1, 3-7 and 13. They discussed Article 8 (MBTA Communities Act) and potential amendments to anticipate. The Board discussed Article 9 (Select Board recommendation for Public Safety Dispatch Services) and agreed Mr. Hamilton would present.

The Board agreed that Mr. Dennington and Mr. Stivers would comment on Article 10 (Citizen Petition-Appointments to CPC from boards and committees), Mr. Dennington would present Article 14 (Appropriation for Economic Development Coordinator position) and Ms. Landry would present Article 15 (Appropriation for Breakneck Hill Farm Dump Remediation), understanding that it is a borrowing article which requires a two-thirds vote for approval.

III. Adjournment

Ms. Cook moved to adjourn the meeting at 6:45 PM. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

Upcoming Meetings	
October 8, 2024	*October 22, 2024*

Respectfully submitted,

Katie Barry, Business Administrator

16. Appropriation for new Lieutenant position for Police Department 23
17. Amend Town Code – Annual Town Meeting date 23
18. Citizen petition – Recall Bylaw 23

Town Finance Terminology

The following terms are frequently used in the Advisory Committee Report and at Town Meeting. For your convenience, we provide the following definitions:

Surplus Revenue: (Often referred to as "Excess and Deficiency")
The fund represents the amount by which the Cash, Accounts Receivable and other floating assets exceed the liabilities and reserves.

Available Funds: (Often referred to as "Free Cash")
The amount of the Unreserved Fund Balance (Surplus Revenue) account over and above uncollected taxes of prior years constitutes "free cash" or "available funds".

Overlay:
The Overlay is the amount raised by the Assessors in excess of appropriations and other charges for the purpose of creating a fund to cover abatements and exemptions as granted.

Overlay Reserve:
This is the accumulated amount of the Overlay for various years not used or required to be held in the specific Overlay account for a given year, and may be used by vote of the town for extraordinary or unforeseen purposes or voted into the Reserve Fund.

Stabilization Fund:
An outside section of Chapter 138 of the Acts of 1991 (the FY92 State budget) modifies limitations on the Stabilization Fund appropriation process by enabling communities to appropriate from this fund for any non-capital, lawful purpose without Emergency Finance Board approval (section 333). Beginning in FY92, the Stabilization Fund will thus become a source of revenue for general operating expenses for communities.

The Stabilization Fund is a mechanism for setting aside money for capital projects. It equalizes the effect of capital expenditures over time, as capital appropriations can change considerably from year to year. The balance in the fund will build up during years when expenditures for capital items are low. During years with high capital expenditures, the community will transfer money from the fund to reduce the project's impact on the tax rate or the amount of borrowing required for the project.

A community may appropriate up to 10% of its tax levy each year, as long as the balance in the Stabilization Fund does not exceed 10% of the community's equalized valuation. Interest earned on any fund balance is retained as part of the fund.

Appropriations into a Stabilization Fund can be made at either an annual or special town or district meeting. Chapter 94 of the Acts of 1985 permits appropriations to be made from a Stabilization fund at a special town or district meeting, not just at the annual meeting. Regardless of the timing, appropriations from the Stabilization Fund require a two-thirds vote by the appropriating authority. Until the FY92 state budget, a community could only appropriate from the Stabilization Fund for a none-capital purpose with the approval of the Emergency Finance Board.

Reserve Fund:
This fund is established by the voters at the Annual Town Meeting only and may be composed of (a) an appropriation (not exceeding 5% of the tax levy of the preceding year), (b) money transferred from Overlay Reserve, or (c) both. Transfers from the Reserve fund may be made only by the Advisory Committee and are for "extraordinary or unforeseen expenditures" only.

Conservation Fund:
For land purchases and any other conservation use.

Introduction to the Rules of Town Meeting

Southborough's Town Meeting is an open town meeting in which all registered voters may participate. Town Meeting is a deliberative assembly, conducted via a defined process, charged with considering a maximum number of questions of varying complexity in a minimum amount of time and with full regard to the rights of the majority, strong minority, individuals, absentees and all of these together. In other words, we gather for the purpose of conducting the Town's business thoughtfully and efficiently.

AUTHORITY

The three elements of authority at Town Meeting are a quorum of one hundred (100) registered voters or more, the Clerk and the Moderator. Of these three, the quorum is the most important.

The Town Clerk is responsible for voter registration, certification of a quorum, setting up the hall and keeping the record of the proceedings. He may also officiate Town Meeting in the absence of a Moderator.

The Moderator presides at and regulates the proceedings, decides all questions of order, and makes declarations of all votes. No one may speak on an issue without being recognized by the Moderator. It is the Moderator's responsibility to approve the distribution of materials, and persons wishing to do so must seek his permission. The Moderator appoints Tellers and alternates for the purpose of counting votes of the meeting.

THE WARRANT

All matters to be considered at Town Meeting must be published in the Town Meeting Warrant, which is the responsibility of the Board of Selectmen. The primary and most important purpose of the Warrant is to notify voters in advance the nature of the business to be taken up at Town Meeting. By state law, Town by-law or custom, several business articles (such as budget appropriations) must be presented in the Town Warrant each year for consideration. Other items are added by warrant articles proposed by Town officials, committees, boards, or groups of ten or more registered voters. The Advisory Committee reviews the Warrant, making recommendations on all the items of business to be presented. In accordance with the Town by-laws, all articles in the Warrant are considered in the order in which they appear in the Warrant, unless the Town Meeting votes to change the order for reasons that reasonable people would entertain.

PARTICIPATION

Any voter wishing to participate in Town Meeting must go to one of the floor microphones and wait to be recognized by the Moderator. Upon recognition by the Moderator, first state your name and address, and then state your business.

Anyone whose name is not on the list of registered voters requires the approval of either the Moderator or a majority of the Meeting to sit in the voting area.

All remarks shall be limited to the subject then under discussion. It is improper to indulge in references to personalities, and all expressions of approval or disapproval, such as applause or booing, are out of order. The Moderator may request any person to keep silent. If after warning from the Moderator, a person refuses to be silent or persists in other disorderly behavior, the Moderator may order a person to withdraw and if he fails to withdraw, may order a police officer to remove such person from Town Meeting.

Individuals who have a personal or financial interest with respect to a matter may speak or vote thereon but should frankly disclose their interest. However, no Town Meeting voter should accept compensation for participating without disclosing that fact.

There is no fixed time limit to the debate of any question. However, out of consideration for the others in attendance and the need to give adequate time to all matters coming before Town Meeting, each individual who speaks should make an effort to be as brief as possible and avoid repeating facts, views or opinions already expressed by others.

Anyone wishing to make a presentation with respect to any article must, prior to Town Meeting, obtain the Moderator's approval.

In order to give all a fair opportunity to speak, no one who has addressed any particular motion shall speak again, except to answer questions, until all others wishing to speak to the motion have done so.

HOW ARE MOTIONS CLASSIFIED?

Main Motions
Motions of this group are for the bringing of questions, or propositions, before Town Meeting for consideration. Only one main motion can be considered at a given time, and once introduced such a motion excludes all other main motions until it has been disposed.

Subsidiary Motions
Motions of this group have are for the modification or disposition of the main motion that is being considered. Their existence as motions depends entirely upon the principal motion to which they are subordinate. Since they relate to the question then under consideration, it is in order to propose them when a main motion is pending and to vote upon them before voting upon the main motion.

Privileged Motions
Motions of this group have no connection whatsoever with any main motion, but are motions of such importance that they are entitled to immediate consideration. These motions have the privilege of temporarily setting aside the main business then before Town Meeting.

Incidental Motions
Motions of this group have few characteristics in common, but for convenience have been grouped into one class. The name "incidental" applies because they arise only incidentally out of the business of Town Meeting.

RULES RELATIVE TO MOTIONS

A motion is the means of bringing a proposal or question for consideration by Town Meeting. When first put forward it is a motion; after it is seconded and acknowledged by the Moderator, it becomes the question or proposal. Except for complimentary resolutions (the presentation of which must be approved in advance by the Moderator), no main motion shall be entertained unless it's substance is contained within the scope of a Warrant article. Upon completion of debate, articles will be voted upon.

The Moderator shall determine whether a motion, or any discussion relative to a motion, is within the scope of the Warrant article under consideration. That is, the motion and the debate must be relevant to the article as written in the Warrant, since the purpose of the Warrant is to apprise voters of the actions to be taken at Town Meeting.

Articles only give notice to the voters and do not initiate action; motions do. Motions may be withdrawn; articles may not be withdrawn – articles must be acted upon by Town Meeting.

There are four types of amendments: striking out, inserting, striking out and inserting, and substitution. Motions to amend may be hostile as long as they are germane. An amendment to a motion is an amendment of the first rank; an amendment to an amendment is of the second rank; there can be no amendment beyond that of the second rank.

Some motions do not lead to a final determination by Town Meeting. A motion to commit or to refer sends the matter to an existing board or committee or one to be established. The motion to postpone indefinitely disposes of the question without bringing it to a direct vote. The motion to postpone indefinitely should not be confused with the motion to table which only temporarily delays a vote. As previously stated, articles may not be withdrawn; so when the Meeting does not wish to act on a particular article, the proper motion is to postpone consideration indefinitely.

Motions to reconsider shall be entertained when new information is available that is materially different than was presented (or could have been presented) at the time of the original vote on the article. Articles may be reconsidered only once. If a motion to reconsider is passed by the necessary 2/3 vote, it brings the original article back to the floor (which requires a new motion and additional debate); if the motion to reconsider is defeated, then the original article stands as previously voted and may not be reconsidered again. Actions to reconsider can be taken at the same session or any subsequent session of Town Meeting. A notice of reconsideration may be filed in advance with the Town Clerk stating that, at a specific point during the current Town Meeting, a voter will move for reconsideration on a particular article, and the Moderator will inform the hall of said action. Note that such a motion so noticed in advance must still be in order (i.e., must comply with all conditions required of any reconsideration motion).

All motions other than purely procedural motions must be in writing and signed by the sponsor.

CHART OF PRECEDENCE OF MOTIONS AND SUMMARY OF GOVERNING RULES

	May interrupt a speaker	Req. a sec.	Debatable	Vote Required	Motions that may apply
PRIVILEGED MOTIONS					
1. To dissolve	no	yes	no	majority	none
2. To adjourn	no	yes	limited	majority	amend
3. Point of no quorum	no	no	no	none	none
4. Recess	no	yes	limited	majority	amend

	Mr. Moderator, I move to reconsider the vote on the amendment to...
17. Separate Consideration	Mr. Moderator, I move for separate consideration.
18. Suspend the Rules	Mr. Moderator, I move to suspend the rules which interfere with...
19. Take from the Table	Mr. Moderator, I move to take from the table the motion relating to...

INTERRUPTING A SPEAKER

No one may interrupt a speaker except for a point of order or a question of privilege.

POINT OF ORDER

A point of order if a question of the Moderator about whether the speaker is entitled to be speaking, or whether the current subject under discussion (or what the speaker is saying) is irrelevant, illegal or contrary to proper procedure. No other "point of order" is proper.

PREVIOUS QUESTION

To call or move the question is a request to stop discussion and to take an immediate vote. This requires a 2/3 vote.

VOTING

Voting is by hand vote and the Moderator declares the result of such votes. If seven or more voters immediately question the declared result, the Moderator shall determine the result by a standing count of votes by the Tellers. After the vote counted by the Tellers is presented to the Moderator and announced to the floor, any further motions for recount are out of order.

ADJOURNMENT AND DISSOLUTION

Sessions of Town Meeting normally adjourn at eleven o'clock in the evening but may adjourn at such earlier or later time as vote of the majority may determine. Town Meeting shall not dissolve until all articles in the warrant have been properly considered.

TOWN WARRANT
COMMONWEALTH OF MASSACHUSETTS

SPECIAL TOWN MEETING

Worcester, ss. September 9, 2024

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the Inhabitants of the Town of Southborough qualified to vote in town affairs, to meet in the P. Brent Trottier Middle School, 49 Parkerville Road, in said Southborough, on

Proposed by: PERSONNEL BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *The Personnel Board is recommending that the bylaw be amended to add several new positions to the Classification Schedule including Intern, Health Agent, Health Director, and DPW Laborer, as well as broadening the language for Seasonal Positions, which was previously restricted to Recreation. The Health Agent is proposed to be a shared position with the Town of Northborough.*

ARTICLE 2: To see if the Town will vote to amend §9-51 of the Town Code, Appointment of members., as it pertains to the membership of the PILOT Committee, by eliminating §9-51 in its entirety and replacing it as follows:

§9-51 Appointment of members.
No later than 45 days after the Attorney General's approval of this article, the Select Board will appoint members of this committee, consisting of five voting members, as follows:

A. Three members representing the taxpayers of Southborough, without any financial relationship with St. Mark's, Fay School or New England Center for Children;
B. One member of the Historic Commission, selected by the Historic Commission;
C. One member of the Select Board, selected by the Select Board;
D. Specifically excluding any ex officio members.

;or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *The PILOT Committee has requested a reduction in their membership from 7 to 5 members.*

ARTICLE 3: To see if the Town will vote to delete Chapter 9, Article I of the Town Code, Solid Waste Disposal Committee; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *The Committee has been inactive for several years. The Board is reviewing the current list of boards and committees in an effort to streamline the overall number of ad-hoc committees.*

ARTICLE 4: To see if the Town will vote to delete Chapter 6, Article II of the Town Code, Consumer Advisory Commission; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *The Committee has been inactive for several years. The Board is reviewing the current list of boards and committees in an effort to streamline the overall number of ad-hoc committees.*

ARTICLE 5: To see if the Town will vote to amend Town Code § 9-25 Meeting Minutes, by deleting it in its entirety and replacing it with:

Each board, committee, or commission shall submit minutes for each meeting to the Town Clerk within 45 days of the meeting, provided however that Executive Session minutes shall be submitted to the Town clerk within 45 days from the date that they are released for public disclosure.

A. The requirements of this bylaw shall apply to every board, committee or commission meeting, whether held in person, virtually, or in a hybrid manner.
B. Minutes shall be prepared and approved as required by the Attorney General's instructions on the Open Meeting Law ("OML"), MGL c. 30A, § 22.
    1) The Town Clerk shall provide every board, commission or committee member with a list of the Attorney General's OML instructions as they relate to meeting minutes on an annual basis and whenever there is a change in the instructions.
    2) The Town Clerk shall also maintain this information on the town website.
C. Minutes submitted to the Town Clerk shall include, as reasonably possible, copies of all documents, as defined by the Attorney General's OML instructions. The last page of the minutes shall include a section labeled Documents Used at This Meeting and shall list the names of each document that was used at the meeting.
D. Minutes shall indicate whether they have or have not been approved by the board, committee or commission when submitted to the Town Clerk. Minutes that have not been approved at the time of their receipt shall be labeled "Draft."
E. The Town Clerk shall:
    1) Notify the board, committee or commission chair if minutes are overdue.
    2) Keep minutes and documents for the period of time as required by applicable state law.
    3) Maintain and publish a monthly summary of any instance when a board or committee has not complied with the provisions of this bylaw.

; or do or act anything in relation thereto.

Proposed by: TOWN CLERK
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *This Article clarifies that the existing requirements for a board, committee, or commission to maintain minutes and documents used at a meeting also applies to both in-person meetings, hybrid and fully virtual meetings. This Article also requires the town clerk to maintain and publish a monthly summary of board and committees that have not complied with the provisions of this bylaw. A recent review of board meetings revealed many instances where no documents were submitted by a board.*

ARTICLE 6: To see if the Town will vote to accept M.G.L c.200A, §9A to allow the Treasurer-Collector to collect unclaimed checks or "tailings"; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *MGL Chapter 200A S9A provides for an alternative procedure for the disposing of abandoned funds known as tailings, held in the custody of the Town. Adopting this statute allows for a more efficient and expedited process for the disposing of abandoned funds, allowing the Treasurer to take these funds as General Fund revenue after there have been several attempts to notify the check recipient, once a full year has passed since the original issuance. Not passing this MGL means the Town must follow Massachusetts Unclaimed annual reporting guidelines whereby there is a 3-year waiting period and the funds transfer to the state not the Town.*

ARTICLE 7: To see if the Town will accept General Laws Chapter 44, Section 53F¾, which establishes a special revenue fund known as the Public Education Government (PEG) Access and Cable Related Fund, to reserve cable franchise fees and other cable-related revenues for appropriation to support PEG access services and oversight and renewal of the cable franchise agreement, and to allow the accounting officer to transfer any balance to the accepted fund to begin operation for fiscal year 2026, which begins on July 1, 2025, or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *The Town is paid user fees by the cable companies as a result of their contractual agreements with the Town. Those cable fees are then used to offset expenses Related to public access media operations. Recent changes in legislation require those funds to be placed into a special revenue fund prior to disbursement by the Town. This article creates the required special revenue fund.*

ARTICLE 8: To see if the Town will vote to add a new **§174-10.3 MBTA Communities Overlay District (MCOD)** to the Town of Southborough's Zoning Bylaws, amend the zoning map, amend certain other sections to integrate the new section into the current zoning bylaw, and make any minor modifications to the text required for consistency with the existing format of the bylaws or take any other action relative thereto.

Please note that text to be added is in **bold**, other than §174-10.3, where the proposed change is the addition of the entire section; deleted language is shown with ~~strikethrough~~.

Add the following definitions to §174-2. Definitions:

B. Definitions

AFFORDABLE UNIT
A multi-family housing unit that is subject to a restriction recorded in its chain of title limiting the sale price or rent or limiting occupancy to an individual or household of a specified income, or both.

AFFORDABLE HOUSING
Housing that contains Affordable Units as defined by §174-2.

AREA MEDIAN INCOME (AMI)
The median family income for the metropolitan statistical region that includes the Town of Southborough, as defined by the U.S. Department of Housing and Urban Development (HUD).

MULTIFAMILY HOUSING (WITHIN THE MCOD)
A building with three or more residential dwelling units or two or more buildings on the same lot with more than one residential dwelling unit in each building.

Modify the following existing definitions in §174-2. Definitions:

B. Definitions

DWELLING UNIT
~~Living quarters for a single family.~~
A single unit providing complete, independent living facilities for one or more persons, including permanent provisions for living, sleeping, eating, cooking, and sanitation.

Add the following text to: §174-3. Districts enumerated:

N. MBTA Communities Overlay District, referred to as MCOD.

Add the following text to Article III. Use Regulations:

§174-8.13 MCOD MBTA Communities Overlay District

A. See §174-10.3

Add the following text to §174-10. A:

(6) All multi-family development within the MCOD (§174-10.3). The provisions of §174-11 Signs, §174-12 Parking and Loading, §174-12.1 Outdoor Illumination, §174-13 Landscaping, §174-13.3 Lower Impact Development, §174-13.4 Water Resource Protection, and §154 Stormwater and Erosion Control shall be included as a part of the MCOD site plan review process.

Add the following text to §174-12.1. Outdoor Illumination:

E. (2) LZ-1: low ambient lighting
(b) Zoning Districts: Residence A, Residence B, **and MCOD.**

F. Table 1 – under the column LZ-1, add "**MCOD**" below Residential B.

Add the following new section under Article III. Use Regulations:

§174-10.3: MBTA Communities Overlay District.

A. Purpose.

The purpose of the MBTA Communities Overlay District (MCOD) is to allow multi-family housing as of right in accordance with Section 3A of the Zoning Act (Massachusetts General Laws Chapter 40A). This zoning provides for as of right multi-family housing to accomplish the following purposes:

(1) Encourage the production of a variety of housing sizes and typologies to provide equal access to new housing throughout the community for people with a variety of needs and income levels;

(2) Support vibrant neighborhoods by encouraging an appropriate mix and intensity of uses to support an active public space that provides equal access to housing, jobs, gathering spaces, recreational opportunities, goods, and services within a half-mile of a transit station.

(3) Locate housing within walking distance of public transit to promote general public health, reduce the number of vehicular miles traveled, support economic development, and meet community-based environmental goals, including reducing greenhouse gases and improving air quality.

(4) Support public investment in public transit and pedestrian- and bike-friendly infrastructure.

B. Establishment and Applicability.

This MCOD is an overlay district having a land area of approximately 59.2 acres in size that is superimposed over the underlying zoning district(s) and is shown on the Zoning Map.

(1) **Applicability of MCOD.** An applicant may develop multi-family housing within the MCOD as of right in accordance with the provisions of this §174-10.3. The MCOD shall be exempt from the requirement of §174-8. C. (2) to obtain a special permit for 2 buildings on one lot.

(2) **Underlying Zoning.** The MCOD is an overlay district superimposed over underlying zoning districts. The regulations for use, dimensions, and all other provisions of the Town of Southborough's Zoning Bylaw governing the respective underlying zoning district(s) shall remain in full force, except for uses allowed as of right in the MCOD. Uses that are not identified in §174-10.3 are governed by the requirements of the underlying zoning district(s).

(a) The requirements of §174-13.2 Major Residential Development do not apply to the MCOD.

(b) The requirements of §174-13.3. E, Lower Impact Development for a special permit application and process shall not apply to a multifamily use within the MCOD, but the performance standards of §174-13.3. I, Lower Impact Development, Performance Standards: LID Criteria, shall be considered during site plan review.

(c) The requirements of §174-13.4.C, Water Resource Protection related to the special permit process shall not apply to a multifamily use within the MCOD, but compliance with the Massachusetts Surface Water Quality Standards (314 CMR 4.00) shall be considered during site plan review.

(3) **Subdistricts:** The MCOD contains the following subdistricts, all of which are shown on the Zoning Map:

(a) MCOD Subdistricts #1a and 1b (Residence B Dimensional Standards)

(b) MCOD Subdistrict #2 (Industrial Park Dimensional Standards)

(c) MCOD Subdistrict #3 (Industrial Park Dimensional Standards)

For subdistrict dimensional standards, see §174-10.3. E. (1) Table of Dimensional Standards. For Sign regulations, see §174-11, and for provisions of Outdoor Illumination, see §174-12.1.

C. Definitions.

Terms used in this section but not otherwise defined herein or under §174-2 of the Zoning Bylaw shall be as defined in the Zoning Act.

D. Permitted Uses.

(1) **Permitted Uses are as follows:** The following uses are permitted as of right within the MCOD.

(a) Multi-family housing

(2) **Accessory Uses.** The following uses are considered accessory as of right to any of the permitted uses in Section D.1. above.

(a) Parking, including surface parking and parking within a structure such as an above ground or underground parking garage or other building on the same lot as the principal use.

(3) **Prohibited uses.** All uses which are not listed above, legally nonconforming, or otherwise allowable by the provisions of the underlying zoning regulations, are prohibited.

E. Dimensional standards are as follows:

(1) **Table of Dimensional Standards.** The dimensional requirements applicable in the MCOD are as follows:

Dimensional Standards	*MCOD Subdistricts #1a & 1b* (Residence B Dimensional Standards)	*MCOD Subdistrict #2* (Industrial Park Dimensional Standards)	*MCOD Subdistrict #3* (Industrial Park Dimensional Standards)
(a) Minimum lot area (sq ft)	**25,000**	**43,560**	**43,560**
(b) Minimum frontage (ft)	**125**	**200**	**200**
(c) Minimum setbacks (ft)			
(i) Front	**30**	**75***	**50**
(ii) Rear	**35**	**50**	**50**
(iii) Side	**15**	**50**	**50**
(d) Maximum height	**2.5 stories or 35 feet**	**3 stories or 45 feet**	**3 stories or 45 feet**
(e) Maximum floor area ratio (%)	**0.3**	**0.6**	**0.6**
(f) Maximum dwelling units per acre	**15.0**	**16.0**	**15.0**

***A 75-foot setback is required for buildings on Route 9.**

(2) **Multi-Building Lots.** In the MCOD, lots may have more than one principal building. A minimum distance of ten (10) feet is required between principal buildings.

(3) **Exceptions:** (refer to §174-15).

(4) **Exceptions: Renewable Energy Installations.** The Planning Board may waive the height and setbacks in §174-10.3. E. (1) Dimensional Standards to accommodate the installation of solar photovoltaic, solar thermal, living, and other eco-roofs, energy storage, and air-source heat pump equipment. Such installations shall not create a significant detriment to abutters in terms of noise or shadow and must be appropriately integrated into the architecture of the building, as applicable, and the layout of the site. The installations shall not provide additional habitable space within the development.

F. Off-Street Parking.

These parking requirements are applicable to development in the MCOD.

(1) **Number of parking spaces.** The following **minimum** numbers of off-street parking spaces shall be permitted by use, either in surface parking or within garages or other structures:

Use	Minimum Spaces
Multi-family	**1.5 per unit**

(2) **Number of bicycle parking spaces.** The following **minimum** numbers of covered bicycle storage spaces shall be provided by use:

Use	Minimum Spaces
Multi-family	**1 per unit**

(3) **Bicycle storage.** For a multi-family development of 15 units or more, covered parking bicycle parking spaces of no less than 25% of the total required spaces shall be integrated into the structure of the building(s).

G. General Development Standards.

(1) Development standards are applicable to all multi-family development within the MCOD. These standards are components of the Site Plan Review process in §174-10.3.I. Site Plan Review.

(2) **Site Design.**

(a) **Connections.** Sidewalks shall provide a direct connection among building entrances, the public sidewalk (if applicable), bicycle storage, and parking.

(b) **Vehicular access.** Where feasible, curb cuts shall be minimized, and shared driveways encouraged.

(c) **Mechanicals.** Mechanical equipment at ground level shall be screened by a combination of fencing and plantings. Rooftop mechanical equipment shall be screened if visible from a public right-of-way.

(d) **Dumpsters.** Dumpsters shall be screened by a combination of fencing and plantings. Where possible, dumpsters or other trash and recycling collection points shall be located within the building.

(e) **Stormwater management.** Stormwater Management shall comply with the most current versions of the Massachusetts Department of Environmental Protection Stormwater Management Standards, the Massachusetts Stormwater Handbook, Massachusetts Erosion Sediment and Control Guidelines, and, the provisions under Town Code §154, Stormwater and Erosion Control. Provisions under Stormwater and Erosion Control shall be included as part of the Site Plan Review process but shall not supersede the requirements of §154.

(f) The following provisions shall be considered during site plan review:
(1) Screening for Parking (refer to Landscaping §174-13).
(2) Parking and Loading (refer to Parking and Loading §174-12, provided the required number of spaces shall be reduced as provided in F, above).
(3) Landscape and Plantings (refer to Landscaping §174-13).
(4) Lighting (refer to §174-12.1 Outdoor illumination).
(5) Signs (refer to §174-11).
(6) Lower Impact Development (refer to §174-13.3, provided section E shall not apply).
(7) Water Resource Protections (refer to §174-13.4, provided section C shall not apply).
(8) Stormwater and Erosion Control (refer to §154).

(3) **Buildings: General.**

(a) **Position relative to the principal street.** The primary building shall have its principal façade and entrance facing the principal street. See also §174-10.3. G.6. Buildings: Corner Lots.

(b) **Entries.** Where feasible, entries shall be clearly defined and linked to a paved pedestrian network that includes the public sidewalk.

(c) **Exterior Design.** The building(s) shall have an exterior design that is consistent with the styles of the surrounding residential neighborhood and the Town of Southborough in general.

(4) **Buildings: Multiple buildings on a lot.**

(a) Parking and circulation on the site shall be organized so as to reduce the amount of impervious surface. Where possible, parking and loading areas shall be connected to minimize curb cuts onto public rights-of-way.

(b) A paved pedestrian network shall connect parking to the entries of all buildings and the buildings to each other.

(c) The orientation of multiple buildings on a lot should reinforce the relationships among the buildings. All building façade(s) shall be treated with the same care and attention in terms of entries, fenestration, and materials.

(d) The building(s) adjacent to the public street shall have a pedestrian entry facing the public street.

(5) **Buildings: Shared Outdoor Space.** Multi-family housing shall have common outdoor space that all residents can access. Such space may be located in any combination of ground floor, courtyard or terrace.

(6) **Buildings: Corner Lots.** A building on a corner lot shall indicate a primary entrance either along one of the street-facing façades or on the primary corner as an entrance serving both streets.

(a) Such entries shall be connected by a paved surface to the public sidewalk, if applicable.

(b) All façades visible from a public right-of-way shall be treated with similar care and attention in terms of entries, fenestration, and materials.

(c) Fire exits serving more than one story shall not be located on either of the street-facing façades.

(7) **Buildings: Infill Lots.** If the adjacent buildings are set back at a distance that exceeds the minimum front yard requirements, infill buildings shall meet the requirements of §174-10.3.E.(1) Dimensional Standards. Otherwise, infill buildings may match the setback line of either adjacent building, or an average of the setback of the two buildings to provide consistency along the street.

(8) **Buildings: Principal Façade and Parking.** Parking shall be subordinate in design and location to the principal building façade.

(a) **Surface parking.** Surface parking shall be located to the rear or side of the principal building. Parking shall not be located in the setback between the building and any lot line adjacent to the public right-of-way.

(b) **Integrated garages.** The principal pedestrian entry into the building shall be more prominent in design and placement than the vehicular entry into the garage.

(c) **Parking structures.** Building(s) dedicated to structured parking on the same lot as one or more multi-family buildings shall be subordinate in design and placement to the multi-family building(s) on the lot.

(9) **Waivers.** Upon the request of the Applicant and subject to compliance with the Executive Office of Housing and Livable Communities' (EOHLC's) Compliance Guidelines, the Planning Board may waive the requirements of this §174-10.3.G. General Development Standards, in the interests of design flexibility and overall project quality, and upon a finding of consistency of such variation with the overall purpose and objectives of the MCOD.

H. Affordability Requirements.

(1) **Purpose.**

(a) Promote the public health, safety, and welfare by encouraging a diversity of housing opportunities for people of different income levels;

(b) Provide for a full range of housing choices for households of all incomes, ages, and sizes;

(c) Increase the production of affordable housing units to meet existing and anticipated housing needs; and

(d) Work to overcome economic segregation, allowing the Town of Southborough to be a community of opportunity in which low and moderate-income households have the opportunity to advance economically.

(2) **Applicability.** This requirement is applicable to all residential developments with five (5) or more dwelling units, whether new construction, substantial rehabilitation, expansion, reconstruction, or residential conversion (Applicable Projects). No project may be divided or phased to avoid the requirements of this section.

(3) **Subsidized Housing Inventory**. All units affordable to households earning 80% or less of AMI created in the MCOD under this section must be eligible for listing on EOHLC's Subsidized Housing Inventory (SHI).

(4) **Provision of Affordable Housing.** In Applicable Projects, not fewer than ten percent (10%) of housing units constructed shall be Affordable Housing Units. For the purpose of calculating the number of units of Affordable Housing required within a development project, a fractional unit shall be rounded up to the next whole number. The Affordable Units shall be available to households earning income up to eighty percent (80%) of the AMI.

(5) **Alternative Methods.**

(a) As an alternative to the requirements of paragraph (3) of this section, and in certain exceptional circumstances, the Planning Board may, at the formal written request of the developer, consider an alternative method of compliance, as provided for in §174-13.2.E.(5).

(6) **Affordability Development Standards.** Affordable Units shall be:

(a) Integrated with the rest of the development and shall be compatible in design, appearance, construction, and quality of exterior and interior materials with the other units and/or lots;

(b) Dispersed throughout the development;

(c) Located such that the units have equal access to shared amenities, including light and air, and utilities (including any bicycle storage and/or Electric Vehicle charging stations) within the development;

(d) Located such that the units have equal avoidance of any potential nuisances as market-rate units within the development;

(e) Distributed proportionately among unit sizes; and

(f) Distributed proportionately across each phase of a phased development.

(g) Occupancy permits may be issued for market-rate units prior to the end of construction of the entire development provided that occupancy permits for Affordable Units are issued simultaneously on a pro rata basis.

(7) **Administration.**

(a) The Zoning Enforcement Officer shall be responsible for administering and enforcing the requirements in this section.

I. Site Plan Review.

(1) **Applicability.** The requirements of §174.10 Site Plan Approval are applicable to any multi-family development within the MCOD, unless modified herein. An application for Site Plan Review shall be reviewed by the Planning Board for consistency with the purpose and intent of this §174-10.3.

(2) **Site Plan Approval.** Site Plan approval for uses listed in §174-10.3(D) Permitted Uses shall be granted upon determination by the Planning Board that the following requirements have been satisfied. The Planning Board may impose reasonable conditions, at the expense of the applicant, to ensure that these requirements are satisfied.

(a) the Applicant has submitted the required fees and information as set forth in *the Town of Southborough's requirements for a Building Permit and Site Plan Review; and*

(b) the project as described in the application meets the development standards set forth in §174-10.3.G General Development Standards and the requirements of §174-10.3.D.(1) and §174-10 or has received waiver(s) from the requirements therein.

(3) **Project Phasing.** An Applicant may propose, in a Site Plan Review submission, that a project be developed in phases subject to the approval of the Planning Board, provided that the submission shows the full buildout of the project and all associated impacts as of the completion of the final phase. However, no project may be phased solely to avoid the provisions of §174-10.3.H Affordability Requirements.

J. Severability.

If any provision of this §174-10.3 is found to be invalid by a court of competent jurisdiction, the remainder of §174-10.3 shall not be affected but shall remain in full force. The invalidity of any provision of this §174-10.3 shall not affect the validity of the remainder of the Town of Southborough's Zoning Bylaw.

Proposed by: PLANNING BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *The intent of this article is to comply with Chapter 40A §3A, MBTA Multi-family zoning. The MBTA Communities shall have a zoning ordinance or by-law that provides for at least 1 district of reasonable size in which multi-family housing is permitted as of right; provided, however, that such multi-family housing shall be without age restrictions and shall be suitable for families with children. This article includes the addition of a new overlay district, the MBTA Communities Overlay District (MCOD), changes to the zoning map to show the new overlay, and edits to the other sections of the zoning bylaw required to implement the MCOD overlay district. The proposed MCOD is comprised of 4 areas (as depicted on maps prepared by Bohler Engineering July 2024.*

ARTICLE 9: To see if the Town will vote to recommend that the Select Board should exercise its authority to enter into an Intermunicipal Agreement ("IMA") with the Metrowest Regional Emergency Communications Center (the "RECC") for the provision of public safety communications services (including 911 response and emergency public safety dispatch services)—in place of the services currently being provided locally by Town employees in the Public Safety Building dispatch center. This recommendation includes expectations that the IMA will provide reasonable local influence and control over the RECC services and that the Select Board's plan for this process addresses local concerns regarding financial exposure to RECC financial assessments and staffing presence at the Public Safety Building; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *Southborough residents have raised a number of questions and concerns about Southborough's joining a RECC. The Select Board agreed that before we commit to joining a RECC we would conduct additional evaluation of RECC participation and hold an advisory vote at a Town Meeting—which is the subject of this article. For the additional RECC evaluation work, we created an in-house team of our 2 Chiefs, our Town Administrator and 2 Select Board members. This team has: visited 3 operating RECC's and 2 other RECC's in the process of being formed; surveyed police chiefs and Greater Boston RECC's; interviewed several Fire Chiefs in other communities; evaluated a "Virtual RECC" concept; engaged in discussions with the State 911 managers; held discussions with several neighboring communities; and conducted several public meetings to collect public input on this topic. The evaluation team recently reported to the Select Board and made the recommendation that we join the MetroWest RECC (currently including Westborough and Grafton)—subject to successful agreement on an IMA for this purpose.*

ARTICLE 10: To see if the Town of Southborough will vote to amend Chapter 9 of the code of the Town of Southborough, entitled Committees, by amending Article IV, Section 9-16 Establishment (A); terms of the Community Preservation Committee by inserting the following changes, as noted in **BOLD** and striking those in ~~*ITALICS*~~ with a strikethrough. Sections B-D are unchanged.

Section 9-16 Establishment, terms.
(A) There is hereby established a Community Preservation Committee consisting of nine voting members pursuant to the Massachusetts General Laws, Chapter 44B. ~~*The Committee shall be appointed by the Select Board and shall consist of the following members:*~~ **The composition of the Committee, the appointment authority and the term of office for the Committee Members shall be as follows:**

(1) One member of the Historical Commission as designated by **a majority vote of** the Commission for an initial term of three years and thereafter for a term of three years.
(2) One member of the Housing Authority as designated by **a majority vote of** the Authority for an initial term of one-year and thereafter for a term of three years.
(3) One member of the Conservation Commission as designated by **a majority vote of** the Commission for an initial term of two years and thereafter for a term of three years.

(4) One member of the Planning Board as designated by **a majority vote of** the Board for an initial term of two years and thereafter for a term of three years.
(5) One member of the Recreation Commission as designated by **a majority vote of** the Commission for an initial term of one-year and thereafter for a term of three years.
(6) One member of the Open Space Preservation Commission as designated by **a majority vote of** the Commission for an initial term of three years and thereafter for a term of three years.
(7) One member of the Southborough Housing Opportunity Partnership Committee (SHOPC) as designated **by a majority vote of** by the ~~Commission~~ Committee for a term of three years.
(8) Two members at large to be appointed by **a majority vote of** the Select Board, for an initial term of one-year and thereafter for a term of three years.

; or do or act anything in relation thereto.

Proposed by: COMMUNITY PRESERVATION COMMITTEE
Select Board Recommendation: Not Support
Advisory Committee Recommendation: At Town Meeting
Summary: *This is a citizen petition.*

ARTICLE 11: To see if the Town will vote to ratify action taken under Article IV at the Special Town Meeting on April 11, 2005, which voted to adopt a general bylaw to establish an Affordable Housing Trust, which such bylaw may not have been processed for review and approval by the Attorney General, and to make amendments to such bylaw, the entire language of which is as depicted below, and that upon the effective date of this article, the terms of the existing Board of Trustees shall be terminated, and the Select Board shall appoint a new Board of Trustees, who shall amend any existing trust documents accordingly:

Article V Southborough Affordable Housing Trust Fund
§ 6-13 Establishment
There shall be a board of trustees of the Southborough Affordable Housing Trust Fund established by the Vote under Article 4 of the Warrant for the 2005 Special Town Meeting and as ratified under Article 11 of the Warrant for the 2024 Special Town Meeting, in this section called the Board, which shall consist of five (5) members appointed by the Select Board for terms of 2 years. One member shall be a member of the Select Board as required by law. The other four (4) members shall be at-large members being residents of the Town of Southborough. It is desired but not required that at least 2 members of the Board of Trustees shall have experience in one of the following: Affordable Housing, Real Estate Development, Construction, Social Services or Finance.

§ 6-14 Purpose
The powers of the Board, all of which shall be carried on in furtherance of the purposes set forth in General Laws Chapter 44, § 55C, shall include, but are not limited to, the following:

(1) to accept and receive property, whether real or personal, by gift, grant, devise, or transfer from any person, firm, corporation or other public or private entity, including without limitation grants of funds or other property tendered to the trust in com1ection with provisions of any zoning ordinance or by-law or any other ordinance or by-law;

(2) to purchase and retain real or personal property, including without restriction investments that yield a high rate of income or no income;

(3) to sell, lease, exchange, transfer or convey any personal, mixed, or real property at public auction or by private contract for such consideration and on such terms as to credit or otherwise, and to make such contracts and enter into such undertaking relative to trust property as the board deems advisable notwithstanding the length of any such lease or contract;

(4) to execute, acknowledge and deliver deeds, assignments, transfers, pledges, leases, covenants, contracts, promissory notes, releases and other instruments sealed or unsealed, necessary, proper or incident to any transaction in which the board engages for the accomplishment of the purposes of the trust;

(5) to employ advisors and agents, such as accountants, appraisers and lawyers as the board deems necessary;

(6) to pay reasonable compensation and expenses to all advisors and agents and to apportion such compensation between income and principal as the board deems advisable;

(7) to apportion receipts and charges between incomes and principal as the board deems advisable, to amortize premiums and establish sinking funds for such purpose, and to create reserves for depreciation depletion or otherwise;

(8) to participate in any reorganization, recapitalization, merger or similar transactions; and to give proxies or powers of attorney with or without power of substitution to vote any securities or certificates of interest; and to consent to any contract, lease, mortgage, purchase or sale of property, by or between any corporation and any other corporation or person;

(9) to deposit any security with any protective reorganization committee, and to delegate to such committee such powers and authority with relation thereto as the board may deem proper and to pay, out of trust property, such portion of expenses and compensation of such committee as the board may deem necessary and appropriate;

(10) to carry property for accounting purposes other than acquisition date values;

(11) to borrow money on such terms and conditions and from such sources as the board deems advisable, to mortgage and pledge trust assets as collateral;

(12) to make distributions or divisions of principal in kind;

(13) to comprise, attribute, defend, enforce, release, settle or otherwise adjust claims in favor or against the trust, including claims for taxes, and to accept any property, either in total or partial satisfaction of any indebtedness or other obligation, and subject to the provisions of this act, to continue to hold the same for such period of time as the board may deem appropriate;

(14) to manage or improve real property; and to abandon any property which the board determined not to be worth retaining;

(15) to hold all or part of the trust property uninvested for such purposes and for such time as the board may deem appropriate; and

(16) to extend the time for payment of any obligation to the trust.

, or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *This article ratifies approval of a bylaw that was adopted by the Town Meeting in 2005. The Town has been acting in accordance with that bylaw since its approval. However, there is no record that the bylaw was either submitted to, or approved by, the Attorney General. The bylaw proposed is the same language that was approved in 2005 and comports with State law and amends the composition of the board.*

ARTICLE 12: To see if the Town will vote to repeal Sections 6-11 and 6-12 of the Town Code, establishing the Southborough Housing Opportunity Partnership Committee; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *The elimination of SHOPC is part of the reorganization of the Town's affordable housing committees, consolidating both SHOPC and the Affordable Housing Trust Fund Committee (AHTFC) into one committee. The Board of Trustees of the Affordable Housing Trust Fund Committee, acting in accordance with a previously approved bylaw, as ratified in the preceding article performs the necessary functions that SHOPPC would otherwise perform and has additional authority under State law to facilitate the development of affordable housing.*

ARTICLE 13: To see if the Town will vote to transfer the sum of $17,068 from Assessor's Overlay Surplus for funding miscellaneous adjustments to the Fiscal Year 2025 budget as follows:

Department	Line Item	Amount
Treasurer-Collector - Personnel Services	145-51100	$1,004
Select Board - Personnel Services	122-51100	$1,004
Assessor's - Personnel Services	141-51100	$2,987
Fire - Personnel Services	210-51100	$1,847
Youth Commission - Personnel Services	542-51100	$2,276
Recreation - Personnel Services	630-51100	$ 250
Youth Commission - Other Charges & Expenses	542-57100	$ 750
Treasurer-Collector - Other Charges & Expenses	145-57800	$ 750
Assessors - Other Charges & Expenses	141-52540	$6,200

; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *This article funds salaries for various employees which were not finalized until after Annual Town Meeting was concluded. There were also minor adjustments to expense lines for Treasurer-Collector and Youth & Family Services based on liability renewals and/or requirements of a new position. The Assessor's database was due to be migrated to the cloud in FY26. However access to the server has created multiple problems that are adversely affecting the Department's operations, so the timetable has been moved up.*

ARTICLE 14: To see if the Town will vote to transfer from Assessor's Overlay Surplus the sum of $27,929 to increase the weekly hours to forty (40) hours weekly and any related benefits for the Economic Development Coordinator position effective January 1, 2025; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: Support
Summary: *Building Southborough's commercial tax base is a key factor in easing pressure on residential property tax rates. This can be done by attracting and retaining businesses in Southborough, which is a primary function of our Economic Development Coordinator. We have historically been underfunded in this area, with one part-time Economic Development Coordinator—and we have lost a number of important businesses to other towns who have much more robust economic development departments. These additional hours for our Economic Development Coordinator will make us more competitive in this area, and should produce additional commercial tax revenue.*

ARTICLE 15: To see if the Town will vote to appropriate $2,127,960, or any other amount, to be expended with the approval of the Select Board, to pay additional costs of remediating pollution at the Breakneck Hill dumpsite, as required by an administrative consent order between the Town and the Department of Environmental Protection, including the payment of all costs incidental and related thereto; to determine whether this amount shall be raised by taxation, transfer from available funds, borrowing or otherwise provided, or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *Due to recently discovered site conditions, and to remain in compliance with the Administrative Consent Order from DEP, the total cost of the project has increased from what was originally voted to be borrowed under Article 9 of the March 2023 town meeting.*

ARTICLE 16: To see if the Town will vote to raise and appropriate or transfer from available funds the sum of $76,733 to add a second Lieutenant position to the Southborough Police Department, said funds to cover the cost of salary and benefits for the position beginning January 1, 2025. The implementation of this position is based on the recommendations of the Public Safety staffing study conducted by Municipal Resources, Inc. dated August 2024; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *During the Fiscal Year 2025 budget preparation, the Police Chief had requested the addition of a second Lieutenant position for the Department. In lieu of adding the requested position for FY25, the Select Board agreed to first conduct a Public Safety staffing study that would include Police, Fire, and Communications (Dispatch). That study was concluded in July 2024, and included in its recommendation the addition of a second Police Lieutenant to assist with administrative and operational responsibilities in the Department. The Select Board unanimously agreed to add the position effective January 1, 2025, pending Town Meeting approval for the required funding of salary and benefits.*

ARTICLE 17: To see if the Town will vote to amend §41-1 of the Town Code, Date and time of Annual Town Meeting, by deleting it in its entirety and replacing it as follows:

"The Annual Town Meeting for the consideration of all business, other than the election of Town Officers or other matters to be determined by ballot, shall be held no later than the last Saturday in April at a date and time to be determined by the Select Board."

; or do or act anything in relation thereto.

Proposed by: SELECT BOARD
Select Board Recommendation: Support
Advisory Committee Recommendation: At Town Meeting
Summary: *State law provides considerable flexibility for the timing of Annual Town Meetings. The "best" timing for a particular year depends on a variety of factors, including the annual departmental budgeting process, the town finance team budgeting process, the budgeting process for the schools, the Assessor's calculation of variables related to tax rates, timing of data available from the State Department of Revenue, school schedules, holidays, etc. These factors can vary from year to year, so setting one permanent date for every Annual Town Meeting can create timing problems for one or more of the above factors. This article allows the Select Board the flexibility to determine the date each year that best addresses all of the above factors considered together.*

ARTICLE 18: It is hereby resolved that the citizens of Southborough require the Select Board to establish a legal and valid recall bylaw modeled upon what is legal and valid in Hopkinton, substituting language for Southborough in place of Hopkinton, and without substantially changing the intent or standards of any conditions or terms, which are acceptable to the Commonwealth of Massachusetts. The Select Board shall complete and post a draft of the bylaw for public view within 21 days of a successful vote in support of this petition, and furthermore submit a completed recall bylaw for any and all state legal scrutiny, process, and approval within 45 days from the time of the vote of this article. The Select Board is required to offer an update upon the status of the bylaw at every Select Board Meeting after 60 days from the passage of this petition, until the bylaw is legally established and included in publicly available town election materials.

SELECT BOARD OF THE TOWN OF SOUTHBOROUGH

RECEIVED
By Town Clerk/ksb at 11:29 am, Oct 24, 2024

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, October 8, 2024 6:30 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Town Administrator Mark Purple. Absent: Assistant Town Administrator Vanessa Hale

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:30 PM.

II. Public Comment

Ms. Lisa Braccio, 13 Oregon Road, expressed her thanks to the residents of Southborough for their response to the recent drive for supplies for the victims of Hurricane Helene. She thanked Mr. Purple for providing use of the Senior Center to collect donations and Ted's of Fayville for providing a truck to transport the items. She also thanked the DPW, specifically, Superintendent Cundiff, Chris Leroy and Tammi Rice, for their support.

Ms. Debbie DeMuria, 58 Flagg Road, corrected her previous comment before the Conservation Commission regarding the Chestnut Hill CSA and the percentage of produced goods required for qualification as a working farm. She shared that Chapter 40A, Section 3, states that for commercial agriculture, 25% of products for sale must be grown at the farm. She stated that she believes the Trustees are required to follow the law and the law should be applied fairly throughout Town. She also noted that utilizing the farm for event space, etc. would be considered a change of use.

Mr. Jim Hegarty, Town Clerk, stated that vote by mail ballots had been received, that his office prepared 2,525 ballots and that they would be mailed out this week. He asked that anyone with questions, reach out to the Town Clerk's Office for information at 508-485-0710, ex. 3005.

Mr. Dennington acknowledged the passing of Mr. Ray Minnucci, a veteran who participated in the Annual Veteran's Day commemoration, and offered condolences to his family on behalf of the Board.

III. Reports

a. Chair's Report

i. Volunteer Recognition Breakfast

Ms. Cook reported that the Volunteer Breakfast was held yesterday at the Senior Center and approximately 30 volunteers attended the event. She thanked Assistant Town Administrator Vanessa Hale for coordinating the event.

b. Members' Reports

i. Chestnut Hill CSA

Mr. Hamilton reported that he attended a Conservation Commission meeting where the Trustees outlined their five-year management plan for the property. He stated that it is his belief that the Trustees do not have a plan to reinstate farming at Chestnut Hill farm.

ii. Update on 21 Highland Future Use Committee

Mr. Dennington reported that the first meeting of the 21 Highland Future Use Committee occurred on October 2, 2024. The Committee agreed to reach out to John Parent, Director of Facilities, to gather general information on the state of the building before moving forward. Mr. Dennington

noted that the charge for the Committee expires on December 31, 2024 and he suggested that this matter be reviewed in the November/early December timeframe. He also suggested the Committee prepare a report prior to Annual Town Meeting 2025.

c. Town Administrator's Report

i. CSX repair work on Central Street

Mr. Purple reported that the railroad crossing would be repaired and the road would be closed on October 15th and reopened on October 16th. He stated that the detour information is posted on the Town's website and information would be posted on X (formerly Twitter), as well.

Mr. Purple encouraged residents to participate in the ALS One Fundraiser, which will be held this weekend at the Southborough Golf Course. He stated a portion of every round of golf would be donated to ALS One, in memory of Brian Schifrin and John Wilson. Mr. Purple acknowledged BrianShea for his efforts to coordinate the event.

iii. Extension of MADEP Administrative Consent Order (ACO) for Breakneck Hill Dump

Mr. Purple reported that the Massachusetts Department of Environmental Protection (MADEP) issued an extension of the ACO until March of 2025. He reported that, according to Conservation Commissioner Danza, work has resumed on the clean up.

IV. Consent Agenda

a. Approve Open Session Meeting Minutes: September 4, 2024; September 17, 2024; September 30, 2024

Mr. Stivers requested to hold Consent Agenda item "a." **September 4, 2024:** Mr. Stivers had scrivener's changes to the minutes. Ms. Landry had scrivener's changes to the minutes. **September 17, 2024:** Mr. Stivers had scrivener's changes to the minutes. Mr. Dennington requested the following change: Line 121-122: end the sentence after "building." **September 30, 2024:** Mr. Stivers requested the following change: Line 17: insert "comment on" and delete "present." Ms. Cook moved to approve the September 4, 2024 minutes, as amended, the September 17, 2024 minutes, as amended and September 30, 2024 minutes, as amended. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Appoint James Harding to the Tricentennial Committee (Veteran's Designation), term to expire on June 30, 2025

c. Approve restitution for removal of public shade tree at 37 Clifford Street

Ms. Cook stated that this matter would be moved to October 22, 2024. She reported that Mr. Chris LeRoy, Tree Warden designee, met with the homeowner and informed them the fine for removal would be the planting of two replacement trees. She stated the Planning Board would attend the October 22, 2024 meeting to discuss the matter.

d. Appoint Robert Walker as a Part-time Communications Officer

e. Approve 2024 State Election Warrant

Ms. Cook moved to approve Consent Agenda items "b", "d", and "e." Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

V. Other Matters *(Board may vote)*

a. Review of September 30, 2024 Special Town Meeting

All Board members agreed that the Noisy Room was a success and that the Board should provide some form of it at future meetings. They also agreed that clickers should be used at future meetings. Ms. Cook recommended that the Board avoid multi-night Special Town meetings in the future. She stated that the residents approved the Economic Development Committee (EDC) Coordinator and Police Lieutenant positions and approved of the Town joining the MetroWest Regional Emergency Communications Center (RECC). Mr. Hegarty stated that he would need to address the number of

clickers needed at future Town Meetings. He stated he takes full responsibility for the clicker malfunction that occurred at Special Town Meeting.

b. Set dates for Neary School Special Town Meeting & 2025 Annual Town Meeting

The Board discussed dates and times to hold the Neary School Special Town Meeting and 2025 Annual Town Meeting. Mr. Hamilton expressed his concern that the Neary School Building Committee has never made a presentation to the Board and Ms. Cook stated that such a presentation would occur prior to a Town vote on the matter. Mr. Stivers moved to hold the Neary School Special Town Meeting on Saturday, May 10th at 9:00 AM at Algonquin Regional High School. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0). Mr. Stivers moved to hold the 2025 Annual Town Meeting on Monday, April 7th, at 7:00 PM at Trottier Middle School and continuing to Tuesday, April 8th, if necessary. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0). Mr. Hegarty suggested the Board consider starting Annual Town Meeting at 6:30 PM. Mr. Stivers amended his previous motion regarding the start time for Annual Town Meeting to begin at 6:30 PM. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0). Mr. Stivers reiterated the importance of having a Noisy Room for Annual Town Meetings and Special Town Meetings.

c. Discussion of letter of support for proposed 40B project at 352 Turnpike Road

Ms. Cook stated that on Friday she toured the proposed 40B site at 352 Turnpike Road. Mr. Stivers drafted a letter of support to MassHousing for the proposed project for the Board's consideration. Ms. Cook stated that comment letters related to the project are due on October 24th. The Board reviewed the letter. Ms. Cook suggested that the words "including senior citizens" be added to the end of bullet point 2, #4, and the Board agreed. Mr. Purple agreed to confirm the developer entity name and number of units for the letter. Ms. Cook moved to approve the letter to Katherine Miller regarding 352 Turnpike Road 40B, written by Mr. Stivers and amended with Ms. Cook's language described above, and to authorize Ms. Cook to sign on behalf of the Board. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0).

d. Discussion of ARPA funding

i. Review of project allocation

Ms. Cook stated that the Board is reviewing its ARPA funding for the Trails Committee to ensure all allocated funds are either contracted/spent by December 31, 2024 or returned for reallocation to other projects. Ms. Kathryn McKee, Chair of the Southborough Trails Committee, 18 Walnut Drive, and Town Accountant Carla McAuliffe appeared before the Board on the matter. Ms. McKee outlined a history of monies spent thus far and proposals for expenditure of the remainder of the originally allocated $144,000 in ARPA funds. Ms. McKee stated that she expects the Notice of Intent (NOI) to be filed with the MADEP after October 16th, at which time engineering services for the Peninsula Project, Phase 2 (boardwalk and bridge) will commence. With regard to the Massachusetts Trails Grant match, she stated $6,600 of ARPA funds would be used for engineering services for ADA parking spaces and approximately $21,000 of ARPA funds would be used to pave the ADA parking spaces, noting both engineering and paving must be completed by December 31, 2024, in order to receive the grant match. The Board requested that Ms. McKee provide a more accurate quote for paving services and she agreed to provide that information at the Board's October 22nd meeting. Ms. McKee stated that $7,055.79 of ARPA funds would be committed for trail enhancements (signage, bench, etc.) for other trails in Town by the October 22nd Board meeting. With regard to the Peninsula Trail crosswalk, she stated that she does not yet have a Memorandum of Understanding (MOU) with Sanofi to allow use of their parking for users of the Peninsula Trail. The Board requested that Ms. McKee provide an update on the matter at the Board's October 22nd meeting so a determination can be made whether to commit the ARPA funds or return them for reallocation to other projects. Mr. Stivers asked Ms. McKee what portion of the $144,000 previously allocated ARPA funds is currently uncommitted. Ms. McKee stated that approximately $40,000 has not been committed.

ii. Reallocation of available funds

Ms. Cook stated that Facilities Director John Parent and DPW Superintendent Bill Cundiff have identified a hazardous area outside the Town House and would like to use excess ARPA funds to repair the area. She stated the cost to repair the area is approximately $110,000, which includes engineering and construction. Ms. McAuliffe informed the Board that there is an old article on the books in the amount of $47,000 to repair the hazardous area in question. DPW Superintendent Cundiff joined the discussion via ZOOM. He stated that Mr. Parent and he are recommending using the $47,000 to repair the puddling but would need additional ARPA funds to complete the project. Superintendent Cundiff also stated that VHB has prepared bid documents that will be sent out tomorrow and he expects bids to be received within one month. He stated that VHB's estimate for construction is $90,000, with the total project cost estimated to be $110,000. Superintendent Cundiff stated he expects to be under contract with a company by December 31, 2024. Mr. Stivers asked if the repair would occur on the left ramp or right ramp of the Town House. Superintendent Cundiff stated that the repair would occur on both sides of the Town House ramp and that the ramps would be ADA compliant. Ms. Cook moved to reallocate the excess money in the Senior Center category, $65,193.13, to a new category to repair the problems in the Town House parking lot, that the Board believes will cost $110,000. Mr. Hamilton seconded the motion. The motion was unanimously approved (5-0-0). Mr. Stivers stated that there are no Automated External Defibrillators (AEDs) in the pit area of the Transfer Station or the Swap Shop and he would like to use ARPA funds to install one in each area. Fire Chief Puntini joined the discussion for this matter. Chief Puntini discussed different types of AEDs. Ms. Landry suggested adding an AED at the library, if there isn't one already. The Board agreed to have Chief Puntini research AED options and the Board will allocate funds at its October 22nd meeting.

Ms. Cook stated that there would be excess ARPA funds to reallocate to DPW projects, but the Board would discuss the matter at its October 22nd meeting.

Mr. Dennington stated that at the 21 Highland Street Future Use Committee meeting, the group discussed conducting a feasibility study to ascertain the current condition of the building and potential uses. Mr. Dennington suggested and the group agreed to meet with Facilities Director Parent to learn as much information as possible prior to engaging any services for a study. The Board discussed whether this is the time to fund such a study and discussed other potential funding sources. Ms. Debbie DeMuria, 58 Flagg Road, stated that she spoke to Mr. Parent and learned it would cost $18,000 to hire an historic architect to conduct a conditions assessment report, including an architectural assessment with lift survey, structural assessment, regulatory analysis and proposed budget. Ms. DeMuria stated that she believes the building should be preserved because it is listed on both the National and State Registers of Historic Places. She stated she is requesting the Board consider using ARPA monies to fund the conditions assessment report. Mr. Dennington stated he would send an email to the 21 Highland Street Future Use Committee that summarizes the Board's discussion this evening, including Ms. DeMuria's comments, and inform them of the Board's next meeting and discussion of ARPA funds. Mr. Hamilton requested that, if the Board is to consider this matter, Mr. Parent appear before the Board and the Board agreed.

e. Discussion of applying to MetroWest RECC for admission

The Board discussed the next steps including applying for admission to the MetroWest RECC and beginning discussions of an InterMunicipal Agreement (IMA). Mr. Dennington moved to approve the Letter of Application to the MetroWest RECC. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

f. Continued discussion of Select Board FY25 goals

Mr. Dennington suggested that the Board work on the following goals between now and the beginning of the budget cycle: 1) State of the Town Report with Master Plan Implementation Committee (MPIC); 2) Processing Recommendations from the Department of Revenue (DOR)

Financial Report; and 3) Repairs to the Old Burial Ground prior to the Town's Tricentennial. Mr. Dennington and Mr. Stivers agreed to move forward with item #1. Ms. Landry agreed to move forward with #3, with assistance from Mr. Stivers. Ms. Cook and Mr. Hamilton agreed to move forward with #2 and also work with the Advisory Committee. Ms. Cook reported that she had a productive meeting with Mr. Tony Kwan and learned that Mr. Kwan wants to assist the Town in developing the Newton Street property. They also discussed the project on Overlook Drive. She stated she would reach out to the Newton Street property owner in the near future. She also reported that the Hopkinton Water Project is beginning to move forward again but stated that the Town will not move forward until an IMA is in place. Ms. Landry reported that reporting for DPW issues and bylaw compliance issues seems to be moving in the right direction with attention from Building Commissioner Lund and Kelly O'Brien in the Building Department office. She stated the Building Department and the Planning Department are working on language updates to zoning bylaws. Ms. Landry stated that, after consideration, DPW Superintendent Cundiff has decided against using the previously proposed SeeClickFix Software as the system currently in place is working well.

g. Review of Public Safety Staffing study

Police Chief Ryan Newell and Fire Chief Puntini appeared before the Board on the matter. Chief Newell stated he thought the report was comprehensive, thorough and identified critical issues facing the department. He stated that he is very concerned about retention, pay disparities and the lack of specialty assignments. Chief Newell stated it costs $56,000 to hire a new officer and that the Town is losing money after trained officers leave for other communities that pay more. He stated he is concerned that, due to staffing issues, the department is becoming a reactive department rather than a proactive one. Ms. Cook asked Chief Newell to put together a three-year phased plan of department needs. Chief Newell stated the need is more immediate than a phased in approach over three years. Mr. Dennington recommended that any plan be coordinated with the Advisory Committee sooner rather than later. Mr. Hamilton stated that the issue of retention must be addressed before additional officers are hired and any increase in the police budget must be balanced with other needs in Town. Ms. Landry suggested asking the residents what they would like to spend their tax dollars on, specifically if they would support an increase in the police budget. Chief Puntini echoed Chief Newell's thoughts on the comprehensive nature of the report. Chief Puntini stated that, although the Fire Department is not facing a retention problem, it is facing a recruitment problem. He stated that the report recommended that the Fire Department analyze its current staffing model and create an Assistant or Deputy Fire Chief position. He stated that long-term goals include a day Training officer and a day EMS officer. He also stated that he intends to apply for a FEMA grant that would pay for up to 100% of new firefighters for three years. Ms. Cook asked both Chief Newell and Chief Puntini to create a phased approach to the recommendations in the report for the Board to use during the upcoming budget season. Ms. Cook stated that the Board would outline a plan to address the recommendations in the report.

VI. Public Comment

None

VIII. Executive Session

Mr. Stivers moved to enter into Executive Session at 9:30 PM, per M.G.L. Chapter 30A, Section 21, and not return to Open Session, for the purpose of (1) discussing strategy as it relates to a successor agreement with the Police Union (Exemption 3), as the Chair declares that an open meeting may have a detrimental effect on the bargaining position of the public body. Mr. Dennington seconded the motion. The motion was approved by roll call vote: Mr. Hamilton, aye; Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Ms. Cook, aye (5-0-0).

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, September 4, 2024 6:00 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers Marguerite Landry and Al Hamilton. Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale.

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:00 PM.

II. Executive Session

Ms. Cookmoved to enter the Board into Executive Session per M.G.L. Chapter 30A, Section 21, at 6:00 PM for the purposes of (1) discussing strategy as it relates to a successor agreement with the Police Union (Exemption 3), as the Chair declares that an open meeting may have a detrimental effect on the bargaining position of the public body, and (2) to review and approve Executive Session minutes from the August 6, 2024 (Exemption 7). Mr. Stivers seconded the motion. The motion was unanimously approved by roll call vote: Mr. Hamilton, aye; Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Ms. Cook, aye (5-0-0).

The Board returned to Open Session at 7:18 PM. Ms. Cook moved to Other Matters "d" at this time.

III. Public Comment

Ms. Cook heard Public Comment after Other Matters "b." There was no public comment.

IV. Reports

a. Chair's Report

There was no Chair's Report.

b. Members' Reports

Mr. Dennington reported that, on behalf of the Board, he submitted the application to the Community Preservation Commission (CPC) requesting Community Preservation Act (CPA) funds for the Town Common rail replacement project. Mr. Hamilton stated he submitted an application for the transfer of CPA Affordable Housing funds to the Affordable Housing Trust Fund (AHTF).

Mr. Hamilton reported that he and Mr. Stivers would meet with the Westborough Regional Emergency Communication Center (RECC) next Monday to discuss regionalization.

c. Town Administrator's Report

Mr. Purple reported that Chief Newell issued a personnel order congratulating Officer Theo Davis on completing the department's 12-week field training program and added he will begin regular shifts.

V. Consent Agenda

a. Approve Open Session Meeting Minutes: August 6, 2024

Mr. Stivers requested to hold Consent Agenda item "a." Mr. Stivers requested the following changes: Line 247: impervious to pervious. Ms. Landry requested scrivener's changes to the minutes. Ms. Cook requested scrivener's changes to the minutes and the following: Line 149: insert "costs" after

latest; Line 148: delete after "at" and insert "a Special Town Meeting expected to be held in April 2025; Line 156: delete "sent" and insert "made"; Line 233: delete after "funding" and insert "CPA eligible projects." Mr. Stivers moved to approve the August 6, 2024 minutes, as edited. Mr. Hamilton seconded the motion. The motion was unanimously approved (5-0-0).

b. Approve Eversource request to use DPW as staging area

Mr. Michael Conkemd appeared before the Board, via ZOOM, on the matter. DPW Superintendent Bill Cundiff also appeared before the Board, via ZOOM. Superintendent Cundiff stated that Eversource is requesting to have its contractor, New England Utilities Contractors (Neuco), use the DPW as a staging area to repair the gas line along Route 9 between Cordaville Road and Parkerville Road over the next two months. He stated the work would occur overnight and the staging area would occur past the transfer station. Mr. Conkemd stated that hours of operation would be from 8 PM- 5 AM and work would occur at the DPW between 9 PM and midnight. Mr. Conkemd also stated that that he would reach out to residents on Middle Road to inform them of the work and address any noise and light concerns/complaints. Superintendent Cundiff stated that the DPW would get an additional storage as part of the Eversource request. Mr. Dennington asked about concerns regarding the open door at the transfer station between 9 PM and midnight. Superintendent Cundiff stated that Neuco would maintain a presence at the transfer station and that there are cameras on site as well. Mr. Stivers moved to approve the Property Use Agreement between the Town and Neuco, pending approval by Town Counsel. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

c. Close warrant for September 30, 2024 Special Town Meeting

The Board agreed to close the warrant at its September 9th meeting following the Planning Board meeting on Article #8 and the Board's subsequent meeting on Articles #10 and #11.

VI. Other Matters *(Board may vote)*

a. Review ARPA funding and requests

Ms. Cook stated that the Board would need to reallocate $223,000 dollars of ARPA funds that need to be committed by December 31, 2024, and reviewed a potential list of items to fund. The Board discussed the list. Ms. Cook moved that the Board transfer $223,463.62 out of the following projects: ARPA Consultant-$29,760; Northboro Rd./Johnson Rd. Culvert-$5,518.50; Town Meeting Clickers-$755; Town Hall Furniture-$5,000; Trottier Rooftop HVAC-$30,004.71; Finn Mold Remediation-$28,159.19; Town Survey for Seniors-$35,000; Mental Health Clinician-$36,650; and National Grid-$52,616.22 and into the General Tax Relief Category. Mr. Hamilton seconded the motion. The Board agreed to leave $35,000 allocated to the Senior Survey. Ms. Cook amended her motion to transfer $188,463.62 out of the projects listed above, excluding $35,000 for the Senior Center Survey, and transfer into the General Tax Relief Category. Mr. Hamilton seconded the motion. The motion was unanimously approved (5-0-0). Mr. Hamilton moved to transfer the following out of the General Tax Relief Category: $75,000 for the Fire Notification System and $125,000 for the Transfer Station Trailer. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Mr. Hamilton moved to confirm that the Board allocated ARPA funds for the following: $85,000 for the Town Website Improvements and $20,000 for the McAuliffe Hearing Room. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Continued review of warrant articles for September 30, 2024 Special Town Meeting

Police Chief Ryan Newell appeared before the Board to discuss implementation of the Public Safety Staffing Study (PSSS) recommendations. Ms. Cook asked the Board if they wanted to implement any recommendations from the PSSS in the FY25 Police budget. The Board discussed the lieutenant position. The Board agreed they are supportive of adding the lieutenant position to the budget in January 2025. Ms. Cook stated that Mr. Purple had provided the Board with the financial impact of adding the lieutenant position. Ms. Cook moved that the Board support adding a second lieutenant

to the Police Department as of January 1, 2025, at Special Town Meeting on September 30, 2024. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Mr. Purple stated the lieutenant position would be Article #16 in the warrant for Special Town Meeting. Ms. Cook stated the Board would review other recommendations from the PSSS after Special Town Meeting. The Board agreed to discuss the following articles: Article #5 – Minutes; Article #10-Establishing the Board of Trustees of the Affordable Housing Trust Fund (AHTF); Article #11- Dissolving Southborough Housing Opportunity Partnership Committee (SHOPC); Article #17 – Time of Annual Town Meeting; and #19 – Citizen's Petition-Recall. Mr. Purple reviewed the timeline for inclusion in the Special Town Meeting warrant and stated that his goal is to send the document to the printer on September 10th. Mr. Hamilton stated he had spoken with Town Clerk Hegarty and is comfortable with the Article #5. Mr. Hamilton moved that the Board support Article #5, as printed in the Draft Warrant dated August 30, 2024. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0). Mr. Dennington stated that the Working Group would meet on Friday, September 6th, to finalize Articles #10 and #11. The Board discussed qualifications for members on the newly formed committee in Article #10. The Board agreed to vote on Articles #10 and #11 on Monday, September 9th, at a meeting immediately following the Board's appearance and vote on Article #8 at the Planning Board meeting. The Board discussed the language in Article #17. The Board agreed to change the language to "Annual Town Meeting will occur no later than the last Saturday in April at a date and time to be determined by the Select Board." Mr. Purple agreed to ask Town Counsel for an opinion regarding suspension of Town Meeting by 11:00 PM. Mr. Hamilton moved that the Board support Article #17, as amended this evening by Mr. Dennington's printed revisions. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0). The Board discussed Article #19. Mr. Dennington moved that the Board support at Special Town Meeting Article #19. Mr. Stivers seconded the motion. The motion unanimously failed (0-5-0). The Board discussed the ordering of articles for the warrant. Mr. Hamilton moved to reorder Article #18 after Article #7 and before Article #8. Ms. Landry seconded the motion. Mr. Dennington amended the motion to reorder Article #18 as the new Article #10 after Article #8-MBTA Communities and Article #9-RECC. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0).

c. Select Board Office Hours: schedule for remainder of 2024

The Board agreed to the following schedule for office hours on the following dates: September 10th: Mr. Stivers and Mr. Hamilton; October 15: Ms. Landry and Mr. Stivers; November 12th: Ms. Cook and Mr. Dennington; and December 10th: Ms. Landry and Mr. Hamilton.

The Board recessed at 8:29 PM and resumed meeting at 8:34 PM. The Board moved to Other Matters "b" at this time.

d. Review proposed Health Agent IMA with Northborough

Ms. Chelsea Malinowski, Board of Health (BOH) Chair, and Taylor West, RN and Health Director, appeared before the Board on the matter. Ms. Cook stated that Ms. Malinowski and Ms. West were appearing before the Board to discuss the proposed InterMunicipal Agreement (IMA) with Northborough to share a Health Agent. Ms. Malinowski stated that the BOH engaged the Collins Center to conduct a staffing study to determine if the BOH was utilizing its Public Health Excellence Grant (PHEG) effectively. She stated that Northborough, Southborough and Boylston participated in the study that focused on shared resources with future consideration of regionalization, adding that the BOH is not recommending a regional approach at this time. Ms. Malinowski stated that the BOH has recently restructured and Ms. West will now be responsible for the Health Director position, nursing position and supervising inspections. She stated that Dennis Costello would perform food and septic inspections. Ms. Malinowski stated the BOH is proposing the Town adopt Option 2 from the Collins Study, which would add a shared Health Agent position between Southborough and

Northborough. She explained that although the FY25 BOH budget would increase, the increase would be offset by local receipts and result in no net increase or a minimal increase. Mr. Hamilton requested that, in shared arrangements with other communities, all costs are captured to determine the actual cost of shared services. The Board discussed edits to the IMA and requested that the IMA have an exhibit detailing all costs. Ms. Malinowski stated an exhibit detailing costs would be included. Mr. Dennington suggested that the IMA include language that equally splits the costs of any judgment not covered by insurance between Northborough and Southborough and Ms. Malinowski edited the IMA to include that language. The Board requested Ms. Malinowski speak with Mr. Brian Ballantine regarding how to address the pension for the shared employee. The Board agreed to approve the revised IMA at its September 17th meeting.

VII. Public Comment

There was no public comment.

VIII. Adjournment

Mr. Hamilton moved to adjourn the meeting at 9:10 PM. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0).

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, September 17, 2024 6:30 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers Marguerite Landry and Al Hamilton. Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale.

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:35 PM.

II. Public Comment

There was no public comment.

III. Scheduled Appointments *(Board may vote)*

a. Chris Lund, Building Commissioner – Update on Building Department

Mr. Chris Lund, the Town's Building Commissioner, appeared before the Board on the matter and provided an update on the first quarter of FY25. Highlights included: 1) greater access capability with Open Gov. permitting system using iPads; 2) utilization of a new system for online permitting called Zoning Interpretation Request (ZIR), which allows for greater efficiencies for the Building Commissioner and Town Planner when responding to requests; 3) a commitment to decreasing response times for residents; 4) greater collaboration with the Town Planner and Economic Development Committee (EDC); and 5) digitizing records, noting that a retiree is assisting the Building Department with this project. Commissioner Lund stated that other projects include a review and updating of bylaws and addressing the impact to the Building Dept. of the numerous upcoming 40B projects. The Board reiterated their goal of increasing the housing stock and attracting more businesses to Southborough. The Board suggested Commissioner Lund focus on zoning bylaws, especially those that create flexibility for multiple uses on commercial sites. Ms. Landry offered to meet with Commissioner Lund to review an approach for updating bylaws. Ms. Cook asked if the Building Department was caught up from its recent backlog of inspections/permits, etc., and Commissioner Lund replied that it was. Meme Luttrell, Chair of the Planning Board, stated that the Planning Board is committed to working on zoning changes, especially uses, and offered to meet with Commissioner Lund and Ms. Landry to move the process forward. Ms. Cook suggested a future joint meeting of the Board, the Planning Board and Commissioner Lund to discuss potential zoning changes.

b. Update from Council on Aging

Ms. Pam LeFrancois, Director of the Senior Center, and Mr. Douglas Peck, Chair of the Council on Aging, appeared before the Board on the matter. Ms. LeFrancois shared that the senior population is growing and discussed a variety of programming the Center provides including the following: monthly clinics and programs at Colonial Gardens, tax work-off program, SHINE program, durable medical equipment sharing, one-on-one technical support for devices, legal services, housing assistance and fuel assistance. She shared that many of the programs are volunteer-led including the Trailblazers and the Handyman program. She also shared the success of the Dull Men's Club and the Book Club and described collaborations with the Police, Fire and Recreation Departments and

Southborough Youth and Family Services. Ms. LeFrancois stated that the Senior Center was awarded a Cummings Foundation grant that will allow it to hire an intergenerational program coordinator. She also described the Caregiver grant program, now in its 8th year, with funds from The Southborough Community Fund, which provides outreach to those experiencing a round-the-clock care situation. Ms. LaFrancois stated the Center will begin congregate meals with the Monday Blue Plate Special and is investigating ways to provide more fitness options. She stated that while the public largely sees the programming side of the Senior Center, nursing and outreach care are major components, as well. The Board and Ms. LeFrancois discussed the impacts of the increasing number of seniors in Southborough, noting that by 2030, seniors are expected to comprise 30% of population. Mr. Dennington asked if the Cummings grant was a one-year opportunity. Ms. LaFrancois stated that there may be opportunities for funding in future years. Mr. Stivers asked about the most pressing needs. Ms. LaFrancois stated that funding is the major concern, noting that costs continue to rise to maintain the current level of programming and there is a need to expand programming in the evenings. Mr. Peck stated the Council on Aging is focused on recruitment, as 2/3 of the Senior Center staff will be leaving in the next year. He stated he expects there will be a need to increase the number of nursing hours as the senior population rises. Mr. Peck stated that providing seniors with a place to connect is a priority and hiring staff to extend the hours would be required. He also stated that, at some point, the Senior Center might need to consider hiring a social worker to deal the with complexities facing the senior population. Ms. Landry asked Ms. LaFrancois to participate in succession planning to ensure a smooth transition. Ms. Cook stated that anyone who wishes to contribute funds assisting seniors in Southborough could contribute to the Friends of the Council on Aging. Ms. Cook asked Mr. Peck about the ARPA funds allocated for a senior survey. Mr. Peck confirmed that, at this time, the Council on Aging is not seeking ARPA funds for the senior survey but they will consider the survey in the future.

IV. Reports

a. Chair's Report

i. Neary School project update

Ms. Cook reported that the project is in the schematic design phase and she expects that phase to be completed in March/April. She also reported that the Massachusetts School Building Authority (MSBA) reimbursement cost has increased, resulting in a reduction in the bond amount required to complete the project to $81.8 million dollars.

b. Members' Reports

i. RECC Update

Mr. Hamilton reported that he and Mr. Stivers met with the Select Board Chair in Westborough and had a productive meeting. He also reported that he, Mr. Stivers, Mr. Purple, Chief Newell and Chief Puntini met with the Westborough RECC, which included the police/fire chiefs and town administrators for Westborough and Grafton. He also stated he recently appeared on Southborough Access Media (SAM) to discuss regionalization and the Westborough RECC. He will also be speaking with the Dull Men's Club on Friday.

c. Town Administrator's Report

Mr. Purple stated that all presentations for Special Town Meeting are due to the Town Clerk by this Friday, September 20th, at noon.

i. Volunteer breakfast

Mr. Purple reported that the Volunteer Breakfast would be held on Monday, October 7th, from 7:30-9:30 AM at the Senior Center. He also reported that the dedication of the new room at the Senior Center would be held on Tuesday, September 18th, at 8:30 AM.

Mr. Purple reported that the ALS Golf Fundraiser, in honor of Brian Shifrin and John Wilson, would be held on October 12th – 14th. He stated that the golf management company would donate $10 from every round of golf played to ALS One.

V. Consent Agenda

a. Approve Open Session Meeting Minutes: August 27, 2024; September 9, 2024; September 9, 2024 (Joint with Planning Board); September 11, 2024 (Joint with School Committee)

Mr. Stivers requested to hold Consent Agenda item "a." **September 9, 2024 (Joint with Planning Board):** Mr. Stivers requested the following change: Line 15: replace the last sentence with "They opened with discussion with both groups." **September 11, 2024 (Joint with School Committee):** Mr. Dennington requested the following change to lines 16-17: He requested that the second sentence (in lines 16-17) be deleted. **September 9, 2024:** Mr. Dennington requested that Ms. Cook's name in Lines 15 and 20 be replaced with Mr. Dennington's. Mr. Dennington moved to approve the Open Session Meeting Minutes of August 27, 2024, as written, September 9, 2024, as amended, September 9, 2024 (Joint with Planning Board), as amended and September 11, 2024 (Joint with School Committee), as amended. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Approve contracts for Facilities project; Town House painting, Town House landscaping
c. Accept $100 donation to the Ambulance Fund
d. Approve Intermunicipal Agreement with Northborough for Health Agent position
e. Appoint Bessie Trinidad as Full-time Communications Officer
f. Approve Executive Session Meeting Minutes: September 4, 2024

Ms. Cook moved to approve Consent Agenda items "b", "c", "d", "e" and "f." Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

Ms. Cook moved to Other Matters "d" at this time.

VI. Other Matters *(Board may vote)*

a. Appoint Kristin LaVault as Rec. Commission representative to the 21 Highland Future Use Committee; term to expire 6/30/2025

Mr. Dennington provided an update of recent efforts to address the future of the building and an overview of the committee's work thus far. The Board discussed the impact of closing Finn School, as part of the Neary School Building project, and SYFS's potential move to the Flagg School relative to the 21 Highland Street building. Ms. Phaneuf stated that in her tenure as a Select Board member, she appointed people who did not agree with her and believes that varying opinions make for a good committee. She urged the Board to appoint Ms. LaVault. Ms. Kristin LaVault appeared, via ZOOM, on the matter. Ms. LaVault thanked Ms. Phaneuf for her support and stated she did not decline the invitation from the Board to appear this evening. She stated she has always been open and remains open to considering all options for 21 Highland Street. Mr. Dennington moved to appoint Kristin LaVault as the Recreation Commission representative to the 21 Highland Future Use Committee, term to expire 12/31/24. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Discussion and potential revisions to charge for 21 Highland Future Use Committee

The Board did not discuss Other Matters "b."

Ms. Cook moved to Other Matters "e" at this time.

c. ARPA: revote COA survey funds

See Scheduled Appointments "b."

d. Future Town use of Flagg School

Ms. Sarah Cassell, Director of Southborough Youth and Family Services (SYFS) appeared before the Board on the matter. Ms. Cassell stated that SYFS is nearing the end of their 5-year strategic plan and

they would like to develop a new data-driven 5-year plan. She stated SYFS is proposing to contract with Trendline to conduct a community needs assessment that will produce a thorough report focused on gaps in services and an interactive database for use by SYFS. The Board discussed the proposal. Mr. Stivers moved to reallocate $20,000 in ARPA monies to fund the SYFS survey, with the expectation that it will be contracted no later than December 31, 2024 and completed no later than December 31, 2025. Mr. Hamilton seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook moved to reallocate $35,000 in ARPA funds for the Council on Aging survey to the General Tax Relief category and allocate $20,000 from the General Tax Relief category to the SYFS Trendline survey. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook stated the Board would discuss the future use of the Flagg School, as it will become vacant in the near future. Ms. Cassell stated that she would like to Board to consider moving SYFS to the Flagg School when it becomes vacant. She stated she toured the space with Facilities Director John Parent and she believes the Flagg School is centrally located, yet offers privacy and the additional office space needed. Ms. Cook informed the Board that others Town Departments would also like consideration of moving to Flagg School and that this agenda item is for discussion purposes only. The Board discussed the potential for SYFS to relocate to the Flagg School. Ms. Bonnie Phaneuf, 179 Middle Road, stated she is in favor of moving SYFS to Flagg School and suggested that the Board bring the building into ADA compliance using ARPA funds.

Ms. Cook moved to Other Matters "a" at this time.

e. Review of Select Board FY25 goals

The Board discussed the status of its goals list, thus far. Mr. Dennington suggested that Mr. Purple divide the Department of Revenue (DOR) financial study into areas for the Board to review and consider for implementation. The Board discussed a "State of the Town" presentation that describes important issues for the Town to consider in a 5-10 year timeframe (e.g. roads, infrastructure, staffing, etc.). Mr. Hamilton suggested Annual Town Meeting or other potential venues (e.g. a Board meeting or Southborough Access Media (SAM)) for delivering the presentation. Mr. Hamilton and Mr. Stivers expressed the need for the Board to communicate with residents about long-term issues facing the town and obtain critical feedback. Mr. Stivers stated that it is important to communicate the status of the Master Plan Implementation Committee (MPIC)'s work on achieving its goals, as well. The Board discussed how best to engage the residents to communicate the information described above. The Board agreed to address this goal after Special Town Meeting. Ms. Cook stated that she has made progress on the parking lot at Fayville Hall goal. She stated that there would be 16 unmarked spaces for the Town to use during specified hours. Mr. Dennington stated that the Board remains committed to filling the vacancies on the EDC. Mr. Hamilton stated he is not hopeful about the restoration of agriculture at Chestnut Hill Farm. With regard to the Old Burial Ground, Mr. Stivers stated he is working with DPW Superintendent Cundiff to submit an estimate to the Board of Commissioners of Trust Funds for potential funding. The Board agreed that Ms. Landry would work with Superintendent Cundiff to develop an estimate for the removal of dead trees in the Old Burial Ground and that the Board would discuss the matter at its October 8th meeting. Ms. Landry stated that the bylaw compliance goal has been met. The Board agreed to discuss the Public Safety Staffing Study and include any suggestions for implementation into the budget cycle for FY26. The Board also agreed to distribute 5 goals among the members, to be completed by the end of 2024, at its October 8th meeting.

VII. Public Comment

Ms. Phaneuf asked the Board to investigate cemetery space needs. Mr. Hamilton stated that he looked into the matter and believes this will be an issue in approximately 5 years. Ms. Cook stated that the Board would look into the matter.

Mr. Grant Farrington, 58 Flagg Road, appeared via ZOOM and stated that the YouTube links in the minutes section of the website have not been updated. Ms. Cook stated that the IT Department would address the matter.

VIII. Adjournment

Ms. Cook moved to adjourn the meeting at 8:57 PM. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Monday, September 30, 2024 6:00 PM
Location: Room 124, Trottier Middle School, 49 Parkerville Road, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers Marguerite Landry and Al Hamilton. Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale.

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:00 PM.

II. Other Matters

Special Town Meeting preparation

The Select Board reviewed the articles and confirmed who would speak to each. The Board reviewed the Moderator's consent list which included articles 1, 3-7 and 13. They discussed Article 8 (MBTA Communities Act) and potential amendments to anticipate. The Board discussed Article 9 (Select Board recommendation for Public Safety Dispatch Services) and agreed Mr. Hamilton would present.

The Board agreed that Mr. Dennington and Mr. Stivers would present Article 10 (Citizen Petition-Appointments to CPC from boards and committees), Mr. Dennington would present Article 14 (Appropriation for Economic Development Coordinator position) and Ms. Landry would present Article 15 (Appropriation for Breakneck Hill Farm Dump Remediation), understanding that it is a borrowing article which requires a two-thirds vote for approval.

III. Adjournment

Ms. Cook moved to adjourn the meeting at 6:45 PM. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

Subject: Removal of Shade Tree at 37 Clifford Street

[EXTERNAL]

Dear esteem board,

This is Ling Yang, owner of the house on 37 Clifford Street. We had accidentally removed tree on 37 Clifford St. without prior knowledge that the tree was in the town right of way. We did not realize it was a public shade and I would like to offer the following in lieu of paying a fine:

furnish (2) 1.5"-2" caliper Kwanzan Cherry trees to the DPW for planting at a location selected by the Tree Warden Designee.

Thank you for your time in advance and I look forward to your approval.

Sincerely,
Ling Yang

Southborough Police Department

To: Honorable Select Board

From: Chief Ryan M. Newell

Subject: Appointment of Part-time Communications Officer Robert Walker

Date: October 2, 2024

Dear Select Board Members:

Please consider my request to appoint Mr. Robert Walker to the position of Part-time Communications Officer with the Town of Southborough, effective **October 8, 2024**.
Mr. Walker is a resident of Marlborough, MA, and is currently working as a Senior Public Safety Dispatcher for the Town of Marlborough. He is fully certified in all current communications officer training and requirements, and would be able to start immediately upon his appointment (after a small amount of internal training).

The recommended pay rate would be $26.53 per hour, per Schedule A, Grade 4 of the Salary Administration Plan.

Please feel free to contact me with any questions or concerns you may have.

Thank you.

Respectfully,

Ryan M. Newell
Chief of Police
Southborough Police Department
32 Cordaville Road
Southborough, MA. 01772
Tel: (508) 485-2121 FAX: (508) 480-0161

Robert Walker

REPRESENTATIVE IN CONGRESS ..... SECOND DISTRICT
COUNCILLOR.....THIRD DISTRICT
SENATOR IN GENERAL COURT..... MIDDLESEX & WORCESTER DISTRICT
REPRESENTATIVE IN GENERAL COURT.....NINETEENTH WORCESTER DISTRICT
CLERK OF COURTS..... WORCESTER COUNTY
REGISTER OF DEEDS..... WORCESTER DISTRICT

QUESTION 1: LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or the House of Representatives before May 1, 2024?

SUMMARY

This proposed law would specify that the State auditor has the authority to audit the legislature.

A YES VOTE would specify that the State auditor has the authority to audit the legislature.

A NO VOTE would make no change in the law relative to the State Auditor's authority.

QUESTION 2: LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or the House of Representatives before May 1, 2024?

SUMMARY

This proposed law would eliminate the requirement that a student pass the Massachusetts Comprehensive Assessment System (MCAS) tests (or other statewide or district-wide assessments) in mathematics, science and technology, and English in order to receive a high school diploma. Instead, in order for a student to receive a high school diploma, the proposed law would require the student to complete coursework certified by the student's district as demonstrating mastery of the competencies contained in the state academic standards in mathematics, science and technology, and English, as well as any additional areas determined by the Board of Elementary and Secondary Education.

A YES VOTE would eliminate the requirement that students pass the Massachusetts Comprehensive Assessment System (MCAS) in order to graduate high school but still require students to complete coursework that meets state standards.

A NO VOTE would make no change in the law relative to the requirement that a student pass the MCAS in order to graduate high school.

QUESTION 3: LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or the House of Representatives before May 1, 2024?

SUMMARY

The proposed law would provide Transportation Network Drivers ("Drivers") with the right to form unions ("Driver Organizations") to collectively bargain with Transportation Network Companies ("Companies")-which are companies that use a digital network to connect riders to drivers for pre-arranged transportation-to create negotiated recommendations concerning wages, benefits and terms and conditions of work. Drivers would not be required to engage in any union activities. Companies would be allowed to form multi-Company associations to represent them when negotiating with Driver Organizations. The state would supervise the labor activities permitted by the proposed law and would have responsibility for approving or disapproving the negotiated recommendations. The proposed law would define certain activities by a Company or a Driver Organization to be unfair work practices. The proposed law would establish a hearing process for the state Employment Relations Board ("Board") to follow when a Company or Driver Organization is charged with an unfair work practice. The proposed law would permit the Board to take action, including awarding compensation to adversely affected Drivers, if it found that an unfair work practice had been committed. The proposed law would provide for an appeal of a Board decision to the state Appeals Court. This proposed law also would establish a procedure for determining which Drivers are Active Drivers, meaning that they completed more than the median number of rides in the previous six months. The proposed law would establish procedures for the Board to determine that a Driver Organization has signed authorizations from at least five percent of Active Drivers, entitling the Driver Organization to a list of Active Drivers; to designate a Driver Organization as the exclusive bargaining representative for all Drivers based on signed authorizations from at least twenty-five percent of Active Drivers; to resolve disputes over exclusive bargaining status, including through elections; and to decertify a Driver Organization from exclusive bargaining status. A Driver Organization that has been designated the exclusive bargaining representative would have the exclusive right to represent the Drivers and to receive voluntary membership dues deductions. Once the Board determined that a Driver Organization was the exclusive bargaining representative for all Drivers, the Companies would be required to bargain with that Driver Organization concerning wages, benefits and terms and conditions of work. Once the Driver Organization and Companies reached agreement on wages, benefits, and the terms and conditions of work, that agreement would be voted upon by all Drivers who has completed at least 100 trips the previous quarter. If approved by a majority of votes cast, the recommendations would be submitted to the state Secretary of Labor for approval and if approved, would be effective for three years. The proposed law would establish procedures for the mediation and arbitration if the Driver Organization and Companies failed to reach agreement within a certain period of time. An arbitrator would

consider factors set forth in the proposed law, including whether the wages of Drivers would be enough so that Drivers would not need to rely upon any public benefits. The proposed law also sets out procedures for the Secretary of Labor's review and approval of recommendations negotiated by a Driver Organization and the Companies and for judicial review of the Secretary's decision. The proposed law states that neither its provisions, an agreement nor a determination by the Secretary would be able to lessen labor standards established by other laws. If there were any conflict between the proposed law and existing Massachusetts labor relations law, the proposed law would prevail. The Board would make rules and regulations as appropriate to effectuate the proposed law. The proposed law states that, if any of its parts were declared invalid, the other parts would stay in effect.

A YES VOTE would provide transportation network drivers the option to form unions to collectively bargain with transportation network companies regarding wages, benefits, and terms and conditions of work

A NO VOTE would make no change in the law relative to the ability of transportation network drivers to form unions.

QUESTION 4: LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or the House of Representatives before May 1, 2024?

SUMMARY

This proposed law would allow persons aged 21 and older to grow, possess, and use certain natural psychedelic substances in certain circumstances. The psychedelic substances allowed would be two substances found in mushrooms (psilocybin and psilocyn) and three substances found in plants (dimethyltryptamine, mescaline, and ibogaine). These substances could be purchased at an approved location for use under the supervision of a licensed facilitator. This proposed law would otherwise prohibit any retail sale of natural psychedelic substances. This proposed law would also provide for the regulation and taxation of these psychedelic substances. This proposed law would license and regulate facilities offering supervised use of these psychedelic substances and provide for the taxation of proceeds from those facilities' sales of psychedelic substances. It would also allow persons aged 21 and older to grow these psychedelic substances in a 12-foot by 12-foot area at their home and use these psychedelic substances at their home. This proposed law would authorize persons aged 21 or older to possess up to one gram of psilocybin, one gram of psilocyn, one gram of dimethyltryptamine, 18 grams of mescaline, and 30 grams of ibogaine ("personal use amount"), in addition to whatever they might grow at their home, and to give away up to the personal use amount to a person aged 21 or over. This proposed law would create a Natural Psychedelic Substances Commission of five members appointed by the Governor, Attorney General, and Treasurer which would administer the law governing the use and distribution of these psychedelic substances. The Commission would adopt regulations governing licensing qualifications, security, recordkeeping, education and training, health and safety requirements, testing, and age verification. This proposed law would also create a Natural Psychedelic Substances Advisory Board of 20 members appointed by the Governor, Attorney General, and Treasurer which would study and make recommendations to the Commission on the regulation and taxation of these psychedelic substances. This proposed law would allow cities and towns to reasonably restrict the time, place, and manner of the operation of licensed facilities offering psychedelic substances, but cities and towns could not ban those facilities or their provision of these substances. The proceeds of sales of psychedelic substances at licensed facilities would be subject to the state sales tax and an additional excise tax of 15 percent. In addition, a city or town could impose a separate tax of up to two percent. Revenue received from the additional state excise tax, license application fees, and civil penalties for violations of this proposed law would be deposited in a Natural Psychedelic Substances Regulation Fund and would be used, subject to appropriation, for administration of this proposed law. Using the psychedelic substances as permitted by this proposed law could not be a basis to deny a person medical care or public assistance, impose discipline by a professional licensing board, or enter adverse orders in child custody cases absent clear and convincing evidence that the activities created an unreasonable danger to the safety of a minor child. This proposed law would not affect existing laws regarding the

operation of motor vehicles while under the influence, or the ability of employers to enforce workplace policies restricting the consumption of these psychedelic substances by employees. This proposed law would allow property owners to prohibit the use, display, growing, processing, or sale of these psychedelic substances on their premises. State and local governments could continue to restrict the possession and use of these psychedelic substances in public buildings or at schools. This proposed law would take effect on December 15, 2024.

A YES VOTE would allow persons over age 21 to use certain natural psychedelic substances under licensed supervision and to grow and possess limited quantities of those substances in their home and would create a commission to regulate those substances.

A NO VOTE would make no change in the law regarding natural psychedelic substances.

QUESTION 5: LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or the House of Representatives before May 1, 2024?

SUMMARY

The proposed law would gradually increase the minimum hourly wage an employer must pay a tipped worker, over the course of five years, on the following schedule:

- To 64% of the state minimum wage on January 1, 2025;
- To 73% of the state minimum wage on January 1, 2026;
- To 82% of the state minimum wage on January 1, 2027;
- To 91% of the state minimum wage on January 1, 2028; and
- To 100% of the state minimum wage on January 1, 2029

The proposed law would require employers to continue to pay tipped workers the difference between the state minimum wage and the total amount a tipped worker receives in hourly wages plus tips through the end of 2028. The proposed law would also permit employers to calculate this difference over the entire weekly or bi-weekly payroll period. The requirement to pay this difference would cease when the required hourly wage for tipped workers would become 100% of the state minimum wage on January 1, 2029.

Under the proposed law, if an employer pays its workers an hourly wage that is at least the state minimum wage, the employer would be permitted to administer a “tip pool” that combines all the tips given by customers to tipped workers and distributes them among all the workers, including non-tipped workers.

A YES VOTE would increase the minimum hourly wage an employer must pay a tipped worker to the full state minimum wage implemented over five years, at which point employers could pool all tips and distribute them to all non-management workers.

A NO VOTE would make no change in the law governing tip pooling or the minimum wage for tipped workers. Hereof fail not and make return of this warrant with your doings thereon at the time and place of said voting.

Hereof fail not and make return of this warrant with your doings thereon at the time and place of said voting.

Given under our hands this _____ day of _____, 2024.

[Select Board Letterhead]

October 9, 2024

Select Board
Town of Southborough
Town Hall
Southborough, MA 01772

Ms. Katherine Miller
Mass Housing
One Beacon Street
Boston, Ma. 02108

Re: Proposed 40B Development, 352 Turnpike Road, Southborough, MA

Dear Ms. Miller:

At its regular meeting held on October 8, 2024, the Southborough Select Board voted unanimously (5-0) to support the 40B project at 352 Turnpike Road, Southborough, MA as proposed by the Ferris Development Group, LLC [and its affiliate FD 352 Turnpike, LLC] (property owner). We believe that this project is in the best interests of the Town of Southborough for the following reasons:

- In June of 2023 the Select Board met to establish its priorities for fiscal 2024. One of the goals established by the Board was to make meaningful progress with expanding the stock of affordable housing in the Town of Southborough. This goal was reaffirmed for fiscal 2025 by the Select Board during its 2024 planning meeting. This [60-unit] project will not only allow us to make progress with increasing our housing stock generally, it will also support our progress toward the Commonwealth's goal of achieving at least 10% of our housing units being classified as "affordable".
- The site appears to be well suited for controlled growth.
    - The site creates minimal intrusions into existing residential neighborhoods.
    - The project, which will use Route 9 for ingress/egress, will produce minimal impacts on local secondary roads.
    - The site has space to provide adequate septic capacity to serve the [60 units] proposed.
    - The proposed additional building on the site can provide some local services within walking distance for residents.
- The developer team has deep roots in our community both as residents and developers.
- The developer has a track record of building high quality office developments.
- The developer has met with the Select Board and members of other town boards in a collaborative effort relative to this project.

The Select Board, based on the above considerations, recommends that Mass Housing find the proposed development at 352 Turnpike Road be deemed as eligible for 40B status. Subject to this Mass Housing positive determination, the developer will need to work with our Zoning Board of Appeals (and other local boards, as applicable) to obtain a comprehensive permit for the project.

RE: Acceptance of Southborough into MetroWest RECC

Ms. Williams and Mr. Brassard:

We held our Special Town Meeting last week, which included a non-binding warrant article for support of Southborough's joining the MetroWest Regional Communication Center. I'm pleased to report that Town Meeting overwhelmingly approved this article. With this vote, our Select Board, at our October 8 meeting, discussed our participation in the MetroWest RECC. Our Select Board voted unanimously to proceed with our application for participation in the MetroWest RECC, and with the execution of an Intermunicipal Agreement to this effect. I have asked Mark Purple to work with the two of you to complete any necessary application paperwork and to get an amendment to the Intermunicipal Agreement ready for signatures as soon as possible.

We look forward to working with you to get this RECC operational. Please feel free to contact me if there is anything that our Select Board can do to support this process as it moves forward.

Best regards,

Kathy Cook, Chair
Southborough Select Board

REPORT

SECTION ONE
POLICE DEPARTMENT STAFFING ANALYSIS
SOUTHBOROUGH, MA
AUGUST 2024

INTRODUCTION

The Town of Southborough, Massachusetts, retained the services of Municipal Resources, Inc. (MRI) of Portsmouth, New Hampshire, to provide technical assistance to the Town in researching, analyzing, and recommending police staffing. In the months that followed, MRI has collected various data from the Town of Southborough and conducted a substantive review and analysis of the current data available.

MRI would like to thank the staff of the Southborough Police Department for their insight and professional commitment towards the enhancement of services provided to the residents and visitors of Southborough and provide thanks to Police Chief Ryan Newell and Lieutenant Sean McCarthy for their assistance as MRI gathered pertinent data for this analysis.

THE POLICING ENVIRONMENT

Examination of the policing environment is an essential prerequisite to informed judgment regarding policing culture, practice, policy, operations, and resource requirements. The geography, service population, economic conditions, levels, and composition of crime and disorder, workload, and resources in Southborough, are salient factors that define and condition the policing requirements, response capacity, and opportunities for innovation. The main purpose of a police agency is to ensure public safety within the community. This objective is accomplished primarily through the patrol division, who has the responsibility to maintain order, respond to Calls for Service (CFS), conduct traffic enforcement, maintain high visibility to deter criminal activity, and to have positive interactions with those in the community. These public

contacts are essential to help establish good rapport, build relationships, and to bolster and ensure ongoing community trust. In a smaller agency such as Southborough, additional patrol officer responsibilities are expansive and include conducting preliminary investigations; identifying, pursuing, and arresting suspects' rendering aid to victims, including psychological, emotional, and physical care; preparation of cases for court, including testimony; and writing reports that document accurate accounts of events.

MRI observed that the community expectations for the Southborough Police are very high, and the staff of the Department work diligently to meet those expectations. In large part this is due to the extraordinary level of commitment to customer service in their daily interactions with the community. MRI was duly impressed with the dedication to resolving all incidents of crime within the community. While this may sound counter-intuitive considering police exist to do just that, the reality in most New England communities is that the workload pressures begin to impact the ability to dedicate adequate time to resolving crime and solving problems. As an example, it would not be unusual in many police agencies to respond to the vandalized mailbox and complete a report that is purposely focused upon serving as an insurance statement. However, in Southborough, MRI observed that the goal of this type of incident is to have the officer thoroughly investigate by conducting a neighborhood canvas, attempt to add patrol to a targeted area, and engage other methods to satisfactorily resolve the issue. In gathering data to develop this report, MRI noted this level of response to every incident by the staff of the Southborough Police Department. It is the challenge to continue with this level of commitment despite workload demands, for which the Department is proud, that deeply concerns Chief Newell.

At the time of this report the Southborough Police Department has an authorized and budgeted staff of twenty-one (21) full-time sworn police officer positions. There are four (4) budgeted positions not available for patrol duties due to the following reasons:

- One officer recently graduated from the police academy and is now in Field Training (FTO) training and will be available for patrol duties during July 2024.
- One officer is presently attending the 26-week basic police academy and will graduate June 13th. This officer will require 8-12 weeks FTO before he assumes patrol duties meaning he is projected to be available by the end of August 2024.
- Two (2) officers have recently been hired and are scheduled to begin their employment attending the 26-week basic police academy in July-projected availability for patrol duties after FTO is March of 2025.

MRI learned that yet another Southborough officer has tended his resignation to accept employment in the Town of Milford on June 2, 2024. Subsequently, Chief Newell has already commenced another selection process that he anticipates will consume yet another month, or

possibly two, to identify a viable candidate. This unidentified employee will be tentatively available mid-2025.

In researching data points for this report, MRI is concerned by the number of officers who are leaving the employment of Southborough. Nationally the difficulty in attracting viable candidates to the police profession is at a crisis point. There seems to be no one defining reason for the lack of desire to work for government. Research points to multiple social, political, and economic forces that are simultaneously at play in shaping the current state of recruitment and retention. So dire is the situation that neighboring police administrators are actively "poaching" certified police officers from area communities, a strategy so reprehensible just several years ago is now becoming the norm owed to the hiring crisis and the lack of interested and qualified candidates.

Larger police agencies with diversified positions like Detective, Tactical, Canine and School Resource officers have always been very appealing as they offer more opportunities for an officers' career. While the attraction of smaller agencies where the ability to engage problem-solving and community-oriented policing holds significant attraction, the financial incentives of a community nearby that will compensate an experienced officer with pay grades into the $90,000 range is simply too compelling. Consequently, regardless of this report's conclusions, if the agency cannot retain their valued and experienced officers, the point of this report is moot. As a result, MRI will also briefly delve into the costs associated with losing these valued employees combined with the inherent challenge associated with constantly being in the hiring mode.

Southborough has grown over the years, adding corporations, commercial entities, apartment units and single-family homes and/or condominiums largely because of its location. With busy transportation corridors such as Interstate 495, Route 9, 30 and 85, Southborough offers an excellent location providing easy access to virtually anywhere in the region. Proposals for future housing like 120 Turnpike with 60 units and 250 Turnpike with 56 units combined with the MBTA Community Housing program are a demonstration of the attraction that Southborough possesses and the challenges looming. While the growth has been a significantly positive addition to the Town of Southborough, these transportation corridors draw visitors daily. Unfortunately, some of those visitors from outside the community arrive with nefarious intent, adding pressure to the Southborough Police to perform expeditiously despite there being no additions to the workforce. Properties like Madison Place with 168 housing units add significant call volume to the Southborough Police. Additionally, MRI noted with significant trepidation, that as administrative tasks escalated due to implemented State legislation such as weapon permitting requirements, maintaining accreditation, additional responsibilities to the community and other managerial tasks associated with the litigious environment of law enforcement, the strategy has been for the Southborough Police to remove staff from the patrol function or augment responsibilities to an

already busy staff. With the vacancies mentioned earlier, almost 24% of the agency is currently unavailable to perform patrol functions let alone administrative tasks. Lieutenant McCarthy, who has also filled vacant patrol shifts recently, has a myriad of administrative tasks assigned to him such as maintaining accreditation and was further tasked with gathering data for this report. Additionally, he is the lead person in recruiting and accomplishing the multitude of tasks associated with selecting qualified and viable candidates for the host of vacancies at the Southborough Police Department. MRI found it unusual and problematic that Chief Newell is assigned as the Southborough Police Department's "Records Access Officer." A function routinely assigned to subordinate managers, not police chiefs.

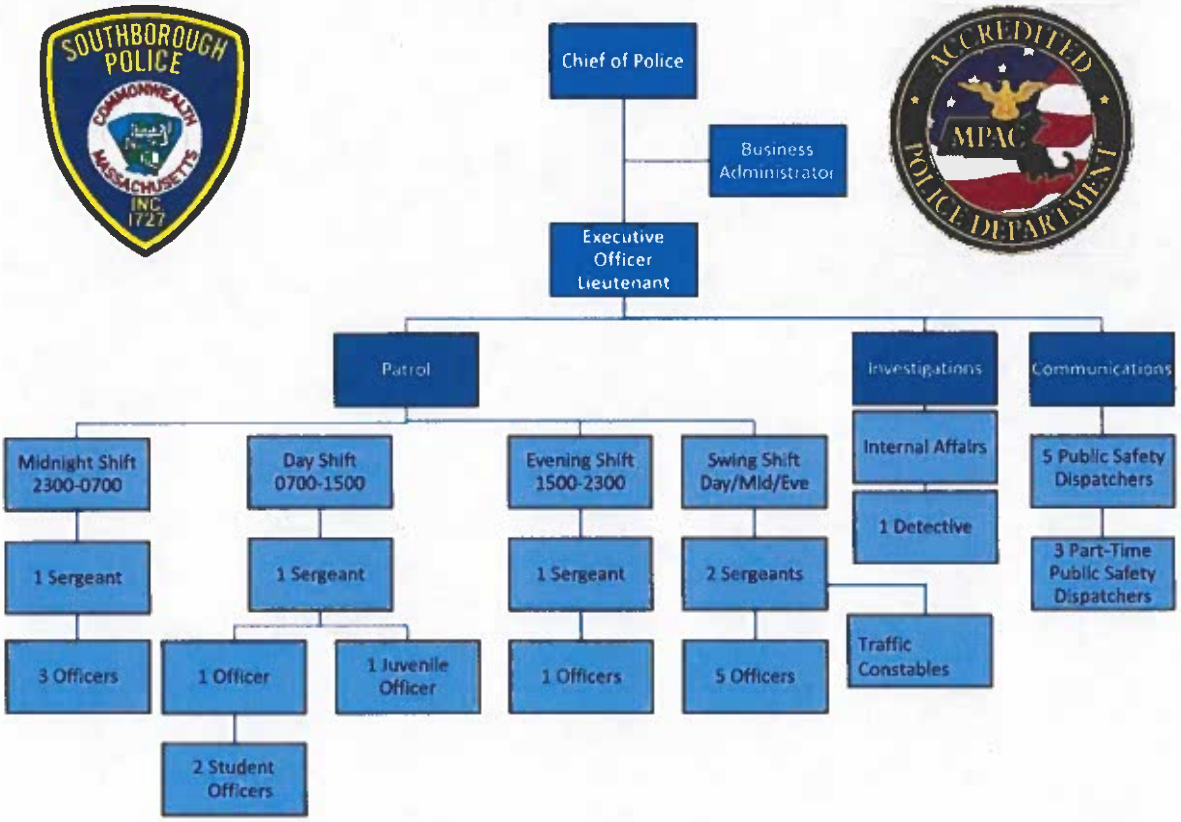

Figure 1-1
Southborough Police Department – Organizational Chart

For some time, Chief Newell has had a growing concern that the department is becoming one-dimensional, with officers responding to 911 calls, taking reports (seemingly for the insurance companies), and not having time to engage in a proactive, problem-solving style of policing the

residents of Southborough expect to receive. Chief Newell expressed concern that the organization is heading towards being a "reactive" police agency without time to engage in community-oriented programs designed to build relationships and/or trust capacity through a proactive, highly visible policing strategy.

By design, each patrol shift has a Sergeant as a working supervisor. Chief Newell has determined that no patrol shift should be staffed with less than a Sergeant and two patrol officers. So concerned are the patrol officers at this minimalist approach that this strategy of minimum staffing is now incorporated into the union contract with the Town. The Sergeants are deemed as 'working supervisors' because they routinely handle calls for service, especially during times when calls require back-up or multiple officers to address the call for service. Clearly this necessity reduces officer visibility and impacts officer response time to pending calls for service.

In addition to the unique transportation features discussed, the extremely busy corridors of Interstate 495 or Routes 90, 30 and 85, all circumventing or making access to Boston more simplified, create numerous challenges for the Southborough Police. On occasion, the Southborough Police are often the first to respond to calls for service on 495 due to a mutual aid agreement with the Massachusetts State Police. Southborough Police are the primary respondents on all the other corridors. In addition to the police centric calls for service, The Southborough Police, who are actively patrolling the community 24/7, also respond to all medical calls as they likely will arrive on the scene prior to the Southborough Fire Department (SFD).

As noted, the budget and authorized structure of the organization is twenty-one (21) which is comprised of a Police Chief, a Lieutenant who is responsible for overseeing Operations as well as numerous Administrative tasks, and five (5) Sergeants, all assigned to patrol duties. Patrol, the backbone of any police organization, currently has thirteen (13) police officers assigned to the three patrol shifts. While listed on the organizational chart, there is a Detective, this position is presently unoccupied due to the need to fill vacant patrol shifts. The School Resource Officer (SRO) is a position in name only creating a false illusion that something is being accomplished at the Southborough schools when it is not. While one of the patrol officers is so designated, there is no opportunity to accomplish any of the tasks associated with this important role in the community. MRI found that the school administrators are constantly requesting the services of the SRO while no or minimal support is capable of being offered.

Sergeants are assigned as the overall commander for each of the three patrol shifts which function from 11 PM to 7 AM, 7 AM to 3 PM and 3 PM to 11 PM as noted. Sergeants are considered "working supervisors" while assigning officers to various calls and other tasks, they also act as first responders and will be used in the calls for service calculations to adequately depict the environment.

During Chief Newell's tenure, the Department has attempted to function under this established design. As noted, each shift currently has three (3) staff members assigned: two (2) patrol and one Sergeant. The police facility is staffed 24/7 by dispatchers, who provide basic assistance to persons who arrive at the facility. For matters of substance, an officer is called into the station to meet with the customer. If there is an arrest and the person is retained in one of the agency's jail cells, an officer must be removed from active patrol to remain in the police facility to ensure prisoner and facility safety and attend to various needs of the prisoner. While removing an officer from active patrol duties is an absolute necessity to manage the risk of having a confined person in the custody of Southborough, it reduces the capability of the agency during this period by 33%.

As noted, currently there are three (3) patrol officers in various stages of attending and completing the police academy, with yet another resignation pending and a selection process not yet complete. These four (4) unavailable officers severely impact patrol capacity. There is no situation like a patrol officer vacancy to highlight the issues associated with smaller police agencies and the lack of flexibility to fill shifts. Additionally, the limited number of patrol staff that management needs to call upon to work overtime, basically "going to the well" repeatedly, especially as the well is so shallow, is problematic. Four (4) vacancies in patrol capabilities represent 19% of the agency's workforce. Additionally, the pending one patrol officer vacancy consumes significant staff time in addressing the selection process even though Southborough is not, fortunately, part of the Massachusetts Civil Service process.

Another challenge uniquely associated with smaller agencies are the numerous ancillary issues that must be accomplished regardless of the size of the police agency as residents simply anticipate that the service exists. It is abundantly evident to MRI that the Southborough Police is an agency that conveys a positive community-centric work ethic of "sure, we'll do that" as they strive to provide a high level of service options to the community. As is common in most smaller agencies, almost every officer has one or more collateral duties. While the list is exhaustive and will not be fully articulated here, it is worthy to note that the agency performs such functions as Mental Health Outreach, Crisis Intervention Team (CIT), Fleet Maintenance, Domestic Violence Liaison, Drug Take-Back Program, Elder Citizen Liaison, Evidence & Property Management, Firearms Licensing, Training Officer, Internet Technology Officer, Body Worn Camera Program, CEMLEC Tactical Team, Court Officer, Grant Writing, Sex Offender Registry Coordinator, Armorer, Less Lethal Taser Officer, and FTO Coordinating Officer to mention a few.

While it is important to articulate the host of duties performed by staff of the Southborough Police, the primary focus of this report is designed to determine the capacity of the patrol function who are exclusively tasked with responding to calls for service. As noted, rarely are police agencies at full staff in these challenging employment times. However, for computation

purposes MRI will use the authorized and budgeted staff of these eighteen (18) employees, minus the Detective position, dedicated to patrol positions. These are the calculations that determine the capacity of the Southborough Police to adequately respond to the demands of the Southborough community.

THE SERVICE POPULATION

The Town of Southborough is in Worcester County with a 2020 census population estimated at 10,448. The Town is considered to be an affluent bedroom community to the Boston metroplex region. Southborough operates under an open town meeting form of government led by Town Administrator Mark Purple who reports to the Select Board. He has the responsibility of overseeing daily operations of each department though the various department heads.

Southborough is a suburban community with two of the busiest highways (I-495 and Rt. 9) in the region traversing the community. While these corridors provide easy access for residents to the region's employment centers, as well as cultural, recreational, and educational opportunities, ancillary criminal challenges are also realized due to these same transportation corridors which greatly impacts the Southborough Police. Southborough is primarily a residential community comprised of single-family homes, with townhouse and apartment units becoming a significant construction trend to meet new residential demands. A number of residential complexes, specifically Madison Place and the Red Roof Inn on Route 9, have a significant negative impact upon the Police Department. Just the discussions pertaining to the emerging discussions of the MBTA Community Housing initiative create further anxiety for the agency as it attempts to maintain a protractive policing strategy.

While it is important to note that MRI staffing model does not rely on population as the sole variant for calculating staff demands, MRI recognizes that increases in population typically result in additional workload, and these population shifts are often predictable and measurable. Southborough is clearly impacted by these fluctuations. Municipal Resources, Inc. expands upon staffing needs based on officer availability and workload, not simply the wide variants associated with the transient and shopping population as well as the associated seasonal demands of a residential community. Another important measure for determining police staffing needs, and for monitoring police department activities and operational success, involves an examination of crime data. The MRI team conducted a significant analysis of the calls for service (CFS) data for the Town of Southborough, to gain a greater perspective on the policing environment.

COMPETENT POLICE RESPONSE TO CITIZEN'S REQUESTS

Just how many police officers are required to adequately provide competent services to a community has always been a topic for debate. The Federal Bureau of Investigation (FBI) has long tracked police officers per 1,000 residents where the largest police presence is found in Washington, DC, where there are 5.7 officers for every 1,000 residents, followed closely behind by Wilmington, Delaware, with 4.3 officers per 1,000. Obviously, larger agencies have a greater call volume to address, but they also have flexibility to assign their larger staff numbers to issues as they arise. According to FBI statistics, New England communities with a population between 10,000 and 25,000 residents have an average of 1.9 police officers per thousand residents[1]. The Southborough Police Department is an example of the reported regional average number of officers with slightly more officers per thousand at 2.0. Unfortunately, that is the budgeted data, not the reality. Officer vacancies due to resignations persist as patrol officers accept employment in neighboring police agencies, the Southborough Police have struggled to maintain this number of authorized sworn staff members. The Department does not have the same organizational flexibility to reassign officers in the way that a larger police organization would and have eliminated basic services such as Detective and SRO so Chief Newell can provide respond to basic community demands.

As noted, population is an important consideration in understanding the allocation of police officers. However, it is important to reiterate that the MRI staffing model does not rely on population as a single variant for calculating police staffing demands. The inherent problem with doing so is related to the distinctly different composition of that population. If the population consisted of 1,000 college-aged students as opposed to 1,000 active retired residents, the policing environment would be manifestly different. However, Municipal Resources recognizes that any increase in population will undoubtedly result in additional workload thrust upon the police, and these population shifts are often predictable and measurable, and must be understood to have a negative impact upon the demands for limited police services. As we will highlight below, the need for staffing increases for the Southborough Police is based on a big-picture approach that considers workload demands, officer availability, and the challenges of the police agency to respond adequately to the community on a 24/7 basis.

Determining the optimum allocation of human resources in a police department is a perplexing problem not only to the police manager, but also to town administrators, elected officials, and the taxpayer. No one formula is interchangeable from one community to the next. Likewise, the quality of law enforcement is often directly related to the effective distribution of police personnel, especially patrol officers, who represent the most important element in the police

[1] https://ucr.fbi.gov/crime-in-the-u.s/2016/crime-in-the-u.s.-2016/topic-pages/tables/table-24/

service. For this reason, the proper staffing and distribution of personnel should be given prime consideration and be well-conceived by the governing body. While what occurs in one community may have no relationship to another, it is always interesting to note what comparable communities are investing to provide police services within their community. While each community has a variety of unique dynamics that drive the composition of their police agency, often they are more similar than not and can offer insight to how Southborough is approaching a competent delivery of policing services.

Comparable Communities

Town	Population	# of Officers	Calls (2023)	FY22 Budget	Calls Per Officer	Cost Per Resident	Officers per thousand
Shrewsbury	38,900	61	47,500	$7,900,000	778	$203	1.5

Figure 1-2: Comparable Communities

The manner in which law enforcement services are provided by the police department and the types of services that it provides are a reflection of the character and demands of that community. The continuing challenge for the Department will be the ability to define the appropriate allocation and deployment of officers to meet the demands of the residents of Southborough. While this report could focus upon crime statistics as the driving factor for determining how many police officers are necessary, MRI believes that is a counter-productive strategy as more crime may dictate more police, but if there is less crime, should there be less police, which may enable those with poor intent to fill the void? MRI believes that an agile programming strategy that embraces stabilization of community expectations, organizational and per officer productivity, as well as budget expenditures is the more prudent approach.

In today's policing profession, calls for service are obligated functions to which officers must adequately respond. Many calls are not criminal in nature, but the police are responsible for resolving the issue regardless and the community expectations are high to do so in an efficient, compassionate, and professional manner. The police do not have the option to discard a matter that many may personally consider of little importance. Consequently, one of the key components of the community comparable list is calls for service and the corresponding number of calls handled per officer.

Today's police are challenged with complicated issues such as mental health, juvenile offenses, and other incidents that are not easily or immediately resolved. If officers do not have adequate time to address the service demands, community satisfaction wanes and management of risk by the agency increases. Additionally, it must be noted that many obligated calls for service demand multiple officers to respond. While not all the officers may remain after the initial response, the issue often requires a triage strategy approach before that decision can be made. In Southborough, multiple officers call for service obviously removes personnel from their assigned patrol sectors. CFS that engage multiple officers can quickly exhaust and/or eliminate a proactive policing approach to any given shift. Further negating Southborough's responsiveness to community demands is the lack of any Detective or investigative function. Patrol officers are left to follow up on informational investigations only during their shift. As an example of just one problem this reality creates, officers assigned to work late night hours cannot reasonably contact victims and/or witnesses, becoming an impossible task. With no formal investigative strategy, Southborough Police is unfortunately a one-dimensional law enforcement agency left to complete reports for insurance companies and not having a proactive strategy that keeps criminal elements from targeting Southborough the community.

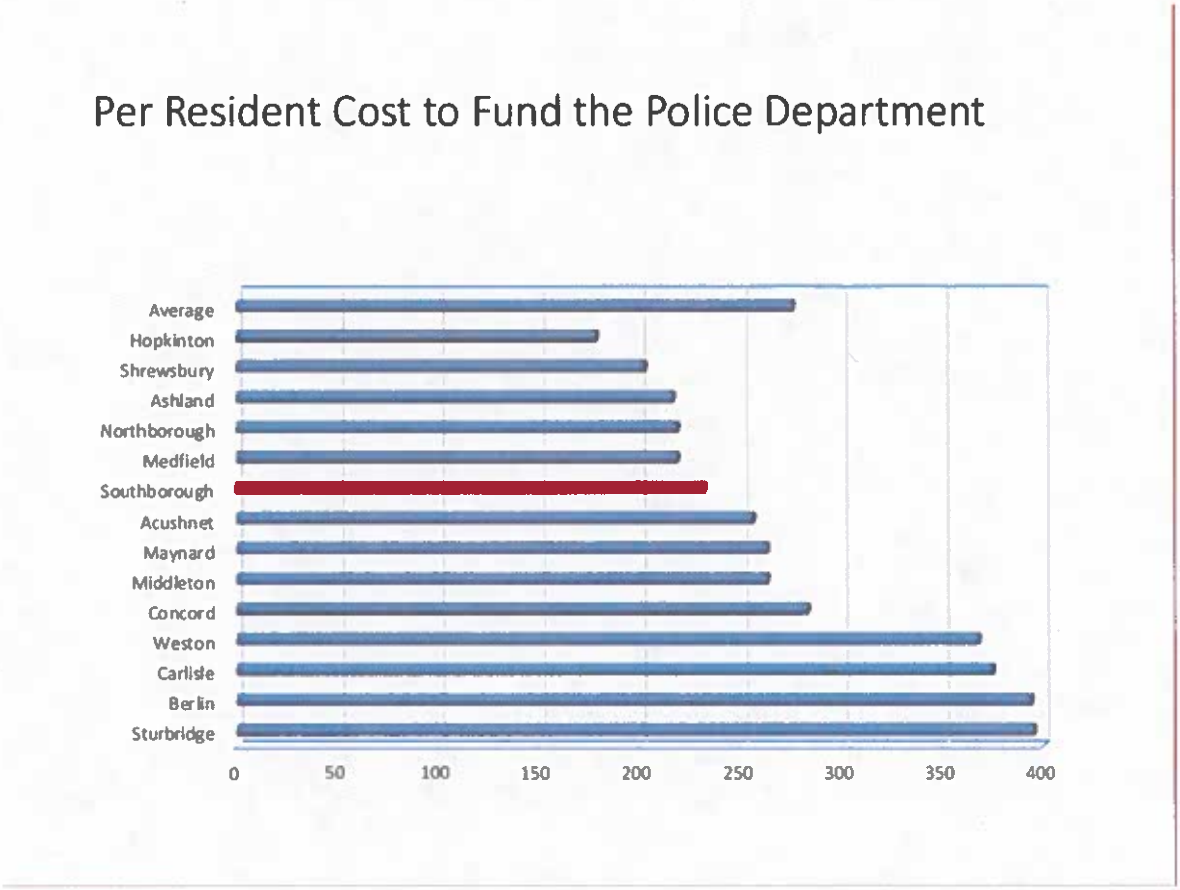

Figure 1-3: Per Resident Cost to Fund Police Department

Funding the Southborough Police Department is calculated to cost each resident $232 annually. This data places the Southborough Police the 9th lowest of comparable agencies identified to MRI. While this statistic is interesting to note, it is admittedly one-dimensional and does not address the complex nature of calculating an individual tax base for a community nor the funding streams that support various initiatives.

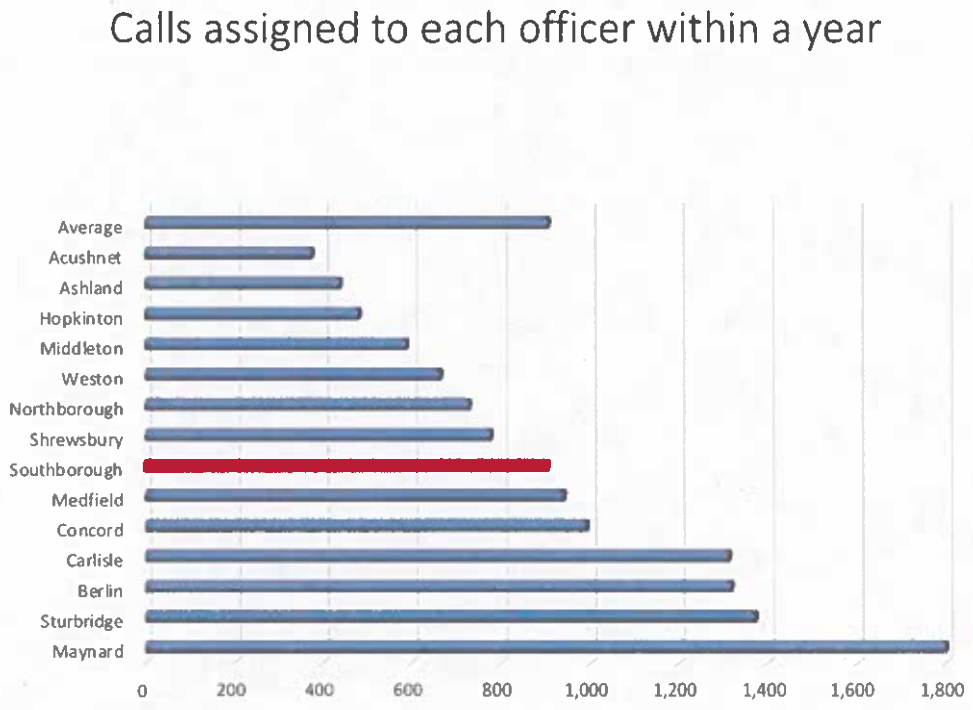

Figure 1-4: Annual Calls Assigned per officer

The data conveyed in the graph above, "Calls for service assigned to each officer" reveals that the Southborough Police ranks 7th of the fourteen communities used as a comparable. While there are only six agencies that have a higher call volume per officer, a more ideal range would be lower so that officers could devote more time to problem-solving and addressing residents' needs.

A Brief Discussion Regarding "Calls For Service" in Southborough.

There is no definitive guide in the profession as to how a police department should measure the demands placed upon them. Most agencies simply "assign a number" whenever they are called upon to perform a task. Whether the call was initiated by a patrol officer observing a suspicious incident that warranted additional investigation or a vehicle disabled by the side of the road, or a call originated by a resident to resolve a problem, calls for service most often refer to the requests made to police departments by members of the public for assistance with various issues or emergencies. These requests can be made through phone calls, emails, social media, or other

forms of communication and are generally responded to by police officers who are dispatched to the location of the call. Calls for service are a critical part of policing, as they represent the primary way in which police departments engage with the public and provide services to the community.

Assigning a historical number to each incident that took time from the officers' day accomplishes a multitude of tasks. There is a memorialization of the event, regardless of the priority the assignment was deemed to be. The ability to track and locate an event that was addressed by an officer is a critical component of managing risk. If later an undetected event required additional review, it could be located by the number assigned. Additionally, assigning a number to a task memorializes for the governing body how and where precious taxpayer resources are being expended.

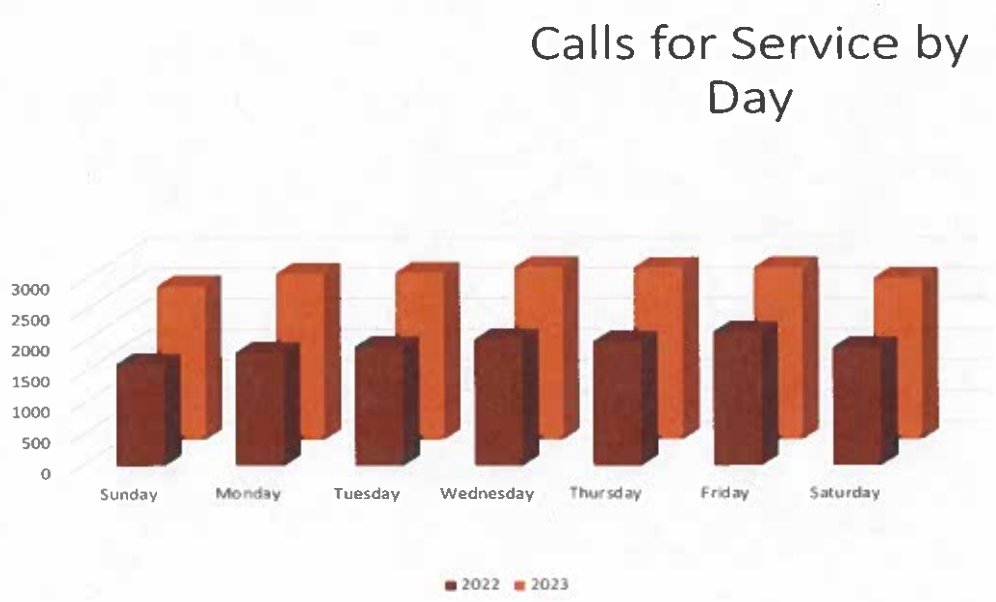

Figure 1-5: Calls for Service by Day

While MRI appreciates the community centric philosophy of Chief Newell of "can do, just do" attitude that permeant's the Southborough workforce, without an actual depiction of the workload placed upon each officer there can be wide reaching impacts upon an officer's ability to perform at a high level. Police need to be available to accomplish more than just responding to calls for service. And while admittedly a simplistic view of calls per officer, many of these same calls demand multiple officers further impacting patrol officer time. Additionally, the purpose of

the police department, and particularly those who work within the patrol function, is to arrest criminals, reduce crime, reduce the fear of crime, and to use proactive problem-solving methods in partnership with the citizens of Southborough. This is accomplished through active patrol, traffic enforcement, DUI enforcement, criminal investigations, evidence/crime scene processing, drug enforcement, and other highly visible police functions. Patrol personnel respond to emergency and non-emergency calls for service, and when not responding to these calls, they use non-obligated time to actively patrol the community. The more workload on each officer, the less time available to be devoted to these preemptive activities. And after continued absence, the community will begin protesting the lack of visibility, traffic enforcement and other initiatives they view as important.

Attempting to ascertain busier hours or days, MRI was not able to discern any significant deviations other than the call volume of the Southborough Police is escalating in the aftermath of COVID-19. Days per week are relatively consistent with slight deviations on weekends. Calls by hour are interesting and warrant a deeper examination that this report could not accomplish. While early morning hours are reflective of the environment of Southborough, the consistent escalation of calls between 3 PM and 5 PM also warrants additional analysis of the types of calls. Given this reality, MRI will recommend consideration of another patrol shift to address this obvious and consistent increase in demands from the Southborough community.

Figure 1-6: Calls for Service by Hour

Back to the Analysis...

Due to the rather random nature of service demands and needs, it is a challenge to distribute patrol forces effectively. Police managers design purposeful patrol activities to prevent a given number of incidents, but for purposes of tabulation and statistical analysis, being definitive with the number of incidents that were prevented is not possible as you can't accurately measure what didn't happen. However, the objective for any police manager is to create a highly visible police presence, thereby encouraging those with nefarious intent to go to a community with a more passive patrol strategy. While merely displacing crime to another community, rather than stopping crime altogether, is not ideal, it is the reality of a democracy in which taxpayers have a say in how their money is spent. That is a difficult premise to accomplish if officers are constantly "responding" to calls for service.

Regardless of the funding, in communities such as Southborough, there is a firm expectation that police services will be delivered in a timely, very personal, and compassionate manner. This model of policing often consumes significant officer time. An additional, yet possibly the most critical component of managing personnel in a law enforcement agency, is the expectation that they will actually be available to perform requested or required tasks. While police operational budgets must calculate that employees are compensated for 52 weeks, factors such as vacation, training, sick leave, and/or court time make officers unavailable to perform obligated work. All these influences literally deduct from police officer's availability to respond, thereby reducing the ability of the department to react in a timely fashion to the community's requests.

The following exercise is designed to assist the Town of Southborough in determining officer availability and therefore, the number of officers required to meet the demands of the community. Additionally, it may serve as one factor enabling the Town of Southborough to plan accordingly for the setting of benchmarks or when additional personnel should be considered.

As stated earlier, performing a workload analysis for a police department is not an exact science. One strategy, which was developed by the International Association of Chiefs of Police (IACP) is based upon the premise that suggests an officer's day should be divided into three equal functions including:

- Obligated police officer work or responding to calls for service
- Administrative/Report writing
- Proactive community policing and/or preventive patrol

Ideally, an officer should be responding to calls for service needs and resolving problems for approximately one-third of their day. This is referred to as "obligated" work, as police have no

option but to respond to these requests. Police work is recognized as a very paper intensive profession. For virtually every action an officer performs, there is the necessity to complete a report or form so that the events and subsequent actions are memorialized. It is often the reality that the time committed to report development, and the writing of the report, may take longer than the act of resolving the original issue that resulted in the report. These report writing/follow-up functions account for another third of the officer's time. The remaining one-third of the officer's time should be committed to community policing or active patrol designed to protect and deter criminal activity, as well as to conduct traffic enforcement initiatives demanded throughout the community. Without the positive impact of a high visibility strategy where police officers are observed patrolling throughout the community, criminal activity will undoubtedly fill that void. As technology evolves, criminal activity is often not seen nor detected by an officer in a patrol car; "cyber-crime" is an ever-emerging challenge that is substantially increasing demand on police departments and is further stretching limited resources. In this day and age, the community is predisposed to want meaningful interaction with their police officers, even if it is as basic as performing directed traffic patrols throughout neighborhoods and seeing their police on the commonly used social media platforms in a meaningful way.

With this entire premise determined to be true in any community, but especially in Southborough where policing is required to be more "engaging and personal," one must first gain insight of the actual availability or optimal use of a Southborough Police officer. The importance of this segment of the exercise is recognition of the reality that even though a community compensates an employee within a budgeted calendar year for 52 weeks of employment, they are factually not available for actual patrol duties for that same time period as the following exercise demonstrates:

40 hours of work per week X 52 weeks	**2080 hours**

By contractual agreement, Southborough Police are entitled to vacation or annual leave. Annual leave fluctuates according to seniority that awards more vacation the longer employed. An analysis of that data revealed that each of the police officers uses an average of 175 hours of time off for annual leave, with several senior employees having additional weeks. To remain conservative with the calculations, the average of 175 hours of leave is used:

Average 175 hours combined vacation leave	175 hours
Remaining	**1905 Hours**

Southborough Police appear to use their sick leave very conservatively as the average availability of unused sick leave for each officer is relatively high, particularly when compared to MRI's experience in other communities. During 2023, the average *use* of sick time per officer was approximately 58 hours:

58 hours of sick leave	58 hours
Remaining	**1847 hours**

It is widely understood that police officers work all the recognized holidays when others are routinely enjoying time with their family. While the officers receive additional monetary compensation for working these holidays, they are contractually entitled to receive a day off later within the year. This fact equates to another fourteen (14) days or 112 hours away from patrol duties.

Average of 112 holiday hours to be taken within the year	112 hours
Remaining	**1735 hours**

During 2023, Southborough Police officers completed 3,470 hours of training to remain current with best practices and to satisfy Massachusetts training requirements. Many of these hours of training occurred as newly hired officers are assigned to the MPTC academy. Unfortunately, MRI noted that with the recent resignations of officers to other agencies, these hours will only increase further denying officers availability to perform patrol functions in Southborough. MRI worked diligently to remain conservative in these calculations and attempted to determine the average time each officer committed to training, without the MPTC training included, and calculated that 70 hours was appropriate. Of course, during these training classes and exercises, the officer is eliminated from patrol activity. Another area that consumes officer time is roll-call training which consumes additional hours of each officers' time but was not calculated by MRI as it was determined that officers could leave the police facility and respond to the call for service. Regardless of where this training occurred, off-site or in-house, officers were not engaged in proactive or reactive police initiatives while this training occurred. Training is recognized as a critically important component to managing a police agency, and in Massachusetts the hours are mandated. However, understanding the absence of staff due to these needs is an important component for management to gauge.

Average training for all 21 officers	70 hours
Remaining	**1665 hours**

Whenever a Southborough Police officer makes an arrest or issues a traffic summons, there is the possibility that they will need to attend court proceedings, taking them away from performing tasks within the community. While the vast majority of police actions will not result in any court obligations, officers are regularly in consultation with court officials preparing for the potential trial. Southborough Police are routinely tasked with attending court, which is located in Westborough. Superior Court, or more serious felony charges, are heard in Worcester. By contractual obligation, Southborough Police Officers are provided a minimum of four (4) hours of overtime whenever they attend court. Over the course of a calendar year, more than half a week of patrol staff availability is consumed by court activities to include trials, case preparation, and pre-trial conferences.

Average time for officer to be in court activity	25 hours
Remaining	**1640 hours**

Southborough Police historically have performed a variety of community outreach tasks that are not patrol related such as safety presentations, responding to school events, Junior Police Academy, and/or other such tasks. These tasks are critically important and are a hallmark of the Southborough Police. Unfortunately, due to staffing deficiencies, most initiatives have been eliminated. However, MRI did determine that approximately fifteen (15) hours have been committed to community outreach that is not part of the ordinary high-visibility preventive patrols.

Hours committed to community policing activities	15 hours
Remaining	**1625 hours**

Officers are entitled to maternity or paternity leave throughout the year. While the leave for these joyous events is relatively low, the average for 2023 was 93 hours

93 hours

Remaining **1532 hours**

Unfortunately, the passing of a loved one results in the use of bereavement time spent in attending to the death and the wide array of responsibilities. In the last five years, thankfully, there has been no use of bereavement time. However, MRI is calculating an average of eight (8) hours for an employee to attend to bereavement matters.

8 hours

Remaining **1524 hours**

The Southborough officer's contract authorizes three (3) days off for Personal Time. These days are "use or lose" annually and the Department average reflects that fact. In 2023, the average personal time was also 24 hours.

24 hours

Remaining **1500 hours**

Finally, the Southborough Police use a strategy to offer comp time in lieu of overtime in some instances. While this approach recognizes immediate savings in overtime, it is a "kick the can down the road" strategy that allows an officer time off later creating yet another vacant patrol shift. Regardless, the comp time is accruing but differs for each staff member. Calculations provided by the Business Administrator indicated fifteen (15) days or 120 hours is the average time used by officers taking them away from the patrol function.

120 hours

Remaining **1380 hours**

MRI wanted to compliment the administration of the Southborough Police for their management of risk that is a frequent partner in the police profession. Often at this juncture of the workload report there are calculations pertaining to officers being Injured on Duty or IOD. In Massachusetts, an injury on duty is designated as 111F. These situations create a serious

challenge for a police administrator as the IOD officer remains on the payroll during recuperation yet there are vacant shifts that can only be rectified by overtime expenditures. Payroll does not exist to hire additional staff, yet the police department must continue to deliver services to the community.

Completing the calculations, based upon the "one-third principal," 1,380 hours/3 = 460 hours, it is expected that officers at the Southborough Police Department should be committing 460 hours annually to each task demonstrated in the following manner:

• Obligated police officer work	460 hours
• Administrative/Report writing	460 hours
• Proactive community policing and/or preventive patrol	460 hours
	1,380 hours

Continuing with the exercise, MRI found that the Southborough Police operate their own emergency communications center handling 911 calls and routine matters from the police facility. This provides that each visitor is greeted by a person who can directly address their issue or can quickly have an officer return to the facility to meet with the party. The Southborough Police records management system is robust and can produce detailed reports which greatly contributed to this report.

MRI has used the term "call for service" throughout this report. This term is defined as any event or task that the public requests the department to accomplish. Regardless of the magnitude of the event, or how the police view the situation, the Southborough Police Department must respond and satisfactorily address the issue. MRI concluded that all officers, including patrol sergeants, who are deemed "working supervisors," routinely respond to calls for service. However, the exercise is also designed to quantify and articulate the fact that simply because an officer is employed by an agency, does not necessarily indicate that the officer is available to provide patrol services and respond to these calls for service. After all the external and internal influences upon officer time are calculated, each officer has 1,380 hours annually in which they can deliver police service to the citizens of Southborough, not the entire 2080 hours for which the officer is compensated. In essence each patrol officer is *unavailable* to provide services to the community for approximately seventeen and a half (17.5) weeks out of each fiscal year. This creates an immediate shortfall in staffing capabilities.

2,080 hours – 1,380 = 700 hours
700 hours divided by 40-hour work week = 17.5 weeks

Ultimately, the single most important factor in determining adequate staffing for a police agency is what level of service the community demands. Often this is driven by how much the community determines to spend on police resources, as personnel are the costliest item in any police budget. While a community ultimately determines staffing levels, there are several questions that must be answered by the community, such as how long are residents willing to wait for an officer to respond for a routine (non-emergency) call for service? Do the community members desire highly visible police patrol presence, designed to deter crime or address those who speed through neighborhoods? Southborough has not seen the value and supported special programs such as School Resource Officers or a traffic component, but each of these programs ultimately remove officers from patrol. MRI has noted that Southborough Police have attempted to designate officers for these tasks but due to the constantly diminished staffing levels, they are created in name only. Unfortunately, this creates an illusion that these important initiatives are in place when in fact, they are not! While there is a definitive need for these specialized police services, ultimately, they do deduct personnel from the patrol function and without replenishing the capacity to respond to obligated calls for service, the calculations provided in this report will fail.

Comparable Community Police Organizational Structures

Figure 1-7: Comparable Community Police Organizational Structures

Figure 1-7 uses the organizational make-up of the earlier discussed comparable communities to share what other communities are doing with their human resources in the police field. While it may have no bearing on the policing philosophy of Southborough nor reflect what the Southborough community desires from their police, it is interesting how communities do commit to initiatives such as School Resource Officers and/or the investigative capacity of the agency.

Continuing with the calculations associated with the workload analysis, Chief Newell has attempted to maximize the complement of officers to the community's best interests. Even with one vacant police officer position and four (4) officers either in training or pending a start date for training unavailable for patrol duty, Chief Newell has concluded that ideally each shift should be staffed with the following configuration:

Day Shift	0700-1500	Three (3) officers
Evening	1500-2300	Three (3) officers
Midnight	2300-0700	Three (3) officers

However, this complement of personnel is based upon officer availability not service demands and has not been realized for quite some time as staff is not available. Chief Newell is also very aware that the seasons have different impacts upon the various neighborhoods of Southborough and the call volume. Additionally, when police are requested, the obligation must be to respond to calls for service within a reasonable time span. There are no options to ignore or postpone a call from the public. While the majority of police calls in Southborough can be categorized as quality-of-life issues, such as crimes against people, traffic complaints, and assisting the public, they must all be answered. Combined with the rather large transient population traversing through Southborough, these challenges combine to pose a significant problem as the agency strives to maintain a high-level of responsiveness to the residents of Southborough.

The current situation of officers being absent due to training requirements presents a challenge as MRI continues analyzing the data. Calculations *could* be based upon the current situation, but that would be unrealistic as the vacancies will be filled with graduation from MPTC and when qualified candidates are hired. The question remains, is the current budgeted and authorized strength of the Southborough Police Department appropriate to address the obligated demands of the Southborough community? MRI believes that the best approach is to focus upon the budgeted patrol staff of eighteen (18) officers assigned to patrol duties in the Town of Southborough: five (5) sergeants and thirteen (13) patrol officers:

Eighteen (18) X 40 hours/week X 52 weeks equates to 37,440 hours.

In other words, ***if*** each of the eighteen (18) full-time officers were available for patrol activity for 2080 hours per year, those officers can adequately cover 37,440 hours of work within a year. However, as the previous exercise demonstrates, MRI concludes that due to previous contractual obligations and other tasks required of the patrol officers that prevent them from being available for their patrol duties, the eighteen (18) officers are only present 24,840 hours annually.

Eighteen (18) X 1,380 hours annually equates to 24,840 hours

37,440 hours –24,840 hours = 12,600 hours

This reality creates a gap of 12,600 hours; the equivalent of six (6.05) personnel. The fraction is insignificant, essentially equating to six (6) police officers (2080 hours X 6 =12,480) which is not filled to address obligated patrol duties, nor does it address the scheduled patrol shifts that Chief Newell has determined is essential for providing minimal services to the community of Southborough, thereby guaranteeing in the necessity of significant overtime or comp time expenditures throughout the fiscal year.

12,600 hours /2080 hours = 6 officers

As with any mathematical approach to a profession that must respond and satisfy subjective consumers, the residents/taxpayers of Southborough, there are acknowledged shortcomings, including a fraction of an officer (.05). MRI suggests caution be exercised interpreting these results. However, there is ample information within these calculations that should provide Chief Newell and the governing officials of Southborough with abundant evidence that staffing levels at the Southborough Police Department are below those necessary to provide adequate, and possibly minimum staffing levels on a 24/7 basis. Further, interpretation of the recommended police staffing by MRI dovetails with the 2021 Southborough Master Plan which notes, "In terms of the services and functional elements of the infrastructure, Southborough has some historically under-staffed departments and functions, due in part to the Town's commitment to funding excellent schools."[2]

Despite the staffing gap, the Southborough community enjoys a low crime rate, a tempered lifestyle enjoyed by many residents and visitors, and a seemingly satisfying police response time to residents' requests. However, there are ample indications that the sworn staff are becoming

[2] https://www.southboroughma.gov/DocumentCenter/View/1832/2021-Master-Plan-PDF

discouraged with time restraints placed upon them due to a heavier workload and the emerging issue of the lack of time to adequately problem-solve resident's issues.

There is clear evidence that at this moment the Southborough Police is evolving into a reactive agency where police reports are seemingly completed for insurance purposes as opposed to a pro-active, problem-solving, and engaged strategy the community has enjoyed. With a calculated presumption based upon history, there will emerge a gap of resident dissatisfaction and officer awareness that they could and should be accomplishing more. Before the potential of community dissatisfaction arrives at that intersection, and while the need to address the six (6) patrol officer shortfall is more immediate, there will also be the opportunity to strategically plan by gradually addressing staff challenges and community satisfaction. While these expectations will undoubtedly surface due to the lack of services, such as a concerted traffic initiative, it remains that each call for service requires appropriate police response. When response to service requests is delayed or ignored due to more serious incidents or a large volume of calls, there needs to be an assessment of the level of services the department can provide. If the backlog becomes too lengthy, or criminal clearance rates decline due to the Southborough Police inability to adequately investigate, or traffic accidents increase due to the agency's inability to perform directed traffic patrols, there must be preparation to make suggestions that may not be embraced by a community accustomed to personalized service. Ultimately, without additional human resources, the community will need to determine the level of service that it desires and can ultimately afford.

	2022	2023	2024	2025	2026	2027	2028
Calls for service*	13,587	18,990	19,759	20,539	21,361	22,215	23,104
Budgeted # Patrol Officers	18	18	18	20	22	23	24
Calls Per Officer	755	1,055	1,098	1,027	971	966	963

*A 4% increase is projected annually to perform this analysis

Figure 1-8: Breakdown of Calls for Service/Calls Per Officer by Year

The exercise above is designed to further enhance the ability of the Southborough community to monitor demands upon the existing staff and react accordingly. While calls for service rose by a staggering 29% from 2022 to 2023, most likely due to emergence from a COVID related environment, MRI continued to maintain a conservative approach estimating a call volume

increase of 4% per year to anticipate demands upon the agency and the number of patrol officers required.

When this data was calculated in the section comparing similar communities, MRI used the entire agency compliment of 21 officers divided into the number of calls for service. But the reality is that calls for service are being directly addressed by only eighteen (18) personnel consisting of patrol sergeants and patrol officers. The calculations in the above matrix provide a true representation of the workload placed upon the patrol officer assigned to responding to obligated calls for service. At the current level of calls for service that each officer is handling during a year, the agency is becoming a reactive agency. By all indications, the Southborough community is satisfied with the degree of services provided by their police. Therefore, MRI can conclude that the workload levels must be maintained and stabilized enabling the patrol staff to continue to proactively address community issues. The lower the calls per officer become, the more attentive and problem-solving the officer can be. For instance, if the number of calls per officer were maintained in the 800 - 900 range by adding additional patrol staff, the more positive resolution for the resident taxpayer. MRI recognizes that hiring six (6) officers in one fiscal year is simply not feasible. However, MRI believes that reducing the number of calls per officer by adding two (2) patrol staff immediately in 2025, two officers in 2026, one officer in 2027 and another in 2028 may permit further assessment and allow the agency to maintain a more proactive strategy rather than become a one-dimensional reactive style organization.

MRI's analysis is designed to determine the number of police officers required to meet the demands of the community not the ability to politically resolve or fund that need. Unfortunately, it is often the case that the demands placed upon any police department and the financial realities and capacity of the community to fund the service, will not intersect.

It is important to note that the data above focuses upon patrol capacity to respond to obligated calls for service. If there are any deviations of personnel to specialized assignments such as a School Resource officer, a task force assignment, or administrative function, the projections will fail. As an aside, MRI noted the inconsistent availability of the Lieutenant, who is also assigned to oversee the barely functioning Detective unit but has a myriad of additional duties currently assigned to his role. Simply adding additional duties to an already overextended employee only temporarily masks the problem. While MRI did not examine the explicit and immediate need for a Detective to be added to the agency, during data retrieval and research for this report, it was noted as a deficiency. For an organization the size of Southborough, and the tasks required of investigating the host of crimes that are perpetrated by persons living outside of the community, not to have several personnel dedicated to conduct investigations is a flawed strategy. When

MRI briefly reviewed the investigative capacity of the agency, it was found that there are 146 open investigations including four (4) rapes, multiple burglaries, and an unattended death, all of which are receiving no time commitments. As Chief Newell stated, "We have to assess which case we can solve before we commit valuable personnel time to the investigation."

In the absence of a Detective function, officers must investigate matters that may be beyond their capacity due to expertise, time, and the requirement of answering yet more calls for service. Many crimes that result in arrest do so because of the "detective work" of the patrol officer that responded to the call for service. If the patrol officer cannot conclude the investigation with an arrest, the case would routinely be turned over to a Detective who has the primary job of gathering information. Southborough Police occasionally assign patrol staff assistance with some of the more significant incidents, all at overtime rates, with oversight by the Lieutenant, but this strategy is problematic as noted. Patrol officers cannot easily conduct interviews with victims, witnesses, and suspects, especially those not residing in Southborough when they must also respond to obligated calls for service.

The burden of responding to calls for service will ultimately fall to the patrol officers, not detective/s or command staff that are required to fulfill a host of administrative tasks. When patrol staff begins simply responding and not problem-solving due to the pressures of calls for service backing up, then community dissatisfaction will escalate, creating a crisis situation for Town government that will ultimately cost more tax-payer funds as opposed to a well-planned systematic approach. Additionally, it is important to note that the Town should plan to add police officers as the community grows in population or calls for service rise sharply. As noted previously, FBI statistics cite an average of 1.9 full-time officers per 1000 inhabitants in Northeast communities with populations between 10,000 and 25,000 inhabitants. Southborough is at 1.7 officer and many of the communities analyzed do not reflect the major transportation corridors through Southborough and the accompanying calls for service.

The need for a commitment to staff a Detective position

In smaller police agencies police officers responding to service calls play a crucial role in solving offenses. However, if they cannot make an arrest during their initial investigation, or if the officer is working nights, interviewing or following-up on details becomes problematic or impossible. A Detective will typically follow-up to conduct interviews, analyze evidence, and complete often reams of tedious paperwork. The need to follow-up an investigation by a patrol officer working an assigned shift and days, complicates a complex investigation which requires critical thinking, analysis, and attention to detail, traits in short supply as the officer responds to the demands of

various calls for service. If there is no Detective to accomplish these time-consuming tasks, the case will undoubtedly diminish and lessen as a priority out of necessity. This is the reality that MRI detected upon reviewing data of the Southborough Police. While the patrol staff has the drive and desire to fully investigate matters, they often do not possess the expertise in physical evidence analysis, interview techniques or the time to follow-up. Given the circumstances of vacancies in the patrol complement, or the fact that officers newly hired are attending the basic MPTC training academy and therefore unavailable, the lone Detective has been assigned to patrol duties. Given the complexity of the Detective's role, the inability of Southborough Police to staff this position on a more permanent basis will have compounding negative impacts upon the community.

Reorganizing for another Lieutenant

MRI concluded that the lone Lieutenant is simply overwhelmed with the various tasks he is responsible for accomplishing. As will be discussed in greater detail later in this report, just the singular task of administrating the program of recruiting, selecting, and scheduling for police officer candidates is daunting. Additionally, the Southborough Police are a Massachusetts Accredited Police Department, which is a positive attribute assuring the residents of Southborough that the Department has best practice policies in place and can demonstrate adherence to these standards. While this status and certification reduces insurance premiums for liability, someone with authority in the agency must maintain compliance with the various standards. A host of reports and analysis of such functions as an officer's response to resistance, pursuit analysis, review of bias in the issuance of traffic summons, and arrests, internal affairs and discipline must be addressed. These are time-consuming responsibilities, yet critically important tasks and documents that the current staff is justifiably having difficulty completing due to the absence of time.

MRI was originally perplexed to note that Chief Newell was identified as the "Records Access Officer" for the Department when researching the agency online. However, this provided an indication that the agency was overwhelmed with the workload necessary to administer a police agency as this is a position that is routinely assigned to a middle manager within the organization not the chief executive officer. Once MRI was able to review data, statistics and workload, there was a clearer understanding why Chief Newell could not assign one more task to Lieutenant McCarthy.

The management and administration of a police agency involves significant planning, organizing, oversight and directing of staff while also generating an operations budget all the while ensuring accountability of the organization to the community of Southborough. MRI concluded that

another middle-manager position is warranted. While the organizational chart below depicts a second Lieutenant, the rank of the position is irrelevant. What is critical is the division of work so that one position oversees the operations function and the other the administrative function.

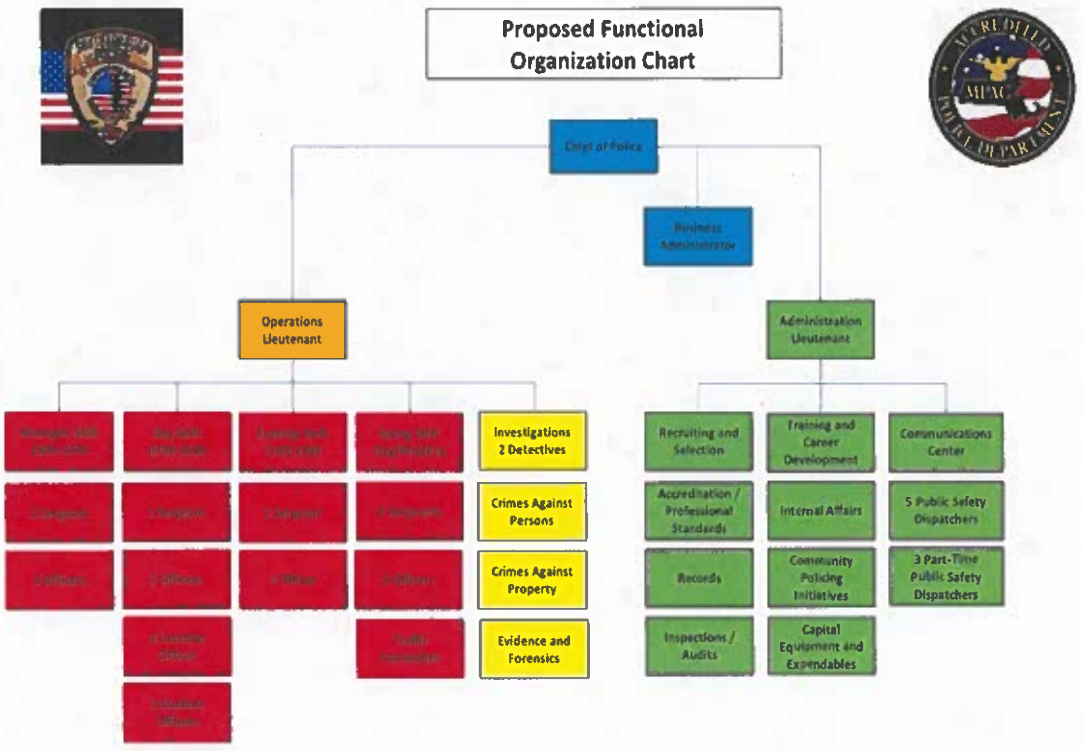

Figure 1-9: Proposed Police Department Organizational Chart

The challenge of recruitment, selection, and retention

The Southborough Police over the last five years have lost eight (8) experienced and valuable police officers to the Massachusetts State Police, Westborough Police, Milford Police, Ashland Police, and the Hopedale Police. This is an unacceptable and non-sustainable situation for the Town of Southborough and must be addressed. The hiring and retention of quality employees, especially during this period of a tight market and waning attraction to the police profession, is critically important. As a smaller agency that is perceived to have reduced compensation and benefits as well as a lack of internal promotions and opportunities for specialized assignments,

Southborough is already at a disadvantage over many larger agencies due to the national crisis[3] regarding attracting qualified persons who are interested in a police career. In today's environment, there is a "perfect storm" of challenges which make it difficult for agency leaders to maintain appropriate staffing levels and generate job satisfaction as well as positive morale. Ultimately, Southborough must avoid becoming a training ground for area police agencies who swoop in and take experienced police officers for their own use.

A 2021 survey from the Police Executive Research Forum (PERF) showed a 45% increase in retirements, and nearly 20% spike in resignations, over the previous year[4]. Unfortunately, the applicant pool for police officers across the nation, especially as nightly news broadcasts yet another horrible police officer act, is not very deep. Nationally, police agencies are struggling to keep departments fully staffed as resignations increase and hiring gets tougher in a tight labor market. At the same time, officers describe the job as more stressful, less rewarding than it was in the past, and awareness that the role of policing is expanding with new duties requiring officers to have a greater breadth of unique skills.

Once hired, the challenge is finding affordable ways to retain good officers. This fact results in certified and highly trained officers evaluating their positions and exploring alternative opportunities elsewhere. The demand for qualified applicants from a labor pool that is sparse is challenging police agencies who have now attached a name to the reality that is currently occurring openly in the profession. As noted, "poaching" certified officers to higher paying police agencies has evolved into a definitive strategy of some agencies to fill their vacant positions. By all accounts that appears to be the situation where several trained officers have left Southborough for area agencies where there is more career diversity, higher wages, modern equipment, and a lessened workload. While MRI is aware that police managers throughout New England face multiple challenges in recruiting and retaining staff, this recent, rather negative strategy is becoming more prevalent throughout the Commonwealth.

Employee turnover is an expensive proposition. Significant research has concluded that it is better to avoid the necessity of recruiting "new" employees by focusing efforts on retaining incumbent staff. While some of the retention techniques used by police agencies have included increased salaries and benefits there is significant data to support the premise that job satisfaction, supportive work environment, mentoring programs, and other job enhancement strategies has more to do with why employees remain at a position. Simply stated, they find that positions that offer these attributes provide them with fulfillment. In their book "The Leadership

[3] https://www.policechiefmagazine.org/recruitment-retention-and-attrition/#:~:text=It%20is%20estimated%20that%2024,program%20that%20includes%20retention%20programs. Retrieved June 8, 2024.

[4] https://www.policeforum.org/workforcesurveyjune2021

Challenge," Kouzes and Posner suggest that employees remain in their positions in spite of significant pay increase opportunities elsewhere when they are "proud to tell others they are part of the organization, they feel a strong sense of team spirit, they see their own personal values as consistent with those of the organization, they feel attached and committed to the organization and ultimately have a sense of ownership of the organization[5]." However, if the pay disparity is so wide, regardless of the positive work environment that MRI found at the Southborough Police Department, officers will leave.

In the past, the cost of employee turnover has been simply considered the price of doing business and is routinely absorbed into the operating budget. Since these costs do not appear as a line item, little attention has been given to the cost of losing employees. However, it is important to first have a full understanding of the organizational and financial investment an agency has in its staff. Often, there is a tendency to focus on the short-term costs of replacing an officer and ignore the investment that has compounded over the years. Much of the knowledge and experience an officer possesses can only be obtained by doing the actual job itself. A great portion of this knowledge is gained in the first five years of employment. When an officer is recruited away, or "poached", the financial and time investment in knowledge and experience for the officer leaving for greener pastures is lost forever. This investment serves as a substantial grant to the new employer. Basically, the contributing agency paid to train the officer for the receiving employer. Compounding the problem, the strength and cohesion that a department gains by having experienced staff is diminished and cannot be replaced. Over time, agencies with higher turnover and less experienced officers often suffer reduced productivity, lower quality of service delivery, more frequent complaints, and liability risks. While these costs are difficult to quantify, they are just as real to the organization as salaries and training costs.

As MRI attempts to project a conservative estimate of Southborough's financial investment in an employee, the goal is to focus upon the cost of selecting and training a newly hired police officer. However, there are a host of intangible costs when an incumbent officer leaves employment such as the deviation of the Chief's or Lieutenant's salary and benefits from the role already expected of this position. While often mundane work, there are a host of tasks that need to be addressed in the process to hire a new employee.

In the current state of the Southborough Police Department, newly hired personnel that have been recruited, in part, to replace tenured officers that have left for opportunities elsewhere, are put "on the street" as reasonably soon after they've received basic police training at MPTC academy and the 8-to-12-week FTO training upon their return to Southborough. Academy training provides new police officers with a playbook of minimum skills needed to address the

[5] The Leadership Challenge; Kouzes and Posner

most basic calls for service. The cost of the Knowledge, Skills, and Abilities (KSA) gap between an entry level police officer and one substantially tenured is almost impossible to calculate...until the Town is litigated. Tens of thousands, hundreds of thousands, or even millions of dollars may be the measure.

In the exercise below, MRI attempts to analyze the costs for a variety of functions within the Southborough Police to oversee processing the recruitment, selection, and training of a new employee. Ultimately, MRI recommends that Southborough Police review best practice strategies and implement policies and procedures related to engaging the most effective ways to recruit and more importantly, to retain employees.

Recruitment Costs

The Lieutenant is tasked with reviewing all the resumes and determining a list of qualified applications interested in the Southborough Police Department. He later sends a notification to those that are under consideration and to confirm their continuing interest. If nothing is heard, the Lieutenant routinely contacts the applicant again, ensuring that their silence is deliberate. The time in reviewing, analyzing, and determining who proceeds to the next phase, consumes approximately eight (8) hours of time over the course of this process:

8 X $63.55 =	$508.40

Candidates are scheduled for a medical examination, drug screening, and psychological testing. During this time, the Detective Bureau, when staffed, conducts a background investigation on each candidate, unless there are multiple candidates, and then he will obtain additional support from the Sergeants. According to the Lieutenant, each background consumes (40) forty hours of time. Also, during this early phase, the Lieutenant briefs the Chief on each candidate and schedules interviews with each candidate. Present for the interviews is the Chief, the Lieutenant and (5) five Sergeants. A secondary interview is scheduled with the Chief and Town Administrator, whose time will not be calculated in this exercise.

The next phase involves scheduling each candidate's participation in a pre- physical agility test to ensure that the candidate has the capacity to pass the Massachusetts mandated PT exercise. Without successful passage, the candidate is unable to gain entrance into an MPTC academy. The assignment of additional police staff to proctor the testing adds additional expense.

4 X $40.52 =	$162.10
Cost of initial interview:	$1,339.44

Cost of the applicant's medical and drug screening:	$401.67	
Cost of psychological screening exams:	$375.00	
Background Investigation:	$1,702.08	
Total selection costs:		**$4,488.69**

New Employee Costs

Once the position is offered, there is an orientation for salary, benefits, setting up new employee credentials, and ancillary completion of required employment paperwork. In addition to the new officer's salary and benefits for the time committed to these tasks, these numerous administrative duties consume most of one-day for an officer who accompanies candidate/s to assist and coordinate:

On-Boarding Tasks:	$1,076.76	
The new employee requires a set of uniforms and equipment to attend the academy.		
	$2,604.00	
		$3,680.76

Training Costs

Massachusetts charges tuition and supplies for the basic police training:

$3,200.00

Recruit's salary and benefits while attending academy training:

$25,770.04

Once graduation occurs the officer is provided uniforms and other nuances associated with providing services to the Southborough community. Field Training (FTO) commences where the officer is accompanied by a certified Field Training Officer so that the new officer can be oriented to the nuances of providing policing services to the Southborough community. Familiarity with all the community streets, businesses, radio protocol and report completion requirements are accomplished throughout this twelve-week period and are part of this critical training. Southborough Police Departments has a well-structured and established FTO program.

480 hours x $40.52:	$19,451.52
Total Training costs	**$48,421.56**

There are a number of ancillary tasks that require completion and while it is factual that they are accomplished by persons already on the Southborough Police Department payroll, when they are focusing upon a new hire, they are not accomplishing their original job description. Additionally, MRI notes that to have an employee at the rank of Lieutenant accomplishing many of these mundane tasks is not recommended. However, these are the tasks and nuances of employee recruitment that while difficult to dissect appropriately, dominate the agency's time and distract from the mission of the organization.

At the conclusion of this exercise, MRI has determined that the estimated cost associated with recruiting, selecting, and training one new employee before they are certified to assume a patrol shift on their own is conservatively assessed at ***$56,591.00.*** With these costs multiplied by the eight (8) officers who have left employ of the Southborough Police Department in recent years, $452,728.00 has been expended to essentially train officers for another community.

RECOMMENDATIONS:

Hire six (6) police officers: MRI calculations determined that the Southborough Police should budget six (6) additional officers to the staff focusing exclusively upon patrol obligations. As noted, the strategy should be embraced to ensure patrol staff reaches the desired level of twenty-four (24) officers. If any officers are diverted from patrol to meet the demands of other duties, they should be replaced by additional personnel. Ironically, MRI has concluded that the effectiveness of the Southborough Police staff in providing services to the community may have become a detriment as their success allows the governing body to conclude that the agency is sufficiently staffed.

Add another sworn administrative position: MRI observed an overworked police administrative staff at the Southborough Police Department. With a myriad of tasks associated with managing a modern and risk adverse law enforcement organization, the Chief and a Lieutenant are challenged to keep abreast. MRI has provided a proposed organizational chart that separates oversight and ensures accountability and productivity throughout the organization.

Review ability to civilianize positions: MRI noted that there may be opportunity to review job tasks to ensure that sworn, highly trained officers are not removed from obligated patrol responses. A review of any current administrative tasks that are being performed by police

officers to determine the viability of civilianizing the role may be warranted. Engaging highly trained and compensated police to the role they are designed to accomplish while replacing with a trained, yet lower salaried civilian could be a strategy for Southborough to explore.

Conduct a community survey in 2024: MRI suggests that the Southborough Police conduct a survey to confirm the level of community satisfaction. Additionally, it would be informative to note if there were initiatives that the community would like the department to adopt such as a traffic or drug focus.

Create a new patrol shift: If the MRI recommendations are accepted and additional staff are retained, creating a new shift of 4 PM to 12 AM or 2 PM to 10 PM is encouraged. The hours the patrol shift spans are not critical and can be fine-tuned by Chief Newell. The added patrol coverage will supplement patrol staff capabilities during periods of historically high rates of calls for service while creating an overlap which maintains patrol activities during the 4 PM shift change.

Add to the investigative capacity: As noted, MRI concluded that Southborough Police could benefit from the addition of another full-time Detective to augment the lone Detective who is presently working vacant patrol shifts due to the shortage of personnel. Currently, there is extremely limited, or more likely no investigative case follow-up being conducted by the busy patrol component. This reality warrants serious consideration to tackle criminal investigations that are not being addressed. As noted throughout the report, removal of a patrol officer for any other task requires another hire to replace the recommended patrol staff of twenty-four (24).

Add a School Resource Officer: MRI recommends the designation of a full time SRO to provide services to the Southborough education community. These officers are critically important as they work in collaboration with schools and community-based organizations to provide a positive and visible law enforcement presence on school campuses. MRI's review of services provided by the Southborough Police detected that SRO's would accomplish five major roles that are currently being unmet in the Southborough community:

- An SRO is a law enforcement officer who would address any crime or disturbance in collaboration with school administrators.

- They strive to employ non-punitive techniques when interacting with students, using citation and arrest only as a last resort under very narrowly defined circumstances always in collaboration with school officials.

- SROs act as informal counselors as they build positive relationships with students and act as liaisons to community services for youth and families.

- They act as educators teaching students about crime prevention, safety, drug awareness, conflict resolution, and other topics related to law enforcement within the legal system.

- Finally, they coordinate emergency management as they collaboratively develop and implement emergency preparedness policies, including comprehensive school safety plans, and coordinate with first responders in an emergency.

Again, as noted throughout the report, removal of a patrol officer for any other task requires another hire to replace the recommended patrol staff of twenty-four (24).

POLICE DEPARTMENT – STAFFING ANALYSIS CONCLUSION

As stated in the beginning of this report, this document is designed to provide a valid workload analysis for the Southborough Police Department based upon a snapshot of the agency in 2023. This is an agency struggling to maintain what is considered to be an adequate response to the demands of the Southborough community. The goal of this report is to quickly identify the number of patrol officers required to address the existing demands upon the agency with a defensible prediction of the future needs. While six (6) immediate hires are recommended, this number could easily expand to address the community's desire for a focused traffic, SRO, and drug addiction initiative as well as the recommended addition of investigative personnel. Without staffing, the agency may be unable to maintain a proactive policing strategy and will slowly evolve into one of reaction.

With vast experience consulting with other communities in the Commonwealth, MRI has found that low staffing perpetuates through increased rates of attrition. Fatigued/overworked officers often seek alternative work situations, both in and outside of law enforcement. The cost of recruiting and training a new officer to the competency level of senior officers that have left the agency far exceeds the cost of supporting a program of officer wellness through appropriate staffing levels and retention in the first instance.

It is MRI's hope that this report provides a viable approach that is acceptable to the taxpayers of Southborough and allows the agency an opportunity to quickly focus upon those topics where enhancement would benefit the Southborough Police organization as it provides policing services to the community of Southborough.

SECTION TWO
EMERGENCY COMMUNICATIONS STAFFING ANALYSIS
SOUTHBOROUGH, MA

JULY 2024

INTRODUCTION

The Town of Southborough engaged Municipal Resources Inc. (MRI) to conduct a staffing analysis of the Emergency Communications Unit (ECU) within the Police Department. This report describes the results of that analysis. Our work is based on interviews with department staff and examination of records, call data, and the collective bargaining agreement between the Town of Southborough and the Southborough Communications Officers - MASSCOP, Local 445.

In the face of increasing costs and shrinking revenues, many communities are asking how many dispatchers are required to ensure public safety. Put another way, what number of dispatchers would help an agency most cost-effectively meet the demands placed on it? This is a fundamentally different question than how many dispatchers a community wants or can support. Yet matching the need to the level of service that the community is willing to support frames a discussion about realistic operational capability.

CURRENT STAFFING LEVELS AND SERVICE DEMANDS

Currently, the Town of Southborough employs 5 full-time dispatchers and 3 part-time dispatchers, with two of the part-time dispatchers currently being in training. One of the full-time dispatchers will be leaving to become a full-time firefighter with the Southborough Fire Department leaving a full-time vacancy as of July 01, 2024.

The current minimum staffing per shift is one dispatcher. With rotating shifts being split as follows:

- Dayshift: 4 days on, 2 days off
- Evening Shift: 4 evenings on, two days off.
- Split Shift: 2 dayshifts on, 2 evening shifts on, two days off
- Midnight shift: 4 midnights on, two days off. The remaining two midnight shifts are covered by overtime or part-time employees.

The single on-duty dispatcher handles all 911 calls, business line calls for the police and fire departments, after-hours business calls to other town departments, all animal control calls, and all walk-in patrons to the public safety building. Dispatchers also handle a slew of other auxiliary tasks such as receiving LTC applications, traffic detail requests, records requests, visual prisoner checks, logging and processing for service all incoming restraining and harassment prevention orders, monitoring custody exchanges that take place in the lobby, returning property and license plates to owners, e-citation audits in the CAD system, manual citation entry when the e-citation system is down, vacation house check requests, receiving packages/mail, and other duties as assigned.

CHALLENGES TO CURRENT STAFFING LEVELS

There are several challenges and inherent risks associated with having a single dispatcher assigned to perform all tasks as described above. The high workload and multitasking demands can overwhelm a single dispatcher, leading to elevated stress levels and potential burnout. This can result in delayed response times and decreased service quality, which are critical in emergency situations. The complexity and diversity of the public safety telecommunications tasks increase the likelihood of errors and omissions, potentially jeopardizing both public and emergency responder safety.

During an emergency call, the dispatcher is the critical link between the public and first response personnel. As a single dispatcher is faced with a myriad of high priority tasks, they quickly become a bottleneck, causing inefficiencies and delays in processing incoming and outgoing calls while handling administrative tasks. Public dissatisfaction may rise due to long wait times and inadequate assistance for walk-in patrons and callers, while after-hours calls to other town departments may not be promptly handled. The mental health impact on the dispatcher is significant, with continuous high stress leading to fatigue and burnout. Additionally, critical tasks requiring meticulous record-keeping, such as LTC applications and restraining order logging, may suffer due to divided attention, affecting compliance and accountability. To address these issues, increasing staffing, specializing roles, implementing advanced technology, and providing regular training and mental health support are essential steps.

RESEARCH AND DATA

Furthermore, according to the PSAP Staffing Guidelines Report, "small PSAPs" are PSAPs serving a population of less than 19,000. Southborough qualifies as a small PSAP, therefore the recommendation for minimum staffing is as follows. However, this general recommendation

does not establish the distribution of staff. Distribution of staff should be based on call volume per time of day.

PSAP Size	CT/ Disp	Ops Supervisor	Total Ops	DBA	Technical	Training	Public Education	Admin	Total Support	Total Staff
< 19,000	7	1	8	0.1	0.2	0.2	0.05	0.45	1	9

Figure 2-1: PSAP Staffing for communities of less than 19,000 residents.

In looking at the call statistics report (Figure 2-2) from the last six months of 2023, one can gather that increased staffing would be beneficial between the hours of 8 am and 8 pm.

Hour	Calls Presented	Calls Answered	Calls Abandoned
00:00 - 01:00	24	24	0
01:00 - 02:00	18	18	0
02:00 - 03:00	20	18	2
03:00 - 04:00	24	22	2
04:00 - 05:00	17	16	1
05:00 - 06:00	32	27	5
06:00 - 07:00	38	37	1
07:00 - 08:00	49	44	5
08:00 - 09:00	75	72	3
09:00 - 10:00	78	73	5
10:00 - 11:00	89	81	8
11:00 - 12:00	81	74	7
12:00 - 13:00	100	91	9
13:00 - 14:00	96	88	8
14:00 - 15:00	92	89	3
15:00 - 16:00	107	99	8
16:00 - 17:00	101	96	5
17:00 - 18:00	102	99	3
18:00 - 19:00	92	84	8
19:00 - 20:00	66	63	3
20:00 - 21:00	67	61	6
21:00 - 22:00	45	39	6
22:00 - 23:00	50	42	8
23:00 - 24:00	36	35	1
Total	1,499	1,392	107

Figure 2-2: State 911 Report – Calls Per Time of Day 07/01/23-12/31/23

OPTIONS FOR INCREASED EFFICIENCY

Option One - In an effort to reduce the liability and difficulties of a single-dispatcher center would be to increase staffing to two (2) Dispatchers on dayshift (7 am-3 pm) and evening shift (3 pm-11 pm). Because of the rotating shifts, this would mean hiring three (3) more full-time dispatchers to be assigned to the day and evening shifts for coverage. Starting salary for a dispatcher in FY24 is $23.91 per hour or $49,732.80 annually. Therefore, the annual budget of $395,803.00 would need to be increased by $163,764.40 to accommodate the salaries, holiday pay, and shift differential for the three new hires. This operating budget encompasses salaries, overtime, and stipends for the emergency telecommunicators. Below is the detailed breakdown of the line items as published in the Town of Southborough FY24 Budget. Total dispatch budget for the ECU would then be $559,567.40. This increase also does not account for fringe benefits such as health and dental insurance. The fringe benefits would also increase by approximately 48%, which would account for an additional $78,606.91 added to the Town of Southborough's annual budget.

	FY 2024
210 Police Department	**BUDGET**
51110 Part-time Dispatchers	0
222-51100 Disp. Salaries FT	301,007
222-51110 Salaries Part-Time	29,002
222-51300 Disp. Salaries Overtime	23,540
222-51410 Disp. Holiday Pay	17,169
222-51430 Disp. Shift Differential	7,610
222-51440 Disp. Education Incentive	2,000
222-51450 Disp. Longevity	1,450
222-51900 Tuition Reimbursement	
222-51951 Lead Dispatcher	3,900
Salaries and Wages Totals	**385,678**

Figure 2-3: Emergency Communications Budget

Increasing staffing and professionalism within the ECU would also require a dedicated Supervisor to oversee the operations. The ECU is currently overseen by a police sergeant; however, the department employs a "lead dispatcher" role, which functions as a working supervisor. This lead dispatcher is tasked with overseeing and scheduling ECU staff, distributing voluntary overtime, managing forced overtime, and assisting the police sergeant and lieutenant with other administrative tasks.

In a hierarchical organization, employees report to a single supervisor, creating a clear chain of command. Currently, the lead dispatcher lacks the authority and resources to fully accomplish their mission. To improve efficiency and reduce confusion, all ECU employees should report

directly to a Civilian Dispatch Supervisor, who will then report up the chain of command. Multiple overseers for dispatch can lead to confusion and role strain among police personnel assigned to oversee dispatch operations. For instance, when operational questions arise, the lead dispatcher might defer to the sergeant or lieutenant, leading to delays in decision-making.

Furthermore, having the ECU as part of the police hierarchy can create alienation of the fire department and lack of knowledge and cooperation with fire department staff and procedures. For example, the fire chief would like to enhance deployment strategies. Collaboration with the Southborough dispatch supervisor would assist in this process. To address this issue, an operations committee should be created and tasked with review, design, and implementation of all response schemes, policies, and procedures to be adopted by the ECU through the supervision of a newly established and empowered Dispatch Supervisor. This could be a promotion for the current lead dispatcher position and would most likely result in an increase of approximately $15,000.00 to be comparable to surrounding towns' dispatch supervisor salaries.

Option Two - The Town of Southborough is to continue to explore and evaluate the possibility of moving the dispatch operations into a regional emergency communications center (RECC). Currently, the State of MA has thirty-two (32) Active RECCs and two (2) in the process of being built. There are two RECCs being built adjacent to the Town of Southborough, one in Framingham and one in Westborough. Although assessment costs can vary greatly, emergency communications regionalization has proven to be cost-effective and instrumental in enhancing coordination and response efficiency across multiple jurisdictions. Additionally, regionalization of emergency communications can help standardize response protocols, improve interoperability, and strengthen overall disaster preparedness and resilience.

Emergency communications regionalization offers numerous advantages that significantly enhance public safety operations. By consolidating resources, regional centers achieve cost savings and operational efficiencies through economies of scale and shared technology. They enhance coordination and response by providing unified command and control, improving incident management, and enabling resource sharing. Standardized protocols and training ensure consistent and reliable emergency responses. Improved interoperability facilitates seamless communication between agencies and jurisdictions. Regional Communications Centers also bolster disaster preparedness and resilience with increased capacity and robust backup systems. They support professional development and well-being of emergency personnel, reducing burnout and enhancing job satisfaction. Ultimately, these improvements lead to higher service quality and public trust, making communities safer and more resilient in the face of emergencies.

Furthermore, there are more opportunities for funding, as well as incentives from the Massachusetts State 911 Department Grants Program, which can provide financial assistance for technology upgrades, training programs, and the overall implementation of regionalization efforts, thereby easing the financial burden on individual municipalities and promoting more effective emergency communications infrastructure.

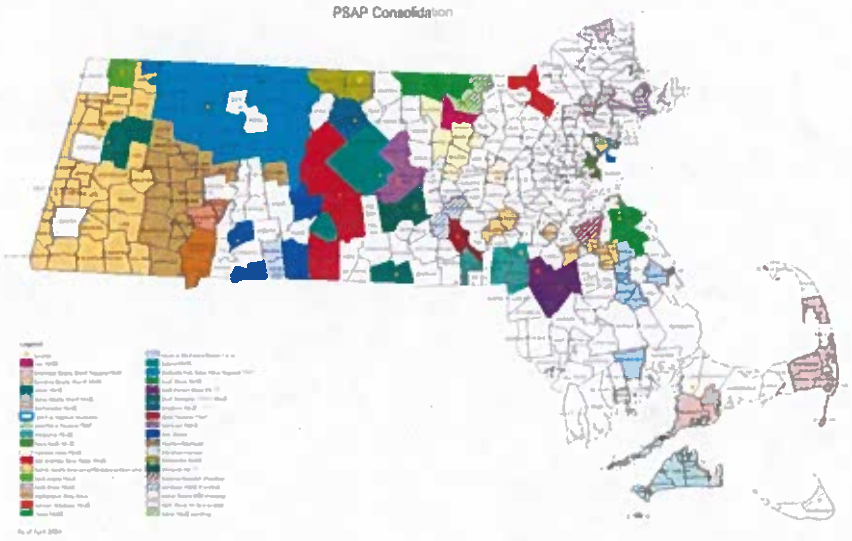

Figure 2- 4 – State 911 PSAP Consolidation MAP

EMERGENCY COMMUNICATIONS – STAFFING ANALYSIS CONCLUSION

In conclusion, the staffing analysis conducted by Municipal Resources Inc. (MRI) highlights the critical need for the Town of Southborough to address the operational challenges faced by the Emergency Communications Unit (ECU). The current staffing model, with its reliance on a single dispatcher per shift, is insufficient to meet the demands of the varied and complex tasks required for effective emergency communications. This report recommends increasing staffing levels and restructuring the ECU to ensure improved efficiency, better response times, and enhanced public safety.

Specifically, the Town should consider increasing the number of full-time dispatchers and establishing a dedicated Civilian Dispatch Supervisor role. This would provide a clear chain of command, reduce role confusion, and ensure more consistent and effective oversight. Additionally, an operations committee should be formed to facilitate cooperation between the ECU and other departments, such as the police and fire departments, ensuring that all response schemes and procedures are well-coordinated and effectively implemented.

Another viable option for the Town of Southborough is to explore the potential benefits of regionalizing its emergency communications. Joining a Regional Emergency Communications Center (RECC) could provide significant cost savings and operational efficiencies. Regionalization would not only standardize response protocols and improve interoperability but also enhance overall disaster preparedness and resilience.

Ultimately, whether through increasing local staffing and restructuring or moving towards regionalization, the goal is to ensure that the ECU can effectively support the public safety needs of the community. By addressing these recommendations, the Town of Southborough can improve the effectiveness of its emergency communications, thereby better protecting the safety and well-being of its residents.

SECTION THREE
FIRE RESCUE STAFFING ANALYSIS
SOUTHBOROUGH, MA

JULY 2024

Introduction and Overview

Southborough Fire Rescue today is referred to as an "All-Hazards Response Department" as the organization is responsible for providing the town with a wide variety of services that include:

- fire prevention education,
- fire-related inspectional services,
- response to fires,
- hazardous materials incident response,
- response to medical emergencies,
- technical rescue services both on and off the water.

Over the years, service demand has increased and the response to a wide variety of incidents has increased in terms of the challenges faced in Southborough and the complexity of safe operations. To continue to provide the Town of Southborough with the expected level of service the department must constantly evolve. The challenges with responding to day to day calls for service changed dramatically with the COVID-19 pandemic and even today continue to challenge us with newer strains of viruses that we not only need to treat but also need to provide proper training and equipment to keep first responders healthy and safe so they can continue to do the job.

The increasing demand for fire services, a nationwide trend, is having an impact on the operational structure currently in place within Southborough. Like many communities across the United States, population growth and the advancing age of the population results in an increased demand for emergency medical services. Demographic trends have also resulted in a decline in the recruitment, retention, and availability of paid on-call first responders which challenges the response capability of the Southborough Fire Department.

The once always available, effective group of paid-on-call first responders has been in a steady decline in recent years. Often, full-time work mandates, family commitments, increasing training requirements, required certifications, and other competing interests have combined to diminish the availability of responders. Ultimately this diminishes the organization's ability to provide a

timely response to emergencies. In addition, younger generations tend to prioritize leisure time which can reduce the level of interest in becoming an on-call firefighter. Statistics indicate that the highest levels of response are from older members. Southborough is not immune to this dilemma and is part of the nationwide problem in the on-call and volunteer fire service. This problem has required many communities to transition toward full-time staff, and in many cases increase the number of staff to meet the needs of the community.

Evaluation of Current Conditions

Town of Southborough

The Town of Southborough covers 15.7 square miles with 1.5 square miles of water and covers sections of Interstate 90, 495, and Routes 9 and 30, and incorporates the villages of Cordaville, Fayville, and Southville. According to the 2020 census, the Town has a resident population of 10,450 residents with a population density of 620.7 persons per square mile[6]. This population greatly fluctuates by the thousands depending on the time of year. The town has 43% of land use as residential and 35% open space. The actual number of people students and staff at the two private schools varies with on campus dorms throughout the year all of which have a direct impact on the services provided by the Southborough Fire Department.

[6] U.S. Census Bureau, "Southborough Massachusetts," 2022

Fire Rescue Department

Southborough Fire Rescue provides a wide variety of fire and rescue services. Services provided include both firefighting and rescue services such as vehicle extrication and limited technical rescue. First responder medical service is provided by the Fire Department with transportation and Advanced Life Support care (ALS). The Department operates out of the Public Safety Building located at 32 Cordaville Road. The 28-member department operates 24 hours a day 7 days a week providing administration, fire prevention, fire, rescue, and EMS response.

The Southborough Fire Department currently operates with four working groups of five personnel each. The Department drops to four members per shift due to vacancies in time off, sick, and injury leave. This results in a four-person shift the majority of the time and is inconsistent with the service expectation present in the Town of Southborough. In addition, during times of fiscal concern, the fire prevention officer has been used to fill a shift position diminishing the ability to accomplish the fire prevention function within a growing community.

With four firefighters on duty a supervisor, and one firefighter staff an engine, and two firefighters' cross staff both an ambulance and ladder truck. When a structure fire occurs, the Department is faced with operational challenges of mitigating a complex incident with three personnel operating inside a building. We believe that an operational minimum should consist of five personnel on duty which would result in a four-person interior operation when all units are available. In terms of operational capability, the residents of Southborough should also understand that when the town's primary ambulance is transporting a patient, the Town is frequently left with just two firefighters remaining for an extended period of time.

A major focus of the Department is community risk reduction. This is accomplished by conducting inspections, drills, education programs, and plan reviews. In 2023 the Inspectional Services Division (Fire Prevention Officer) conducted 595 such incidents.

Organizational Structure

The structure of any organization or entity, whether public or private, establishes and illustrates the important hierarchical relationships necessary between various personnel and supervisors/subordinates within the organization, that allow it to function properly, operate

effectively, and efficiently in its daily operations or the pursuit of its mission. Critical to the organizational structure is the leadership team that moves the organization forward. Currently, the leadership team of fire officers of the Southborough Fire Department dedicate a significant amount of time and foster a strong level of commitment to the organization.

Having a rank structure that allows for movement within the organization with increasing responsibilities, and which provides a succession ranking should someone leave the organization, is critical in maintaining the chain of command and continuity of the organization. The Fire Chief continues to take action to encourage and develop members to be future leaders of the organization. A true succession plan is dependent upon determining what the future staffing level will be moving forward.

The Department has served the community with distinction over the decades. They have been able to meet the needs of the Town given the resources and commitment of the residents. The Department has also contributed to public safety within the fire district and beyond through participation as a member of the Statewide Fire and Ambulance Mobilization Plan.

Fire service organizations are mission driven organizations. The mission often becomes part of a fire department's organizational culture. It is a normal sense of one's duty, responsibility, and service, which provides the hallmark for fire and emergency services, and drives a sense of community pride and involvement, which are both proud traditions. However, because of the changing dynamics of today's fire service, organizations are looking to explore various alternatives to the traditional model of fire service delivery. These alternatives include broader sharing of resources through automatic aid agreements, establishing regional partnerships in applying for federal grant funding, and developing economies of scale, through shared purchasing initiatives.

Staffing is the biggest key to the success of any Fire and EMS service response. For the most part, the average citizen only sees the amount of fire trucks and ambulances a department has and sees that as their fire department. It has often been said that the fire service can have all the best equipment, but that equipment is useless without a good and efficient crew to operate it. In today's world, call, and volunteer firefighters are getting harder and harder to recruit, and to retain. This is a nationwide issue that is now becoming a crisis in many communities.

The United States Fire Administration, part of the Federal Emergency Management Agency in the Department of Homeland Security, recommends that a minimum of four firefighters respond on or with each apparatus. In its respected textbook *Managing Fire Services,* the International City/County Management Association (ICMA) states, *"that at least four and often eight or more firefighters under the supervision of an officer should respond to fire suppression operations."*

They further state, *"If about 16 firefighters are not operating at the scene of a working fire within the critical time period then dollar loss and injuries are significantly increased, as is fire spread."*

Beyond the NFPA standard(s), which as standards do not carry the weight of regulation or law, is the Occupational Safety and Health Administration (OSHA) Respiratory Protection Standard, CFR 1910.134, which carries the weight and force of regulation, thus making compliance mandatory. One key provision of the Respiratory Protection Standard that is directly applicable to fire department staffing is known as the "two-in/two-out" rule. In brief, this regulation specifies that anytime firefighters operate in an environment/atmosphere that is "immediately dangerous to life and health" (IDLH), whenever two members enter the IDLH area together/as a team, they must maintain visual or voice communication with two additional firefighters who must remain outside of the IDLH atmosphere, prepared to render immediate emergency assistance to those inside. The OSHA rule does provide an exception, however, and states that the rule does not apply in emergency rescue situations where a person is visible and in need of immediate rescue, or there is credible and reasonable information that potentially viable victims are still in need of rescue.

To comply with the "two-in/two-out" rule, a team of four firefighters must be assembled before an interior fire attack can be made when the fire has progressed beyond the incipient stage, except in an imminent life-threatening situation when immediate action could prevent the loss of life or serious injury before the team of four firefighters are assembled. The serious concern of the Southborough Fire is that the OSHA "two-in/two-out" rule permits an exception for life hazard or rescue situations. The reality is that in one of the most serious life hazard fire situations that can be encountered, trapped civilians, a firefighter may need to place himself/herself in extreme danger by entering the structure alone.

The OSHA "two-in/two-out" rule is an essential component of operational safety and should be the basis of fire service operations within the study communities. Despite the rural nature of the area, and the reality of some elongated response times, interior operations beyond a visible rescue should not be initiated until four personnel arrive on the incident scene.

Insurance Service Organization (ISO) Rating

The Town currently has an Insurance Services Office (ISO) rating of **04/4X, which** is a respectable number but could be improved (attaining a lower rating) with some changes to the Department. ISO is an independent risk company that services insurance companies, communities, fire departments, insurance regulators, and others by providing information about risk. ISO's expert staff collects information about municipal fire suppression efforts in communities throughout the United States. In each of those communities, ISO analyzes the relevant data and assigns a Public Protection Classification a number from 1 to 10. Southborough is one of 4,524 communities that

are classified as a Class 04/4X community. This Class rating places the community just over the middle of the road of having a fire suppression program for its size. A Class 1 community represents an exemplary fire suppression program, and Class 10 indicates that the area's fire suppression program does not meet ISO's minimum criteria.

The Public Protection Classification (PPC) program provides objective countrywide criteria that may prove helpful in connection with fire departments and communities, planning and budgeting for facilities, equipment, and training. When companies have fewer or lower claims to pay, the premiums they collect can be lower. Therefore, by recognizing the potential effect of improved fire suppression on fire insurance losses, in that respect, the PPC program can often serve as an objective mechanism that can help recognize communities that choose to maintain and improve their firefighting services.

PPC can also be an important factor in overall community resilience and provides a consistent measurement tool that can help in these efforts, from the structural fire response perspective. Given the potential effect on fire insurance rates, the PPC could also be a factor considered by some businesses and developers to determine where to make investments.

Figure 3-1
ISO Grading Chart USA

While ISO's primary focus is to measure the effectiveness of a community's ability to respond to first alarm structure fires for insurance purposes, there are many derivative benefits. These include providing a statistically proven method of measuring performance; a methodology that can help as part of planning, budgeting for, and making improvements; a tool that can be used to further the concept of community resilience; and a metric that can help encourage investment in a community.

While the PPC grading can provide insurance underwriters with a snapshot of a community's risk, it also provides a community with a comparative perspective on fire service capability within the community. The fire department grading accounts for 50% of the total classification. ISO focuses on a fire department's first alarm response and initial attack capability that could minimize a potential loss. The rating for the fire department includes equipment, staffing, training, geographic distribution of fire companies, operational considerations, and community risk reduction.

Further information on the ISO rating system is located at:
https://www.isomitigation.com/ppc/fsrs/.

The fire service further assesses the risk profile based on several factors. Properties with high fire and life risks often require the response of greater numbers of personnel and apparatus to effectively mitigate an emergency. Staffing and deployment decisions should be made with consideration of the level of risk within each area of a community.

Looking Forward

Looking ahead, the Town of Southborough will continue to experience an increase in growth and development, as seen with the number of building permits issued and new construction beginning. While this development will have a definitive impact on the Town's emergency services, the exact amount is difficult to predict quantitatively and accurately. Increased development of any type will mean an increase in the number of people living, working, and traveling within the area. Each of these will reasonably be expected to result in an increased number of requests for services from the Fire Department. They can also impact response times through increased traffic and congestion.

It is likely, the most significant increase in requests for emergency services will be emergency medical service (EMS) related. More people simply increase the number of medical emergencies that occur. It would not be unreasonable to expect that the increase in EMS incidents would be proportional to the increase in population. Although several demographic factors ultimately impact the volume of requests for EMS service, it could reasonably be anticipated that an increase in population, along with potential increases in employment from any significant commercial development, would translate into an increase in EMS incidents.

Another important point related to having sufficient personnel to respond to emergencies is that the public assumes when they see a fire apparatus responding to an emergency, that there is a full crew of four firefighters on an engine or ladder. The reality is that the greater majority of the time, it is only a driver or a driver and another firefighter that staffs this apparatus. Often, there is a significant delay in getting enough manpower to fight a fire and to meet the minimum

number of firefighters on scene to comply with both the OSHA "Two In and Two Out" Standard and NFPA 1710, which is the standard for the organization and deployment of fire suppression operations by on-call and volunteer fire departments.

A number of fire departments throughout New England are adapting to this growing problem by adding full-time firefighters to fill the gaps that develop when the majority of on-call personnel are not available. This staffing transition supports the delivery of a timely response, during the day and night when call members are least available.

Service Demand

Southborough Fire has been a staple in the Community for many years and from early on the department has seen a tremendous change in the calls for service from as few as 18 to as many as 1565 in 2022. The service demand has a true correlation between the population and the number of incidents, and the type of incident the department responds to. As a community that has a daily, weekly, and monthly actual population swing that is all dependent on the weather and the time of the year the department must be properly and reasonably prepared to handle the swings in incidents. The population swings are caused by "summer residents," summer camps, local and regional activities including ice and snow events and activities, and the recent uptick of hiking the many trails in the area that are all publicized "destination" locations.

Incidents Response Types and Times

From the perspective of effective emergency response, there are three main factors that are used to help determine the deployment of resources: response time, travel distance, and call volume. For most evaluations, response time is the most critical factor; an important measuring instrument to determine how well a fire department or first response EMS provider is currently performing, to help identify response trends, and to predict future operational needs. Getting emergency assistance to the scene of a 9-1-1 caller in the quickest time possible may be critical to the survival of the patient and/or successful mitigation of the incident. Achieving the quickest and safest response times possible should be a fundamental goal of every fire department and first response EMS provider. It is not just a cliché that during critical life-threatening situations, minutes and even seconds truly do count.

Type of Incidents

An analysis of the type of incidents Southborough Fire responded to in 2022 and 2023 was completed with the data provided. The table below shows a broad classification of the types of incidents as reported to the National Fire Incident Reporting System (NFIRS) and an average of the number of responses to each. The fire department reports this and other data to the State

Fire Marshal monthly and as a result are part of the National Incident Reporting System and national statistics. Regardless of the actual incident address, all responses were calculated as it was a service that was provided by the fire department.

NFIRS Reporting System	2022		2023		Difference	2 Year Average	
	# Calls	% of Calls	# Calls	% of Calls	# Calls	# Calls	% of Calls
100 Series - Fires	53	11%	38	2%	-15	46	3%
200 Series - Ruptures / Explosions	1	0%	0	0%	-1	1	0%
300 Series - Rescue / EMS	902	184%	967	62%	65	935	62%
400 Series - Hazardous Condition	62	13%	69	4%	7	66	4%

800 Series - Severe Weather	2	0%	4	0%	2	3	0%
900 Series - Special Incident	2	1%	0	0%	-2	1	0%
TOTAL	1438	293%	1565	100%	127	1502	100%

Figure 3-2
Fire Department by Incident Type

The highest demand for service is for medical emergencies with a two-year average of 62% of the total call volume. False alarms at 15%, and Good Intent calls at 8% round out the top three types. Fires themselves reflect 3% of the response volume during the years of the study.

Incidents by Month, Day, Time, and District

Incidents by month, day of the week, and time of day were also analyzed. The number of incidents by month is pretty much level throughout the year indicating the service truly is needed year-round.

	2022		2023		Difference	2 Year Average	
	# Calls	% of Calls	# Calls	% of Calls	# Calls	# Calls	% of Calls
January	120	8%	122	8%	2	121	8%

TOTAL	1438	100%	1565	100%	127	1502	100%

Figure 3-3

Analysis by Month

The day of the week was looked at next to see if there was a trend for call volumes and response requests. The chart below indicates that the day of the week has little or no bearing on the call volume as statistically the volume is spread pretty evenly.

Incidents by Day of the week

	2022		2023		Difference	3 Year Average	
	# Calls	% of Calls	# Calls	% of Calls	# Calls	# Calls	% of Calls
Monday	162	11%	175	11%	13	169	11%
Tuesday	202	14%	240	15%	38	221	15%
Wednesday	214	15%	245	16%	31	230	15%
Thursday	199	14%	222	14%	23	211	14%
Friday	219	15%	233	15%	14	226	15%
Saturday	228	16%	224	14%	-4	226	15%
Sunday	211	15%	221	14%	10	216	14%
	1435	100%	1560	100%	125	1498	100%

Note: Total numbers do not have the same totals as other charts due to incorrect data from RMS

Figure 3- 4
Analysis by Day of the Week

The time-of-day data indicates that the peak time of service is from 7:00 AM to 9:00 PM. This seems to correspond well with the time most of the residents are up and about taking care of their daily tasks. Not surprisingly, the time frame from midnight to 6 AM, when most people are sleeping, indicates the slowest time. What is truly clear is that the needs of the public are 24 hours a day. It is important to be able to respond efficiently and effectively to incidents all day, every day.

Incident by Time of Day	2022		2023		Difference	2 Year Average

Figure 3-6
Analysis of Out-of-Town Responses

Mutual Aid is the give and take of the fire service. Southboro is an active part of Massachusetts Fire District 14 as well as the Massachusetts Fire and EMS Statewide Mobilization Plan. Both of these are key components to the fire department as it allows Southboro to receive statewide resources any time it may be needed at no cost.

Breakdown of Aid given vs. received						
		2022	2022		2023	2023
		Given	Received		Given	Received
Ashland		10	8		7	6

Other Disposition	2%	18	3%	27	9
Total Records	884		903		19

Figure 3-8 EMS Incidents

EMS Incidents are a large part of the services that the Department provides. It is important to note that not all calls for an ambulance require transport to the hospital. Often these are due to medical alarms being accidentally activated, or someone requesting an evaluation that does not require an ambulance trip to the hospital.

Response Times

Structural firefighting has become far more challenging and dangerous in the last 30 years. A fire can easily at least double in size and intensity every 30 seconds. If firefighters cannot arrive in a timely manner and attack the fire quickly, a strong possibility exists that a dangerous flashover (simultaneous ignition of all combustible materials in a room) will occur. Flashover can occur within five to seven minutes of fire ignition and is one of the most dangerous events that firefighters or trapped civilians can face. When a flashover occurs, initial firefighting forces are

generally overwhelmed and will require significantly more resources to affect fire control and extinguishment.

Heart attack and stroke victims require rapid intervention and care, and transport to a medical facility. The longer the time duration without care, the less likely the patient is to fully recover. Numerous studies have shown that irreversible brain damage can occur if the brain is deprived of oxygen for more than four minutes. In addition, the potential for successful resuscitation during cardiac arrest decreases exponentially with each passing minute that cardiopulmonary resuscitation (CPR) or cardiac defibrillation is delayed. The true key to success in the chain of survival is the education and early access to the 911 system by civilians. The early notification coupled with the added skills of professionally trained EMS staff that arrive quickly and transport at the appropriate level of care are all key factors in a positive outcome for patients.

The Commission on Accreditation of Ambulance Services defines the Response Time Standards that an agency shall meet.

Section 301.01.03 states:

"The agency, in collaboration with the Medical Director, shall have established response time metrics based on internal and or external standards, as well as dispatch acuity for all levels of service provided.... For all life-threatening requests, the default total response time standard will be eight minutes and fifty-nine seconds 90% of the time unless the Medical Director and the oversight agency have agreed a different response standard is appropriate due to system design that can document qualified EMTs' arrival on scene prior to the responding unit.

Although NFPA 1710 provides essential benchmarks, fire departments often measure baseline performance in terms of *total response time*, which is the time it takes from the call to be received at the Public Safety Answering Point (PSAP) until the first unit arrives on the scene of the emergency incident. Total response time should be measured and reported for all first-due units *and* the effective response force (ERF) assembly. Total response time is composed of call-processing time, turnout time, and travel time:

- *Call processing time* – the elapsed time from the call being received at the PSAP to the dispatching of the first unit.
- *Turnout time* – the elapsed time from when a unit is dispatched until that unit changes its status to "responding."

- *Travel time* – the elapsed time from when a unit begins to respond until its arrival on the scene.

The response travel time is calculated from the time of dispatch to the time of arrival of the first piece of fire/EMS apparatus. It is also important to keep in mind that there are many possible variables to actual response travel times such as weather, physical location of the incident compared to the location of the station (travel distance), especially during mutual aid responses, as well as other simultaneous calls that may be happening. It is also important to note that the response time of fire staff for non-EMS incidents is typically higher. Before staff leave the station, they should be wearing all of their personal protective equipment (boots, pants, hoods, and coats).

Benchmarking and Comparative Analysis

As part of the study, the team prepared a benchmarking and comparative analysis survey for distribution to a several comparable communities. Benchmarking and comparative analysis is a process that compares specific data points within similar agencies or communities and is an effective way of making general comparisons between similar communities and identifying trends and patterns, but there are limitations as to how the data should be used. The purpose of this process is to provide a perspective relative to the organizational practices of other similar entities. Ideally, a community would utilize this information to identify needed change and through paced action, work incrementally toward implementation.

The communities selected are normally derived from recommendations from town officials. This is done purposely to avoid any perception that the members of the emergency services departments being assessed selected favorable comparable. The MRI team worked with Chief Puntini to develop appropriate points of comparison for the benchmarking and comparative analysis. The communities selected included 13 of the 15 communities typically utilized by the Town of Southborough for peer comparison. The Towns of Framingham and Shrewsbury were specifically excluded based on dramatic differences in size and or services provided.

To extract the maximum amount of data, Chief Puntini was asked to contact the fire chief in each community and request cooperation and response. The Chief received responses from Ashland, Carlisle, Maynard, Medway, Milford, Millis, Norfolk, Northborough, Sudbury, Wayland, and Weston. The Towns of Berlin, Concord, Groton, Hopkinton, Medfield, Millbury, and Sutton were unable to respond.

The methodology for calculating various data categories may vary from community to community, so this can have an impact on the comparison. For example, a fire department budget in one community might not include personnel benefits costs, which would skew the comparison. In the past, MRI has encountered departments that have used different formats to assign incident numbers to emergency calls, or that also assign these numbers to routine activities such as public education programs, inspections, and training (Amesbury does this which made obtaining accurate response data for this report more challenging). As such, when reading and trying to interpret the information in the tables and graphs in this section of the report it is important to consider that the specific details for the data used could only be extracted with a more detailed and in-depth study of those communities.

There are similarities between each of these departments, but it should be noted that there are also differences in how each community delivers fire and EMS services. Each municipality and its fire department provide emergency and other public services based on the expressed desires of that community and its citizens. What may be effective in one community may not be in a neighboring town. The ability of the fire department to provide the services desired by the community it serves is based on its available funding and resources.

This analysis developed a data set encompassing 43 fire service-related data points that can serve as a useful perspective for the Town of Southborough. Based upon the information contained above MRI has developed the following observations and recommendations pertinent to the Town of Southborough:

- Southborough has a 22% smaller population and 6% more land area than the average.
- The overall community budget in Southborough is 77% of the average and the fire rescue budget is 80% of the average.
- The cost per capita for fir rescue services is $221.72 which is slightly above the average per capita cost.
- Southborough has 12% fewer structure fires and 25% fewer fire related incidents than the average.

- Southborough experienced a far lower fire dollar loss compared to the other communities.

- Southborough experienced 41% less demand for EMS services than the average.

- Southborough Fire Rescue responded to 40% fewer incidents than the average.

- Southborough has 13% fewer career personnel and a 26% lower shift strength when compared to the averages.

- Southborough Fire Rescue had 38% lower than average overtime expense.

- Southborough Fire Rescue experienced a higher number of firefighter injuries when compared to the other communities.

- The number of personnel staffing apparatus was slightly lower in Southborough when compared to the average. In addition, Southborough staff's fewer pieces of apparatus when compared to the average.

- Southborough Fire Rescue has an 18% lower shift strength than the average.

Data Tables:

Community	Community Population	Square Miles	Fiscal 2024 Community Budget	Fire / EMS Budget for Fiscal Year 2024

Staffing Levels

Staffing across the nation has been a challenge and this challenge has been made greater since the inception of the COVID-19 pandemic. Southborough, the Fire District, the Commonwealth, and across the nation are having trouble in recruiting and retaining good quality people to fill jobs.

Another challenge is the lack of personnel available for recall when an incident develops. Based on the high cost of living in Southborough, many fire fighters reside outside of the immediate area, and are not available to quickly respond when a significant incident occurs, and additional apparatus is needed.

Having an appropriate level of staffing is never an easy number to produce. Of course, meeting the National Protection Association standard would be great, more staff would be even better but financially not practical for most communities to have.

Based on today all things known the department and the Community would be better served by increasing staff in the following manner.

1) Add a Deputy Chief (or Assistant Chief) to the department administration. This position would be to not only work side by side with the Chief but to also be there when the Chief is not able to. In Southborough, this position could also be the second or backup person to the Inspector. Inspectional Services is nonstop in the fire service and currently, there is only one person doing the work and when he takes time off the "customer" often has to wait for him to return to move forward with permitting and inspections.

2) Add four full-time Firefighter/ EMS providers to the department. This would add one more to each work group, allow the shift commander to function in a Command car when the shift is full, and respond to calls quicker to obtain a size up and move apparatus around as needed. Adding these positions would allow for a supervisor and four firefighters on duty 24/7. There is a potential of allowing the shift to drop to a minimum of four and putting the officer back on the engine to respond to calls.

3) Add a full-time position to conduct fire and EMS training to on duty shifts. This position would ensure better quality and continuity of training.

4) The staffing levels will need to be monitored on a continuous basis and adjusted as needed annually. As our world changes and the demands on the fire service change, staffing will need to change to keep up.

Town of Southborough
Fire Department
Proposed Organizational Chart -2024

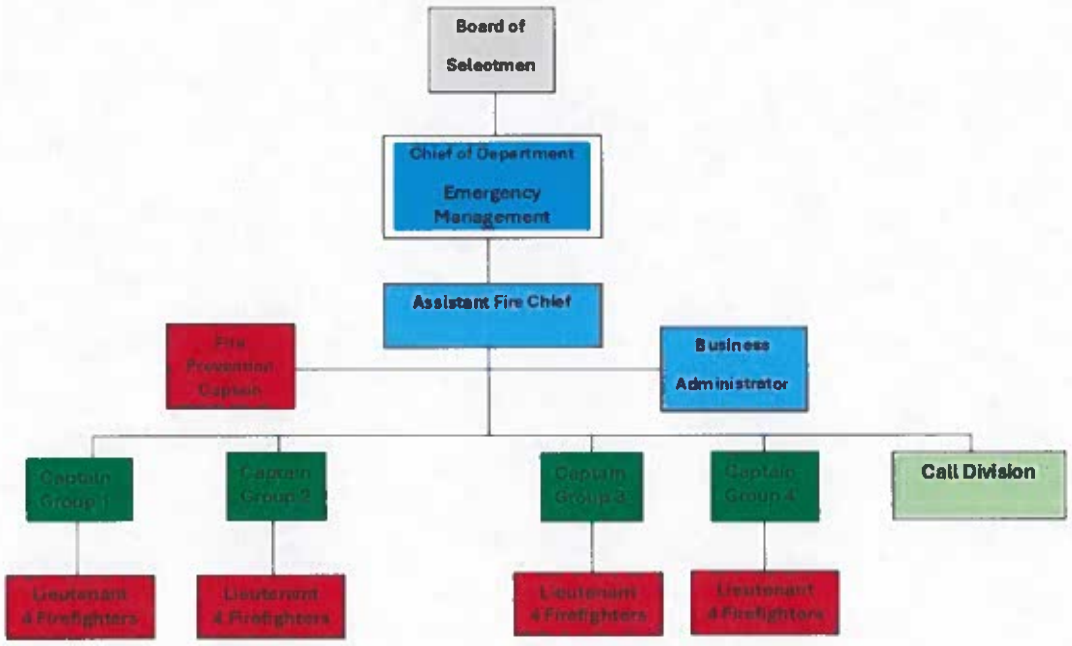

Figure 3-9
Proposed Organizational Chart

FIRE RESCUE – STAFFING ANALYSIS CONCLUSION

Having a sense of common vision is important in any organization to ensure that the organization and its personnel are moving in unison toward a common goal(s). Having a common vision is not only about making sure that all parties are aware that they are in the same boat and rowing but even more importantly, that they are rowing in the same direction.

Looking ahead, Southborough Fire possesses some definitive positive attributes, most notably the dedication of its core membership and the community leadership within each group. This shows there is a strong foundation upon which to build.

However, the Department is also facing serious challenges both today and looking toward the future. There are senior staff people who will be retiring, and there is a lack of good solid experienced people coming in to fill the voids as they are created. Nationwide, since the COVID-

19 pandemic began, the workforce has been dropping, fewer people are taking on the challenges of becoming a firefighter and/or emergency medical responders, and we are seeing more and more people leaving their jobs after just a couple of years. The sense of pride and commitment to these professions is also decreasing. Newer people tend to come in the door and work their assigned shifts, not wishing to go above and beyond.

The community and the Select Board ultimately determine the level of emergency service delivery that is acceptable. This is often accomplished through the efforts of the Fire Chief and Select Board reviewing the needs, and in turn, the taxpayers express their expectations during public meetings and through the approval of the department operating budget.

A balance of effective and efficient emergency services delivery and the need to maintain a fiscally responsible tax rate for the citizens is often the primary driving force in the delivery of emergency services. The basic tenant of emergency service in Southborough includes the provisions of basic fire protection, fire suppression, and rescue services. Emergency Medical Service, (EMS) including Basic Life Support (BLS) and Advanced Life Support (ALS) are provided by the department.

In conclusion, the missions performed by the public safety departments are some of the most basic and fundamental functions of government; to ensure the safety and protection of its residents and visitors. The real issue facing the Town, as it is for every community, is to determine an acceptable level of risk and then define an appropriate level of service for the community. There is no "right" amount of fire protection or first response EMS delivery in any community. It is a constantly changing level based on the expressed needs of the community. Determining the appropriate level of service also involves deciding on the municipalities' fiscal ability and willingness to pay for the desired level of service. These are decisions that the citizens of the Town and the Select Board will ultimately need to make.

Summary of Recommendations

Short Term

1) **Continue to monitor the value, efficiency, and effectiveness of staffing models as they are implemented.**
2) **To add a Deputy or Assistant Chief to the department.**

Long Term

3) **Add one full-time operational position to each of the four work groups.**
4) **Add one full-time day position to handle training as well as an operational day position.**
5) **Add one full-time day position to handle all EMS management functions as well as to add to the operational staff during the day.**

Respectfully submitted,

Municipal Resources Inc.

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, October 22, 2024 6:30 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Town Administrator Mark Purple. Absent: Assistant Town Administrator Vanessa Hale

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:30 PM.

II. Public Comment

There was no public comment.
Ms. Cook moved to Reports at this time.

III. Scheduled Appointments *(Board may vote)*

a. 6:45 PM – Tax Classification Hearing

Mr. Purple read the public hearing notice into the public record. Mr. Paul Cibelli, Principal Assessor and Ms. Lori Esposito, Deputy Assessor, appeared before the Board on the matter. Also appearing before the Board were the following members of the Board of Assessors: Jeffrey Klein, Chair, Tammi Rice, Vice Chair, and Heath Widdiss. Mr. Cibelli shared the presentation for the FY25 Tax Classification hearing with the Board and public. Mr. Cibelli stated that the increases to the classes are as follows: Residential: 6.75%; Commercial: 1.16% and Industrial 6.29% and that the average single-family tax bill will increase 6.4%, year over year. He pointed out that the Commercial, Industrial and Personal Property (CIP) class is trending down over time. He stated that, in his tenure with the Town, the CIP class has represented approximately 17-20% of tax revenues and that this year's projection is approximately 15.9% of tax revenues. Mr. Cibelli stated that the Board of Assessors is recommending that the Town continue with a single tax rate for FY25 and that the Town not adopt the Residential or Commercial Exemptions, as they are not relevant to the Town. Ms. Cook expressed her shock at the size of the increase and stated that increasing commercial revenues has to be a priority of the Town. To that end, she suggested addressing septic and zoning issues. Mr. Stivers expressed his interest in a split tax rate and suggested exploring how other communities address the timing of tax information relative to the impact on the Town's budget process. Mr. Cibelli stated that the large increases in tax rates are being felt throughout the Commonwealth. Mr. Hamilton stated that as 80-85% of the Town's taxes are generated from the residential class, approximately $2 million dollars has been shifted over time from the CIP class to the residential class. He stated the Town should focus on the type of development that increases the CIP class, adding that office park development appears to be a thing of the past. He asked that the Board place on its agenda in the near future a discussion item regarding the creation of a sewer working group and a comprehensive review of zoning, especially along Route 9. Mr. Cibelli stated that the Town should consider diversifying its CIP class. The Board discussed the impact of a split rate and what savings could be achieved for the residential class. There was no public comment on the matter. Ms. Cook acknowledged a letter from Karen Chapman, President and CEO of Corridor 9/495 Regional Chamber of MetroWest, in support of a single tax rate for Southborough. Mr. Dennington moved to close the

tax classification public hearing at 7:28 PM. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Mr. Dennington moved that the Board adopt a single tax rate for FY25. Mr. Hamilton seconded the motion. The motion was unanimously approved (5-0-0). Mr. Dennington moved that the Board not adopt the Residential Exemption for FY25. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Mr. Dennington moved that the Board not adopt the Small Commercial Exemption. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. David Ferris – Procurement Appeal for 250 Turnpike Road project

Ms. Cook stated this matter has been postponed until the Board's November 4th meeting.

c. Mark Davis – 40R Development at the MBTA Station

Ms. Cook stated this matter has been postponed until the Board's November 4th meeting.

d. Travis Farley – Update on Recreation activities

Mr. Travis Farley, Recreation Director, appeared before the Board on the matter. Also in attendance from the Recreation Commission was Jennifer Hansen, Chair of the Recreation Commission, and Donald Dumont, Vice Chair of the Recreation Commission. Commission member Kristin LaVault appeared via ZOOM. Mr. Farley shared his report of the last three month's activities with the Board. He thanked Christina McCarthy for navigating the transition from Tim Davis's departure to Mr. Farley's arrival during the summer camp season. Ms. Cook asked about the Gobble Wobble. Mr. Farley stated that registration is open for the annual Thanksgiving Day run and the event would be publicized once Halloween is over. Mr. Farley shared that the Recreation Department has joined Rec Connect, an adaptive recreation program offered through Shrewsbury, Northborough and Westborough recreation departments for their residents. Ms. Hansen stated the Recreation Commission continues work on the dog park and related funding sources. She also said the Commission continues to provide input to the Neary Building Committee regarding impacts to the fields with layout/construction issues. She also stated the Commission continues to discuss the timing to install turf under the lights at Woodward Field, adding that estimates for turf installation are in the $1-2 million dollar range. Mr. Dumont stated that the Commission is pleased that Mr. Farley has continued the successful momentum of the last five years. He stated the Commission remains focused on a plan for Lundblad Field. Mr. Stivers asked if it was possible to track participation rates. Mr. Farley stated that the department uses a recreation management system that allows them to track that information and he added that participation can vary from program to program but, in general, participation rates are on the higher side. Mr. Stivers suggested that having a 5-10 year plan of goals would be a helpful communication tool in considering funding. Ms. Hansen stated that the Recreation Commission undertook a 10-year plan in 2016 and reviews this plan annually with the Capital Planning and Improvement Committee (CPIC). She stated that the Commission has achieved many of the goals in the plan and intends to update it in the next in the year or two. She stated she does not foresee the need to hire additional staff and Mr. Dumont stated that the lack of indoor facilities remains a challenge to increasing programming. Mr. Stivers suggested providing additional programming for the increasing senior demographic in Town.

Ms. Leah Emerson, Economic Development Committee (EDC) Coordinator, appeared before the Board to offer her support for the Board's votes relative to the tax classification hearing.

IV. Reports

a. Chair's Report

i. Bench dedication for Kim Tollander

Ms. Cook reported that during Heritage Day, a bench was dedicated in the Southborough Heritage Park in memory of Kim Tollander, Southborough School Committee member who passed away last year. Ms. Cook reported that friends and family came to the dedication ceremony.

ii. Heritage Day

Ms. Cook reported that, despite the weather, Heritage Day was a successful community event.

iii. 2 East Main Street update

Ms. Cook reported that Mr. Bemis appeared before the Planning Board last evening to present a project for development at 2 East Main Street. Ms. Cook stated she looks forward to supporting development at the site, as it is one of the Select Board's FY25 goals.

b. Members' Reports

i. Tricentennial fundraiser update

Mr. Dennington reported that the Tricentennial Committee had a booth at Heritage Days where commemorative bricks were sold, adding that the bricks will be installed in Southborough Heritage Park. He encouraged the public to support the fundraiser and stated additional information is available on the Tricentennial Committee's website.

c. Town Administrator's Report

i. Resignation of Shannon Kinayman from Youth and Family Services

Mr. Purple reported that Shannon Kinayman, Program Director for Southborough Youth and Family Services (SYFS) for the last eight years, has resigned and her last day of work was on October 16, 2024. He stated that he attended a reception for Ms. Kinayman and wished her well in her future endeavors. He also stated that Sarah Cassell, Director of SYFS, and Ms. Vanessa Hale are working to advertise the open position. Mr. Purple also stated that Mr. Dean Cibelli has notified the Town he will retire on November 4, 2024, after 36 years of service. Mr. Purple thanked Mr. Cibelli for his commitment to the Town and his many years of service.

ii. Southborough Power Choice renewal notices

Mr. Purple reported that Southborough Power Choice notices for the Town's electric aggregation program will be sent out November 1st. He stated that residents could select from three programs: basic, green and a new hybrid option. Mr. Purple noted that since its inception, the aggregation program has saved enrolled Southborough residents approximately $9 million dollars. He described the renewal process and stated that notices would be mailed to all residents and current subscribers, posted on the Town's website, available at the Town House and publicized through social media.

iv. Status of CSX improvement on Central Street

Mr. Purple reported that the roadwork was successfully completed on October 15th and 16th. He stated that the CSX crossing on Main Street would be addressed in the future.

iv. ALS One Fundraiser

Mr. Purple reported that, despite the weather, the ALS One fundraiser was a success. He stated that 292 rounds of golf were played and the event raised $3,200 for ALS One in memory of Brian Schifrin and John Wilson. He also thanked Brian Shea and the management company for their assistance with the fundraiser and those who participated to make the event a success.

Mr. Purple reported that Conservation Commissioner Melissa Danza had sent an email stating that waste from the Breakneck Hill remediation project would be sent to the Maine site, which may result in the Town returning some of its bonding authorization for the project.

V. Consent Agenda

a. Approve Open Session Meeting Minutes: October 8, 2024

Mr. Stivers held Consent Agenda item "a." Mr. Stivers requested the following changes: Line 162: add "each" before area; Line 200-201: delete "bylaw compliance" and insert "reporting for DPW issues and bylaw compliance issues"; Line 204: insert "the previously proposed SeeClickFix software." Mr. Dennington moved to approve Consent Agenda item "a", as amended. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

Ms. Cook moved to the Tax Classification public hearing at this time, as it was 6:45 PM.

b. Approval of FY26 Budget Calendar

Ms. Cook held Consent Agenda item "b." Ms. Cook stated that a joint meeting with the CIPC and the Advisory Committee has been added to the draft FY26 Budget Calendar for December 17, 2024. The Board discussed budgeting directives for the Finance Team's communication with department heads. The Board agreed to ask department heads to provide a level service budget with no additions to personnel and, if additional funds or personnel are requested, that the department prepare an ancillary budget. Mr. Dennington moved to approve Consent Agenda item "b", as amended. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

c. Approve 2025 Senior Health Benefit renewal

Ms. Cook held Consent Agenda item "c." Ms. Cook stated that tonight's vote authorizes the signing of a new contract with Aetna for 2025. She also informed the Board that the Insurance Advisory Committee (IAC) is in discussions with Tufts/Harvard Pilgrim to potentially add a traditional Medigap policy but information on that matter would not be available until early 2025. Mr. Stivers moved to approve Consent Agenda item "c." Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

d. Approve Executive Session Meeting Minutes: October 8, 2024

Mr. Dennington moved to approve Consent Agenda item "d." Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

V. Other Matters *(Board may vote)*

a. Approve restitution for removal of public shade tree at 37 Clifford Street

Ms. Cook provided a history of the matter surrounding a public shade tree that was removed on September 28, 2023. She stated that the resident can either write a check for $500 or purchase two trees from the Accepted Tree list. The Board discussed the matter. Mr. Hamilton moved to authorize DPW Superintendent Cundiff and Tree Warden Designee Chris Leroy to meet with the homeowner to resolve the matter by either purchasing two trees from the Approved Tree List or writing a check for $500. Mr. Dennington seconded the motion. The motion was approved (4-0-1). Ms. Landry abstained. Ms. Cook asked Mr. Stivers to amend the Tree Policy to reflect State language and Mr. Stivers agreed. Ms. Landry recommended that the Tree Policy contain consequences for any tree company removing a public shade tree. Ms. Cook stated that a public hearing on the Amended Tree Policy would occur at the November 4th meeting.

b. Continued discussion of ARPA funding

i. Review of project allocations

Ms. Kathryn McKee, Trails Committee Chair, appeared before the Board on the matter. Ms. McKee stated that the scope of the crosswalk project has expanded so the Trails Committee has decided to address the matter in 2025 with alternative funding. She stated she would return $15,000 in ARPA funds allocated to the project. With regard to the $12,500 in ARPA funds allocated for trail enhancements, Ms. McKee stated she would have the entire amount contracted or spent by November 4th. She also stated that of the $61,009.50 remaining ARPA funds allocated to the Peninsula Trail project, the Trails Committee is only requesting $21,000 for paving of the ADA parking spaces. She stated the Trails Committee would return a total of $55,009.50 ($15,000 and $40,009.50) in previously allocated ARPA funds. Ms. McKee thanked the Board for their patience as the Trails Committee investigated utilizing all of the allocated ARPA funds. Mr. Hamilton moved to reallocate $55, 009.50 from the Peninsula Trail and the crosswalk at Stonybrook/Route 30 to the General Tax Relief category. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

ii. Reallocation of available funds

Mr. Hamilton moved to reallocate $20,000 from the McAuliffe Room upgrades to the General Tax Relief category. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook stated that the Board has approximately $78, 509.50 in ARPA funds to reallocate. Mr. Dennington moved to allocate $5,400 from the General Tax Relief category to purchase two

automated external defibrillators (AEDs). Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook moved to allocate 100% of the remaining ARPA funds equally between Police Chief Newell, Fire Chief Puntini and DPW Superintendent Cundiff to spend. Mr. Dennington clarified that each department head would present a list of expenditures for the proposed ARPA allocations at the Board's next meeting. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook stated that all of the ARPA funds received by the Town have been allocated.

c. Continued discussions of the Public Safety staffing study

Ms. Cook stated that she met with Advisory Committee Chair Andrew Pfaff and discussed how best to proceed with the recommendations of the Public Safety staffing study. She proposed that four individuals (two from the Select Board and two from the Advisory Committee) meet to make recommendations for both the Board and the Advisory Committee to consider. The Board discussed the matter and agreed that Mr. Dennington and Mr. Pfaff would meet to review recommendations from the staffing study for the Police Department. The Board agreed that Ms. Cook and Mr. Pfaff would meet to review recommendations from the staffing study for the Fire Department. Mr. Stivers recommended that Police and Fire prepare 3-5 year plans for phasing and budgeting purposes.

VI. Public Comment

Ms. Marnie Hoolahan, Planning Board member, 26 Clifford Road, requested that the Board reschedule Scheduled Appointments C, as there is a conflict with a Planning Board meeting and the subject matter is of interest to the Planning Board. Ms. Cook agreed to Ms. Hoolahan's request.

VIII. Adjournment

Ms. Cook moved to adjourn the meeting at 8:30PM. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

Upcoming Meetings

Lori Esposito, Deputy Assessor

1

What is Tax Classification?

Allows communities to have different tax rates for certain classes of property*:

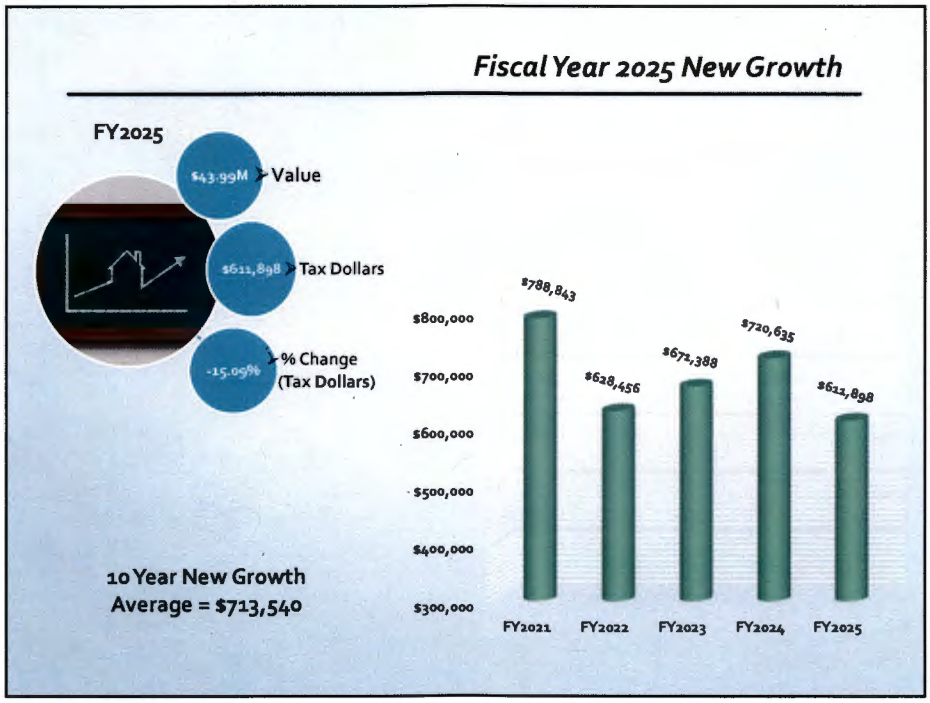
State Statute:
Provides a maximum allowable portion of the tax levy (up to 150%) to be borne by the CIP classes
Provides a minimum allowable portion to be borne by the residential class

2

Fiscal Year 2025 Assessments

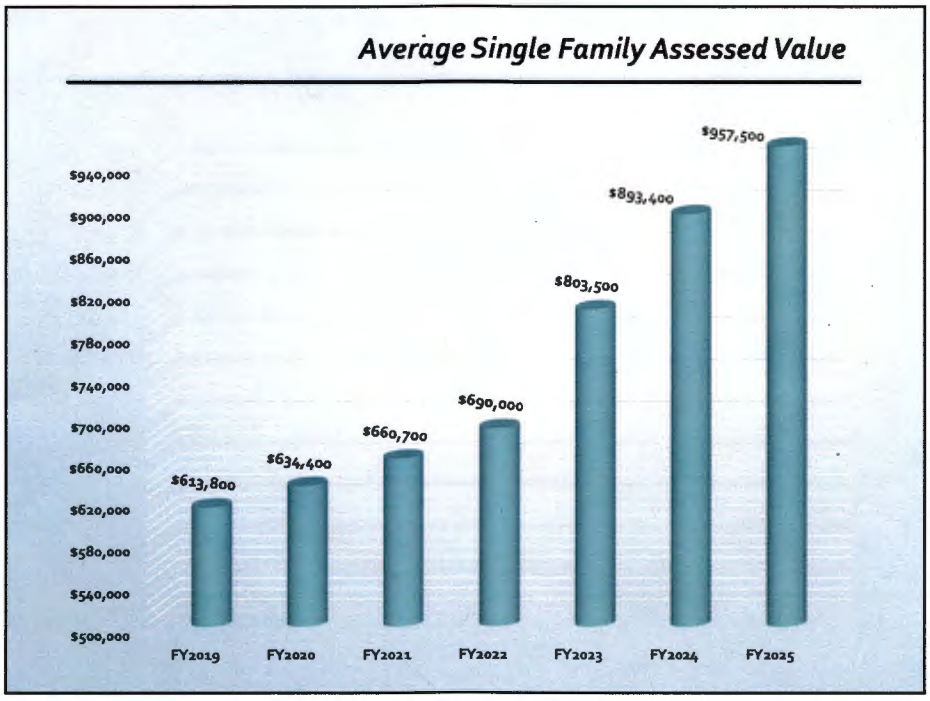
FY2025 assessments are based on analysis of *calendar year 2023* sales and market conditions*

FY2025 assessments reflect the value of properties as of *January 1, 2024* (per Dept. of Revenue Guidelines)



*Calendar year 2024 sales and market conditions will be reflected in the FY2026 assessments, as there is a one-year time lag in the assessment process

3



What is Happening to Assessments?

- **Overall assessments are on the rise**
  - ❖ Residential class increased 6.75%
  - ❖ Commercial class increased 1.16%
  - ❖ Industrial class increased 6.29%
  - ❖ Personal Property increased 3.72%
- **Town's total FY25 valuation = $3.788 Billion**
  - ❖ an increase of 6.21% from FY24

Southborough Proposed FY25 tax rate $13.81

12

Recommendation

The Board of Assessors unanimously recommends continuing with a single tax rate for fiscal year 2025

13

Other Tax Shift Options

Residential Exemption

- Shifts burden from lower assessed properties to higher assessed properties, seasonal & rental properties
- Typically adopted only in areas with a low rate of owner occupancy

Small Commercial Exemption

- Shifts burden from property owners occupied by small businesses to larger commercial and industrial taxpayers.
- Exemption for property owner would apply only if tenants are Class 3 business with ≤ 10 employees, property is <$1,000,000 assessed valuation

Total amount of levy collected from any exempted class remains the same.

14

Recommendation

The Board of Assessors unanimously recommends not to adopt the Residential and Small Commercial Exemptions as they are not relevant to this community

16

October 18, 2024

To: Southborough Select Board

The Corridor 9/495 Regional Chamber of MetroWest is a regional business organization with well over 500 local businesses serving Southborough as well as the core communities of Westborough, Northborough, Shrewsbury and Grafton. The Chamber is committed to sustaining the growth and economic viability of our towns by supporting existing businesses and helping to attract new businesses to the region.

As the voice for local business, the Corridor 9/495 Regional Chamber of MetroWest strongly advocates for the continuation of a single tax rate in Southborough for the following reasons:

- A single tax rate promotes a business friendly climate for new business growth, job creation, and existing business expansion.

- A split tax rate would put our towns in the minority of Massachusetts municipalities and place our region at an economic disadvantage. Of the 351 cities and towns in Massachusetts, 69% of all towns in the Commonwealth maintain a single tax rate.

- A split tax rate is a significant sign to new and existing businesses that a city or town is not "business-friendly". It is often one of the first, if not the first, question that new businesses ask when looking to locate in a particular location.

- Business uses minimal town services/resources (public schools, recreation etc.)

- The town of Southborough receives significant income in personal property taxes from local businesses and that revenue is part of the tax base which helps offset real estate taxes for residents.

- Single tax rate helps to keep Corridor 9/495 region competitive by retaining existing businesses and enables our towns to sustain its fiscal well-being.

- Approximately 80% of U.S. businesses are considered "small" businesses and 95% of Corridor 9/495 Regional Chamber members are small businesses with 10 employees or less. If there were any decision to move toward a split tax rate, it would paint a very different picture of local officials trying to support small businesses in their towns. A split tax rate would result in higher property expenses that would be passed onto the tenants (small businesses) either directly or by higher asking rents. Because of triple-net leasing, tenants of commercial spaces not only pay their rent and utilities, but also the maintenance of the space, the insurance, and property taxes.

- The businesses of our communities are the backbone of the town's local economy and often intricately involved in the community with financial and volunteer support. A vast number of companies contribute greatly with scholarships for students, grants to our local schools, donations to the food pantries, and sponsors of athletic and community events. Yet, if business is struggling to exist, they can't afford to give generously; and, if they are out of business, or have moved out of town, they will not be here to give anything at all.

We firmly believe that by maintaining the single tax rate, Southborough will continue to attract and retain businesses in our community and promote business development in your town.

Sincerely,

Karen Chapman

Select Board Report

Southborough Recreation Department

Summer Wrap Up

We wrapped up a very successful summer recreation season with our staple programs that include our traditional Summer Camp, Skyrise Summer Theater Programs, and Pre-K Soccer. We also added a few new wrinkles to our summer offerings that included: Top Secret Kids: Amazing 100 Experiments for Hands on Science, Comics Journalism, Beach Tennis, and Battle Robots.

We also added a few new bands to our summer concert series that were very well received. We are really looking forward to building off this momentum for the summer of 2025!

Summer 2024 Participants: 1,028

Summer 2023 Participants: 1,005

Summer Nights

Summer Nights was a HUGE success with a great crowd. The feedback we received from the residents was overwhelmingly positive. A huge thank you to our fellow departments that made it possible (DPW, Police, Fire, Board of Health). Also, a special thank you to our sponsors: Friends of Southborough Recreation, St. Marks School, Middlesex Savings, Ken's Food, Main Street Bank, and Abu Realtors.

Fall Registrations

I am happy to report that we took in over 125 registrations for our fall program on the first day of registration. This is up from 57 on the first day of registration of Fall 2023. We have added some new wrinkles to our fall program offerings as well that include: a Halloween Coloring Contest, Candle Making Classes, Teen Interview Prep Classes, and a Wellness Day Half Day Program (Onsie Day).

Fall 2024 Participants (September 1st – October 31st): 663

Fall 2023 Participants (September 1st – October 31st): 485

Field/Gym Permitting

Since the beginning of September, we have permitted 3,776 hours in field and gym space.

Heritage Day

Another staple event for the Town of Southborough! This year the weather did not slow us down and we saw a very large parade with over 200 walking participants, over 65 vendors, and a great crowd! It was wonderful to see everyone in Southborough come out! A huge thank you to our fellow departments that made it possible (DPW, Police, Fire, Board of Health).

Southborough Recreation Running Club

I am happy to report that we have put a new twist on our traditional Cross Country Program. We have brought on a new Coach (Amanda Gleeson), re-branded it to more of a running club for athletes of all abilities, we have already competed in two meets, and we now include registration to the Gobble Wobble for all participants. We have close to 40 in the program currently.

Ski/Snowboard Program

Registration has closed and I am happy to say the program is full with 81 Trottier students! We expanded this program offering two large coach buses thanks to interest and availability of parent chaperones.

Trunk or Treat/Halloween Movie

This event has become a staple for our department in the fall! We have over 15 trunks participating this year (including our Police Department and DPW Department). Trunk or Treat will be on Saturday, October 26th at Woodward Memorial School. We've expanded the event to offer a food truck dinner option and drive-in style movie showing of Casper on the front lawn at Dusk! The event will take place from 3:00-8:00pm

Spring/Summer Registration

I am happy to say we will be moving up our Spring/Summer Registration from what has historically been in Early-March to Mid-February this year! So please keep a look out for our Spring/Summer Postcard that will be going out in January. To kick off the registration cycle,

we will have a community-wide, family friendly event at the end of January promoting the new season of program offerings.

An important message from the Town of Southborough about a change in your electricity price

November 1, 2024

Your electricity account is enrolled in Southborough Community Power Choice, our Town's group electricity buying program. Through the program, you receive a Southborough price for the electricity supply part of your National Grid bill.

Within the program, you are enrolled in the **Power Choice Green** option, which means you receive 100% of your electricity from renewable sources.

In December, the contract that has kept our electricity supply prices low will expire, and a new, 24-month contract will go into effect. Electricity market prices are higher now than in 2021, when Southborough locked in the current prices. As a result, **program prices will increase under the new contract.**

- Your electricity supply price will change from 13.724 ¢/kWh to **15.886 ¢/kWh**. (See the other side for details.)
- You will continue to receive 100% of your electricity from new renewable sources in the New England region.
- Your program option name will change from Power Choice Green to **Power Choice Greenest**.

Your new electricity supply price:
15.886 ¢/kWh
Look for it on your January bill.

For account:

Customer Support:
1-844-483-5004

More information and self service:
SouthboroughCommunityPowerChoice.com

It's your decision. Make the choice that's right for you.

- **TAKE NO ACTION:** Your enrollment in Southborough Community Power Choice will renew automatically at 15.886 ¢/kWh in December, and you will see the new price on your January National Grid electric bill.
- **CHOOSE A DIFFERENT PROGRAM OPTION:** Power Choice Greener, a new option, provides 50% of your electricity from new renewable sources in the New England region. Power Choice Standard provides the lowest price in the program.
- **OPT OUT:** Participation is not required. There is no fee or penalty to opt out of Southborough Community Power Choice, and you may do so at any time. If you opt out, you will be returned to National Grid's Basic Service price.

Your account will be enrolled here

POWER CHOICE STANDARD	POWER CHOICE GREENER	POWER CHOICE GREENEST	NATIONAL GRID'S BASIC SERVICE
13.016 ¢/kWh	13.886 ¢/kWh	15.886 ¢/kWh	16.055 ¢/kWh
Lowest program price	50% from regional renewable sources	100% from regional renewable sources	Residential electricity supply price
AUTO-ENROLL	*OPTION*	*OPTION*	*OPT OUT*

The new Southborough Community Power Choice prices are fixed until December 2026. See other side for more details.

To choose Power Choice Standard or Power Choice Greener, or to opt out, visit SouthboroughCommunityPowerChoice.com or contact customer support with the Town's program consultants at 1-833-272-9591.

Power Choice Greenest comparison ▼

If you opt out ▼

POWER CHOICE GREENEST	Current (Power Choice Green)	New (Power Choice Greenest)	NATIONAL GRID'S BASIC SERVICE
Price	**13.724 ¢/kWh**	**15.886 ¢/kWh**	**16.055 ¢/kWh** - residential **14.823 ¢/kWh** - commercial **11.282 ¢/kWh** - industrial
Price period	December 2021 - December 2024	December 2024 - December 2026	August 1, 2024 - January 31, 2025, residential and commercial. August 1, 2024 - October 31, 2024, industrial.
Renewable energy content (% of total), required by state law			
From new renewable sources in the New England region (MA Class I RECs)			
Required by state law	24%	24%	24%
Added by Salem	76%	76%	-
Total MA Class I RECs	**100%**	**100%**	**24%**
From other clean or renewable sources (other RECs)*			
Required by state law	**38%**	**38%**	**38%**

* State law requires all electricity suppliers to purchase Renewable Energy Certificates (RECs) from other sources, including sources that are not new, are renewable but not clean, such as waste to energy, or are clean but not renewable, such as nuclear. This purchase must be made even if the total amount of RECs purchased from either clean or renewable sources exceeds 100% of the electricity used by Southborough Community Power Choice participants.

Additional information:

- **Southborough Community Power Choice has saved participants more than $9 million** compared with National Grid's prices since the program's launch in 2018 (though because National Grid's prices will change, future savings cannot be guaranteed).
- **Your electricity supplier will remain First Point Power**, which has a history of providing excellent customer service to our community. On your bill, you will continue to see "First Point Power (Southborough Aggregation)." As always, your primary relationship for electricity remains with National Grid, and you will continue to call them if your power goes out. In addition, National Grid will continue to send your electric bill, and this is the only electric bill you will receive as a participant in Southborough Community Power Choice.
- **Nearly 70% of all electricity accounts in Southborough participate,** including nearly 75% of all residential accounts.
- **At the end of the new contract with First Point Power**, the Town intends to sign another long-term contract. The electricity supplier and renewable energy content may change, and the price may be higher or lower than the current price. You will continue in the same program option at the new price unless you inform the program otherwise. The Town will provide advance notice of any such changes, and you will be free to opt out or change your option before the changes take effect.

An important message from the Town of Southborough about a change in your electricity price

November 1, 2024

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, October 8, 2024 6:30 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Town Administrator Mark Purple. Absent: Assistant Town Administrator Vanessa Hale

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:30 PM.

II. Public Comment

Ms. Lisa Braccio, 13 Oregon Road, expressed her thanks to the residents of Southborough for their response to the recent drive for supplies for the victims of Hurricane Helene. She thanked Mr. Purple for providing use of the Senior Center to collect donations and Ted's of Fayville for providing a truck to transport the items. She also thanked the DPW, specifically, Superintendent Cundiff, Chris Leroy and Tammi Rice, for their support.

Ms. Debbie DeMuria, 58 Flagg Road, corrected her previous comment before the Conservation Commission regarding the Chestnut Hill CSA and the percentage of produced goods required for qualification as a working farm. She shared that Chapter 40A, Section 3, states that for commercial agriculture, 25% of products for sale must be grown at the farm. She stated that she believes the Trustees are required to follow the law and the law should be applied fairly throughout Town. She also noted that utilizing the farm for event space, etc. would be considered a change of use.

Mr. Jim Hegarty, Town Clerk, stated that vote by mail ballots had been received, that his office prepared 2,525 ballots and that they would be mailed out this week. He asked that anyone with questions, reach out to the Town Clerk's Office for information at 508-485-0710, ex. 3005.

Mr. Dennington acknowledged the passing of Mr. Ray Minnucci, a veteran who participated in the Annual Veteran's Day commemoration, and offered condolences to his family on behalf of the Board.

III. Reports

a. Chair's Report

i. Volunteer Recognition Breakfast

Ms. Cook reported that the Volunteer Breakfast was held yesterday at the Senior Center and approximately 30 volunteers attended the event. She thanked Assistant Town Administrator Vanessa Hale for coordinating the event.

b. Members' Reports

i. Chestnut Hill CSA

Mr. Hamilton reported that he attended a Conservation Commission meeting where the Trustees outlined their five-year management plan for the property. He stated that it is his belief that the Trustees do not have a plan to reinstate farming at Chestnut Hill farm.

ii. Update on 21 Highland Future Use Committee

Mr. Dennington reported that the first meeting of the 21 Highland Future Use Committee occurred on October 2, 2024. The Committee agreed to reach out to John Parent, Director of Facilities, to gather general information on the state of the building before moving forward. Mr. Dennington

noted that the charge for the Committee expires on December 31, 2024 and he suggested that this matter be reviewed in the November/early December timeframe. He also suggested the Committee prepare a report prior to Annual Town Meeting 2025.

c. Town Administrator's Report

i. CSX repair work on Central Street

Mr. Purple reported that the railroad crossing would be repaired and the road would be closed on October 15th and reopened on October 16th. He stated that the detour information is posted on the Town's website and information would be posted on X (formerly Twitter), as well.

Mr. Purple encouraged residents to participate in the ALS One Fundraiser, which will be held this weekend at the Southborough Golf Course. He stated a portion of every round of golf would be donated to ALS One, in memory of Brian Schifrin and John Wilson. Mr. Purple acknowledged BrianShea for his efforts to coordinate the event.

iii. Extension of MADEP Administrative Consent Order (ACO) for Breakneck Hill Dump

Mr. Purple reported that the Massachusetts Department of Environmental Protection (MADEP) issued an extension of the ACO until March of 2025. He reported that, according to Conservation Commissioner Danza, work has resumed on the clean up.

IV. Consent Agenda

a. Approve Open Session Meeting Minutes: September 4, 2024; September 17, 2024; September 30, 2024

Mr. Stivers requested to hold Consent Agenda item "a." **September 4, 2024:** Mr. Stivers had scrivener's changes to the minutes. Ms. Landry had scrivener's changes to the minutes. **September 17, 2024:** Mr. Stivers had scrivener's changes to the minutes. Mr. Dennington requested the following change: Line 121-122: end the sentence after "building." **September 30, 2024:** Mr. Stivers requested the following change: Line 17: insert "comment on" and delete "present." Ms. Cook moved to approve the September 4, 2024 minutes, as amended, the September 17, 2024 minutes, as amended and September 30, 2024 minutes, as amended. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Appoint James Harding to the Tricentennial Committee (Veteran's Designation), term to expire on June 30, 2025

c. Approve restitution for removal of public shade tree at 37 Clifford Street

Ms. Cook stated that this matter would be moved to October 22, 2024. She reported that Mr. Chris LeRoy, Tree Warden designee, met with the homeowner and informed them the fine for removal would be the planting of two replacement trees. She stated the Planning Board would attend the October 22, 2024 meeting to discuss the matter.

d. Appoint Robert Walker as a Part-time Communications Officer

e. Approve 2024 State Election Warrant

Ms. Cook moved to approve Consent Agenda items "b", "d", and "e." Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

V. Other Matters *(Board may vote)*

a. Review of September 30, 2024 Special Town Meeting

All Board members agreed that the Noisy Room was a success and that the Board should provide some form of it at future meetings. They also agreed that clickers should be used at future meetings. Ms. Cook recommended that the Board avoid multi-night Special Town meetings in the future. She stated that the residents approved the Economic Development Committee (EDC) Coordinator and Police Lieutenant positions and approved of the Town joining the MetroWest Regional Emergency Communications Center (RECC). Mr. Hegarty stated that he would need to address the number of

clickers needed at future Town Meetings. He stated he takes full responsibility for the clicker malfunction that occurred at Special Town Meeting.

b. Set dates for Neary School Special Town Meeting & 2025 Annual Town Meeting

The Board discussed dates and times to hold the Neary School Special Town Meeting and 2025 Annual Town Meeting. Mr. Hamilton expressed his concern that the Neary School Building Committee has never made a presentation to the Board and Ms. Cook stated that such a presentation would occur prior to a Town vote on the matter. Mr. Stivers moved to hold the Neary School Special Town Meeting on Saturday, May 10th at 9:00 AM at Algonquin Regional High School. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0). Mr. Stivers moved to hold the 2025 Annual Town Meeting on Monday, April 7th, at 7:00 PM at Trottier Middle School and continuing to Tuesday, April 8th, if necessary. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0). Mr. Hegarty suggested the Board consider starting Annual Town Meeting at 6:30 PM. Mr. Stivers amended his previous motion regarding the start time for Annual Town Meeting to begin at 6:30 PM. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0). Mr. Stivers reiterated the importance of having a Noisy Room for Annual Town Meetings and Special Town Meetings.

c. Discussion of letter of support for proposed 40B project at 352 Turnpike Road

Ms. Cook stated that on Fridays she toured the proposed 40B site at 352 Turnpike Road. Mr. Stivers drafted a letter of support to MassHousing for the proposed project for the Board's consideration. Ms. Cook stated that comment letters related to the project are due on October 24th. The Board reviewed the letter. Ms. Cook suggested that the words "including senior citizens" be added to the end of bullet point 2, #4, and the Board agreed. Mr. Purple agreed to confirm the developer entity name and number of units for the letter. Ms. Cook moved to approve the letter to Katherine Miller regarding 352 Turnpike Road 40B, written by Mr. Stivers and amended with Ms. Cook's language described above, and to authorize Ms. Cook to sign on behalf of the Board. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0).

d. Discussion of ARPA funding

i. Review of project allocation

Ms. Cook stated that the Board is reviewing its ARPA funding for the Trails Committee to ensure all allocated funds are either contracted/spent by December 31, 2024 or returned for reallocation to other projects. Ms. Katherine McKee, Chair of the Southborough Trails Committee, 18 Walnut Drive, and Town Accountant Carla McAuliffe appeared before the Board on the matter. Ms. McKee outlined a history of monies spent thus far and proposals for expenditure of the remainder of the originally allocated $144,000 in ARPA funds. Ms. McKee stated that she expects the Notice of Intent (NOI) to be filed with the MADEP after October 16th, at which time engineering services for the Peninsula Project, Phase 2 (boardwalk and bridge) will commence. With regard to the Massachusetts Trails Grant match, she stated $6,600 of ARPA funds would be used for engineering services for ADA parking spaces and approximately $21,000 of ARPA funds would be used to pave the ADA parking spaces, noting both engineering and paving must be completed by December 31, 2024, in order to receive the grant match. The Board requested that Ms. McKee provide a more accurate quote for paving services and she agreed to provide that information at the Board's October 22nd meeting. Ms. McKee stated that $7,055.79 of ARPA funds would be committed for trail enhancements (signage, bench, etc.) for other trails in Town by the October 22nd Board meeting. With regard to the Peninsula Trail crosswalk, she stated that she does not yet have a Memorandum of Understanding (MOU) with Sanofi to allow use of their parking for users of the Peninsula Trail. The Board requested that Ms. McKee provide an update on the matter at the Board's October 22nd meeting so a determination can be made whether to commit the ARPA funds or return them for reallocation to other projects. Mr. Stivers asked Ms. McKee what portion of the $144,000 previously allocated ARPA funds is currently uncommitted. Ms. McKee stated that approximately $40,000 has not been committed.

ii. Reallocation of available funds

Ms. Cook stated that Facilities Director John Parent and DPW Superintendent Bill Cundiff have identified a hazardous area outside the Town House and would like to use excess ARPA funds to repair the area. She stated the cost to repair the area is approximately $110,000, which includes engineering and construction. Ms. McAuliffe informed the Board that there is an old article on the books in the amount of $47,000 to repair the hazardous area in question. DPW Superintendent Cundiff joined the discussion via ZOOM. He stated that Mr. Parent and he are recommending using the $47,000 to repair the puddling but would need additional ARPA funds to complete the project. Superintendent Cundiff also stated that VHB has prepared bid documents that will be sent out tomorrow and he expects bids to be received within one month. He stated that VHB's estimate for construction is $90,000, with the total project cost estimated to be $110,000. Superintendent Cundiff stated he expects to be under contract with a company by December 31, 2024. Mr. Stivers asked if the repair would occur on the left ramp or right ramp of the Town House. Superintendent Cundiff stated that the repair would occur on both sides of the Town House ramp and that the ramps would be ADA compliant. Ms. Cook moved to reallocate the excess money in the Senior Center category, $65,193.13, to a new category to repair the problems in the Town House parking lot, that the Board believes will cost $110,000. Mr. Hamilton seconded the motion. The motion was unanimously approved (5-0-0). Mr. Stivers stated that there are no Automated External Defibrillators (AEDs) in the pit area of the Transfer Station or the Swap Shop and he would like to use ARPA funds to install one in the area. Fire Chief Puntini joined the discussion for this matter. Chief Puntini discussed different types of AEDs. Ms. Landry suggested adding an AED at the library, if there isn't one already. The Board agreed to have Chief Puntini research AED options and the Board will allocate funds at its October 22nd meeting.

Ms. Cook stated that there would be excess ARPA funds to reallocate to DPW projects, but the Board would discuss the matter at its October 22nd meeting.

Mr. Dennington stated that at the 21 Highland Street Future Use Committee meeting, the group discussed conducting a feasibility study to ascertain the current condition of the building and potential uses. Mr. Dennington suggested and the group agreed to meet with Facilities Director Parent to learn as much information as possible prior to engaging any services for a study. The Board discussed whether this is the time to fund such a study and discussed other potential funding sources. Ms. Debbie DeMuria, 58 Flagg Road, stated that she spoke to Mr. Parent and learned it would cost $18,000 to hire an historic architect to conduct a conditions assessment report, including an architectural assessment with lift survey, structural assessment, regulatory analysis and proposed budget. Ms. DeMuria stated that she believes the building should be preserved because it is listed on both the National and State Registers of Historic Places. She stated she is requesting the Board consider using ARPA monies to fund the conditions assessment report. Mr. Dennington stated he would send an email to the 21 Highland Street Future Use Committee that summarizes the Board's discussion this evening, including Ms. DeMuria's comments, and inform them of the Board's next meeting and discussion of ARPA funds. Mr. Hamilton requested that, if the Board is to consider this matter, Mr. Parent appear before the Board and the Board agreed.

e. Discussion of applying to MetroWest RECC for admission

The Board discussed the next steps including applying for admission to the MetroWest RECC and beginning discussions of an InterMunicipal Agreement (IMA). Mr. Dennington moved to approve the Letter of Application to the MetroWest RECC. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

f. Continued discussion of Select Board FY25 goals

Mr. Dennington suggested that the Board work on the following goals between now and the beginning of the budget cycle: 1) State of the Town Report with Master Plan Implementation Committee (MPIC); 2) Processing Recommendations from the Department of Revenue (DOR)

Financial Report; and 3) Repairs to the Old Burial Ground prior to the Town's Tricentennial. Mr. Dennington and Mr. Stivers agreed to move forward with item #1. Ms. Landry agreed to move forward with #3, with assistance from Mr. Stivers. Ms. Cook and Mr. Hamilton agreed to move forward with #2 and also work with the Advisory Committee. Ms. Cook reported that she had a productive meeting with Mr. Tony Kwan and learned that Mr. Kwan wants to assist the Town in developing the Newton Street property. They also discussed the project on Overlook Drive. She stated she would reach out to the Newton Street property owner in the near future. She also reported that the Hopkinton Water Project is beginning to move forward again but stated that the Town will not move forward until an IMA is in place. Ms. Landry reported that bylaw compliance seems to be moving in the right direction with attention from Building Commissioner Lund and Kelly O'Brien in the Building Department office. She stated the Building Department and the Planning Department are working on language updates to zoning bylaws. Ms. Landry stated that, after consideration, DPW Superintendent Cundiff has decided against bylaw website updates, as the system currently in place is working well.

g. Review of Public Safety Staffing study

Police Chief Ryan Newell and Fire Chief Puntini appeared before the Board on the matter. Chief Newell stated he thought the report was comprehensive, thorough and identified critical issues facing the department. He stated that he is very concerned about retention, pay disparities and the lack of specialty assignments. Chief Newell stated it costs $56,000 to hire a new officer and that the Town is losing money after trained officers leave for other communities that pay more. He stated he is concerned that, due to staffing issues, the department is becoming a reactive department rather than a proactive one. Ms. Cook asked Chief Newell to put together a three-year phased plan of department needs. Chief Newell stated the need is more immediate than a phased in approach over three years. Mr. Dennington recommended that any plan be coordinated with the Advisory Committee sooner rather than later. Mr. Hamilton stated that the issue of retention must be addressed before additional officers are hired and any increase in the police budget must be balanced with other needs in Town. Ms. Landry suggested asking the residents what they would like to spend their tax dollars on, specifically if they would support an increase in the police budget. Chief Puntini echoed Chief Newell's thoughts on the comprehensive nature of the report. Chief Puntini stated that, although the Fire Department is not facing a retention problem, it is facing a recruitment problem. He stated that the report recommended that the Fire Department analyze its current staffing model and create an Assistant or Deputy Fire Chief position. He stated that long-term goals include a day Training officer and a day EMS officer. He also stated that he intends to apply for a FEMA grant that would pay for up to 100% of new firefighters for three years. Ms. Cook asked both Chief Newell and Chief Puntini to create a phased approach to the recommendations in the report for the Board to use during the upcoming budget season. Ms. Cook stated that the Board would outline a plan to address the recommendations in the report.

VI. Public Comment

None

VIII. Executive Session

Mr. Stivers moved to enter into Executive Session at 9:30 PM, per M.G.L. Chapter 30A, Section 21, and not return to Open Session, for the purpose of (1) discussing strategy as it relates to a successor agreement with the Police Union (Exemption 3), as the Chair declares that an open meeting may have a detrimental effect on the bargaining position of the public body, and (2) to review and approve Executive Session minutes from the August 6, 2024 (Exemption 7). Mr. Dennington seconded the motion. The motion was approved by roll call vote: Mr. Hamilton, aye; Ms. Landry, aye; Mr. Stivers, aye; Mr. Dennington, aye; Ms. Cook, aye (5-0-0).

RE: Draft Budget Calendar FY26

Please see attached for a draft version of the FY26 budget calendar. It is similar to the format and timelines we have adopted for the past several budget cycles.

Upon setting our calendar we can begin the planning process of our upcoming budget. I would recommend adopting this calendar and once the budgets are returned, we can determine which Departments should be at the "Saturday meeting" or a separate Board/Advisory meeting. I would assume Advisory and the Board would on a regular annual basis want to have a dialogue with Fire, Police, and our Department of Public Works.

One other request is to agree on a "budget message." For the last few years, we have requested that Departments submit a level service budget. If any Department wishes to add a service or recommend new staff, we recommend they complete a separate budget with that included and an accompanying explanation that supports that recommendation. Should the Board want additional information from the Department Heads please inform the Town Administrator and myself so we may carry that message back to them.

Thanks for the assistance, and should you have any further concerns or suggestions please advise.

RE: Retiree Health Benefit Renewal 2025

As you may be aware, the Town provides retiree health benefits to its retirees, both Town and School. The plan year runs the same as the calendar year from January 1st to December 31st. As it is October it is now time to approve a renewal so we may hold open enrollment in the month of November.

During the past two months the Insurance Advisory Committee has met several times to gather information about the renewal. As you recall, we transitioned from five different options to Aetna last year. We have heard further feedback from various retirees. In summary it seems most people have either been satisfied or if they have had issues most have been resolved.

The IAC met on Wednesday October 16th and voted to recommend renewing for another year with Aetna. Unfortunately, the new offered rate will increase the monthly premium from the current $300 to $339.19. The retiree share would increase from $75 to $84.80 or approximately 13%. The Town share would also increase from $225 monthly to $254.39 representing an annualized increase estimated at $66,657. The vote was 4-0 and came with a strong suggestion the Board support another retiree health option if we are able to offer one. There may be an opportunity to add one other plan option through Harvard Pilgrim. It would likely be a higher monthly premium than Aetna but would offer choice. This is not definite - however we are looking into this. The open enrollment would have to be done later than November if we are able to secure another option (the effective date would begin later than January). We will notify the Board when we have a definitive answer on this.

Significant changes will be in effect for Medicare benefits that are valuable to retirees during 2025, however the effect is increased costs that are being passed on via insurance premiums. Some of these are: New spending caps on out-of-pocket prescription drugs being significantly reduced, out of pocket prescription costs can now be spread out over 1 year to assist those in need, expanded adult vaccine coverage at reduced costs, and out of pocket insulin prices being capped at $35.

Please advise should you have any questions.

Subject: Removal of Shade Tree at 37 Clifford Street

[EXTERNAL]

Dear esteem board,

This is Ling Yang, owner of the house on 37 Clifford Street. We had accidentally removed tree on 37 Clifford St. without prior knowledge that the tree was in the town right of way. We did not realize it was a public shade and I would like to offer the following in lieu of paying a fine:

furnish (2) 1.5"-2" caliper Kwanzan Cherry trees to the DPW for planting at a location selected by the Tree Warden Designee.

Thank you for your time in advance and I look forward to your approval.

Sincerely,
Ling Yang

Subject: Tree removal @37 Clifford

On September 28, 2023 at 7am, I was on my daily walk and passed Brooke Tree Service of Millis as they had cones set up outside fo 37 Clifford Road. I stopped and spoke with a driver of one of the Brooke Tree Service trucks at the location and stated that the very large, very old Oak Tree is a Public Shade tree and has not been approved for removal on the scenic road. The driver stated, "we have all the permits and a police detail coming." I stated again that I was a PLanning Board member and I did not believe they had the ability to remove the tree as it requires a tree hearing. He dismissed me and I kept walking.

After returning from Boston that evening, I snapped a photo and the following morning I sent a text to Karina and Meme and they followed up with Bill.

I never spoke to a homeowner.

The Homeowner, not only removed that public shade tree but they trimmed the other public shade tree, both are ILLEGAL.
I personally think the tree service company should be fined as well.
The police department, if they did have a detail, I do not know if they did, should never support a detail without authorization that the tree should be removed.

Hope that helps,
Photos attached as well as Bill's letter.

Mr. Yang Ling
37 Clifford Road
Southborough, MA 01772-1501

November 22, 2023

RE: Removal of Shade Tree at 37 Clifford Street, Southborough, MA
Via Hand Delivery

Dear Mr. Ling:

It has come to my attention that an approximately 40" diameter oak tree was taken down by Brooke Tree Service of Millis MA on September 28, 2023 at 37 Clifford Street in Southborough, MA. It is our understanding that Brooke Tree Service was contracted by you to cut and remove the referenced public shade tree that was within the Public Right of Way on Clifford Street.

I have the unfortunate responsibility of informing you that the State of Massachusetts and the Town of Southborough have some Laws, Codes and Policies that govern the removal of Public Shade Trees. MGL Chapter 87[1] governs Public Shade Trees and their removal. In Southborough, the Select Board are the Tree Warden and must have a Public Hearing prior to the removal of Public Shade Trees from the public way. Given that the tree was removed prior to a hearing, as required per MGL Ch 87, the Select Board has the ability to issue a penalty pursuant to MGL Ch 87, Section 6. I would recommend that you reach out to Melanie Otsuka at 508-485-0710 ext. 3004 or via email at MOtsuka@Southboroughma.com to inquire about next steps.

Additionally, because Clifford Street is a designated "Scenic Road" in Southborough, MGL Ch 40 Section 15C[2], the Planning Board has a Public Hearing process for the removal of Public Shade Trees within the limits of a Scenic Road. I recommend that you reach out to the Town Planner, Karina Quinn, P.E., at 508-485-0710 ext. 3028 or via email at kquinn@southboroughma.com to discuss the steps required to meet the statutory requirements and discuss any mitigation that may be required.

[1] https://malegislature.gov/Laws/GeneralLaws/PartI/TitleXIV/Chapter87
[2] https://malegislature.gov/Laws/GeneralLaws/PartI/TitleVII/Chapter40/Section15C

For reference, Section 153 of the Town of Southborough Code[3] governs Public Shade Trees. Furthermore, at the time this violation occurred, the Selectboard had a Public Shade Tree Policy[4] (May 2, 2023) in effect that detailed procedural requirements for tree removal. A more recent and revised Public Shade Tree Policy[5] (Sept. 28, 2023) has since been adopted.

For your convenience, I am including a copy of the two Public Shade Tree Policies along with photos of the subject tree. If you have any questions regarding this notice, please do not hesitate to contact me at 508-485-1210 or via email at WCundiff@SouthboroughMA.com.

Very truly yours,
Department of Public Works

William J. Cundiff, P.E
Superintendent

Enclosure

TOWN OF SOUTHBOROUGH

PUBLIC SHADE TREE POLICY

1. Public Shade Tree Policy

a. This policy applies to all public shade trees, trees within or on the boundaries of a public right-of-way in the Town. The Tree Warden (Select Board) and Tree Warden Designee in conjunction with the Planning Board shall have jurisdiction over all trees to which this policy applies as set forth in MGL. c. 87 and c. 40, §15C.

b. A public shade tree may not be trimmed, pruned, or removed by any person other than the Tree Warden Designee or assigned until after a public hearing if required.

c. The following situations do not require a public hearing for public shade tree trimming, pruning, or removal

   i. any public shade tree that is determined by emergency response officials, including utilities and their agents, or the Tree Warden Designee, in consultation with the Town Administrator and the Town Planner to be an imminent hazard. Which is defined as the existence of a condition that presents a substantial likelihood that death, serious illness, severe personal injury, or a substantial endangerment to health, property, or the environment is likely to occur before a notice and hearing to abate the risk of harm can be completed

   ii. work described in a utility's approved Annual Maintenance Plan or Hazard Tree Removal Plan

2. Public Shade Tree Calls from residents requesting tree removal*

a. Information taken from resident and added to spreadsheet

   i. Spreadsheet to include:

      1. Address or location of tree
      2. Tree species
      3. DBH and height
      4. TID # from Tree Evaluation Report is applicable
      5. If no Tree Evaluation Report Tree Warden Designee shall assign a TID#
      6. Reason for call
      7. Tree Warden designee's evaluation and recommendation
      8. Arborist's recommendation if applicable

b. Tree Warden designee evaluates tree, completes Public Shade Tree Assessment form, takes pictures of the tree, and adds his notes to the spreadsheet within thirty (30) days.

c. Trees that are not dead will require an arborist evaluation and recommendation

   i. Tree Warden (SB) and the Planning Board (if the tree (s) are located on a scenic road) shall be notified as to the date and time the arborist evaluation will take place.

   ii. Arborist to fill out Tree Risk Assessment form while evaluating trees

      1. TID # from spreadsheet shall be utilized

d. Arborist's evaluation and recommendation added to spreadsheet

e. Completed spreadsheet and arborist's completed Risk Assessment form sent to SB (and PB if trees are on scenic Road) along with the tree hearing **application form.

3. Public Shade Tree Removal Hearings

a. A Tree Removal Hearing application shall be filed with the Select Board for trees on non-scenic roads and both the Select Board and Planning Board for trees on scenic roads.
    i. The application shall include the spreadsheet as described above.
    ii. **NO CHANGES** shall be made to the tree spreadsheet or application after the application is filed with the Town Clerk

b. Hearing posting shall be in compliance with MGL c87 S3 and MLG c40 s15C and include the following:
    i. Hearing notice shall include the address or specific location, species, DBH, height, and reason for the hearing for each individual tree
    ii. If hearing is for multiple trees the notification in newspaper may have batched but posted notices in Town shall include the legal notification from the newspaper and the information from the spreadsheet created per 1. A. i. above, for each tree

c. Hearing notices shall be posted in three places in Town
    i. Under Hearing Notices on the Town website
    ii. Under Tree Hearings on the DPW webpage on Town website
    iii. On the hearing board at the Town House

d. Hearing notices shall be posted on the tree(s) subject to the hearing with the specific reason the tree is subject to a hearing

e. Tree notices*** shall not be nailed or affixed to a tree in any manner that will cause damage to the tree, unless the tree is dead ****

4. Public Shade Tree Trimming

a. The trimming of Public Shade Trees on Scenic Roads requires a hearing before the Planning Board following the same protocol as laid out in 1. and 2. Above.

5. Public Shade Tree Trimming and Removal

a. Unless a tree poses an imminent hazard, all tree trimming, cutting and removal shall commence in late fall through winter, October 1st to April 1st.

6. Tree Replacement

a. At least one native species tree shall be planted for each Public Shade Tree that is removed in accordance with the public hearing process laid out in this policy.

b. Public shade trees removed that either do not serve a public purpose or were removed without complying with the public hearing process laid out in this policy shall be required to plant replacement trees shall have the same or equivalent size as measured in DBH inches as that of the tree(s) that was removed. If a tree of equivalent size cannot be obtained or is not appropriate, the Tree Warden (Select Board) and the Planning Board shall determine a suitable alternative which may include:

    i. an inch-by-inch replacement basis. Replacements shall be at least three-inch diameter. For example, if an 18" diameter tree, measured four feet above grade is to be removed, the applicant must sufficiently reimburse the Town to provide for the purchase and planting of six, three-inch diameter replacements.

    ii. payment to the Town of Southborough for the value of the tree that was removed, as determined by a certified arborist based on standards in the industry, in accordance with the Tree Warden Designee's regulations and Section M (Enforcement) of this bylaw.

c. All replacement tree(s) shall be a straight native species deemed advisable by the Tree Warden Designee

7. Utility Company Tree and Vegetation Management Plan(s)

a. The Tree Warden (Select Board) shall request and the utility shall submit, per MGL c. 87 §14, an annual "Hazard Tree Removal Plan" and a "Vegetation Management Plan", as applicable (separately, and together, an "Annual Plan").

b. Such Annual Plan(s) shall include: a map of the circuits where maintenance will occur; and a listing and location of any public shade tree(s) expected to be removed.

c. The Annual Plan(s) shall be submitted to the Tree Warden (Select Board) prior to December 31st each year for activities to be conducted during the following year.

d. Any public shade tree expected to be removed will be appropriately marked by the utility company, so that the public may be made aware of the proposed work. The Tree Warden Designee and the utility representative(s) will visit the proposed work site(s) to inspect the proposed work.

e. The Tree Warden (Select Board) shall hold a consolidated public meeting with the Planning Board to review the annual plan(s).

f. Annual Plan(s) may be approved upon the determination at the consolidated public meeting that the plan follows the requirements of MGL C87. The utility shall be exempt from the requirements of the hearing process laid out in this policy and MGL C87 §3 & §5 for work described in the approved plan.

g. The Tree Warden Designee shall then notify the utility in writing within 60 days of receipt of an Annual Plan(s) whether the plan has been approved or approved with changes made as a result of a public review during a scheduled consolidated public meeting.

h. Approved Annual Plan(s) shall be posted on the Town website, DPW's webpage and sent to the Town Planner and the Town Administrator for distribution to their respective Boards and to the public.

i. No tree removal, trimming or vegetation management affecting a public shade tree shall be done by the utility company that is not part of an approved Annual Plan without a public hearing.

j. Notwithstanding the Town's approval of the Annual Plan(s), a utility shall provide at least 30 days advance written notice to the Tree Warden Designee before beginning tree trimming or tree removal work pursuant to the Annual (s).

8. PROHIBITED ACTIVITIES

a. It shall be unlawful for any person, firm, or town department to engage in any of the following activities relating to public shade trees:

b. topping;

c. excessive pruning;

d. girdling tree trunks;

e. poisoning tree roots,

f. causing any other kind of injury,

g. pollarding the top and branches of a tree;

h. tree stapling, cutting, painting, marking, hanging any public messages on trees or tree trunks without approval of the Tree Warden Designee

i. tree removal without approval of the Tree Warden

*All trees subject to a hearing shall follow same protocol whether a call from a resident, recommendation of the Tree Warden Designee or recommended in an Arborist's Evaluation Report

**SB to use same application form as for scenic roads removing the scenic road reference
***After hearing, trees not slated for removal shall have the posting removed from them
****Dead = non-living, no leaves, no sign of life

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, November 19, 2024 6:30 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Town Administrator Mark Purple. Absent: Assistant Town Administrator Vanessa Hale

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:30 PM.

II. Public Comment

There was no public comment.

III. Scheduled Appointments *(Board may vote)*

a. David Ferris – MGL Chapter 44, Section 53G appeal for Beehive project at 250 Turnpike Road

Ms. Cook stated that Mr. Ferris is appearing before the Board to appeal against an outstanding bill for services provided by Fuss and O'Neill, the Planning Board's peer reviewer, and she read the two conditions under which the Board can hear an appeal. Mr. David Ferris, Principal of Ferris Development Group, appeared before the Board on the matter. He stated he believes that because Fuss & O'Neill is the only peer reviewer of Planning Board projects, they alone benefit financially from projects done in Southborough. He stated he is appealing the bill for a review of the release of bond monies. Mr. Ferris read his remarks and rescinded the appeal. The Board discussed the appeal. Mr. Dennington and Mr. Hamilton suggested that a periodic review of fees charged by consultants is in the best interest of the Town and they suggested placing this matter on a future Board agenda. Mr. Stivers moved to deny the appeal. Ms. Cook seconded the motion. The motion to deny was approved (4-1-0). Ms. Landry voted against the motion to deny.

b. Mark Davis – 40R Development at the MBTA Station

Mr. Mark Davis, 13 Skylar Drive, appeared before the Board on the matter. He shared his presentation for a smart growth, transit-oriented development (TOD) zoning district around the commuter rail station with the Board and public. He proposed that the Town approach the State to request a "pause" on any next steps with the MBTA legislation and zoning while the Town votes to zone the area around the commuter rail station as 40R. He stated that 40R zoning would allow the Town to receive zoning incentives for capital items, including approximately $800,000 dollars for the Neary School Building project, payments per unit built, and a reimbursement for each student added to the school system as a result of 40R development. Mr. Davis described the process the Town would need to utilize in preparing for a 40R project. He informed the Board that additional funds were available to the Town through the 40R process, including a planning grant from the Catalyst Fund. He stated that the process would result in a Memorandum of Understand (MOU) with the MBTA and any proposed project would be put out to bid. The Board discussed the logistics for obtaining approval from Town Meeting for 40R zoning. Mr. Hamilton asked what the neighbors think of 40R zoning. Mr. John Cage, 6 Parker Street, stated that he believes 40R zoning should be investigated, although it is late in the process, and that the neighborhood does not support four or five story buildings. He also wondered whether the potential wastewater costs justify the potential $800,000 dollar payment for the Neary School project. Mr. Stivers asked if local permitting processes

apply to 40R projects. Mr. Davis stated that while local departments would review any project, the MBTA and 40R regulations apply. Mr. Stivers and Mr. Dennington stated that the 40R process is complex and they are concerned about the amount of work necessary before a Town Meeting vote in April. Mr. John Palmer, 131 Parkerville Road, stated that he is supportive of the 40R zoning concept, as it maintains local control by the Town. There were technical issues at this time for anyone wishing to speak remotely. Those wishing to speak called Ms. Cook's cell phone and were heard by the Board and public in this manner. Mr. James Nichols-Worley, 94 Main Street and speaking remotely, stated he is supportive of 40R zoning and TOD in Southborough and he stated that this zoning would provide important financial relief for the Town. He also stated that the Town Meeting approval threshold for 40R zoning is a simple majority. Mr. Paul Carter, 6 Hillside Drive and speaking remotely, stated that 40R development has been successful in cities where the decision-making process is from the top down. He stated that he does not believe that the 40R process is practical where the Town Meeting model is the decision-making body. Ms. Marnie Hoolahan, 26 Clifford Road, speaking as a Planning Board member and speaking remotely, stated she is interested in the 40R development concept and she would like to investigate development issues surrounding the MBTA station. She stated she does not believe the State would approve swapping MBTA zoning for 40R zoning. Ms. Hoolahan offered to spearhead an effort of investigating potential 40R development issues around the MBTA station with Mr. Davis. The Board agreed with Ms. Hoolahan's offer to work with Mr. Davis on the 40R matter. Mr. Davis stated he would provide links to documents on 40R development and Ms. Hoolahan stated she would create a drop box on the Town's website for anyone interested in viewing that information.

The Board recessed at 7:57 PM and resumed meeting at 8:03 PM.

IV. Reports

a. Chair's Report

i. Neary School project update

Ms. Cook reported that the Neary School Building Committee Communications Subcommittee has been holding events to inform the public of the status of the project. She stated outreach efforts included two tours, an informational coffee at Finn School and a presentation at the Senior Center. Ms. Cook stated that the schematic design phase has started. She also stated that the Neary School Building Committee (NSBC) would meet next week to vote on the type of contract to use. Ms. Cook stated that Jason Malinowski from the NSBC would appear at the Board's December 17th to provide an update on the matter.

ii. Veterans Day update

Ms. Cook reported that the Veteran's Day events were successful and she thanked Mr. Steven Whynot for his assistance with the events.

b. Members' Reports

i. Wastewater treatment

Mr. Hamilton reported that he and Mr. Stivers have met with DPW Superintendent Bill Cundiff to review various wastewater reports. He also reported that they met with the Framingham DPW to explore connecting to Framingham's sewer system along Route 9 but have learned that the Massachusetts Water Resource Authority (MWRA) does not look favorably on this concept. He also reported that they have met with Westborough's Select Board Chair to discuss Westborough's expansion of its wastewater treatment system. He also stated that they would meet with Weston and Sampson to review the recommendations provided in their most recent report. Mr. Hamilton and Mr. Stivers stated the goal is to formulate a plan to address the issue and examine potential options and costs.

c. Town Administrator's Report

There was no Town Administrator's report.

V. Consent Agenda

a. Approve Open Session Meeting Minutes: October 22, 2024

Mr. Stivers requested to hold Consent Agenda item "a." Mr. Stivers and Ms. Landry had scrivener's changes to the minutes.

Mr. Dennington moved to approve Consent Agenda items "a", as amended, "b", "c" and "e." Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Appoint Part-time Senior Center Volunteer Coordinator

c. Approve updates to Comprehensive Emergency Management Plan (CEMP) plan

d. Extend charge of the 21 Highland Future Use Committee to 6/30/2025

Ms. Cook requested to hold Consent Agenda item "d." Ms. Cook stated that the Committee has elected a chair, vice chair and clerk but is just beginning their work. She requested that the dates in the charge be moved as follow: interim report due on February 28, 2025 and final report due on June 30, 2025. Mr. Stivers moved to approve Consent Agenda item "d" with the above-listed date changes. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0). Ms. Kristin LaVault, 12 Southwood Drive, speaking as a member of the 21 Highland Future Use Committee and speaking remotely, thanked the Board for extending the dates in the charge. She stated that the Committee's chair did not act incorrectly and said their discussion revolved around a potential survey. She stated the Committee is aligned on its path forward and she expects they will provide updates prior to the February 28, 2025 interim report date. Ms. Cook announced that there is a vacancy for the citizen-at-large position on the Committee and urged the public to consider the position.

e. Appoint Michelle Hokinson as the Historical Commission rep. to the Tricentennial Committee; term to expire 6/30/2025

VI. Other Matters *(Board may vote)*

a. DOR Policy review and plan for implementation

Ms. Cook reported that DOR had provided recommendations on the Town on management policies and financial policies. Ms. Cook stated that the Town would first address recommendations of financial policies. Ms. Cook stated that Mr. Ballantine suggested that the Finance team (Mr. Ballantine, Ms. McAuliffe and Mr. Cibelli) work with Mr. Purple and one member each from the Board and from the Advisory Committee to provide recommendations for implementation. The Board discussed and agreed to the plan. Mr. Dennington moved to appoint Mr. Hamilton as the Board's liaison to work with the Advisory Committee and the Finance team on the recommendations for implementing the DOR policy review. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Set Select Board meeting schedule for the remainder of FY25

Mr. Dennington moved to adopt the Select Board meeting schedule for the remainder of FY25. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

c. Review and approve Intermunicipal Agreement for the inclusion in Metrowest Regional Emergency Communication Center (RECC)

Ms. Cook stated that the amended and restated Intermunicipal Agreement (IMA) between Grafton, Westborough and Southborough for the Metrowest Regional Emergency Communication Center (RECC) is before the Board for consideration. The Board discussed the IMA. Mr. Hamilton stated he is not in favor of the funding mechanism but is in favor of moving forward. Ms. Cook stated she has some issues with the language in the agreement but believes those can be resolved. She stated it is important to move forward so that Southborough can be appropriately represented in the process. Mr. Hamilton moved to approve the amended IMA included in the packet. Mr. Stivers seconded the

motion. The motion was unanimously approved (5-0-0). Mr. Hamilton moved to appoint Mark Purple as the Board's representative to the Metrowest RECC Board of Directors. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). The Board discussed that Mr. Purple would appoint Mr. Ballantine to the RECC's Finance Board. The Board discussed next steps in the RECC process, which will be negotiating the lease, moving forward with the grant process and hiring an Executive Director. Ms. Cook asked how long the process would take until full implementation. Mr. Hamilton stated he estimates that it will take approximately two years. The Board acknowledged the work by all parties involved in bringing this matter to fruition, including Mr. Stivers, Mr. Hamilton, past Board members and former Fire Chief Achilles.

d. Discussion of filling vacancy in Select Board position on the Metropolitan Area Planning Council (MAPC)

The Board agreed to table the matter to a later date. Mr. Stivers will follow up with Mr. Purple to confirm Debbie DeMuria's appointment and will speak with Ms. DeMuria to confirm she is the representative attending meetings on the Town's behalf.

e. Discussion of One Stop grant application for zoning on Route 9

Mr. Dennington stated that at the Board's office hours last week, an informal discussion took place with Economic Development Committee (EDC) Coordinator Leah Emerson, EDC chair Michael Nordstrom, EDC member Karen Anglim and Claire Reynolds. They discussed efforts to make zoning changes that favor business development along Route 9 and in Southborough overall. The Board discussed the various ongoing efforts to support positive zoning changes. They agreed to support the work of Ms. Landry, Mr. Hamilton, Building Commissioner Lund and the Planning Board to propose smaller zoning changes for presentation at Annual Town Meeting 2025. The Board agreed to consider the Corridor Study grant and Ms. Cook suggested the Board contact Mr. Rob Anderson regarding the grant. Mr. Dennington stated that he would meet on Friday, November 22nd, with Assistant Town Administrator Vanessa Hale and EDC Coordinator Emerson to discuss a plan to apply for the One Stop Grant Expression of Interest, which is due on February 1, 2025, and an MAPC technical assistance grant for zoning, which is due on December 13, 2025. He stated he would work with Mr. Alan Belniak on the application for the MAPC grant.

VI. Public Comment

There was no public comment.

VIII. Adjournment

Mr. Dennington moved to adjourn the meeting at 8:12 PM. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

Overview of the process

Mark Davis 11-19-24

MBTA Southborough

Current Features

- Current parking 378
- Blue - MA DOT Rail
- Purple - MBTA

40 R Summary 40 S Summary

Smart growth zoning

Chapter 40R of the Massachusetts General Laws allows cities and towns to adopt smart growth zoning districts to permit denser housing production.

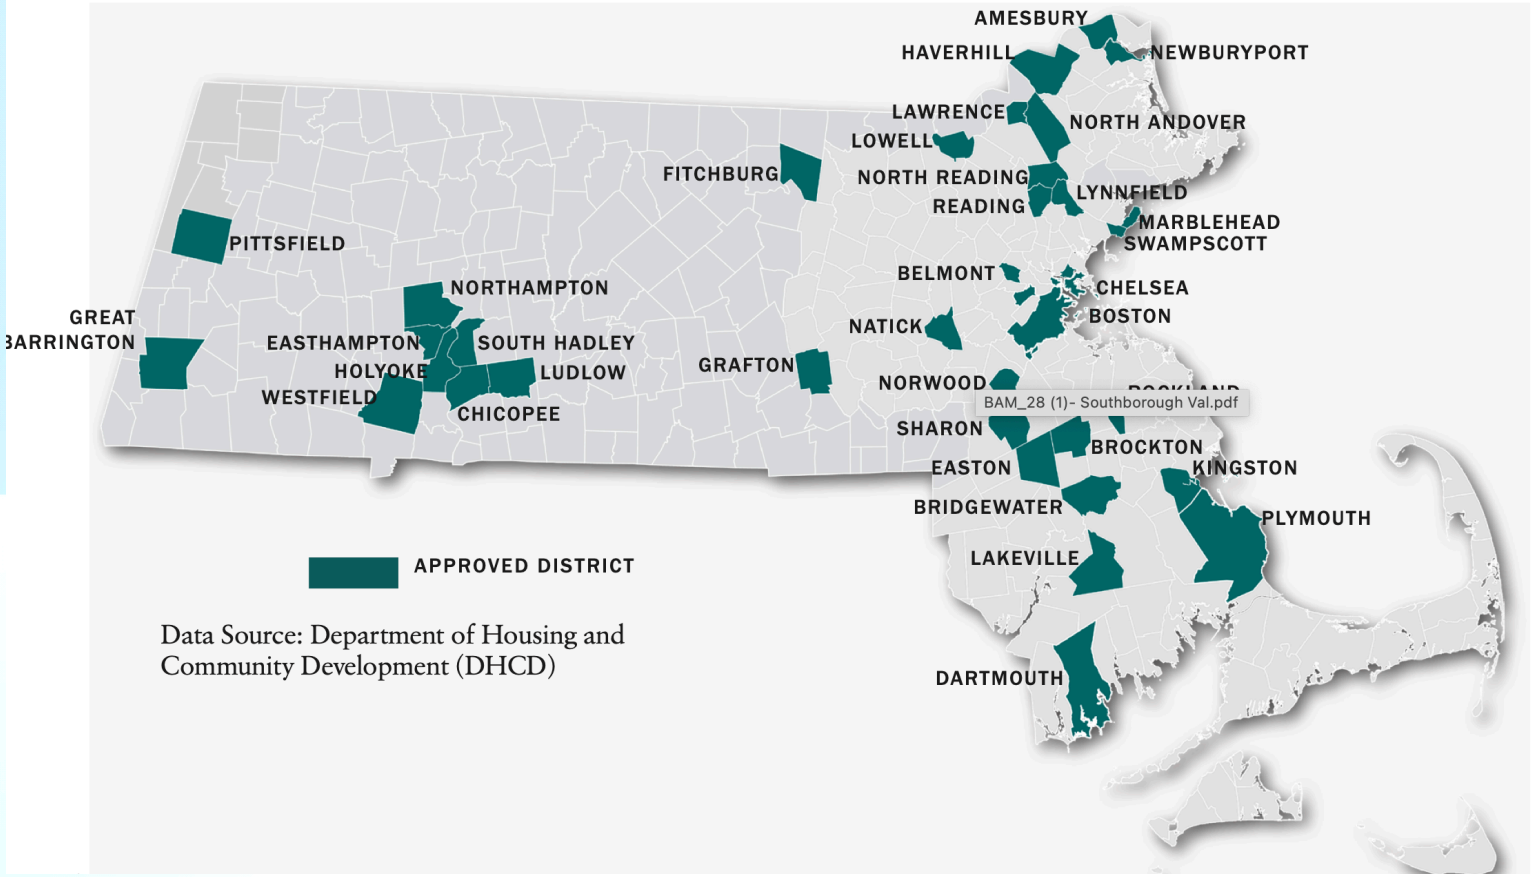
Starter home zoning

Chapter 40R also allows cities and towns to adopt starter home zoning districts. However, Chapter 268 of the Acts of 2022 uncoupled starter homes from Chapter 40R and placed them in a new chapter of the General Laws.

Benefits

Municipalities that adopt 40R zoning may receive benefits such as:

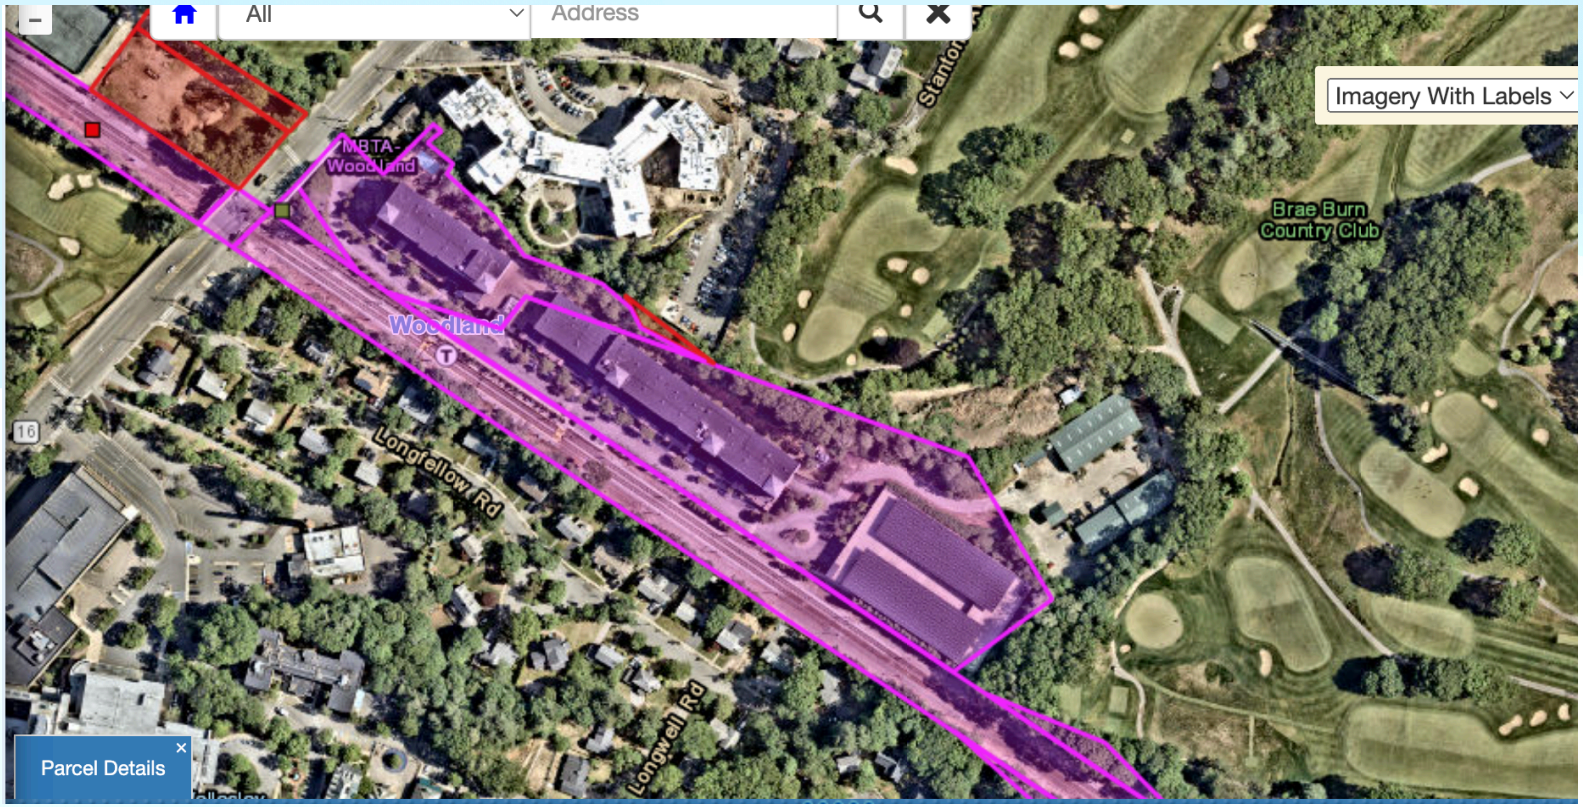
- Zoning Incentive Payments
- Payments per unit when building permits are issued
- Reimbursement for school impact
- Higher state match for new school buildings
- More favorable consideration when applying for discretionary grants



Overlay districts

Within an overlay district, developers can choose to develop a project in accordance with the requirements of the smart growth zoning or the underlying zoning.

Housing density



The 40R overlay must allow housing to be built at 8 to 20 units per acre, depending on the type of housing.

APPROVED SMART GROWTH DISTRICTS (AS OF DECEMBER 31, 2017)

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, October 22, 2024 6:30 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Town Administrator Mark Purple. Absent: Assistant Town Administrator Vanessa Hale

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:30 PM.

II. Public Comment

There was no public comment.
Ms. Cook moved to Reports at this time.

III. Scheduled Appointments *(Board may vote)*

a. 6:45 PM – Tax Classification Hearing

Mr. Purple read the public hearing notice into the public record. Mr. Paul Cibelli, Principal Assessor and Ms. Lori Esposito, Deputy Assessor, appeared before the Board on the matter. Also appearing before the Board were the following members of the Board of Assessors: Jeffrey Klein, Chair, Tammi Rice, Vice Chair, and Heath Widdiss. Mr. Cibelli shared the presentation for the FY25 Tax Classification hearing with the Board and public. Mr. Cibelli stated that the increases to the classes are as follows: Residential: 6.75%; Commercial: 1.16% and Industrial 6.29% and that the average single-family tax bill will increase 6.4%, year over year. He pointed out that the Commercial, Industrial and Personal Property (CIP) class is trending down over time. He stated that, in his tenure with the Town, the CIP class has represented approximately 17-20% of tax revenues and that this year's projection is approximately 15.9% of tax revenues. Mr. Cibelli stated that the Board of Assessors is recommending that the Town continue with a single tax rate for FY25 and that the Town not adopt the Residential or Commercial Exemptions, as they are not relevant to the Town. Ms. Cook expressed her shock at the size of the increase and stated that increasing commercial revenues has to be a priority of the Town. To that end, she suggested addressing septic and zoning issues. Mr. Stivers expressed his interest in a split tax rate and suggested exploring how other communities address the timing of tax information relative to the impact on the Town's budget process. Mr. Cibelli stated that the large increases in tax rates are being felt throughout the Commonwealth. Mr. Hamilton stated that as 80-85% of the Town's taxes are generated from the residential class, approximately $2 million dollars has been shifted over time from the CIP class to the residential class. He stated the Town should focus on the type of development that increases the CIP class, adding that office park development appears to be a thing of the past. He asked that the Board place on its agenda in the near future a discussion item regarding the creation of a sewer working group and a comprehensive review of zoning, especially along Route 9. Mr. Cibelli stated that the Town should consider diversifying its CIP class. The Board discussed the impact of a split rate and what savings could be achieved for the residential class. There was no public comment on the matter. Ms. Cook acknowledged a letter from Karen Chapman, President and CEO of Corridor 9/495 Regional Chamber of MetroWest, in support of a single tax rate for Southborough. Mr. Dennington moved to close the

tax classification public hearing at 7:28 PM. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Mr. Dennington moved that the Board adopt a single tax rate for FY25. Mr. Hamilton seconded the motion. The motion was unanimously approved (5-0-0). Mr. Dennington moved that the Board not adopt the Residential Exemption for FY25. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Mr. Dennington moved that the Board not adopt the Small Commercial Exemption. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. David Ferris – Procurement Appeal for 250 Turnpike Road project

Ms. Cook stated this matter has been postponed until the Board's November 4th meeting.

c. Mark Davis – 40R Development at the MBTA Station

Ms. Cook stated this matter has been postponed until the Board's November 4th meeting.

d. Travis Farley – Update on Recreation activities

Mr. Travis Farley, Recreation Director, appeared before the Board on the matter. Also in attendance from the Recreation Commission were the following: Jennifer Hansen, Chair of the Recreation Commission, and Donald Dumont, Vice Chair of the Recreation Commission. Commission member Kristin LaVault appeared via ZOOM. Mr. Farley shared his report of the last three month's activities with the Board. He thanked Christina McCarthy for navigating the transition from Tim Davis's departure to Mr. Farley's arrival during the summer camp season. Ms. Cook asked about the Gobble Wobble. Mr. Farley stated that registration is open for the annual Thanksgiving Day run and the event would be publicized once Halloween is over. Mr. Farley shared that the Recreation Department has joined Rec Connect, an adaptive recreation program offered through Shrewsbury, Northborough and Westborough recreation departments for their residents. Ms. Hansen stated the Recreation Commission continues work on the dog park and related funding sources. She also said the Commission continues to provide input to the Neary Building Committee regarding impacts to the fields with layout/construction issues. She also stated the Commission continues to discuss the timing to install turf under the lights at Woodward Field, adding that estimates for turf installation are in the $1-2 million dollar range. Mr. Dumont stated that the Commission is pleased that Mr. Farley has continued the successful momentum of the last five years. He stated the Commission remains focused on a plan for Lunblad Field. Mr. Stivers asked if it was possible to track participation rates. Mr. Farley stated that the department uses a recreation management system that allows them to track that information and he added that participation can vary from program to program but, in general, participation rates are on the higher side. Mr. Stivers suggested that having a 5-10 year plan of goals would be a helpful communication tool in considering funding. Ms. Hansen stated that the Recreation Commission undertook a 10-year plan in 2016 and reviews this plan annually with the Capital Planning and Improvement Committee (CPIC). She stated that the Commission has achieved many of the goals in the plan and intends to update it in the next in the year or two. She stated she does not foresee the need to hire additional staff and Mr. Dumont stated that the lack of indoor facilities remains a challenge to increasing programming. Mr. Stivers suggested providing additional programming for the increasing senior demographic in Town.

Ms. Leah Emerson, Economic Development Committee (EDC) Coordinator, appeared before the Board to offer her support for the Board's votes relative to the tax classification hearing.

IV. Reports

a. Chair's Report

i. Bench dedication for Kim Tollander

Ms. Cook reported that during Heritage Days, a bench was dedicated in the Southborough Heritage Park in memory of Kim Tollander, Southborough School Committee member who passed away last year. Ms. Cook reported that friends and family came to the dedication ceremony.

ii. Heritage Days

Ms. Cook reported that, despite the weather, Heritage Days was a successful community event.

iii. 2 East Main Street update

Ms. Cook reported that Mr. Bemis appeared before the Planning Board last evening to present a project for development at 2 East Main Street. Ms. Cook stated she looks forward to supporting development at the site, as it is one of the Select Board's FY25 goals.

b. Members' Reports

i. Tricentennial fundraiser update

Mr. Dennington reported that the Tricentennial Committee had a booth at Heritage Days where commemorative bricks were sold, adding that the bricks will be installed in Southborough Heritage Park. He encouraged the public to support the fundraiser and stated additional information is available on the Tricentennial Committee's website.

c. Town Administrator's Report

i. Resignation of Shannon Kinayman from Youth and Family Services

Mr. Purple reported that Shannon Kinayman, Program Director for Southborough Youth and Family Services (SYFS) for the last eight years, has resigned and her last day of work was on October 16, 2024. He stated that he attended a reception for Ms. Kinayman and wished her well in her future endeavors. He also stated that Sarah Cassell, Director of SYFS, and Ms. Vanessa Hale are working to advertise the open position. Mr. Purple also stated that Mr. Dean Cibelli has notified the Town he will retire on November 4, 2024, after 36 years of service. Mr. Purple thanked Mr. Cibelli for his commitment to the Town and his many years of service.

ii. Southborough Power Choice renewal notices

Mr. Purple reported that Southborough Power Choice notices for the Town's electric aggregation program will be sent out November 1st. He stated that residents could select from three programs: basic, green and a new hybrid option. Mr. Purple noted that since its inception, the aggregation program has saved enrolled Southborough residents approximately $9 million dollars. He described the renewal process and stated that notices would be mailed to all residents and current subscribers, posted on the Town's website, available at the Town House and publicized through social media.

iv. Status of CSX improvement on Central Street

Mr. Purple reported that the roadwork was successfully completed on October 15th and 16th. He stated that the CSX crossing on Main Street would be addressed in the future.

iv. ALS One Fundraiser

Mr. Purple reported that, despite the weather, the ALS One fundraiser was a success. He stated that 292 rounds of golf were played and the event raised $3,200 for ALS One in memory of Brian Schifrin and John Wilson. He also thanked Brian Shea and the management company for their assistance with the fundraiser and those who participated to make the event a success.

Mr. Purple reported that Conservation Commissioner Melissa Danza had sent an email stating that waste from the Breakneck Hill remediation project would be sent to the Maine site, which may result in the Town returning some of its bonding authorization for the project.

V. Consent Agenda

a. Approve Open Session Meeting Minutes: October 8, 2024

Mr. Stivers held Consent Agenda item "a." Mr. Stivers requested the following changes: Line 162: add "each" before area; Line 200-201: delete "bylaw compliance" and insert "reporting for DPW issues and bylaw compliance issues"; Line 204: insert "the previously proposed SeeClickFix software." Mr. Dennington moved to approve Consent Agenda item "a", as amended. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

Ms. Cook moved to the Tax Classification public hearing at this time, as it was 6:45 PM.

b. Approval of FY26 Budget Calendar

Ms. Cook held Consent Agenda item "b." Ms. Cook stated that a joint meeting with the CIPC and the Advisory Committee has been added to the draft FY26 Budget Calendar for December 17, 2024. The Board discussed budgeting directives for the Finance Team's communication with department heads. The Board agreed to ask department heads to provide a level service budget with no additions to personnel and, if additional funds or personnel are requested, that the department prepare an ancillary budget. Mr. Dennington moved to approve Consent Agenda item "b", as amended. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

c. Approve 2025 Senior Health Benefit renewal

Ms. Cook held Consent Agenda item "c." Ms. Cook stated that tonight's vote authorizes the signing of a new contract with Aetna for 2025. She also informed the Board that the Insurance Advisory Committee (IAC) is in discussions with Tufts/Harvard Pilgrim to potentially add a traditional Medigap policy but information on that matter would not be available until early 2025. Mr. Stivers moved to approve Consent Agenda item "c." Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

d. Approve Executive Session Meeting Minutes: October 8, 2024

Mr. Dennington moved to approve Consent Agenda item "d." Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

V. Other Matters *(Board may vote)*

a. Approve restitution for removal of public shade tree at 37 Clifford Street

Ms. Cook provided a history of the matter surrounding a public shade tree that was removed on September 28, 2023. She stated that the resident can either write a check for $500 or purchase two trees from the Accepted Tree list. The Board discussed the matter. Mr. Hamilton moved to authorize DPW Superintendent Cundiff and Tree Warden Designee Chris Leroy to meet with the homeowner to resolve the matter by either purchasing two trees from the Approved Tree List or writing a check for $500. Mr. Dennington seconded the motion. The motion was approved (4-0-1). Ms. Landry abstained. Ms. Cook asked Mr. Stivers to amend the Tree Policy to reflect State language and Mr. Stivers agreed. Ms. Landry recommended that the Tree Policy contain consequences for any tree company removing a public shade tree. Ms. Cook stated that a public hearing on the Amended Tree Policy would occur at the November 4th meeting.

b. Continued discussion of ARPA funding

i. Review of project allocations

Ms. Kathryn McKee, Trails Committee Chair, appeared before the Board on the matter. Ms. McKee stated that the scope of the crosswalk project has expanded so the Trails Committee has decided to address the matter in 2025 with alternative funding. She stated she would return $15,000 in ARPA funds allocated to the project. With regard to the $12,500 in ARPA funds allocated for trail enhancements, Ms. McKee stated she would have the entire amount contracted or spent by November 4th. She also stated that of the $61,009.50 remaining ARPA funds allocated to the Peninsula Trail project, the Trails Committee is only requesting $21,000 for paving of the ADA parking spaces. She stated the Trails Committee would return a total of $55,009.50 ($15,000 and $40,009.50) in previously allocated ARPA funds. Ms. McKee thanked the Board for their patience as the Trails Committee investigated utilizing all of the allocated ARPA funds. Mr. Hamilton moved to reallocate $55, 009.50 from the Peninsula Trail and the crosswalk at Stonybrook/Route 30 to the General Tax Relief category. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

ii. Reallocation of available funds

Mr. Hamilton moved to reallocate $20,000 from the McAuliffe Room upgrades to the General Tax Relief category. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-

0). Ms. Cook stated that the Board has approximately $78,509.50 in ARPA funds to reallocate. Mr. Dennington moved to allocate $5,400 from the General Tax Relief category to purchase two automated external defibrillators (AEDs). Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook moved to allocate 100% of the remaining ARPA funds equally between Police Chief Newell, Fire Chief Puntini and DPW Superintendent Cundiff to spend. Mr. Dennington clarified that each department head would present a list of expenditures for the proposed ARPA allocations at the Board's next meeting. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook stated that all of the ARPA funds received by the Town have been allocated.

c. Continued discussions of the Public Safety staffing study

Ms. Cook stated that she met with Advisory Committee Chair Andrew Pfaff and discussed how best to proceed with the recommendations of the Public Safety staffing study. She proposed that four individuals (two from the Select Board and two from the Advisory Committee) meet to make recommendations for both the Board and the Advisory Committee to consider. The Board discussed the matter and agreed that Mr. Dennington and Mr. Pfaff would meet to review recommendations from the staffing study for the Police Department. The Board agreed that Ms. Cook and Mr. Pfaff would meet to review recommendations from the staffing study for the Fire Department. Mr. Stivers recommended that Police and Fire prepare 3-5 year plans for phasing and budgeting purposes.

VI. Public Comment

Ms. Marnie Hoolahan, Planning Board member, 26 Clifford Road, requested that the Board reschedule Scheduled Appointments C, as there is a conflict with a Planning Board meeting and the subject matter is of interest to the Planning Board. Ms. Cook agreed to Ms. Hoolahan's request.

VIII. Adjournment

Ms. Cook moved to adjourn the meeting at 8:30PM. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

To Select Board

From Pam LeFrancois, Vanessa Hale

Re Volunteer Coordinator

Recently the Select Board accepted a donation from the Cummings Foundation to fund a part time, 15 hour per week Volunteer/Program Coordinator (focusing on intergenerational programming) for the Senior Center. This is currently a temporary [non-benefit eligible] one year position, classified under the Salary Administration Plan.

After a thorough interview process that included the Town Administrator, Assistant Town Administrator, COA Program Coordinator and myself, we'd like to recommend Heidi Cibelli for appointment to this position.

Ms. Cibelli worked for many years in both the Southborough Public Library as well as the Town Accountant's office. She is well versed in collaborating with many facets of town government, knows the community well since she resided here for many years and will be able to quickly make connections with the intergenerational audience. Other assets include her skills in the area of customer service, knowledge of the Southborough school organization as well as her familiarity with seniors and awareness of their needs and interests.

A start date for employment is scheduled for December 16. Thank you for your consideration. If you have any questions or concerns, please feel free to contact me at your convenience.

Town of Southborough
Emergency Management

ENHANCING COMMUNITY SAFETY THROUGH EDUCATION AND PREPAREDNESS

MEMO

TO: Select Board
FROM: Southborough Emergency Management (SEMA)
DATE: 11/12/2024
Re: Updated Comprehensive Emergency Management Plan (CEMP)

Dear Select board members,

The town of Southborough has updated its Comprehensive Emergency Management Plan (CEMP). This plan was developed five years ago with the assistance of the Massachusetts Emergency Management Agency (MEMA). The document is required by the state to be updated every five years to remain certified as a local emergency planning committee community.

As part of the approval process and acceptance by the Massachusetts Emergency Management Agency (MEMA), the final draft of the CEMP (the version attached) must be accepted and signed by the Chief Municipal Officer, Chair of the Select Board and board members, for the Town. Reviews and signatures by other required Town personnel will also be completed.

SEMA ensures the Board that all requirements contained within the document have and will continue to be met. Town counsel has reviewed the document, and all major changes were approved. Changes included: updating town official names and adding additional annexes to the plan including a local shelter management planning and response checklist, local disaster debris management planning and response checklist, & updates to the emergency operations center support checklist.

If the Board has any questions regarding this document, please feel free to contact me directly at any time.

Thank you for your continued support in helping to ensure the safety of the public, environment and infrastructure of the Town of Southborough.

Respectfully submitted,

Taylor West
Deputy Emergency Manager

Promulgation Statement

A primary role of government is to provide for the safety and welfare of its citizens. The welfare and safety of citizens is never more threatened than during times of disaster and other serious emergencies. A goal of emergency management is to ensure that effective multi-discipline and multi-jurisdictional mitigation, preparedness, response, and recovery plans exist so that the public welfare and safety are preserved.

The Town of Southborough Comprehensive Emergency Management Plan (CEMP) provides a framework for a community-wide emergency management system to ensure a coordinated response to emergencies and coordinated support of certain pre-planned events. The CEMP addresses the roles and responsibilities of all community departments, agencies, government organizations, volunteers and community partners that may be involved in response operations, and identifies how regional, state, federal, private sector, and other resources may be activated to address disasters and emergencies in the community.

It is intended that this plan and annexes conform to the terms and conditions of all Massachusetts Laws and Regulations and as amended, the Commonwealth of Massachusetts Comprehensive Emergency Management Plan, and such Federal Acts and Regulations as may be applicable. The Town of Southborough Comprehensive Emergency Management Plan assures consistency with current national and state policy guidance and describes the interrelationship with other levels of government. This plan will continue to evolve, responding to lessons learned from actual disasters and emergency experiences, from ongoing planning efforts, from training and exercise activities and continuing state and federal guidance.

Therefore, in recognition of the emergency management responsibilities of Chief Municipal Officials and within their authority vested by the citizens of Town of Southborough, we do hereby promulgate the attached Town of Southborough Comprehensive Emergency Management Plan on this ___ day of_____, 2024.

Approval and Implementation

This Comprehensive Emergency Management Plan (CEMP) for Town of Southborough will become effective and considered approved upon signing by the Chief Municipal Official (Selectboard), Chairperson of the Selectboard and the Emergency Management Director. When approved, this plan will supersede all previous plans for emergency management.

The Chief Municipal Official authorizes certain Town of Southborough officials to make certain modifications to this plan without the express written approval of the Chief Municipal Official. These modifications must be recorded in the Record of Changes section of this plan.

Authorized modifications include:

- Changes to contact information
- Additions/Deletions/Edits to Plan Sections
- Additions/Deletions/Edits to related attachments and maps
- Other changes as necessary related to operational readiness

The following Town of Southborough officials have the authority to make the above-named changes.

1. Emergency Management Director
2. Deputy Emergency Management Director

Police Chief Official/Documented Designees of #1, 2, & 3

Introduction

When a disaster impacts a community, the community must organize to provide coordinated, comprehensive response and recovery actions and resources. Resource needs have to be determined and prioritized; response elements have to be identified and dispatched; reports and records have to be maintained in an organized fashion.

To guide response activities and ensure effective and efficient coordination, Town of Southborough has developed this Comprehensive Emergency Management Plan (CEMP). The Comprehensive Emergency Management Plan defines the scope of preparedness and emergency management activities in the community, and facilitates all hazard preparedness, mitigation, response, and short-term recovery activities, thereby setting the stage for a successful long-term recovery. The Town of Southborough CEMP describes the community's emergency management organization, including the roles, responsibilities, and operations of Town of Southborough and all of its departments and agencies during a disaster, major emergency or planned event. The CEMP describes the relationship between the community and local, regional, state, and federal emergency response structures. The CEMP:

- Formulates policies designated to protect life and property during incidents affecting or threatening life or property within the community.
- Provides guidance for strategic thinking and decision-making as it relates to emergency operations.
- Assigns department or agency roles and responsibilities to mitigate, prepare for, respond to, and recover from incidents threatening life or property within the community.
- Officially establishes NIMS and the Incident Command System (ICS) as the organizational structure to guide activities during an emergency affecting the community.
- Identifies lines of authority and community policy related to emergencies and disasters.

Town of Southborough activates its CEMP when the community must respond to an emergency situation that requires multi-agency coordination within the community, and/or may require support from other local, state and federal entities. In addition, Town of Southborough may activate the CEMP to coordinate multi-agency and/or multi-jurisdictional support of a pre-planned event.

The Town of Southborough CEMP does not supersede any departmental standard operating procedure (SOP) or responsibility for day-to-day operations. The CEMP supplements but does not supplant the responsibilities or duties of any department or agency. The CEMP also describes cooperation and integration of actions with other nearby communities and response entities. This plan is not intended to limit or restrict the initiative, judgment, or independent action required to provide appropriate and effective emergency response, disaster mitigation activities, preparedness, and recovery efforts.

The CEMP is based on the Federal Response Plan (FRP), the National Response Framework (NRF) and National Preparedness Goal, and is compliant with the National Incident Management System (NIMS), Incident

Command System (ICS), and the Comprehensive Preparedness Guide (CPG) 101 Version 2 national standards. The CEMP is also compatible with the state-level Massachusetts Comprehensive Emergency Management Plan (CEMP).

All appointed and elected community officials, community departments, community volunteers and partner agencies should become familiar with this document to ensure efficient and effective execution of their emergency responsibilities. While the plan can help to establish the relationships, responsibilities, and general guidelines for community departments to use during an emergency, it does not replace the responsibility each department has in developing its own emergency protocols and testing its own plans. The CEMP is only one aspect of a prepared and resilient community.

Purpose

The purpose of the Town of Southborough Comprehensive Emergency Management Plan (CEMP) is to establish the overall framework for integration and coordination of emergency management and response activities and to facilitate coordinated response to any emergency or event in the Community requiring multi-agency response or support. The CEMP identifies local agencies and partner organizations that provide command and coordination capabilities for an emergency or event and describes how command and response components are organized and managed. The plan provides guidance to all departments and agencies in the Community and details general roles and responsibilities of local departments and partnering stakeholders before, during, and following an emergency situation or event. It also provides for the systematic integration of additional emergency resources but does not replace other federal, state or national emergency operations plans or procedures. It identifies lines of authority and organizational relationships for the management of emergency response actions, describes how people and property are protected in an emergency or disaster, and identifies legal authority.

Further, the purpose of this plan is to prescribe those activities to be taken by the Community Chief Municipal Official as well as by other government and community officials to protect the lives and property of all of the citizens of the Community in the event of a natural or human-caused emergency or disaster, including terrorism, and to satisfy the requirement that the Community have an effective and operational emergency management plan.

The CEMP is comprised of this Base Plan, and a series of attachments, which provide an in-depth tool to build a strong emergency management plan.

The CEMP is intended to accomplish the following goals:

- Assign responsibilities to agencies, organizations and individuals for carrying out specific actions during an emergency or event;
- Detail the methods and procedures to be used by designated personnel to assess emergencies and take appropriate actions to save lives and reduce injuries, prevent or minimize damage to public and private property, and protect the environment;
- Provide a process by which emergency response personnel and local government staff can efficiently and effectively prevent, mitigate, prepare for, respond to, and recover from emergencies and disasters;
- Identify the responsibilities of local agencies and partnering stakeholder and organizations during emergencies or events; and
- Identify lines of authority and coordination for the management of an emergency or event.

Scope

This Plan encompasses all four phases of the emergency management cycle - - preparedness, mitigation, response and recovery - - and applies to all Community departments and agencies as well as other response agencies operating within the geographical boundary of the Community. The plan is applicable to all organizations acting for or on behalf of the government of Town of Southborough in response to an emergency or in support of an event. Department or organization-specific plans may be developed by community agencies and/or partners to augment this plan to more efficiently detail and integrate actions related to agency- or venue-specific requirements.

This Plan addresses two different types of response scenarios:

- **Planned or Anticipated Incidents**: Incidents that can be planned for in advance such as a hurricane, a winter storm, extreme temperatures, major crowd events or VIP visits, etc. and;

- **Immediate Response Incidents**: such as a major traffic accident, airplane crash, tornado, earthquake, fire, hazmat incident, active shooter, kidnapping, major crime, etc.

Situation

Community Characteristics

Geography: The Town of Southborough is located in Worcester County Massachusetts in the central portion of the Commonwealth. The Community has a total area of 15.7 square miles of which 14.2 square miles is land and 1.5 square miles is water. The Community is bordered by Framingham to the east, Ashland and Hopkinton to the south, Westborough & Northborough to the west, and Marlborough to the north. The Community's peak elevation is 309 feet.

Population: According to the 2020 United States Census Bureau, the population of Town of Southborough is approximately 10.450, and includes 3.763 households. The population consists of approximately 28.2% under the age of 19, 4.3 % persons age 18 to 24, 22.3% age 25 to 44, 32.3 % age 45 to 64, and 12.9% % age 65 years of age or older. The median age was 42 years.

- **Access and Functional Needs:** About 575 people (5% of the population) in Town of Southborough present with a disability affecting at least one of the following areas: sensory, cognitive, ambulatory, self-care, or independent living. Other groups with function-based needs that may not be captured in demographic data may include, but are not limited to, people who are morbidly obese, pregnant women, people who require prescription medication for daily well-being, and people who are transportation disadvantaged.
- **Language:** 22% of the Town of Southborough resident population, speaks a language other than English at home. Of these, about 9% of the population, speak English at a level less than "very well". Non-English languages spoken in Town of Southborough include Spanish, Portuguese, French, Hindi & Asian dialects.

Roadway Infrastructure: Town of Southborough contains several primary and secondary roadways in addition to local and private roadways. Primary routes include; I-90 (Massachusetts Turnpike), I-495, Rt.9. Rt.30 & Rt.85. Two rail lines run through town. The Fitchburg/Boston (freight) line transverses the north-side of town. The Boston/Worcester MBTA (Commuter) rail, Amtrak Northeast line and CSX fright line transverse the south-side of town.

Threat, Hazard and Vulnerability Analysis Summary

Town of Southborough has completed a threat, hazard, and vulnerability assessment for the jurisdiction by 1) hazard identification, 2) profiling of hazard events, 3) inventory of assets, and 4) estimation of potential human and economic losses based on the exposure and vulnerability of people, buildings, and infrastructure. The documentation of this can be found in our Natural Hazard Mitigation Plan, Municipal Vulnerability Preparedness Plan, and State THIRA. The analysis identified the following potential hazards and threats, vulnerabilities and impacts to population, property, and critical infrastructure.

Natural Hazards

Natural Hazards are defined as naturally occurring events - such as riverine flooding, aerial flooding, hurricanes, tropical storms, coastal flooding, earthquakes, tornadoes, wildland fires, pandemics, and severe winter storms - that have the potential to harm people, property or the environment. The following natural hazards are capable of causing an impact in Town of Southborough:

- Severe Weather: Town of Southborough is vulnerable to any server weather events that impact the Commonwealth.
- Riverine/River Flooding: Riverine flooding from the Sudbury River may impact the areas of River Street, Fay Ct, Bridge St, Wood St, Valade Ct, Southville Rd, & Parkerville Rd. The affected area includes approximately 70 residential occupancies.
- Pandemic: Town of Southborough is vulnerable to any pandemic that impacts the Commonwealth.
- See attached hazard mitigation plans for more detail.

Technological Hazards

Technological Hazards generally refer to hazardous materials, petroleum, natural gas, synthetic gas, acutely toxic chemicals and other toxic chemicals at fixed facilities or in transport. The following technological hazards are capable of causing an impact in Town of Southborough:

- Technological Hazard: Town of Southborough is vulnerable to most general technological hazards may that impact the Commonwealth. These include; power outages and electromagnetic pulses.
- Tier 2 facilities: There are 15 facilities in Town of Southborough have chemicals in reportable quantities onsite at any given time. The Fire Department & LEPC maintain information on these facilities and the chemicals onsite.

Transportation Hazards

Transportation Hazards generally refer to hazards that exist on the various transportation networks in a community. These could include roadways, railways, waterways that may serve as routes for the transport of hazardous materials, or airfields in the communities. This includes the following transportation networks in Town of Southborough:

- Hazardous materials are transported on the following and present hazards to commercial, industrial and residential occupancies in immediate and remote adjacent areas:

- Interstates: 90 (MassPike) and 495
- Routes: 9, 30 and 85
- Freight Rails: Fitchburg/Boston and CSX/MBTA Worcester/Boston

Man-Made Hazards

Man-Made Hazards generally refer to hazards which are caused by humans, either accidentally or intentionally. These could include, but are not limited to, cyber threats, chemical, biological, radiological, nuclear, and high-yield explosive (CBRNE) threats, and terrorism. The following man-made hazards are capable of causing an impact in Town of Southborough:

- Town of Southborough is vulnerable to all man-made hazards may that impact the Commonwealth.
- Lone-Wolf/Single Assailant: These types of hazards, including active threat/violent (active-shooter) and vehicle borne attacks, are an ongoing risk in any community nationwide. St. Mark's and Fay are two high profile private boarding schools present an increased risk.
- Cyber Threats: These are an increasingly potential threat to the Town of Southborough, especially to municipal government and public safety.
- CBRNE: Although not a high risk, the community and our planned community events may be vulnerable to any incidents involving chemical, biological, radiological, nuclear, or explosive devices or weapons.
- See attached hazard mitigation plans for more details.

Critical Facilities and Infrastructure Summary

Below is a summary of critical infrastructure that are likely to be impacted by one or more of the hazards defined above.

Utilities

- Water supply services are provided by Town of Southborough and Massachusetts Water Resources Authority (MWRA). Town of Southborough's water comes from the Quabbin Reservoir. The Town does not have a sewerage system, all properties operate private septic.
- National Grid is the primary distributor of electric power to the Town.
- Eversource is the primary provider of natural gas.

Special Facilities

Special facilities include schools, day cares, assisted living, camps, halfway houses, mobile home parks, nursing homes, jails and prisons, and other buildings housing vulnerable populations. See attached GIS for the full list. Town of Southborough is home to the following special facilities:

SEMA NOTE: *This not an exclusive list – Refer to Reference Documents & Maps in Southborough's WebEOC CEMP files and Southborough EOC (etc.) manuals, guides, references, aid, etc. located in the EOC documents cabinet & on the EOC external hard drive.*

- The Bridge of Central Mass
- St. Mark's School
- Fay School
- New England Center for Children
- Harvard University
- Colonial Garden's apartments

- MBTA Commuter Rail / Amtrak Northeast Rail
- Red Roof Inn
- Madison Place apartments
- Southboro Motor Lodge
- Town Center strip-mall

Critical Facilities and Infrastructure

Critical facilities and infrastructure include public safety buildings, bridges, tunnels, police and fire stations, water and wastewater treatment plants, public works buildings, power plants, pumping stations, communication towers, and other critical infrastructure:

SEMA NOTE: *This not an exclusive list – Refer to Reference Documents & Maps in Southborough's WebEOC CEMP files and Southborough EOC (etc.) manuals, guides, references, aid, etc. located in the EOC documents cabinet & on the EOC external hard drive.*

- Fire Station / EOC
- Police Station / PSAP
- DPW
- Cordaville Hall *(Warm/Cool/Charging Center, Level-1 Shelter)*
- Town Hall
- Public Schools: Finn, Neary, Woodward, Trottier *(Level-2 Shelter)*
- Private Schools: Fay, St. Mark's
- Overlook Drive Radio Tower & Repeater
- Dell/EMC Radio Tower & Repeater
- Pump Stations: Boston Rd, Northboro Rd
- Water Tanks (w/ SCADA): Oak Hill, Overlook Drive
- Fayville Dam / MWRA

Hazardous Materials Facilities

Hazardous facilities include buildings that maintain hazardous chemicals or materials on site, including fuel transfer stations, Tier II facilities, and any facility in or near the community that would be classified as otherwise hazardous.

SEMA NOTE: *This not an exclusive list – Refer to Reference Documents & Maps in Southborough's WebEOC CEMP files and Southborough EOC (etc.) manuals, guides, references, aid, etc. located in the EOC documents cabinet & on the EOC external hard drive.*

- Fuel Stations
- Pipelines: Algonquin, Tennessee
- MWRA
- DPW
- Eversource

Health and Medical Facilities

Health and medical facilities include hospitals, clinics, treatment centers, hospice centers, mental health centers, renal care centers, respites, and any other applicable facility that provides critical medical or healthcare services.

SEMA NOTE: *This not an exclusive list – Refer to Reference Documents & Maps in Southborough's WebEOC CEMP files and Southborough EOC (etc.) manuals, guides, references, aid, etc. located in the EOC documents cabinet & on the EOC external hard drive.*

- Colonial Gardens
- Reliant Medical
- UMASS Medical
- Cordaville Hall (Health Department)
- Fire Station

Access and Functional Needs Populations

The needs of children, the elderly, and individuals with disabilities, chronic health conditions and other access and functional needs are an important planning consideration in the development of this CEMP. The following is the definition of Access and Functional Needs populations for the purposes of this plan:

"Populations whose members may have additional requirements for support before, during, and after an emergency, including, but not limited to maintaining independence, communication and access to information, transportation and medical care. Access and functional needs populations may include individuals with disabilities, persons living in institutionalized settings, the elderly, children, people from diverse cultures, individuals who do not speak English fluently, and individuals without access to transportation."

Provisions for people with various function-based needs have been incorporated into this plan where applicable, thereby ensuring functional needs considerations are an integral part of this CEMP.

Planning Assumptions

- Town of Southborough and/or the Commonwealth have effective prediction and warning systems in place allowing Town of Southborough to anticipate certain emergency situations that may impact Town of Southborough.
- When anticipating or in response to an emergency situation, the Chief Municipal Officer, Fire Chief/EMD, Police Chief, Health Dept./Dep. EMD, DPW Superintendent, or officially identified designees are responsible for taking action, including the activation of this plan, to mitigate impacts, save lives, protect property and the environment, assist survivors, and restore essential services and facilities.
- Town of Southborough officials, agencies and partners are familiar with the CEMP, understand their roles and responsibilities under the CEMP, maintain appropriate plans, policies, and procedures to carry out those responsibilities, and maintain a state of readiness. Day to day functions which do not contribute directly to the emergency operation may be suspended for the duration of an emergency/disaster. Resources that would normally be required for those daily functions will be redirected to tasks in support of the emergency response.
- Town of Southborough will use its own resources in response to an emergency or disaster. Once local resources are exhausted (or near exhausted), requests for assistance will be made.
- A large-scale emergency or disaster may overwhelm available local resources, leading to the need for support from local/mutual aid jurisdictions, private sector partners, state agencies, and the federal government.
- Town of Southborough anticipates support from surrounding communities and other response organizations should the resources of Town of Southborough become exhausted. Adjacent communities and other government agencies will render assistance in accordance with the provisions of written intergovernmental and mutual aid support agreements in place at the time of the emergency.
- When resources of Town of Southborough are fully committed and mutual aid from surrounding jurisdictions is exhausted, the Massachusetts Emergency Management Agency (MEMA) may coordinate the provision of additional assistance to address unmet needs.
- Disaster support from federal agencies may take at least 72 hours to arrive.
- Facilities required to file Tier II reports develop, coordinate and provide copies of emergency plans annually to the Emergency Management Director and/or Fire Chief and/or other state departments and agencies as applicable and required by codes, laws, regulations or requirements.
- Whenever warranted, the Chief Municipal Officer, upon majority approval of the Selectboard members, holds the authority declare a local State of Emergency for Town of Southborough in accordance with the provisions of Massachusetts General Laws.
- Chief Municipal Officer, upon majority approval of the Selectboard members, Fire Chief and Police Chief each have the authority to issue evacuation and/or shelter-in-place orders or recommendations for the residents and/or businesses of Town of Southborough. Evacuation and/or shelter-in-place orders will be communicated to residents and businesses by all appropriate means.

- In the event that an evacuation of the Community, or any part thereof, is ordered, the majority of the evacuees will utilize their own transportation resources to evacuate. However, a percentage of the population does not have access to transportation and will require transportation assistance.
- Individuals with pets will bring their pets with them when they evacuate. Those with livestock or other farm animals will take appropriate measures to safeguard their animals via sheltering or evacuation as appropriate.
- Town of Southborough and its response partners will need to provide additional/enhanced assistance to individuals with access and functional needs, including but not limited to children, elderly, individuals with disabilities and/or chronic conditions.

Concept of Operations

The concept of operations describes the sequence and scope of emergency response. The Southborough Emergency Management Agency has the primary responsibility for coordinating emergency management activities in the Town of Southborough. These activities support the following priorities:

- Minimize injury and loss of life
- Minimize property damage
- Minimize adverse environmental and economic impact
- Provide timely and accurate information to the public regarding emergency situations
- Provide for the immediate needs of disaster survivors
- Acquire, assess and disseminate emergency information
- Restore essential utilities and functions

Overview

The Massachusetts Civil Defense Act requires that every city and town in the Commonwealth establish a local emergency management program and appoint an official to oversee the program (typically known as the Emergency Management Director (EMD)). The EMD and other local officials are responsible for directing evacuations, opening shelters, coordinating the actions of local departments and agencies, mobilizing local resources, activating mutual aid agreements with other cities and towns, and requesting state assistance in accordance with the plans and procedures developed by the local emergency management program.

Plan Activation

The CEMP and its associated annexes will be executed in whole or in part as directed by the Chief Municipal Officer (Selectboard), the Emergency Management Director, or other duly authorized representative in response to an existing or an impending emergency. This plan may also be activated under the following circumstances:

- At the time of an actual disaster or ahead of a major event known otherwise.
- When the Chief Municipal Officer has declared a local state of emergency.
- When the Governor of Massachusetts has declared a State of Emergency for areas that include Town of Southborough; or
- When a Presidential Declaration of an Emergency or Disaster is issued for areas that include Town of Southborough.

Phases of Emergency Management

The Town of Southborough's comprehensive emergency management program addresses all phases of emergency management for all types of incidents, including prevention and mitigation, preparedness, response, and recovery.

Prevention and Mitigation

Prevention involves identifying preventative, corrective or deterring measures and actions to prevent or limit bodily injury, loss of life or property damage from disasters and emergencies. It includes consideration of policy issues as well as structural projects within government and the private sector. Preventive measures are designed to provide more permanent protection from disasters; however, not all disasters can be prevented.

The goal of mitigation is to prevent future loss by eliminating or reducing risks. Mitigation activities link the recovery and preparedness phases in the emergency management cycle and can occur before or after an emergency. The goals of pre-emergency mitigation activities are to prevent an emergency, reduce the chance of an emergency happening, or reduce the damaging effects of unavoidable emergencies. The goal of post-emergency mitigation is to eliminate or reduce the impact of the hazards realized during the emergency. Post-emergency mitigation is part of the recovery process.

Preparedness

Preparedness involves activities undertaken in advance of an emergency or disaster to adequately prepare for and develop the capability to respond to an emergency. Preparedness activities include planning, organizing, training equipping, exercising, evaluating, and implementing corrective actions for the emergency management program and organization.

Preparedness activities develop operational capabilities and enable an effective response to an emergency or disaster, and involve working with government partners, the private sector, and non-governmental and volunteer organizations to coordinate pre-disaster education and planning activities and lay the groundwork for coordinated disaster response.

Response

Response is the actual provision of emergency services during a crisis including the coordination and management of resources to support emergency response operations. These activities help to reduce casualties and damage, and to speed recovery. Response activities include alerting and notifying the public, resource and logistical coordination, addressing immediate life safety issues, stabilization of the incident, and public information.

Town of Southborough responds to emergencies by activating the Comprehensive Emergency Management Plan, activating the Emergency Operations Center, coordinating with public, private and volunteer response partners as needed, coordinating and managing resources in support of emergency response, and preparing for recovery activities.

Recovery

Recovery activities may be both short-term and long-term, ranging from conducting damage assessments, removing debris, restoration of critical facilities/infrastructure and essential utilities such as water and power, to provide assistance to communities to rebuild homes and businesses. Recovery may also incorporate mitigation measures designed to prevent future occurrences of a given hazard. Recovery begins as soon as possible after an incident occurs and may commence during the response phase.

Direction, Control and Coordination

National Incident Management System

Town of Southborough's emergency management organization is structured in accordance with the National Incident Management (NIMS) and the Incident Command System (ICS). NIMS integrates existing processes and methods into a unified national framework for incident management. This framework forms the basis for interoperability and compatibility that enable a diverse set of public and private organizations to conduct effective incident management operations.

It does this through a core set of concepts, principles, procedures, organizational structures (Incident Command System, multi-agency coordination, and joint information systems), terminology, and standards requirements applicable to a broad community of NIMS users. To ensure interoperability and compatibility, NIMS is based on an appropriate balance of flexibility and standardization. It provides a consistent and flexible national framework within which government and private entities at all levels can work together to manage domestic incidents, regardless of their cause, size, location, or complexity.

Incident Command System

Emergency management and incident response in Town of Southborough is coordinated using the Incident Command System (ICS). ICS enables effective incident management by integrating a combination of facilities, equipment, personnel, procedures and communications operating within a common organizational structure. ICS is used to organize both near-term and long-term operations for a broad spectrum of emergencies, from small to complex incidents, both natural and manmade. ICS is used by all levels of government – federal, state, regional and local – as well as by many private-sector and NGOs.

All activity undertaken under the CEMP shall be coordinated using the Incident Command System (ICS) and the National Incident Management System (NIMS) in accordance with Homeland Security Presidential Directive (HSPD) 5.

Incident Command

Single Incident Commander - Most incidents involve a single incident commander. In these incidents, a single person commands the incident response and is the decision-making authority.

Unified Command

A Unified Command involves two or more individuals sharing the authority normally held by a single incident commander. Unified Command may be used during larger incidents, or incidents involving multiple agencies or jurisdictions. A Unified Command typically includes a command representative from major involved agencies and/or jurisdictions. A Unified Command acts as a single entity. It is important to note that in Unified Command the command representatives will appoint a single Operations Section Chief.

Area Command

During a situation involving multiple incidents, an Area Command may be established to provide for Incident Commanders at separate locations. Generally, an Area Commander will be assigned - a single person - and the Area Command will operate to provide logistical and administrative support to the separate incidents and their incident commanders. Area Command usually does not include an Operations function.

Transfer of Command

Responsibility can be transferred during an incident for several reasons. As the incident grows a more qualified person may be required to take over as Incident Commander to handle the ever-growing needs of the incident. Or this may occur in reverse; when an incident reduces in size, the command can be passed down to a less qualified person, but still qualified to run the now-smaller incident. Other reasons to transfer command include jurisdictional change if the incident moves to a different location or area of responsibility, or the normal turnover of personnel due to extended incidents. The transfer of command process always includes a transfer of command briefing, IC to IC, which may be oral, written, or a combination of both. A Transfer of Command is posted and announced on all radio and communication networks.

Incident Coordination and/or Response Locations/Facilities

Various types of operational support facilities are established in the vicinity of an incident, depending on its size and complexity, to accomplish a variety of purposes. Town of Southborough may operate one or more of the following incident coordination and/or response facilities during an emergency or disaster:

- Incident Command Post
- Emergency Operations Center
- Staging Area
- Points of Distribution
- Evacuation Assembly Points
- Evacuation Transportation Hubs

Incident Command Post

An Incident Command Post (ICP) is the field location where the Incident Commander operates, onsite response is directly coordinated, and onsite resource needs are identified and communicated. There is only one ICP for each incident or event, but it may change locations during the event. The ICP may be located in a vehicle, trailer, tent, or within a building. The ICP will be positioned outside of the incident scene and the potential hazard zone but close enough to the incident to maintain a visual presence and command status. The on-scene Incident Commander has tactical control of and authority over all resources at the scene.

Emergency Operations Center

The Town of Southborough Emergency Operations Center (EOC) serves as the central point for coordination of the community's emergency management and response activities, maintaining situational awareness about the emergency situation, and facilitating requests for deployment of resources.

- Primary EOC: Southborough Public Safety Complex
  32 Cordaville Road
  Southborough, MA 01772

In the event that the primary EOC is rendered or deemed unusable, emergency operations will relocate to the alternate EOC.

- Alternate EOC: Cordaville Hall
  9 Cordaville Road
  Southborough, MA 01772

The Emergency Management Director (EMD) often serves as the EOC Manager and has the responsibility and authority for managing the EOC and the community's emergency management organization during an emergency or disaster. The EOC Manager has the authority to make all routine decisions and is charged with advising chief municipal officials when major decisions need to be made. The EOC Manager serves as a liaison with the State and Federal emergency agencies.

EOC Goals

The following are the general goals for the emergency operations center. These goals can be adjusted by the EOC Manager in coordination with chief municipal officer and the incident commander, when the EOC is activated.

Goals

- Obtain and maintain situational awareness of the incident and ensure responders have a common operating picture.
- Establish an incident planning cycle.
- Mobilize and deploy resources and assets to support emergency response, guided by the set priorities.
- Establish a seamless transition into recovery operations.
- Provide emergency notification and warning to responders and residents
- Assess and document impacts from events for recovery process

EOC Activation Levels

The Town of Southborough EOC has designated three activation levels that increase in intensity, ranging from modest emergency effects associated with Level 1, to catastrophic emergency effects associated with Level 3. ***REFER TO:*** *SEMA EOC Operation Manual for more details on Levels & Classifications.*

- Level 1: EOC standby / monitoring the situation
- Level 2: EOC minimally staffed with key personnel to monitoring the situation
- Level 3: EOC fully staffed to monitor the situation, facilitate resource requests, and maintain situational awareness

EOC Equipment

The Emergency Management Director or designee will ensure the equipment in the EOC is functional and ready to support an activation. This equipment includes:

- Laptops / Desktops
- Phones
- Audio/Visual equipment
- Radios/Base Stations: UHF, VHF & 800MhZ
- Portable Radios

This equipment is tested on a semi-annual basis to ensure its readiness. Additionally, exercises of the EOC may be held on an annual schedule.

EOC Staffing

The Emergency Management Director or designee will maintain a current list of EOC positions. The EMD will coordinate with department heads to identify and train staff to serve in EOC positions. Department heads or their designees will develop and maintain a contact list of personnel that would be available to fill needed positions within the EOC. This list can be found in the EOC document cabinet and EOC external hard drive. Each department will maintain these lists and provide a status update to Emergency Management annually.

EOC Activation

When a decision to activate the EOC has been made, staff needed to support EOC operations will be notified of an EOC activation email, text message and/or phone call. Text messaging through the CodeRED system is the primary notification system for EOC activations and will be activated by the EMD or designee. Each EOC member will be notified that the EOC has been activated and will be provided with the time to report to the EOC and method to verify receipt of the notification.

EOC Deactivation

The EOC Manager/EMD, in consultation with the Chief Municipal Official and the Incident Commander, is responsible for the decision to deactivate the EOC. As response phase operations wind down, EOC personnel and other staff will be released from the EOC when they are no longer needed to support response efforts.

Staging Area

A staging area is a location where resources needed to support emergency response operations are aggregated and readied for deployment. A staging area, which could be co-located with an ICP, should be located close enough to the incident to allow a timely deployment of assets to the area of the incident, but far enough away to be out of the immediate impact zone. There may be more than one staging area supporting an incident. Situation dependent at the discretion of the Incident Commander.

Points of Distribution

Points of Distribution (PODs) are centralized locations where the public can obtain critical commodities following a disaster or emergency. PODs can accommodate vehicle traffic (drive-through), pedestrian traffic (walk-through) and/or mass transit traffic (bus or rail). Typical critical commodities provided to impacted populations through PODs can include but are not limited to, shelf-stable food, bottled water, ice, tarps and/or blankets. Sites are Woodward School & Cordaville Hall with expansion to other sites as needed.

Shelters

Town of Southborough has designated five (5) facilities that can be used to shelter evacuees or displaced persons in emergency situations. Shelter facilities will be managed by SEMA and the Southborough CERT/MRC and provide mass care services to evacuees and displaced persons. Shelter facilities will be activated at the direction of the EMD or EOC Manager; shelter facilities are not automatically activated during times of emergency; therefore, residents should obtain guidance and information from local officials on which shelters may be open.

The following facilities are designated as emergency shelters and may be activated during times of emergency:

- Cordaville Hall
  9 Cordaville Road
- Trottier Middle School
  49 Parkerville Road
- Algonquin Regional High School
  79 Bartlett Street, Northborough

- St. Anne's Church
  20 Boston Road, Southborough
- St. Matthew's Church
  105 Southville Road, Southborough

Evacuation

Chief Municipal Officer, upon majority approval of the Selectboard members, Fire Chief and Police Chief each have the authority to issue evacuation orders or recommendations. The Governor also has the authority to make evacuation recommendations, and issue evacuation orders under a Gubernatorial Declaration of Emergency.

In the event that an evacuation is recommended or mandated, the population designated for evacuation will leave the affected area using their own private vehicles or be transported from Evacuation Assembly Points with transportation assets coordinated/obtained by Town of Southborough. Depending upon the hazard and other circumstances, shelters for evacuees may be located within or outside of the Community.

Evacuees are expected to follow the direction and guidance of trained emergency workers, traffic coordinators, and other assigned emergency officials.

Evacuation routes should be pre-identified by the Emergency Management Director in coordination with other community officials. Evacuation routes for this community can be found on the GIS spreadsheet.

Evacuation Assembly Points

Evacuation Assembly Points (EAPs) are location(s) within the community that serve as assembly points for evacuees who do not have their own transportation. EAPs are typically located at cross streets, and within walking distance of nearby residences. Town of Southborough will use buses or other vehicles to pick up evacuees from EAPs and transport them to either a shelter or to a local evacuation transportation hub. EAPs are locally designated and operated and are likely not in enclosed facilities (similar to a bus stop concept). Support services are typically not provided at EAPs. EAPs are at the discretion of the incident commander.

Evacuation Transportation Hub (T-Hub)

In situations when residents may need to be evacuated outside of the community, Town of Southborough will activate one or more Evacuation Transportation Hubs (T-Hubs) where large numbers of evacuees transported from EAPs throughout the community assemble and wait for transportation to either a state-operated Regional Reception Center (RRC) or a designated shelter outside of a community. T-Hubs are locally operated, have adequate indoor facilities to stage evacuees, and adequate outdoor areas for vehicle staging and evacuee embarkation. The Commonwealth is responsible for providing buses or other vehicles to transport evacuees from local T-Hubs to RRCs or shelters. T-hub locations are at the discretion of the incident commander.

Organization and Assignment of Responsibilities

This section describes the organizational structure Town of Southborough employs to respond to an emergency. It articulates the roles and responsibilities that various members of the emergency management organizational structure have in any response.

Organization

Leadership

Town of Southborough has designated emergency management leads that, depending on the severity of the event, may or may not be involved in emergency response and coordination activities. These leads include: the Chief Municipal Officer, the Emergency Management Director, key Town of Southborough staff designated to support the emergency operations center, and response partners such as private sector organizations, volunteer organizations, as well as regional, state, and federal partners. Some or all of these staff may help form an emergency management decision team, to help guide the community's response.

Chief Municipal Officer

Town of Southborough has an town meeting form of government. Chairperson for the Selectboard serves as the chief municipal officer for the town and is responsible for providing for the protection of lives and property of the citizens of the Community. The Chief Municipal Officer provides leadership and direction in setting objectives and priorities during emergencies and disasters. The Chief Municipal Officer may declare a local state of emergency, call for the activation of the CEMP, call for the activation of the emergency operations center (EOC) and/or direct the evacuation of populations from threatened areas. These decisions are typically made in consultation with the local Emergency Management Director. If the Chief Municipal Officer, in consultation with the Emergency Management Director, identifies the need for additional emergency response resources, requests for mutual aid/assistance agreement will be submitted to the mutual aid partners or to the Massachusetts Emergency Management Agency/State Emergency Operations Center.

Incident Commander/Unified Command

The Incident Commander serves as the on-scene commander for tactical response operations. Town of Southborough may expand its incident command to unified command for incidents that require coordinated response among multiple on-site lead response partners. The Incident Commander/Unified Command receives it strategic guidance from the Decision Team, and as needed, coordinates with the Chief Municipal Officer, the Emergency Management Director, and the Emergency Operations Center on response strategies and resource needs.

Emergency Management Director

The Massachusetts Civil Defense Act requires every city and town in Massachusetts to appoint an Emergency Management Director and establish an emergency management program. The Emergency Management Director (EMD) is responsible for maintaining and managing the activation of Town of Southborough's comprehensive emergency management plan and operating the emergency operations center. On a day-today basis, the EMD: coordinates emergency planning for Town of Southborough, working with the leadership of the fire department, police department, local public health, transportation department, public works, and others as required to share situational awareness and mobilize needed

resources. In emergency response situations, the EMD manages EOC operations, facilitates emergency response coordination, and makes recommendations to and advises the Chief Municipal Officer and Decision Team on available courses of action to inform decision-making.

Emergency Management Organization

Town of Southborough's Emergency Management Organization supports the functions of the emergency operations center, and is comprised of partners from government agencies, non-governmental organizations, and the private sector. The positions identified to support the emergency management organization and the EOC are designated as ***emergency positions***. Town of Southborough staff and emergency management partners will be identified and trained to serve in these emergency positions.

Government Organizations

Most of the departments within the Town of Southborough's government have been assigned emergency responsibilities in addition to their normal duties to support emergency response and emergency operations center operations. Each department is responsible for developing and maintaining its own emergency management procedures.

Non-Governmental Organizations

Several non-governmental organizations, such as the Southborough CERT/MRC and American Red Cross, work with Town of Southborough to support EOC operations and aid with shelter operations and mass care needs.

Private Sector

Several private sector organizations support EOC operations and emergency response through contracts, agreements and memorandums of understanding. These organizations include National Grid, Eversource, Verizon, Ted's of Fayville, Falconi Energy, Southborough Veterinary Hospital, and several others.

Commonwealth of Massachusetts

The Massachusetts Emergency Management Agency (MEMA) coordinates state level emergency operations. During an emergency or disaster, MEMA may provide direct support to Town of Southborough and may serve as a conduit for resource management from other jurisdictions, state agencies, federal agencies (through the Federal Emergency Management Agency (FEMA)), and/or from outside the state through the Emergency Management Assistance Compact (EMAC). MEMA administers recovery assistance programs issued by FEMA under presidential disaster declarations.

Emergency Operations Center Organization

An Emergency Operations Center (EOC) should be organized to best facilitate effective operations for the jurisdiction. Town of Southborough's EOC is organized in a discipline/functional model to ensure the ability to acquire, analyze, and act on information, and coordinate resources to effectively and efficiently support emergency response operations in a timely manner.

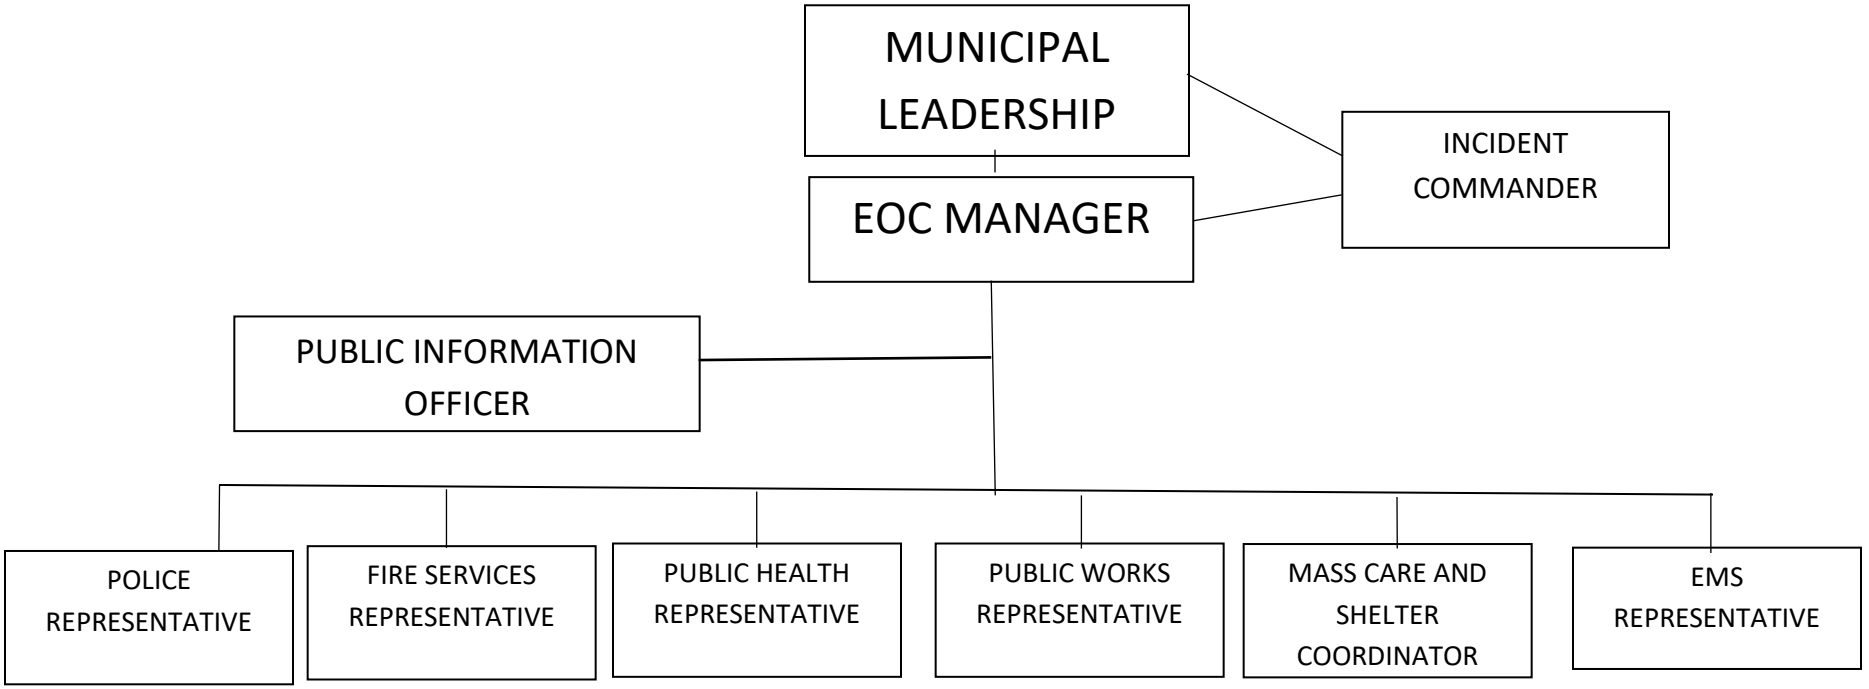
The Town of Southborough EOC is organized under afunctional based structure with designated emergency roles to facilitate activities. The key EOC organizational positions are as follows:

- **EOC Manager:** The EOC Manager oversees all EOC activities, exercises overall direction and control of EOC operations, and provides policy, guidance, and direction to EOC emergency operations. The EOC Manager coordinates with incident command and response partners at the local, regional, state, and federal levels to identify necessary resources for emergency response. The EOC Manager has primary responsibility for coordinating across each EOC Section and with the Chief Municipal Officer(s), the Massachusetts Emergency Management Agency and/or State Emergency Operations Center, and EOC Managers from neighboring jurisdictions, as appropriate. The EMD typically serves as the EOC Manager.
- **Public Information Officer:** The Public Information Officer (PIO) is responsible for the provision of public information regarding an incident's cause, size, and current situation, in addition to the type and volume of resources committed in order to stabilize and mitigate an ongoing emergency. The PIO is also responsible for reporting on other matters of general interest to government agencies, the media, and the public and private sectors in the event of an emergency or disaster, utilizing both traditional and social media platforms.
- **Liaison Officer:** The Liaison Officer is responsible for coordinating with agencies, organization and departments that are not in the EOC throughout the duration of response and recovery operations. This position acts as the primary point of contact and information conduit for local, state and federal elected officials.
- **Planning Section Chief:** The Planning Section Chief oversees the collection and evaluation incident information and intelligence, and the dissemination of this information to the EOC Manager, other incident management personnel, key local and state officials, and the State Emergency Operations Center/MEMA. The Planning Section Chief is also responsible for coordinating with the Operations Section Chief to develop Incident Action Plans (IAP) and situation reports (SitReps).
- **Finance and Administration Section Chief:** The Finance/Administration Section is responsible for tracking expenditures related to incident response, including personnel time, procurement of resources, activation and management of vendor contracts, administration of compensation and claims, and overall cost analysis for the incident, as required.
- **Police Representative:** The Police Representative is responsible for coordinating law enforcement resources to support emergency response operations and providing situational awareness to the EOC Manager and to the Police Department.
- **Fire Services Representative:** The Fire Services Representative is responsible for coordinating fire services resources to support emergency response operations and providing situational awareness to the EOC Manager and to the Fire Department.

- **Public Health Representative:** The Public Health Representative is responsible for coordinating public health and medical resources to support emergency response operations and providing situational awareness to the EOC Manager and the Public Health Department.

- **Emergency Medical Services Representative:** The Emergency Medical Services (EMS) Representative is responsible for coordinating EMS resources to support emergency response operations and providing situational awareness to the EOC Manager and to the EMS organization and/or Fire Department.

- **Public Works Representative:** The Public Works Representative is responsible for coordinating transportation, public works and engineering resources to support emergency response operations and providing situational awareness to the EOC Manager and to the Public Works Department.



- **Mass Care and Shelter Operations Representative:** The Mass Care and Shelter Operations Coordinator is responsible for coordinating resources to support shelter operations and mass care services, and providing situational awareness to the EOC Manager, partnering non-governmental organizations, and operating shelters.

- **School District Representative:** The School Department Representative is responsible for coordinating resources to support school operations and/or evacuations, sharing information with schools, and providing situational awareness to the EOC Manager.

Table 1 depicts the organization of the EOC.

Table 1: EOC Organization

(This is a generalized example)

Assignment of Roles and Responsibilities

(SEMA) ALSO REFER TO:

- *Southborough EOC Operation Manual*
- *Southborough EOC Liaison Guidance Manual*
- *Southborough EOC Charts & Reference Documents*

Chief Municipal Officer (Selectboard)

Prevention and Mitigation

- Coordinates with the EMD and others in the emergency management organization to identify risks and hazards in the community
- Reviews and approves hazard mitigation plan
- Authorizes mitigation strategies

Preparedness

- Appoints Emergency Management Director
- Approves the Comprehensive Emergency Management Plan (CEMP)
- Approves emergency management-related policies
- Ensures individuals are appointed to serve in critical emergency management organization positions
- Ensures emergency preparedness information and guidance is provided to residents
- Ensures emergency facilities and other emergency locations are in a state of readiness

Response

- Responsible for overall response operations
- Receives recommendations from the Incident Commander, EMD and/or EOC Manager on emergency response decisions
- Ensures the EOC is operational, staffed and functional in support of the EMD
- When necessary, issues a local declaration of emergency
- Ensures emergency information and guidance is provided to residents
- Upon recommendation by the EMD and/or Incident Commander, issues evacuation orders or recommendations, when necessary
- Authorizes the activation of mass care facilities
- Coordinates with other elected officials at the state and federal level
- Makes decisions on all non-routine matters

Recovery

- Approves disaster recovery policies
- Serves as an advocate for constituent recovery efforts
- Hosts community meetings to ensure needs are being addressed and to provide information to residents

---

Emergency Management Director

Prevention and Mitigation

- Coordinates with emergency management partners and community officials to identify risks and hazards in the community
- Coordinates the development and implementation of hazard mitigation plan and strategies

Preparedness

- Facilities and ensures the development and maintenance of the comprehensive emergency management plan
- Ensures the CEMP is reviewed, revised and adopted in accordance with plan maintenance policies
- Designates facilities to be used as an EOC and an alternate EOC
- Ensures the emergency operations center (EOC) and alternate EOC remain in a state of readiness
- Develops and maintains EOC activation procedures to ensure the EOC can be activated quickly
- Maintains lists designated EOC personnel
- Maintains Standard Operating Procedures for EOC operations
- Trains public officials and EOC personnel on EOC operations
- Oversees the planning and development of basic warning/notification functions
- Ensures swift access to supplies and equipment needed for emergency operations
- Coordinates with public health to ensure individuals with access and functional needs can be adequately supported during times of emergency
- Coordinates with appropriate community and emergency management partners to designate locations for sheltering, evacuation assembly and/or transportation hubs, staging areas, and points of distribution for critical commodities
- Coordinates and/or provides training, drills and exercises necessary to prepare community and emergency management partners to perform identified roles and responsibilities
- Recruits, trains and facilitates activation of Community Emergency Response Team program
- In cooperation with volunteer agencies, assists with the recruitment, registration and identification of volunteer emergency workers
- Promotes coordination among public and private agencies regarding emergency management
- Coordinates Continuity of Operations planning, and prepares standards and guidelines for developing, testing and exercising continuity of operations plans
- Manages the NIMS Compliance Program necessary to establish the Incident Command System (ICS) procedures to during a disaster
- Conducts community outreach and public emergency education programs
- Assists with the development of mutual aid agreements with other public and private agencies

Response

- Activates EOC and initiates response procedures and activities
- Coordinates all EOC activities and associated emergency response activities of other agencies
- Coordinates with on-site Incident Command on resource needs
- Ensures situational awareness information is disseminated to pertinent emergency management and response partners
- Serves as the primary liaison with MEMA
- Ensures the coordination of resources to support emergency response activities
- Coordinates with public health and public works/transportation to facilitate the transportation of individuals with access and functions needs
- Coordinates the submission of all requests and responses for statewide mutual aid
- Directs and re-allocates community assets and resources during a disaster
- Coordinates requests for state and federal assistance
- Coordinates resource management including donations of materials, equipment and services
- Makes recommendations to Chief Municipal Officer on evacuations
- Determines if a shelter(s) is to be opened and assists with selection of shelter site(s)
- Activates local public information hotline
- Demobilizes the EOC when appropriate to do so.
- Directs an after-action assessment of the disaster to determine what actions can be taken to mitigate future disaster effects.
- Maintains a database to identify lessons learned and corrective actions taken

Recovery

- Initiates recovery activities including conducting initial damage assessments and compiling damage assessment data, providing the data to MEMA and FEMA when needed
- Coordinates with MEMA on state and/or federal disaster assistance
- Coordinates with MEMA on opening Disaster Recovery Centers, when needed
- Works with the Chief Municipal Officer to establish a framework within which short-term and long-term recovery operations are coordinated.

Police Department

Prevention and Mitigation

- Coordinates with EMD to identify risks and hazards in the community

Preparedness

- Ensures EOC representatives are trained
- Ensures that law enforcement mutual aid agreements are in place
- Coordinates with EMD on the designation of locations for sheltering, evacuation assembly and/or transportation hubs, staging areas, and points of distribution for critical commodities

- Maintains plans and/or standard operating procedures for providing resources and services needed during a disaster

Response

- Provides EOC representative(s) to coordinates law enforcement resources to support emergency response operations
- Provides liaison and coordination with other law enforcement agencies, including Massachusetts State Police, and mutual aid organizations
- Provides security for the EOC
- As needed, provide resources for traffic control, crowd control and restricted area control, including patrolling evacuated areas
- As needed, provide resources for security to critical facilities including mass care shelters
- As needed, provide warning and notification support which may include the use of public address systems on vehicles
- As needed, provides communications support
- As needed, provides resources to support search and rescue operations
- As needed, issues restricted area passes to appropriate personnel
- As needed, assists with evacuations
- As needed, assists with enforcement of quarantine and protection orders
- Assesses impact of disaster on available equipment and resources
- Provides situational awareness about emergency response operations, resource status and other topics of interest to the EOC

Recovery

- As needed, assist EMD with recovery activities

Fire Department

Prevention and Mitigation

- Provides fire code enforcement and fire prevention services including inspections and public education
- Ensures hazardous materials safeguards are in place
- Ensure Tier 2 facility reports are filed on an annual basis
- Coordinates with EMD to identify risks and hazards in the community

Preparedness

- Ensures EOC representative is trained
- Ensures that fire services and hazardous materials response mutual aid agreements are in place
- Maintains readiness of all fire service equipment, supplies, procedures and mutual aid agreements needed for disaster response activities
- Maintains plans and/or standard operating procedures for providing resources and services needed during a disaster

- Coordinates with EMD on the designation of locations for sheltering, evacuation assembly and/or transportation hubs, staging areas, and points of distribution for critical commodities

Response

- Provides EOC representative(s) to coordinates fire services resources to support emergency response operations
- As needed, provides fire response and control during a disaster
- As needed, requests and manages mutual aid for fire services response
- As needed, provides warning and notification support which may include the use of public address systems on vehicles
- As needed, provides resources to support search and rescue operations
- As needed, provides radiological monitoring and decontamination support
- As needed, ensures hazardous materials incident response, control and operations support
- As needed, provides primary or secondary emergency medical services
- As needed, assists in the triage of disaster victims
- As needed, provides communications support
- As needed, notifies and advises in-field response agencies of any dangers to personnel at or near the scene of the disaster
- Maintains fire protection for those areas of the community not affected directly by the disaster
- As needed, determines need for evacuations associated with hazardous materials risk and/or exposure
- As needed, assists with evacuation operations
- Assesses impact of disaster on available equipment and resources
- Provides situational awareness about emergency response operations, resource status and other topics of interest to the EOC

Recovery

- As needed, assist EMD with recovery activities including damage assessments

---

Emergency Medical Services (Fire Service based)

Prevention and Mitigation

- Coordinates with EMD to identify risks and hazards in the community

Preparedness

- Ensures EOC representative is trained
- Ensures that mutual aid agreements for emergency medical services are in place
- Maintains plans and/or standard operating procedures for providing resources and services needed during a disaster

- Maintains readiness of all EMS equipment, supplies, procedures and mutual aid agreements needed for disaster response activities

Response

- Provides EOC representative(s) to coordinate emergency medical services resources to support emergency response operations
- As needed, provides emergency medical services/pre-hospital care, triage and transportation of disaster victims
- Requests and manages mutual aid for emergency medical services operations
- As needed, assists in the evacuation of hospitals and nursing homes
- Coordinates the dispatch of ambulances and the number and types of injured to area hospitals
- Provides emergency medical service to areas of the community not directly affected by the disaster
- Provides situational awareness about emergency response operations, resource status and other topics of interest to the EOC

Recovery

- As needed, assist EMD with recovery activities including damage assessments

---

Public Works Department

Prevention and Mitigation

- Inspects public and private water impoundment sites
- Maintains road, bridges, waterways and water and sewer systems and services
- Coordinates with EMD to identify risks and hazards in the community

Preparedness

- Ensures EOC representative is trained
- Maintains readiness of all DPW equipment and personnel in connection with disaster response activities
- Provides fuel storage
- Coordinates with EMD on the designation of locations for sheltering, evacuation assembly and/or transportation hubs, staging areas, and points of distribution for critical commodities
- Maintains plans and/or standard operating procedures for providing resources and services needed during a disaster
- Maintains debris management plan
- Ensures written agreements are in place with emergency response organizations for use of equipment

Response

- Provides EOC representative(s) to coordinates public works and engineering resources to support emergency response operations

- A needed, provides staffing for resource distribution centers
- A needed, provides fuel for emergency generators
- A needed, coordinates the deployment of traffic control devices
- A needed, coordinates the provision of potable water
- A needed, provides support to clear debris and/or remove snow
- Monitors community dams during a disaster
- To the extent practicable, maintains sanitary sewer and refuse collection services during a disaster
- Assesses impact of disaster on available equipment and resources
- Coordinates with the EMD to facilitate the transportation of individuals with access and functions needs
- Provides situational awareness about emergency response operations, resource status and other topics of interest to the EOC

Recovery

- In coordination with the EMD, conducts damage assessment of public buildings, roads, bridges and other facilities and infrastructure
- Coordinates record keeping related to damage assessment and recovery resources
- Provides debris clearance and disposal
- Coordinates with public health on water testing
- Provides road, bridge and other public facility repair
- Coordinates with utility companies to restore services
- Continues to provide EOC support until no longer needed
- Coordinates debris removal by government agencies and private contractors

---

Water Department (division of the Dept. of Public Works)

Prevention and Mitigation

- Maintains Water Department infrastructure
- Coordinates with EMD to identify risks and hazards in the community

Preparedness

- Ensures EOC representative is adequately trained
- Maintains readiness of all water equipment and personnel in connection with disaster response activities
- Maintains plans and/or standard operating procedures for providing resources and services needed during a disaster

Response

- Provides EOC representative(s) to coordinate resources to support emergency response operations or manage consequences
- Monitors status of and impacts to water systems
- Takes actions necessary to prevent contamination of water supply

- Ensures adequate water resources for fire services
- As needed, coordinates resources to support restoration of water services
- Provides situational awareness about emergency response operations, resource status and other topics of interest to the EOC

Recovery

- Coordinates with EMD to conduct damage assessments on water department facilities and infrastructure
- Coordinates with public health on water testing
- Provides repair of water department facilities

Public Health Department

Prevention and Mitigation

- Conducts public health inspections at public sector facilities
- Coordinates immunization programs
- Coordinates with EMD to identify risks and hazards in the community
- Facilitates education programs to the public on disease prevention

Preparedness

- Ensures EOC representative is adequately trained
- Maintains readiness of public health personnel and equipment in connection with disaster response activities
- Maintains plans and/or standard operating procedures for providing resources and services needed during a disaster
- Coordinates with medical facilities to ensure readiness of supplies, equipment and personnel for use during a disaster
- Provides training to appropriate personnel in detection, evaluation and prevention of communicable diseases
- Provides protection of food and water supply
- Coordinates with EMD to ensure planning for and coordination of health/medical aspects of response to a disaster
- Coordinates pandemic planning with MA Department of Public Health and community public and private health care provider network
- Maintains procedures for mass and mobile medical countermeasures dispensing for mass prophylaxis or vaccination
- Advises on control of disease vectors such as insects and rodents
- Recruits, trains and facilitates activation of community Medical Reserve Corps
- Coordinates with the EMD to ensure individuals with access and functional needs can be adequately supported during times of emergency

Response

- Provides EOC representative(s) to coordinate public health and medical resources to support emergency response operations or manage consequences
- Monitors status of and impacts to public health and healthcare facilities
- As needed, coordinates with the water/sewer department on any issues on water supply contamination
- As needed, provides resources to investigates and correct problems with sanitation conditions during a disaster
- As needed, coordinates safe waste disposal
- As needed, coordinates water and food inspection and associated laboratory testing
- As needed, advises on disease vectors such as insects and rodents Provides pest control
- As needed, coordinates necessary mortuary services with the Chief Medical Examiner, including operation of temporary morgues and identification and registration of victims
- Assists in the determination and elimination of health hazards in the disaster area
- Upon authorization from MA Dept. of Public Health, implements isolation and quarantine measures, as needed
- Issues health advisories, as needed
- Coordinates the activation and operation of medical countermeasures Emergency Dispensing Sites
- Coordinates the monitoring of food safety and general sanitation at mass care shelter facilities
- Orders testing of diseased animals
- Advises on public health hazards related to medical waste and other biohazards, hazardous materials and radiological materials during an emergency
- Liaises with state and federal health and environmental agencies
- Coordinates with the EMD to facilitate the transportation of individuals with access and functions needs

Recovery

- Coordinates with EMD to conduct damage assessments as needed
- Coordinates with the debris removal agencies regarding any debris that may pose a public health hazard

---

Information Technology Department

Prevention and Mitigation

- Coordinates with EMD to identify risks and hazards in the community

Preparedness

- Ensures EOC representative is adequately trained
- Maintains readiness of IT personnel and equipment in connection with disaster response activities

- Maintains plans and/or standard operating procedures for providing resources and services needed during a disaster
- Ensures radio, telephone, computing resources and network communications capability essential to emergency operations are maintained
- Ensures emergency backup and contingency communications capability in the event normal communications are disrupted
- Ensures the protection of vital records through ongoing support processes for data backup, IT security measures and standard procedures for firewall management, intrusion detection, anti-virus protection and access control
- Assists agencies with Geographic Information Systems (GIS) technology services in supporting incident response, recovery and mitigation activities
- Provides authority and governance protocols for access to IT resources, systems, data and facilities that house IT assets and for invoking disaster recovery procedures on IT-supported equipment and systems

Response

- Provides EOC representative(s) to support EOC and emergency response operations
- Provides technical assistance to the EOC as required to activate and maintain communications and information systems capabilities to support emergency operations
- Assists with providing emergency printing services and other printing as appropriate

Recovery

- Assists with the recovery of electronic records and invokes recovery in accordance with the IT Department, Continuity of Operations plan

---

School Department

Prevention and Mitigation

- Implements school safety and security programs
- Conducts exercises and drills on the school safety and security programs
- Coordinates with EMD to identify risks and hazards in the community

Preparedness

- Maintains plans for protection of students during a disaster
- Regularly practices through drills and other educational means, procedures for safe evacuation and relocation of students in case of an emergency
- Coordinates with the American Red Cross and the local emergency management organization regarding arrangements to use schools and/or school food stocks for mass care shelter and feeding

Response

- Protects students in school by releasing them, sheltering them or evacuating and relocating them to safe areas during emergency/disaster

- Provides school buildings for public shelter

- Provides buses for evacuation of students and public during emergency/disaster
- Provides for the emergency care of students and employees during normal school hours
- Provides available facilities for medical dispensing sites

Recovery

- Coordinates safe re-entry of students into school after the emergency has passed
- Assists in damage assessments of school facilities

Animal Control Department

Prevention and Mitigation

- Coordinates with EMD to identify risks and hazards in the community

Preparedness

- Coordinates planning with appropriate public and private sector agencies which provide for protection of domestic animals, fish and wildlife during a disaster
- Forms emergency response teams to address activities necessary for the care of animals in an emergency such as evacuation, sheltering and medical treatment

Response

- Coordinates the animal services and assistance necessary during a disaster including protection and care of injured animals and disposal of dead animals

Recovery

- Coordinates return of domestic animals to owners after emergency has passed

---

Local Government Agencies

Prevention and Mitigation

- Coordinates with EMD to identify risks and hazards in the community

Preparedness

- Develops and maintains emergency response procedures
- Negotiates and maintains mutual aid agreements
- Identifies sources of emergency supplies, equipment and transportation
- Establishes and maintains a list of succession of key personnel

Response

- Protects and preserves vital records essential for the continuity of government and delivery of essential functions
- Provides EOC support

Recovery

- Maintains records of disaster-related expenditures, including appropriate documentation
- Continues to provide EOC support until no longer needed
- Provides support for damage assessment activities

(SEMA) OTHER – TBD AS NEEDED

Responsibilities of:

- **Community Relief Services**
- **CERT/MRC**
- **Local Volunteer Organizations**
- **Local Businesses**
- **Civic Groups, Faith-Based Organizations, Advocacy Groups**

Prevention and Mitigation

- Develops and maintains emergency response procedures
- Negotiates and maintains mutual aid agreements

Preparedness

- Identifies sources of emergency supplies, equipment and transportation
- Establishes and maintains a list of succession of key personnel

Response

- Provides EOC support

Recovery

- Continues to provide EOC support until no longer needed
- Provides support for damage assessment activities

Line of Succession

The line of succession for the Emergency Management Department will be as follows or as delegated by positions listed below:

- Emergency Management Director
- Deputy Emergency Management Director
- Police Chief

Information Collection, Analysis and Dissemination

Situational Awareness

There are five elements that are the backbone of good situational awareness:

- Define your information requirements
- Determine how to gather information
- Decide who will analyze that information
- Determine how that information will be shared
- Choose the technology that will help communicate and manage the information

During the initial period of an emergency, efforts should be focused on gaining an understanding of the situation and establishing incident priorities. A well-defined, operational information collection capability is essential. Information collection provides situational awareness to leadership and promotes informed decision-making. The Community has designated a process to collect, analyze and disseminate information during an emergency to both internal and external response partners as well as the public.

Information Collection

Information will be collected from a variety of sources. The EOC Manager or his/her designee at the EOC will be charged with collecting information. The following list contains examples of potential sources of operational information:

- On-scene responders
- Community departments and agencies
- WebEOC and MEMA Situational Awareness Reports
- Public agencies and non-governmental partners
- Television, radio and print media
- Social media
- Victims of the emergency and the general public
- Subject matter experts

Information Analysis

After information has been collected, it must be analyzed to determine its credibility and operational relevance. The EOC Manager or his/her designee will analyze information that is received and prepare intelligence reports for leadership.

Dissemination

Message dissemination is categorized into internal messaging and public messaging. Internal messaging refers to messages crafted for responders and partners, while public messaging refers to messages crafted for public dissemination.

Internal Messaging

EOC Manager or his/her designee in the EOC will assist in conveying information as necessary to responders, community departments and agencies and other partners. Additionally, EOC Manager or his/her designee will maintain and update the Incident Action Plan (IAP), which will contain critical information and intelligence updates.

Within a reasonable timeframe of an emergency event, the EMD will submit a Local Government Situation Report (see Attachment 3) to their Regional MEMA office. For a significant incident, the situation report should be followed by an Initial Damage Assessment as soon as specific damage information is available but not later than 72 hours after the peak of the event.

Public Messaging

Various methods of public information dissemination are available. The decision to use a particular medium will be based on the urgency and the intended audience. Some methods of distribution include:

- Press releases
- Press conferences
- Website updates
- Print, radio or televised announcements
- Social media updates
- Local or regional public information systems such as CodeRed systems and web/application-based notification systems
- Wireless Emergency Alerts

To ensure one consistent and accurate voice, all public information releases will be coordinated through EOC Manager or his/her designee.

Local Declaration of Emergency

In general, a Declaration of Emergency is made only by the Selectboard and may be used to allow spending of funds without a budget allocation, facilitate emergency procurement, or issue emergency orders such as evacuation, curfew, quarantine, or shelter in place orders.

A local Declaration of Emergency may be declared by the Selectboard or as permitted by local charter, bylaw or ordinance, or state law. Whenever a local emergency has been declared the EMD will notify the Massachusetts Emergency Management Agency (MEMA) through WebEOC or their regional office.

When all emergency activities have been completed, the EMD will coordinate with the Selectboard to terminate the declared emergency. All Community departments, agencies and organizations will receive notification of emergency declarations and terminations through email.

Communications

Communications are an important component of response and recovery operations. The ability of emergency management/response personnel from different disciplines, jurisdictions, organizations, and agencies to work together depends greatly on their ability to communicate with each other. To effectively transmit and receive information, emergency response partners supporting the community must have access to all available forms of communication. This section outlines the types of equipment/systems available for internal, external and public communication. Operational communications systems and capabilities, and effective communications, are essential to the success of any emergency operation. The community maintains and operates the following communications systems to ensure effective and operation communications between municipal personnel and with other jurisdictions.

Communications between community agencies occur through the use of several types of communications equipment including radios, cellular and landline phones, email, and satellite phones. In addition, the Commonwealth uses WebEOC and the Health and Homeland Alert Network (HHAN) for external notifications and to provide situational awareness. Public communications range from the Emergency Alert System to the community's website and social media.

SEMA:

- Frequency: 460.5625 N

SFD:

- Frequency: 471.425
- PL/DPL: 065
- Narrow

SPD:

- Frequency: 483.350
- PL/DPL: 025
- Narrow

DPW:

- Frequency: 45.28
- PL/DPL: 162.2

Southborough operates its own central dispatch center, managing fire, police & EMS and interop with DPW. SEMA, Fire/EMS and Police operate on the UHF band. Each have repeated and direct channels. DPW operates in LOW band. There are two repeater sites for fire/EMS/police in town: Overlook Dr & 21 Coslin Dr . A back-up radio system is maintained at the police station. SEMA operates a mobile repeater mounted in the Command/Communications Unit/Trailer (EM-1). This repeater is stored off-line and only powered up when the SEMA repeater channel is requested for use.

Alert and Notification

Emergency notification of community agencies is critical during times of emergency to ensure response partners have adequate time to prepare for an emergency and can assemble to respond to an emergency. The community has several means of notifying emergency response partners. In most situations, the Community has the capability to warn departments and agencies on a 24-hour basis.

Notification of Key Officials

When an emergency requires the notification of key community officials, the EMD, Deputy EMD, or designees will utilize the following means as appropriate:

- Email
- Landline telephone
- Cellular Phone
- Text Messaging
- Satellite Phone
- 2-way radio systems (during normal business hours)
- Dispatch a vehicle for in-person notification
- Face-to-face communication

EOC Communications

The community's EOC is equipped with, maintains and is capable of operating, the following communication systems: Landline telephones, Multi-frequency mobile base & portable radios, Laptops, Wi-Fi Hotspot, CodeRED emergency notification system.

The community conducts periodic communications tests to ensure that its systems are operational, and its personnel are capable of operating the systems. More particularly, the EMD, Deputy EMD or person appointed by EMD conducts an emergency communication test on an annual basis.

Emergency Alert and Warning

Emergency alert and warning systems are designed to allow local authorities to warn the public of impending or current threats or emergencies affecting their area. Such public warning systems are essential to communicating critical emergency information to the public during times when other communications systems may not be dependable. Public warnings may be issued during severe weather, flooding, fire, hazardous material release, terrorist threat, water contamination, and any other threats to life, property, and safety. During these or any other type of emergency when the need to relay emergency public information is immediate EMD, Deputy EMD or designees will coordinate the development of public warning messages. The EMD, Deputy EMD, Town Administrator, DPW Superintendent or designees will implement the dissemination of the messages via the public warning systems. Warning the public about an emergency or disaster includes various means of communication which are summarized in the table below:

Public Warning

Public warning is accomplished using the following methods as appropriate:

- Emergency Alert System (EAS)
- Wireless Emergency Alerts
- Local Access TV Station

- Community Website Notifications
- Vehicle Sirens
- Social Media
- Variable Message Boards
- Reverse Telephonic Notification Systems

Emergency Alert and Warning for Persons with Access and Functional Needs

Access and functional needs populations will be warned of emergencies by available methods, including the following:

- Visually impaired: EAS messages on radio, sirens, NOAA Weather Radio, reverse telephonic notification systems (locally based), route alerting (locally based), door-to-door notification (locally based)
- Hearing impaired: Captioned EAS messages on television, TTY on reverse telephonic notification systems (locally based), route alerting (locally based), door-to-door notification (locally based)
- Non-English speaking: Language messages on radio and/or TV, NOAA Weather Radio, route alerting, door-to-door, other

Community Warning Systems

Warning System	Area of Coverage	Approving Authority	Implementation
Local Cable Channel	Town-Wide	SEMA Mgt.	Instructions in EOC Cabinet & on EOC Ext. Hard Drive
Emergency Public Communications (CodeRED)	Town-Wide and Beyond	SEMA, FD, PD, DPW, Town Gov't.	Instructions in EOC Cabinet & on EOC Ext. Hard Drive
News Media	Town-Wide and Beyond	SEMA Mgt.	Contact via emails, phone, social media
Community Websites	Town-Wide and Beyond	SEMA Mgt.	Sites, Accounts & Instructions in EOC Cabinet & on EOC Ext. Hard Drive
Social Media	Town-Wide and Beyond	SEMA Mgt.	Sites, Accounts & Instructions in EOC Cabinet & on EOC Ext. Hard Drive
Loudspeakers via Vehicles	Town-Wide	SEMA Mgt.	Created as needed
Door-to-Door	Town-Wide	SEMA Mgt.	Created as needed

Public Information Officer

The Public Information Officer:

ACTIONS:

- Determine or create proper message content
- Select appropriate public warning system(s) for use
- Disseminate public warnings after receiving written/verbal approval from the EMD, Deputy EMD, EOC Manager or his/her designee
- Initiate Protective Action Advisory Implementation
- During non-emergency times, information regarding emergency plans and actions to be taken by the public, in the form of public information / education materials, will be provided to the public via Social Media, websites, publications, local access cable television, public meetings.

During an emergency, the potential for dissemination of false or misleading information is high. This can lead to operational difficulties for responders and confusion among the public. Misleading information can be produced from several sources. The Community will establish a media monitoring and rumor control section in EOC or JIC and staffed by the PIO and other non-essential staff as needed.

Administration, Finance, and Logistics

Finance and Administration

Due to the nature of emergency situations, financial transactions and activities, including purchases and leases, often need to be executed quickly, and sometimes routine financial and accounting procedures need to be amended or bypassed, or authorized by law, regulation, and policy. Note that this in no way lessens the need to follow sound financial management and accountability.

A local declaration of a State of Emergency may, in some circumstances, allow the community to bypass normal budgetary and financial requirements in order to finance emergency response and recovery activities.

A Presidential Disaster Declaration, or a Presidential Emergency Declaration, may allow the community to apply for federal disaster funding and to be reimbursed for eligible response and recovery costs.

Timely financial support for response and recovery activities could be crucial to successfully achieving response and recovery objectives. While innovative and expeditious means of procurement may be required during times of emergencies, it is still mandatory that lawful and sound financial and accounting principles and practices be employed in order to safeguard the use of public funds from the potential for fraud, waste, and abuse.

Each community agency is responsible for establishing effective administrative funding controls, segregation of duties for proper internal controls, and accountability to ensure that costs incurred are consistent with the missions identified in this plan. Extreme care and attention to detail must be taken throughout the emergency response period to maintain logs, formal records, and file copies of all expenditures, including personnel time sheets, in order to provide clear and reasonable accountability and justification for future reimbursement requests.

Records

Detailed financial records should be kept for every emergency or disaster managed by the community. Having detailed and complete financial records are requirements for receiving federal reimbursement under the Stafford Act for Presidentially declared disasters and emergencies. Documentation should include personnel hours, equipment costs, expenditures/procurements, costs incurred by the City/Town etc. Financial records are essential to a successful recovery effort.

All records relating to the allocation and disbursement of funds for activities covered in this plan must be maintained, as applicable, in compliance with the Code of Federal Register, Title 44, *Emergency Management Assistance*, and all Massachusetts statutes pertaining to state financial matters and emergency management powers and responsibilities.

Record Retention

Retention of records involving emergencies/disasters will be maintained according to local, state and federal record retention law/policies. In addition, records regarding hazardous materials exposures of employees will

be maintained by the employee's department head. All non-town employee records will be maintained by the fire department and/or Town Administrator. Retention periods for all records will be in accordance with local, state and federal and insurance record retention law/policies.

Preservation of Records

It is the responsibility of the chief elected official to ensure that public records be protected and preserved in accordance with applicable state and local laws. Storage locations for various vital records are located below:

Location of **Town Clerk's** Original Records:	Town Hall
Form of **Town Clerk's** Original Records:	Paper & Electronic
Location of **Town Clerk's** Duplicate Records:	Shared Drive
Form of **Town Clerk's** Duplicate Records:	Paper & Electronic
Location of Principal **Assessor's** Original Records:	Town Hall
Form of Principal **Assessor's** Original Records:	Paper
Location of Principal **Assessor's** Duplicate Records:	Shared Drive
Form of Principal **Assessor's** Duplicate Records:	Paper & Electronic
Location of **Board of Health's** Original Records:	Cordaville Hall
Form of **Board of Health's** Original Records:	Paper & Electronic
Location of **Board of Health's** Duplicate Records:	Shared Drive
Form of **Board of Health's** Duplicate Records:	Paper & Electronic
Location of **Conservation Commission's** Original Records:	Town Hall/Cordaville Hall
Form of **Conservation Commission's** Original Records:	Paper & Electronic
Location of **Conservation Commission's** Duplicate Records:	N/A
Location of Fire Department/EMS Original Records:	Public Safety Building
Form of Fire Department/EMS Original Records:	Electronic
Location of Fire Department/EMS Duplicate Records:	Public Safety Building
Form of Fire Department/EMS Duplicate Records:	Paper
Location of Police Department Original Records:	Public Safety Building
Form of Police Department Original Records:	Electronic
Location of Police Department Duplicate Records:	Public Safety Building
Form of Police Department Duplicate Records:	Paper

Location of Building Department's Original Records:	Cordaville Hall
Form of Building Department's Original Records:	Paper/Electronic
Location of Building Department's Duplicate Records:	N/A
Form of Building Department's Duplicate Records:	N/A
Location of Planning Department's Original Records:	Town Hall
Form of Planning Department's Original Records:	Paper/Electronic
Location of Planning Department's Duplicate Records:	Town Hall
Form of Planning Department's Duplicate Records:	Electronic
Location of Finance Department's Original Records:	Town Hall
Form of Finance Department's Original Records:	Paper/Electronic
Location of Finance Department's Duplicate Records:	N/A
Form of Finance Department's Duplicate Records:	N/A
Location Of Select Board's Original Records:	Town Hall
Form of Select Board's Original Records:	Paper/Electronic
Location of Selectboard's Duplicate Records:	N/A
Form of Select Board's Duplicate Records:	N/A

Reports

The use of reports will vary according to the type of emergency being handled.

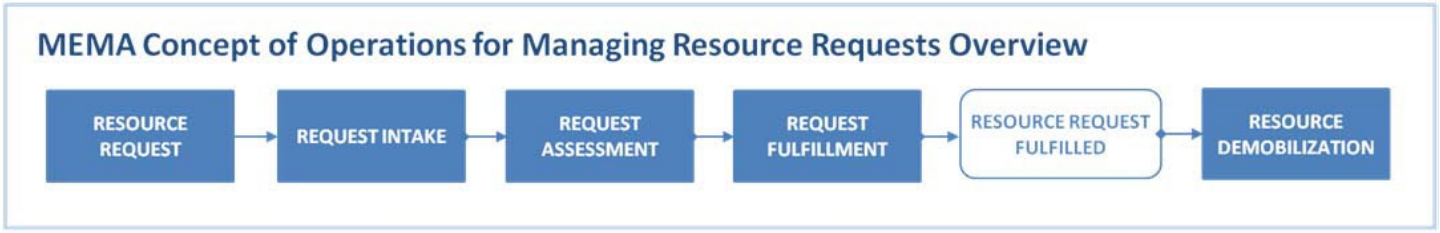
Messages

All requests for assistance and all general messages will be handled using the procedures and forms found in the Forms section of this plan.

Local Government Situation Report

These reports are compiled by the EMD and forwarded to MEMA to keep state officials informed about the current status of operations. WebEOC may also be used to provide this information. Please see **Attachment 3** for a sample Local Government Situation Report.

Other forms may include the chronological log and daily staff journal log and financial tracking reports.



Resource Management

The following are sources or potential sources for resources that may be available to the Community in responding to disasters and emergencies:

- Personnel, equipment and facilities belonging to the Community
- Resources available from other jurisdictions through local mutual aid agreements
- Resources available from the private sector through purchase, lease, or MOU
- Resources of the Commonwealth of Massachusetts including the National Guard through the Massachusetts Emergency Management Agency (MEMA)
- Mutual aid resources from other states via the Emergency Management Assistance Compact (EMAC), through MEMA
- Intrastate mutual aid available through the Statewide Mutual Aid Agreement
- Resources available from the federal government under the National Response Framework (NRF), through MEMA

If existing Community resources and mutual aid resources are exhausted, or if the community has a need for a resource that it neither has nor has access to, the EOC may submit a request for assistance to MEMA via phone or radio to MEMAs Regional Office or Headquarters, or through WebEOC. MEMA is responsible for coordinating support from all state agencies, including the National Guard, State Police, Department of Transportation, Department of Public Health, etc.

The figure below depicts the process by which MEMA receives, processes, tracks and fulfills requests from cities and towns, and other stakeholders for support.

Mutual Aid

Mutual aid is the provision of services from one jurisdiction to another. A mutual aid agreement is an agreement among jurisdictions to allow emergency responders to lend assistance across jurisdictional boundaries. Some mutual aid agreements may be formal and/or may be activated with some degree of frequency, such as mutual aid provided in the fire services community. Other mutual aid agreements are informal, and/or activated infrequently and only under emergency circumstances.

Town of Southborough is party to the following mutual aid agreements:

- Fire District 14: Mutual-Aid plan
- MA Statewide Fire Mobilization Plan
- MA Statewide DPW Mutual-Aid Plan Chapter 40 Section 4K
- MA Statewide Public Safety Mutual-Aid Plan Chapter 40 Section 4J
- Central Massachusetts Law Enforcement Council
- Health and Medical Coordinating Coalition Region 4A(?)

Training and Exercise Program

A critical component of this CEMP is the ability to conduct training and exercises in order to validate the CEMP's contents. These events should take an all-hazards approach. In addition, trainings and exercises could focus on specific areas, such as hazardous materials events. A training and exercise program should be developed to effectively implement the CEMP.

Training Program

An all-hazards training program is a critical component to a community's emergency planning cycle. The following sections describe some of the various training opportunities for which an Emergency Management Program can take advantage.

All-Hazards Training

MEMA Provided Training

MEMA's Training and Exercise Unit offers numerous classroom training opportunities throughout the calendar year. These all-hazards training programs cover various topics and offer unique perspectives on emergency management planning and response. Specific training programs can be found on MEMA's website.

Some examples of training include:

a. Incident Command Systems (ICS) 300
b. Incident Command Systems (ICS) 400
c. ICS for Elected and Senior Leaders
d. Emergency Operations Center (EOC) Awareness and Operations
e. Community Points of Distribution (C-POD)
f. Homeland Security Exercise and Evaluation Program (HSEEP) Training

Emergency Management Institute Training

The Emergency Management Institute (EMI) has a series of online Professional Development Training Programs designed to bolster the knowledge emergency managers need to possess. These online based classes can be found on FEMA's Emergency Management Institute Website, under their Professional Development Section.

Hazardous Materials Training

Section 303 (c) (8) of EPCRA, OSHA 29CFR 1910.120 (HAZWOPER) and EPA 40CFR 311; require that those responsible for implementing chemical emergency plans be provided training opportunities that enhance local emergency response capabilities. The LEPC intends to utilize courses sponsored by the Federal and State governments, and private organizations in helping fulfill this requirement. The LEPC will also schedule courses that address the unique concerns and needs for the local hazardous materials preparedness program. Employers are responsible for ensuring the health and safety of responding personnel, as well as the protection of the public and community served.

The LEPC will work in conjunction with the State Emergency Response Commission and community leaders to evaluate the hazardous materials training development needs of local emergency personnel. The LEPC will coordinate local training initiatives to ensure consistency with the Hazardous Materials Plans and will maximize training resources available from all levels of government and the private sector.

Employees who participate, or are expected to participate in emergency response shall be given training in accordance with the following paragraphs:

First Responder Awareness Level

First responders at the awareness level are individuals who are likely to witness or discover a hazardous substance release and who have been trained to initiate an emergency response sequence by notifying the proper authorities of the release. They would take no further action beyond notifying the authorities of the release.

First responders at the awareness level shall have sufficient training or have had sufficient experience to objectively demonstrate competency in the following areas:

a. An understanding of what "hazardous materials" is, and the risks associated with them in an incident.
b. An understanding of the potential outcomes associated with an emergency when hazardous materials are present.
c. The ability to recognize the presence of hazardous materials in an emergency.
d. The ability to identify the hazardous materials, if possible.
e. The understanding of the role of the first responder awareness individual in the employer's emergency response plan including site security and control and the North American Emergency Response Guidebook.
f. The ability to realize the need for additional resources and to make appropriate notifications to the communication center.

First Responder Operations Level

First Responders at the operations level are individuals who respond to releases or potential releases of hazardous substances as part of the initial response to the site for the purpose of protecting nearby persons, property, or the environment from the effects of the release. They are trained to respond in a defensive fashion without actually trying to stop the release. Their function is to contain the release from a safe distance, keep it from spreading, and protect further exposures.

First responders at the operation level shall have received at least eight hours of training or have had sufficient experience to objectively demonstrate competency in the following areas in addition to those listed for the awareness level and the employer shall so certify:

a. Knowledge of the basic hazard and risk assessment techniques.
b. Know how to select and use proper personal protective equipment provided to the first responder operation level.
c. An understanding of basic hazardous materials terms.

d. Know how to perform basic control, containment and/or confinement operations within the capabilities of the resources and personal protective equipment available with their unit.
e. Know how to implement basic decontamination procedures.
f. An understanding of the relevant standard operating procedures and termination procedures.

Hazardous Materials Technician

Hazardous materials technicians are individuals who respond to releases or potential releases for the purpose of stopping the release. They assume a more aggressive role than a first responder at the operations level does in that they will approach the point of release in order to plug, patch, or otherwise stop the release of hazardous substance.

Hazardous materials technicians shall have received at least 24 hours of training equal to the first responder operations level and in addition have competency in the following areas and the employer shall so certify:

a. Know how to implement the employer's emergency response plan.
b. Know the classification, identification, and verification of known and unknown materials by using field survey instruments and equipment.
c. Be able to function within an assigned role in the Incident Command System.
d. Know how to select and use proper specialized chemical personal protective equipment provided to the hazardous materials technician.
e. Understand hazard and risk assessment techniques.
f. Be able to perform advance control, containment, and/or confinement operations within the capabilities of the resources and personal protective equipment available with the unit.
g. Understand and implement decontamination procedures.
h. Understand termination procedures.
i. Understand basic chemical and toxicological terminology and behavior.

Hazardous Materials Specialist

Hazardous materials specialists are individuals who respond with and provide support to hazardous materials technicians. Their duties parallel those of the hazardous materials technician, however they may be called upon, where a more specific knowledge of the various substances is needed. The hazardous materials specialist would also act as the site liaison with Federal, state, local and other government authorities in regard to site activities.

Hazardous materials specialists shall have received at least 24 hours of training equal to the technician level and in addition have competency in the following areas and the employer shall so certify:

a. Know how to implement the local emergency response plan.
b. Understand the classification, identification and verification of known and unknown materials by using advance survey instruments and equipment.
c. Knowledge of the state emergency response plan.
d. Be able to select and use proper specialized chemical personal protective equipment provided to the hazardous materials specialist.
e. Understand in-depth hazard and risk assessment techniques.

f. Be able to perform specialized control, containment, and/or confinement operations within the capabilities of the resources and personal protective equipment available.
g. Be able to determine and implement decontamination procedures.
h. Have the ability to develop a site safety and control plan.
i. Understand chemical radiological and toxicological terminology and behavior.

Incident Command System

*Incident Commander*s, who will assume control of the incident scene beyond the first responder awareness level, shall receive at least 24 hours of training equal to the first responder operations level and in addition have competency in the following areas and the employer shall so certify:

a. Know and be able to implement the employer's incident command system.
b. Know how to implement the employer's emergency response plan.
c. Know and understand the hazards and risks associated with employees working in chemical protective clothing.
d. Know how to implement the local emergency response plan.
e. Knowledge of the state Emergency Response Plan and of the Federal Regional Response Team.
f. Know and understand the importance of decontamination procedures.

Trainers

Trainers who teach any of the above training subjects shall have satisfactorily completed a training course for teaching the subjects they are expected to teach, such as the courses offered by the U.S. Fire Academy, FEMA Emergency Management Institute, U.S. EPA, Massachusetts Fire Academy or Massachusetts Emergency Management Agency; or they shall have the training and/or academic credentials and instructional experience necessary to demonstrate competent instructional skills and a good command of the subject matter of the courses they are to teach.

Exercise Program

Similar to Training Programs, a strong Emergency Management Program should also involve exercise various plans and procedures, to ensure that training and the various plans are effective.

Section 303(c)(9) of EPCRA places a requirement on local jurisdictions to establish "methods and schedules for exercising the emergency plan". In establishing training programs and schedules the emergency managers recognize the need for an integrated exercise program that will ensure community response agencies and facilities successfully perform their emergency roles and functions in accordance with the All-Hazards Emergency Plan. An effective exercise program will also strengthen response management, coordination, and operations, plus reveal shortcomings and weaknesses that can be corrected prior to an emergency in order to improve and refine public safety capabilities.

Types of Exercises

Exercises are generally classified in three major categories: Tabletop, Functional, and Full Scale. Local jurisdictions may also consider preliminary exercises called *Orientations* to introduce participants to the plan and prepare for the exercise process.

Each of these exercises varies in activities and resources. Some require simple preparations and execution while others may be more complex and require greater efforts and resources. Each provides their own benefit and all should be considered in the overall development of an exercise program.

Orientation (Exercise)

Orientations are used to acquaint personnel with policies and procedures developed in the planning process, providing a general overview of the emergency plan and its provisions. Orientation is especially effective in ensuring that emergency personnel understand their roles and responsibilities and clarifying any complex or sensitive plan elements. While the orientation does not normally involve any direct simulation or role-playing, it is used to review plan procedures and informally apply them to potential emergency situations or past events familiar to everyone.

Tabletop Exercise

A *Tabletop Exercise* is primarily a learning exercise that takes place in a meeting room setting. Prepared situations and problems are combined with role-playing to generate discussion of the plan, its procedures, policies, and resources. *Tabletop Exercises* are an excellent method of familiarizing groups and organizations with their roles and demonstrating proper coordination. They are also good environments for reinforcing the logic and content of the plan and integrating new policies into the decision-making process, since they allow participants to act out critical steps, recognize difficulties, and resolve problems in a non-threatening environment.

Functional Exercise

A *Functional Exercise* is an emergency simulation designed to provide training and evaluation of integrated emergency operations and management. It is more complex than the *Tabletop Exercise* and focuses on the interaction of decision making and agency coordination in a typical emergency management environment such as an Operating Center or command location. All field operations are simulated through messages and information normally exchanged using actual communications, including radios and telephones. It permits decision-makers, command officers, coordination and operations personnel to practice emergency response management in a more realistic environment, complete with time constraints and stress. It generally includes several organizations and agencies practicing interaction of a series of emergency functions such as direction and control, assessment, and evacuation.

Full-Scale Exercise

The *Full-Scale Exercise* evaluates several components of an emergency response and management system simultaneously. It exercises the interactive elements of a community emergency program, similar to the *Functional Exercise*, but it is different from the *Functional Exercise* in that it adds a field component. A detailed scenario and simulation are used to approximate an emergency, which requires on-scene direction

and operations, and also includes coordination and policy-making roles at an emergency operations or command center. Direction and control, mobilization of resources, communications and other special functions are commonly exercised.

Progressive Exercise Program

Recognizing that the exercise types described in this plan are intended to build on one another, each one becoming more complex and comprehensive, the LEPC will establish a progressive exercise program by scheduling basic *Orientations* to introduce the plan and the specific policies and responsibilities established. *Tabletop Exercises* will then be held to implement actual coordination and leadership provisions of the plan, including emergency operations concepts that maybe new to many local personnel. These will be followed by *Functional Exercises* to integrate the plan's more complex sections under simulated emergency conditions. The entire hazardous materials emergency response system will then be evaluated by a *Full-Scale Exercise*.

Exercise Schedule

The specific exercise schedule will be developed after the CEMP has been reviewed and accepted by the Community. A plan to evaluate Hazardous Materials Plans may also have to be approved by the State Emergency Response Commission. An exercise of this plan should be held annually.

NOTE: If a real response situation has occurred, it may be counted as an exercise as long as an after-action evaluation is conducted and the plan is updated with "lessons learned" from the incident.

Plan Development and Maintenance

If a plan is to be effective its contents must be known and understood by those who are responsible for its implementation. The Emergency Management Director (EMD) will brief the appropriate Community officials and department heads concerning their roles and responsibilities under this Plan. The EMD will arrange for appropriate training and exercises to maintain this plan.

The EMD is responsible for the administrative maintenance of this Plan and will ensure that this plan is reviewed and updated on an annual basis, and that all appropriate personnel and departments participate in the review.

The EMD is responsible for maintaining a training and exercise program that ensures that the Plan, including the EOC and people with emergency management responsibilities, is exercised at least once each year.

All departments are responsible for the development and maintenance of their respective segments of this Plan. All departments are responsible for annually reviewing their portion of this Plan and updating it as necessary.

Following every exercise or significant real-world event, the Incident Commander, in collaboration with the EMD, and, if appropriate, Chief Elected Official, will ensure that a detailed After-Action Report (AAR) and Improvement Plan is prepared. At least annually, this Plan should be updated to incorporate lessons learned and best practices identified through training, exercises, and actual events/incidents.

Additional Support Plans

- ***SEMA NOTE:*** *This not an exclusive list – Refer Southborough EOC manuals, guides, references, aid, etc. located in the EOC documents cabinet & on the EOC external hard drive & Southborough specific attachments/references in Southborough's' WebEOC CEMP File*

Emergency Operations Center Operations Support Annex

Attachment 1: EOC Activation Team Checklist

SEMA NOTE - FOR THIS SECTION, REFER TO:

- ❒ ****** Southborough EOC Operation Manual ******
- ❒ *Other Southborough EOC (etc.) manuals, guides, references, aid, etc. located in the EOC documents cabinet & on the EOC external hard drive & Southborough specific attachments/references in Southborough's' WebEOC CEMP File*

- ❒ Notify all individuals on the EOC roster of the EOC
- ❒ Set-up the EOC stations, equipment (computers, television, smart board, projectors, maps, etc.) and the EOC communications
- ❒ Install and check all telephones
- ❒ Install and check all laptop computers
- ❒ Obtain EOC documents to be used during activation
- ❒ Establish WebEOC connection with the MEMA
- ❒ Establish an EOC personnel ID station (if needed)
- ❒ Assign security to EOC entrance and log all EOC access
- ❒ Command Staff review of EOC operating procedures
- ❒ Emergency Management Director briefs EOC personnel on situation

Each department shall be responsible for further notification and staffing in accordance with their department's Standard Operating Procedures. Staffing levels will be determined by the Emergency Management Director based on the scope and extent of the emergency.

INSTRUCTIONS FOR COMPLETING THE LOCAL GOVERNMENT SITUATION REPORT FORM (LOGOSITREP)

Local officials should provide Situation Reports whenever requested to do so by MEMA and/or when local emergency operations are undertaken. Situation Report information may be entered into WebEOC. Situation Reports should be provided anytime there is a significant change in the status of an item(s) listed on the Situation Report Form.

1. Incident Description: Provide a short narrative description of the event affecting your community, including specific locations and impacts.
2. Local State of Emergency: Indicate whether or not your local Chief Elected Official has declared a Local State of Emergency, including date and time declared.
3. Casualties: Provide the best estimate of disaster related casualties. Provide latest cumulative figures, not an update from the previous Situation Report.
4. EOC Activation: Indicate if the local EOC is activated or closed.
5. Emergency Orders: Indicate any emergency orders or declarations issued by the Chief Elected Official (evacuation ordered, driving ban, curfews in effect, etc.).
6. Mutual Aid Received From: Indicate any mutual aid being received from other towns or cities (not the State).
7. Shelter Status: Indicate all public shelters that are currently open, name and location of shelter, the number of people in the shelter, and who is managing the shelter (Red Cross, local Fire Department, etc.).
8. Dams/Rivers Status: List the name of any rivers approaching flood state or currently flooding. List the name of any dams that are threatened or breached.
9. Roads/Bridges Status: Describe the observed impact on the local road system or bridges (both State and locally maintained) and the extent to which roads and bridges have been made impassable by downed trees, wires, snow and other debris.
10. Damage Report: Fill in damage observed; minor, significant, or major damage for residences, municipal buildings, sewer plant(s), businesses and status of power outages, water supply, debris removal needed, telephone outages, etc.).
11. Remarks: Provide any pertinent information which you feel State officials should be aware of regarding the situation in the community.
12. Assistance Requested: Indicate what type of assistance the community requires, if any, and a local point of contact.

Attachment 4: Mutual Aid Listings

Towns and departments with which the community has mutual aid agreements:

SEMA NOTE *Follow most current versions of local, district, regional, and statewide mutual-aid agreements, examples listed in the "Mutual Aid" section located on* ***(Page 61).***

Overview

This checklist is intended as a stand-alone annex to help support jurisdictional Emergency Operations Center (EOC) operations. The sections contain pertinent information such as operational checklists, mutual aid agreements and standard operating guidelines for some EOC staff positions. This checklist should be readily accessible in the EOC.

The EOC is the location from which centralized coordination of a jurisdiction's response is performed. The EOC serves as a communication and coordination hub for the community, coordinating among responding entities and with regional and state operations. Additionally, the EOC serves as a resource coordination center, filling resource needs locally or requesting resources from the State.

The following functions are performed in the EOC:

- Receive and disseminate warnings
- Coordinate operations between incident command and supporting agencies and organizations
- Work with elected officials to determine state of emergency
- Develop emergency policies and procedures
- Obtain and maintain situational awareness of the incident and ensure a common operating picture
- Disseminate information to responders, EOC staff, other jurisdictions and state and federal agencies
- Maintain current maps and information display boards
- Coordinate, mobilize and deploy resources to support event response guided by set priorities
- Coordinate mutual aid
- Coordinate public information
- Establish a seamless transition into recovery operations
- Assess and document impacts from events for recovery process

The Emergency Management Director (EMD) should develop an EOC management team consisting of representatives from the following departments:

- Chief Elected Official (CEO)/Town Administrator
- Department of Public Works (DPW)
- Police
- Fire/Emergency Medical Services (EMS)
- Public Information Officer (PIO)
- Finance
- Board of Health
- Historical Commission
- Conservation/Environmental Commission
- Building Inspector

This checklist should be included as an annex in the local Comprehensive Emergency Management Plan (CEMP).

EOC Checklist

Initial Response Actions (immediately following notification of event)

- ☐ Assess the situation.
- ☐ Notify EOC management team and conduct an initial threat assessment.

If decision is made to activate EOC by The EMD or Senior Elected Official:

- ☐ Identify if Primary or Alternate EOC will be activated depending on the event.
- ☐ Determine level of EOC activation based on CEMP guidelines.
- ☐ Notify all individuals on the EOC roster of the EOC activation using CodeRED or cell phone calls.
  - ☐ Notify response entities, mutual aid partners and MEMA Regional Office of EOC activation.
  - ☐ Identify a Public Information Officer (PIO) and determine the need for immediate public information release.
  - ☐ Determine if immediate emergency alert and warnings need to be issued to the public.
  - ☐ Identify any immediate resource needs.
  - ☐ Determine if a local Declaration of Emergency is needed at this time by Senior Elected Official/Select Board

EOC Facility Preparation

- ☐ Set-up the EOC stations, equipment (computers, television, smart board, projectors, maps, etc.) and EOC communications.
- ☐ Install and check all telephones.
- ☐ Install and check all computers. Test EOC network and printer connectivity.
- ☐ Install and check all radios.
- ☐ Obtain EOC documents to be used during activation.
- ☐ Establish WebEOC connection with the MEMA.
- ☐ Establish check-in location and procedures.
- ☐ Establish an EOC personnel ID station (if needed).
- ☐ Assign security to EOC entrance and log all EOC access.
- ☐ Check fuel status for backup generator, if applicable.

- ☐ Command Staff review of EOC operating procedures.
- ☐ Emergency Management Director briefs EOC personnel on situation.

EOC Activation

Activate and staff the EOC sections need for event. Each department shall be responsible for further notification and staffing in accordance with their department's Standard Operating Procedures. Staffing levels will be determined by the Emergency Management Director based on the scope and extent of the emergency.

- ☐ Brief the EOC management team and EOC staff regarding:
  - Situation overview
  - EOC activation level
  - Ongoing response actions
  - Length of first operational period
  - List of objectives and priorities for the first operational period
- ☐ Issue emergency alerts and warnings to the public, if needed.
- ☐ Request situation reports from Incident Command and develop initial situational awareness report.
- ☐ Establish/confirm procedure for resource ordering.
- ☐ Identify and request immediate resource needs.
- ☐ Issue local Declaration of Emergency, if needed.
- ☐ Discuss public information issues and decide whether a Joint Information Center (JIC) is required.
- ☐ Arrange for meals for EOC staff.
- ☐ Provide staff with just-in-time training, if needed.

EOC Operations

- ☐ Provide general incident objectives and strategies.
- ☐ Provide direction and overall coordination of event.
- ☐ Develop a 24-hour staffing plan.
- ☐ Maintain situational awareness during event by gathering timely, accurate, accessible, and consistent information.
- ☐ Provide information through Public Information Officer/JIC.
- ☐ Determine ongoing resource requirements.

- ☐ Ensure resource ordering process is in place.
- ☐ Ensure resource tracking procedure is in place.
- ☐ Activate mutual aid agreements, as needed.
- ☐ Schedule periodic EOC and media briefings.
- ☐ Maintain status boards showing essential information (for example):
  - Road closures
  - Shelter locations
  - Weather information
  - Actions taken
  - Resource status
  - Infrastructure impacted
  - Dwellings/businesses impacted
- ☐ Document financial expenditures related to the event.

EOC Deactivation/Demobilization

- ☐ Determine trigger point to initiate EOC deactivation.
  - Event has deescalated to point of local agency control
  - Response has been terminated
  - Recovery operations are underway
  - No public information dissemination is needed
- ☐ Establish timeline for deactivation.
- ☐ Notify partner agencies of EOC deactivation plan.
- ☐ Direct EOC staff to begin deactivation process.
- ☐ Develop a plan to return resources to their respective agencies.
- ☐ Clean and restore EOC facility to normal operations.
- ☐ Collect all EOC data, complete required forms, and apply for reimbursement through FEMA Public Assistance Portal, if applicable.
- ☐ Conduct After-Action Review (AAR) meeting to develop After-Action Report and Improvement Plan.
- ☐ Update plans, policies, and procedures based on lessons learned/best practices and AARs.

EOC Operational Capabilities Checklist

	Primary EOC **Public Safety Building- 32 Cordaville Road**	**Alternate EOC** **Cordaville Hall, 9 Cordaville Road**
Generator (detail size, connections, fuel type, etc.)	Kohler 300REOZJ, voltage: 120/208, 1040 amps, kW 300, kVA 375, diesel fuel 1661 gallons	100KW/125 KVA generator, 520 amps, diesel fuel
Date of Last Test	Tested weekly	Tested weekly
Number Days of Fuel Supply	3-4	3-4
Radio Communications (channels, frequencies, bands, equipment, etc.)	Channels: 2 Frequency 471.425 Bands: UHF Equipment: hard wired comms & portable comms	Channels: 2 Frequency 471.425 Bands: UHF Equipment: portable comms
Wall Charts (list what is in each EOC)	1 projector screen, 2 portable white boards	1 projector screen, 2 portable white boards
Media Briefing Room (equipment, capabilities, etc.)	Town Hall Meeting Room. A/V, Local Cable, Admin Supplies	Pilgrim Church- Cold capabilities, would need to supply equipment
Alternate Water Supply	Bottled water	Bottled water
Food Storage (how much, expiration, for how many people)	Kitchen in house	Kitchen in house
Number of Days of Food	Unavailable	Unavailable
Sleeping Area (how many beds, comfort kits, etc.)	8 dorms	5 cots

3. North Reading Transportation, Inc. (NRT) – *Hudson location*
4. AA Transportation Co., Inc.

Standard Operating Guidelines

Standard Operating Guidelines (SOGs) are guidance documents for how an agency will respond during a time of emergency. The following SOGs outline responsibilities for the Chief Elected Official, EMD, Fire Department Representative, Police Department Representative, DPW representative, Public Information Officer and Public Health Representative in the EOC during activation. Additional SOGs can be developed as necessary.

Chief Elected Official SOG

The ultimate responsibility for all emergency management activities is vested in the Chief Elected Official. They are responsible for all emergency management policies, and during emergency operations will have final responsibility for decision making concerning emergency management actions.

It is the responsibility of the Chief Elected Official to ensure an approved line of succession exists in case some individuals are unable to perform their duties during an emergency. It is ultimately incumbent upon the Chief Elected Official to ensure vital records are maintained.

All required reports and records of emergency operations activities should be submitted to the Chief Elected Official as well as the Emergency Management Director (EMD).

Initial Actions

- ☐ Receive notification of emergency.
- ☐ Discuss with EMD the need to activate the Emergency Operations Center (EOC).
- ☐ Review emergency management plan with EMD.
- ☐ Maintain situational awareness and determine if there is an imminent threat.
- ☐ Discuss with EMD the need to declare a local state of emergency and declare if needed.
- ☐ Report to the EOC if activated.

EOC Activation

- ☐ Report to the EOC.
- ☐ Work with EMD to establish priorities and objectives for EOC operations.
- ☐ Keep a log of all decisions made and actions taken.
- ☐ Assign Public Information Officer.
- ☐ Issue initial public information statements, if necessary.
- ☐ Authorize activation of community notification system(s).
- ☐ Identify someone to manage expenditures/finance, if needed.
- ☐ Review the community Continuity of Operations Plan for line of succession guidance.

EOC Operations

- ☐ Log all actions taken.
- ☐ Discuss anticipated resource needs with EMD.
- ☐ Authorize activation of shelters, if needed.
- ☐ Authorize evacuation/shelter-in-place, if needed.
- ☐ Coordinate with elected officials at state and federal level.
- ☐ Prepare and coordinate public information releases.

- [ ] Discuss with EMD relocation of EOC, if necessary.

EOC Demobilization

- [ ] Authorize re-entry of evacuees.
- [ ] For evacuees who cannot return home arrange temporary housing in coordination with partner agencies.
- [ ] Coordinate with volunteer agencies involved in disaster relief operations.
- [ ] Apply for state and federal disaster relief funds, if appropriate.
- [ ] Address public health and sanitation issues.
- [ ] Establish disaster recovery centers, if needed.
- [ ] Address legal and insurance matters.
- [ ] Be prepared to provide input to After-Action Report.
- [ ] Close logs of all actions taken and submit paperwork to the EMD.

Emergency Management Director SOG

The Emergency Management Director (EMD) advises the Chief Elected Official on courses of action available for decision making during the emergency. The EMD acts as the Emergency Operations Center (EOC) manager while the EOC is activated. The EMD will periodically brief participating officials on their emergency management roles.

Initial Actions

- ☐ Receive notification of incident.
- ☐ Review emergency management plan with Chief Elected Official.
- ☐ With the Chief Elected Official determine the need to declare a local state of emergency.
- ☐ Assess the situation and make appropriate notifications to activate and staff EOC.
- ☐ Establish a communications link with response entities, mutual aid partners and MEMA Regional Office.

EOC Activation

- ☐ Activate the EOC.
- ☐ Keep a log of all decisions made and actions taken.
- ☐ Establish communication with MEMA Regional office.
- ☐ Brief EOC staff on status of emergency.
- ☐ Prepare for 24-hour operations if necessary to include staffing, food/water, and facility operation.
- ☐ Determine readiness of communications and back-up communication systems.
    - ___Telephone and radio networks, including cell phones
    - ___Fire and Police radios
    - ___800 MHz systems
    - ___Phone systems of state agencies
    - ___Community notification system
- ☐ Coordinate need for EOC security with Police Department.

EOC Operations

- ☐ Prepare an Incident Action Plan in conjunction with Incident Commander for all active resources.
- ☐ Maintain situational awareness to determine impacts.
- ☐ Implement shelter plan in coordination with partner agencies, if needed.
- ☐ Manage requests from incident scene.
- ☐ Work with Department liaisons assigned to EOC to ensure all essential emergency services are activated.
- ☐ Validate status of critical resources to support operations.
- ☐ Periodically solicit reports from EOC staff to maintain Community Status Report.

- ☐ Continue to monitor NWS alert system in coordination with MEMA.
- ☐ Review mutual aid agreements.
- ☐ Submit resource request(s) for any unmet needs to the MEMA regional office.

EOC Demobilization

- ☐ Coordinate with local, state, and federal agencies in damage assessment and cost of recovery activities.
- ☐ Inform the public of disaster recovery activities via community notification system.
- ☐ Continue to assist in the restoration of normal services and operations.
- ☐ Close shelters and coordinate re-entry of evacuees with partner agencies.
- ☐ Work with Department liaisons assigned to EOC to ensure all essential emergency services are working towards demobilization/recovery activities.
- ☐ Periodically receive reports from EOC staff regarding situation recovery status.
- ☐ Maintain records of personnel, equipment, and supplies use for possible reimbursement.
- ☐ Conduct critical incident stress management activities.
- ☐ Establish disaster recovery centers for victims in conjunction with MEMA/FEMA, if asked.
- ☐ Coordinate application for state and federal disaster relief funds with CEO, if appropriate.
- ☐ Lift local state of emergency, if declared.
- ☐ Initiate deactivation of EOC and notify Chief Elected Official and departments heads.
- ☐ Close logs of all actions taken.
- ☐ Contact MEMA regional office to notify of EOC deactivation.
- ☐ Debrief response personnel; prepare incident report, and update plan based on lessons learned.
- ☐ Conduct an after-action meeting to evaluate the overall effectiveness of the community's response and recovery actions.

Fire Department Representative SOG

The role of the Fire Department in emergency/disaster situations is primarily fire-related incident control and management of any hazardous materials, including radiological. They also may lead search and rescue operations. During emergency response activities, if Fire Department resources become exhausted, additional support will be obtained through local mutual aid and then state agencies. The Fire Chief or their designee is responsible for coordinating all Fire Department operations.

Initial Actions

- ☐ Receive notification of emergency.

- ☐ Review emergency management plan and SOG checklist.
- ☐ Keep detailed logs of all actions taken by Fire Department during the incident.
- ☐ Maintain situational awareness and how it may pertain to Fire Department operations.
- ☐ Activate staff for Fire Department operations and EOC operations.
- ☐ Determine the status of medical treatment site(s) to be used as triage areas or mass decontamination sites.
- ☐ Determine availability of EMS personnel, supplies, and equipment and if more is needed, request mutual aid support.
- ☐ Determine availability of search and rescue personnel, supplies and equipment and if more is needed, request mutual aid support.

EOC Operations

- ☐ Obtain regular status reports on the fire situation from Incident Command.
  Coordinate dispatch of EMS teams to the scene(s) as required.
- ☐ Coordinate dispatch of search and rescue teams to scene(s) as required.
- ☐ Coordinate evacuation for affected residents.
- ☐ Coordinate decontamination capabilities within the Fire Department and if insufficient notify EMD.
- ☐ Arrange for a representative of the Fire Department to team with Police and Department of Public Works representatives to identify and restrict access to all structurally unsafe buildings.
- ☐ If mass casualties have occurred work with EMD to contact mutual aid partners and establish triage site.
- ☐ Coordinate the set-up of the decontamination area for emergency responders and those affected, if needed.
- ☐ Coordinate emergency power and lighting at the incident site upon request.
- ☐ Coordinate the identification of the condition of hazardous materials where they are stored or used.
- ☐ Coordinate with hazardous materials response teams as required.
- ☐ Identify resource shortfalls and coordinate additional contractor resources to assist in hazardous materials response, informing EMD of availability.
- ☐ Coordinate with Fire Department staff to determine if all critical equipment is operational.
- ☐ Coordinate door-to-door warnings with the Police Department, if necessary.
- ☐ Route resource requests for unmet needs to the EMD.
- ☐ Periodically update EMD on incident status.

EOC Demobilization

- ☐ Support damage assessment activities, as needed.

- [ ] Coordinate clean-up as required.
- [ ] Coordinate the return of all equipment to quarters or mutual aid partners.
- [ ] Coordinate the decontamination of firefighters, gear, and equipment, as needed.
- [ ] Coordinate inventorying of equipment and assess any operational issues experienced during the incident.
- [ ] Coordinate the release of mutual aid companies.
- [ ] Be prepared to provide input to After-Action Report.
- [ ] Close logs of all actions taken and submit paperwork to the EMD.

Police Department Representative SOG

The Police Department's role in an emergency will be an expansion of its normal daily routine. The Police Chief is responsible for coordinating law enforcement emergency activities. If, during emergency operations, local law enforcement capabilities are exceeded, support will be available through existing mutual aid agreements and from state and federal law enforcement agencies. The Police Chief or their designee will integrate and manage outside law enforcement agencies which are brought in for assistance.

The Police Department is generally responsible for all traffic control and security services. In addition, during a large-scale incident, they may be asked to perform additional activities depending on the incident. If the EOC becomes activated, the Police Department will place a representative in the EOC to help coordinate activities with other community resources.

Initial Actions

- ☐ Receive notification of emergency.
- ☐ Review emergency management plan and SOG checklist.
- ☐ Keep detailed logs of actions taken by Police Department during the incident.
- ☐ Maintain situational awareness and how it may pertain to Police Department operations.
- ☐ Activate staff for Police Department operations and EOC operations.

EOC Operations

- ☐ Coordinate availability of emergency response equipment and place on standby.
- ☐ Coordinate the verification of communications capability within the affected area.
- ☐ Assign a liaison to Incident Command in the operational area.
- ☐ Coordinate the request of mutual aid from State Police as required.
- ☐ Establish security for EOC and other critical facilities and essential supplies, if requested.
- ☐ Establish security for damaged public buildings, if needed.
- ☐ Coordinate confinement and access control areas for security purposes.
- ☐ Coordinate dedicated access routes to these areas for Incident Response personnel.
- ☐ Coordinate the investigation of the cause of the incident, as appropriate.
- ☐ Coordinate the securing of the scene, rerouting of traffic, and implementing crowd control measures.
- ☐ Organize the evacuation of the public and of special facilities, if required.
- ☐ Coordinate road closures.
- ☐ Coordinate providing back-up communication, if needed.
- ☐ Periodically update EMD on emergency response status.
- ☐ Coordinate door-to-door warnings with Fire Department.
- ☐ Route resource requests for unmet needs to the EMD.

EOC Demobilization

- ☐ Support damage assessment activities, as needed.
- ☐ Coordinate with state and federal authorities to investigate the incident, if needed.
- ☐ Coordinate restricted access to suspected unsafe structures pending evaluation by Building Inspector.
- ☐ Coordinate reentry of evacuees.
- ☐ Coordinate the return of all equipment to station or mutual aid partners.
- ☐ Coordinate inventorying of equipment and assess any operational issues experienced during the incident.
- ☐ Coordinate the release of mutual aid units.
- ☐ Be prepared to provide input to After-Action Report.
- ☐ Close logs of all actions taken and submit paperwork to the EMD.

Department of Public Works (DPW) Representative SOG

In emergency situations the Department of Public Works is responsible for deploying available equipment and manpower. If local resources are exhausted, assistance may be requested from mutual aid partners or MEMA. The Department of Public Works is responsible for ensuring the community's roads and bridges are in passable condition. During a large-scale incident they may be asked to perform additional activities depending on the incident. If the EMD activates the EOC the Department of Public Works will place a representative in the EOC to help coordinate activities. This SOG can be shared with park, water, sewer or other department representatives as needed.

Initial Actions

- ☐ Receive notification of emergency.
- ☐ Review emergency management plan and checklist.
- ☐ Keep detailed logs of actions taken by the Department of Public Works during the incident.
- ☐ Maintain situational awareness and how it may pertain to the Department of Public Works operations.
- ☐ Activate staff for DPW Department operations and EOC operations.

EOC Operations

- ☐ Coordinate availability of emergency response equipment and place on standby.
- ☐ Coordinate the verification of communications capability within the affected area.
- ☐ Assign a liaison to Incident Command in the operational area.
- ☐ Coordinate the request of mutual aid from mutual aid partners and contractors as required.
- ☐ Coordinate providing essential supplies to the operational area, if requested.
- ☐ Ensure dedicated access routes to operational areas are open for Incident Response personnel.
- ☐ Coordinate assisting the Police Department with traffic control, if necessary.
- ☐ Coordinate assisting with evacuation of public and special facilities, if required.
- ☐ Coordinate road closures, if necessary.
- ☐ Periodically update EMD on emergency response status.
- ☐ Coordinate door-to-door warnings with other departments, if necessary.
- ☐ Coordinate the rectification of immediate life-threatening hazards.
- ☐ Coordinate with EMD for site decontamination assistance from regional Hazmat Team.
- ☐ Coordinate identification of and restrict access to structurally unsafe buildings with Police Department.
- ☐ Coordinate the remediation and clean-up of any hazardous materials that may have entered well water or drainage systems.
- ☐ Coordinate the clearance and removal of debris and/or snow as directed.
- ☐ Support Fire Department in search and rescue operations.
- ☐ Monitor municipal dams during emergency event.

- ☐ Provide barricades and temporary fencing as requested.
- ☐ Coordinate emergency repairs to streets and bridges as necessary to support emergency operations.
- ☐ Coordinate with representative from the Fire Department to conduct preliminary assessment of damage to structures and utilities.
- ☐ Provide other public works and engineering support for emergency operations as necessary.
- ☐ Route resource requests for unmet needs to the EMD.

EOC Demobilization

- ☐ Support damage assessment activities, as needed.
- ☐ Coordinate demolition of unsafe structures.
- ☐ Assist Public Health Services with emergency waste disposal and sanitation, as necessary.
- ☐ Assist other agencies with recovery operations.
- ☐ Coordinate with utilities to restore services.
- ☐ Coordinate the return of all equipment to garage or mutual aid partners.
- ☐ Coordinate inventorying of equipment and assess any operational issues experienced during the incident.
- ☐ Coordinate the release of mutual aid units.
- ☐ Be prepared to provide input to After-Action Report.
- ☐ Close logs of all actions taken and submit paperwork to the EMD.

Public Information Officer SOG

The Public Information Officer is responsible for managing Emergency Public Information activities within the EOC and in support of all community public information operations. They are responsible for monitoring media reports, rumor control, arranging for media interviews and developing media releases.

Initial Actions

- ☐ Receive notification of emergency.
- ☐ Review emergency management plan and checklist.
- ☐ Keep detailed logs of actions taken by Public Information Officer during the incident.
- ☐ Determine if immediate emergency alert and warnings need to be issued to the public.
- ☐ Determine the need for immediate public information release.
- ☐ Determine points of contact for media.
- ☐ Staff the EOC.

EOC Operations

- ☐ Obtain policy guidance about media releases.
- ☐ Establish contact with local and national media representatives, as appropriate.
- ☐ Keep EMD advised of all unusual requests for information and all major critical or unfavorable media comments.
- ☐ Recommend procedures or measures to improve media relations.
- ☐ Discuss public information issues and decide whether a Joint Information Center (JIC) is required.
- ☐ Identify the methods for obtaining and verifying significant information as it is developed.
- ☐ Develop and publish a media briefing schedule to include, location, format, and preparation and distribution of handout materials.
- ☐ Implement and maintain an overall information release program.
- ☐ Develop content for emergency alert and warnings.
- ☐ Interact with PIOs from other jurisdictions, agencies or the state to obtain information relevant to public information operations.
- ☐ Issue timely and consistent advisories and instructions for the public. These must be approved by the EMD.
- ☐ Prepare media briefings for agency representatives and provide assistance as necessary to facilitate their participation in media briefings and press conferences.
- ☐ Establish a rumor control system to correct false or erroneous information.
- ☐ Update community website with current new releases, as appropriate.
- ☐ Ensure that emergency information materials are translated and prepared for Access and Functional Needs populations (non-English speaking, hearing impaired, etc.).

- ☐ Monitor broadcast media, using information to develop follow-up news releases and rumor control.
- ☐ Record all interviews and copy all news releases.
- ☐ Provide copies of all media releases to the EMD.
- ☐ Periodically update EMD on emergency response status.
- ☐ Route resource requests for unmet needs to the EMD.

EOC Demobilization

- ☐ Prepare final news releases and advise media representatives of points-of-contact for follow-up stories.
- ☐ Be prepared to provide input to After-Action Report.
- ☐ Coordinate inventorying of equipment and assess any operational issues experienced during the incident.
- ☐ Close logs of all actions taken and submit paperwork to the EMD.

Public Health Representative SOG

The Public Health representative is responsible for coordinating the needs of mass care activities during the emergency. This can include but is not limited to providing care and shelter for evacuated or displaced personnel, and for ensuring public physical and mental health.

Initial Actions

- ☐ Receive notification of emergency.
- ☐ Review emergency management plan and checklist.
- ☐ Keep detailed logs of actions taken during the incident.
- ☐ Report to the EOC.

EOC Operations

- ☐ Monitor status of and impacts to public health and healthcare facilities.
- ☐ Issue health advisories as needed.
- ☐ Determine status of water and sanitation systems.
- ☐ If systems are damaged, assess drinking water quality and potential health risks from ruptured sewer/sanitation systems.
- ☐ Obtain portable toilets and other temporary facilities for the disposal of human waste and other infected waste as needed.
- ☐ Inspect emergency supplies to be used by responders, such as food, drugs or other consumables for purity and utility.
- ☐ Ensure coordination of all mass care and shelter activities.
- ☐ Ensure animal care and sheltering activities are in effect during the emergency.
- ☐ Determine the need for disease vector control and coordinate for disease vector control services as required.
- ☐ Refer all media inquiries to the Public Information Officer.
- ☐ Coordinate safe waste disposal.
- ☐ Coordinate food and water inspection and associated laboratory testing.
- ☐ Coordinate necessary mortuary services with the Chief Medical Examiner, including operation of temporary morgues and identification and registration of victims.
- ☐ Assist in the determination and elimination of health hazards in the disaster area.
- ☐ Upon authorization from MA Dept. of Public Health, implement isolation and quarantine measures as needed.
- ☐ Coordinate provision of mental health services to the general public.
- ☐ Coordinate the activation and operation of Emergency Dispensing Sites.
- ☐ Coordinate the monitoring of food safety and general sanitation at mass care shelter facilities.

- ☐ Order testing of diseased animals.
- ☐ Distribute medications and other medical supplies to shelters or treatment areas as needed.
- ☐ Notify Health and Medical Coordinating Coalition (HMCC) of emergency conditions.
- ☐ Coordinate with PIO to advise the public on health hazards related to medical waste and other biohazards, hazardous materials and radiological materials during an emergency.
- ☐ Liaise with state and federal health and environmental agencies.
- ☐ Coordinate with EMD to facilitate the transportation of individuals with access and functional needs.
- ☐ Periodically update EMD on emergency response status.
- ☐ Route resource requests for unmet needs to the EMD.

EOC Demobilization

- ☐ Coordinate with EMD to conduct damage assessments as needed.
- ☐ Coordinate with debris removal agencies regarding any debris that may pose a public health hazard.
- ☐ Be prepared to provide input to After-Action Report.
- ☐ Coordinate inventorying of equipment and assess any operational issues experienced during the incident.
- ☐ Close logs of all actions taken and submit paperwork to the EMD.

Local Shelter Management Planning and Response Checklist

Overview

This checklist serves as a starting point for developing a Local Shelter Management Response Plan. It also includes response procedures that can be used in the event of opening a mass care shelter. Additionally, the Western Regional Homeland Security Council and the Massachusetts Emergency Management Agency (MEMA) possess extensive shelter toolkits on their websites that can be used to expand the knowledge needed to open and maintain shelter operations. (https://www.mass.gov/doc/massachusetts-statewide-mass-care-and-shelter-coordination-plan-local-shelter-toolkit/download and https://wrhsac.org/projects-and-initiatives/shelter-evacuation).

Sheltering in Massachusetts starts at the local level and is driven by local needs. Local emergency managers need to provide a range of mass care and shelter services to residents depending on the needs of the community and the type of hazard or threat. Shelter activation considerations include:

- Type of event
- Range of impact
- Number of people impacted
- Likely duration of event
- Coordination with surrounding jurisdictions
- Available shelter locations, resources, equipment, and personnel

Shelter facilities may be activated at the direction of the Emergency Management Director (EMD) or Emergency Operations Center (EOC) Manager in conjunction with the Chief Municipal Official. The EMD will assess the situation in anticipation of/or in response to an event. Upon recognition of the type of event and the expected or actual impact, the EMD will determine the type of shelter that is required to adequately respond to anticipated or actual shelter needs and services. These can be:

- A Personal Comfort Site (cooling center, warming center, etc.)
- Local Overnight Shelter
- Local Regional Shelter (in conjunction with EMDs from neighboring communities)

This checklist should be included as an annex in the local Comprehensive Emergency Management Plan (CEMP).

Shelter Management Planning Checklist

Local Government Roles and Responsibilities

- ☐ Identify the mass care and shelter needs of the community, including the access and functional needs (AFN) of residents. Consider using the American Community Survey map on MEMA's Geospatial Resource Center website. https://memamaps.maps.arcgis.com/home/index.html
- ☐ Develop plans and procedures to provide mass care and shelter services to the community.
- ☐ Coordinate, collaborate, train and exercise with mass care and shelter partners.
- ☐ Identify and conduct assessments/walkthroughs of facilities that can be used as mass care and shelter locations.
- ☐ Establish agreements with facility owners and operators.
- ☐ When an incident occurs or is expected to impact the community, assess the numbers of individuals who may require mass care and shelter services.
- ☐ Activate mass care and shelter services when needed in accordance with approved plans and procedures.
- ☐ Provide situational updates to the MEMA Regional office about:
  - The number of mass care and shelter facilities open
  - Location of facilities
  - Number of shelter residents
  - Types of services being offered
  - Types of services needed
  - Projections on future resident numbers and needs
- ☐ Request mass care and shelter resources via the MEMA Regional office in accordance with local CEMP plan when local resources and mutual aid are exhausted.

General Shelter Management Planning

- ☐ Develop the Shelter Management Plan's purpose and objectives.
- ☐ Establish a shelter management team, including a shelter manager. To include:
  - Shelter Manager
  - Access and Functional Needs Coordinator
  - Staffing Coordinator
  - Pet Shelter Coordinator
  - Fiscal Coordinator
  - Transportation Coordinator
  - Facilities Coordinator
  - EOC Liaison
  - Public Information Officer (PIO)

- ☐ Identify shelter staff positions. To include:
  - Security Staff
  - Registration Staff
  - Client Caseworkers
  - Disaster Mental Health staff
  - Disaster Health Services staff
  - AFN Supervisor
  - Animal Services support staff
  - Information Management staff
  - Dormitory Management staff
  - Feeding staff
  - Communications staff
  - Transportation staff
  - Fiscal support staff
  - Child management staff

- ☐ Establish a Shelter Management organizational chart. https://www.mass.gov/doc/massachusetts-statewide-mass-care-and-shelter-coordination-plan-local-shelter-toolkit/download

- ☐ Determine triggering conditions to activate local shelter.

- ☐ Determine type of shelter facility to activate based on event.

- ☐ Identify shelter facilities and conduct a shelter facility assessment for each one. Shelter facility assessment forms can be found in shelter toolkit. https://www.mass.gov/doc/massachusetts-statewide-mass-care-and-shelter-coordination-plan-local-shelter-toolkit/download

- ☐ Identify equipment and other resources that could be shared among neighboring communities and develop mutual aid agreements with other communities.

- ☐ Address shelter management in local CEMP.

- ☐ Develop, adopt, and maintain a Shelter Management Plan to include a plan for sheltering pets.

- ☐ Train and exercise staff and other stakeholders in the Shelter Management Plan.

- ☐ Review and revise plan as needed.

Contracting

- ☐ Describe what types of shelter support resources will be contracted.

- ☐ Describe the process and procedure for acquiring competitively procured contract services.

- ☐ Identify at least one or more shelter support resource contractors that can conduct disaster shelter operations/support work. https://www.mass.gov/doc/prf71/download

Public Information and Outreach

- ☐ Develop a public information strategy to ensure that the public and media receive accurate and timely information about shelter operations.

- ☐ Ensure that shelter information materials are translated and prepared for Access and Functional Needs populations (non-English speaking, hearing impaired, etc.).

- ☐ Identify and outline public information channels that can be used:
  - Press releases
  - Press conferences
  - Website updates
  - Print, radio, and televised announcements
  - Social media updates
  - Local or regional public information systems such as Reverse 911 systems and web/application-based notification systems
  - Mass211

- ☐ Develop pre-scripted messages for the press.

- ☐ Provide shelter information and material for the public.

Funding and reimbursement

- ☐ Outline funding mechanisms for shelter operations and include in the Shelter Management Plan.

- ☐ Collect all shelter data, complete required forms and apply for reimbursement through FEMA Public Assistance Portal, if applicable.

Shelter Response Checklist

Preparedness

- ☐ Develop shelter operations policies, procedures, and job sheets.
- ☐ Develop Shelter Management Plan.
- ☐ Establish Memoranda of Understanding (MOUs)/Memoranda of Agreement (MOAs).
- ☐ Develop training aids.

Initial Response Actions

- ☐ Conduct initial assessment of event
  - Assess and verify scope of the event
  - Notify Shelter Management Team
  - Determine what kind of shelter is needed
  - Assess impacted population and their health needs
  - Identify any AFN needs in impacted population
- ☐ Activate EOC, if necessary.
- ☐ Establish Command and Control.
- ☐ Contact relevant response partners.
  - Board of Health/Public Health (DPH)
  - Chief Elected Official
  - Municipal Department Heads
  - Schools
  - Mutual Aid Partners
  - MEMA Regional Office
  - Department of Environment Protection (DEP)
- ☐ Conduct shelter walk-through/assessment.
- ☐ Initiate public information outreach.
  - Work with Incident Command and PIO to develop initial public messages
  - Work with PIO to establish situational awareness with neighboring communities
- ☐ Establish a media staging and briefing area away from shelter facility for press briefings.
- ☐ Review financial procedures and protocols. Start documentation of all shelter operations costs.
- ☐ Review shelter policies and procedures.
- ☐ Establish volunteer management system.

- ☐ Determine shelter logistical needs and resources.
  - General shelter supplies
  - Medical supplies
  - Access and Functional needs supplies
  - Staffing needs/credentialing requirements

- ☐ Conduct a resource gap analysis to identify shortfalls in personnel and/or equipment and request additional mass care/emergency resources or support as needed to operate effectively.

Shelter Activation

- ☐ Notify shelter agencies/shelter management team to activate identified local shelter.

- ☐ Notify shelter staff of shelter activation.

- ☐ Mobilize staff and equipment.

- ☐ Post relevant signage directing evacuees to identified shelter areas.

- ☐ Support transportation to local shelter, if needed:
  - Identify pickup points
  - Provide local transport
  - Establish restrictions on transport
  - Establish medical transport policies (para-transit and emergency)
  - Notify and activate transportation resources
  - Arrange for transportation for transportation-assisted shelter residents
  - Coordinate with law enforcement concerning any road closures and traffic issues

- ☐ Notify public of local shelter activation.
  - Location of shelter
  - Time when shelter will be available to the public
  - Transportation services available to assist public to the shelter
  - Services available at the shelter

Mass Care and Shelter Operations

- ☐ Post Shelter Staffing Chart and Shelter Operating Policies.

- ☐ Post Shelter Emergency Evacuation Plan.

- ☐ Identify shelter areas:
  - Manager/Security/Communications
  - Registration/Case Management
  - Logistics and Supplies/Donations Management
  - Food Prep/Service
  - Dormitory

- Childcare Assistance/Recreational
- Medical Care/Quiet Area
- Staff/Break
- Service Animal Care
- Isolation and Quarantine

☐ Initiate shelter registration:
- Set up and implement shelter registration and intake area
- Receive and process shelter residents at the shelter location
- Triage any medical, functional support, animal/pet, and/or other identified needs
- Identify any law enforcement service needs
- Ensure that shelter residents are kept informed about the current emergency and the services available at the shelter location by providing them with access to media and public information.

☐ Assess and support Access and Functional Needs support services.
- Durable medical equipment
- Translation assistance
- Support care
- Service animal support
- Accessible transportation services

☐ Facilitate shelter resident reunification.

☐ Provide dormitory housing services.

☐ Provide food and beverage services.

☐ Provide social and community program services.
- Community information such as laundry facilities, pharmacies, schools, social services, banking, support groups, etc.
- Direct shelter residents to agencies for replacement of pre-existing benefits and services (Social Security, food stamps, driver's licenses, etc.)

☐ Provide health and medical support services.

☐ Provide crisis counseling and referral services.

☐ Provide pet shelter support services.

☐ Provide safety and security services.

☐ Provide transportation support services.

☐ Provide public information, including situational updates to affected populations.

☐ Conduct Environmental Health and Safety monitoring.
- Monitor facility safety (exits/entrances, parking lots, security, etc.)
- Monitor staff and client health
- Conduct disease surveillance

- ☐ Manage, request, and acquire shelter resources.
- ☐ Develop demobilization plan for shelter.

Demobilization

- ☐ Determine trigger point to initiate shelter demobilization.
- ☐ Notify partner agencies of demobilization plan.
- ☐ Inform shelter residents of plan to demobilize shelter.
  - Time deactivation will begin and conclude
  - Which services will continue beyond demobilization
  - Help with transitional assistance
- ☐ Direct shelter staff to begin demobilization process.
- ☐ Identify long-term shelter facilities.
- ☐ Clean and restore shelter facility to normal operations.
- ☐ Collect all shelter data, complete required forms, and apply for reimbursement through FEMA Public Assistance Portal, if applicable.
- ☐ Conduct After-Action Review (AAR) meeting to develop After-Action Report and Improvement Plan.
- ☐ Update plans, policies, and procedures based on lessons learned/best practices and AARs.

Shelter Layout Recommendations

- ☐ In allocating space, consider the following needs:
  - Reception and registration
  - Emergency medical care
  - Sleeping
  - Counseling/interviewing space
  - Feeding
  - Shelter Manager's office
  - Storage for food and supplies
  - Childcare
  - Pet shelter
  - Storage for personal belongings
  - Rest room for staff (in larger shelters)
  - Recreation

- ☐ Coordinate with relevant response partners to make sure sanitary and building code regulations are followed.

- ☐ Shelter residents should first proceed to the registration desk before going to dormitory area.

- ☐ Set up a bulletin board near the registration table for messages received for shelter residents, shelter rules and relief information.

- ☐ Set up dormitory area so each person (cot) has 40 square feet of space (5'x8'). Space cots to allow access for people with mobility needs.

- ☐ Ensure clear paths to all fire exits.

- ☐ Provide adequate space for the shelter manager and shelter staff to function 24 hours per day. Include space for staff meetings, administrative functions, communications, and volunteer coordination.

- ☐ Organize space to provide for adequate ventilation

- ☐ Locate health and medical services in a well-lighted room or area that is away from public view. Keep medications and medical equipment in a lockable storage cabinet.

- ☐ Create an additional quiet area for counseling services.

- ☐ Ensure food storage areas are secure and accessible by truck.

- ☐ Ensure that garbage is stored away from food storage and occupied shelter areas.

- ☐ Designate an outdoor smoking area away from air intake vents and flammable materials. If using a public-school site, state law states that there be no smoking on school grounds.

- ☐ Create an area outside for the handling of pets.

- Ensure that the shelter address is clearly visible from the street; post a sign that clearly marks the building as a shelter.

Overview

This checklist is designed to be used to start the process for developing a local Disaster Debris Management Plan. The Western Regional Homeland Security Advisory Council (WRHSAC) maintains a Disaster Debris Management Plan template on their website which can be used to complete the plan.

https://wrhsac.org/projects-and-initiatives/disaster-debris-management/. This checklist also contains response procedures that can be used during an emergency or disaster that generates debris.

Key steps in the municipal planning process for developing a local Disaster Debris Management Plan are listed below:

1. Form a local planning group to develop a Disaster Debris Management Plan. The planning group should compose of local agency representatives and elected officials (especially those with operational roles and responsibilities under the Plan). The planning group should consider the following:
2. Assess the hazards that could generate disaster debris, focusing on local business/industry base, land use, size of the region, topography, economics, etc.
3. Develop estimates of the types and quantities of debris to be managed.
4. Assess possible/available debris management sites (DMS) for each type of debris.
5. Submit site assessments and plans for each identified DMS to the Massachusetts Department of Environmental Protection (MassDEP) Regional Office's Solid Waste Management Section Chief for pre-certification.
6. Hold focused planning meetings, to draft the Disaster Debris Management Plan.
7. Submit a copy of the final draft Disaster Debris Management Plan to the jurisdiction's Chief Elected Official for review/approval.
8. Adopt the final/approved Plan, as an annex to the jurisdiction's CEMP, and socialize it/make it accessible to key local and regional agencies for formal endorsement.

This checklist should be included as an annex in the local Debris Management Plan. In addition, the Plan should be consistent with the State Disaster Debris Management Plan https://www.mass.gov/service-details/debris-management-plan.

Planning Checklist

Local Government Roles and Responsibilities

- ☐ Establish a debris management planning group including a group leader. To include:
  - Chief Elected Official (CEO)
  - Emergency Management Director (EMD)
  - Fire Chief
  - Police Chief
  - Department of Public Works Director (DPW)
  - Board of Health
  - Building Inspector
  - Conservation Commission
- ☐ Create a planning group point of contact list and share with planning group members.
- ☐ As a planning group, determine the purpose and objectives of the Debris Management Plan.

General Debris Management Planning

- ☐ Coordinate with MassDEP and the Massachusetts Emergency Management Agency's (MEMA) Regional office on the development of the local Debris Management Plan.
- ☐ Identify all debris operations that will trigger compliance with environmental and historic preservation laws and how compliance will be obtained.
- ☐ Identify local ordinances that may apply to debris management activities.
- ☐ Conduct a debris collection and management site hazard analysis (See Disaster Debris Management Site Selection Worksheet.)
- ☐ Develop a site map with property lines for all debris management sites.
- ☐ Identify equipment and other resources that could be shared among neighboring municipalities and develop mutual aid agreements with other communities.
- ☐ Address debris management in the local CEMP.
- ☐ Develop, adopt, and maintain a Debris Management Plan.
- ☐ Include a schedule to train and exercise staff and others in the Maintenance section of the Debris Management Plan. Review and revise the plan as needed.

Debris Quantities and Types

Forecast the type and quantity of debris to better determine the required response and recovery resources, number and size of storage and reduction sites and the final disposition of the disaster-related debris. The US Army Corps of Engineers has developed a debris estimation model. The Army Corps model can be found at: www.usace.army.mil/missions/emergencyoperations/disasterimpactmodels.aspx

- ☐ Consider the different types of debris:
  - Clean vegetative debris
  - Soils and sediments
  - Stumps
  - Leaning trees/hanging limbs
  - Building and construction material (non-asbestos)
  - Asbestos containing materials
  - Mixed vegetative and building debris
  - Vehicles/vessels
  - White goods/electronics
  - Household bulk waste
  - Infectious/medical waste
  - Animal carcasses
  - Hazardous household and commercial products
  - Commercial hazardous waste

Debris Clearance and Collection Plan

- ☐ Include priorities for the clearance of debris and outline a response operation, including mapping critical facilities and the anticipated concentration of debris.

- ☐ Include priorities for collection of debris including collection options:
  - Curbside collection through existing solid waste and recycling contractors
  - Additional clearance and collection routes for certain types of debris (appliances, electronic, vehicles, etc.)
  - Collecting materials at existing or temporary additional drop-of centers
  - Residents self-hauling material directly to debris management sites

- Relying on the state disaster debris management contract

☐ Identify contracting needs/operations to be outsourced.

☐ Identify a process for the collection of any materials that require separation (hazardous waste, infectious waste, vehicles, etc.).

☐ Develop methods for monitoring debris removal contractors at pickup sites.

☐ Develop monitoring report procedures using FEMA's Public Assistance: Debris Management Guide. https://www.fema.gov/sites/default/files/2020-07/fema_325_public-assistance-debris-mgmt-plan_Guide_6-1-2007.pdf

Debris Destinations and Debris Management Sites

☐ Include an estimate of the number of acres of DMS needed to handle the given quantities of debris.

☐ Include priorities for clearance, collection, and disposal of debris.

☐ Design the necessary environmental controls for hazardous waste collection centers, such as liners and berms.

☐ Identify a Point of Contact (POC) for each identified Debris Management Site.

☐ List selected DMS that meet the preferred selection criteria set by MassDEP. If it is not possible to meet all the criteria, sites that meet the criteria as closely as possible should be selected. Refer to the State Debris Management Plan for additional guidance. https://www.mass.gov/doc/state-debris-management-plan-appendices/download

☐ Address notification and pre-certification by MassDEP Solid Waste Division of the proposed DMS locations.

☐ Address local, state, and federal DMS environmental requirements.

☐ List DMS in local CEMP (See Disaster Debris Site Selection Worksheet.)

Contracting

☐ Describe the types of debris operations that will be contracted.

☐ Describe the process and procedure for acquiring competitively procured contract services.

☐ Identify at least one or more debris contractors that have been prequalified to conduct disaster debris management work. https://www.commbuys.com/bso/

Public Information and Outreach

- ☐ Develop a public information strategy to ensure that the public and media receive accurate and timely information about debris operations.

- ☐ Identify and outline alternative public information channels that can be used:
    - Press releases
    - Press conferences
    - Website updates
    - Print, radio, or televised announcements
    - Social media updates
    - Local or regional public information systems such as Reverse 911 systems and web/application-based notification systems

- ☐ Develop pre-scripted/pre-approved messages for the purposes of public information/press releases. These messages can be used to inform the press and public on response activities, actions to take etc. In addition, provide debris management information and materials for the public (i.e., fliers, a link to the local plan on the community's website).

Funding and Reimbursement

- ☐ Outline funding mechanisms for debris management and include in the Debris Management Plan.

- ☐ Maintain all records for reimbursement.

Response Checklist

Response

Initial Response Actions (Ongoing until event is no longer likely to occur)

- ☐ Assess the situation.
- ☐ Activate the Emergency Operations Center (EOC) to support Debris Management Operations; notify MEMA Regional Office.
- ☐ Consider the following representatives to support the EOC:
    - Emergency Management Director (EMD)
    - Chief Elected Official (CEO)/Town Administrator
    - Department of Public Works (DPW)
    - Police
    - Fire/Emergency Medical Services (EMS)
    - Public Information Officer (PIO)
    - Finance
    - Board of Health
    - Historical Commission
    - Conservation/Environmental Commission
    - Building Inspector
- ☐ In coordination with local stakeholders, assess the need to activate a DMS(s).
- ☐ Notify DMS Point of Contact (POC) that activation is likely.
- ☐ **If this is an active emergency with no approved/proposed DM site-begin the identification process immediately:**
    - Site accessibility: easily accessible with controlled ingress/egress; electricity, water, no overhead power lines, cell service, away from wetlands/watersheds/residences/historic areas/Areas of Environmental Concern[1] available immediately (preferably municipally owned)
    - Site size: large enough to separate/manage most debris (vegetative, recycling, composting, white goods, building materials, hazardous materials).

[1] Areas of Environmental Concern highlight areas where special management attention is needed to protect important historical, cultural, and scenic values, or fish and wildlife or other natural resources.

- Site analysis: conduct site hazard analysis
- Site permits: Call MassDEP/MEMA/Board of Health to obtain emergency permission/permits to operate; must declare Local State of Emergency.

☐ Issue Public Information messages about the emergency or disaster as it relates to:
- Debris management
- Debris collection sites/strategies

☐ Notify MEMA PIO, Mass 2-1-1 and other information outlets.

☐ Monitor media for rumors.

☐ Begin tracking time and resources of municipal staff, contractors, mutual aid partners, volunteers, and donations.

☐ Estimate likely damage and develop potential debris collection strategies. Take photos/collect GPS data.

Ongoing Response Actions (First 70 working hours[2] following the disaster)

☐ Declare a Local State of Emergency.

☐ Complete Incident Command organizational chart with names and contact numbers.

☐ Continue to collect data on resources and time used for operations.

☐ Conduct Damage Assessments, estimate amounts, take photos/collect GPS data.

☐ Prioritize critical route clearance using "cut and clear" method.

☐ As needed, continue to issue press releases and messages to the public regarding debris management activities.

☐ Prioritize access to critical infrastructure and clean up needs.

☐ Identify additional resources needed. Contact MEMA Regional office for guidance and assistance.

☐ Maintain health, environmental and safety standards at DMS site.

☐ Notify/activate current waste contractors or select new contractors (must follow State/local procurement process).

☐ Appoint a DMS Manager.

[2] Per FEMA, Time-and-Material contracts should be limited to a maximum of 70 hours of actual emergency debris clearance work and should be used only after all available local, tribal and State government equipment has been committed.

☐ Begin setting up a DMS with a Site Layout Plan. Consider the following when developing a plan:
- Controlled access
- Security/fencing
- Lighting
- Mud/dust control: gravel, water, chips
- Runoff control: silt fences, liners
- Fire control equipment
- Monitoring towers
- Administration office
- Portable toilets
- Signage: hours, rules
- Citizen entrance
- Contractor entrance

☐ Label Debris Types/Areas at DMS site:
- Trees, vegetative debris needing to be chipped
- Compostables
- White Goods; Electronics
- Recyclables; Bulky Plastics
- Hazardous/Banned materials
- Construction Debris/Building Materials
- Vehicles/Vessels
- Dirt/Sludge

☐ Assign Debris Monitors to watch, count and certify debris loads and load tickets.

☐ Train Debris staff on NOT acceptable items, safety procedures, data collection, load tickets, truck rules.

- ☐ DMS Manager will inform Incident Command and EOC when Debris Management Site is ready to open.
- ☐ EOC will notify MEMA Regional office of location, hours, and debris types.
- ☐ Monitor Debris Pick-up Sites for compliance: separation/recycling standards; hazardous/banned material.
- ☐ Work with FEMA's Damage Assessment Team/MEMA Public Assistance to manage reimbursement claims.

Recovery

Recovery Operations (90 days; if longer obtain MassDEP approval to continue to operate)

- ☐ Continue to track all resources used: force account labor, contractors, volunteer time, and materials.
    - Obtain approval from FEMA before clearing private property.
- ☐ Clear tree/brush/leaners/hangers on rights of way, town properties and culverts. Keep records. **TAKE PHOTOS.**
- ☐ Follow legal process for condemnation and removal on private property; usually when public is threatened.
- ☐ Determine/select waste diversion/disposal sites. MassDEP/Local Fire approval is required for burning.
- ☐ Continue to monitor all waste collection sites.
- ☐ Continue to notify and educate public on debris removal and disposal rules/locations.

Demobilization

DMS Closing Operations

- ☐ Remove all debris, cleanup site, test soil and groundwater as needed, restore to original condition.
- ☐ Obtain written MassDEP approval before site is considered closed, otherwise subject to DEP enforcement.
- ☐ Alert public to DMS closing and next steps.
- ☐ Close DMS and return property to owner.
- ☐ Collect all DMS data, complete required forms, and apply for reimbursement through FEMA Public Assistance Portal, if applicable.
    - Conduct After-Action Review (AAR) meeting to develop After-Action Report and Improvement Plan.
- ☐ Update plans, policies, and procedures based on lessons learned/best practices and AARs.

Monitoring

Debris monitoring is the responsibility of the community. Communities must monitor debris removal operations to document eligible quantities and reasonable expenses to ensure work is eligible for Public Assistance grant funding. To ensure that debris monitoring is completed adequately, MEMA has established a statewide contract for disaster debris monitoring and management services that may be accessed by all municipalities. https://www.commbuys.com/bso/

Debris Monitoring Checklist

- ☐ Evaluate and identify staff that will lead the monitoring operations (force account labor/contractors).
- ☐ Identify how staff will be trained for the monitoring operations.
- ☐ If contractors are used, the contract must be awarded to a contractor who has no vested interest in the debris removal contract or contractor.
- ☐ Establish a record management system to be implemented for monitoring during the disaster event to include: see FEMA Debris Management Guide https:/www.fema.gov/sites/default/files/2020-07/fema_325_public-assistance-debris-mgmt-plan_Guide_6-1-2007.pdf
    - Labor, benefit and equipment rates
    - Personnel pay policy
    - Invoices
    - Load tickets and load ticket summaries
    - All other field documentation that may be required for eligibility considerations
    - Staff to organize labor and equipment timesheets
- ☐ Position debris monitors at each point of the operations so the eligible scope of work can be properly documented (collection, DMS, final disposition).
- ☐ Establish a load ticket system to track the debris from the original collection point to the DMS/final disposition https://www.mass.gov/doc/sample-load-ticket/download
- ☐ Certify trucks using the following list of requirements:
    - Size of hauling bed in cubic yards
    - License plate number
    - Truck identification number assigned by the owner

- Short physical description of the truck

☐ Require debris monitors to submit the following reports:

- Debris collected from curbside and/or collection centers
- Debris accepted at the DMS and/or final disposition
- Debris recycled/reduced at the DMS and taken to final disposition
- Any operational or safety issues

Debris Monitoring Duties and Responsibilities

☐ Be familiar with and maintain/implement all safety requirements.

☐ Measure and certify truck capacities (recertify on a regular basis)

☐ Take photographs of all trucks and trailers used in the debris operation to establish a baseline inventory of equipment.

☐ Make unannounced visits to all loading and disposal sites within an assigned area.

☐ Complete and physically control load tickets (in monitoring towers and in the field).

☐ Validate hazardous trees, including hangers, leaners and stumps.

☐ Ensure that trucks are accurately credited for their load.

☐ Ensure that trucks are not artificially loaded to maximize reimbursement (e.g., debris is wetted, debris is not compacted).

☐ Ensure that hazardous waste is not mixed in with loads.

☐ Ensure that all debris is removed from trucks at the DMS.

☐ Oversee debris reduction (burning, chipping).

☐ Report to the project manager:

- If improper equipment is mobilized and used.
- If contractor personnel safety standards are not followed.
- If general public safety standards are not followed.
- If completion schedules are not on target.

☐ Ensure that only debris specified in the scope of work is collected and identify work as potentially eligible or ineligible.

- [ ] Ensure daily loads meet permit requirements.
- [ ] Ensure that work stops immediately in an area where human remains, or potential archeological deposits are discovered.
- [ ] Monitor site development and restoration of the DMS.
- [ ] Report to DMS Manager if debris removal work does not comply with all local ordinances as well as State and Federal regulations.

Disaster Debris Site Selection Worksheet

Site Name:

Site Address:

GPS Coordinates:

Estimated Size in Acres:

Estimated Volume of Debris Able to Hold (cubic yards):

(Note: Assume up to 16,000 cubic yards/acre and only 40% of site available for debris storage.)

Primary Local Government Point of Contact:

Name: Phone: Email:

Secondary Local Government Point of Contact:

Name: Phone: Email:

Preferred Disaster Debris Management Site Criteria

The site is owned or controlled by municipal or state government.

The site has easy access, including being near the area of debris generation, easy to enter and exit and near transportation arteries.

The site is ready to use as a debris management site without extensive site modifications.

The debris storage and handling areas would be at least 100 feet from property lines.

To the maximum extent possible, the site location minimizes potential environmental and public health impacts, including considering setbacks from public water supplies, surface water bodies and residential dwellings and avoiding areas such as flood plains, drinking water Zone IIs and Areas of Critical Environmental Concern.

If any of these criteria are not met, please explain why not and how any concerns regarding that criterion would be addressed:

Anticipated Site Activities

(Intended for use only in declared disasters, NOT for routine operations.)

A Debris Management Site Plan and layout has been prepared that considers the management and operating practices recommended in this guidance.

What types of disaster debris do you expect to manage at this site? (e.g., vegetative waste, building materials, hazardous household products, etc.):

What debris processing or other handling activities do you expect to conduct at this site? (e.g. sorting and transfer for recycling, chipping vegetative waste, transfer of trash for disposal.):

Please summarize any other benefits or concerns with using this site as a debris management site.

Submit to applicable MassDEP Regional Office Solid Waste Chief.

Standard Operating Procedures

SEMA NOTE - FOR THIS SECTION, REFER TO:

- ❒ ****** Southborough EOC Operation Manual ******
- ❒ ****** Southborough EOC Liaison Guidance Manual ******
- ❒ *Other Southborough EOC (etc.) manuals, guides, references, aid, etc. located in the EOC documents cabinet & on the EOC external hard drive & Southborough specific attachments/references in Southborough's' WebEOC CEMP File*

Attachment 5: Town Administrator SOP

SEMA NOTE - FOR THIS SECTION, REFER TO:

- ❒ *** Southborough EOC Operation Manual ***
- ❒ *** Southborough EOC Liaison Guidance Manual ***

The ultimate responsibility for all emergency management activities is vested in the Town Administrator. He or she is responsible for all emergency management policies, and during emergency operations will have final responsibility for decision making concerning emergency management actions.

It is the responsibility of the Town Administrator to ensure an approved line of succession exists in case some individuals are unable to perform their duties during an emergency. It is ultimately incumbent upon the Town Administrator to ensure vital records are maintained.

All required reports and records of emergency operations activities should be submitted to the Town Administrator as well as the Emergency Management Director (EMD).

Initial Actions

_____Receive notification of emergency

_____Discuss with EMD the need to activate the Emergency Operations Center (EOC)

_____Review emergency management plan with EMD (consider developing ICS 202 Incident Objectives)

_____Maintain situational awareness and determine if there is an imminent threat

_____Report to the EOC if activated

EOC Activation

_____Report to the EOC

_____Make sure all actions under Initial Actions are complete

_____Keep a log of all decisions made and actions taken (consider using form EOC Chronological Log)

_____Assign Public Information Officer

_____Issue initial public information statements if necessary

_____Authorize activation of community notifications system(s)

_____Identify someone to manage expenditures/finance if needed

_____Review the community Continuity of Operations Plan for line of succession guidance

EOC Operations

_____Log all actions taken (EOC Chronological Log)

_____Discuss with EMD the need to declare a local state of emergency and declare if needed

_____Discuss anticipated resource needs with EMD

_____Authorize activation of shelters if needed

_____Prepare and coordinate public information releases

_____Authorize inspection of all damaged buildings for structural integrity

_____Inspect all arterial roads for damage, assess and address repair as needed

_____Conduct regularly scheduled briefings for EOC staff (form ICS 201 Incident Briefing)

_____Discuss with EMD relocation of EOC if necessary

_____Coordinate or delegate actions re: donated resources and volunteer resource activities

EOC Demobilization

_____Authorize re-entry of evacuees

_____For evacuees who cannot return home arrange temporary housing in coordination with partner agencies

_____Coordinate with volunteer agencies involved in disaster relief operations

_____Maintain records of personnel, equipment, and supplies use for possible reimbursement

_____Apply for state and federal disaster relief funds if appropriate

_____Address public health and sanitation issues

_____Establish disaster recovery centers if needed

_____Address legal and insurance matters

Attachment 6: Emergency Management Director SOP

SEMA NOTE - FOR THIS SECTION, REFER TO:

- ❒ *** Southborough EOC Operation Manual ***
- ❒ *** Southborough EOC Liaison Guidance Manual ***

The Emergency Management Director (EMD) advises the Chief Elected Official on courses of action available for decision making during the emergency. The EMD acts as the Emergency Operations Center (EOC) manager while the EOC is activated. They oversee those responsible, for the implementation of the plan, and ensure all are well-versed in their roles and responsibilities.

The EMD will periodically brief participating officials on their emergency management roles. The EMD will conduct mock exercises of in

idents to provide practical and controlled experience in simulated conditions. He or she will call for an annual review with all involved officials and update the plan from lessons learned.

Initial Actions

_____Receive notification of incident

_____Review emergency management plan with CEO (consider developing ICS 202 Incident Objectives)

_____Assess the situation and make appropriate notifications to activate and staff EOC

_____Establish a communications link with affected jurisdictions and volunteer agencies

EOC Activation

_____Activate the EOC (attachment EOC Activation Team Checklist)

_____With the Chief Elected Official determine the need to declare a local state of emergency

_____Make sure all actions under Initial Actions are complete

_____Keep a log of all decisions made and actions taken (consider using form EOC Chronological Log)

_____Contact MEMA regional office to notify of EOC activation

_____Brief EOC staff on status of emergency (form ICS 201 Incident Briefing)

_____Prepare for 24-hour operations if necessary to include staffing, food/water, and facility operation

_____Determine readiness of communications and back-up communication systems

___Telephone and radio networks, including cell phones

___Fire and Police radios

___800 MHz systems

___Phone systems of state agencies

___Community notification system

EOC Operations

_____Prepare an Incident Action Plan in conjunction with Incident Commander for all active resources

_____Maintain situational awareness to determine impact if any

_____Coordinate need for EOC security with Police Department

_____Implement shelter plan in coordination with partner agencies if needed

_____Manage requests from incident scene

_____Have Fire Department/Police form and dispatch search and rescue teams as required

_____Have Fire Department coordinate EMS teams as required

_____Work with Medical Examiner's Officer on matters pertaining to the disposition, handling, and identification of the deceased

_____Conduct needs assessment and provide assistance to individuals with access and functional needs

_____Determine the condition/capacity of hospitals and other healthcare facilities serving the community

_____Acquire status of utilities within the affected area

_____Validate status of critical resources to support operations

_____Periodically solicit reports from EOC staff to maintain Local Government Situation Report

_____Establish traffic control plan with Police Department if needed

_____Coordinate debris removal from main routes with Department of Public Works if necessary

_____Continue to monitor NWS alert system in coordination with MEMA

_____Identify transportation-related needs and contact transportation support partners if needed

_____Review mutual aid agreements

_____Submit resource request(s) for any unmet needs to the MEMA regional office

_____Coordinate with Police Department for security patrols of impacted area

EOC Demobilization

_____Coordinate with local, state, and federal agencies in damage assessment and cost of recovery activities

_____Inform the public of disaster recovery activities via community notification system

_____Continue to assist in the restoration of normal services and operations

_____Close shelters and coordinate re-entry of evacuees with partner agencies

_____Coordinate with Department of Public Works to ensure all streets are accessible

_____Periodically receive reports from EOC staff regarding situation recovery status

_____Coordinate with Police and Department of Public works to establish a traffic control plan

_____Maintain records of personnel, equipment, and supplies use for possible reimbursement

_____Conduct critical incident stress management activities

_____Establish disaster recovery centers for victims in conjunction with MEMA/FEMA if asked

_____Coordinate application for state and federal disaster relief funds with CEO, if appropriate

_____Lift local state of emergency if declared

_____Initiate deactivation of EOC and notify Chief Elected Official and departments –

_____Close logs of all actions taken (EOC Chronological Log)

_____Contact MEMA regional office to notify of EOC deactivation

_____Debrief response personnel; prepare incident report, and update plan on the basis of lessons learned

_____Conduct an evaluation on the overall effectiveness of the community's response and recovery actions

Attachment 7: Fire Department/EMS Representative SOP

SEMA NOTE - FOR THIS SECTION, REFER TO:

- ❒ *** Southborough EOC Operation Manual ***
- ❒ *** Southborough EOC Liaison Guidance Manual ***

The role of the Fire Department in emergency/disaster situations is primarily fire-related incident control and management of any hazardous materials, including radiological. They also may lead search and rescue operations. During emergency response activities, if Fire Department resources become exhausted, additional support will be obtained through local mutual aid and then state agencies. The Fire Chief or his designee is responsible for coordinating all Fire Department operations.

Initial Actions

_____Receive notification of emergency

_____Review emergency management plan and checklist

_____Keep detailed logs of all actions taken by Fire Department during the incident (EOC Chronological Log)

_____Maintain situational awareness and how it may pertain to Fire Department operations

_____Determine the status of medical treatment site(s) to be used as triage areas or mass decontamination sites

_____Determine availability of EMS personnel, supplies, and equipment and if more is needed request mutual aid support

_____Determine availability of search and rescue personnel, supplies and equipment and if more is needed, request mutual aid support

EOC Operations

_____Coordinate dispatch of EMS teams to the scene(s) as required

_____Coordinate dispatch of search and rescue teams to scene(s) as required

_____Coordinate evacuation for affected residents

_____Coordinate decontamination capabilities within the Fire Department and if insufficient notify EMD

_____Arrange for a representative of the Fire Department to team with Police and Department of Public Works representatives to identify and restrict access to all structurally unsafe buildings

_____If mass casualties have occurred work with EMD to contact mutual aid partners and establish triage site

_____Coordinate the set-up of the decontamination area for emergency responders and those affected if needed

_____Coordinate emergency power and lighting at the incident site upon request

_____Coordinate the identification of the condition of hazardous materials where they are stored or used

_____Identify resource shortfalls and coordinate additional contractor resources to assist in hazardous materials response, informing EMD of availability

_____Coordinate with Fire Department staff to determine if all critical equipment is operational

_____Coordinate door-to-door warnings with the Police Department if necessary

_____Route resource requests for unmet needs to the EMD

_____Periodically update EMD on incident status

EOC Demobilization

_____Support damage assessment activities as needed

_____Coordinate clean-up as required

_____Coordinate the return of all equipment to quarters or mutual aid partners

_____Coordinate the decontamination of firefighters, gear and equipment as needed

_____Coordinate inventorying of equipment and assess any operational issues experienced during the incident

_____Coordinate the release of mutual aid companies as they become available

_____Close logs of all actions taken (EOC Chronological Log) and submit paperwork to the EMD

Attachment 8: Police Department Representative SOP

SEMA NOTE - FOR THIS SECTION, REFER TO:

- ❒ *** Southborough EOC Operation Manual ***
- ❒ *** Southborough EOC Liaison Guidance Manual ***

The Police Department's role in an emergency will be an expansion of its normal daily routine. The Police Chief is responsible for coordinating law enforcement emergency activities. If, during emergency operations, local law enforcement capabilities are exceeded, support will be available through existing mutual aid agreements and from state and federal law enforcement agencies. The Police Chief or his designee will integrate and manage outside law enforcement agencies which are brought in for assistanc

.

The Police Department is generally responsible for all traffic control and security services. In addition, during a large-scale incident, they may be asked to perform additional activities depending on the incident. If the EOC becomes activated, the Police Department will place a representative in the EOC to help coordinate activities with other community resources.

Initial Actions

_____Receive notification of emergency

_____Review emergency management plan and checklist

_____Keep detailed logs of actions taken by Police Department during the incident (EOC Chronological Log)

_____Maintain situational awareness and how it may pertain to Police Department operations

EOC Operations

_____Coordinate availability of emergency response equipment and place on standby

_____Coordinate the verification of communications capability within the affected area

_____Assign a liaison to Incident Command in the operational area

_____Coordinate the request of mutual aid from State Police as required

_____Establish security for EOC and other critical facilities and essential supplies if requested

_____Establish security for damaged public buildings if needed

_____Coordinate confinement and access control areas for security purposes

_____Coordinate dedicated access routes to these areas for Incident Response personnel

_____Coordinate the investigation of the cause of the incident as appropriate

_____Coordinate the securing of the scene, rerouting of traffic, and implementing crowd control measures

_____Organize the evacuation of the public and of special facilities if required

_____Coordinate road closures

_____Coordinate providing back-up communication if needed

_____Periodically update EMD on emergency response status

_____Coordinate door-to-door warnings with Fire Department

_____Route resource requests for unmet needs to the EMD

EOC Demobilization

_____Support damage assessment activities as needed

_____Coordinate with state and federal authorities to investigate the incident if needed

_____Coordinate restricted access to suspected unsafe structures pending evaluation by Building Inspector

_____Coordinate reentry of evacuees

_____Coordinate the return of all equipment to station or mutual aid partners

_____Coordinate inventorying of equipment and assess any operational issues experienced during the incident

_____Coordinate the release of mutual aid units as they become available

_____Close logs of all actions taken (EOC Chronological Log) and submit paperwork to the EMD

Attachment 9: DPW Representative SOP

SEMA NOTE - FOR THIS SECTION, REFER TO:

- ❒ *** Southborough EOC Operation Manual ***
- ❒ *** Southborough EOC Liaison Guidance Manual ***

In emergency situations the Department of Public Works is responsible for deploying available equipment and manpower. In the event that local resources are exhausted assistance may be requested from mutual aid partners or MEMA. The Department of Public Works is responsible for ensuring the community's roads and bridges are in passable condition. During a large-scale incident they may be asked to perform additional activities depending on the incident. If the EMD activates the EOC the Department of Publ

c Works will place a representative in the EOC to help coordinate activities.

Initial Actions

_____Receive notification of emergency

_____Review emergency management plan and checklist

_____Keep detailed logs of actions taken by the Department of Public Works during the incident (EOC Chronological Log)

_____Maintain situational awareness and how it may pertain to the Department of Public Works operations

EOC Operations

_____Coordinate availability of emergency response equipment and place on standby

_____Coordinate the verification of communications capability within the affected area

_____Assign a liaison to Incident Command in the operational area

_____Coordinate the request of mutual aid from mutual aid partners and contractors as required

_____Coordinate providing essential supplies to the operational area if requested

_____Ensure dedicated access routes to operational areas are open for Incident Response personnel

_____Coordinate assisting the Police Department with traffic control if necessary

_____Coordinate assisting with evacuation of public and special facilities if required

_____Coordinate road closures if necessary

_____Periodically update EMD on emergency response status

_____Coordinate door-to-door warnings with other departments if necessary

_____Coordinate the rectification of immediate life-threatening hazards

_____Coordinate with EMD for site decontamination assistance from regional Hazmat Team

_____Coordinate identification of and restrict access to structurally unsafe buildings with Police Department

_____Coordinate the remediation and clean-up of any hazardous materials that may have entered well water or drainage systems

_____Coordinate the clearance and removal of debris as directed

_____Support Fire Department in search and rescue operations

_____Provide barricades and temporary fencing as requested

_____Coordinate emergency repairs to streets and bridges as necessary to support emergency operations

_____Coordinate with representative from the Fire Department to conduct preliminary assessment of damage to structures and utilities

_____Provide other public works and engineering support for emergency operations as necessary

_____Route resource requests for unmet needs to the EMD

EOC Demobilization

_____Support damage assessment activities as needed

_____Coordinate demolition of unsafe structures

_____Assist Public Health Services with emergency waste disposal and sanitation, as necessary

_____Assist other agencies with recovery operations and damage assessment activities

_____Coordinate with utilities to restore services

_____Coordinate the return of all equipment to garage or mutual aid partners

_____Coordinate inventorying of equipment and assess any operational issues experienced during the incident

_____Coordinate the release of mutual aid units as they become available

_____Close logs of all actions taken (EOC Chronological Log) and submit paperwork to the EMD

Critical Infrastructure Spreadsheet to Influence ArcGIS Data

SEMA NOTE - REFER TO:
Separate Attachment Sheets and ArcGIS maps for Southborough Critical Infrastructure

The attached Microsoft Excel Spreadsheets contain listings of all Critical Infrastructure in the Community. These Spreadsheets not only support this plan and its contents, but are used to populate ArcGIS maps and create visual planning, response and recovery. The Spreadsheets will be updated as new infrastructure is added to the Community's inventory, or as changes to existing infrastructure are made.

The table on the next page shows where various Critical Infrastructure should be added in the Spreadsheet. This will help the organization of the document be consistent, both in this plan and on the mapping products it creates.

21 Highland Future Use Committee

Background:

The South Union School is currently being used to house the Recreation Department and Youth and Family Services. The building is in fair condition, and is energy inefficient. It is likely that in 4-5 years the building will become surplus to the anticipated needs of the municipal side of Town Government, provided that a different building becomes available to the town in the form of either a school or other building.

The Select Board would like to develop alternative uses of the building to, if practical, preserve it.

Charge:

There shall be an Ad Hoc Committee established to make recommendations related to the future use of the South Union School. The committee's charge shall expire on June 30, 2025. The committee shall be guided as follows:

1. The committee may make recommendations related to the town-owned property at the site provided that:
    a. The playground must be maintained. If necessary, it may be moved.
    b. The sledding hill must be maintained.
2. Parking for the playground and any future use must be provided.
3. The committee may consider uses that would require faster conversion than the 4-5 year timeframe envisions. If considered a plan should be developed for the rehousing of the existing occupants.
4. Any future use of the building that requires regular occupancy must bring the building up to modern energy efficiency standards and building codes.
5. The committee may make use of the technical resources of the town in its deliberations provided that the provision of said resources are approved by either the Town Administrator or the Select Board.
6. The committee should attempt to find alternative sources of funding for any proposed use. The committee should be mindful that any request for taxpayer funding must be judged against other competing priorities. The committee is reminded that other neighborhoods in our town have far fewer public amenities (playgrounds, parks, open space) than exist in this neighborhood.

The committee shall make a final report to the Select Board no later than December 31, 2024, and an interim recommendation no later than November 30, 2024. Said reports shall cover alternative uses that will enjoy broad community support. The committee shall hold at least one public forum related to its recommendations.

Composition:

The Committee shall be appointed by the Select Board it shall have 7 members as follows:

- The Open Space Preservation Commission shall nominate 1 member
- The Historical Commission shall nominate 1 member.

Approved by Select Board: October 24, 2023; Amended: March 19, 2024

- The Planning Board shall nominate 1 member.
- The Recreation Commission shall nominate 1 member.
- There shall be 2 members who live within ½ mile of the property.
- There shall be 1 at-large member.

Subject: Re: New Historical Commission representative to the Tricentennial Committee

Kevin,

We will have Michele's appointment on our 11/19 agenda.

Kathy

From: Kevin Miller <kmiller@southboroughma.com>
Sent: Friday, November 15, 2024 8:28 PM
To: Mark Purple <mpurple@southboroughma.com>; Kathy Cook <kcook@southboroughma.com>
Cc: Michele Hokinson <mhokinson@southboroughma.com>
Subject: New Historical Commission representative to the Tricentennial Committee

Mark and Kathy,
Jim Blaschke is stepping down from Historical and, consequently, from his role as our rep on the Tricentennial Committee.
He submitted the appropriate resignation forms for both groups to Jim Hegarty earlier this evening.
At the Historical Commission's most recent meeting, we voted to nominate HC member Michele Hokinson to replace Jim as our rep on Tricentennial. If you could get Michele onto your consent agenda for the Select Board's next meeting, it would be much appreciated, as I'd like to be as supportive as possible of Tricentennial's efforts and avoid a gap in coverage. I'm sure Michele will do a terrific job in the role, not least because of 30+ year history as a resident in town.
Best regards,
Kevin

FROM: Brian Ballantine, Finance Director

RE: DOR Policy Review

As you are aware during the Summer the Town finalized working with the Department of Revenue in having two deliverables to the Town – a financial management review and a financial policy review. For this meeting we are bringing forward the policy review for action. As you know this was requested by the Town since it had been approaching 5 years since the last revision of the Town's financial policies. Additionally, we were aware DOR had several additional policies brought forward that the Town has never had in place but might be of value to add.

Please see the attached list of DOR policies which we have categorized in specific sections. To streamline the process, it would be our recommendation to assign one member of the Select Board and one from the Advisory Committee to work with the finance team to make suggested edits and return to the Board later to request formal adoption of these.

If the Board wishes we can also draft up a categorized list for the financial management review and offer comments in this area. The items in the FMR vary from smaller individual items to much larger comprehensive suggestions.

Thanks for the assistance, and should you have any further concerns or suggestions please advise.

MEMORANDUM

DATE: November 4, 2024

TO: Select Board

FROM: Melanie Otsuka, Executive Assistant

SUBJECT: PROPOSED SELECT BOARD MEETING DATES

Below are the proposed dates for Select Board meetings for the remainder of FY25 (January 1 - June 30):

- January 6
- January 11 (Budget Summit)
- January 20
- February 4
- February 25
- March 4
- March 18
- April 1
- April 7 (Annual Town Meeting)
- April 15
- May 6
- May 10 (Special Town Meeting)
- May 20
- June 3
- June 17

This schedule maintains the typical 1st and 3rd Tuesday meeting schedule, except February 25 so as not to conflict with school vacation dates; special or workshop meetings, in addition to regular meetings, can be added as needed.

Amended and Restated Agreement for a MetroWest Regional Emergency Communications Center District

This **Amended and Restated** District Agreement ("Agreement") is entered into as of this _____ day of _____ 2024, in accordance with the provisions of G.L. c.6A, §§18P to 18V, inclusive, and G.L. c.40, §4A, by and between the Towns of Grafton, Southborough and Westborough, acting by and through their respective Select Boards ("Grafton, Southborough and Westborough" or, collectively, the "Towns" or "Participating Communities"). The Agreement, entered into by the Towns of Grafton and Westborough on June 20, 2023 as amended by certain Amendments dates May 28, 2024, represents the complete understanding between the Participating Communities with respect to the cooperative operation of a consolidated Regional 911 Emergency Communication Center (RECC).

PREAMBLE

In order to establish, operate and maintain a consolidated emergency services communication and dispatch system for Grafton, Southborough, and Westborough, in accordance with Massachusetts General Laws, Chapter 6A, Sections 18P to 18V, inclusive (the "Enabling Legislation"), the Participating Communities agree to jointly exercise their common powers in the manner set forth in this Agreement to establish a District for the purpose of operating a RECC.

WITNESSETH

WHEREAS, the Towns of Grafton and Westborough, through their Select Boards, entered into an Agreement for a Metrowest Regional Emergency Communications Center District dated June 20, 2023, as amended by amendments dated May 28, 2024 (the "Original Agreement");

WHEREAS, on November 12, 2024 the Towns of Grafton and Westborough, through their Select Boards and, in accordance with Section 24 hereof, voted to include the Town of Southborough as a Participating Community in this agreement for a Metrowest Regional Emergency Communications Center District and the parties wish to enter to amend and restate the Original Agreement to include the Town of Southborough as of the date hereof;

WHEREAS the Participating Communities are each empowered by law to staff, maintain, and operate a public safety communications and dispatch facility, which is a proper governmental function and service;

WHEREAS the Participating Communities desire to form a district to operate and maintain a consolidated regional 911 emergency communication facility and to provide an orderly method for the accomplishment thereof;

WHEREAS, the Participating Communities have agreed to share the costs, responsibilities, and obligations of constructing, operating, and maintaining a regional municipal 911 emergency communication facility;

WHEREAS, certain Participating Communities have and maintain existing municipal 911 emergency communication facilities that provide high levels of service;

WHEREAS, the Participating Communities are committed to providing and maintaining high levels of service for the emergency and 911 dispatch services to be provided for under this Agreement;

WHEREAS, it is a goal of this Agreement that emergency response times from any Town's Fire/Police Departments will not be increased solely as a result of this Agreement;

WHEREAS, the Fire/Police Departments of the Participating Communities have, and will maintain, the technological capabilities and trained personnel to accomplish the objectives of this Agreement;

WHEREAS, the Participating Communities have established this inter-municipal relationship for the purpose of combining their resources to maximize effective emergency and 911 dispatch services, as well as to provide regional interoperability for their public safety agencies from a single primary location, initially to be located in Westborough, Massachusetts; and

WHEREAS, the Participating Communities, pursuant to G.L. c.40 §§4A, 4A ½, and the Enabling Legislation, may enter into this Agreement to perform joint activities or undertakings which the municipalities are authorized by law to perform.

NOW THEREFORE, the Participating Communities, in consideration of the mutual benefits, promises and agreements set forth herein, agree to the following:

AGREEMENT

1. Purpose

This Agreement is intended to set forth the responsibilities and obligations of the Participating Communities for cost-efficient, shared, and effective municipal emergency dispatch and communications services. The purpose of this Agreement is to provide for the establishment, operation, and maintenance of the RECC by constructing, equipping, staffing, maintaining and operating a facility or facilities, including computers, radios and other equipment for use by the RECC, and providing call receiving and dispatching services to all Participating Communities.

2. Name

The Participating Communities shall operate under the name "MetroWest Regional Emergency Communication Center District" (hereinafter, the "MetroWest RECC District" or "District"). Operating under the District, the services provided, and the center facility will be known as the "MetroWest Regional Emergency Communication Center" (hereinafter, the "MetroWest RECC").

3. Term

The initial term of this Agreement commenced on June 20, 2023, the date when Town of Westborough and Grafton entered into the Original Agreement, and will expire on June 19, 2033. Thereafter, this Agreement shall automatically renew for three (3) additional five (5) year terms, for a total term not to exceed twenty-five (25) years, unless sooner terminated in accordance with this Agreement.

4. Implementation

Recognizing that the Agreement will require approvals of the Select Boards of each of the Participating Communities, the Participating Communities agree to the following implementation schedule and process:

A. Process

1. Intentionally Omitted.

B. Creation

1. The Towns have established the District as their agent to exercise the common powers provided for herein and to administer and manage or otherwise execute the stated functions and purposes of the Agreement.

2. The Board of Directors authorized by Section 7 was created on June 20, 2023.

3. The date (hereinafter, referred to as the "Commencement Date") on which the District commenced operations was June 20, 2023.

C. Transition:

Recognizing the vital nature of the Agreement, the Participating Communities hereby agree to develop a mutually acceptable transition plan in which the details of implementing the Agreement shall be specifically set forth, in accordance with applicable law. Said transition plan shall become incorporated into the Agreement upon its acceptance by all of the Participating Communities' Select Boards. The transition plan shall include at least the following key components:

1. The Participating Communities recognize that the MetroWest RECC will be renovated and outfitted with new equipment by the District in accordance herewith. Notwithstanding the same, in the event any Participating Community or the District determines that assets, including personal property, under the care, custody,

management and control or general use of each of the Participating Communities currently used for their respective dispatch operations are suitable for use by the District, those assets may be transferred to the District subject to any statutory authority governing such disposition. The transition plan shall include a complete inventory of any such assets to be transferred and any new assets to be acquired.

5. MetroWest RECC Operations

A. The MetroWest RECC shall be located at 20 Phillips Street in Westborough, Massachusetts, pursuant to a lease agreement to be entered into by the parties (as set forth in Section 8A), and shall provide suitable and necessary components for a modern and adequate dispatch center. The MetroWest RECC will be the primary recipient of all emergency Fire/Police and EMS calls originating from each of the Participating Communities.

B. The policies and procedures regarding the operation and administration of the MetroWest RECC shall be promulgated by a Board of Directors, as established hereunder, in consultation with the Operations Committee, as established hereunder, and in consultation with the Participating Communities.

C. All 911 calls for the Participating Communities will be answered by the Primary Public Safety Answering Point located at the MetroWest RECC. Additionally, the RECC shall also have the ability to receive and process emergency calls on pre-identified phone numbers other than 911 lines, e.g., alarm calls; hotline calls; animal control; etc.

D. The Secondary Answering Point and Radio dispatch system operated by the District and the Alternate Public Safety Answering Point (PSAP) will be determined by the Operations Committee prior to commencing operations, subject to approval by the Board of Directors.

E. Specific Operations are as follows:

(1) Fire/Police/EMS calls for service are to be answered at the MetroWest RECC.

(2) Non-emergency or business calls, other than the 911 emergency line, will be answered at each Participating Community's Fire/Police Headquarters or such other place as the individual Participating Communities may designate.

6. RECC Duties and Responsibilities

A. The duties and responsibilities of the MetroWest RECC shall include the following:

(1) Receipt of Fire/Police/EMS related Emergency 911 calls and the Radio dispatch of same. When it is necessary to provide EMD instructions to a caller, in compliance with M.G.L. c. 6A, §18H, the RECC shall provide Emergency Medical Dispatch support in accordance with standards developed by the State 911 Department. Telecommunicator staffing will be structured to accommodate EMD calls that may take additional processing time.

(2) Processing of Fire/Police Department radio traffic to emergency responses by the Participating Communities' Fire/Police Departments.

(3) The "Toning Out" or radio tone transmitted to alert the *on and off* duty firefighters to respond to an incident is the responsibility of MetroWest RECC staff for recall and notification paging.

(4) Receipt of non-emergency Fire/Police department traffic on a regular business line as determined by the Operations Committee.

(5) Monitoring the activity of all Fire/Police department vehicles.

(6) Maintaining a log of all Fire/Police department activities.

(7) Monitoring and acting upon Mutual Aid requests and automatic aid.

(8) Providing the daily radio test as determined by the Operations Committee.

(9) Notifying other Public Safety service agencies, utilities (gas, electric, telephone, etc.), upon request of the Participating Communities' Fire/Police Departments.

(10) Monitoring and dispatching all Fire/Police alarms received for properties located in the Participating Communities; this applies to the testing of all Fire/Police alarms. All testing will be performed with the approval of the Participating Communities' Fire/Police Departments.

(11) Staffing policies, daily operating procedures and administrative management of the MetroWest RECC shall be the responsibility of the Executive Director of the Regional Communication Center and/or that person's designee.

(12) Coordinate all Emergency Responder Radio Coverage / Bi-Directional Amplifier testing with Participating Community's fire prevention division and the vendor

7. Governance

A Board of Directors ("Board of Directors") has been established for the District to oversee the construction or siting, administration, operation and financing of the center, and said Board shall have the powers, duties and liabilities of a regional 911 emergency communication district as set forth in G.L. c.6A, §§18P – 18V. Members of the Board of Directors shall serve without compensation.

A. The Chief Administrative Officer, or their designee, of all Participating Communities shall serve as each Town's respective representative on the Board of Directors. The Participating Communities shall each have one (1) vote on the Board of Directors to act upon matters before the Board. Votes shall only be cast in accordance with Paragraph 7(I) below.

B. A Finance Advisory Subcommittee comprised of the Chief Administrative Officer, or designee, and each Town's chief financial officer as designated by said Chief Administrative Officer in each Participating Community, shall be formed for the purpose of formulating, approving and submitting an annual budget to the Board of Directors for review and approval. The Participating Communities shall each have two (2) votes, one per each member present, on the Finance Advisory Subcommittee.

C. The Board of Directors shall provide and maintain accurate and comprehensive records of services performed, costs incurred and reimbursements and contributions. The Board of Directors shall issue quarterly and annual financial statements to all Participating Communities and to the Finance Advisory Subcommittee in accordance with G.L. c.6A §18T.

D. An Operations Committee comprised of the Police Chief and Fire Chief, or their designees, from each Participating Community shall be established to provide general oversight of the performance of the District, including operational protocols and procedures.

The Police Chief and Fire Chief for each Participating Community shall also appoint an alternate representative to serve in their absence who shall have the authority to vote in their stead. The Participating Communities shall each have two (2) votes, one per each member present, on the Operations Committee to act upon matters before said Committee. Votes shall only be cast in accordance with Paragraph 7(I) below.

E. The Board of Directors shall appoint an Executive Director and such other employees as it considers necessary to operate the District and shall establish the duties, compensation, benefits and other terms and conditions of employment of the Executive Director and any additional personnel. The Executive Director and such other employees shall be employees of the District. The Executive Director shall report directly to the Board of Directors and shall be responsible for the day-to-day operation and maintenance of the District, subject to the specific authority retained herein by the Board of Directors. The

Operations Committee shall recommend specific job qualifications, duties, and responsibilities for employees to the Board of Directors' consideration in approval of such duties, responsibilities, and qualifications.

F. The Executive Director shall report no less than once per quarter to each Participating Community's Select Board concerning the District's operations.

G. The Board of Directors shall have responsibility for all matters relating to the overall administration of the District, including approval of the annual operating and capital budgets, and all human resources matters. Notwithstanding the above, the Board of Directors may, by a majority vote of its members, delegate to the Operations Committee such administrative and operational matters as it may deem appropriate. The Board of Directors shall hire an independent auditor annually to audit the financial records of the District.

H. The Operations Committee shall have responsibility for the effective and orderly operation of the District, including, without limitation, standardized operational protocols, procedures, and standards for levels of service, communications equipment and systems, maintenance, operations, protocols, policies and procedures, facilities, personnel, training, billing, and making budget recommendations to the Finance Advisory Subcommittee. The Operations Committee shall coordinate with each of the Participating Communities regarding all local protocols and standard operating procedures required to implement regional dispatch services for each of the Participating Communities, and shall ensure compliance with all applicable, local, state and federal protocol, rules, regulations, directives and laws.

Notwithstanding the above, the Operations Committee may, with notice to the Board of Directors and by a majority vote of all of the Operations Committee's members, delegate to the Executive Director such operational matters as it may deem appropriate, subject to the approval of the Board of Directors.

I. Board of Directors/Committee Action All actions by either the Board of Directors, the Operations Committee, or the Finance Advisory Subcommittee shall require the presence of a quorum as defined herein and an affirmative vote of a simple majority of members present (except as is otherwise set forth herein, including future financial obligations and the hiring of the Executive Director). A quorum is defined as a super majority of voting members (3 of 3 members, 3 of 4 members, 4 of 5 members, etc.). A quorum of voting members must be present for a vote of the Board of Directors to be valid and binding upon the Participating Communities.

J. Designation of Officers. The Board of Directors, the Operations Committee, and Finance Advisory Subcommittee shall each have a Chair and a Vice Chair selected by vote of its membership. The Chair and Vice Chair of the Board of Directors, the Operations Committee and the Finance Advisory Subcommittee shall be rotated among the Participating Communities. The Chair and Vice Chair shall be from different communities. The person serving as Vice Chair shall serve as the Chair in the following year.

The Chair of the Board of Directors, the Chair of the Operations Committee and the Chair of the Finance Advisory Subcommittee shall be responsible for giving proper notification of their respective meetings (as required by applicable provisions of the Open Meeting Laws (G.L. c.30A, §§18-25), setting agendas and performing administrative activities. The Executive Director will be designated by the Board of Directors, Operations Committee and Finance Advisory Subcommittee to ensure proper meeting minutes are taken. The Chairs of the Board of Directors, Operations Committee, and the Finance Advisory Subcommittee or their designees shall notify all their respective members, and the Town Clerk of each of the Participating Communities of all meetings. In the event that the Chair is unable to fulfill these duties, the Vice Chair shall act as Chair for so long as the Chair is unable to do so.

K. Board of Directors/Committee Meetings

The Board of Directors and the Operations Committee shall each conduct regular meetings, and shall hold at least two regular meetings each fiscal year. Each fiscal year, the Board of Directors, Operations Committee and Finance Advisory Subcommittee shall convene an Annual Meeting. The date and hour of any regular meeting shall be scheduled by order of the Chair of the Board of Directors and/or Operations Committee and/or the Finance Advisory Subcommittee. The Board of Directors, Operations Committee and Finance Advisory Subcommittee shall schedule additional individual meetings as may be deemed necessary.

The Board of Directors, Operations Committee and Finance Advisory Subcommittee may each adopt rules for conducting their respective meetings and other business, as they deem necessary and appropriate. In the absence of rules to the contrary, common law principles for the operation of meetings shall govern. The failure, however, to comply with such rules shall not affect the validity of any action.

All meetings of the Board of Directors and Committees are subject to and shall comply with all applicable provisions of the Open Meeting Law (M.G.L. c.30A, §§18-25). The District is also subject to the Public Records Laws (G.L. c. 66) and applicable regulations, as they may be amended from time to time.

L. Provision of Services to Other Entities; Additional Members

The District may provide dispatch or other communication services to other public or private entities, which provide a critical public health or safety service and/or public agencies not a party to this Agreement, but only upon the written approval of and subject to such terms and conditions as the Board of Directors may establish. Such services may be evidenced by contract, inter-municipal agreement, or other form of written agreement and are subject to appropriation or payment of fees.

The District shall establish the amount of charge for the service being provided to other non-member entities. Charges will be set with the intent of recovering all capital, operational and maintenance costs expended in providing the services to a particular entity, both annually and for prorated periods thereof, as well as sums as may be needed for future improvements, repairs, upgrades, or expansions.

Any municipality, which is not a party to this Agreement as of the Effective Date, may seek membership in the District. Admission of additional municipalities to the District shall be considered an amendment to the Agreement and is subject to an affirmative vote by a super majority of the Select Boards of the Participating Communities.

8. RECC Property and Equipment

A. The District shall procure in its own name all equipment, systems, fixtures, goods, or other personal property, as it may deem necessary or appropriate from time to time. All equipment, systems, fixtures, goods, and materials within the facility will be supported and maintained through an annual operational budget. The MetroWest RECC District shall, in its own name, by purchase, written lease or written license, procure the facility in which the dispatch center will operate, as well as an area whereby a tower or other structure for the installation of antennae shall be constructed and/or rehabilitated. The terms and time of payment and assessment shall be established in an amendment to the Agreement. The term of a lease or license shall not exceed 25 years and may contain provisions for the extension of the lease or license for an additional term not to exceed 25 years at the option of the Board of Directors pursuant to M.G.L. c.6A §18V. All equipment or materials used as part of the dispatch system will be owned as set forth herein.

B. In the event any Participating Community and the Board of Directors determine that assets, including personal property, currently under the care, custody, management and control of any of the Participating Communities for their respective dispatch operations would be appropriate for installation and use in the MetroWest RECC, the Participating Community may sell, lease or donate such property for use in the

MetroWest RECC, subject to the approval of the Board of Directors of the terms of the sale, lease and/or acceptance of the donated equipment. If the equipment is donated and the donating community withdraws or terminates its membership in the District, any such donated capital assets or equipment shall remain the property of the District, unless the remaining members of the Board of Directors by a majority vote authorize a return or partial return of such assets to the donating community. Leased equipment shall revert to the use of the lessor community or otherwise be disposed of pursuant to terms of the lease.

Upon termination or dissolution of the District, all equipment fixtures, goods, or other personal property installed or otherwise used at the MetroWest RECC (other than that which has been constructed or installed and is permanently affixed to the facility premises, or affixed in a manner so that it cannot be removed without defacing or damaging the premises) and which has been procured by or on behalf of the District with funds provided by the Participating Communities shall remain the property of the District, excepting any provisions under an agreement for lease, grant, donation or sale, that include a reversion of such equipment to the entity that provided the same to the District. Upon the dissolution of the District, diligent efforts shall be made to sell the property of the District (excluding property purchased with grant funds) and the proceeds therefrom shall be equitably distributed to the then Participating Communities.

Any funds, equipment, property, or services procured or received by the Town of Westborough as the Procurement Agent/Applicant/Grantee shall be for the benefit of the District, and to the extent practicable, ownership of any funds, equipment, property or services procured or received shall be assigned or otherwise transferred to the District. The Town of Westborough shall act as the Procurement Agent until such time as one is hired by the District.

C. The Operations Committee shall be responsible for recommending to the Board of Directors what communications equipment is necessary to operate and maintain the dispatch system. In carrying out its responsibilities, the Operations Committee shall be subject to the following standards:

1) MetroWest RECC is intended to provide consolidated regional public safety communications and dispatch services facility to the Participating Communities.
2) All dispatch facility components shall be compatible with each other.
3) The choice of dispatch facility components and the operation and maintenance of the system shall be based upon best fiscal practices and shall at all times provide professional and

timely response for the emergency dispatch and communications services to the citizens of the District.

4) The Participating Communities acknowledge that system quality is subject to cost efficiency and budget constraints and that various sections of this Agreement impose requirements related to budget approval by the Board of Directors.

5) Each of the Participating Communities shall provide and maintain all necessary telephone circuits., All telecommunications costs, maintenance costs, and expenses for equipment located within the District shall be the responsibility of the MetroWest RECC District.

D. The MetroWest RECC District may engage in any other public service, public safety operation or support mission or role that is authorized by the Executive Director and the Board of Directors and funded through the annual budget approved by the Participating Communities or other funding sources.

9. Fiscal Year of the District

The fiscal year for the District shall be July 1st to and including June 30th of each year, except if the Effective Date of this Agreement is other than July 1st, in which case, the first fiscal year shall commence on the Effective Date and end the following June 30th.

10. Annual Budget

With the assistance of the Executive Director, the Operations Committee shall develop and recommend to the Finance Advisory Subcommittee an annual budget for the following fiscal year by October 15 of each year, with a copy of such budget to be sent to the Select Board of each Participating Community. The Finance Advisory Subcommittee shall recommend any amended annual budget to the Board of Directors on or before December 1st of each year, with a copy of such budget to be sent to the Select Board of each Participating Community. The annual budget shall set forth all anticipated expenses and revenues for the following fiscal year and contingency funds for unanticipated operating and capital expenses, along with the proposed assessment to each Participating Community. The annual budget shall include: (1) the operating budget and (2) the capital budget. The budget shall include any planned or future capital expenses and the salaries and benefits for all persons employed by the District, which shall be subject to the budget approval process set forth herein. Upon approval of the budget by the Board of Directors, the Board of Directors shall apportion the amount so determined among the Participating Communities under the terms of this Agreement. The amounts apportioned for each Participating Community shall be certified and transmitted by the District Treasurer to the Select Board, Board of Assessors and Treasurers of the Participating Communities not later than February 1, annually, and the amounts so certified shall be appropriated at the Spring Annual Town Meeting for each Participating Community and paid to the District Treasurer at the times specified in this Agreement. If any of the Participating Communities fails to

include any apportioned amount so certified in its appropriations for the fiscal year, the Board of Assessors shall raise the amount in the tax levy for that year under G.L. c.59, §23 in accordance with G.L. c.6A, §18S.

The useful life of equipment and other assets shall be considered when formulating the annual budget. Any unspent portion of a reserve budget shall be carried forward to the next fiscal year in addition to the reserve allocation for each such fiscal year.

The total budget, upon which the assessment for each of the Participating Communities is based, may be reduced by revenue from entities not a party hereto, by unexpected or unencumbered funds available at the end of each fiscal year prior to the year for which the budget is applicable, or by other revenues available to the District.

In the event that emergency expenditures are required to maintain system integrity in excess of the amount budgeted, the District is authorized to incur the same amount, first from the reserve fund and second from any other available funds. Any debt incurred by the District shall not be subject to the limit of indebtedness prescribed in Section 10, Chapter 44 pursuant to G.L. c.6A §18U. "The District may incur debt for the purposes and in accordance with the procedures set forth in G.L. c.6A, §18R.

11. Allocation of Costs of Dispatch Facility

The Board of Directors shall annually determine the necessary amounts to maintain and operate the District and the amounts required to pay any debt and interest incurred by the District, as aforesaid. Each Participating Community shall be charged according to an equal ratio based upon population (50%) and 911 calls (50%) received. The ratio shall be determined based on the prior year's population and call volume for each Participating Community. Each Participating Community agrees to assume a proportional share of all costs and expenses for equipment, facilities, (including maintenance thereof), personnel and operations of the District and to promptly remit payment upon proper request in the manner set forth herein. The amounts apportioned, appropriated and assessed are due and payable each year without further notice as follows:

July 1st: 25% of total assessment
October 1st: 25% of total assessment
January 1st: 25% of total assessment
April 1st: 25% of total assessment

12. Appointment of Secretary and Treasurer; Revolving Fund.

A. The Board of Directors shall appoint a Secretary and Treasurer (who may be the same person), who may be a treasurer of one of the Participating Communities in the District. The Treasurer, subject to the direction and approval of the Board of Directors, shall be authorized to receive, invest, and disburse all funds of the District without further appropriation. The Treasurer shall give bond for the faithful performance of that person's

duties in a form and amount as fixed by the Board of Directors. The Treasurer shall be entitled to charge the District reasonable fees and collect that person's reasonable expenses for services, as approved by the Board of Directors. The Treasurer shall also be subject to Sections 35, 52 and 109A of Chapter 41 of the Massachusetts General Laws.

B. In order to finance the operation and administration of the District, there shall be established and maintained a segregated revolving fund account (the "Revolving Fund") for funds received from sources other than appropriation by the Participating Communities, and such other accounts, as may be appropriate. The District shall have its own taxpayer identification number. All payments received by the District and all expenses paid by the District shall be deposited into or paid from the Revolving Fund.

C. The Treasurer shall maintain accurate and comprehensive records, on the basis of generally accepted accounting principles consistently applied, of all funds deposited into and paid from the Revolving Fund and other accounts, as well as records of all services procured, costs incurred, liabilities and reimbursements.

D. Financial statements shall be issued to all Participating Communities quarterly and annually. These statements shall also be provided to the Finance Advisory Subcommittee. There shall be an audit of the books and records of the District performed by an independent third-party certified public accountant following the end of each fiscal year. Copies of the audit shall be provided to the Chairs of the Select Boards for each Participating Community, the Finance Advisory Subcommittee, the State Auditor, the State 911 Department and the Division of Local Services of the Executive Office for Administration and Finance ("A&F"). In addition, the Board of Directors shall have the right to audit or otherwise examine the books and records of the District to verify the accuracy of the financial statements. The costs of performing any audit shall be an expense of the District. The Board of Directors shall be entitled to request and receive copies of the information described above upon reasonable notice.

E. For the initial term of this Agreement, the Treasurer of the District shall ensure that the accounting system for the District includes the following:

- General ledger;
- Accounts payable-invoice processing and payments as directed by the Executive Director;
- Accounts receivable-invoice and cash receipt processing as directed by the
- Executive Director;
- Payroll processing and associated human resources services;

- Bank account maintenance and reconciliations;
- Billing the District for administrative support provided by the designated Treasurer's Participating Community;
- Financial statement preparation, as required;
- Audit preparation, as required;
- Preparation of year-end 1099 s and W-2s; and
- Grant management and administration functions, as required and appropriate.

For all subsequent terms of this Agreement, the Treasurer shall provide the Board of Directors with a list of the services the Treasurer's office will provide to the District and the rates charged. Such services and rates shall be approved in advance by the Board of Directors.

13. Reconciliation of Revolving Fund Account

Not less frequently than annually, the Executive Director shall reconcile cumulative payments made by the Participating Communities into the Revolving Fund against cumulative amounts owed. Participating Communities shall be credited for over payments or billed for shortfalls, as appropriate. Positive balances will be carried over to the following fiscal year.

14. Procurement

All goods and services procured by the District shall be procured pursuant to applicable procurement laws, rules, and regulations.

15. Termination or Withdrawal

A. A Participating Community may, by majority vote of its Select Board, elect to withdraw and terminate its membership in the District by providing written notice to the Board of Directors and each Participating Community not less than six (6) months prior to the end of the then current fiscal year. Termination of membership shall be effective thirty (30) days following the payment of all obligations incurred but no sooner than the end of the current fiscal year. In the event a Town chooses to withdraw from the Agreement prior to the end of a Term, the withdrawing Town shall pay to the District an amount not to exceed that Town's annual assessment to compensate the District for any damages as a result of said withdrawal. The Participating Communities hereto recognize and acknowledge the District is unique and the damages are difficult to calculate, and further that the dispatch system is configured and expenditures are committed based upon the understanding that all Participating Municipalities will remain members of the District at least until the end of the current term. No Participating Community shall be entitled to retain or be reimbursed for any costs or liabilities incurred prior to the effective date of termination of membership, including without limitation, any fees, costs, or expenses attributable to this Agreement.

Following receipt of notice of termination, the remaining Participating Communities shall address the impacts caused by termination by either encouraging other parties to join the District or by reducing expenses of the District, but until any mitigation actually occurs, the terminated party shall remain liable for its assessment in full until the end of the current fiscal year. The type of activities to be taken in mitigation shall be determined at the sole discretion of the remaining Participating Communities. In the event that the District shall be comprised of fewer than two communities, the District shall be dissolved pursuant to applicable law.

B. If any Participating Community defaults on payment of any assessment or otherwise breaches this Agreement, such Participating Community shall be notified in writing stating therein the nature of the alleged default or breach and directing such Participating Community to cure such default or breach within thirty (30) days. If the Participating Community in default or breach fails to cure said default or breach within sixty (60) days, that Participating Community shall be subject to termination as a party to this Agreement upon the vote of a super-majority of the Board of Directors representing those communities not in default. The Participating Community in default or breach shall not be entitled to vote on its own termination or be counted to calculate the quorum or in determining the vote. The terminated Town shall remain liable for any defaulted payment and late charges accruing through the end of the current fiscal year.

16. District Personnel

The Executive Director and all other District personnel shall be employees of the District. The District shall employ supervisory and operations staff, as approved in each annual budget. Salaries and benefits of all such personnel shall be approved by the Board of Directors. The District may also retain its own counsel.

Preference in hiring shall be extended to those persons previously employed by the 911 dispatch centers in any of the Participating Communities such that preference shall be given to such a qualified prior employee over other qualified applicants. The aggregate staffing level of the District and RECC may be set at a number of employees that is no more than cumulative total of those persons employed by the Participating Communities existing 911 dispatch centers as of the Effective Date of this Agreement. The Participating Communities shall use best efforts and will work cooperatively to assist each other in placement services for current public safety employees who may not become employees of the District.

For purposes of implementing the provisions of this paragraph 16, each Participating Community shall prepare a complete roster of all such public safety employees and identify, with respect to each employee, whether the employee is full or part time.

17. District Personnel Retirement Plans

Eligible employees of the District shall be entitled to participate in the Commonwealth of Massachusetts' retirement system established under Chapter 32 of the Massachusetts General Laws. The District's employees' retirement plans shall be administered by the Worcester Regional Retirement System.

18. Severability, Compliance with Applicable Law

Should any part, term, portion or provision of this Agreement or the application thereof to any person or circumstances be in conflict with any local, state or federal law or otherwise be rendered unenforceable or ineffectual, the validity of the remaining parts terms, portions or provisions or the application thereof to other persons or circumstances shall be deemed severable and shall not be affected thereby. The Participating Communities further intend for this Agreement to be modified to comply with any applicable local, state, or federal law, should it be determined not to be in compliance and to remain binding between them as so modified. In particular, but without limiting the generality of the foregoing, the Participating Communities intend for this Agreement to remain binding against each of them notwithstanding any legal requirement that would alter the term hereof or change the way in which any party is required to pay its share of assessments. The Participating Communities will remain bound hereunder subject to such modified terms.

19. Release

To the extent permitted by law, each of the Participating Communities shall release and hold harmless each other and their successors and assigns, and all of their officers, directors, lenders, agents, contractors, volunteers, and employees (collectively the "Indemnitees") from and against any and all claims, suits, actions, judgments, demands, losses, costs, attorney's fees, expenses, damages and liability to the extent caused by, resulting from, or arising out of the intentional acts, negligent acts, errors, omissions, or allegations thereof, of their employees, agents, volunteers, or representatives in the performance of the terms of this Agreement.

By entering into this Agreement, none of the Participating Communities has waived any governmental immunity or limitation of damages which may be extended to them by operation of law. This Agreement is by and between the Participating Communities which have executed it, and each state that it is intended for their mutual benefit alone and is not intended to confer any express or implied benefits on any other person or entity. This Agreement is not intended to confer third party beneficiary status on any person. It is expressly understood that the services provided hereunder are deemed for public and governmental purposes and all privileges and immunities from liability enjoyed by municipalities shall extend to their participation hereunder and to the activities so undertaken to the fullest extent provided by law.

20. Performance Bond

In accordance with the provisions of G.L. c.40, §4A, the District shall provide a nominal bond in the amount of one dollar ($1.00) for the performance of its duties and obligations under this Agreement.

GENERAL PROVISIONS

21. This Agreement shall not affect any pre-existing, independent relationship(s), or obligations between the Towns on any other subject or between the Towns and any other third party or parties, including without limitation, "mutual aid" agreements.

22. None of the Participating Communities hereto shall be responsible for delays or failures in performance from acts beyond the reasonable control of such party (e.g., riot or institutional disturbance, natural or man-made disaster).

23. Notices

All correspondence or other notice related to this Agreement shall be in writing and delivered to each Participating Community to the address and contact person provided from time to time by each Participating Community. Each Participating Community hereto authorizes the others to rely in connection with their respective rights and obligations under this Agreement upon approval by the party so designated or any person designated in substitution or addition hereto by notice, in writing, to the party so relying.

24. Amendments

Amendments to this Agreement shall require that a super majority of the Participating Communities have a majority vote of each Select Board of the Participating Communities. All amendments shall be in writing and shall be executed by the Chief Administrative Officer of each Participating Community. The addition of any other community as a participating member of the District shall require an amendment to the Agreement.

25. Execution in Counterparts

This Agreement may be executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

26. Binding Effect

This Agreement shall be binding upon and shall inure to the benefit of each party and its successors and permitted assigns.

27. Governing Law

This Agreement has been executed and delivered in, and shall be construed and enforced in accordance with the laws of the Commonwealth of Massachusetts, and the parties hereto submit to the jurisdiction of any of its appropriate courts for the adjudication of disputes arising out of this Agreement.

28. Choice of Forum

Any legal proceeding brought by an employee of the District or any party hereto may be brought in a court with proper jurisdiction in Worcester County.

29. Relationship of Parties

None of the provisions of this Agreement are intended to create any relationship between the parties other than that of independent parties contracting with each other for the purpose of effecting the provisions of this Agreement. The parties are not, and shall not be construed to be, in a relationship of joint venture partnership or employer-employee.

30. Waiver

No delay or failure to require performance of any provisions of this Agreement shall constitute a waiver of the provision as to that or any other instance. Any waiver granted by a party must be in writing.

31. Entire Agreement

This Agreement represents the entire agreement of the parties and supersedes any previous agreements between the parties relating to the same subject matter.

IN WITNESS WHEREOF, the Towns have hereto intending to be legally bound have caused their duly authorized representatives to set their hands and seals on the set forth below.

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, December 3, 2024 6:30 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Also present: Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:30 PM.

II. Public Comment

There was no public comment.

III. Scheduled Appointments *(Board may vote)*

a. Diana Wainrib – Resources for immigrant families

Ms. Diana Wainrib, 35 Pinehill Road, appeared before the Board to discuss recent efforts to assist immigrant families through the Westborough Southborough Neighborhood Support Team. Ms. Wainrib shared a presentation of the group's efforts over the last year. Ms. Wainrib asked the Board to assist in finding approximately 1,000 square feet of space in Southborough, either first floor or elevator accessible, for storing clothing and other items to help immigrant families. She also asked that the Board consider the Senior Center and Southborough Youth and Family Services as resources for efforts to assist immigrant families. Ms. Cook asked Ms. Wainrib to detail her request in a letter to Mr. Purple for consideration by the Town. Mr. Stivers suggested Ms. Wainrib contact local storage facility businesses as a potential option for storage.

b. DPW – Proposed Mailbox Damage Reimbursement Policy

DPW Superintendent Bill Cundiff appeared before the Board on the matter. He shared the proposed Mailbox Damage Reimbursement Policy with the Board. He stated that the policy is intended to provide guidelines for this shared responsibility between the public and the Town and that the goal is to protect the Town while also protecting the homeowner's investment. He also stated that many surrounding communities have adopted this type of policy. Ms. Cook suggested and DPW Superintendent Cundiff agreed that Section 3(c) be changed to reflect that, if damage occurs by a business under contract by the Town, the DPW would assist the homeowner in making a claim to the contractor. The Board discussed the W-9 included in the proposed policy. Ms. Cook agreed to further investigate the W-9 matter. Ms. Landry asked how contractors view the policy. DPW Superintendent Cundiff stated that contractors support this policy, as it limits their exposure. Mr. Hamilton moved to accept the policy, with Ms. Cook's amendment stated above. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

Ms. Cook moved to Other Matters (b) at this time.

IV. Reports

a. Chair's Report

Ms. Cook requested that the December 17th Board meeting begin at 6:00 PM, due to the number of items on the agenda, and the Board agreed. She reviewed the agenda items for the December 17th meeting. She also noted that on January 25, 2025, the Board and the Advisory Committee would hold their yearly budget summit, as part of the budgeting process.

i. Neary School Building Committee update

Ms. Cook reported that the Neary School Building Committee would make a comprehensive presentation on the Neary School project at the December 17th Board meeting.

b. Members' Reports

i. Wastewater treatment

Mr. Hamilton reported that he, along and Mr. Stivers, DPW Superintendent Cundiff and Brian Shea, met with Weston and Sampson to understand the issues related to wastewater treatment and explored potential options for the Town to consider. He stated they discussed surface discharge versus ground discharge and discussed needed facilities. Mr. Hamilton stated next steps would include: 1) meeting with the Massachusetts Department of Environmental Protection (DEP) to discuss their perspective and requirements in building a wastewater treatment facility for the Route 9 corridor; and 2) meeting with affected stakeholders along the Route 9 corridor to obtain their feedback. He stated the group would continue to meet to explore options and issues relative to wastewater treatment along Route 9.

ii. Old Burial Ground care

Ms. Landry stated that a structure/process needs to be created to address work orders, general caretaking and occasional restoration in the Old Burial Ground. She stated that, on December 17th, she would meet with Sally Waters, Historical Commission Chair Kevin Miller, Chris Leroy and DPW Superintendent Cundiff to discuss a structure/process. DPW Superintendent Cundiff stated that routine maintenance could be paid for through the DPW's operating budget. Mr. Stivers stated that the Board of Commissioners of Trust Funds had recently approved up to $5,000 in tree work in the Old Burial Ground and may have some additional funds available.

c. Town Administrator's Report

Mr. Purple reported that the draft Sidewalk Accessibility Report, developed by BETA Group, is available for review on the DPW's webpage. He stated that the Town would publicize the report and request public feedback. DPW Superintendent Cundiff stated he hopes to receive public feedback within the next two weeks. Mr. Stivers stated that this report is an important step in data collection for the Town for planning and investment purposes.

Mr. Purple reported that final numbers for the year's golf season have been received. He reported that the Golf Course generated $782,171 in total revenue and that $112,434.20 has been returned to the Golf Revolving Fund. He also reported that there was an increase of 2,000 rounds of golf over last year. Mr. Purple provided an update on the golf irrigation project and stated that the project would likely be completed in the late April/early May timeframe. Ms. Cook suggested the Golf Committee provide an update to the Board on their work in early 2025.

i. RECC update

Mr. Purple stated that this matter would be on each Board agenda going forward. He also stated that, as of this evening, the IMA would be executed by all parties. Mr. Purple reported that the governing board's priorities include executing a lease, hiring an executive director and obtaining recognition by Worcester County Retirement for employment matters, including benefits. He stated that the Owner's Project Manager (OPM) would provide a draft for the next round of grant funding from State 911, which will include IT services, at the governing board's next meeting. He also reported a community update would be provided by the OPM and sub-contractors later this month. Mr. Purple reported that the towns of Millbury, Northborough, Upton and Hopedale have been approached about joining the MetroWest RECC. The Board asked questions about and discussed the status of the building.

Ms. Cook reported that she received a text today from Atlantic Management Corporation, based in Framingham, informing her that they had acquired the property at 32 Coslin Drive and she noted that this is the property where the Town's tower is located. She stated Atlantic Management Corporation is excited about the prospect of developing the area.

V. Consent Agenda

a. Approve Open Session Meeting Minutes: November 19, 2024

b. Appoint Alternate Building Inspector(s)

Mr. Lund stated that the individuals proposed for approval tonight are alternate members and would be called upon in the event Building Commissioner Lund and Inspector Novak are unavailable. Mr. Stivers moved to appoint Michael Giampietro and Peter Tartakoff as Alternate Building Inspectors. Mr. Hamilton seconded the motion. The motion was unanimously approved (5-0-0).

Ms. Cook moved to Reports at this time.

c. Calendar 2025 License Approvals (Wine & Malt; All Alcohol; Common Victualer; Class I, II and II Auto)

Mr. Stivers requested to hold Consent Agenda item "c." Mr. Stivers asked if all paperwork and payments were in order for the licenses. Mr. Purple reported that inspections are ongoing and should be concluded in the near future. He also stated that licenses would not be released until all matters are in order. Mr. Purple acknowledged Ms. Melanie Otsuka for her efforts in managing the license approval process.

d. Award contract for On-Call Engineering Services

e. Approve 2025 Winter Parking Ban

f. Appoint Program Coordinator to Youth and Family Services

g. Accept $4000.00 donation from the Southborough Community Foundation; $2,000 to Summer Concert Series; $2,000 to fund pottery wheels

Ms. Cook moved to approve Consent Agenda items "a", "c", "d", "e", "f" and "g." Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

VI. Other Matters *(Board may vote)*

a. Review ARPA funding and allocations

Ms. Cook moved to remove $1,247.69 from the Southborough Trail Enhancements category and $5,197.47 from the Peninsula Trail category and place $6,445.14 in the General Tax Relief ARPA category. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook moved to allocate $6,445.14 from the General Tax Relief category to the Fire Department Equipment category. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Approve Intermunicipal Agreement (IMA) for Utility Pipe Camera

DPW Superintendent Cundiff stated that the Town was awarded a Commonwealth Community Compact grant in the amount of $110,000 dollars for a utility pipe camera system, which would assist in all aspects of road repairs. He stated he worked with Town Counsel to create a shared equipment agreement for use of the camera system with Hopkinton and Westborough. He noted that Westborough has signed the IMA and that he expects Hopkinton to do so this evening. He stated that the cost of the camera system under review is approximately $143,000 dollars. He stated that the IMA defines the terms of use and shares the additional cost of the system under review. Ms. Cook asked where the Town's portion of additional cost (approximately $11,000) would come from. DPW Superintendent stated that the funds would come out of the DPW's FY25 budget. The Board discussed the regional approach to this matter and other State grants. Mr. Dennington stated that there are discussions with Westborough and the Planning Board to apply for a One Stop grant for a regional Route 9 corridor study, noting that regional grants are generally received favorably by the

State. Mr. Stivers moved to approve the proposed IMA. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

c. Delegation of Tree Warden authority to Tree Warden designee

Ms. Cook stated that Town Counsel has opined that the Board can delegate the Tree Warden authority to Mr. Chris Leroy, who is currently the Tree Warden designee. She stated that, going forward, Mr. Leroy would conduct tree hearings with the Planning Board. She clarified that, when the State House of Representatives and Senate approves the Special Act passed at the 2024 Town Meeting, the Board would vote to appoint Mr. Leroy as Tree Warden. Mr. Stivers moved to approve the delegation of Tree Warden authority to Mr. Chris Leroy, the Tree Warden designee. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

Ms. Cook moved to Consent Agenda items "b" and "d." Building Commissioner Chris Lund appeared before the Board to answer questions on Consent Agenda items "b" and "d."

d. Assign members to negotiate successor Police Chief contract

Mr. Stivers moved to appoint Mr. Dennington to negotiate the draft Police Chief contract on behalf of the Board. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0).

VI. Public Comment

There was no public comment.

VIII. Adjournment

Mr. Hamilton moved to adjourn the meeting at 7:44 PM. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

Mailbox Damage Reimbursement Policy

Purpose:

This policy establishes a consistent approach for reimbursing citizens for mailbox damage caused by snow removal operations conducted by the Town of Southborough Department of Public Works (DPW). The DPW is committed to ensuring roadways remain free of snow and ice during the "Snow and Ice Season." Given that most mailboxes are located within the public right-of-way, damage to them during snow removal operations may be unavoidable. This policy recognizes the shared responsibility between the town and homeowners for mailbox damage during such operations.

Policy:

1. **Customer Responsibility for Mailbox Location and Maintenance**

   a. The U.S. Postal Service (USPS) has guidelines on mailbox installation, please refer to the guidance on the USPS website: https://www.usps.com/manage/mailboxes.htm.

   b. The U.S. Postal Service (USPS) also requires customers to maintain mailboxes to ensure mail delivery and collection. Customers must keep the area around mailboxes clear of snow. This responsibility does not fall to the DPW or its subcontractors.

2. **Mailbox Damage and Reimbursement Eligibility**

   a. While the DPW strives to avoid hitting mailboxes during snow removal, poor visibility and other factors can result in accidental damage to the mailbox by plow trucks.

   b. Reimbursement for mailbox damage will only apply if a Town or Town-contracted plow directly strikes the mailbox. Damage caused by the weight of snow from the plow (plow windrow) will not be covered. Homeowners are responsible for repair or replacement in such cases. The Town recommends installing a protective snow guard shield that will protect your mailbox from snow casting. See examples attached to this policy.

   c. Decorative, elaborate or expensive mailboxes and/or posts installed and unprotected within the right-of-way are installed at the homeowner's risk.

3. **Filing a Reimbursement Claim**

   a. Homeowners must notify the DPW and submit a **Mailbox Reimbursement Request Form** within **48 hours** of the alleged damage. Requests submitted after this period will be reviewed at the DPW's discretion.

   b. All damaged mailboxes and posts must remain available for inspection.

   c. If the damage is determined to be caused by a private contractor under contract with the Town, homeowners must file the claim directly with the contractor using the contact information provided by the DPW.

   d. Approved claims may qualify for reimbursement of up to **$50.00** to cover mailbox, post, and bracket damages. No additional reimbursement will be granted regardless of mailbox cost, location, or design.

4. **Claim Submission Requirements**

   a. Claims must include a receipt for repairs and be sent to:

      Town of Southborough Department of Public Works – Mailbox Claim
      147 Cordaville Road
      Southborough, MA 01772.

5. **Preventative Maintenance**

   a. Property owners are encouraged to inspect mailboxes and posts annually, replacing any rotted or unstable components.

   b. To minimize damage risks, posts should be placed to the left of driveway openings or further from the roadway edge, following USPS guidelines for mailbox placement.

6. **Claim Limitations**

   a. Only **one claim per household per year** will be accepted by the DPW.

7. **Policy Authorization**

   a. This policy **was** approved by the **Select Board** on _____. It will remain in effect until modified or rescinded by a subsequent vote of the Select Board.

The Southborough Public Works Department offers these tips to help reduce the risk of mailbox damage:

- Place a 6- to 8-inch piece of reflective tape on the mailbox to help snowfighters see it at night.
- Remove snow from around your mailbox, but avoid throwing the snow back onto the roadway. This video shows how to minimize snow being thrown onto your mailbox and driveway: https://youtu.be/8Bm7mJxJOSU
- Inspect your mailbox. Make sure it is firmly supported in the ground and check for deteriorated wooden posts and rusted metal posts. Also, make sure your mailbox is securely mounted to the post. Check the mounts for rust and wear as well.
- If possible, avoid plastic mailboxes. Some plastic mailboxes have a tendency to shatter in cold weather.
- If your mailbox continues to get knocked down, you may want to consider changing the location of the mailbox. Sometimes moving the mailbox a few feet in either direction can help.

The Southborough DPW is not able to repair damaged mailboxes. Homeowners who have followed these tips in the past and have still experienced mailbox damage should consider installing protective mailbox snow guard shields (as shown in the attached photos) for your mailbox or install a swinging mailbox support that will swing the mailbox out of harm's way.

EXAMPLES OF MAILBOX PROTECTIVE SNOW GUARD SHIELDS

MAILBOX REIMBURSEMENT REQUEST

I_____ of_____ (address),
(Owner Name) *(Property Address)*
Southborough request reimbursement for damages caused to my mailbox and related fixtures caused by snow removal operations on _____ (date).

Describe damages:

_____
_____
_____
_____
_____
_____

I understand the Town of Southborough has a right to review this claim and may reimburse me up to $50.00 for damages to the mailbox, post and brackets. No reimbursement shall exceed $50.00 regardless of the location, size, original cost or elaborateness of the mailbox, post and brackets. Claims must include a receipt for the repairs. The Town of Southborough is tax exempt and will not cover sales tax. This claim must be submitted within forty-eight (48) hours of the date of the alleged damage. Any claim presented after the 48-hour period will not be accepted by the DPW.

Submit to: *Town of Southborough*
Department of Public Works
147 Cordaville Road
Southborough, MA 01772

I affirm the above statement is true to the best of my knowledge and belief.

Form **W-9**
(Massachusetts Substitute W-9 Form) Rev. March 2020

Request for Taxpayer Identification Number and Certification

Completed form should be given to the requesting department or the department you are currently doing business with.

Name (as shown on your income tax return). Name is required on this line, do not leave this line blank.

Business name/disregarded entity name, if different from above.

Check the appropriate box: ☐ Individual/Sole proprietor or single-member LLC ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/ Estate ☐ Other ►----------

Legal Address: number, street, and apt. or suite no.	**Remittance Address**: if different from legal address number, street, apt. or suite no
City, state and ZIP code	**City, state and ZIP code**

Phone: Fax: Email address:

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. For individuals, this is your social security number (SSN). **However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instruction on page 2.** For other entities, it is your employer identification number (EIN). If you do not have a number, see **How to get a TIN** on page 2.
Note: *If the account is in more than one name, see the chart on page 2 for guidelines on whose number to enter.*

Vendors:
Dunn and Bradstreet Universal Numbering System (DUNS)

Social security number

☐☐☐-☐☐-☐☐☐☐

OR Employer identification number

☐☐-☐☐☐☐☐☐☐

DUNS ☐☐☐☐☐☐☐☐☐

Part II Certification

Under penalties of perjury, I certify that:
1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), **and**
2. I am not subject to backup withholding because: **(a)** I am exempt from backup withholding, or **(b)** I have not been notified by the Internal Revenue Services (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or **(c)** the IRS has notified me that I am no longer subject to backup withholding, **and**
3. I am an U.S. person (including an U.S. resident alien).
4. I am currently a Commonwealth of Massachusetts's state employee: (check one): No____ Yes _____ If yes, <u>in compliance with</u> the State Ethics Commission <u>requirements.</u>

Certification instructions: You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply.

Sign Here **Authorized Signature ►** **Date ►**

Purpose of Form

A person who is required to file an information return with the IRS must get your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to give your correct TIN to the person requesting it (the requester) and , when applicable, to:
1. Certify the TIN you are giving is correct (or you are waiting for a number to be issued).
2. Certify you are not subject to backup withholding

If you are a foreign person, use the appropriate Form W-8. See Pub 515, Withholding of Tax on Nonresident Aliens and Foreign Corporations.

What is backup withholding? Persons making certain payments to you must withhold a designated percentage, currently 28% and pay to the IRS of such payments under certain conditions. This is called "backup withholding." Payments that may be subject to backup withholding include interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

If you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return, payments you receive will not be subject to backup withholding. **Payments you receive will be subject to backup withholding if:**
1. You do not furnish your TIN to the requester, or
2. You do not certify your TIN when required (see the Part II instructions on page 2 for details), or
3. The IRS tells the requester that you furnished an incorrect TIN, or
4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends only), or
5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See the Part II instructions on page 2.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of $50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a $500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of Federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Name. If you are an individual, you must generally enter the name shown on your social security card. However, if you have changed your last name, for instance, due to marriage without informing the Social Security Administration of the name change, enter your first name, the last name shown on your social security card, and your new last name.

If the account is in joint names, list first and then circle the name of the person or entity whose number you enter in Part I of the form.

Sole proprietor. Enter your **individual** name as shown on your social security card on the "Name" line. You may enter your business, trade, or "doing business as (DBA)" name on the "Business name" line.

Limited liability company (LLC). If you are a single-member LLC (including a foreign LLC with a domestic owner) that is disregarded as an entity separate from its owner under Treasury regulations section 301.7701-3, **enter the owner's name on the "Name" line.** Enter the LLC's name on the "Business name" line.

Caution: *A disregarded domestic entity that has a foreign owner must use the appropriate Form W-8.*

Other entities. Enter your business name as shown on required Federal tax documents on the "Name" line. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on the "Business name" line.

Part I - Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box.

If you are a **resident alien** and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see **How to get a TIN** below.

If you are a **sole proprietor** and you have an EIN, you may enter either your SSN or EIN. However, the IRS prefers that you use your SSN.

If you are an LLC that is **disregarded as an entity** separate from its owner (see ***Limited liability company (LLC)*** above), and are owned by an individual, enter your SSN (or "pre-LLC" EIN, if desired). If the owner of a disregarded LLC is a corporation, partnership, etc., enter the owner's EIN.

Note: *See the chart on this page for further clarification of name and TIN combinations.*

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get **Form SS-5**, Application for a Social Security Card, from your local Social Security Administration office. Get **Form W-7**, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN or **Form SS-4**, Application for Employer Identification Number, to apply for an EIN. You can get Forms W-7 and SS-4 from the IRS by calling 1-800-TAX-FORM (1-800-829-3676) or from the IRS's Internet Web Site www.irs.gov.

If you do not have a TIN, write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments.

The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note: *Writing "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.*

Part II - Certification

To establish to the paying agent that your TIN is correct or you are a U.S. person, or resident alien, sign Form W-9.

For a joint account, only the person whole TIN is shown in Part I should sign (when required).

Real estate transactions. You must sign the certification. You may cross out item 2 of the certification.

Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to give your correct TIN to persons who must file information returns with the IRS to report interest, dividends, and certain other income paid to you, mortgage interest you paid, the acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA or MSA. The IRS uses the numbers for identification purposes and to help verify the accuracy of your tax return. The IRS may also provide this information to the Department of Justice for civil and criminal litigation, and to cities, states, and the District of Columbia to carry out their tax laws

You must provide your TIN whether or not you are required to file a tax return. Payers must generally withhold a designated percentage, currently 28% of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to a payer. Certain penalties may also apply.

What Name and Number to Give the Requester

For this type of account:	Give name and SSN of:
1. Individual	The individual
2. Two or more individuals (joint account)	The actual owner of the account or, if combined funds, the first individual on the account [1]
3. Custodian account of a minor (Uniform Gift to Minors Act)	The minor [2]
4. a. The usual revocable savings trust (grantor is also trustee)	The grantor-trustee [1]
b. So-called trust account that is not a legal or valid trust under state law	The actual owner [1]
5. Sole proprietorship	The owner [3]
For this type of account:	**Give name and EIN of:**
6. Sole proprietorship	The owner [3]
7. A valid trust, estate, or pension trust	Legal entity [4]
8. Corporate	The corporation
9. Association, club, religious, charitable, educational, or other tax-exempt organization	The organization
10. Partnership	The partnership
11. A broker or registered nominee	The broker or nominee
12. Account with the Department of Agriculture in the name of a public entity (such as a state or local government, school district, or prison) that receives agricultural program payments	The public entity

[1] List first and circle the name of the person whose number you furnish. If only one person on a joint account has an SSN, that person's number must be furnished.

[2] Circle the minor's name and furnish the minor's SSN.

[3] You must show your individual name, but you may also enter your business or "DBA" name. You may use either your SSN or EIN (if you have one).

[4] List first and circle the name of the legal trust, estate, or pension trust. (Do not furnish the TIN of the personal representative or trustee unless the legal entity itself is not designated in the account title.)

Note: If no name is circled when more than one name is listed, the number will be considered to be that of the first name listed.

If you have questions on completing this form, please contact the Office of the State Comptroller. (617) 973-2468.

Upon completion of this form, please send it to the Commonwealth of Massachusetts Department you are doing business with.

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, November 19, 2024 6:30 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Town Administrator Mark Purple. Absent: Assistant Town Administrator Vanessa Hale

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:30 PM.

II. Public Comment

There was no public comment.

III. Scheduled Appointments *(Board may vote)*

a. David Ferris – MGL Chapter 44, Section 53G appeal for Beehive project at 250 Turnpike Road

Ms. Cook stated that Mr. Ferris is appearing before the Board to appeal against an outstanding bill for services provided by Fuss and O'Neill, the Planning Board's peer reviewer, and she read the two conditions under which the Board can hear an appeal. Mr. David Ferris, Principal of Ferris Development Group, appeared before the Board on the matter. He stated he believes that because Fuss & O'Neill is the only peer reviewer of Planning Board projects, they alone benefit financially from projects done in Southborough. He stated he is appealing the bill for a review of the release of bond monies. Mr. Ferris read his remarks and rescinded the appeal. The Board discussed the appeal. Mr. Dennington and Mr. Hamilton suggested that a periodic review of fees charged by consultants is in the best interest of the Town and they suggested placing this matter on a future Board agenda. Mr. Stivers moved to deny the appeal. Ms. Cook seconded the motion. The motion to deny was approved (4-1-0). Ms. Landry voted against the motion to deny.

b. Mark Davis – 40R Development at the MBTA Station

Mr. Mark Davis, 13 Skylar Drive, appeared before the Board on the matter. He shared his presentation for a smart growth, transit-oriented development (TOD) zoning district around the commuter rail station with the Board and public. He proposed that the Town approach the State to request a "pause" on any next steps with the MBTA legislation and zoning while the Town votes to zone the area around the commuter rail station as 40R. He stated that 40R zoning would allow the Town to receive zoning incentives for capital items, including approximately $800,000 dollars for the Neary School Building project, payments per unit built, and a reimbursement for each student added to the school system as a result of 40R development. Mr. Davis described the process the Town would need to utilize in preparing for a 40R project. He informed the Board that additional funds were available to the Town through the 40R process, including a planning grant from the Catalyst Fund. He stated that the process would result in a Memorandum of Understand (MOU) with the MBTA and any proposed project would be put out to bid. The Board discussed the logistics for obtaining approval from Town Meeting for 40R zoning. Mr. Hamilton asked what the neighbors think of 40R zoning. Mr. John Cage, 6 Parker Street, stated that he believes 40R zoning should be investigated, although it is late in the process, and that the neighborhood does not support four or five story buildings. He also wondered whether the potential wastewater costs justify the potential

$800,000 dollar payment for the Neary School project. Mr. Stivers asked if local permitting processes apply to 40R projects. Mr. Davis stated that while local departments would review any project, the MBTA and 40R regulations apply. Mr. Stivers and Mr. Dennington stated that the 40R process is complex and they are concerned about the amount of work necessary before a Town Meeting vote in April. Mr. John Palmer, 131 Parkerville Road, stated that he is supportive of the 40R zoning concept, as it maintains local control by the Town. There were technical issues at this time for anyone wishing to speak remotely. Those wishing to speak called Ms. Cook's cell phone and were heard by the Board and public in this manner. Mr. James Nichols-Worley, 94 Main Street and speaking remotely, stated he is supportive of 40R zoning and TOD in Southborough and he stated that this zoning would provide important financial relief for the Town. He also stated that the Town Meeting approval threshold for 40R zoning is a simple majority. Mr. Paul Carter, 6 Hillside Drive and speaking remotely, stated that 40R development has been successful in cities where the decision-making process is from the top down. He stated that he does not believe that the 40R process is practical where the Town Meeting model is the decision-making body. Ms. Marnie Hoolahan, 26 Clifford Road, speaking as a Planning Board member and speaking remotely, stated she is interested in the 40R development concept and she would like to investigate development issues surrounding the MBTA station. She stated she does not believe the State would approve swapping MBTA zoning for 40R zoning. Ms. Hoolahan offered to spearhead an effort of investigating potential 40R development issues around the MBTA station with Mr. Davis. The Board agreed with Ms. Hoolahan's offer to work with Mr. Davis on the 40R matter. Mr. Davis stated he would provide links to documents on 40R development and Ms. Hoolahan stated she would create a drop box on the Town's website for anyone interested in viewing that information.

The Board recessed at 7:57 PM and resumed meeting at 8:03 PM.

IV. Reports

a. Chair's Report

i. Neary School project update

Ms. Cook reported that the Neary School Building Committee Communications Subcommittee has been holding events to inform the public of the status of the project. She stated outreach efforts included two tours, an informational coffee at Finn School and a presentation at the Senior Center. Ms. Cook stated that the schematic design phase has started. She also stated that the Neary School Building Committee (NSBC) would meet next week to vote on the type of contract to use. Ms. Cook stated that Jason Malinowski from the NSBC would appear at the Board's December 17th to provide an update on the matter.

ii. Veterans Day update

Ms. Cook reported that the Veteran's Day events were successful and she thanked Mr. Steven Whynot for his assistance with the events.

b. Members' Reports

i. Wastewater treatment

Mr. Hamilton reported that he and Mr. Stivers have met with DPW Superintendent Bill Cundiff to review various wastewater reports. He also reported that they met with the Framingham DPW to explore connecting to Framingham's sewer system along Route 9 but have learned that the Massachusetts Water Resource Authority (MWRA) does not look favorably on this concept. He also reported that they have met with Westborough's Select Board Chair to discuss Westborough's expansion of its wastewater treatment system. He also stated that they would meet with Weston and Sampson to review the recommendations provided in their most recent report. Mr. Hamilton

and Mr. Stivers stated the goal is to formulate a plan to address the issue and examine potential options and costs.

c. Town Administrator's Report

There was no Town Administrator's report.

V. Consent Agenda

a. Approve Open Session Meeting Minutes: October 22, 2024

Mr. Stivers requested to hold Consent Agenda item "a." Mr. Stivers and Ms. Landry had scrivener's changes to the minutes.

Mr. Dennington moved to approve Consent Agenda items "a", as amended, "b", "c" and "e." Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Appoint Part-time Senior Center Volunteer Coordinator

c. Approve updates to Comprehensive Emergency Management Plan (CEMP) plan

d. Extend charge of the 21 Highland Future Use Committee to 6/30/2025

Ms. Cook requested to hold Consent Agenda item "d." Ms. Cook stated that the Committee has elected a chair, vice chair and clerk but is just beginning their work. She requested that the dates in the charge be moved as follow: interim report due on February 28, 2025 and final report due on June 30, 2025. Mr. Stivers moved to approve Consent Agenda item "d" with the above-listed date changes. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0). Ms. Kristin LaVault, 12 Southwood Drive, speaking as a member of the 21 Highland Future Use Committee and speaking remotely, thanked the Board for extending the dates in the charge. She stated that the Committee's chair did not act incorrectly and said their discussion revolved around a potential survey. She stated the Committee is aligned on its path forward and she expects they will provide updates prior to the February 28, 2025 interim report date. Ms. Cook announced that there is a vacancy for the citizen-at-large position on the Committee and urged the public to consider the position.

e. Appoint Michelle Hokinson as the Historical Commission rep. to the Tricentennial Committee; term to expire 6/30/2025

VI. Other Matters *(Board may vote)*

a. DOR Policy review and plan for implementation

Ms. Cook reported that DOR had provided recommendations on the Town on management policies and financial policies. Ms. Cook stated that the Town would first address recommendations of financial policies. Ms. Cook stated that Mr. Ballantine suggested that the Finance team (Mr. Ballantine, Ms. McAuliffe and Mr. Cibelli) work with Mr. Purple and one member each from the Board and from the Advisory Committee to provide recommendations for implementation. The Board discussed and agreed to the plan. Mr. Dennington moved to appoint Mr. Hamilton as the Board's liaison to work with the Advisory Committee and the Finance team on the recommendations for implementing the DOR policy review. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Set Select Board meeting schedule for the remainder of FY25

Mr. Dennington moved to adopt the Select Board meeting schedule for the remainder of FY25. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

c. Review and approve Intermunicipal Agreement for the inclusion in Metrowest Regional Emergency Communication Center (RECC)

Ms. Cook stated that the amended and restated Intermunicipal Agreement (IMA) between Grafton, Westborough and Southborough for the Metrowest Regional Emergency Communication Center (RECC) is before the Board for consideration. The Board discussed the IMA. Mr. Hamilton stated he

is not in favor of the funding mechanism but is in favor of moving forward. Ms. Cook stated she has some issues with the language in the agreement but believes those can be resolved. She stated it is important to move forward so that Southborough can be appropriately represented in the process. Mr. Hamilton moved to approve the amended IMA included in the packet. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Mr. Hamilton moved to appoint Mark Purple as the Board's representative to the Metrowest RECC Board of Directors. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). The Board discussed that Mr. Purple would appoint Mr. Ballantine to the RECC's Finance Board. The Board discussed next steps in the RECC process, which will be negotiating the lease, moving forward with the grant process and hiring an Executive Director. Ms. Cook asked how long the process would take until full implementation. Mr. Hamilton stated he estimates that it will take approximately two years. The Board acknowledged the work by all parties involved in bringing this matter to fruition, including Mr. Stivers, Mr. Hamilton, past Board members and former Fire Chief Achilles.

d. Discussion of filling vacancy in Select Board position on the Metropolitan Area Planning Council (MAPC)

The Board agreed to table the matter to a later date. Mr. Stivers will follow up with Mr. Purple to confirm Debbie DeMuria's appointment and will speak with Ms. DeMuria to confirm she is the representative attending meetings on the Town's behalf.

e. Discussion of One Stop grant application for zoning on Route 9

Mr. Dennington stated that at the Board's office hours last week, an informal discussion took place with Economic Development Committee (EDC) Coordinator Leah Emerson, EDC chair Michael Nordstrom, EDC member Karen Anglim and Claire Reynolds. They discussed efforts to make zoning changes that favor business development along Route 9 and in Southborough overall. The Board discussed the various ongoing efforts to support positive zoning changes. They agreed to support the work of Ms. Landry, Mr. Hamilton, Building Commissioner Lund and the Planning Board to propose smaller zoning changes for presentation at Annual Town Meeting 2025. The Board agreed to consider the Corridor Study grant and Ms. Cook suggested the Board contact Mr. Rob Anderson regarding the grant. Mr. Dennington stated that he would meet on Friday, November 22nd, with Assistant Town Administrator Vanessa Hale and EDC Coordinator Emerson to discuss a plan to apply for the One Stop Grant Expression of Interest, which is due on February 1, 2025, and an MAPC technical assistance grant for zoning, which is due on December 13, 2025. He stated he would work with Mr. Alan Belniak on the application for the MAPC grant.

VI. Public Comment

There was no public comment.

VIII. Adjournment

Mr. Dennington moved to adjourn the meeting at 8:12 PM. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

Upcoming Meetings

DRAFT

TOWN OF SOUTHBOROUGH
BUILDING DEPARTMENT
9 CORDAVILLE ROAD
SOUTHBOROUGH, MASSACHUSETTS 01772-1662
Main: (508) 485-0710

Ms. Kathy Cook
Chair, Select Board
17 Common Street
Southborough, MA 01772

11/26/2024

Subject: Appointment of Alternate Building Commissioners

Dear Board Members,

Need: Our department has identified the necessity of appointing Alternate Building Commissioners who can step in on an emergency basis should Gene Novak or I be unavailable. In collaboration with the Town Administrator, we initiated efforts to identify suitable candidates who could provide on-call support, ensuring continuity of service and departmental representation during such times.

Recruitment Process: The position of Alternate Building Commissioner was posted in September. Following this, Vanessa Hale, Assistant Town Administrator, and I conducted interviews earlier this month. The candidates underwent comprehensive background and reference checks, which yielded highly favorable results.

Recommendation: After a thorough and diligent recruitment process, the Town Administrator and I are pleased to recommend the appointment of Michael Giampietro and Peter Tartakoff as Alternate Building Commissioners.

- **Michael Giampietro** has 26 years of experience as a Building Commissioner and recently retired from the Town of Millis.
- **Peter Tartakoff**, who retired in 2018, has continued to provide alternate building inspection services for several local communities, demonstrating his ongoing commitment and expertise in the field.

Funding: The proposed inspectors will be compensated per event through the revolving fund. Compensation will follow the same schedule utilized for our plumbing and wiring inspectors in off-hours emergencies. This rate will apply for any responses requiring them to travel to town for emergency situations.

Thank you for your time and consideration of this recommendation. We believe the addition of Mr. Giampietro and Mr. Tartakoff will strengthen our department's readiness and ensure consistent support for the community during critical situations.

Very Respectfully,

Christopher E. Lund, CBO
Town of Southborough
Building Commissioner
(508) 485-0710 x3022
clund@southboroughma.com

CC: Mark Purple, Town Administrator
Via email

Peter N Tartakoff

Objectives:

To utilize my knowledge, experience and certifications to assist in maintaining the integrity of Municipalities on an as needed basis, as well as within the building industry, through maintaining compliance with the State and National Codes, as well as the local ordinances, general by-laws, and Zoning Regulations.

Work and Construction Experience:

Retired Nov. 2018 and currently acting as an alternate for municipalities on an as needed basis. I have been doing this while previously employed for approximately the last 10 years in Southborough and Natick during inspector absences. I have continued to perform these services in the Town of Natick, Ashland, Medfield as well as the City of Framingham.

Town of Holliston: ***Building Commissioner and Zoning Enforcement Officer*** ***1993 – 2018***

Responsible for the interpretation, processing and enforcement of the State Building Code, Electrical Code, Plumbing Code, Gas Code, State Sanitary Code, Zoning By-Laws, Architectural Access Board Regulations, and Historic District Regulations.

- Inclusive of comprehensive plan review of all construction plans, specifications, for new construction, reconstruction, alterations, repairs, and additions, as well as permit issuance and all related inspections and follow through on all permitted projects.
- Interpret and enforce all applicable laws and codes for contractors, developers, architects, engineers, and property owners.
- Issue all necessary notices and orders to correct illegal and unsafe conditions, negotiate resolutions of non-compliance, and institute court action if necessary.
- Handle all customer services questions and issues, either by phone or in writing. Maintain records and documents of all issues and resolutions.
- Review of all new businesses for compliance with all general By-laws as well as Zoning regulations and perform periodic inspections to ensure maintenance with these regulations.
- Responsible to provide and oversee staff(5) including Plumbing, Wiring, Gas, and other staff as needed to provide an efficient and smooth operating department providing all the services to the community. Supervisory activities include performance reviews, providing feedback, scheduling hours and time off, training and professional development, reviewing work, establishing work procedures and standards.

- Responsible for making sure we coordinate our services with all other Land Use departments as well as the Assessors, DPW operations, and other Governmental bodies.
- Preparing annual budgets, track and report expenses and income periodically during the fiscal year for annual reports, the census bureau, and other agencies for growth reports and other aspects of governmental needs.
- Identify and respond to the community and the Board of Selectman issues and concerns.

Town of Brookline: ***Building Inspector and Zoning Enforcement*** ***1990-1993***

- Responsible for all aspects of permit issuance as well as review of potential businesses and follow up on licensure and periodic or annual inspections of all businesses within my district. This included everything from restaurants, service stations, health care facilities, educational facilities, and others that are regulated by the Local jurisdiction or those of the Commonwealth.

Town of Framingham: ***Code Enforcement / Building Inspector*** ***1987 - 1990***

- This position included review of applications for businesses as well as signage to ensure compliance with all By-laws.
- Responsible for field inspections for projects under construction and existing facilities to ensure continued compliance with prior permit conditions and regulations.

Tartakoff Home Improvements: ***Owner*** ***1979 – 1987***

- Focused on small additions, decks, roofing, siding and interior remodeling and renovations.
- Responsible for all aspects of the business operation including bidding, permit acquisition, advertising, and management.
- In 1984 I added plan development and home building as well as site management and contract fulfillment and agreements with home buyers and banks.

Domestic Services, Inc: ***Laborer*** ***1976 – 1984***

- Entry position, site preparation in construction related activities
- Advanced into framing, frame layout, plan reading and finish work.
- Later worked collaboratively with this company on many projects while managing my own business.

MEMORANDUM

DATE: December 3, 2024

TO: Honorable Select Board

FROM: Melanie Otsuka, Executive Assistant

SUBJECT: On-Call Engineering Services

Since 2004, Fuss & O'Neill has provided on-call engineering services to the Town of Southborough. It was decided that it was in the best interest of the Town to explore other options for those services. A Request for Proposals was sent to the following engineering firms:

- Haley Ward
- Fuss & O'Neill
- Howard Stein Hudson
- Nitsch Engineering

On October 15, Haley Ward presented their proposal to a review panel consisting of me, Conservation Agent Melissa Danza, DPW Superintendent Bill Cundiff, Town Planner Karina Quinn, and Planning Board Chair Meme Luttrell. On October 17, Howard Stein Hudson and Nitsch Engineering presented their proposals to the panel. Fuss & O'Neill informed the Town that their firm would no longer provide municipal engineering services.

Based on those presentations and follow-up reference checks, the panel recommends awarding the contract to Nitsch Engineering for on-call engineering services for an initial contract term of one year.

Thank you.

RE: Nitsch Proposal #16061.P
Qualifications for On-Call
Engineering Consultant/
Peer Review Services
Southborough, MA

Dear Ms. Danza:

The Town of Southborough is a residential community that embraces its pastoral charm. To continue to allow your community to flourish, the Town seeks an engineering and peer review consultant to provide technical review and planning for Town projects, working directly with various boards, committees, and departments. Nitsch Engineering is enthusiastic about this opportunity to provide these services as needed in a responsive and professional manner. Nitsch is a 120-plus person firm that specializes in providing civil, transportation, and structural engineering; land surveying; green infrastructure and resilience; planning; and geographic information systems (GIS) services. We are flexible, committed to schedules, and have an established reputation for integrity and fairness. We hope the Town of Southborough continues to rely on our responsive and professional services, as we have been providing you with a variety of civil engineering, traffic engineering, and land surveying services ***since 1999***.

Meeting Your Needs

To support the Town of Southborough as it works to meet the demands of current infrastructure and future growth, the Nitsch Team is prepared to assist the Town by providing a range of engineering and review services to meet your needs. For 35 years, Nitsch has been building better communities with our municipal clients, including Carlisle, Concord, Dracut, Groton, Weston, Waltham, Boston, Buckland, and Medford. We help clients make infrastructure improvements that ***improve safety, accessibility, resilience, and sustainability for communities – while maintaining the community's character***. We thoroughly understand local, State, and Federal policies and procedures, and are well-versed in the latest design standards. This knowledge and experience will provide the Town of Southborough with confidence in our ability to provide responsive and comprehensive review services while adhering to deadlines to help you achieve your goals for your community.

Nitsch is dedicated to meeting – and often exceeding! – our clients' expectations. To better understand the experience our clients have with us, we recently had a third-party ask them, "What three words best describe Nitsch Engineering?" The words that came up time and again were ***knowledgeable***, ***responsive***, and ***reliable***. As the direct result of this dedication to meeting client needs, we have earned their respect and confidence – a fact that is clearly demonstrated by the ***97% of our work that comes from repeat business***.

We have reviewed your Request for Proposals and have developed our submission as requested, including our Statement of Qualifications, Proposed Billing Rates Fee Sheet & Structure, Sample Peer Review Letter, and Evidence of Compliance with Insurance Requirements. If selected, we look forward to negotiating contract terms with you. Should any questions arise as you review our submittal, please feel free to contact Project Manager Chris Hodney, PE at 857-206-8673 or chodney@nitscheng.com; he will respond promptly.

Very truly yours,

Nitsch Engineering, Inc.

Lisa A. Brothers, PE, ENV SP, LEED AP BD+C
President & CEO

Statement of Qualifications

Background & Qualifications of the Nitsch Team

The Nitsch Team will be led by Nitsch Engineering, providing civil, transportation, and structural engineering review services. We will supplement our services as needed with our subconsultants: **GROUND Inc.** will provide landscape architecture services as needed; **LEC Environmental Consultants, Inc.** will provide environmental review services as needed; and **Vincent A. Dilorio, Inc.** will provide electrical engineering review services as needed. Our team has years of experience working together in communities across the Commonwealth and you can be confident in our ability to provide comprehensive review services to the Town of Southborough.

Nitsch Engineering

Since 1989, Nitsch Engineering has been supporting municipalities by providing a range of civil engineering, traffic and transportation engineering, and land surveying services. Over our 35-year history, we have worked on projects in over 260 cities and towns across Massachusetts, as shown in light blue on the map, providing peer reviews, design, traffic analysis, permitting, land surveying, and stormwater/drainage analysis. With offices located in ***Boston, Lawrence, and Worcester***, we are well-positioned to work on projects across the state, providing our clients responsive and efficient professional services.

Nitsch is very passionate about providing municipal consulting services, and helping our clients achieve design solutions that meet their needs while balancing cost and budget constraints. The size of our firm offers our clients the comfort of knowing we are large enough to handle multiple projects at a time, yet small enough to offer you personalized service. Our past experience in providing municipal consulting services has allowed us to develop an established management approach that will save you time and money. Furthermore, we are flexible, committed to schedules, and provide consistent personnel; and we have an established reputation for integrity and fairness.

Company Knowledge

Helping municipalities shape their future is something Nitsch has been doing since 1989. We fully support the intentions of Conservation Commissions, Planning Boards, Boards of Health, Zoning Boards, Public Works Departments, Select Boards, and Development Commissions in conducting development reviews and providing design services as expeditiously and comprehensively as possible. ***Nitsch has provided engineering consulting services to a multitude of Massachusetts communities,*** either on a project-specific basis or through an on-call contract. Specifically, our review experience has allowed Nitsch to develop a proven method for performing reviews that helps expedite the review process.

In addition to our experience in performing reviews, Nitsch has extensive experience in engineering and permitting projects ranging from utility and roadway projects to large mixed-use developments. ***Having been on both the reviewer's side and the developer's side of a project, we fully understand the need for clear, implementable regulations and development submission standards.*** Nitsch understands both the design and regulatory processes, and has established a reputation for integrity and fairness, which results in a better project for the community.

Ground Inc.

Ground Inc., a certified Women Business Enterprise, is an award-winning landscape architecture practice with a depth of experience in providing consultant and peer review services for public realm projects. Their practice is committed to offering expert analysis and guidance, ensuring that each project aligns with best practices, regulatory standards, and innovative design principles. The firm was established with the specific pursuit of creating landscapes that unite aesthetics, ecology and practicality, conceived and executed at the highest technical level. Ground's project experience is wide-based, ranging from public plazas, housing, mixed use, active streetscapes, civic buildings, to public parks. Past clients of their team of landscape professionals include cities, public institutions, architects, private developers, and individuals. Whether across time zones or across the table, they believe the keys to success in any collaboration are mutual respect and clarity of communication.

Amidst a growing awareness of the world's limited resources, design is an optimistic profession. They understand a truly sustainable approach to be multi-tiered and thus strive to create landscapes that add ecological, social, financial and aesthetic value to the projects they undertake.

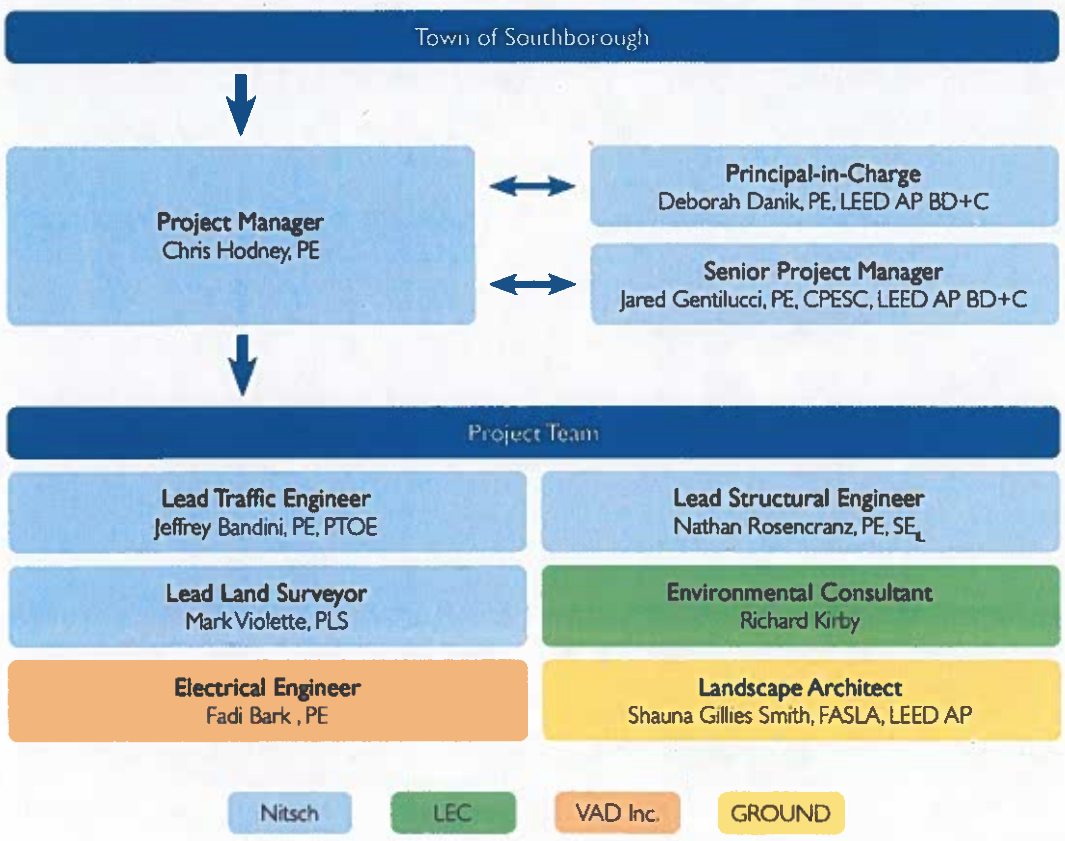
LEC Environmental Consultants, Inc.

Founded in 1987, LEC Environmental Consultants, Inc. (LEC) is a woman-owned ecology-based, environmental consulting firm dedicated to managing the interface between the natural sciences and land use planning. Successfully integrating these two disciplines requires an understanding of the underlying science and ability to accurately interpret and articulate local, state, and federal regulations.

LEC staff are skilled and experienced in conducting inland and coastal wetland delineations and characterizations, function and value assessments, and wetland restoration/creation, wildlife habitat evaluations, and wildlife inventories and surveys including rare plants and animals. They maintain three offices in Massachusetts (Plymouth, Wakefield, and Worcester), one Rhode Island office (East Providence), and a satellite office in Rindge, New Hampshire. LEC is a certified WBE/DBE in Massachusetts.

Since their inception, LEC has been committed to assisting public agencies, municipalities, land owners, developers, and conservation organizations to maximize land use values and achieve project goals by finding creative solutions to protecting natural resources that bring added value to land development, management, and protection. They routinely work on teams that include engineers, landscape architects, surveyors, architects, and attorneys, and regularly collaborate with local, state, and federal regulatory personnel—facilitating an integrated approach to environmental permitting and land use planning.

Vincent A. Dilorio, Inc.



Established in 1972, Vincent A. Dilorio, Incorporated (VAD, Inc.) is an engineering consulting firm with a talented staff of engineers and technicians. Capabilities include all facets of electrical engineering including site lighting, sports field lighting, landscape lighting, exterior building lighting, lighting calculations, and controls. All work completed is in accordance with the most up-to-date applicable standards and codes to include: Illuminating Engineering Society of North America (IESNA) and Dark Skies of America, State and Local Codes.

VAD, Inc. has earned a strong reputation in the New England area and beyond for quality and efficiency in electrical design. They have a track record for excellence and a broad scope of capabilities as demonstrated by a varied array of successful projects and satisfied clients. VAD, Inc. is committed to dependability, accuracy, and promptness.

Project Staffing & Team Qualifications

The Nitsch Team will be led by ***Project Manager Chris Hodney, PE***, who will be the Town of Southborough's main point of contact and responsible for overseeing the Nitsch Team's review process to make sure that we provide adequate and timely attention to each peer review. As the ***Principal-in-Charge, Deborah Danik, PE, LEED AP BD+C*** will oversee committing the Nitsch Team's resources to complete our scope of services. She will also provide quality assurance and control. ***Senior Project Manager Jared Gentilucci, PE, CPESC, LEED AP BD+C*** will provide Chris additional management support as needed.

The Nitsch Team staff have the capacity to prioritize peer reviews assigned under this contract. They will provide responsive services to meet your needs. The organization chart below identifies the roles of our key team members and how the Nitsch Team will coordinate with the Town of Southborough. **Resumes for these key team members, including their qualifications, and professional registration and licensure have been provided on the following pages.**

Chris Hodney, PE
Project Manager

Years of Experience
- *13 in industry*
- *13 at Nitsch Engineering*

Registration
- *Massachusetts: Professional Engineer (Civil) #52650, 2016*
- *Massachusetts: Certified Soil Evaluator #SE13687, 2013*
- *OSHA (10-hour) Certified*

Education
- *B.S., Civil Engineering, Northeastern University, 2011*

In his 13-year career as a civil engineer, Chris has focused on providing site design services for commercial and residential projects in the City of Boston, as well as large academic projects throughout eastern Massachusetts. His primary role in these projects is providing drafting, roadway grading, and construction administration services. As the result of his experience in the City of Boston, Chris has developed an understanding of how to work through the Boston Water and Sewer Commission and Public Improvement Commission permitting processes.

Chris is skilled in providing AutoCAD Civil3D drafting and design; using Civil3D features such as Pipe Networks, Corridors, and Surfaces to increase plan accuracy and design speed. He is also experienced in using Autodesk Storm and Sanitary Analysis to analyze pipe networks.

Relevant Projects

Wheaton College Hebe Court
Norton, MA
Project Manager for a peer review of storm drainage improvements to a portion of the Wheaton College campus in Norton, Massachusetts. Reviewed plans for conformance with standard engineering practices, the Massachusetts Department of Environmental Protection (MassDEP) Stormwater Standards, and the Town of Norton's Stormwater Bylaw.

Upton Community Center
Upton, MA
Project Manager for civil engineering construction phase services associated with the Upton Community Center in Upton, Massachusetts. Worked with the Upton Department of Public Works and Town Manager to reconfigure parking and design accessibility improvements to the site. Performed site visits and responded to contractor Requests for Information (RFIs) to observe conformance with the design and with MassDEP regulations associated with the Order of Conditions from the Upton Conservation Commission.

Faneuil Branch Library
Boston, MA
Senior Project Engineer for civil engineering services for the Boston Public Library, Faneuil Branch, in the Brighton neighborhood of Boston, Massachusetts. Designed stormwater management improvements and site utility improvements for the project. Assisted with permitting through the Boston Water and Sewer Commission (BWSC) and Boston Public Works Department (BPWD).

Westford Road Culvert Replacement
Carlisle, MA
Resident Engineer onsite for the reconstruction of a culvert under Westford Road in Carlisle, Massachusetts. Worked with the contractor and the Superintendent of Public Works during construction to coordinate the location and design of the culvert to minimize the amount of time the roadway was closed. Worked with the Carlisle

Chris Hodney, PE
Project Manager

Relevant Projects – continued

Conservation Commission to address wetland impacts during the emergency repair.

Essex North Shore Regional High School
Danvers, MA
Project Designer responsible for drafting plans for the expansion of a regional high school. Used Civil3D and Storm and Sanitary Analysis to model the proposed pipe network and create roadway grading and profiles.

Carter School
Boston, MA
Project Manager for civil engineering services for with the Carter School. Designed site utilities including domestic water and fire protection and sanitary sewer. Designed stormwater management systems to meet BWSC standards. Assisted with permitting through the Boston Planning and Development Agency (BPDA), BWSC, Public Improvement Commission (PIC), and US Environmental Protection Agency (EPA).

Fire Alarm Building, Fence and Vehicle Deterrent System
Boston, MA
Project Designer for civil engineering services associated with the design and construction of a new fence and vehicle deterrent system in front of the City of Boston Fire Alarm Building located at 59 Fenway. Supported preparation of a site preparation/ demolition plan and wall layout plan, design of the site wall and fence, and preparation of a quantity/cost estimate. Coordinated with the structural engineer, electrical engineer, sub-surface utility engineer, and graphic designer.

Clippership Wharf
East Boston, MA
Project Designer for civil engineering services for the new mixed-used development along Boston Harbor. The development consists of four buildings including 478 residences and 30,200 square feet of retail and public space, as well as a 300-space underground parking garage. Assisted with design of the site utilities, site circulation, groundwater recharge system, public and private street improvements, and the BWSC 48-inch storm drain that traverses the site. Permitting included the BPDA Large Project Review, Chapter 91, Boston Conservation Commission, BWSC, PIC, and EPA National Pollutant Discharge Elimination System (NPDES) registration.

28 Austin Street
Newton, MA
Senior Project Engineer for civil engineering services for the redevelopment of a parking lot into a four-story mixed-income rental residential building, with below-grade and at surface public parking and first floor retail. Designed the site layout, utilities, and grading, as well as improvements to the Private Way abutting the site. Approval of the project required the Newton Zoning Board of Appeals, included obtaining approval from the Newton Planning and Development Department, Newton Department of Public Works, Newton Engineering and Utilities Divisions, and Newton Fire Department.

Clippership Wharf, East Boston, MA

Jared has over 20 years of experience as a Civil Engineer, all at Nitsch Engineering. He has worked on and managed various site development and building projects throughout Massachusetts. His areas of expertise include design of stormwater management systems, site utility systems, site layout and grading, erosion and sediment control, construction administration services, and permitting through various local, State, and Federal agencies. He is also an experienced user of AutoCAD Civil 3D, HydroCAD, Storm and Sanitary Analysis, Bluebeam, and Microsoft Office software.

Relevant Projects

788 Boston Road
Groton, MA
Project Manager for a peer review of a commercial and retail project at the intersection of Boston Road (Route 119) and Sandy Pond Road in Groton. Reviewed the site plans and drainage calculations for conformance with local, state, and federal regulations, prepared review letters, attended review meetings with the Town of Groton and Applicant, and attended Groton Town Board meetings.

Bertozzi Farms Subdivision
Groton, MA
Project Manager for a peer review of a residential subdivision project at Amelia Way in Groton. Conducted site visits to confirm status of completed work, prepared bond estimates, prepared field reports, and reviewed as-built plans.

Rocky Hill Subdivision
Groton, MA
Project Manager for a peer review of a residential subdivision project located between Boston Road (Route 119) and Sandy Pond Road in Groton. Conducted site visits to monitor erosion and sedimentation controls, confirmed status of completed work, prepared bond estimates, prepared field reports, and reviewed as-built plans.

Music Center at Indian Hill
Groton, MA
Project Manager for a peer review of a music center located at 122 Old Ayer Road in Groton. Conducted site visits to monitor erosion and sediment controls, confirmed status of completed work, and prepared field reports.

Chamberlains Mill
Groton, MA
Project Manager for a peer review of a residential subdivision located at Chamberlains Mill Lane in Groton. Conducted site visits to monitor erosion and sedimentation controls, confirmed status of completed work, prepared bond estimates, and reviewed as-built plans.

New England Shirdi Sai Parivaar Temple
Groton, MA
Project Manager for a peer review of a temple located at 99 Shirdi Way off of Boston

Road (Route 119) in Groton. Conducted site visits to monitor erosion and sedimentation controls, confirmed status of completed work, reviewed modifications to plans and drainage calculations, and prepared review letters.

Consulting Engineering Services
Northborough, North Reading, Raynham, Weston, Norfolk, and Chelmsford, MA
Project Engineer for consulting engineering and design review services for projects in various communities. Assisted with review of site plans for residential and non-residential developments; Notices of Intent; and roadway, utility, Title 5 compliance, and stormwater management systems for compliance with standard engineering practices, constructability, and conformity to town, state, and federal regulations.

The Loop, Northborough, MA

The Loop
Northborough, MA
Project Engineer for a peer review of a 566,000-square-foot residential and retail project near the intersection of Route 9 and Route 20 in Northborough. Assisted with review of the 40B submittal, Notice of Intent, and associated plans and calculations. Addressed issues with the layout, grading, and utilities; stormwater runoff; outdoor lighting; open space standards; parking; and loading docks. Provided construction administration services to monitor erosion and sedimentation controls and installation of site work (utilities, drainage, roadways, parking lots, and curbing).

White Street Fire Station, Springfield, MA

White Street Fire Station
Springfield, MA
Project Engineer for civil engineering services for a new fire station. Services included site layout, grading, materials, planting, and utility design; stormwater management design; work associated with site LEED credits; preparation of a draft Stormwater Pollution Prevention Plan; permitting through the Springfield Water and Sewer Commission and Springfield Department of Public Works; and construction administration tasks. This project achieved LEED Gold certification.

Western Massachusetts Fire Training Academy, Springfield, MA

Western Massachusetts Fire Training Academy
Springfield, MA
Project Engineer for civil engineering services for a new fire training academy located in Springfield. Services included preparation of Division of Capital Asset Management and Maintenance (DCAMM) study phase documents, which include schematic site plans for three building options, stormwater design, rainwater harvesting analysis for water reuse for training exercises, and preparation of a life cycle cost analysis for the rainwater harvesting system.

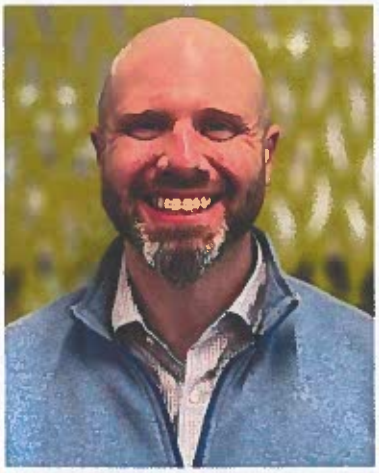
Burke High School and Combined Library
Boston, MA
Project Engineer for the construction of a building addition at the community high school that serves the Dorchester, Roxbury and Mattapan areas of Boston. Designed the utilities, grading, and layout improvements for the site, and relocated the existing BWSC drain and sewer lines.



Overlook Terrace at Orient Heights
East Boston, MA
Project Manager for civil engineering services for the redevelopment of a Boston Housing Authority multi-family housing development consisting of 331 units. The housing development was replaedreplaced with 51 townhouses and mid-rise buildings. The 15-acre development contains new public space, a new public park, a community center, and management office. There are a total of 265 vehicle and 330 bicycle parking spaces. This project was partially funded through federal, state, and City of Boston sources. Conducted feasibility studies and analysis of the existing site. Performed site design services (grading, utilities, and layout design). Provided permitting services permitting with the BPDA, BWSC, PIC, and Boston Transportation Department (BTD).

Washington-Beech Housing, Phase I
Boston, MA
Project Engineer for civil engineering services for the redevelopment of the Washington-Beech housing development. The first phase added 100 new units to the property (in four townhouses and a midrise building) and created three new streets. Designed the site utilities, grading, and layout for Phase I, as well as two new public streets and one private way. Permitted the improvements and additions with the Boston Public Works Department (BPWD), BTD, BWSC, Boston Street Lighting Division, BPRD, and private utility companies. Developed the specifications and cost estimates for the project. Worked closely with the project team to address AUL concerns during the design and permitting process.

- *Member of Institute of Transportation Engineers (ITE), Member, 2006 - present*
- *Member of Barnstable County Public Works Association (BCPWA), Member, 2018 - present*

Jeff has 18 years of experience as a transportation project manager and engineer. During this time, his experience includes managing and performing traffic impact studies for site development and roadway improvement projects; designing roadway segments, intersections, and roundabouts; and creating full engineering plan sets of roadway and intersection projects, including construction, signing/striping, signal, and traffic management plans. Jeff has conducted traffic analysis and timing determination of signalized intersections, including coordination; and he has performed highway design and engineering, including geometry, specifying signage, and quantity take-off estimates.

Jeff has an in-depth understanding of industry-standard and computer programs, including Civil 3D, AutoTURN; Synchro; and SIDRA. Jeff is familiar with the standards required by the ITE Trip Generation Manual; ITE Parking Generation Manual; A Policy on Geometric Design of Highways and Streets; Highway Capacity Manual; Manual on Uniform Traffic Control Devices (MUTCD); MassDOT Project Development & Design Guide; and the National Association of City Transportation Officials (NACTO) Urban Street Design Guide.

Relevant Projects

Peer Reviews
Various Locations, MA
Performed peer reviews of traffic reports developed by other consultants, checking for compliance with standard engineering practices, local regulations and policies, and State regulations.

Site Plan Peer Reviews
Dedham, MA
Project Manager for various site plan peer reviews in the Town of Dedham, Massachusetts. Scope included reviewing applicant submission materials for compliance with standard engineering practices and Town of Dedham regulations. Scope included coordinating with the Town of Dedham and Applicant during review process, compiling review letter and issues summary, presenting findings to the Dedham Planning Board, and negotiating appropriate Applicant mitigation on the Town's behalf. *Project experience with prior firm.*

275 Green Street Warehouse Peer Review
Wrentham, MA
Project Manager for peer review of 275 Green Street Warehouse in the Town of Wrentham, Massachusetts. Scope included reviewing applicant submission materials for compliance with standard engineering practices and Town of Wrentham regulations. Scope included coordinating with the Town of Wrentham and Applicant during review process, compiling review letter, presenting findings to the Wrentham Planning Board, negotiating appropriate Applicant mitigation on the Town's behalf, and assisting the Town on understanding the Massachusetts Department of Transportation (MassDOT) funding and design process. *Project experience with prior firm.*

Jeffrey T. Bandini, PE, PTOE
Senior Project Manager

Relevant Projects – continued

Centre Street Roundabout
Boston, MA
Senior Transportation Engineer for the reconfiguration of Centre Street Roundabout located in a densely populated neighborhood of Boston. To improve safety for pedestrians and bicyclists, and reduce traffic speed, designed improvements that reconfigured vehicle operation through the intersection, following standard guidelines for roundabout operation. Travel lanes were significantly reduced, and standard splitter islands were constructed at the intersection approaches to slow vehicle speeds and reduce crosswalk lengths. A large pedestrian plaza was created, including bike share kiosks, bicycle racks, benches, and trees.

Thurgood Marshall Middle School, Lynn, MA

Billerica High School
Billerica, MA
Senior Traffic Engineer responsible for providing traffic engineering services for proposed site improvements to the existing Billerica High School. Collecting bicycle and pedestrian volume data, and inventorying traffic control devices, traffic circulation, and access and egress. Developing a report based on findings, and information and comments provided by the School and the Town, that describes existing and proposed site improvements and methodologies.

Thurgood Marshall Middle School
Lynn, MA
Senior Traffic Engineer for traffic engineering services associated with the construction of a new 181,847-square-foot middle school. Evaluated existing site traffic conditions, collected traffic data, reviewed past studies, and inventoried traffic control devices. Prepared a report providing site improvements in regard to access/egress, site circulation, and impacts to adjacent roadways.

Dalton Street Bridge
Boston, MA
Transportation Engineer for the Dalton Street bridge replacement. Assisted with the preparation of traffic management plans (TMPs) for shifting the traffic under the bridge onto the Massachusetts Turnpike for the various stages of construction. Assisted with traffic signal design, traffic data collection and studies, preparation of traffic detour plans, traffic studies on the detoured routes, and roadway and transportation design.

City of Boston, Signalization of Five Intersections
Boston, MA
Transportation Engineer responsible for preparing the Functional Design Report (FDR) and analyzing five existing unsignalized intersections and providing the information necessary to provide traffic signal systems at each location, including traffic signal timing and ideal approach lane configurations.

Nathan L. Rosencranz, PE, SE_{IL}
Director of Structural Engineering

  - *Executive Committee Chair, 2018-2019*
- *Boston Society of Civil Engineers Section (BSCES/ASCE), Member, 2010-Present*
- *American Society of Civil Engineers (ASCE), Member, 2004-Present*

Nathan is a structural engineer with over 18 years of experience predominantly in bridge design and bridge construction engineering with a specialty in solving complex problems with innovative solutions. He has a history of doing this on both Design-Bid-Build and Design-Build projects. He has extensive experience working on complex bridges and utilizing accelerated bridge construction.

Nathan also has experience in bridge rating and inspection, building design, design of high mast light pole foundations, bridge rehabilitation, tunnel rehabilitation, dam rehabilitation, building rehabilitation, and analysis of communication towers.

Because of Nathan's extensive experience with both bridge construction and design build projects, he has a unique perspective which allows him to ensure that a design is not only adequate in its final state, but also constructable.

Relevant Projects

Belmont Community Path – Phase 1
Belmont, MA
Project Manager for the structural design aspects of the Belmont Community Path in the Town of Belmont. The path is a 2-mile segment of the Mass Central Rail Trail (MCRT), a bicyclist and pedestrian path that will ultimately extend 104 miles between Boston and Northampton. This segment of path is intended to provide a safe and accessible connection between the Belmont High School, Fitchburg Cutoff Path, the Clark Street Pedestrian Bridge, public transportation facilities, neighborhoods, and area businesses for community members and visitors to enjoy. Since the path will be located adjacent to the Fitchburg Line of the Massachusetts Bay Transportation Authority (MBTA) commuter rail, the design of the trail and associated connections requires close collaboration with the transit authority.

1167 Massachusetts Avenue Bridge Replacement
Arlington, MA
Project Manager for the development and structural design of a bridge superstructure replacement supported on the existing, modified substructure. Oversaw team responsible for performing an evaluation of the existing substructure to ensure capability of being reused. Provided guidance and performed QA/QC on design and coordination of the demolition of the bridge superstructure to ensure protection of the existing substructure to be reused. Provided guidance and performed QA/QC on design and bridge geometry calculations for the layout of the new superstructure and modifications to the existing substructure. Reviewed construction drawings and special provisions. Oversaw coordination of removal and replacement of existing utilities across the new bridge.

Summer Street Bridge Rating and Modifications, Parcel P
Boston, MA
Project Manager responsible for analyzing the effects of proposed modifications to an existing bridge superstructure. Oversaw load rating of the superstructure, cross girders, and concrete deck to examine the effects of the proposed modifications and

Relevant Projects – continued

ensure they would not result in posted load restrictions on the bridge; the rating was performed in accordance with the MassDOT Bridge Manual and the AASHTO Manual for Bridge Evaluation and was performed by modeling the six-span, continuous, curved, steel beam superstructure and cross girders in AASHTOware Bridge Rating software. Oversaw preparation of a Preliminary Structures report to describe the proposed modifications, present the findings of the load rating, evaluate the effects of the modifications, and provide recommendations. Oversaw design of the details for the demolition of the existing concrete sidewalks and barriers, and the connections of the proposed sidewalks, barriers, medians, curbs, mast arms, and other ancillary structures.

Belmont Community Path – Phase 1, Belmont, MA

World Trade Center Avenue Bridge Rating and Modifications, Parcel A2
Boston, MA

Project Manager responsible for the structural analysis and rating used to examine the effects of proposed modifications to an existing bridge superstructure. The analysis of the proposed modification included a rating of the bridge deck, superstructure, and substructure as well as a seismic analysis of the substructure for the design of a joint along a proposed building. 3D Finite element analysis of four-span continuous portion of bridge performed for distribution of dead and live loads to the beam members.

Rehabilitation of Existing Water Treatment Facility
Peabody, MA

Lead Structural Engineer responsible for the structural/facility design of rehabilitation of existing water treatment facility following a fire. Staged design to 1) Get the plant up and running 2) Increase capacity 3) Improve Administrative Area. Structural Design includes Curbs, Pads, A new mezzanine supported on reinforced concrete deck composite with metal deck on steel beams on steel columns with concrete foundations, a new floor to support offices and bathrooms supported on reinforced concrete deck composite with metal deck on steel beams on steel columns with concrete foundations, a reinforced concrete bulkhead to provide basement access, and an ADA compliant reinforced concrete access ramp. *Project experience with prior firm.*

Department of Public Works Garage Improvements
Lynnfield, MA

Senior Structural Engineer on team responsible for HVAC improvements at the town's DPW garage to improve air quality. Structural work included analysis of existing structures for proposed conditions and design of supplemental structural supports. Supplemental structural supports included steel beams, steel columns, reinforced concrete footings, metal deck roof opening reinforcement, and masonry wall penetration reinforcement. *Project experience with prior firm.*

Mark E. Violette, PLS
Deputy Director of Land Surveying

Years of Experience
- *40 in Industry*
- *10 at Nitsch Engineering*

Registration
- *Massachusetts: Professional Land Surveyor #40768, 1998*
- *Connecticut: Professional Land Surveyor #70481, 2018*
- *Transportation Worker Identification Credential (TWIC)*
- *OSHA (10-hour) Certified*

Education
- *AS, Applied Technologies, Central New England College, 1985*
- *Diploma in Architecture and Construction, Worcester Industrial Technical Institute, 1983*

Professional Affiliations
- *Central Massachusetts Association of Land Surveyors and Civil Engineers, President 2017 – Present*
- *Central Massachusetts Regional Planning Commission, Alternate Delegate 2017 – Present*
- *East Brookfield Planning Board, Chair 2000 – Present*
- *Massachusetts Association of Land Surveyors and Civil Engineers (Proprietors Council)*
- *National Society of Professional Surveyors, Member*

Mark has 40 years of experience in the land surveying field, including both field and management experience. He has managed public and private survey projects, including extensive work on a variety of building, utility, and highway and roadway projects. He is experienced in performing GPS, property line, ALTA/NSPS Land Title, Land Court, topographic, subdivision, construction, deformation monitoring, easement, photogrammetric, wetland delineation, and flood elevation surveys. Mark has a strong background in using a wide range of land surveying technologies and software to meet his clients' needs. He is currently serving as president of MALSCE's Central Massachusetts chapter, and received the 2015 Surveyor of the Year Award from MALSCE.

Relevant Projects

Holden Street, Drummond Avenue, and Shore Drive Intersection Improvements
Worcester, MA
Project Manager for land surveying services to support a roadway design and realignment of Shore Drive with Holden Street and Drummond Avenue. Services included verification of the topographic base plan, which was prepared by others and included checking survey controls, existing topographic information and roadway layout determination. Following the roadway realignment design, prepared new layout plans for temporary and permanent easement takings along with the preparation of taking documents.

Belmont Community Path – Phase 1
Belmont, MA
Project Manager for land surveying services to support the creation of the Belmont Community Path through the Town of Belmont. The path is a 2-mile segment of the Mass Central Rail Trail (MCRT), a bicyclist and pedestrian path that will ultimately extend 104 miles between Boston and Northampton. This segment of path is intended to provide a safe and accessible connection between Belmont High School, Fitchburg Cutoff Path, the Clark Street Pedestrian Bridge, public transportation facilities, neighborhoods, and area businesses for community members and visitors to enjoy.

Pleasant Street Bike and Pedestrian Improvements
Northampton, MA
Project Manager for land surveying services to support roadway and sidewalk improvements along Pleasant Street in the City of Northampton, Massachusetts. Performed street line and topographic survey of Pleasant Street between Hampton Avenue and Hockanum Road.

Mass Central Rail Trail, Great Meadows Bridge over Sudbury River
Sudbury and Wayland, MA
Project Manager for land surveying services for the 10-foot wide multi-use pathway stretching from Sudbury to Wayland. Performed a topographic, property line, railroad retracement, and utility survey.

Mark E. Violette, PLS
Deputy Director of Land Surveying

Relevant Projects – continued

Mass Central Rail Trail, Wayside Segment
Weston, MA
Project Manager for land surveying services for the reconnection of the Weston Rail Trail. Using a combination of traditional survey methods and Global Positioning System (GPS), performed a topographic, property line, railroad retracement, and utility survey for half of an acre of the site.

Pleasant Street Bike and Pedestrian Improvements, Northampton, MA

Cummins Highway
Boston, MA
Project Manager for land surveying services to support roadway reconstruction of approximately 5,000 linear feet of roadway. Obtained topographic, utility, and layout determination utilizing our Leica scanner for roadway surfaces. Supplemental data was collected with our Leica total station and a basemap was prepared for the Boston Transportation Department (BTD).

Mass Central Rail Trail, Great Meadows Bridge over Sudbury River, Sudbury and Wayland, MA

Roadway Improvements and Roundabout Design
Gardner, MA
Project Manager for land surveying services associated with the preparation of an existing conditions base plan showing topographic and property line information for roadway improvements and roundabout design in the Uptown Gardner Historic District. The base plan is used for roadway and geometry improvements to encourage slower and safer driving. To complete roadway sideline determination, the project required retracement of the existing mid-1800s street layouts.

Worcester South High School
Worcester, MA
Project Manager for land surveying services to support construction of the new 152,000-square-foot high school. Services include performing a property line, topographic, and utility survey of 40 acres and preparing a basemap to assist design professionals.

Worcester South High School, Worcester, MA

Marathon Elementary School
Hopkinton, MA
Project Manager for land surveying services in support of construction closeout documents to include verification of property lines, preparation of an As-Built topographic survey of 12 acres of the site, and incorporation of contractor's utility as-built. The as-built was done for the Hopkinton Planning Board and Hopkinton Conservation Commission for municipal review.

W. Edward Balmer Elementary School
Northbridge, MA
Project Manager for land surveying services to support construction of a new school. Performed a property line, topographic, and utility survey of 25 acres utilizing the drone, and prepared a basemap for design purposes.

LEC

WETLANDS WILDLIFE WATERWAYS

Richard A. Kirby

Senior Wetland Scientist

Rich manages, coordinates, and supervises projects in LEC's Wakefield and Worcester Offices. As a senior wetland scientist and regulatory specialist concentrating in wetlands ecology, stormwater management, water quality, and regulatory compliance, Rich's responsibilities have included the design, implementation, and supervision of wetland replication/ restoration areas and Buffer Zone improvements projects; consultation with project team members regarding project design, regulatory implications, and permitting strategy; preparation and submittal of environmental permit applications following federal state, and local statutes. Rich represents clients and conducts project presentations in public forums, and reviews resource areas delineations and permit applications on behalf of town Conservation Commissions.

REPRESENTATIVE PROJECT EXPERIENCE

NOI Peer Review, Riverfront Area Delineation—Wilmington, MA

In 2021, Mr. Kirby provided peer review services to the WCC for delineation of the Mean Annual High Water (MAHW) Line to Lubber Brook as it flows through an expansive wetland system. Mr. Kirby conducted an independent field review applying industry standards for delineation of wetland streams relying on Bankfull indicators, USGS StreamStats, and the Regional Curve data as multiple corroborating indicators. Mr. Kirby revised the boundary when inconsistent with these indicators, prepared a peer review report documenting his findings and rationale, and participated in several public hearings to present and discuss his findings. Subsequent to the WCC issuing an approval Order of Conditions, the project was appealed by a 10 citizens group, and in 2022 Mr. Kirby participated in DEP's Superseding Order of Conditions (SOC) review. The SOC was appealed by the same citizen group and in 2023 Mr. Kirby participated in the Office of Appeals and Dispute Resolution Final Decision process, which resulted in approval of the project and establishing Case Law relating to the methods used for MAHW delineation.

NOI Peer Review, ANR–Wilmington, MA

In 2024, Mr. Kirby provided peer review services to the Wilmington Conservation Commission (WCC) to review the boundaries of Bordering Vegetated Wetlands (BVW), and the MAHW Line to Maple Meadow Brook, and review Site Plans associated with a Notice of Intent (NOI) Application for infrastructure and site grading related to 8 Approval Not Required (ANR Lots). Mr. Kirby conducted an independent field review and in accordance with established Case Law applied industry standards for delineation of wetland streams relying on Bankfull indicators, USGS StreamStats, and the Regional Curve data as multiple corroborating indicators. Mr. Kirby revised the boundaries as appropriate, prepared a peer review report documenting his findings and rationale, and participated in several public hearings to present and discuss his findings. Mr. Kirby also recommended plan revisions to improve resource area protection, enhanced erosion control measures, modified an annual mowing program, and recommending native tree and shrub plantings along the Limit-of-Work line. Finally, Mr. Kirby reviewed and edited a Draft Order of Conditions, and recommended changes and improvements to the Special Conditions.

NOI Peer Review Solar Project, Fitchburg, MA

In 2023 and 2024, Mr. Kirby provided peer review services to the Fitchburg Conservation Commission (FCC) to review the boundaries of BVW for a large-scale solar array project. Mr. Kirby conducted an independent field review in accordance with the pertinent statutes and regulations in December of 2023. The wetland delineation review was particularly complex, with broad transitional zones separating obvious wetland and upland areas. These transitional zones contained 50%+/- wetland vegetation and intermittent hydric soils, and drainage patters were obscured by recently fallen leaves. Based on these challenges, Mr. Kirby deferred his review to June of 2024 when groundcover vegetation was more identifiable, and drainage patterns were more evident. As a result, the delineated BVW significantly increased in size, and four (4) Isolated Vegetated Wetlands also were delineated. Mr. Kirby prepared a Peer Review report to the FCC overviewing our findings, and presented his findings at a Public Hearing.

40B Development Construction Supervision, Stoneham, MA

Since 2022, LEC has been consulting with the Stoneham Conservation Commission during the construction of an Affordable Housing Development at a former farm operation. The project was denied by the Commission, but approved by MA DEP through issuance of a SOC. LEC conducts monthly Peer Review inspections to ensure proper function of erosion controls, and confirm adjacent properties are not adversely affected by site development. LEC also has provided consultation relative to general SOC compliance, and a pump that maintains water levels within the wetland adjacent to the development. Consultation often involves discussions with and consensus-building between the Commission, the Developer, and MA DEP.

VINCENT A. DiIORIO, INC.

CONSULTING ENGINEERS

89 Access Road, Suite 18

Norwood, Massachusetts 02062

FADI A. BARK , P.E.

SENIOR ELECTRICAL ENGINEER

Since being employed with Dilorio Inc., the company has steadily expanded its Commercial, Industrial, Retail and Academic projects in the New England area and abroad. In the field of Electrical Engineering since 1984, Mr. Bark's management abilities are demonstrated by the success of repeat clients that he has direct contact with. Fadi has helped expand the companies professional base by bringing on a wide range of process facilities type projects. Mr. Bark has held a series of increasingly responsible positions within Boston's top engineering firms.

PROFESSIONAL EXPERIENCE

SENIOR ELECTRICAL ENGINEER — 1990-1994
Process Systems International, Inc. Westborough, MA.

PROJECT ELECTRICAL ENGINEER — 1989-1990
Cannon Boston, Inc. Boston, MA

PROJECT ELECTRICAL ENGINEER — 1985-1989
Dilorio,Inc. Boston, MA

TEACHING ASSISTANT — 1983-1985
U.Mass at Dart mouth Dartmouth, Ma

EDUCATION

ELECTRICAL ENGINEERING M.S. E.E. — 1984-1988
University of Massachusetts at Dartmouth Dartmouth, MA

ELECTRICAL ENGINEERING B.S. E.E. — 1978-1982
University of Massachusetts at Dartmouth Dartmouth, MA

In 1993 Mr. Bark received his Professional Engineer's Registration in the Commonwealth of Massachusetts, was Project Manager and familiar with all phases of electrical Engineering. Along with his Massachusetts Registration Fadi has acquired Professional Registration in the following States; New York, Texas, Connecticut, New Hampshire and Rhode Island.

As a Member of the National Society of Professional Engineers, Massachusetts Society of Professional Engineers, The Electric Institute Mr. Bark stays involved and up-to-date on all current Engineering issues.

Shauna Gillies-Smith is the founding principal of Ground and oversees the design direction of all the firm's projects. Active in both professional and academic spheres, Gillies-Smith has taught landscape architecture design studios and technical courses at the Harvard Graduate School of Design, RISD, UBC, RPI, and Tulane.

Currently, Shauna serves as a Commissioner for the Boston Civic Design Commission and is committed to ensuring that each landscape project positively impacts the city's public realm. Previously, she served as a landscape architecture consultant for the City of Cambridge On-Call Urban Design Services, where she reviewed plans, prepared reports, and worked with a multi-disciplinary team to provide additional consulting and peer review services.

In addition to addressing exterior spatial, material, and planting design issues, Shauna's particular areas of expertise include resilience, universal access strategies, urban heat island mitigation, and stormwater management.

List of Subconsultants

The Nitsch Team includes the following subconsultants:

- GROUND Inc., Landscape Architecture
- LEC Environmental Consultants, Inc., Environmental Consulting
- Vincent A. Dilorio, Inc., Electrical Engineering

Project Experience & References

Groton Consulting Review & Engineering Services, Groton, MA

Nitsch Engineering has enjoyed an on-going consulting relationship with the Town of Groton since 1989, and has provided services under a series of on-call contracts. Over the years, this has resulted in Nitsch providing review services on over 110 site plan and subdivision projects. In general, Nitsch's services have included:

- Reviewing site plans, preliminary and definitive subdivisions, Notices of Intent, and roadway and utility designs for constructability and conformity to Town and State regulations;
- Providing technical support at public hearings/meetings and site walks;
- Performing field observations to ensure conformance with construction standards and permits; and
- Preparing construction cost estimates for performance bonds.

Additionally, Nitsch has reviewed existing road conditions and recommended improvements to be constructed within a limited budget; revised the Subdivision Rules and Regulations with the Planning Board; prepared a Construction Appendix for use in all new roadway design and construction; and prepared Site Plan Checklists and Subdivision Checklists.

Weston Consulting Review & Engineering Services, Weston, MA

Since 1995, Nitsch has provided the Town of Weston with a wide range of consulting engineering services, including preparing site plans for various types of developments; preparing Notices of Intent; and designing roadway, utility, and stormwater management systems for compliance with standard engineering practices, constructability, and conformity to Town, State, and Federal regulations. We review traffic and transportation issues to ensure that negative project impacts are mitigated, and conduct traffic signal inspections to determine system faults.

Nitsch has also assisted the Planning Board in developing sustainable roadway regulations and provides them with general engineering and technical assistance.

Carlisle Peer Reviews, Carlisle, MA

For over 20 years, Nitsch Engineering has been providing peer review services of subdivisions at various locations for the Town of Carlisle. Our staff analyze drainage reports and verify that site plans meet the Town Zoning and By-Laws. We present information to the Planning Board and give recommendations, as needed, to resolve concerns expressed by the board. Some projects Nitsch Engineering has peer reviewed include: Russell Street, 570 West Street, River Road Elliot Farms Common Driveway, and Hanover Hill.

Waltham Peer Reviews, Waltham, MA

Nitsch Engineering provided peer review services for various 40B projects in the City of Waltham. We reviewed stormwater design and conformance to both State and Local requirements for stormwater and layout provided review of traffic reports for each project site and traffic data, worked closely with the City Zoning Board of Appeals (ZBA) Administrator and the City Engineering Department on providing a comprehensive coordinated response to the Applicant's submittal documents, worked with the Applicant's Engineer to resolve comments and design issues between hearings, and attended hearings (virtually and in person) to discuss comments and responses to encourage an open dialogue between the ZBA and Applicant.

Projects varied in size, but were generally multi-family apartment complexes on small sites with stormwater, electric, gas, sewer, and water services to the buildings.

Approach to Services & Project Delivery

The Nitsch Team supports the intentions of Conservation Commissions, Planning Boards, Boards of Health, Zoning Boards, Public Works Departments, Select Boards, and Development Commissions in ***conducting development reviews and providing design services as expeditiously and comprehensively as possible, to come to the best solution, to the extent feasible, for the community***. Our successful track record in performing hundreds of peer reviews for communities, agencies, and advocacy groups makes us extremely knowledgeable review processes. . Our experience covers a wide variety of projects, including Site Plan Review for commercial and multi-family developments, Definitive Plan Review for proposed residential subdivisions, Comprehensive Permit Review for affordable housing projects, and Notice of Intent and Stormwater Reviews for all types of projects. Future development in the Town of Southborough is expected to consist of similar projects and the need for peer review services in which the Nitsch Team is highly experienced. Many of our professional staff who have served as Planning Board and/or Conservation Commission members, including Senior Project Manager Jared Gentilucci for his Town's Conservation Commission, work closely with and for the public sector environment, and understand how time sensitive projects can be. We are experienced public speakers and can tactfully maneuver within the political environment created when multiple groups are involved in the review process at differing levels of expertise.

We understand that designing a site is not an exact science, and know that if you give a proposed site to three different engineers, you will get three different solutions. With that understanding, however, we understand that the important part of a review is checking for conformance with bylaws and regulations, and ensuring that standard engineering practices have been used appropriately.

Our in-house civil, traffic, and site structural engineers, and land surveyors have the experience necessary to successfully provide for the Town of Southborough's peer review needs. As required, we will supplement our review services with our environmental (LEC Environmental Consultants, Inc.), landscape architect (GROUND Inc.), and electrical engineering (Vincent A. Dilorio, Inc.) subconsultants. Our highly credentialed team will use applicable local regulations and general engineering and design practices to review projects. Some of these resources include: the Town of Southborough's Rules and Regulations, Zoning Bylaws, Special Permit and Stormwater Management Permit requirements, Stormwater and Erosion Control Rules and Regulations, Town's Wetlands Bylaw, and State and Federal rules such as the Massachusetts Department of Environmental Protection Stormwater Management Guidelines, The Wetlands Protection Act, and the Americans with Disabilities Act. We will also utilize nationally accepted standards, methods, and criteria for review including the Institute of Transportation Engineers (ITE) and the American Association of State Highway and Transportation Officials (AASHTO) design guidelines.

With our years of experience, we have developed a streamlined process for performing peer reviews tailored to each project depending on their size, complexity, and location. To give you an idea of our method, we have provided our Typical Review Process we use to manage and perform municipal peer reviews.

Typical Review Process

Once the Nitsch Team receives an assignment from the Town, we will immediately evaluate the application to determine whether the basic required documentation has been submitted, note what waivers if any are being applied for, and notify the Town if any documentation is missing. This reduces unnecessary review cycles and costs and allows the first review to be more comprehensive. In parallel with the Town established review schedule, as suggested by the Town's "Development Guide," the Nitsch Team will perform a site visit and an initial review of the Plans and detailed calculation data submitted by the Applicant. We will then communicate with the Town about our general findings and identify concerns, review technical analysis, identify additional mitigation for the site and

surrounding community that may not have been included, and provide advice on granting variances or waivers for certain issues. We will prepare a letter detailing our findings and submit it to the Town in advance of the public meeting date. This process allows for sufficient time to review the plans and calculations, and to prepare our report for the Town.

The Nitsch Team will be available to attend design meetings or public hearings to report our findings to the Town, the Applicant, and the Public, and support further meetings and reviews as necessary to support the project's full review. Generally, only the more complex projects require the Nitsch Team to attend subsequent meetings.

During meetings and hearings, we will take detailed notes, identifying the Town's and residents' concerns regarding the proposed development and design. These notes become a vital part of our subsequent review effort, including working with the Town with regard to the outstanding concerns and/or or relaying the concerns to the Applicant's engineers. Subsequent reports focus on these issues plus outstanding issues from our initial review.

Based on our experience, the Nitsch Team has found it is beneficial that the Town takes the lead in coordinating with the applicant during the peer review process. We recommend that dialogue between the Nitsch Team and the applicant or the applicant's engineer include a Town representative. In our experience, dialogue with the applicant's engineer centered on clarifying technical points raised during the review process can be an effective way to streamline the review process. Our work with the Town of Groton on several project applications has included collaboration with the applicant's engineer to clarify our comments, work together to come to an acceptable solution, and ensure local regulations are being met while considering the needs and concerns of the residents and community. This collaboration process often leads to a better final design.

As the review of a project progresses, the Nitsch Team will attempt to resolve outstanding technical issues by providing clear and concise commentary on the elements of the submittal. As issues are resolved, our review comments typically become fewer until they only include requests for variances or waivers.

After the Town issues approval for a project, the Nitsch Team is typically involved in several post-approval processes. These include checking for conformance with the Town's Conditions of Approval, performing construction observations, preparing construction bond estimates, and reviewing as-built plan/street acceptance plans.

Letter Report

Our letter reports will clearly list documents received and reviewed, including the title and date of plans and supporting documentation. Since there are often a number of regulation versions, our letter will also note the date of the zoning and subdivision regulations under which the application is being reviewed. This is an important piece of the report, especially if a Town decision gets appealed. We then divide the letter report into various appropriate sections or letters: zoning, subdivision regulations, stormwater management, sustainability, constructability, traffic, and items that may not be in the jurisdiction of the particular Board requesting the review, but are flagged by the Nitsch Team for the Town to discuss with other departments, such as the Board of Health and/or Conservation Commission.

Based on our experience providing technical review of projects, we have found that it is often more efficient to independently review each discipline, such as traffic or civil/site. Each discipline coordinates with the other; however, each produces a separate letter report. For example, the traffic review will only deal with the proponent's traffic engineer and may identify the off-site study area, while the civil/site review will only involve the civil engineers and may identify issues such as drainage that may drive the development or modification of the site plan. The

separate letter reports streamline the process and provide for a more efficient review.

Our letter(s) will be sent to the Town prior to the public hearing and will have our comments itemized for easy reference. With the Town's permission, we can coordinate with the applicant's engineer to help resolve issues in a timely manner. The initial comments will remain on subsequent letters in bold text with the new status listed underneath the original issue. Only when an issue has been resolved to the Nitsch Team's and the Town's satisfaction is the comment removed.

Proposed Billing Rates Fee Sheet & Structure

The Nitsch Team's proposed billing rates fee sheets and structure have been provided on the following pages.

RE: Nitsch Project #13346.28
797 Boston Road
Site Plan and Special
Permit Review
Groton, MA

Dear Planning Board Members:

Nitsch Engineering (Nitsch) has received and reviewed the following documents:

1. The Site Plan (the Plans) entitled "Site Plan for Proposed Age Restricted Housing Development, 797 Boston Road, Groton, MA" (18 sheets), dated February 16, 2024, and prepared by Howard Stein Hudson;
2. The Major Site Plan and Special Permits Applications, dated February 16, 2024, and prepared by Farrell & Robbins, P.C.;
3. The Architectural Plan Set, dated February 16, 2024, and prepared by The MZO GROUP;
4. The Architectural 3-D renderings, dated February 22, 2024, and prepared by The MZO GROUP; and
5. The Supplemental Data Report (Stormwater Report) for the Proposed Age Restrict Housing Development, 797 Boston Road, Groton, Massachusetts (52 sheets), dated February 16, 2024, and prepared by Howard Stein Hudson.

Nitsch has reviewed the Plans and supporting documents to determine conformance to the following:

1. "Zoning Bylaw", Chapter 218 from the Code of the Town of Groton, latest version; and
2. "Site Plan Review", Chapter 381, Part 5 from the Code of the Town of Groton, latest version.

Nitsch has also conducted a stormwater review of the project. Our comments on the stormwater design were provided under separate cover to the Earth Removal Stormwater Advisory Committee on March 18, 2024.

WAIVERS REQUESTED BY THE APPLICANT

The Applicant has not requested any waivers as part of their major site plan and special permits applications.

ZONING BYLAW

1. Section 218-6.2 states the maximum impervious coverage in the R-A district is 25%.

   The Applicant should confirm the proposed impervious coverage of the property. Based on the information provided in the Stormwater Report, it appears the proposed impervious coverage exceeds the maximum allowed.

2. Section 218-9.3.B.(4)(b) states outdoor lighting fixtures shall be the cutoff type, mounted no higher than 15 feet, oriented and shielded to avoid glare on adjoining premises.

   The Applicant should confirm all site lighting fixtures are cutoff type and the parking lot and driveway light pole heights are less than 15 feet.

3. Section 218-9.3.B.(4)(c) states to avoid traffic concern, any egress shall have at least 300 feet of visibility in each direction along state-numbered roads and at least 200 feet of visibility along other roads.

   The Applicant should provide sight distances at driveways as required by this Section.

4. Section 218-9.3.B.(4)(f)[3] states the design of grading shall minimize the volume of earth cut and fill, in general with no cut or fill greater than five feet.

   The Applicant should provide a cut and fill analysis to confirm the net amount of cut or fill proposed. The Plans appear to show no cuts or fills greater than five feet.

SITE PLAN REVIEW

5. Section 381-39.B. states the site plan application shall contain an existing condition plan that indicates all existing site features, including property lines, easements, buildings, parking lots, utilities (above and below ground), conservancy (wetlands), and topography.

   The Locus Map, Sheet C.3, includes some but not all this information. The Applicant should provide an existing condition plan meeting the requirements of this Section.

6. Section 381-39.E. states the site plan application shall contain zoning district boundary lines of the locus and all land within 200 feet of the parcel, including overlay districts.

   The Applicant should update the Plans to show all zoning district boundary lines and overlay districts, including the Water Resources Protection District.

7. Section 381-39.M. states the site plan application shall contain information on the location, size, and type of loading, storage, and service areas.

   The Applicant should provide information on how deliveries to the buildings will be made and where delivery and mail trucks will park.

8. Section 381-39.O. states the Planning Board may require an assessment of traffic impact and safety conditions performed by a professional traffic engineer. All plans shall indicate sight distances at proposed and existing driveway intersections within 200 feet of the site.

   The Applicant provided trip generation calculations for the proposed development. Per the Institute of Transportation Engineers Trip Generation Manual, 11th Edition, Nitsch concurs with these calculations. Nitsch defers to the Planning Board if a traffic study is required. The Applicant should provide sight distances as required by this Section.

9. Section 381-40.B.(2) states access road/parking shall be 0.5 footcandle minimum (maintained) and 30.0 footcandles maximum.

   The Plans indicate some sections of the driveways and parking lot have light levels less than the minimum allowed.

10. Section 381-40.B.(3) states walkway lighting shall be 1.0 footcandle minimum (maintained) and 30.0 footcandles maximum.

    The Plans indicate some sections of the walkways have light levels less than the minimum allowed.

11. Section 381-40.B.(4) states the plan shall indicate the light hours of operation, especially shut off times.

    The Plans should be updated to indicate site lighting hours of operation and shut off times.

12. Section 381-40.D.(5) states curbing shall be vertical granite at the access drive radii.

    The Plans should be updated to note vertical granite curb at the access drives and along public right-of-ways. The Plans currently call for sloped granite curb.

13. Section 381-40.D.(7) states curbing shall be placed at the edges of all surfaced areas and shall be vertical granite curb.

    The Plans should be updated to note vertical granite curb at the access drives and in the parking lot. The Plans currently call for sloped granite curb.

14. Section 381-40.D.(9)(b) states parking lot and access drive pavement shall consist of a 2-1/2 inch binder course and 1-1/2 inch top course.

    The Plans should be updated to note the required thickness for the parking lot and access drive asphalt binder course. The Plans currently call for 2 inches of asphalt binder course.

15. Section 381-40.D.(10) states all sidewalks shall be poured Portland cement concrete four inches in depth.

    The Plans should be updated to note concrete pavement for all sidewalk materials. The Plans currently call for asphalt pavement at sidewalks.

16. Section 381-40.E.(1) states service facilities such as dumpsters shall be screened around their perimeters.

    The Plans should be updated to include a detail for the dumpster pad and fence enclosure.

GENERAL COMMENTS

17. The Applicant may want to consider installing removable bollards at the ends of the porous pavement driveway, in addition to the already proposed signage, to prevent access to general vehicular traffic.

18. If sloped granite curb is used anywhere onsite, the detail should be updated to show finish grade at the top of the curb.

RECOMMENDATIONS

The Plans appear to conform to the Code, except as noted. The Applicant should revise and resubmit the applicable documents for review.

If the Planning Board has any questions, please let us know.

Very truly yours,

Nitsch Engineering, Inc.

INTEROFFICE MEMORANDUM

To: Select Board
cc: Mark Purple, Executive Administrator; Ryan Newell, Police Chief; Chris Leroy, Operations Supervisor
From: William J. Cundiff, P.E., DPW Superintendent
Date: 12/01/2024
RE: WINTER PARKING BAN 2024/2025

In Accordance with **§152-6 Removal of vehicles for snowplowing**[1] of the Town of Southborough Code Book, the Selectboard is requested to adopt the attached winter parking ban, effective between December 1, 2024 and March 15, 2025.

[1] **§ 152-6. Removal of vehicles for snowplowing.**
The Superintendent of Streets, or other officer having charge of the ways, shall be authorized, for the purpose of removing or plowing snow or of removing ice from any way, to remove or cause to be removed to some convenient place, including in such term any public garage, any vehicle interfering with such work, and the liability for the cost of such removal and the storage charges, if any, resulting therefrom shall be upon the owner of such vehicle.

TOWN OF SOUTHBOROUGH

OFFICE OF THE SELECT BOARD
TOWN HOUSE · 17 COMMON STREET · SOUTHBOROUGH, MASSACHUSETTS 01772-1662

WINTER PARKING BAN 2024/2025

Effective December 1, 2024, there will be no parking on any public way in the Town of Southborough from 12:00 midnight until 6:00 A.M. and furthermore, there will be no parking on any public way during any snowstorm in the Town of Southborough. Vehicles parked will be towed at the owner's expense (according to §152-6 of the Town's Code). **This Ban will be in effect from December 1, 2024 through March 15, 2025.**

Illegal parking during unusual storms occurring before or after the Ban will be dealt with according to Section 152-6 of the Code of the Town of Southborough which states:

"The Superintendent of Streets, or other officer having charge of the ways, shall be authorized, for the purpose of removing or plowing snow or of removing ice from any way, to remove or cause to be removed to some convenient place, including in such term any public garage, any vehicle interfering with such work, and the liability for the cost of such removal and the storage charges, if any, resulting therefrom shall be upon the owner of such vehicle".

SOUTHBOROUGH YOUTH AND FAMILY SERVICES

STRENGTHENING OUR COMMUNITY BY SUPPORTING ITS FAMILIES

November 25, 2024

To: Select Board
c/o Kathryn Cook, Chair

Cc: Mark Purple, Personnel Director/Town Administrator
Vanessa Hale, Assistant Town Administrator

Dear Select Board Members,
The Youth and Family Services (YFS) department has recently conducted two rounds of interviews for the vacant Program Coordinator position. As the YFS Director, I am writing to express my support for the appointment of candidate, Emily Brideau, for the position. Ms. Brideau possesses the qualifications, experience, and dedication necessary to excel in this role and contribute meaningfully to the Southborough community.

Ms. Brideau holds a master's degree in public health and her professional experience includes a focus on upstream prevention in critical areas such as mental health, substance use, and public housing. Ms. Brideau demonstrates a passion for public facing work and improving health outcomes for vulnerable populations. Her experience working within government offices on projects such as need assessments, outreach and marketing campaigns, and policy work, make her an ideal candidate for this position. In addition to her educational and professional background, Ms. Brideau is well-regarded for her ability to think critically, her collaborative spirit, high levels of organization, responsiveness to feedback, and a commitment to her own professional growth and development as well as that of the organization she works for.

I am confident that Ms. Brideau's skills and dedication will have a meaningful impact in this role and contribute to the advancement of Southborough's health and wellness priorities. Thank you for considering this recommendation.

Sincerely,

Sarah Cassell

Public health professional passionate about bringing social determinants to the forefront of policymaking, healthcare, and public interventions. Interested in utilizing the lens of public health to communicate policy issues effectively and promote public trust in government and health-related agencies and organizations.

EDUCATION

BOSTON UNIVERSITY SCHOOL OF PUBLIC HEALTH — **Boston, MA**
Master of Public Health: Health Policy and Law | GPA: 3.97 — **September 2021 - August 2023**

Select course deliverables:

Needs Assessment of Brookline Housing Authority (BHA) Public Housing (Class-Wide Project)

- Performed an in-depth search on demographics and health status of BHA residents and the town of Brookline
- Developed a survey and conducted qualitative interviews to understand resident's public housing experience
- Presented a report and recommendations to BHA officials to aid in targeted public housing improvements
- Focused on issues, such as safety and loneliness, that elderly residents face to tailor housing to their needs

Social Media Campaign: Increasing Narcan Use for Opioid Overdose (Group Project)

- Identified and characterized opioid overdose and Narcan use as a public health issue in Boston's South End
- Developed a targeted campaign for Boston's South End residents to acquire and get trained to use Narcan
- Designed and created website, graphics, and social media accounts to disseminate information to our audience

Policy Change Recommendation to Aid Unhoused Youth in Los Angeles (L.A.) (Group Project)

- Reviewed data on L.A.'s housing crisis and identified unhoused youth as underrepresented in county-level policy
- Synthesized a policy change to subsidize building of affordable housing in areas with high youth homelessness
- Testified in support of our policy in a mock legislative hearing to highlight feasibility and projected impact

UNIVERSITY OF ROCHESTER — **Rochester, New York**
B.S. Biology, Concentration in Molecular Genetics — **September 2013 - May 2017**

PROFESSIONAL EXPERIENCE

Massachusetts House of Representatives — **Boston, MA**
Legislative Aide — **November 2023 – January 2024**

- Provided constituent services and general outreach and tracked communications in an internal database
- Responsible for social media and website communications that share updates and opportunities with the district

Massachusetts State House — **Boston, MA**
Intern - Joint Committee on Mental Health, Substance Use, and Recovery — **June 2023-August 2023**

- Drafted a policy memo addressing xylazine contamination, proposing legislative and financial solutions
- Created a substance use disorder resource guide that included an explainer, resources, and actions taken by M.A.
- Assisted in preparing for and conducting public hearings and listening sessions put on by the Joint Committee

Boston University School of Public Health — **Boston, MA**
Teaching Assistant - *Leadership and Management for Public Health* — **September 2022 - December 2022**

- Mentored a group of 20 students, assisting and guiding them with projects, written work, and presentation skills

Obsidian Therapeutics — **Cambridge, MA**
Research Associate (RA)|Senior RA - *In vivo* Pharmacology — **June 2018 – July 2020|July 2020 - July 2021**

- Created study plans for and executed *in vivo* tumor efficacy and PK/PD studies to test novel cell therapies
- Analyzed large data sets and communicated findings in small group and companywide settings

Public health professional passionate about bringing social determinants to the forefront of policymaking, healthcare, and public interventions. Interested in utilizing the lens of public health to communicate policy issues effectively and promote public trust in government and health-related agencies and organizations.

EDUCATION

BOSTON UNIVERSITY SCHOOL OF PUBLIC HEALTH — **Boston, MA**
Master of Public Health: Health Policy and Law | GPA: 3.97 — **September 2021 - August 2023**

Select course deliverables:

Needs Assessment of Brookline Housing Authority (BHA) Public Housing (Class-Wide Project)

- Performed an in-depth search on demographics and health status of BHA residents and the town of Brookline
- Developed a survey and conducted qualitative interviews to understand resident's public housing experience
- Presented a report and recommendations to BHA officials to aid in targeted public housing improvements
- Focused on issues, such as safety and loneliness, that elderly residents face to tailor housing to their needs

Social Media Campaign: Increasing Narcan Use for Opioid Overdose (Group Project)

- Identified and characterized opioid overdose and Narcan use as a public health issue in Boston's South End
- Developed a targeted campaign for Boston's South End residents to acquire and get trained to use Narcan
- Designed and created website, graphics, and social media accounts to disseminate information to our audience

Policy Change Recommendation to Aid Unhoused Youth in Los Angeles (L.A.) (Group Project)

- Reviewed data on L.A.'s housing crisis and identified unhoused youth as underrepresented in county-level policy
- Synthesized a policy change to subsidize building of affordable housing in areas with high youth homelessness
- Testified in support of our policy in a mock legislative hearing to highlight feasibility and projected impact

UNIVERSITY OF ROCHESTER — **Rochester, New York**
B.S. Biology, Concentration in Molecular Genetics — **September 2013 - May 2017**

PROFESSIONAL EXPERIENCE

Massachusetts House of Representatives — **Boston, MA**
Legislative Aide — **November 2023 – January 2024**

- Provided constituent services and general outreach and tracked communications in an internal database
- Responsible for social media and website communications that share updates and opportunities with the district

Massachusetts State House — **Boston, MA**
Intern - Joint Committee on Mental Health, Substance Use, and Recovery — **June 2023-August 2023**

- Drafted a policy memo addressing xylazine contamination, proposing legislative and financial solutions

RE: Donation Acceptance

The Recreation Department has received two generous donations for our Summer Concert Series and funds to purchase two new pottery wheels from the Southborough Community Foundation. We would also like to acknowledge and thank the Southborough Community Foundation for providing us with these very generous donations. I am writing to request the acceptance of the amounts listed below to be deposited into the Recreation Donation account:

Name	Amount
Summer Concert Series	$2,000
Pottery Wheels	$2,000
TOTAL	**$4,000**

If you have any questions, please do not hesitate to reach out to my office at 508-229-4452 or tfarley@southboroughma.org

Sincerely,

Travis Farley

RE: Commonwealth Community Compact Regionalization Grant
Shared Use Equipment Inter-Municipal Agreement

Dear Mr. Payant and Ms. Reed,

I want to express my gratitude for your support and valuable input during our application to the Commonwealth of Massachusetts Community Compact Cabinet (CCC) Efficiency and Regionalization (E&R) Grant. This application sought funding for the purchase of a pipe camera inspection kit, and I am pleased to share that the Commonwealth awarded the Town of Southborough a grant of $110,000.00. As agreed, Westborough and Hopkinton have committed to participating in this initiative, enabling all three communities to equally share this equipment.

We have been coordinating with Chadwick-BaRoss under their Sourcewell Contract (Westborough ID: 109721, Hopkinton ID: 43840, Southborough ID: 77433) to procure the equipment. As of June 12, 2024, the total value of the proposed package is $142,873.00. This leaves a balance of $32,873.00, which will be equally shared among the three towns, amounting to $10,957.67 per community. The detailed proposal from Chadwick-BaRoss is attached for your review.

In addition, Town Counsels from each municipality collaborated to develop the enclosed Inter-Municipal Agreement (IMA), which outlines the responsibilities associated with this shared equipment. Please forward the IMA to your respective Select Boards for approval and signature. Once executed, kindly return a signed copy to me, after which I will provide a fully executed copy for your records.

Your assistance throughout this process has been greatly appreciated. We look forward to continuing our partnership and to utilizing the new pipe camera inspection kit for the benefit of our communities.

Very truly yours,
Department of Public Works

William J. Cundiff, P.E.
Superintendent

March 28, 2024

Dear Mark Purple,

It is with great pleasure that we inform you that the Town of Southborough has been awarded a $110,000 grant through the Community Compact Cabinet's Efficiency and Regionalization (E&R) grant program. Once again, this grant program for Fiscal Year 2024 was highly competitive. Your application was chosen because it clearly met the program's overarching goal of driving the implementation of regionalization and other efficiency initiatives that allow for long-term sustainability.

Congratulations on participating in the E&R grant program and other Community Compact Cabinet programs focused on Best Practices and IT initiatives, as these programs all help municipalities spur continued success. We are pleased to see communities taking advantage of the benefits the Community Compact Cabinet program offers.

Attached are the grant documents that must be completed to ensure the funds are delivered to your community. This documentation should be sent to Jennifer McAllister (communitycompact@dor.state.ma.us) at the Division of Local Services as soon as possible, but no later than **April 19, 2024**.

Congratulations and thank you, again, for your tireless work to serve your community.

Sincerely,

Kimberley Driscoll

AGREEMENT FOR
SHARED EQUIPMENT BETWEEN MUNICIPALITIES

This Intermunicipal Agreement ("Agreement") is made on this _____ day of _____, _____ ("Effective Date"), pursuant to M.G.L. Chapter 40, Section 4A and is exempt from M.G.L. Chapter 30B. This Agreement IS MADE FOR THE MUTUAL PUBLIC INTEREST OF THE PARTICIPATING MUNICIPALITIES. The purpose of this Agreement is to provide for the purchase and joint use of a pipe inspection camera and associated equipment among the several participating municipalities (collectively, the "Municipalities" or "parties") who have executed this Agreement by the Municipalities' respective Select Boards. The participating Municipalities are Southborough, Hopkinton, and Westborough (sometimes referred to individually herein as a "Municipality" or "party").

TERM
This Agreement shall be in effect for a period of twenty-five (25) years following the Effective Date, subject to the termination rights of each participating Municipality as provided herein.

EQUIPMENT
The Equipment covered by this Agreement ("Equipment") is a Pipe Inspection Camera and associated equipment, all as further described in the attachment hereto and made part of this Agreement by reference.

DESIGNATED REPRESENTATIVES
Each Municipality's Select Board shall designate in writing no more than two (2) authorized representative(s) ("Designated Representatives") to carry out the duties of this Agreement and to provide any necessary consent or vote required by this Agreement. The Designated Representatives shall meet on an as needed basis and in accordance with the Open Meeting Law to the extent applicable.

LEAD MUNICIPALITY
The Town of Southborough shall be the legal owner of the Equipment, and shall act as Lead Municipality for the term of this Agreement. During extended periods of nonuse, the Equipment shall be properly stored by the Lead Municipality. The Lead Municipality shall maintain ownership and title of the Equipment throughout the term of this Agreement.

COSTS AND CHARGES
The costs associated with the purchase, operation, maintenance and use of the Equipment are covered by this Agreement and shall be shared equally among the participating Municipalities in accordance with the terms of this Agreement. Such costs shall be paid for by the Lead Municipality and charged to the participating Municipalities as set forth in the Agreement. Charges shall be reasonable and routine for such equipment, and include costs of purchase, maintenance, repair, software upgrades, insurance, and minor incidentals.

The Lead Municipality shall purchase the Equipment upon execution of this Agreement, and each Municipality shall submit payment to the Lead Municipality of one third (1/3) of the initial purchase

and reasonable routine maintenance costs of the Equipment upon submission of a receipt and request for payment in accordance with the provisions of this Agreement.

The Lead Municipality shall provide a written invoice to the other participating Municipalities for the ongoing repair and maintenance of the Equipment, ***as needed,*** which shall describe the nature and corresponding amount of such routine repair and maintenance items. Any such invoice shall be issued within sixty (60) days of the repairs or maintenance so invoiced. The undisputed amount of such invoices shall be due and payable within 30 days of receipt. All payments due hereunder are subject to the appropriation and availability of funds.

A Municipality that fails to appropriate sufficient monies to meet the obligations set forth by this Agreement at any time throughout the term of this Agreement, may be declared in default of this Agreement and may be terminated from participation of the same pursuant to the Termination and Default provisions, below unless otherwise cured within thirty (30) days of receipt of written notification of such alleged default.

ADDITIONAL MUNICIPALITIES

This Agreement may be amended by a majority vote of each of the Select Boards of the Municipalities then participating to include additional Municipalities, provided that each such additional Municipality obtains the necessary prior approval and complies with all the terms and conditions of this Agreement.

AMENDMENTS

Any change, amendment, or subsequent alteration to this Agreement shall be in writing, approved by a majority vote of each of the Select Boards of the Municipalities to be effective.

TERMINATION AND DEFAULT

Each Municipality may terminate its participation in this Agreement at any time with or without cause, as provided in M.G.L. Chapter 40, Section 4A, so long as at least sixty (60) days prior to its termination it gives written notice to each remaining participating Municipalities.

A participating Municipality may be declared in default of this Agreement by a majority of the Designated Representatives of the remaining Municipalities if that Municipality has materially breached this Agreement and may be terminated as a participating Municipality by a majority vote of each of the remaining Municipalities' Select Boards as set forth herein. The terminated Municipality shall be invoiced for any outstanding debts incurred prior to termination and shall pay in accordance with the provisions of this Agreement to the extent funds are available and shall have no further obligation or liability hereunder.

MAINTENANCE AND REPAIRS ON THE EQUIPMENT

Only personnel deemed qualified by the Lead Municipality's Public Works Superintendent shall perform maintenance and repairs on the Equipment. All such maintenance and repair of the Equipment shall be first approved in writing by each of the Designated Representatives of the other Municipalities, such approval not to be unreasonably withheld or delayed. If invoices submitted to the Municipalities are consistent with the approval granted herein, a municipality is precluded from later disputing said invoices. There shall be a Use Log to remain with the Equipment, which shall be kept up to date at each

use, and which shall be available to all Municipalities. If, while in the use and custody of a Municipality, negligence on the part of that Municipality leads to costly repairs, then it shall be the responsibility of that Municipality to pay for such repairs. If the incident is covered in part by insurance, it shall be that Municipality's responsibility to pay the deductible, and any other charges not covered by the insurance.

If repairs result from general use of the Equipment, and not from the Lead Municipality's failure to perform its obligations hereunder or the negligence of a particular Municipality, then the participating Municipalities will divide the repair cost equally.

The Designated Representatives shall, by majority vote, determine whether a particular Municipality has engaged in negligence, based on the following definition:

> "Negligence," without qualification, is failure of a responsible person, by omission or action, to exercise degree of care, which, in the discharge of duty, a person of *ordinary* caution should exercise.

The Lead Municipality shall keep records available for inspection by the other Municipalities as to the repair and maintenance of the Equipment. A Municipality shall not perform any repairs or replacements in excess of $250 without written authorization from each of the Designated Representatives of the remaining Municipalities.

INSURANCE

The Equipment shall at all times that this Agreement is in effect be adequately insured for fire, theft, damage, or injuries to person or property and all other liability. Cost of this insurance shall be divided equally among the Municipalities. The Lead Municipality shall be responsible for securing insurance covering the equipment. Limits of such coverage shall be determined by the Lead Municipality subject to revision by a vote of the participating Municipalities.

As required by M.G.L. Chapter 40, Section 4A, all Equipment and employees of a participating Municipality shall be deemed to be in the service of that Municipality when engaged in or performing any service under this Agreement. Each participating Municipality represents that an employee assigned by it to operate the Equipment is adequately trained to perform such operation and has all the current necessary permits and licenses to do so. All claims for workers compensation or-similar benefits made by said employees shall be the sole responsibility of the Municipality by which such employees are employed.

LIABILITY

Pursuant to MGL c. 40, s. 4A, each municipality shall be liable only for the acts and omissions of its own employees and not for the employees of any other municipality or agency in the performance of this Agreement and only to the extent provided by the Massachusetts Tort Claims Act, M.G.L. c. 258, and irrespective of the nature of the claim. By entering into this Agreement, the Municipalities have not waived any governmental immunity or limitation of damages which may be extended to them by operation of law. This paragraph shall survive the termination or expiration of this Agreement.

DISPUTE SETTLEMENT

In the event any disputes or questions arise between the parties as to the interpretation of the terms of the Agreement of the satisfactory performance by any of the parties of their respective responsibilities provided for in the Agreement, a meeting shall be held promptly between the parties, attended by individuals with decision-making authority regarding the dispute, to attempt in good faith to negotiate a resolution of the dispute.

If, within thirty (30) days after such meeting, the parties have not succeeded in negotiating a resolution of the dispute, and have not otherwise agreed unanimously to extend negotiations beyond 30 days, they agree to submit the dispute to non-binding mediation and to bear equally the costs of such mediation. The parties will jointly appoint a mutually acceptable mediator, seeking assistance in such regard from a local mediation service.

The parties agree to participate in good faith in the mediation and negotiations related thereto for a period of 30 days, or a longer period if by unanimous written consent of the parties. If the parties are not successful in resolving the dispute through mediation, then any party may initiate litigation upon ten (10) days written notice to other parties.

Nothing in this Section shall limit or delay the exercise of any right, power or authority of the towns under any statute, regulation, ordinance or by-law, or require the delay of any filing or claim which must be asserted to preserve any rights of the parties. Notwithstanding the foregoing, any party may submit a dispute arising hereunder immediately in a court of competent jurisdiction located in the Commonwealth of Massachusetts.

SCHEDULE OF USE

The Designated Representative of each participating Municipality shall agree to a written schedule or system for use of the Equipment, including emergency use. During the first year of this Agreement, each participating Municipality will use the Equipment for a set period of time; in future years, the schedule will be set so as to accommodate, to the greatest extent possible, each participating Municipality's demonstrated need for use of the Equipment. Each Municipality shall be responsible to arrange transport of the Equipment to its community and to cover any costs associated with its transport. Each Municipality will be able to use the Equipment each season of each year. The schedule or systems may be amended in writing from time to time by a unanimous written consent of each of the Designated Representatives.

END OF AGREEMENT AND DISPOSAL OF EQUIPMENT

Upon conclusion of this Agreement or disposal of the Equipment, any balance remaining in the Repair and Maintenance Account shall be divided equally among the Municipalities currently participating. If the useful life of the Equipment is realized before the end of the term of this Agreement, upon a majority vote of the Designated Representatives, the Lead Municipality shall declare the Equipment as surplus, and may sell, auction or otherwise dispose of the Equipment by appropriate means. Any proceeds from the sale of the Equipment shall be divided equally among the participating Municipalities and this Agreement shall automatically terminate upon disposition of the same.

GOVERNING LAW
This Agreement shall be governed by, construed, and enforced in accordance with the laws of the Commonwealth of Massachusetts.

HEADINGS
The paragraph headings herein are for convenience only, are no part of this Agreement, and shall not affect the interpretation of this Agreement.

NON-DISCRIMINATION
Neither the Lead Municipality nor the Municipalities shall discriminate against any person because of race, color, religious creed, national origin, gender, ancestry, sexual orientation, age, handicap, gender identity, genetic information, military service, or any other protected class under the law with respect to admission to, access to, or operation of its programs, services, or activities.

SEVERABILITY
If any section, subsection, sentence, or clause of this Agreement shall be adjudged illegal, invalid or unenforceable such illegality, invalidity, or unenforceability shall not affect the legality, validity, or enforceability of the Agreement as a whole or of any section, subsection, sentence, or clause hereof not so adjudged.

NOTICES
Any notices, bills, invoices, or reports required by this Agreement shall be sufficient if sent by the parties via United States mail, postage paid, to:

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, December 17, 2024 6:00 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Also present: Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:01 PM.
Ms. Cook announced that the Tree Hearing with the Planning Board and Tree Warden designee Chris Leroy that was previously scheduled for tonight in the McAuliffe Hearing Room at 6:30 PM would take place virtually at 6:30 PM.

II. Public Comment

There was no public comment.
The Board recessed at 7:00 PM and resumed meeting at 7:06 PM, at which time they moved to Scheduled Appointments c.

III. Scheduled Appointments

a. 6:00 PM – Police Department appointments/promotions

i. Jonathan Paiva as Police Officer

Police Chief Newell introduced Mr. Jonathan Paiva to the Board and recommended Mr. Paiva for the position of Police Officer.

ii. Adalberto Lopez-Aponte as Police Officer

Police Chief Newell introduced Mr. Lopez-Aponte to the Board and recommended Mr. Lopez-Aponte for the position of Police Officer.
Mr. Dennington moved to appoint Mr. Paiva and Mr. Lopez-Aponte to the positions of Police Officers in the Southborough Police Department. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Mr. James Hegarty, Town Clerk, administered the Oath of Office to Mr. Paiva, as a probationary police officer with the Southborough Police Department. Town Clerk Hegarty administered the Oath of Office to Mr. Lopez-Aponte, as a probationary police officer with the Southborough Police Department.

iii. Jeff Norton as Police Sergeant

Chief Newell introduced Detective Jeff Norton to the Board and recommended him for the position of Sergeant with the Southborough Police Department. Mr. Dennington moved to appoint Detective Norton to the position of Police Sergeant. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Town Clerk Hegarty administered the Oath of Office to Jeff Norton as Police Sergeant with the Southborough Police Department. Sergeant Norton's son Wyatt performed the pinning ceremony.

iv. Michael Whelan as Police Lieutenant

Chief Newell introduced Sergeant Michael Whelan to the Board and recommended him for the position of Lieutenant with the Southborough Police Department. Mr. Dennington moved to appoint Sergeant Whelan to the position of Lieutenant. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Town Clerk Hegarty administered the Oath of Office to Michael

Whelan as Police Lieutenant with the Southborough Police Department. Lieutenant Whelan's father performed the pinning ceremony.

The Board recessed at 6:16 PM and resumed the meeting at 6:25 PM.

b. Department Accomplishments for Calendar 2024

The Board recited Town department accomplishments as follow: Mr. Dennington: Facilities Department, Fire Department and the Economic Development; Mr. Stivers: Council on Aging/Senior Center, Police Department and Building Department; Mr. Hamilton: Recreation Department, Technology and Select Board/Town Administrator; Ms. Landry: Health Department, Accounting Department and Library; and Ms. Cook: Conservation Department, Youth and Family Services, Planning Department and Department of Public Works. Ms. Cook thanked the Board for a successful year.

Ms. Cook moved to Reports at this time.

Joint Meeting with Advisory Committee

Mr. Andrew Pfaff called the Advisory Committee meeting to order at 7:07 PM. Members present: Andrew Pfaff, Marci Jones Salow, Howard Rose, Barry Rubenstein and Larry Samberg. Present via ZOOM: Tim Martel and Adam Nodiff.

Mr. Jason Malinowski, Chair of the Neary Building Committee (NBC), called the NBC meeting to order at 7:07 PM. Members present: Jason Malinowski, Roger Challen, Denise Eddy, Kathy Cook, Andrew Pfaff and Mark Davis. Absent: Chris Evers. Ex-Officio members present: Brian Ballantine, Keith LaVoie, Greg Martineau, Rebecca Pellegrino, Mark Purple and Stephanie Reinhorn. Absent: Steve Mucci and Kathleen Valenti. Also present was Jim Burrows from Skanska, as Owner's Project Manager (OPM) and Kate Bubriski, Larry Spang and Katy Lillich, all from Arrowstreet, as Project Designer.

Ms. Chelsea Malinowski, Chair of the School Committee, called the School Committee meeting to order at 7:09 PM. Members present: Roger Challen. Members present via ZOOM: Chelsea Malinowski and Laura Kauffmann.

Ms. Cook explained that tonight's discussion would cover four areas: 1) the process; 2) the site; 3) educational benefits; and 4) finances. Additionally, she stated that DPW Superintendent Bill Cundiff and Tim Thies from Pare Engineering, the Town's water consultant, were present. She also stated that public comment would take place after the project presentation and the Capital Improvement & Planning Committee's presentation, as they are interrelated.

c. Neary Building Committee – Project presentation

The Process: Mr. Malinowski shared the Neary Building Project Overview with the Board, Advisory Committee and public. He described the Massachusetts School Building Authority (MSBA) process and stated that the NBC considered a base repair of the current building, along with twelve other options. Mr. Malinowski shared that the NBC focused its efforts on three options: Option 1: Base repair of current building; $64 million dollars – grades 4 and 5; Option 2: Addition/renovation – grades 2-5; and Option 3: New Construction – grades 2-5. He stated the NBC is recommending Option 3. Mr. Rubenstein asked what the greatest unknown is with Option 3. Mr. Spang stated that the soil/site is the greatest unknown for option 3. Ms. Jones Salow asked what the reimbursement rate would be for Option 1. Mr. Burrows stated the State reimbursement number would be approximately 27%. She asked if enrollment projections support building a new school. Superintendent Martineau stated that, for the next ten years, Southborough's enrollment numbers plateau but do not decrease.

The Site: Mr. Theis, whose firm has been monitoring the landfill for the last five years, described the history and current status of the landfill. He stated that, at this time, the landfill appears to be very stable. Ms. Cook asked how Neary School came to be built near the landfill. Mr. Mark Davis stated

that the site was donated to the Town. Mr. Malinowski clarified that the soil in the landfill is not structurally stable and so it was determined that the school should be built on the site of the current Neary School. Mr. Spang stated that a vapor remediation system would be part of the project design for mitigation. Mr. Davis stated he was comfortable with the project design relative to the landfill and soil mitigation. He suggested that three additional testing wells be installed next to the school to provide comparison monitoring with existing wells around the site. Superintendent Cundiff stated that he believes the gas issue has been addressed. Additionally, he believes the ground water issue has been addressed, as the new school's water is supplied from the MWRA. Mr. Hamilton asked about the extent of the groundwater contamination. Mr. Theis stated that mapping has not occurred beyond the landfill wells. Ms. Landry asked about the life span of a vapor barrier. Mr. Spang stated that he would investigate and provide an answer to the question. Ms. Jones Salow asked if the current school is built on a slab and has there been any evidence of groundwater infiltration. Mr. Spang stated that the current school is built on a slab and the proposed school would be, as well. He stated that there has been no evidence of groundwater infiltration. Mr. Samberg asked if there was any data on the long-term behavior of capped landfills. Mr. Theis stated that the practice of capping has been used for approximately 30 years, the age of the landfill being discussed. He added that decomposition slows over time.

Educational Benefits: Superintendent Martineau stated that the proposed building is designed for 50 years of use. He also stated that district educators worked with stakeholders to develop the educational plan during the feasibility phase and noted that the educational plan drives the design of the proposed new building. Superintendent Martineau, Dr. Reinhorn, Ms. Pellegrino and Mr. LaVoie presented the educational plan and its benefits. Superintendent Martineau shared the design plan of the building. Mr. LaVoie shared the preliminary relocation plan while the new building is under construction. Mr. Hamilton challenged the NBC to provide clear data related to the cost savings to the Town. Ms. Jones Salow asked what spaces would be available for public use during evenings and weekends. Superintendent Martineau stated that the gymnasium and cafetorium would be available for public use during evenings and weekends. Mr. Rose asked that opportunities for reconfiguration be considered in the design process. Mr. Samberg echoed Mr. Hamilton's comments on costs. Mr. Samberg also asked about the square foot/per student cost and how it compares to schools of similar size built in the State. Mr. Pfaff stated he would share that information with Mr. Samberg and noted that while the cost is on the higher side, it is not the highest in the State. Mr. Nodiff recommended that the NBC provide greater detail on the sustainability aspects of the project. Mr. Nodiff also asked why there was no auditorium in the proposed project. Mr. Pfaff stated that auditoriums are not reimbursable by the MSBA program.

The Board recessed at 8:57 PM and resumed meeting at 9:08 PM.

Finances: Ms. Cook stated that the total project cost is estimated to be $113.6 million dollars. She stated the State reimbursement is expected to be $31.8 million dollars, leaving the total cost to Southborough at $81.8 million dollars. She stated that the cost per square foot to build the school is $1,140 dollars and the tax increase for a home valued at $900,000 is expected to be $1,207 dollars per year. Ms. Cook stated that on April 30, 2025 the MSBA would make its decision to approve the project. Ms. Cook stated that two votes are required: May 10, 2025 (Special Town Meeting vote) and May 13, 2025 (Town ballot question vote). Mr. Burrows stated that costs would be re-evaluated to see if any further savings could be achieved prior to the final submission to the MSBA. Mr. Pfaff added that the Committee continues to research any available grants to further reduce the cost of the project. Mr. Samberg asked if this amount of debt could affect the Town's bond rating. Mr. Pfaff replied that it could. Mr. Rose asked about the percentage of contingency costs in the project. Mr. Burrows stated that the contingency for construction costs is 2.5% and the contingency for soft costs is 1.5%. Mr. Rose asked about LEED certification. Ms. Bubriski stated that the project is being designed to capture the maximum reimbursement from the State regarding LEED certification, net-

zero design and air quality. Ms. Jones Salow asked about the reimbursement rate for Option #2. Mr. Burrows stated that Option 2 does not have a 39% reimbursement rate, adding that all project costs would need to be evaluated to determine the reimbursement rate. Mr. Hamilton stated that his primary concerns are the following: the impact of the project on seniors, the impact to the Town's finances and the risks associated with interest rates and potential tariff rates. Mr. Dennington asked what would happen if Town Meeting does not approve the project. Mr. Malinowski stated that funding must be secured within 180 days of the MSBA approval on April 30, 2025 and he described the Town approval process.

d. Capital Improvement & Planning Committee – FY26 Capital recommendations

Mr. Malinowski did not call a meeting to order, as a quorum was not present. He shared the FY26 list of Capital Requests for Appropriation and stated that, for the next five years, the Town has previously approved capital debt-funded expenditures of $2-2.9 million dollars. He then shared a slide of total debt service for the next ten years, which included previously approved projects and proposed capital projects at full cost (assuming no reimbursements or other funding sources), noting the proposed list had not yet been vetted.

Ms. Cook moved to public comment on the project at this time. Ms. Betsy Rosenbloom, 5 Strawberry Hill Road, asked if any additional monies are needed for Finn, other than the roof. Mr. Malinowski stated that more public input is needed to make that determination. Ms. Patricia Burns-Fiore, 10 Winter Street, asked a series of clarifying questions about the project and the debt service information. Ms. Burns-Fiore stated that she feels her tax bracket is underrepresented in the decision-making process and she cannot afford the tax implications of this project, or other future capital projects, without an increase in the tax base. Mr. Eric Glaser, 13 Skylar Drive, asked about the dollar per square foot for Option 2. Ms. Cook clarified that the NBC looked at both a base repair and renovation of the school. She stated that the renovation was slightly more expensive than the proposed project. Mr. Glaser asked if an application for a base repair of approximately $64 million dollars could be submitted to the MSBA. Mr. Malinowski stated that the MSBA process dictates that the current application process runs its course and stated that if the Town wanted to submit another application for the Neary School, it would be considered after other projects currently before the MSBA. Mr. Malinowski also stated that, as part of the MSBA process, several iterations of configurations were considered. Ms. Joanne Pierson, 101 Newton Street, stated that she believes the essential question for decision-making should have been "what can people in Town afford?" She stated that she believes teachers are more important than buildings to the educational experience and she would like to see the Town pursue a school that everyone in Town can afford. Mr. Rob Laurenson, 132 Marlborough Road, asked what happens if nothing is done. Mr. Malinowski stated that safety issues would need to be funded immediately (roof, windows, fire suppression). Ms. Cook added that the building would need to be made ADA compliant. Mr. Dennington asked about the timeline for a new MSBA application, should the Town not approve the current proposal. Mr. Malinowski stated that the timeline is approximately four years. Ms. Cook clarified that in order to receive the MSBA grant, only one project could be considered. Mr. Tim Fling, 18 Main Street, asked if numbers could be provided for a phased approach to the necessary upgrades, should the Town vote no on the project. Mr. Malinowski stated that phasing the base repair would not address the immediate safety concerns, would ignore the educational plan and would not allow for economies of scale in savings. He stated he believes the $64 million figure is accurate for the base repair. Mr. Fling stated that he would like to see the Town increase its tax base prior to undertaking this project. Mr. Fling asked what contingencies are in place if there is an increase in student population and how many students could be accommodated. Mr. Spang stated that classrooms could be added to the rear of the building and that the MSBA process requires that the design accommodate this possibility. He stated he would obtain the data on the number of students that could be accommodated. Mr. Malinowski stated that the contingency plan includes Woodward School. Ms. Kristin LaVault, 12

Southwood Drive, requested that the School Committee address teacher salaries and pay rates for substitute teachers prior to addressing building concerns.
Mr. Malinowski moved to adjourn the NBC at 10:33 PM. Mr. Challen seconded the motion. The motion was unanimously approved (6-0-0).
Ms. Malinowski moved to adjourn the Southborough School Committee at 10:32 PM. Mr. Challen seconded the motion. The motion was unanimously approved (3-0-0).

The Board recessed at 10:33 PM and resumed meeting at 10:36 PM.

e. Brian Ballantine – Fiscal Year 2026 Budget

i. Update on Department submissions

Mr. Ballantine shared the first iteration of the budget with the Board and the Advisory Committee and stated it includes all department requests. He stated the report also includes preliminary numbers for the School Department, both for K-8 and Algonquin. He stated that there is an additional $800,000 dollars in Free Cash that is not listed on the report at this time and suggested discussions on where to apply those funds take place later in the budget process. He stated there might be a discussion on Local Receipts later in the budget process and that preliminary information on Local Aid would be forthcoming sometime in January. Mr. Ballantine stated that the report includes a slight value shift of 4%. He also stated that no Community Preservation Act (CPA) funds are included in the report and it only includes previously approved capital projects. He noted that an override is part of the first iteration. The Board and the Advisory Committee discussed the override process.

ii. Advisory & Select Board liaisons

The Board and the Advisory Committee discussed liaisons for the FY26 budget cycle and agreed to the following: Police: Ms. Landry, Mr. Dennington and Mr. Rose; Fire: Ms. Cook and Mr. Samberg; Capital: Mr. Hamilton and Mr. Pfaff; DPW: Mr. Stivers and Ms. Jones Salow; and Schools: Mr. Stivers, Mr. Rubenstein and Mr. Pfaff.

iii. January 25, 2025 budget summit

Mr. Purple requested that Superintendent Martineau be added to the agenda on January 25th. He also requested that Technology be removed from the agenda. Ms. Cook stated that the departments taking part in the January 25th budget summit are as follows: Police, Fire, Capital Improvement and Planning Committee; DPW and the School Department.

Mr. Pfaff moved to adjourn the Advisory Committee at 10: 53 PM. Mr. Rose seconded the motion. The motion was unanimously approved (5-0-0).
Ms. Cook moved to the Consent Agenda at this time.

IV. Reports

a. Chair's Report

Ms. Cook reported that she, Town Administrator Mark Purple and Advisory Chair Andrew Pfaff met with Harvard regarding increasing Harvard's PILOT (Payment In Lieu of Taxes) payments to the Town. She reported that Harvard has agreed to increase this year's payment to $50,000 and will increase subsequent yearly payments by 2.5% each year. She also reported that Harvard has agreed to store Town documents at its depository.

b. Members' Reports

i. Metropolitan Area Planning Council (MAPC) Technical Assistance Program (TAP) application

Mr. Dennington reported that he and Assistant Town Administrator Vanessa Hale, EDC Coordinator Leah Emerson and Planning Board member Marnie Hoolahan had successfully submitted an

application for a MAPC TAP grant for zoning on Route 9 and are awaiting information on any potential award. He also reported that on December 16th, he and Ms. Emerson met with Westborough's Planning Director regarding a potential collaboration on a regional One Stop grant application for a Route 9 Corridor study. Mr. Dennington reported that discussions are ongoing and a decision on a joint application would be made in January, prior to the February Expression of Interest deadline.

ii. Update on Chestnut Hill Farm return to farming

Mr. Hamilton reported that he met with the Trustees, neighbors, the Conservation Commission and the Open Space Preservation Commission on the matter. He stated that the plan is to find someone to lease the land from the Trustees and operate a farm in compliance with the Conservation Restriction (CR) in place.

c. Town Administrator's Report

i. RECC update

Mr. Purple reported that, last week, an update on the status of the RECC was held in Westborough. He reported that meetings would be held on a rotating basis in Westborough, Grafton and Southborough unless there is a need to meet on-site in Westborough. He reported that the Executive Committee is discussing the Executive Director position and is reviewing a job description, compensation and contract related to the position.

Ms. Cook moved to II. - Public Comment at this time.

V. Consent Agenda

a. Approve Open Session Meeting Minutes: December 3, 2024

Mr. Stivers requested to hold Consent Agenda item "a." Mr. Stivers had scrivener's changes to the minutes. Ms. Cook moved to approve Consent Agenda item "a", as amended. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Open Warrant for April 7, 2025 Annual Town Meeting
c. Accept electric bike donation from Timothy and Courtney Moller to the Police Dept.
d. Accept $100 donation from Richard Sullivan to the Police Dept.
e. Approve NECC Payment in lieu of Taxes of $52,036
f. Declining the Right of First Refusal on Affordable Unit at 16B Stockwell Lane

Ms. Cook moved to approve Consent Agenda items "b", "c", "d", "e" and "f." Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

V.* Other Matters *(Board may vote)

VI. Public Comment

There was no public comment.

VIII. Adjournment

Mr. Dennington moved to adjourn the meeting at 10:55 PM. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

To: Honorable Select Board

From: Chief Ryan M. Newell

Subject: Appointment of Probationary Officer Jonathan Paiva

Date: December 17, 2024

Dear Select Board Members:

Please consider my request to appoint Mr. Jonathan Paiva as a Probationary Officer with the Town of Southborough, effective December 17, 2024. Mr. Paiva is a resident of Westborough, MA, and is currently working as a Full-time Police Officer for the Town of Bolton (4 years). He has obtained both his Bachelor's Degree and his Master's Degree in Criminal Justice from Fitchburg State University, and is also fluent in Portuguese.

Mr. Paiva's will be starting at the Step Four Pay Rate of the FY23-FY25 Collective Bargaining Agreement with Local 167 ($30 per hour).

Please feel free to contact me with any questions or concerns you may have.

Thank you.

Respectfully,

Ryan M. Newell

Subject: Appointment of Probationary Officer Adalberto Lopez-Aponte

Date: December 17, 2024

Dear Select Board Members:

Please consider my request to appoint Mr. Adalberto Lopez-Aponte as a Probationary Officer with the Town of Southborough, effective December 17, 2024. Mr. Aponte is a resident of Worcester, MA, and is currently working as a Full-time Police Officer for Holy Cross College Police Department. He graduated from the Quinsigamond Community College MPTC Police Academy in May of 2022, and obtained his Associate's Degree in Criminal Justice from Quinsigamond Community College. Off. Aponte is also bilingual and is fluent in both English and Spanish.

Mr. Aponte will be starting at the Step Four Pay Rate of the FY23-FY25 Collective Bargaining Agreement with Local 167 ($30 per hour).

Please feel free to contact me with any questions or concerns you may have.

Thank you.

Respectfully,

Ryan M. Newell

Sean P. McCarthy
Lieutenant

To: Honorable Select Board
From: Chief Ryan M. Newell
Subject: Appointment of Sergeant Jeffrey Norton
Date: December 17, 2024

Dear Honorable Select Board:

Please consider my recommendation to appoint Officer Jeffrey Norton to the position of Police Sergeant within the Southborough Police Department. The position will be available after Sgt. Michael Whelan is promoted to the open Lieutenant position within our department. The position was advertised internally, following the guidelines set in the department's Promotions policy, as well as the promotion guidelines established in the Collective Bargaining Agreement with Local 167. Per the CBA, a Sergeant candidate list was established from results of the Sergeant promotional process. Off. Norton successfully completed a full Assessment Center, Promotional Board Interview, and came out of the promotional process as the third highest scoring candidate (just behind Sgt. Steve Neivert and Sgt. Thomas Rock- who have already been promoted). Jeff is a resident of Gardner, MA. He obtained a Bachelor's Degree from Johnson and Wales University and is currently a full-time Police Officer for the Town of Southborough. Previously, Jeff was a full-time Communications Officer for the Southborough Police Department. He has been working for the Southborough Police Department since his appointment to the Dispatcher position in May of 2019. During his time with our department, he has held many specialty assignments within our department, and is currently the full-time Detective for the SPD (please see attached resume' for full list of specialty assignments).

His appointment would be of great benefit to the Southborough Police Department in filling a very important supervisory position.

The recommended pay rate would be $37.05 per hour (Step 6 in the Local 167 CBA) due to his training and previous work experience.

Please feel free to contact me with any questions or concerns that you may have.
Thank you.

Respectfully Submitted,

Ryan M. Newell

Chief Ryan M. Newell

Southborough Police Department

Southborough, Massachusetts 01772
508-485-2121 Fax 508-485-4634

Ryan M. Newell
Chief of Police

Sean P. McCarthy
Lieutenant

To:	Honorable Select Board
From:	Chief Ryan M. Newell
Subject:	Appointment of Lieutenant Michael Whelan
Date:	December 17, 2024

Dear Select Board:

Please consider my recommendation to appoint Sgt. Michael Whelan to the position of Police Lieutenant within the Southborough Police Department. The position became available after Town Meeting voted to fund the requested position at the Special Town Meeting in September of this year. The position was advertised internally, and one applicant (Michael Whelan) applied. Sgt. Whelan successfully completed an internal promotion process that involved a full review of his experience & qualifications; a full review of his Annual Evaluations; a promotional board interview consisting of a panel of three (3) area Police Chiefs; and a formal interview process involving myself and Southborough Town Administrator Mark Purple. Sgt. Whelan passed every promotional board interview with a perfect score from all of the involved Assessors.

Michael is a resident of Northborough, MA., and holds a Bachelor of Science Degree in Criminal Justice from the University of Hartford. He is currently a full-time Police Sergeant for the Town of Southborough, and has been working for the department since his appointment to a full-time police officer position in 2011 (13 years). He was promoted to Sergeant in January of 2020 and became the department's Communications Supervisor; functioning as the direct Supervisor for the six (6) full-time Communications Officers in the department. He is also an Alpha Team Leader for the CEMLEC Regional SWAT Team, which serves approximately 70+ towns in central Massachusetts.

His appointment would be of great benefit to the Southborough Police Department in filling a very important administrative position. His start date in this new position will be determined shortly after successful completion of a number of screening checks and based on the Board's approval. I will be reviewing the Police Lieutenant Policy Statement with Sgt. Whelan [attached to this memo] before his appointment, which delineates certain benefits agreed upon between the Select Board and the employee that carry over from the union contract (Local 167) and establish the wages, benefits, and terms & conditions of employment for the Police Lieutenant.

The recommended pay rate would be $51.10 per hour (Schedule A, Grade A-8 of the SAP) due to his training and previous work experience.

Please feel free to contact me with any questions or concerns you may have.

Respectfully Submitted,

Ryan M. Newell

Chief Ryan M. Newell

BUDGET NOTES

Free Cash:

Available:	2,536,158
Draft #1 operating use:	-1,733,000
Remaining for reserve/capital:	**803,158**

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, December 3, 2024 6:30 PM
Location: McAuliffe Hearing Room, Town House, 17 Common Street, Southborough, MA
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Also present: Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order

Chair Kathy Cook called the meeting to order at 6:30 PM.

II. Public Comment

There was no public comment.

III. Scheduled Appointments *(Board may vote)*

a. Diana Wainrib – Resources for immigrant families

Ms. Diana Wainrib, 25 Pinehill Road, appeared before the Board to discuss recent efforts to assist immigrant families through the Westborough Southborough Neighborhood Support Team. Ms. Wainrib shared a presentation of the group's efforts over the last year. Ms. Wainrib asked the Board to assist in finding approximately 1,000 square feet of space in Southborough, either first floor or elevator accessible, for storing clothing and other items to help immigrant families. She also asked that the Board consider the Senior Center and Southborough Youth and Family Services as resources for efforts to assist immigrant families. Ms. Cook asked Ms. Wainrib to detail her request in a letter to Mr. Purple for consideration by the Town. Mr. Stivers suggested Ms. Wainrib contact local storage facility businesses as a potential option for storage.

b. DPW – Proposed Mailbox Damage Reimbursement Policy

DPW Superintendent Bill Cundiff appeared before the Board on the matter. He shared the proposed Mailbox Damage Reimbursement Policy with the Board. He stated that the policy is intended to provide guidelines for this shared responsibility between the public and the Town and that the goal is to protect the Town while also protecting the homeowner's investment. He also stated that many surrounding communities have adopted this type of policy. Ms. Cook suggested and DPW Superintendent Cundiff agreed that Section 3(c) be changed to reflect that, if damage occurs by a business under contract by the Town, the DPW would assist the homeowner in making a claim to the contractor. The Board discussed the W-9 included in the proposed policy. Ms. Cook agreed to further investigate the W-9 matter. Ms. Landry asked how contractors view the policy. DPW Superintendent Cundiff stated that contractors support this policy, as it limits their exposure. Mr. Hamilton moved to accept the policy, with Ms. Cook's amendment stated above. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

Ms. Cook moved to Other Matters (b) at this time.

IV. Reports

a. Chair's Report

Ms. Cook requested that the December 17th Board meeting begin at 6:00 PM, due to the number of items on the agenda, and the Board agreed. She reviewed the agenda items for the December 17th

meeting. She also noted that on January 25, 2025, the Board and the Advisory Committee would hold their yearly budget summit, as part of the budgeting process.

i. Neary School Building Committee update

Ms. Cook reported that the Neary School Building Committee would make a comprehensive presentation on the Neary School project at the December 17th Board meeting.

b. Members' Reports

i. Wastewater treatment

Mr. Hamilton reported that he, along and Mr. Stivers, DPW Superintendent Cundiff and Brian Shea, met with Weston and Sampson to understand the issues related to wastewater treatment and explored potential options for the Town to consider. He stated they discussed surface discharge versus ground discharge and discussed needed facilities. Mr. Hamilton stated next steps would include: 1) meeting with the Massachusetts Department of Environmental Protection (DEP) to discuss their perspective and requirements in building a wastewater treatment facility for the Route 9 corridor; and 2) meeting with affected stakeholders along the Route 9 corridor to obtain their feedback. He stated the group would continue to meet to explore options and issues relative to wastewater treatment along Route 9.

ii. Old Burial Ground care

Ms. Landry stated that a structure/process needs to be created to address work orders, general caretaking and occasional restoration in the Old Burial Ground. She stated that, on December 17th, she would meet with Sally Waters, Historical Commission Chair Kevin Miller, Chris Leroy and DPW Superintendent Cundiff to discuss a structure/process. DPW Superintendent Cundiff stated that routine maintenance could be paid for through the DPW's operating budget. Mr. Stivers stated that the Board of Commissioners of Trust Funds had recently approved up to $5,000 in tree work in the Old Burial Ground and may have some additional funds available.

c. Town Administrator's Report

Mr. Purple reported that the draft Sidewalk Accessibility Report, developed by BETA Group, is available for review on the DPW's webpage. He stated that the Town would publicize the report and request public feedback. DPW Superintendent Cundiff stated he hopes to receive public feedback within the next two weeks. Mr. Stivers stated that this report is an important step in data collection for the Town for planning and investment purposes.

Mr. Purple reported that final numbers for the year's golf season have been received. He reported that the Golf Course generated $782,171 in total revenue and that $112,434.20 has been returned to the Golf Revolving Fund. He also reported that there was an increase of 2,000 rounds of golf over last year. Mr. Purple provided an update on the golf irrigation project and stated that the project would likely be completed in the late April/early May timeframe. Ms. Cook suggested the Golf Committee provide an update to the Board on their work in early 2025.

i. RECC update

Mr. Purple stated that this matter would be on each Board agenda going forward. He also stated that, as of this evening, the IMA would be executed by all parties. Mr. Purple reported that the governing board's priorities include executing a lease, hiring an executive director and obtaining recognition by Worcester County Retirement for employment matters, including benefits. He stated that the Owner's Project Manager (OPM) would provide a draft for the next round of grant funding from State 911, which will include IT services, at the governing board's next meeting. He also reported a community update would be provided by the OPM and sub-contractors later this month. Mr. Purple reported that the towns of Millbury, Northborough, Upton and Hopedale have been approached about joining the MetroWest RECC. The Board asked questions about and discussed the status of the building.

Ms. Cook reported that she received a text today from Atlantic Management Corporation, based in Framingham, informing her that they had acquired the property at 32 Coslin Drive and she noted that

DRAFT

this is the property where the Town's tower is located. She stated Atlantic Management Corporation is excited about the prospect of developing the area.

V. Consent Agenda

a. Approve Open Session Meeting Minutes: November 19, 2024
b. Appoint Alternate Building Inspector(s)

Mr. Lund stated that the individuals proposed for approval tonight are alternate members and would be called upon in the event Building Commissioner Lund and Inspector Novak are unavailable. Mr. Stivers moved to appoint Michael Giampietro and Peter Tartakoff as Alternate Building Inspectors. Mr. Hamilton seconded the motion. The motion was unanimously approved (5-0-0).

Ms. Cook moved to Reports at this time.

c. Calendar 2025 License Approvals (Wine & Malt; All Alcohol; Common Victualer; Class I, II and II Auto)

Mr. Stivers requested to hold Consent Agenda item "c." Mr. Stivers asked if all paperwork and payments were in order for the licenses. Mr. Purple reported that inspections are ongoing and should be concluded in the near future. He also stated that licenses would not be released until all matters are in order. Mr. Purple acknowledged Ms. Melanie Otsuka for her efforts in managing the license approval process.

d. Award contract for On-Call Engineering Services
e. Approve 2025 Winter Parking Ban
f. Appoint Program Coordinator to Youth and Family Services
g. Accept $4000.00 donation from the Southborough Community Foundation; $2,000 to Summer Concert Series; $2,000 to fund pottery wheels

Ms. Cook moved to approve Consent Agenda items "a", "c", "d", "e", "f" and "g." Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

VI. Other Matters *(Board may vote)*

a. Review ARPA funding and allocations

Ms. Cook moved to remove $1,247.69 from the Southborough Trail Enhancements category and $5,197.47 from the Peninsula Trail category and place $6,445.14 in the General Tax Relief ARPA category. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0). Ms. Cook moved to allocate $6,445.14 from the General Tax Relief category to the Fire Department Equipment category. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

b. Approve Intermunicipal Agreement (IMA) for Utility Pipe Camera

DPW Superintendent Cundiff stated that the Town was awarded a Commonwealth Community Compact grant in the amount of $110,000 dollars for a utility pipe camera system, which would assist in all aspects of road repairs. He stated he worked with Town Counsel to create a shared equipment agreement for use of the camera system with Hopkinton and Westborough. He noted that Westborough has signed the IMA and that he expects Hopkinton to do so this evening. He stated that the cost of the camera system under review is approximately $143,000 dollars. He stated that the IMA defines the terms of use and shares the additional cost of the system under review. Ms. Cook asked where the Town's portion of additional cost (approximately $11,000) would come from. DPW Superintendent stated that the funds would come out of the DPW's FY25 budget. The Board discussed the regional approach to this matter and other State grants. Mr. Dennington stated that there are discussions with Westborough and the Planning Board to apply for a One Stop grant for a regional Route 9 corridor study, noting that regional grants are generally received favorably by the State. Mr. Stivers moved to approve the proposed IMA. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

c. Delegation of Tree Warden authority to Tree Warden designee

Ms. Cook stated that Town Counsel has opined that the Board can delegate the Tree Warden authority to Mr. Chris Leroy, who is currently the Tree Warden designee. She stated that, going forward, Mr. Leroy would conduct tree hearings with the Planning Board. She clarified that, when the State House of Representatives and Senate approves the Special Act passed at the 2024 Town Meeting, the Board would vote to appoint Mr. Leroy as Tree Warden. Mr. Stivers moved to approve the delegation of Tree Warden authority to Mr. Chris Leroy, the Tree Warden designee. Mr. Dennington seconded the motion. The motion was unanimously approved (5-0-0).

Ms. Cook moved to Consent Agenda items "b" and "d." Building Commissioner Chris Lund appeared before the Board to answer questions on Consent Agenda items "b" and "d."

d. Assign members to negotiate successor Police Chief contract

Mr. Stivers moved to appoint Mr. Dennington to negotiate the draft Police Chief contract on behalf of the Board. Ms. Landry seconded the motion. The motion was unanimously approved (5-0-0).

VI. Public Comment

There was no public comment.

VIII. Adjournment

Mr. Hamilton moved to adjourn the meeting at 7:44 PM. Mr. Stivers seconded the motion. The motion was unanimously approved (5-0-0).

December 11, 2024

Dear Select Board members,

A donation of an electric bicycle was made to the Southborough Police Department from residents Timothy and Courtney Moller, and there was no designated item marked for specific use of the bicycle. The approximate value of the electric bicycle is $2000.00.

The Southborough Police Department appreciates the Moller's donation and would like to accept this donation in order to establish a department bicycle that could be utilized during town events (parades, Heritage Day, Summer Nights, and other Community events). Having this bicycle available for community events would greatly benefit our Community Policing program, as it would be taking an officer out of a cruiser and making that officer more easily approachable and available to the public.

I am asking that the Select Board to please accept this donation on behalf of the Southborough Police Department at your next scheduled meeting (December 17, 2024).

If you need anything further from me, please just let me know. Thank you.

Respectfully,

Ryan M. Newell
Chief of Police
Southborough Police Department

December 11, 2024

Dear Select Board members,

A donation check was received at the Southborough Police Department for $100 from resident Richard Sullivan, and there was no designated item marked for specific use.

The Southborough Police Department appreciates Mr. Sullivan's donation and would like to deposit this donation into the Police Gifts Donation account. Town Accountant Carla McAuliffe has been notified of this donation, as well.

I am asking that the Select Board to please accept this donation on behalf of the Southborough Police Department at your next scheduled meeting (December 17, 2024).

If you need anything further from me, please just let me know. Thank you.

Respectfully,

Ryan M. Newell

TOWN OF SOUTHBOROUGH

SELECT BOARD Meeting Minutes

Meeting Date: Tuesday, December 30, 2024 8:00 A.M.
Location: Remote through Zoom
Present: Kathryn Cook, Andrew Dennington, Sam Stivers, Marguerite Landry and Al Hamilton. Also present: Town Administrator Mark Purple and Assistant Town Administrator Vanessa Hale

Those wishing to watch or participate remotely can do so by accessing the meeting link at:
https://www.southboroughtown.com/remotemeetings

I. Call Meeting to Order
Chair Kathy Cook called the meeting to order at 8:00 A.M.

II. Approve renewal of Class II Auto Dealer License: CAC Auto Group Boston, LLC, 206 Turnpike Road
Mr. Dennington made a motion to approve the renewal of the Class II Auto Dealer License for CAC Auto Group Boston, LLC at 206 Turnpike Road. Ms. Landry seconded. The motion passed unanimously (5-0-0) by roll call vote: Landry, aye; Stivers, aye; Hamilton, aye; Dennington, aye; Cook, aye. Mr. Purple confirmed that the Board will need to sign the license this week.

At 8:02 A.M. Ms. Cook made a motion that the Board enter into Executive Session pursuant to Open Meeting Law (Chapter 30A Section 21 (a)(1)) and not return to open session- To discuss the reputation, character, physical condition or mental health, rather than professional competence, of an individual, or to discuss the discipline or dismissal of, or complaints or charges brought against, a public officer, employee, staff member or individual. Mr. Dennington seconded the motion. The motion passed unanimously (5-0-0) by roll call vote: Landry, aye; Stivers, aye; Hamilton, aye; Dennington, aye; Cook, aye. Mr. Purple confirmed that the Board will need to sign the license this week.
